EXTRA

SUBORDINATE ENRICHMENT — ONLY AFTER THE COMPLETE CORE

OPTIONAL ADVANCED ENRICHMENT · SEPARATE THE LEVEL OF HUMAN ACHIEVEMENT FROM ITS DISTRIBUTION · HDI REPORTS THE FORMER · MPI CAN REVEAL DEPRIVATIONS HIDDEN BY CONSUMPTION POVERTY AND · INCLUSIVE GROWTH HAS PROCESS, OUTCOME AND OPPORTUNITY DIMENSIONS; REDISTRIBUTION · CAPABILITY EXPANSION DEPENDS ON SERVICE QUALITY, NOT MERELY BUDGET · DEMOGRAPHIC TRANSITION CHANGES THE POLICY MIX FROM BASIC ACCESS · A DASHBOARD SHOULD COMBINE OUTPUT, JOBS, DISTRIBUTION, CAPABILITIES, RESILIENCE

OPTIONAL SOURCE DEPTH

- CAUTION: Separate the level of human achievement from its distribution: HDI reports the former,
- CAUTION: MPI can reveal deprivations hidden by consumption poverty and permits dimension-wise
- CAUTION: Inclusive growth has process, outcome and opportunity dimensions; redistribution alone
- CAUTION: Capability expansion depends on service quality, not merely budget allocations or

ADVANCED DEBATE

- CAUTION: Demographic transition changes the policy mix from basic access towards learning,
- CAUTION: A dashboard should combine output, jobs, distribution, capabilities, resilience and
- UNDP: publishes HDI, IHDI and global MPI methodology and reports.
- NITI Aayog: tracks India's national MPI and supports state-level development

LEGACY / NUANCE

- MoSPI: supplies national accounts and social statistics needed to read growth beside
- Union, state and local governments: deliver the health, education, nutrition, water
- CAUTION: Two states with similar per-capita income can differ sharply in life expectancy,
- CAUTION: School enrolment can improve HDI-related access while weak learning outcomes limit

OPTIONAL STATUS — This optional depth is unnecessary for a competent core answer; use it only for added nuance after the complete core has been written.
