Polity 28 - UPSC and SPSC - Complete Topic Package

Control date: 5 September 2026, Asia/Kolkata **Tags:** [FACT] directly supported by a named constitutional, statutory, judicial, official or audited local source; [ANALYSIS] reasoned exam use; [CURRENT] date-sensitive legal or institutional control; [LIMIT] boundary or qualification preventing overstatement. **Answer discipline:** claim -> named evidence -> analysis -> qualification. **Scope:** constitutional rationale and evolution; Articles 315-323 article by article; UPSC, SPSC and Joint State Public Service Commission; composition, appointment, tenure, removal and post-office restrictions; examinations and consultation; recruitment boundaries; independence and accountability; judicial review; examination integrity; current controls and reforms.

Package method, source priority and current legal control

- [FACT] Local source order followed: basic/UPSC-and-SPSC.md -> advanced/28_UPSC-and-SPSC.md -> basic/Public-Services.md, basic/Administrative-Tribunals.md, basic/Statutory-Regulatory-and-Quasi-Judicial-Bodies.md, judiciary and reservation owners only where a boundary required it -> local OCR-searchable *Indian Polity* by M. Laxmikanth -> all recent routed-PYQ and integration-audit ledgers searched precisely for Public Service Commission, Article 315, Article 320, SPSC and Joint State Public Service Commission -> official constitutional, statutory, regulatory, judicial, UPSC and SPSC material.
- [FACT] Structural and validation references only: Polity 25, 26 and 27 complete packages. Their subject content has not been imported.
- [CURRENT] The official Legislative Department consolidation checked is *The Constitution of India [As on 1 May 2024]*. Articles 315-323 were controlled clause by clause against that text.
- [CURRENT] The India Code consolidation of the **Public Examinations (Prevention of Unfair Means) Act, 2024**, checked as on 21 July 2025, records commencement on **21 June 2024** and expressly lists examinations conducted by the **Union Public Service Commission** in its Schedule.
- [CURRENT] The **Public Examinations (Prevention of Unfair Means) Rules, 2024**, G.S.R. 342(E), were notified on 23 June 2024 and published on 24 June 2024. They prescribe institutional roles, computer-based-test standards, incident reporting and monitoring architecture.
- [CURRENT] G.S.R. 203(E), dated 15 March 2024, amended the Union Public Service Commission (Exemption from Consultation) Regulations, 1958 for specified Group A and Group B posts up to pay level 13A filled by named deputation/re-employment, short-term-contract, absorption or composite methods.
- [LIMIT] That 2024 amendment is **not** a general constitutional exemption called "lateral entry". Every lateral recruitment must be analysed through the post's recruitment rules, level, mode of filling, reservation law, the operative consultation regulations and the actual role assigned to the UPSC.
- [CURRENT] The official UPSC portal checked on 5 September 2026 identifies **Dr Ajay Kumar** as Chairman. This officeholder statement is date-controlled and must be rechecked before reuse.
- [CURRENT] Official UPSC and State PSC portals continue to use examination calendars/programmes, results pages, recruitment notices, contact/grievance channels, RTI disclosures and conference/newsletter mechanisms. These are transparency instruments, not substitutes for lawful selection rules or reasoned remedies.
- [LIMIT] This package does not freeze current chairperson/member names, vacancies, candidate counts, annual calendars or changing examination statistics.
- [LIMIT] No adopted constitutional "collegium" for PSC appointments was located. Proposals for broader selection committees are reform arguments, not current law.

EVIDENCE, PYQ AND CURRENT-STATUS CONTROL

- **Four independent ledgers:** literal syllabus/index, indispensable prerequisites, standard textbook taxonomy and complete routed 2018-2026 PYQ demands were built before repair.
- **Hostile search:** missing Articles, Parts, Schedules, amendments, cases, institutional mechanisms, exceptions, chronology, source status and cross-owner boundaries are hard failures.
- **Answer rule:** claim -> exact constitutional/statutory/case evidence -> institutional analysis -> exception or qualification.
- **Current-status note, rechecked 2026-09-05:** Rechecked 2026-09-05: the official UPSC Commission page, last updated 3 September 2026, identifies Dr Ajay Kumar as Chairman. The Constitution, consultation regulations, Public Examinations Act and binding recruitment judgments remain separate controls; no unsupported full roster is frozen.

SESSION 1 - WHY MERIT RECRUITMENT IS CONSTITUTIONALISED

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Why Merit Recruitment Is Constitutionalised explains the exact constitutional and institutional rules governing why merit recruitment is constitutionalised.

Technical definition: Why Merit Recruitment Is Constitutionalised operates through the exact constitutional and institutional rules governing why merit recruitment is constitutionalised, distinguishing authority, procedure, safeguards and limits.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Why Merit Recruitment Is Constitutionalised is best understood through the exact constitutional and institutional rules governing why merit recruitment is constitutionalised.

MUST-WRITE KEYWORDS

- Articles 315-323
- Public Service Commission
- merit recruitment
- merit
- recruitment
- constitutionalised

How to use them: Frame the answer through Articles 315-323; define Public Service Commission, connect merit recruitment with merit to explain the mechanism, and use recruitment for the decisive comparison or qualification.

[FACT] A modern State needs permanent officials selected through criteria that do not simply reproduce patronage, family connection, party loyalty or personal favour.

[ANALYSIS] A Public Service Commission is a **constitutional trust institution**: it separates the political executive's legitimate power to govern from the temptation to distribute public posts as political rewards.

[LIMIT] Merit is not identical to one examination score. Constitutional recruitment must reconcile competence, equal opportunity, reservation, suitability, integrity, accessibility and the requirements of each service.

Visual 2 - Democratic merit chain

EQUAL OPPORTUNITY
|
stable rules -> open notice -> fair examination/selection
|
reasoned scrutiny -> lawful recommendation -> accountable appointment
|
CAPABLE + REPRESENTATIVE + TRUSTED PUBLIC SERVICE

Caption: Merit legitimacy depends on the whole process, not merely the final rank.

- **without**
- **executive**

How to use them: Frame the answer through Articles 315-323; define Public Service Commission, connect merit recruitment with constitutional to explain the mechanism, and use rationale for the decisive comparison or qualification.

Visual 3 - Design balance

Constitutional need	PSC response	Necessary qualification
neutral recruitment	external constitutional commission	executive still creates posts and appoints
professional expertise	examinations and expert selection	courts retain legality review
equal opportunity	standardised and public procedure	reservation and accommodation remain applicable
protection from retaliation	difficult removal and charged expenses	appointment is still executive
democratic accountability	annual reports and non-acceptance memorandum	advice is generally not binding

[ANALYSIS] The Constitution chose **insulated advice**, not an unelected personnel government. The Commission must be strong enough to resist patronage but not so dominant that elected government loses responsibility for administration.

[FACT] The local OCR-searchable Laxmikanth chapter and official institutional history trace the Commission lineage through the 1919 and 1935 Acts and the first Commission in 1926.

[ANALYSIS] The constitutional innovation was not merely an examination body. It was the conversion of a colonial recruitment mechanism into a federal, equality-bound and publicly accountable institution.

[LIMIT] Competitive recruitment under colonial rule did not itself create social equality; access and representation remained restricted.

- **forms**

How to use them: Frame the answer through Article 315; define Joint State PSC, connect federal design with article to explain the mechanism, and use three for the decisive comparison or qualification.

[FACT] Article 315(1) requires a Public Service Commission for the Union and one for each State, subject to the rest of the Article.

[FACT] Article 315(2) allows two or more States to agree on one Commission. Each relevant State legislature must pass the required resolution; Parliament may then **by law provide for the appointment** of a Joint State Public Service Commission.

[ANALYSIS] A Joint Commission is constitutionally contemplated but activated through a parliamentary statute. Calling it simply "statutory" is incomplete if that suggests an extra-constitutional body; calling it automatically existing "directly under Article 315" is also incomplete.

[FACT] The UPSC may, on a request by a State's Governor and with the President's approval, agree to serve all or any of that State's needs.

[LIMIT] This is not the same as:

1. creating a Joint State PSC under Article 315(2);

SESSION 7 - UPSC, SPSC AND JOINT COMMISSION COMPARED

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: The Union Public Service Commission serves the Union, a State Public Service Commission serves a State, and a Joint State Public Service Commission serves participating States under a parliamentary law.

Technical definition: Article 315 distinguishes the UPSC, each SPSC and a Joint State Public Service Commission while assigning different creation, appointment, assistance and reporting routes.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Articles 315 to 323 create a differentiated federal commission system rather than one national recruitment authority for every public post.

MUST-WRITE KEYWORDS

- Article 315
- SPSC
- Joint State PSC
- parliamentary law
- federal recruitment

How to use them: Use Article 315 to compare UPSC, SPSC and Joint State PSC by constitutional source, appointing authority, service area and reporting route; then add the Article 315(4) and Article 320(2) assistance mechanisms.

Visual 8 - Institutional comparison matrix

[LIMIT] For Article 322, the text expressly names Union and State Commissions. A Joint Commission's financial arrangements should be stated from its creating law rather than guessed.

v

UPSC TRAP / ANSWER-USE: Do not treat a UPSC recommendation as an appointment order, equate UPSC with DoPT or describe CAT as a recruitment body.

- relationship

How to use them: Frame the answer through Articles 315-323; define Public Service Commission, connect merit recruitment with lateral to explain the mechanism, and use recruitment for the decisive comparison or qualification.

[FACT] Lateral recruitment is a mode of filling identified posts; it is not a constitutional amendment and does not displace Articles 14, 16, 309 or the applicable reservation and recruitment rules.

[CURRENT] The 15 March 2024 amendment to the UPSC Exemption from Consultation Regulations exempts specified Group A and Group B posts up to pay level 13A when filled through the named deputation/re-employment, short-term-contract, absorption or composite modes.

[LIMIT] The instrument:

- does not say every lateral post is exempt;
- does not decide the rule for posts above its specified coverage;
- does not itself resolve reservation design;
- does not prohibit government from engaging UPSC where the operative framework provides; and
- does not make a contract appointment constitutionally immune from equality review.

Visual 46 - Threat-control matrix

Challenge	Institutional risk	Calibrated control
paper leak	equal opportunity destroyed	segmented custody, access logs, criminal enforcement
impersonation	false identity	proportionate identity/biometric controls + exception handling
cyber compromise	question/result manipulation	hardened systems, audit trails, independent testing
opaque scaling/moderation	distrust and litigation	pre-declared method and reviewable records
long calendar delays	candidate cost and vacancies	realistic calendar and reasoned updates
result opacity	suspicion and grievance load	marks/cut-off/result disclosure as law permits
weak grievance handling	avoidable litigation	trackable, time-bound, reasoned response
SPSC political capture	patronage and legitimacy loss	transparent appointment criteria, conflict checks, audit

[LIMIT] Security controls must protect privacy, disability accommodation and natural justice; "maximum secrecy" alone is not good governance.

POLITY HOSTILE SEMANTIC-REVIEW CORE CONTROL

- **Must remember:** Audit Articles 315-323 actor by actor across UPSC, SPSC and a Joint State PSC; constitutional existence does not mean constitutionally fixed strength.
- **Close distinction:** Only the President removes any PSC member, but pending an Article 317 reference the President suspends UPSC/Joint PSC members and the Governor suspends an SPSC member.
- **Legal/source limit:** The official UPSC page identifies Dr Ajay Kumar as Chairman. Article 320 consultation remains directory under Manbodhan Lal, while valid exemption regulations and Article 323 reporting preserve accountability.

Semantic-completeness ownership and PYQ control

- **Constitutional map:** Articles 315-323 separately govern establishment, appointment/tenure, removal/suspension, service conditions, post-office bars, functions, extension of functions, charged expenditure and annual reporting for the UPSC, SPSCs and Joint State Public Service Commissions.
- **Composition:** the Constitution fixes no numerical strength. The President appoints UPSC and Joint Commission members and determines their number/service conditions under Article 318; the Governor performs the corresponding SPSC functions. As nearly as may be, one-half of members must have held government office for at least ten years.
- **Current UPSC control:** the official UPSC Commission page, last updated 3 September 2026 and rechecked 5 September 2026, identifies Dr Ajay Kumar as Chairman. The package does not freeze an unsupported full roster or a constitutionally fixed member count.
- **Tenure and acting chair:** Article 316 gives six years subject to age sixty-five for UPSC and sixty-two for SPSC/Joint Commission members. The President or Governor, as applicable, may appoint a member as acting chair.
- **Removal/suspension precision:** only the President removes any PSC member. Misbehaviour requires a presidential reference, Supreme Court inquiry and recommendation under Article 317(1). Pending inquiry, the President may suspend a UPSC or Joint Commission member, while the Governor may suspend an SPSC member. Article 317(3)-(4) contains the separate objective/deemed grounds.
- **Post-office and finance:** Article 319's eligibility bars are office-specific and do not mean one blanket ban. Article 322 charges UPSC/Joint Commission expenses on the Consolidated Fund of India and SPSC expenses on the Consolidated Fund of the State.
- **Functions and exclusions:** Article 320 covers examinations, recruitment methods, appointments/promotions/transfers and disciplinary/claim advice. Article 320(4) excludes consultation on Article 16(4) and Article 335 matters; the proviso to Article 320(3) authorises valid exemption regulations.
- **Judicial rule:** State of U.P. v State of U.P. v. Manbodhan Lal Srivastava (1957) holds Article 320(3)(c) consultation directory: non-consultation does not by itself invalidate action or confer a cause of action. Advice remains institutionally important and Article 323 requires reports plus reasons for non-acceptance.
- **Recruitment rule:** selection/recommendation does not itself create an indefeasible right to appointment. Tej Prakash Pathak (2024) INSC 847 supplies the current Constitution-Bench control against arbitrary mid-process changes to recruitment rules, subject to the governing rules and non-arbitrariness.
- **Institution firewall:** UPSC/SPSC recruitment and advice are distinct from DoPT cadre administration, the Public Examinations Act integrity framework, tribunals, Election Commissions and Finance Commissions. A Joint State PSC follows State resolutions and parliamentary law; it is not a permanent third constitutionally mandated tier.

PYQS AND ANSWER PRACTICE

Audited PYQ coverage control

[FACT] This H2 deliberately begins the practice material so that `markdown_learning_pdf.py --mode workbook` extracts the complete solved workbook and stops before the final consolidated register notes.

[FACT] The recent local routing ledgers and integration audits for **2018-2023, 2024-2025 and 2026** were searched precisely for Public Service Commission, Article 315, Article 320, SPSC and Joint State Public Service Commission.

[LIMIT] **No direct standalone UPSC Prelims or GS-II Mains PYQ on the UPSC/SPSC constitutional architecture was verified in those routed ledgers.** Therefore, this package does not manufacture an official question, year, wording or key.

[LIMIT] Adjacent verified questions on civil-service reform, ethos of civil services, administrative tribunals, district-judge recruitment and bank-chair selection remain with their audited Governance, Public Services, Judiciary, Tribunal or Economy owners. They are not relabelled as PSC PYQs merely because recruitment is an adjacent concept.

M1. Article 317 does not provide one uniform removal process for every allegation against a Public Service Commission member. Explain. (10 marks, 150 words)

Model solution

Thesis: [FACT] Article 317 centralises final removal in the President but differentiates misbehaviour from three direct constitutional grounds; [ANALYSIS] that distinction combines tenure security with workable incapacity and conflict controls.

Misbehaviour: [FACT] Under clause (1), the President refers the allegation to the Supreme Court, which conducts an inquiry under the Article 145 procedure and reports whether the member ought to be removed. [FACT] Clause (4) deems prohibited interest in a government contract to be misbehaviour.

Direct grounds: [FACT] Clause (3) allows Presidential removal for adjudged insolvency, paid employment outside office, or unfitness due to infirmity of mind or body without using the separate clause (1) inquiry route.

Suspension: [FACT] Once reference is made, the President may suspend a UPSC/Joint Commission member, while the Governor may suspend an SPSC member, until the President acts on the Court's report.

Qualification: [LIMIT] The Governor never finally removes an SPSC member, and Parliament's judicial-address procedure is inapplicable.

Verdict: Article 317 protects against retaliatory removal without making the office incapable of responding to objective disqualification or incapacity.

Outstanding-answer test: It names all four clauses, distinguishes removal from suspension and avoids importing "impeachment".

How to improve / compress: Use a three-branch diagram-misbehaviour inquiry, direct clause (3) grounds and suspension-and name the different SPSC suspending authority; omit general independence discussion in a 10-marker.

Demand decoding: The directive **explain** requires a direct position on "M1. Article 317 does not provide one uniform removal process for every allegation against a...", all clauses, a sociological mechanism, historical trajectory, intersectional and regional variation, named Indian evidence, constitutional/institutional boundaries and a qualified conclusion.

Detailed examiner-grade model answer:

Introduction and thesis: The answer must resolve the sociological demand in "M1. Article 317 does not provide one uniform removal process for every allegation against a Public Service Commission member. Explain. (10 marks, 150...)".

Analytical body:

1. **Claim and named evidence:** M1. Article 317 does not provide one uniform removal process for every allegation against a Public Service Commission member. Explain. (10 marks, 150 words) **Analysis:** Connect structure or institution -> norm/incentive/power/agency mechanism -> differentiated social outcome -> feedback or policy implication. **Qualification:** State internal group variation, regional/historical scope, correlation-versus-causation or legal-norm-versus-lived-outcome boundary.
2. **Claim and named evidence:** Direct grounds: [FACT] Clause (3) allows Presidential removal for adjudged insolvency, paid employment outside office, or unfitness due to infirmity of mind or body without using the separate clause (1) inquiry route. **Analysis:** Connect structure or institution -> norm/incentive/power/agency mechanism -> differentiated social outcome -> feedback or policy implication. **Qualification:** State internal group variation, regional/historical scope, correlation-versus-causation or legal-norm-versus-lived-outcome boundary.
3. **Claim and named evidence:** Suspension: [FACT] Once reference is made, the President may suspend a UPSC/Joint Commission member, while the Governor may suspend an SPSC member, until the President acts on the Court's report. **Analysis:** Connect structure or institution -> norm/incentive/power/agency mechanism -> differentiated social outcome -> feedback or policy implication. **Qualification:** State internal group variation, regional/historical scope, correlation-versus-causation or legal-norm-versus-lived-outcome boundary.
4. **Claim and named evidence:** Qualification: [LIMIT] The Governor never finally removes an SPSC member, and Parliament's judicial-address procedure is inapplicable. **Analysis:** Connect structure or institution -> norm/incentive/power/agency mechanism -> differentiated social outcome -> feedback or policy implication. **Qualification:** State internal group variation, regional/historical scope, correlation-versus-causation or legal-norm-versus-lived-outcome boundary.

Counter-position / limit: Neither a constitutional provision, one scheme, aggregate correlation nor a single community example establishes uniform implementation, causation or national experience; test institutions, power, agency, intersectionality, region, period and evidence status.

Qualified conclusion: The answer must resolve the sociological demand in "M1. Article 317 does not provide one uniform removal process for every allegation against a Public Service Commission member. Explain. (10 marks, 150...)".

Executable exam-length answer / compression plan: For a 10-mark answer, spend about one-sixth of the time decoding the directive and drawing the mechanism; define and state a thesis; organise three points as claim -> named evidence -> analysis -> qualification; compress examples before mechanisms and reserve the final minute for causation, group variation and legal-outcome limits.

Why this earns marks: The answer obeys the directive, explains rather than lists, integrates India-centric evidence and avoids homogenisation, legalism and causal overclaim.

How to improve this answer: For "M1. Article 317 does not provide one uniform removal process for every allegation against a...", replace the weakest generalisation with one named community, region, institution, movement or source-dated dataset and state what that evidence cannot establish.

**M2. Public Service Commission advice is non-binding, yet constitutionally consequential.
Comment. (10 marks, 150 words)**

Model solution

Thesis: [FACT] Article 320 creates a constitutional consultation voice rather than a veto; [ANALYSIS] its consequence arises from expertise, convention and public accountability.

Scope: [FACT] Consultation covers recruitment methods, appointment/promotion/transfer principles and suitability, disciplinary matters, official-duty legal-cost claims and injury pensions. This gives the Commission structured access before important personnel decisions.

Legal limit: [FACT] *State of U.P. v. Manbodhan Lal Srivastava (1957)* held Article 320(3) directory, so non-consultation does not automatically invalidate executive action. Valid regulations may also specify consultation exceptions.

Accountability: [FACT] Article 323 requires annual reports and memoranda explaining cases and reasons where advice was not accepted. [ANALYSIS] Rejection thus becomes capable of legislative and public scrutiny.

Qualification: [LIMIT] Directory does not mean dispensable at will; arbitrariness, mala fides and rule violations remain reviewable.

Verdict: The Commission influences by reason and disclosure, not command-a soft legal power strengthened by hard reporting duties.

Outstanding-answer test: It links Articles 320 and 323 and states *Manbodhan Lal* without saying advice is meaningless.

How to improve / compress: Define directory consultation through *Manbodhan Lal*, then connect Article 323 reporting to accountability; compress the exceptions list to one constitutional and one regulatory example.

Demand decoding: The directive **comment** requires a direct position on "M2. Public Service Commission advice is non-binding, yet constitutionally consequential....", all clauses, a sociological mechanism, historical trajectory, intersectional and regional variation, named Indian evidence, constitutional/institutional boundaries and a qualified conclusion.

M3. A Joint State Public Service Commission is neither purely statutory nor automatically created by the Constitution. Clarify. (10 marks, 150 words)

Model solution

Thesis: [FACT] Article 315(2) supplies the constitutional design, while a parliamentary law after State legislative resolutions supplies the operational creating instrument.

Constitutional foundation: Two or more States may agree to a common Commission. Each relevant House-or each House in a bicameral State-must pass the resolution contemplated by Article 315(2).

Statutory activation: Parliament may then by law provide for appointment and incidental/consequential matters. [FACT] The President appoints its Chair/members under Article 316, regulates it under Article 318 and may suspend its member after an Article 317 reference.

Distinctions: [FACT] It differs from UPSC serving a State under Article 315(4) and from UPSC assistance for a joint recruitment scheme under Article 320(2).

Qualification: [LIMIT] Calling it merely "statutory" can hide its constitutional status; calling it self-executing ignores the required law.

Verdict: It is best described as a constitutionally authorised common Commission instantiated by parliamentary statute through State consent.

Outstanding-answer test: It separates source, trigger, law, appointing authority and two neighbouring devices.

How to improve / compress: State the constitutional enabling route and statutory creation route separately; finish with appointment, term, finance and reporting in one compact comparison.

Demand decoding: The directive **answer** requires a direct position on "M3. M4. Examine the constitutional safeguards and practical limits of UPSC/SPSC independence. (15 marks, 250 words)

Model solution

Thesis: [ANALYSIS] PSC independence is strongest at removal and finance but incomplete across the institutional lifecycle; appointment quality, staff, technology and compliance conventions determine whether constitutional insulation becomes practical autonomy.

Constitutional safeguards

1. [FACT] Article 315 creates the Commissions directly and prevents ordinary executive abolition of their core.

2. [FACT] Article 316 fixes six-year/age-limited tenure, reducing pleasure-based insecurity.
3. [FACT] Article 317 reserves final removal to the President and subjects misbehaviour to Supreme Court inquiry.
4. [FACT] Article 318 bars disadvantageous variation of member service conditions.
5. [FACT] Article 319 narrows post-office government employment, reducing favour-seeking.
6. [FACT] Article 322 charges UPSC/SPSC expenditure on the relevant Consolidated Fund.
7. [FACT] Article 323 requires reporting and reasons for rejected advice.

Practical limits

- [FACT] President/Governor appoint members without an adopted constitutional collegium.
- [FACT] Article 320 advice is generally non-binding after *Manbodhan Lal*.
- [ANALYSIS] Executive control over staff, technology procurement and timely vacancies can weaken an otherwise protected body.
- [ANALYSIS] SPSC quality may vary with local political networks, secretariat capacity and examination-security systems.

Counterpoint: [ANALYSIS] Binding advice on every matter could transfer democratic personnel responsibility to an unelected commission.

Reforms: publish appointment criteria and conflicts, fill vacancies predictably, strengthen rule-based staff and cyber capacity, improve speaking grievance decisions, and ensure legislative committees examine Article 323 memoranda.

Qualification: [LIMIT] No speculative collegium should be presented as current law.

Verdict: The Constitution protects the Commission from dismissal; governance reform must protect it from dependence, delay and distrust.

Outstanding-answer test: It uses at least five exact Articles, presents both institutional case and democratic limit, and offers implementable reforms.

How to improve / compress: Compare UPSC, SPSC and Joint Commission on identical axes-creation, appointment, age, removal, finance and report-to prevent federal-design omissions.

Demand decoding: The directive **examine** requires a direct position on "M4. Examine the constitutional safeguards and practical limits of UPSC/SPSC independence. (15...", all clauses, a sociological mechanism, historical trajectory, intersectional and regional variation, named Indian evidence, constitutional/institutional boundaries and a qualified conclusion.

Detailed examiner-grade model answer:

Introduction and thesis: The answer must resolve the sociological demand in "M4. Examine the constitutional safeguards and practical limits of UPSC/SPSC independence. (15 marks, 250 words)".

Analytical body:

1. **Claim and named evidence:** M4. Examine the constitutional safeguards and practical limits of UPSC/SPSC independence. (15 marks, 250 words) **Analysis:** Connect structure or institution -> norm/incentive/power/agency mechanism -> differentiated social outcome -> feedback or policy implication. **Qualification:** State internal group variation, regional/historical scope, correlation-versus-causation or legal-norm-versus-lived-outcome boundary.
2. **Claim and named evidence:** [FACT] Article 315 creates the Commissions directly and prevents ordinary executive abolition of their core. **Analysis:** Connect structure or institution -> norm/incentive/power/agency mechanism -> differentiated social outcome -> feedback or policy implication. **Qualification:** State internal group variation, regional/historical scope, correlation-versus-causation or legal-norm-versus-lived-outcome boundary.
3. **Claim and named evidence:** [FACT] Article 316 fixes six-year/age-limited tenure, reducing pleasure-based insecurity. **Analysis:** Connect structure or institution -> norm/incentive/power/agency mechanism -> differentiated social outcome -> feedback or policy implication. **Qualification:** State internal group variation, regional/historical scope, correlation-versus-causation or legal-norm-versus-lived-outcome boundary.
4. **Claim and named evidence:** [FACT] Article 317 reserves final removal to the President and subjects misbehaviour to Supreme Court inquiry. **Analysis:** Connect structure or institution -> norm/incentive/power/agency mechanism -> differentiated social outcome -> feedback or policy implication.

Qualification: State internal group variation, regional/historical scope, correlation-versus-causation or legal-norm-versus-lived-outcome boundary.

5. **Claim and named evidence:** [FACT] Article 318 bars disadvantageous variation of member service conditions.

Analysis: Connect structure or institution -> norm/incentive/power/agency mechanism -> differentiated social outcome -> feedback or policy implication. **Qualification:** State internal group variation, regional/historical scope, correlation-versus-causation or legal-norm-versus-lived-outcome boundary.

Counter-position / limit: Neither a constitutional provision, one scheme, aggregate correlation nor a single community example establishes uniform implementation, causation or national experience; test institutions, power, agency, intersectionality, region, period and evidence status.

Qualified conclusion: The answer must resolve the sociological demand in "M4. Examine the constitutional safeguards and practical limits of UPSC/SPSC independence. (15 marks, 250 words)".

Executable exam-length answer / compression plan: For a 15-mark answer, spend about one-sixth of the time decoding the directive and drawing the mechanism; define and state a thesis; organise five points as claim -> named evidence -> analysis -> qualification; compress examples before mechanisms and reserve the final minute for causation, group variation and legal-outcome limits.

Why this earns marks: The answer obeys the directive, explains rather than lists, integrates India-centric evidence and avoids homogenisation, legalism and causal overclaim.

How to improve this answer: For "M4. Examine the constitutional safeguards and practical limits of UPSC/SPSC independence. (15...) ", replace the weakest generalisation with one named community, region, institution, movement or source-dated dataset and state what that evidence cannot establish.

M5. Courts review Public Service Commission selections, but they do not sit as appellate selection boards. Analyse. (15 marks, 250 words)

Model solution

Thesis: [FACT] Judicial review protects Articles 14 and 16, statutory rules and procedural fairness; [ANALYSIS] judicial restraint simultaneously protects expert comparative assessment.

Reviewable defects

- [FACT] *Ashok Kumar Yadav (1985)* demonstrates that PSC selection remains reviewable for bias and arbitrary interview design.
- [FACT] *K. Manjusree (2008)* invalidated a minimum interview benchmark introduced after the process.
- [CURRENT] *Tej Prakash Pathak (2024)* INSC 847, Constitution Bench, reaffirms stability of eligibility/selection rules unless the governing framework permits a lawful, non-arbitrary change.
- [FACT] Mala fides, unequal treatment, ineligible decision-makers and serious statutory-rule violations remain review grounds.

Restraint

[FACT] *M.V. Thimmaiah (2007)* states that courts ordinarily do not act as appellate authorities over expert recommendations; review is exceptional for mala fides or serious rule breach.

Appointment boundary

[FACT] *Shankarsan Dash (1991)* denies an indefeasible appointment right merely from select-list inclusion. Yet government cannot arbitrarily refuse appointment or selectively apply its decision.

Institutional reason: [ANALYSIS] Judges are equipped to decide legality, not to reconstruct specialist scoring, interviews and service suitability.

Qualification: [LIMIT] "Expert opinion" cannot shield conflict of interest, undisclosed criteria or discrimination.

Verdict: The correct line is **merit deference with legality control**: courts do not choose candidates, but they ensure the State chooses by known, equal and lawful rules.

Outstanding-answer test: It gives four named cases with propositions and distinguishes selection, recommendation and appointment.

How to improve / compress: Build the answer around removal, service-condition protection, charged expenditure and Article 319; add one residual weakness rather than listing generic reform slogans.

Demand decoding: The directive **analyse** requires a direct position on "M5. M6. Examination integrity requires more than criminal punishment. Discuss with reference to the Public Examinations framework and PSC governance. (15 marks, 250 words)

Model solution

Thesis: [CURRENT] The Public Examinations Act and Rules, 2024 add a strong anti-unfair-means framework; [ANALYSIS] deterrence succeeds only when joined to prevention, detection, transparent remedy and institutional capacity.

Legal layer

[FACT] The Act's Schedule expressly covers UPSC examinations. Section 3 includes leakage, unauthorised access/assistance, answer-sheet and assessment tampering, security/network manipulation, fake sites, fake exams and fake offer letters. Offences are cognizable, non-bailable and non-compoundable; service-provider and organised-crime liability addresses systemic wrongdoing.

Preventive layer

[CURRENT] Rule 5 contemplates CBT standards for centres, nodes, servers, networks, platforms, readiness audits, biometrics, security, question loading, invigilation and post-exam checks. Rule 9 requires implementation monitoring.

Governance layer

- segment question access and retain audit logs;
- independently test high-risk digital systems and vendors;
- publish stable criteria, calendars and prompt reasons for delay;
- provide accessible grievance and answer-key/result representation channels;
- prepare continuity/re-examination protocols that protect innocent candidates.

Qualification: [LIMIT] Maximum secrecy can conceal weak governance; maximum disclosure can reveal attack surfaces. Privacy, disability accommodation and natural justice must remain intact.

Verdict: Criminal law punishes the breach; trustworthy PSC design prevents it, detects it early and gives candidates a lawful remedy.

Outstanding-answer test: It names the Act's UPSC Schedule, verified Rules and a full prevent-detect-report-remedy cycle.

How to improve / compress: Separate examination duty, consultation catalogue and lawful exemptions; conclude that executive responsibility survives but rejection must face reporting scrutiny.

Demand decoding: The directive **discuss** requires a direct position on "M6. Examination integrity requires more than criminal punishment. M7. "The SPSC is State-rooted but Union-insulated." Evaluate this federal design and suggest reforms. (20 marks, 300 words)

Model solution

Thesis: [FACT] The Governor appoints SPSC members and receives their annual report, while the President alone removes them; [ANALYSIS] this asymmetry combines State recruitment ownership with protection from immediate State executive retaliation.

State-rooted elements

1. [FACT] Article 315 provides an SPSC for each State.
2. [FACT] The Governor appoints the Chair and members under Article 316.
3. [FACT] The Governor determines membership/staff conditions by regulations under Article 318.
4. [FACT] The SPSC recruits for State services and reports to the Governor under Article 323.
5. [FACT] The State legislature receives the report and non-acceptance memorandum.

Union-insulated elements

1. [FACT] Only the President removes an SPSC member under Article 317.
2. [FACT] Misbehaviour requires Supreme Court inquiry.
3. [FACT] The State government cannot use removal simply because advice is inconvenient.
4. [FACT] The constitutional age/tenure, service-condition and post-office rules limit local executive control.

Federal flexibility

[FACT] States may seek a Joint Commission through resolutions and parliamentary law, use UPSC assistance under Article 315(4), or request joint-scheme help under Article 320(2).

Problems

[ANALYSIS] Executive appointment dominance, vacancies, local conflicts, weak vendor/security capacity, shifting criteria and poor grievance systems can defeat formal insulation. Presidential removal is a last-resort safeguard, not daily quality assurance.

Reforms

- publish qualification, integrity and conflict criteria for appointments;
- create predictable appointment/vacancy calendars;
- professionalise permanent secretariats and digital-security cells;
- adopt national-conference standards while preserving State adaptation;
- publish reasons, marks/cut-offs and grievance outcomes within law;
- strengthen legislative committee scrutiny of Article 323 reports.

Qualification: [LIMIT] A Union-controlled appointment system would over-correct the State problem and weaken federal ownership; no adopted collegium should be assumed.

Verdict: The design wisely separates State connection from State removal control. Its unfinished task is to add transparent appointment and operational capacity to constitutional tenure security.

Outstanding-answer test: It evaluates both federal poles, uses Articles 315-323 and rejects both centralisation and local capture.

How to improve / compress: Use bias, stable criteria, no automatic appointment right and limited merits review as four case-law rules; attach each case only to its precise proposition.

Demand decoding: The directive **evaluate** requires a direct position on "M7. "The SPSC is State-rooted but Union-insulated." M8. Critically examine whether lateral recruitment is inconsistent with the constitutional role of the UPSC and the equality code in public employment. (20 marks, 300 words)

Model solution

Thesis: [FACT] Lateral recruitment is not per se unconstitutional and UPSC has no monopoly over every post; [ANALYSIS] legality depends on post-specific recruitment rules, consultation requirements, Articles 14 and 16, reservation, transparent criteria and non-arbitrary selection.

Why it may be legitimate

- [FACT] Article 309 permits recruitment and service conditions to be regulated by law/rules.
- [FACT] Article 320 envisages examinations and consultation but also constitutionally permits exemption regulations.
- [ANALYSIS] Specialist, time-bound or scarce-skill posts may justify direct selection, deputation or contract where rules authorise it.
- [ANALYSIS] An independent expert/UPSC role can strengthen credibility even when a competitive generalist examination is unsuitable.

Constitutional concerns

- bypassing a valid consultation requirement;
- vague or tailored eligibility criteria;
- changing benchmarks after applications;
- inadequate advertisement and conflict disclosure;
- arbitrary shortlisting/interview;
- evasion rather than lawful application of reservation/equal-opportunity rules;
- repeated temporary hiring that replaces rule-bound career structures.

Current regulatory nuance

[CURRENT] G.S.R. 203(E), 15 March 2024, exempts specified Group A/B posts up to level 13A filled through named deputation/re-employment, short-term-contract, absorption or composite modes. [LIMIT] It is not a blanket "lateral entry exemption"; higher/different posts require their own legal analysis.

Judicial control

[FACT] *K. Manjusree (2008)* and *Tej Prakash Pathak (2024)* require stable criteria; *M.V. Thimmaiah (2007)* supports merit deference subject to legality; *Shankarsan Dash (1991)* denies an automatic appointment right but not equality review.

Reform design

Publish a post-wise skills gap, recruitment rule and reservation position; use wide notice; pre-declare scoring and conflicts; include independent expertise; record reasons; cap tenure with evaluation; publish aggregate outcomes; preserve review.

Qualification: [LIMIT] Neither "all expertise lies outside government" nor "only career examination creates merit" is defensible.

Verdict: Lateral recruitment can supplement the constitutional merit system only when it is more transparent and rule-bound than patronage-not a label used to escape it.

Outstanding-answer test: It avoids a yes/no slogan, cites Articles 309/320, the exact 2024 regulation, reservation, four cases and a workable design.

How to improve / compress: Give actor-specific reforms for Union Commission, State Commissions and examination providers; keep current officeholders/statistics out unless date-controlled.

Demand decoding: The directive **critically examine** requires a direct position on "M8. Critically examine whether lateral recruitment is inconsistent with the constitutional...", all clauses, a sociological mechanism, historical trajectory, intersectional and regional variation, named Indian evidence, constitutional/institutional boundaries and a qualified conclusion.

OPTIONAL ADVANCED DEPTH - NOT REQUIRED FOR A CORE ANSWER

UPSC & State Public Service Commissions (Articles 315-323) - ADVANCED / COMPLETE

Subject: Polity · **Tier:** Advanced (exam depth) · **GS Paper:** GS-II **Grounded in:** Indian Polity by M. Laxmikant, Ch. 43-44 (direct check of the local Sixth Revised Edition PDF). **FACT:** = from source book · **ANALYSIS:** = inference / case law · **CURRENT:** = current affairs. *Companion:* basic/UPSC-and-SPSC.md.

PART A - UPSC (Art 315-323, Part XIV) □

FACT: The **central recruiting agency** - an **independent constitutional body** (directly created by the Constitution). Governs composition, appointment, removal, independence, powers & functions of the UPSC and SPSCs.

Composition

Point	Detail
FACT: Members	Chairman + members appointed by the President ; strength not fixed (usually 9-11)
FACT: Qualification	None specified - but ½ the members must have held office >= 10 years under the Centre/a state
FACT: Term	6 years or 65 years , whichever earlier
FACT: Acting chairman	President may appoint a member as acting chairman (15th Amdt 1963)

Removal (Art 317) □

FACT: President removes the chairman/member if: **(a) adjudged insolvent, (b) engages in paid employment outside office, (c) unfit due to infirmity of mind/body**. For **misbehaviour**, the President **refers the matter to the Supreme Court** - the SC's advice (after enquiry) is **binding**. (President may **suspend** during the enquiry.)

Independence

- **FACT: Security of tenure** (removed only in the constitutional manner).
- **FACT:** Service conditions **can't be varied to disadvantage** after appointment.
- **FACT:** Expenses (salaries/pensions) **charged on the Consolidated Fund of India** (not voted).
- **FACT: UPSC Chairman:** no further employment under Union/State.
- **FACT: SPSC Chairman:** may become UPSC Chairman/member or Chairman of another SPSC.
- **FACT: UPSC member:** may become UPSC Chairman or an SPSC Chairman.
- **FACT: SPSC member:** may become UPSC Chairman/member or Chairman of the same/another SPSC.
- **FACT: No re-appointment** to the same office (no second term).
- **ANALYSIS: A.R. Kidwai case (1979):** an ex-UPSC chairman appointed **Governor** was upheld - Governor is a **constitutional office**, not "employment under government."

Functions

FACT: Conducts exams for **All-India / Central services & UT services**; advises on **recruitment methods, appointments, promotions, transfers, disciplinary matters, legal-expense/pension claims**. Presents an **annual report** to the President -> laid before Parliament with a memo explaining rejected advice.

- ANALYSIS: **Advisory & directory, NOT mandatory**: the SC held that failure to consult the UPSC does **not invalidate**

a government decision, and UPSC selection confers **no right to the post**.

Limitations (UPSC NOT consulted on) FACT:

Reservations for backward classes; SC/ST claims; selections for **tribunal/commission chairmanships, top diplomatic posts, bulk of Group C & D**; temporary appointments ≤ 1 year. The President may exclude posts by **regulations laid before Parliament for 14 days**.

Role

FACT: **"Watch-dog of the merit system"** - but only a **recruiting agency**. Cadre management, pay, training -> **Department of Personnel & Training (DoPT)**, the central *personnel* agency. ANALYSIS: On disciplinary matters it has an **edge over the CVC** (UPSC is constitutional; CVC statutory since 2003).

PART B - STATE PSC (SPSC) □

Point	UPSC	SPSC
FACT: Created by	Constitution	Constitution
FACT: Appointed by	President	Governor
FACT: Removed by	President	President (NOT the Governor!)
FACT: Member's onward eligibility	UPSC chairman / SPSC chairman	UPSC member/chairman, or chairman of the same or another SPSC
FACT: ½-members-10-yr rule	Yes	Yes
FACT: Term	6 yr / 65 yr	6 yr / 62 yr

□ **Key trap**: An SPSC member/chairman is **appointed by the Governor but removed only by the President** - a state functionary removable only by the Union.

PART C - JOINT SPSC (JSPSC) □

FACT: For **two or more states**. Unlike UPSC/SPSC (constitutional), a **JSPSC is created by an Act of Parliament** (on the request of the state legislatures). Its **chairman & members are appointed by the President** and removed by the President. Term: 6 yr / 62 yr.

- FACT: **UPSC can also serve a state's needs** - on the **Governor's request** with the **President's approval**.

UPSC Traps

- WRONG: SPSC members are removed by the Governor -> removed **only by the President**.
- WRONG: UPSC advice is binding on the government -> **advisory/directory**, not binding.
- WRONG: UPSC handles pay, cadre & training -> that's the **DoPT**; UPSC only **recruits**.
- WRONG: A UPSC member can take any government job after his term -> only **UPSC/SPSC chairmanship**.
- WRONG: JSPSC is a constitutional body -> created by an **Act of Parliament** (statutory).
- WRONG: UPSC is consulted on reservations/SC-ST claims -> these are **outside** its purview.
- WRONG: SPSC retirement age is 65 -> **62** for SPSC (65 for UPSC).

CURRENT: CA hooks

- CURRENT: ANALYSIS: **UPSC/CSE reform debate** - attempts limit/age relaxation demands; the **"UDAAN"/one-nation-one-exam**

and lateral-entry-into-bureaucracy controversy.

- CURRENT: ANALYSIS: **Puja Khedkar fake-disability/OBC-certificate case (2024)** -> UPSC integrity, candidate verification, and

the "watch-dog of merit" role in focus.

- CURRENT: ANALYSIS: Vacancies & delays in several **State PSCs**; demand for greater autonomy and transparency.

Mains angles

- "The UPSC is only as strong as the merit system it guards." Examine its role and limitations.
- SPSC members appointed by the Governor but removable only by the President - assess this federal design.
- Lateral entry vs UPSC recruitment: does it dilute or strengthen the merit system?

CONSOLIDATED REGISTER NOTES

Constitutional purpose and institutional lineage

- [FACT] Public Service Commissions convert recruitment from executive patronage toward rule-based, equal and expert selection.
- [FACT] Institutional lineage: competitive turn after 1853 -> 1919 Act provision -> Lee Commission -> first PSC in 1926 -> Federal/Provincial/Joint design under 1935 Act -> Articles 315-323 in 1950.
- [ANALYSIS] The constitutional settlement is **insulated advice plus democratic executive responsibility**, not a Commission monopoly over the personnel state.
- [LIMIT] Competitive examination is one merit tool; competence must coexist with equality, reservation, accessibility and post-specific suitability.

Lateral recruitment control

- [FACT] Analyse through Articles 14, 16 and 309; recruitment rule; post/level; mode; reservation; consultation regulation; procedure and reasons.

2024 exam law	expressly covers UPSC

Mains verdict bank

- **Independence:** The Constitution secures the Commission against easy removal; reform must secure it against weak appointments, capacity dependence and distrust.
- **Advisory role:** Article 320 supplies reasoned expertise; Article 323 converts rejection into democratic accountability.
- **Federal design:** The SPSC is State-rooted in appointment and reporting but Union-insulated in removal.
- **Judicial review:** Courts preserve lawful merit by reviewing the rules, not by becoming the selectors.
- **Integrity:** Penalties punish a breached examination; secure systems, stable rules and remedy preserve the institution.
- **Lateral recruitment:** Specialist entry can supplement merit only when post-specific law, equality, reservation and transparency are stricter than patronage.
