

ASCII MASTER FLOW – PANEL 1/12: Parliamentary government as an accountability system

CENTRAL QUESTION

Who exercises executive power, who answers for it, and how can the House withdraw authority?

INSTITUTIONAL CHAIN

voters -> Lok Sabha / Assembly -> majority or coalition support -> PM / CM + Council

-> policy and administration -> questions, finance and confidence -> political consequence

IDENTITY

parliamentary / responsible / cabinet government = continuing lower-House confidence

Westminster = historical source family; India = republican constitutional adaptation

THREE LEVELS OF RULE

constitutional text -> enforceable legal architecture

convention -> restraint, solidarity, caretaker conduct

political practice -> parties, coalitions, whips, agenda and opposition

FINAL IDEA

Accountability is a continuing relationship, not a decorative list of eight features.

ASCII MASTER FLOW – PANEL 2/12: Origin and Indian constitutional timeline

WESTMINSTER EVOLUTION – CONCEPTUAL

Crown's ministers -> parliamentary control of supply -> confidence and collective responsibility
-> constitutional head acts through politically answerable ministers

INDIAN SEQUENCE

1919: provincial dyarchy gave ministers limited transferred subjects and legislative answerability
1935: provincial autonomy enabled responsible ministries; federal central scheme did not operate
1946-49: Constituent Assembly chose responsibility, familiarity, coordination and plural inclusion
26 Jan 1950: Union and State parliamentary executives began under the supreme Constitution
1976, 42nd Amendment: amended Article 74(1); action according to ministerial advice made explicit
1978, 44th Amendment: inserted Article 74(1) proviso; one return, reiterated advice binds
1989 onward: coalition phases tested stability; later full-term coalitions qualified inevitability
2024-26: simultaneous-elections proposal remains a Bill, not operative Article 82A

TRAP

British origin does not make India a copy or give Parliament British-style sovereignty.

ASCII MASTER FLOW – PANEL 3/12: Union and State constitutional architecture

UNION STATE CONSTITUTIONAL MIRROR

formal vesting -> Art 53: Union power in President | Art 154: State power in Governor

aid/advice -> Art 74: PM-Council advises President | Art 163: CM-Council advises Governor

Governor discretion exists only where the Constitution recognises it

responsibility -> Art 75(3): Council to Lok Sabha | Art 164(2): Council to Assembly

business form -> Art 77: action in President's name | Art 166: action in Governor's name

information -> Art 78: PM-President channel | Art 167: CM-Governor channel

participation -> Art 88: ministers/AG in Parliament | Art 177: ministers/AG-State in Legislature

office permits participation; voting follows membership

UNION DETAIL

Art 74 -> PM-headed Council aids and advises; one reconsideration; reiterated advice binds

Art 74(2) -> no inquiry into whether/what advice; resulting action remains reviewable

Art 75 -> appointment, 15% cap, pleasure, Lok Sabha responsibility, oath, six months

Art 77 -> action in President's name; authentication and business allocation

Art 78 -> PM communicates decisions/information; may place ministerial decision before Council

Art 88 -> minister may participate in either House; vote only where a member

STATE DETAIL

Art 154 -> executive power formally vested in Governor; read with Arts 163-164

Art 163 -> aid/advice with bounded constitutionally recognised Governor discretion

Art 164(1A) -> 15% Assembly ceiling and minimum 12; Art 164(4) -> six months

Art 177 -> ministers/Advocate-General participate; office alone gives no vote

DISTINCTION

President's reconsideration is express; Governor discretion depends on Article 163/specific text.

ASCII MASTER FLOW – PANEL 4/12: Nominal and real executive, advice and cases

FORMAL HEAD

President / Governor
continuity, appointment, form

RESPONSIBLE POLITICAL EXECUTIVE

PM / CM and Council of Ministers
policy choice, advice and House accountability

ADVICE FLOW

Council decides -> head receives advice -> President may return once
-> Council reconsiders -> reiterated advice binds -> ministers answer politically

CASE STRIP

Ram Jawaya (1955): executive formulates policy within parliamentary responsibility
U.N.R. Rao (1971): Council continues despite Lok Sabha dissolution; Article 74 remains necessary
Shamsher Singh (1974): President/Governor ordinarily act as constitutional heads on advice
Nabam Rebia (2016): in its Assembly-summoning context, rejected expansive personal discretion

QUALIFICATIONS

'nominal' != useless | formal vesting != personal rule | Art 74(2) != action immunity
Detailed President/Governor powers remain with Topics 15 and 19.

ASCII MASTER FLOW – PANEL 5/12: Ministerial responsibility, membership and executive core

COLLECTIVE – ARTICLE 75(2) / 164(2)

whole Council survives through lower-House confidence + public solidarity + unified answerability

INDIVIDUAL

Article 75(2)/164(1) pleasure operates within responsible government, normally through PM/CM
one minister may leave without the whole Council falling

LEGAL

India has no universal British countersignature rule for every act of the head of State

MEMBERSHIP AND LEGISLATIVE PARTICIPATION

minister may start as non-member -> must enter either House/legislature within six months
Article 88 permits participation across Houses but voting follows House membership
Article 177 supplies the same State rule for ministers and the Advocate-General

COUNCIL vs CABINET

Council = wider constitutional ministry sharing collective responsibility
Cabinet = smaller senior decision core; PM/CM coordinates both

TRAP

Pleasure is not an independent political dismissal power of the President against the PM's team.

ASCII MASTER FLOW – PANEL 6/12: Core features with coalition and accountability qualifications

1 dual executive > constitutional head & real ministry

2 majority support -> single party, coalition or supported minority capable of confidence

3 collective responsibility -> confidence + solidarity

4 political homogeneity -> common programme; coalition consensus may replace identical ideology

5 fusion / double membership -> ministers sit in legislature; India still has constitutional checks

6 PM / CM leadership -> composition, agenda and coordination, but not legal omnipotence

7 lower-House dissolution -> flexible tenure; upper House is not dissolvable

8 secrecy -> Third Schedule oath; not immunity from courts, Parliament, audit or law

9 opposition/accountability -> alternative government, questions, motions and committees

SYSTEM LINE

The features operate around one centre: a ministry must continuously justify and retain authority.

ASCII MASTER FLOW – PANEL 7/12: Confidence, dissolution, caretaker restraint and floor tests

SUPPORT

majority / coalition / outside support -> floor confidence -> authority to govern

LOSS

carried no-confidence or essential supply defeat -> resignation

or constitutionally proper dissolution after considering a viable alternative

ordinary bill defeat != automatic fall; context and explicit confidence framing matter

DISSOLUTION / CARETAKER

U.N.R. Rao -> Council continues during dissolution

caretaker restraint is convention, not a separately codified constitutional government form

avoid major irreversible choices except necessity; qualify by source and circumstances

STATE FLOOR TESTS

S.R. Bommai (1994): disputed majority ordinarily tested on Assembly floor; Art 356 reviewable

Nabam Rebia (2016): Governor cannot claim a general personal power over Assembly functioning

Subhash Desai (2023): intra-party dispute alone is insufficient; objective loss material needed

BOUNDARY

Detailed hung-House, Speaker and anti-defection rules belong to Topics 19 and 42.

ASCII MASTER FLOW – PANEL 8/12: Parliamentary and presidential systems without false absolutes

AXIS	PARLIAMENTARY	PRESIDENTIAL
executive	dual	single political executive
selection	legislative support	separate electoral mandate
term	confidence-dependent/flexible	fixed constitutional tenure
responsibility	daily to lower House	no collective responsibility to legislature
membership	ministers are/become members	executive officers outside legislature
power relation	fusion with checks	separation with checks and balances
dissolution	lower House may dissolve	President cannot dissolve Congress
strength	coordination, replaceability	tenure stability, decisiveness
risk	instability, cabinet dominance	deadlock, personal concentration

NO AUTOMATIC VERDICTS

presidential != authoritarian by definition | parliamentary != democratic/accountable by itself

India has fusion plus federalism, rights, bicameralism, judicial review and constitutional limits.

ASCII MASTER FLOW – PANEL 9/12: Indian adaptation – Westminster source, constitutional redesign

BORROWED LOGIC

constitutional head | responsible ministry | confidence | collective responsibility | Cabinet

INDIAN REDESIGN

elected republican President, not hereditary Crown

written supreme Constitution, not orthodox parliamentary sovereignty

federal distribution and Rajya Sabha, not a purely unitary Westminster order

judicial review and Fundamental Rights

strong party discipline and Tenth Schedule influence

bicameral asymmetry: Lok Sabha controls confidence; Rajya Sabha retains other constitutional roles

emergency framework may alter federal operation but does not erase responsible-government text

Indian PM may be from either House; UK PM is conventionally from Commons

CONCLUSION

India constitutionalised Westminster responsibility inside a federal, rights-based republic.

ASCII MASTER FLOW – PANEL 10/12: Performance, evidence and reform

MERITS

continuous accountability | executive-legislative coordination | adaptable replacement
coalition inclusion | avoidance of separately elected executive-legislature deadlock

DEMERITS

unstable ministries / policy churn | cabinet or PM dominance | majoritarianism
executive control of House time | weak deliberation | defections | criminalisation
weak internal party democracy | secrecy/information imbalance

EVIDENCE

short-lived 1979, 1989-91 and 1996-98 ministries show instability risk
full-term coalitions after 1999 show instability is conditional, not inherent
PRS 17th Lok Sabha: 274 sitting days; 16% Bills referred vs 26% in 16th and 71% in 15th

REFORM

predictable sittings | routine committee referral | stronger research and opposition space
narrower whip use | transparent coalition agreements | internal party democracy
proper Money Bill classification | restrained ordinances | timely ethics/criminal-case reform

VERDICT

Repair accountability institutions rather than assume a presidential switch solves politics.

ASCII MASTER FLOW – PANEL 11/12: Current status, PYQs and close-option discipline

CURRENT CHECK – 7 SEPTEMBER 2026

129th Amendment Bill, introduced 17 Dec 2024 -> proposed Article 82A
official Sansad page still lists Joint Committee; no published final report located in bounded check
BILL != ACT | proposed Article != current Constitution | no implementation year
Cabinet Secretariat -> business rules, Cabinet support and inter-ministerial coordination

AUDITED PYQs

2020 Prelims Q11 -> defining responsibility/removability
2021 Prelims Q77 -> India-UK limits and Constitution Bench proposition
2024 GS-II Q3 -> cabinet growth and practical marginalisation of parliamentary supremacy
2018 GS-II Q13 -> India-US tenets, supporting comparative route
2023 GS-II Q4 -> British and Indian parliamentary sovereignty, supporting route
historical objective letters withheld because final official keys are not locally held

TRAPS

Lok Sabha, not Rajya Sabha, controls survival | advice may be returned once
six months is temporary | coalition remains parliamentary | Article 82A is only proposed

ASCII MASTER FLOW – PANEL 12/12: Answer-writing spine and qualified conclusion

10 MARKS / 150 WORDS

define accountability relation -> 2-3 mechanisms -> Article/case -> limit -> verdict

15 MARKS / 250 WORDS

exact comparison or causal chain -> Indian evidence -> counterpoint -> reform -> conclusion

20 MARKS / 250 WORDS

criteria -> architecture -> performance evidence -> objection/reply -> graded judgment

PARAGRAPH FORMULA

claim -> named Article/case/institution/data -> explain accountability mechanism

-> qualify legal text/convention/practice or system boundary

TOPIC LINKS, NOT DUPLICATION

President/PM/Parliament/Governor -> Topics 15-20 | anti-defection -> Topic 42

FINAL LINE

India's parliamentary system trades some tenure certainty for continuing responsibility;
its democratic quality depends on real scrutiny, party competition and constitutional restraint.
