THE CENTRAL DEVELOPMENT QUESTION AND THE FIVE-RUNG LADDER WHAT COUNTS AS A BETTER SOCIETY, AND HOW DO FIVE RUNGS (EACH ADDS A QUESTION THE PREVIOUS RUNG MORE OUTPUT INCOME MEASURE QUANTITY DEVELOPMENT STRUCTURAL AND QUALITATIVE CHANGE MEASURE OPPORTUNITY HUMAN DEV.

CENTRAL QUESTION → what counts as a better society, and how do material changes become

FIVE RUNGS (each adds a question the previous rung cannot answer) growth → more output

→ health, knowledge, material command measure: human options capability → substantive freedom to be and

→ justified social relations/institutions measure: freedom, equality, justice, dignity, participation, sustainability

SOURCE / DOCTRINE

- CENTRAL QUESTION → what counts as a better society, and how do material changes become morally justified progress?
- FIVE RUNGS (each adds a question the previous rung cannot answer) growth → more output / income measure
- health, knowledge, material command measure: human options capability → substantive freedom to be and do measure: real opportunity social prog.

ARGUMENT / MECHANISM

- justified social relations/institutions measure: freedom, equality, justice, dignity, participation, sustainability
- ECONOMISTIC MODEL → productivity / investment / industrialisation → resources enabling truth: scarcity blocks health, education and choice
- failure: output says nothing by itself about distribution, voice, work quality, displacement or ecological cost

IMPLICATION / VERDICT

- MASTER VERDICT → growth can finance development; just conversion into capability, dignity, participation and sustainable institutions makes progress.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: MASTER VERDICT → growth can finance development; just conversion into capability, dignity, participation and sustainable institutions makes progress.

HAQ / UNDP → shift from wealth of economy to lives of people

longevity + knowledge + decent material standard limitation: composite indices can conceal distribution, freedom, gender

SEN → DEVELOPMENT AS FREEDOM; remove unfreedoms, expand substantive freedom

- public services → unequal freedom

ARGUMENT / MECHANISM

- FUNCTIONING = achieved being/doing
- CAPABILITY = real opportunity for alternative functionings
- UTILITY = satisfaction; may adapt downward under deprivation
- AGENCY = pursue goals one has reason to value beyond welfare
- FIVE FREEDOMS REINFORCE: political freedom

IMPLICATION / VERDICT

- economic facilities
- social opportunities
- transparency guarantees
- protective security
- CONTROL → capability is neither income plus schemes nor compulsory functioning.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: CONTROL → capability is neither income plus schemes nor compulsory functioning.
