00 STAGE 00 — THE CENTRAL DEVELOPMENT QUESTION AND THE FIVE-RUNG LADDER

THE CENTRAL DEVELOPMENT QUESTION AND THE FIVE-RUNG LADDER · WHAT COUNTS AS A BETTER SOCIETY, AND HOW DO · FIVE RUNGS (EACH ADDS A QUESTION THE PREVIOUS RUNG · MORE OUTPUT · INCOME MEASURE · QUANTITY DEVELOPMENT · STRUCTURAL AND QUALITATIVE CHANGE MEASURE · OPPORTUNITY HUMAN DEV.

CENTRAL QUESTION — what counts as a better society, and how do material changes become → **— health, knowledge, material command measure human options capability — substantive freedom to be and** → **— justified social relations/institutions measure: freedom, equality, justice, dignity, participation, sustainability**

FIVE RUNGS (each adds a question the previous rung cannot answer) growth → more output

SOURCE / DOCTRINE

- CENTRAL QUESTION — what counts as a better society, and how do material changes become morally justified progress?
- FIVE RUNGS (each adds a question the previous rung cannot answer) growth → more output / income measure
- — health, knowledge, material command measure: human options capability — substantive freedom to be and do measure: real opportunity social prog

ARGUMENT / MECHANISM

- — justified social relations/institutions measure: freedom, equality, justice, dignity, participation, sustainability
- ECONOMISTIC MODEL — productivity / investment / industrialisation → resources enabling truth: scarcity blocks health, education and choice
- failure: output says nothing by itself about distribution, voice, work quality, displacement or ecological cost

IMPLICATION / VERDICT

- MASTER VERDICT — growth can finance development; just conversion into capability, dignity, participation and sustainable institutions makes progress.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: MASTER VERDICT → growth can finance development; just conversion into capability, dignity, participation and sustainable institutions makes progress.

01 STAGE 01 — HUMAN DEVELOPMENT AND SEN'S RESOURCE-TO-FREEDOM CONVERSION

HUMAN DEVELOPMENT AND SEN'S RESOURCE-TO-FREEDOM CONVERSION · SHIFT FROM WEALTH OF ECONOMY TO LIVES OF PEOPLE · LONGEVITY + KNOWLEDGE + DECENT MATERIAL STANDARD LIMITATION · COMPOSITE INDICES CAN CONCEAL DISTRIBUTION, FREEDOM, GENDER, DISABILITY AND · DEVELOPMENT AS FREEDOM; REMOVE UNFREEDOMS, EXPAND SUBSTANTIVE FREEDOM · ENVIRONMENTAL CONVERSION FACTORS · CAPABILITY SAME INCOME · DISABILITY, GENDER NORMS, LOCATION, PUBLIC SERVICES

HAQ / UNDP — shift from wealth of economy to lives of people → longevity + knowledge + decent material standard limitation: composite indices can conceal distribution, freedom, gender → SEN — DEVELOPMENT AS FREEDOM; remove unfreedoms, expand substantive freedom → RESOURCE — personal / social / environmental CONVERSION FACTORS — CAPABILITY same income — disability → public services — unequal freedom

SOURCE / DOCTRINE

- HAQ / UNDP — shift from wealth of economy to lives of people
- longevity + knowledge + decent material standard limitation: composite indices can conceal distribution, freedom, gender, disability and ecological
- SEN — DEVELOPMENT AS FREEDOM; remove unfreedoms, expand substantive freedom

- AGENCY = pursue goals one has reason to value beyond welfare
- FIVE FREEDOMS REINFORCE: political freedom

IMPLICATION / VERDICT

- economic facilities
- social opportunities
- transparency guarantees
- protective security

- POST-DEVELOPMENT — who authorises experts to define a whole society as deficient?

IMPLICATION / VERDICT

- trap — neither critique proves that health, education, mobility or infrastructure are unwanted; local voice joins universal dignity and non-domination
- SUSTAINABLE DEVELOPMENT → present improvement without destroying ecological conditions/options for future persons: intergenerational justice → precaution non-substitutable limits
- + duties to vulnerable persons + possible non-human value.
