PANEL 2/12 - The Classical Marxist Argument and Essential Distinctions

The Classical Marxist Argument and Essential Distinctions
* Gauba presents classical Marxism through four main tenets: dialectical materialism, historical materialism, class conflict and surplus value. (PDF p.48, p.52)
* Classical Marxism: the original scientific system centred on property, class division, contradiction and revolutionary transformation. (PDF p.47)
* Neo-Marxism: later Marxist thought that studies subtler forms of dominance, alienation and paths to human emancipation. (PDF p.47, p.53)

PANEL 3/12 - Thinkers, Illustrations and the Three-Strand Matrix

Thinkers, Illustrations and the Three-Strand Matrix
* Read together: exploitation (surplus value), domination (state as class instrument) and dehumanization (alienation) are three faces of the same underlying property relation, not three separate ones. * Gauba presents classical Marxism through four main tenets: dialectical materialism, historical materialism, class conflict and surplus value. (PDF p.48, p.52) * For UPSC purposes, the topic moves from economy-centred critique to a wider analysis of ideology, culture and domination. * Marxism explains why formal legal equality can coexist with deep economic inequality under capitalism. (PDF pp.46-47)

PANEL 4/12 - Ownership Boundaries and UPSC Trap Repair

Ownership Boundaries and UPSC Trap Repair
* For UPSC purposes, the topic moves from economy-centred critique to a wider analysis of ideology, culture and domination. * Neo-Marxism shows why domination cannot be reduced only to factory ownership; culture, communication and ideology also matter. (PDF pp.53-54) * Forces of production vs relations of production: forces include means of production plus labour power; relations concern ownership patterns and class relations. (PDF pp.48-49) * Neo-Marxist cultural critique treats communication and consumer desire as sites of domination, not merely reflections of factory ownership. (PDF pp.53-54)
