

Polity 39 — Cooperative Societies

UPSC complete learning session | Foundation to advanced | Concepts, evidence, practice and answer writing

Deterministic fallback visual: national income viewed through production, income, expenditure and welfare lenses.

Source order: repository knowledge -> official current linkage -> clearly marked analysis. No fabricated PYQs or statistics.

Polity 39 — Cooperative Societies

Complete independent learning session + verified adjacent PYQs + solved practice workbook + final consolidated register notes

Legal/current control date: 19 August 2026 (Asia/Kolkata)

Tag key: [FACT] = directly supported by a named constitutional, statutory, judicial, official or local source; [ANALYSIS] = reasoned examination; [CURRENT] = checked against official material for the control date; [LIMIT] = qualification, unresolved issue or deliberately unfrozen fact. **Answer-writing discipline:** claim -> named evidence -> analysis -> qualification.

How to Use This Package

[FACT] This package starts with the local Polity owners, then controls every live legal proposition against the official Constitution, the official Supreme Court judgment in **Union of India v. Rajendra N. Shah*** (2021), the current India Code text of the **Multi-State Co-operative Societies Act, 2002** as amended in 2023, Ministry of Cooperation/Central Registrar material, and official RBI/NABARD material.

[LIMIT] It does not freeze current officeholders, numbers of societies, PACS-computerisation totals, election/complaint disposal totals, financial aggregates or dashboard claims. An official 2026 Supreme Court judgment squarely changing the Article 12 status of cooperative societies was not verified and is therefore omitted.

Visual 01 — Learning Roadmap

```
COOPERATIVE IDEA
|
+--> identity -> seven principles -> types -> strengths and risks
|
CONSTITUTIONAL ARCHITECTURE
|
+--> Entry 32 State List -> Entry 44 Union List -> banking overlay
+--> Article 19(1)(c) -> Article 43B -> Part IXB
|
FEDERAL CORRECTION
|
+--> 97th Amendment -> Article 368(2) ratification problem
+--> Rajendra N. Shah -> severance -> exact surviving field
|
OPERATIVE GOVERNANCE
|
+--> State cooperative laws and State Registrars
+--> MSCS Act 2002 + 2023 reform + Central Registrar
|
SPECIAL QUESTIONS
|
+--> cooperative banks -> RBI/NABARD/Registrar roles
+--> Article 12 -> Article 226 -> RTI public authority
|
EXAM APPLICATION
|
+--> routed PYQ audit -> 36 MCQs -> 12 remedials
+--> 8 solved Mains -> final consolidated register notes
```

Caption: The topic is a federal-governance problem built on a member-owned enterprise model.

1. Cooperative Identity: Enterprise Without Capital Dominance

[FACT] The International Cooperative Alliance defines a cooperative as an autonomous association of persons united voluntarily to meet common economic, social and cultural needs and aspirations through a jointly owned and democratically controlled enterprise.

[ANALYSIS] A cooperative is neither a State department nor merely a charitable association. It conducts an economic or service activity, but membership and democratic control—not external capital alone—supply its institutional logic.

[LIMIT] The ICA statement is a normative global standard. It does not automatically override the Constitution, the MSCS Act, a State cooperative statute, banking law or registered bye-laws.

Visual 02 — Cooperative Enterprise Triangle

Caption: Cooperative identity joins economic activity to member ownership and control.

Visual 03 — Cooperative, Company and Department

Test	Cooperative	Investor-owned company	Government department
Primary constituency	Members/users	Shareholders/investors	Public through government
Control ideal	Democratic member control	Voting linked mainly to capital	Administrative hierarchy
Surplus logic	Member service, reserves, limited distribution under law/bye-laws	Return on capital	Budgetary/public purpose
Legal source	Cooperative statute + bye-laws	Companies law + charter	Constitution/statute/executive rules
Core risk	Elite capture or politicisation	Capital dominance	Bureaucratic control

Caption: A cooperative is a distinct institutional form, not an informal company or government office.

2. Seven Principles: Norm, Statute and Implementation

[FACT] The ICA statement lists seven principles: voluntary and open membership; democratic member control; member economic participation; autonomy and independence; education, training and information; cooperation among cooperatives; and concern for community.

[FACT] The First Schedule to the MSCS Act also states cooperative principles for the statutory multi-State field. That statutory incorporation gives the principles legal relevance within that Act.

[LIMIT] The same sentence may be normative in an ICA document, statutory for an MSCS under the 2002 Act, and only indirectly relevant to a State cooperative unless its State law or bye-laws adopt it.

Visual 04 — Seven-Principle Wheel

Caption: The principles protect both member agency and institutional sustainability.

Visual 05 — Three Legal Layers of a Principle

Layer	Example	Legal effect
Normative	ICA concern for community	Persuasive identity standard
Constitutional-policy	Article 43B autonomy/democratic control/professional management	Non-justiciable directive
Enforceable law	MSCS Act, State Act, rules and bye-laws	Rights, duties and sanctions within scope

Caption: Never convert a cooperative ideal into an enforceable rule without naming its legal source.

Visual 06 — Voice and Capital

INVESTOR MODEL: more capital -> usually more voting influence

COOPERATIVE IDEAL: membership -> democratic voice
capital -> participation, not automatic domination

QUALIFICATION: exact voting rules come from the applicable Act and bye-laws.

Caption: “One member, one vote” is a common primary-cooperative principle, not a substitute for reading the applicable statute.

3. Historical and Constitutional Evolution

[FACT] The Supreme Court in *Rajendra N. Shah* traced Indian cooperative legislation to the **Co-operative Credit Societies Act, 1904** and the **Co-operative Societies Act, 1912**. Cooperative societies became a provincial subject under the Government of India Acts of 1919 and 1935 and entered the Constitution in State List Entry 32.

[ANALYSIS] The evolution shows continuity: cooperative organisation was treated as locally embedded, even while multi-State operation and banking required wider regulatory layers.

Visual 07 — Evolution Timeline

Year	Development	Exam significance
1904	Co-operative Credit Societies Act	Early credit-focused legislation
1912	Co-operative Societies Act	Broader cooperative legal form
1919	Provincial legislative subject	Local/provincial competence
1935	Provincial List continued	Federal lineage
1950	State List Entry 32; Union List Entry 44	Constitutional competence split
2011-12	97th Amendment enacted, assented and commenced	FR + DPSP + Part IXB
2021	<i>Rajendra N. Shah</i>	Federal ratification correction
2021	Ministry of Cooperation created	Executive-policy layer
2023	MSCS Amendment Act and Rules	Statutory multi-State governance reform
2025	National Cooperation Policy officially issued	Policy, not competence transfer

Caption: National policy has grown, but the original federal allocation has not disappeared.

Visual 08 — Constitutional Evolution in One Line

LOCAL ASSOCIATION
 ->
 PROVINCIAL SUBJECT
 ->
 STATE LIST ENTRY 32
 + UNION LIST ENTRY 44 FOR MULTI-STATE CORPORATIONS
 ->
 97TH AMENDMENT GOVERNANCE CODE
 ->
 2021 SEVERANCE BACK TO VALID FEDERAL BOUNDARY

Caption: The 2021 judgment restored the competence boundary rather than rejecting cooperation as a constitutional value.

4. Types and Economic Functions

[FACT] Cooperative forms include credit, dairy, housing, consumer, marketing, labour, producer, processing, fisheries and multipurpose societies. Their legal and regulatory treatment depends on function and territorial reach.

[LIMIT] Amul is a useful dairy-cooperative model, not proof that every cooperative has identical governance, scale or member benefit.

Visual 09 — Functional Taxonomy

Type	Shared member problem	Cooperative response
Credit	Small borrowers lack affordable access	Pooling, local intermediation
Dairy	Perishable output and weak bargaining	Collection, processing, marketing
Marketing	Fragmented farm output	Aggregation and market access
Consumer	Price/quality asymmetry	Member-oriented procurement
Housing	Land, finance and common services	Collective development/management
Labour	Weak individual bargaining	Collective contracting
Producer	Small scale and input/market gaps	Shared services and value addition

Caption: Classification should start from the member problem being solved.

Visual 10 — Rural Value Chain

SMALL PRODUCERS
 |
 v
 LOCAL SOCIETY -> aggregation -> quality/processing -> market negotiation
 | |
 +-> credit / inputs / information +-> better price discovery

LIMIT: each arrow can fail if governance, capital or professional capacity is weak.

Caption: Cooperatives can reduce transaction costs, but institutional quality controls the outcome.

Visual 11 — Promise and Risk

Promise	Causal mechanism	Main risk
Local ownership	Members control enterprise	Local elite capture
Aggregation	Scale in purchase/sale	Management weakness
Inclusion	Last-mile presence	Exclusion by dominant groups
Democratic voice	Elected board	Delayed or politicised elections
Surplus retention	Member-centred use	Poor capital formation

Caption: The same local embeddedness that enables participation can also enable capture.

5. Federal Architecture Before and After the 97th Amendment

[FACT] **State List Entry 32** covers incorporation, regulation and winding up of corporations other than those specified in List I, and expressly includes cooperative societies.

[FACT] **Union List Entry 44** covers incorporation, regulation and winding up of corporations, whether trading or not, whose objects are not confined to one State. It is the legislative base for multi-State cooperative societies.

[FACT] **Union List Entry 45** covers banking. A cooperative bank can therefore remain a cooperative under State or multi-State law while banking regulation overlays its activity.

Visual 12 — Three-Layer Competence Map

SOCIETY WITH OBJECTS CONFINED TO ONE STATE
-> State List Entry 32 -> State cooperative law/Registrar

SOCIETY WITH OBJECTS NOT CONFINED TO ONE STATE
-> Union List Entry 44 -> MSCS Act/Central Registrar

IF THE SOCIETY CARRIES ON REGULATED BANKING
-> Union List Entry 45 + Banking Regulation Act/RBI
-> State/MSCS incorporation layer still remains

Caption: Territorial reach decides the cooperative-law base; banking function adds a separate Union overlay.

Visual 13 — Entry 32 and Entry 44

Question	Entry 32, State List	Entry 44, Union List
Core object	Intra-State cooperative societies	Corporations with objects not confined to one State
Legislature	State Legislature	Parliament
Registrar	State Registrar	Central Registrar under MSCS Act
Common error	Treating every cooperative as Union subject	Treating “multi-State” as merely having members from different States without statutory status

Caption: “Cooperative” does not itself answer the legislative-competence question.

Visual 14 — Banking Overlay

COOPERATIVE LEGAL PERSON
|
+--> incorporation / board / membership -> State law or MSCS Act
|
+--> banking licence / prudential rules -> RBI under banking law
|
+--> rural cooperative-bank inspection -> NABARD statutory supervision

DUAL OR MULTIPLE REGULATION != NO REGULATION

Caption: Institutional law and prudential banking law regulate different dimensions.

Visual 15 — Ministry Boundary

Ministry of Cooperation may	It does not thereby
Frame Union policy and administer Union business	Convert Entry 32 into a Union subject
Administer the MSCS Act through CRCS	Replace State Registrars for State societies
Coordinate schemes, portals and model frameworks	Make model bye-laws binding without legal adoption
Promote cooperation and capacity	Adjudicate every intra-State cooperative dispute

Caption: An executive ministry cannot redraw the Seventh Schedule.

6. The 97th Constitutional Amendment: Three Distinct Changes

[FACT] The Constitution (Ninety-seventh Amendment) Act, 2011 was passed by the Lok Sabha on **27 December 2011** and Rajya Sabha on **28 December 2011**, received presidential assent on **12 January 2012**, was published on **13 January 2012**, and came into force on **15 February 2012**.

[FACT] It: (1) added “co-operative societies” to Article 19(1)(c); (2) inserted Article 43B; and (3) inserted Part IXB, Articles 243ZH-243ZT.

Visual 16 — Amendment Triptych

FUNDAMENTAL RIGHT	DIRECTIVE PRINCIPLE	GOVERNANCE PART
Article 19(1)(c)	Article 43B	Part IXB
formation freedom	policy direction	detailed structure
justiciable, qualified	non-justiciable	reach cut by 2021 case

Caption: The three changes have different legal character and different post-2021 status.

Visual 17 — Enactment Clock

27 Dec 2011	Lok Sabha passes
28 Dec 2011	Rajya Sabha passes
12 Jan 2012	Presidential assent
13 Jan 2012	Gazette publication
15 Feb 2012	Commencement
20 Jul 2021	Supreme Court federal-severance judgment

Caption: The Act is styled “2011” although assent and commencement occurred in 2012.

Visual 18 — Article 19(1)(c) Boundary

Proposition	Correct position
Can citizens form cooperative societies?	Yes, expressly protected by Article 19(1)(c)
Is the right absolute?	No; Article 19(4) permits reasonable restrictions for sovereignty/integrity, public order and morality
Does formation guarantee State recognition or aid?	No
Does it constitutionalise a preferred management regime?	No
Does it guarantee success, subsidy or immunity from regulation?	No

Caption: Formation freedom is not a constitutional promise of State patronage or regulatory exemption.

[FACT] Article 19(4) supplies the restriction grounds. The wider association doctrine also distinguishes the right to form an association from every consequential claim of recognition, bargaining success, aid or a particular statutory benefit.

[ANALYSIS] A State may regulate registration, solvency, elections, audit and member protection, but a restriction on formation must still satisfy the applicable constitutional test.

Visual 19 — Article 43B

VOLUNTARY FORMATION
+
AUTONOMOUS FUNCTIONING
+
DEMOCRATIC CONTROL
+
PROFESSIONAL MANAGEMENT
=
ARTICLE 43B POLICY DIRECTION

Article 37 control: fundamental in governance, but not directly enforceable.

Caption: Article 43B balances autonomy with democratic and professional governance.

7. Union of India v. Rajendra N. Shah (2021)

[FACT] The issue was whether Part IXB altered the States' legislative field without the ratification of at least half of the State Legislatures required by the proviso to Article 368(2).

[FACT] The majority held that Part IXB substantially constrained State legislative power under Entry 32. Because the amendment had not received the required State ratification, Part IXB could not operate for cooperative societies within the State legislative field.

[FACT] The Court applied severability. Article 19(1)(c) and Article 43B remained untouched; Part IXB remained operative for multi-State cooperative societies.

Visual 20 — Amendment Procedure Test

Does amendment affect a matter in Article 368(2) proviso?
|
YES
|
Special majority in Parliament
+
Ratification by at least half of State Legislatures
|
97th Amendment had first limb but not State-ratification limb
|
Part IXB invalid in State legislative field

Caption: Ratification is a federal consent device, not a procedural formality.

Visual 21 — Case Logic

Step	Named evidence	Consequence
1	Entry 32, State List	States possess cooperative legislative field
2	Articles 243ZI-243ZQ constrain State law	Legislative field was substantively altered
3	Proviso to Article 368(2)	Half-State ratification required
4	No such ratification	State-field application invalid
5	Article 243ZR separable for MSCS	Multi-State application survives

Caption: The judgment protects federal legislative competence through amendment procedure.

Visual 22 — Majority and Dissent

Opinion	Position on severability	Result
Nariman and Gavai JJ.	Multi-State scheme could stand independently through Article 243ZR	Saved Part IXB for MSCS
K.M. Joseph J.	Valid and invalid provisions were too interdependent	Would not save the Part through severance

Caption: Use the majority as law; mention the dissent only for analytical depth.

Visual 23 — Exact Surviving Field, Including the UT Nuance

PART IXB AFTER THE MAJORITY JUDGMENT

Multi-State cooperative society operating across States	-> survives
Multi-State cooperative society with operations in a UT	-> survives
Cooperative confined within one State	-> does not bind
Cooperative confined within a single Union Territory	-> para 78 says no

OPERATIVE PARA 80:

Part IXB operates for multi-State cooperative societies
"both within the various States and in the Union territories".

Caption: "MSCS and all UT cooperatives" is overbroad; the official judgment saves MSCS, including their operation in UTs.

[LIMIT] Article 243ZS remains textually in the Constitution. However, majority paragraph 78 expressly says Part IXB has no application to a cooperative with no ramifications outside the Union Territory itself. The safest answer is therefore **MSCS in States and UTs**, not a blanket claim that every UT-confined cooperative is constitutionally governed by Part IXB.

Visual 24 — What the Court Did Not Do

Incorrect statement	Correct control
Entire 97th Amendment struck down	No; Article 19(1)(c) and Article 43B remain
All Part IXB text deleted	No; its operative reach was severed
Cooperatives became Union subjects	No; Entry 32 continues
Every UT cooperative is covered	No; use paragraphs 78 and 80 together
State laws cannot adopt similar standards	They may independently enact them within State competence

Caption: The judgment is a field-and-procedure ruling, not an anti-cooperative ruling.

8. Part IXB Master Map: Articles 243ZH-243ZT

[LIMIT] The following provisions are mapped as constitutional text **within the surviving field identified by the 2021 majority**. They must not be presented as binding constitutional commands for ordinary State-field cooperatives.

Visual 25 — Article Map

Article	Subject
243ZH	Definitions
243ZI	Incorporation, regulation and winding up
243ZJ	Board number, reservation and term
243ZK	Board elections
243ZL	Supersession/suspension and interim management
243ZM	Audit
243ZN	Annual general body meeting
243ZO	Member information, participation and education
243ZP	Returns
243ZQ	Offences and penalties
243ZR	Application to MSCS
243ZS	Textual application to UTs, judicially qualified
243ZT	Transitional continuance of laws

Caption: Learn Part IXB as a governance sequence, not thirteen isolated labels.

Visual 26 — Articles 243ZH and 243ZI

243ZH -> definitions:

board | cooperative society | multi-State cooperative | office bearer | Registrar

243ZI -> law may address:

incorporation | regulation | winding up

based on:

voluntary formation | democratic member control

member economic participation | autonomous functioning

Caption: Article 243ZI constitutionalises a design basis, not a self-executing registration form.

Visual 27 — Article 243ZJ Board Design

Element	Constitutional text
Maximum elected directors	21
Reservation	One SC/ST seat and two women seats for a society of individual members having members from those categories
Elected board/office-bearer term	Five years from election; conterminous
Co-opted experts	Up to two beyond the 21; banking/management/finance/related expertise
Co-opted voting limit	No vote in office-bearer election; cannot be office bearer
Functional directors	May be on board; excluded from the 21 count

Caption: Reservation and co-option carry qualifications; avoid absolute shorthand.

Visual 28 — Article 243ZK Election Clock

OUTGOING BOARD TERM APPROACHES EXPIRY
 |
 election must be conducted before expiry
 |
 new board assumes office immediately on expiry
 |
 electoral rolls + election control vest in statutory authority/body

Caption: The objective is continuity of elected management, not post-expiry regularisation.

Visual 29 — Article 243ZL Supersession Screen

POSSIBLE GROUNDS
 persistent default | negligence | prejudicial act | stalemate | election failure
 |
 GENERAL CEILING: six months
 |
 NO GOVERNMENT share/loan/assistance/guarantee?
 |
 board shall not be superseded/suspended under the constitutional text
 |
 BANKING SOCIETY?
 Banking Regulation Act also applies; constitutional text carries a banking qualification.

Caption: Supersession is exceptional, time-bound and subject to financial-link and banking provisos.

Visual 30 — Articles 243ZM-243ZP Compliance Clock

Stage	Rule in constitutional text
Accounts	Audit at least once each financial year
Auditor	Eligible qualifications set by law; general body appoints from approved panel
Audit completion	Within six months of financial-year close
AGM	Within six months of financial-year close
Member information	Access to books/information/accounts concerning regular business with member, as law provides
Returns	Within six months of financial-year close

Caption: Audit, AGM and returns form a six-month accountability cycle.

Visual 31 — Article 243ZQ Offence Families

FALSE RETURN / FALSE INFORMATION
 +
 DISOBEYING SUMMONS OR LAWFUL ORDER
 +
 FAILURE TO REMIT EMPLOYEE DEDUCTIONS
 +
 FAILURE TO HAND OVER RECORDS / PROPERTY
 +
 CORRUPT ELECTORAL PRACTICE

Caption: Article 243ZQ requires the law to include specified governance failures as offences.

Visual 32 — Articles 243ZR-243ZT

Article	Function	Present qualification
243ZR	Reads State references as Parliament/Central Act/Central Government for MSCS	Core severability bridge
243ZS	Applies Part text to UTs with textual adaptations	Read with <i>Rajendra N. Shah</i> para 78
243ZT	Keeps inconsistent pre-amendment law until amendment/repeal or one year, whichever earlier	Transitional, not permanent validation

Caption: Articles 243ZR and 243ZS cannot be reduced to the slogan “MSCS plus UTs”.

9. State Cooperatives and Multi-State Cooperatives After 2021

[FACT] A cooperative whose objects are confined to one State is governed primarily by the applicable State cooperative law, State rules, registered bye-laws and State Registrar.

[FACT] Such societies remain subject to Article 19(1)(c), Article 43B and other generally applicable constitutional rights and limitations. Part IXB governance specifics are not binding constitutional commands in the State field after *Rajendra N. Shah*.

[ANALYSIS] A State legislature may independently adopt five-year terms, election authorities, audit rules or reservation provisions. Their force then comes from State law, not directly from invalidated Part IXB application.

Visual 33 — Two Operative Regimes

Dimension	State-field society	Multi-State cooperative society
Legislative base	Entry 32, State List	Entry 44, Union List
Principal law	State Cooperative Societies Act	MSCS Act, 2002 as amended
Registrar	State Registrar	Central Registrar
Part IXB	Not binding for governance specifics	Operative through Article 243ZR
FR/DPSP	Article 19(1)(c) and 43B remain	Article 19(1)(c) and 43B remain
Banking overlay	If banking activity is covered	If banking activity is covered

Caption: Constitutional values are common; operative governance statutes differ.

Visual 34 — Source Hierarchy for an Exam Problem

1. Identify territorial reach
2. Choose State Act or MSCS Act
3. Add Part IXB only within surviving field
4. Add banking/sectoral law if relevant
5. Apply registered bye-laws
6. Apply constitutional rights and judicial review

Caption: Starting with Part IXB before identifying the society is a common analytical error.

10. MSCS Act, 2002 and the 2023 Amendment

[FACT] The MSCS Act governs societies whose objects are not confined to one State. The 2023 Amendment Act is enacted law, commenced on **3 August 2023**; the corresponding Amendment Rules were notified on **4 August 2023**.

[CURRENT] The official India Code consolidation checked for this package is marked **as on 27 June 2025**. Official Ministry material through the control date did not disclose a later amending Act replacing the 2023 reform framework.

Visual 35 — 2023 Reform Architecture

ELECTIONS	-> Co-operative Election Authority
BOARD	-> representation + conflict/nepotism controls
AUDIT	-> statutory panels + concurrent audit for notified large societies
GRIEVANCE	-> Co-operative Ombudsman
INFORMATION	-> Co-operative Information Officer
DISTRESS	-> rehabilitation/reconstruction/development fund
REPORTING	-> stronger digital annual-return architecture
MERGER	-> route for State cooperative to merge into existing MSCS

Caption: The reform is a statutory governance package, not a second constitutional amendment.

Visual 36 — Co-operative Election Authority

Feature	Exact statutory position
Composition	Chairperson, Vice-Chairperson and not more than three Members
Appointment	Central Government on Selection Committee recommendation
Core function	Conduct MSCS elections; supervise/direct/control electoral-roll preparation
Board election	Secret ballot; held in general meeting
Advance trigger	Chairperson and Chief Executive inform Authority six months before board-term expiry
Term of elected board	Five years

Caption: The Authority governs MSCS elections; it is not the election body for every State cooperative.

Visual 37 — Board and Conflict Controls

Reform area	Statutory rule
Board ceiling	Not more than 21 directors under section 41
Representation	One SC/ST and two women where individual membership includes those categories
Co-option	Up to two co-opted members beyond the ceiling, with limited office-bearer rights
Conflict	Interested director cannot participate/vote on relevant contract/arrangement
Recruitment	Relative of sitting director barred from recruitment, including as Chief Executive
Consequence	Violation can disqualify director and void relevant proceedings

Caption: Representation and anti-nepotism rules address different governance failures.

Visual 38 — Rehabilitation, Reconstruction and Development Fund

CONTRIBUTOR:

MSCS in profit for preceding three financial years

ANNUAL CREDIT:

Rs 1 crore OR 1% of net profit, whichever is less

USES:

revival of statutorily defined sick MSCS

+

development/infrastructure assistance subject to section 63C conditions

BANK QUALIFICATION:

reconstruction of sick multi-State cooperative bank needs prior RBI approval

Caption: The fund is contribution-conditioned and legally targeted; it is not an unlimited bailout.

Visual 39 — Audit Ladder

Audit layer	Applicability
Annual statutory audit	MSCS under section 70
National cooperative audit report	Laid before each House of Parliament
Concurrent audit	Section 70A for turnover/deposit above Central Government-notified amount
Current threshold	Official Ministry material: above Rs 500 crore for statutory + concurrent audit
Auditor source	Panel approved by Central Registrar

Caption: The Rs 500 crore threshold is a current notified control, not text permanently hard-coded in section 70A.

Visual 40 — Member Grievance and Information

MEMBER COMPLAINT
 deposits / equitable benefits / individual-right issue
 |
 CO-OPERATIVE OMBUDSMAN
 inquiry and adjudication within 3 months
 |
 direction -> society compliance within 1 month
 |
 society appeal -> Central Registrar within 1 month
 decision target -> 45 days

INFORMATION ROUTE
 member -> Information Officer -> provide/reject within 30 days
 rejection -> appeal to Ombudsman within 1 month

Caption: Ombudsman jurisdiction is member-centred and statutorily specified, not a general public grievance portal.

Visual 41 — Merger and Amalgamation Routes

Route	Qualification
MSCS amalgamation/division	Two-thirds of members present and voting at relevant general meetings, plus member/creditor safeguards
State cooperative into existing MSCS	Two-thirds resolution, subject to its State Cooperative Societies Act
Cooperative bank under moratorium	Central Registrar scheme with prior written RBI approval

Caption: “Merger permitted” is incomplete unless the resolution, creditor and banking qualifications are stated.

Visual 42 — Current Compliance Control

MSCS annual activities
 |
 online return to CRCS within six months
 |
 audited accounts + meeting/election declaration
 related-party and relative-employee disclosures
 |
 non-filing can trigger statutory consequences

LIMIT: portal filing proves submission, not substantive good governance.

Caption: Digitisation can improve traceability but cannot by itself create member participation.

11. Ministry of Cooperation, Central Registrar and Current Policy

[FACT] The Ministry of Cooperation was created through an executive allocation-of-business change notified on **6 July 2021**. It provides a Union administrative, legal and policy framework and administers Union cooperative business.

[FACT] The Central Registrar's office is the statutory authority responsible for registration and regulatory processes concerning MSCS, including filings, management-related processes, complaints, elections and liquidation under the Act.

[CURRENT] The official **National Cooperation Policy 2025** is a policy framework. It does not amend Entries 32, 44 or 45 and does not replace State cooperative legislation.

Visual 43 — Institution Map

Caption: The two registrar systems correspond to two legislative fields.

Visual 44 — Policy Federalism Filter

Policy instrument	Constitutional use	Constitutional limit
National policy	Shared direction and reform agenda	Cannot legislate on Entry 32 by itself
Model bye-laws	Template and convergence	Need lawful State/society adoption
Digital portal	Filing and transparency infrastructure	Cannot prove autonomy or participation
Financial support	Incentive and capacity	Conditions must respect competence and law

Caption: Cooperative federalism works through consent, lawful incentives and coordination—not competence substitution.

12. Cooperative Banks: Dual and Multiple Regulation

[FACT] Urban Cooperative Banks, State Cooperative Banks and District Central Cooperative Banks combine cooperative legal identity with regulated banking activity.

[FACT] RBI regulates covered cooperative banks under the Banking Regulation Act as applicable to cooperative societies. NABARD statutorily supervises State Cooperative Banks and District Central Cooperative Banks under section 35(6); PACS do not figure among NABARD's statutorily supervised entities.

[FACT] The Banking Regulation (Amendment) Act, 2020 was applied in stages: RBI material states it was deemed effective from **29 June 2020** for UCBs and came into force from **1 April 2021** for State and District Central Cooperative Banks.

Visual 45 — Rural Short-Term Cooperative Credit Structure

QUALIFICATION: State structures vary; not every State follows an identical three-tier form.

Caption: The tiers connect local membership to district and State-level liquidity and banking structures.

Visual 46 — Regulator Matrix

Institution	Cooperative-law layer	Banking/prudential layer	Supervision
UCB	State law or MSCS Act, as applicable	RBI	RBI
State Cooperative Bank	State cooperative law	RBI regulation	NABARD statutory inspection/supervision
DCCB	State cooperative law	RBI regulation	NABARD statutory inspection/supervision
PACS	State cooperative law	Generally outside the same licensed banking framework	Not a NABARD statutory supervised entity

Caption: “Dual control” differs by institution; do not give one regulator exclusive credit for every function.

Visual 47 — What the 2020 Banking Amendment Changed

BEFORE / CONTINUING PROBLEM:

fragmented governance and prudential powers

2020 AMENDMENT EFFECT FOR COVERED COOPERATIVE BANKS:

stronger RBI role in governance, capital, audit, reconstruction/amalgamation and management-related controls

CONTINUING COOPERATIVE LAYER:

registration, membership and cooperative-law matters remain under the applicable State/MSCS framework

Caption: Stronger prudential control did not turn cooperative banks into ordinary companies.

Visual 48 — PACS Boundary

Statement	Correct control
Every PACS is an RBI-licensed bank	False
PACS are directly statutorily supervised by NABARD like DCCBs	False
PACS may use “bank” freely	False; RBI has warned against unauthorised use and unlicensed public deposit-taking
PACS have no regulatory framework	False; State cooperative law and scheme-specific controls apply

Caption: PACS are cooperative credit institutions, but not automatically banks in the full prudential sense.

Visual 49 — Cooperative-Bank Governance Risk Chain

POLITICAL / MEMBER PRESSURE

->

CONNECTED LENDING OR WEAK CREDIT DISCIPLINE

->

ASSET-QUALITY STRESS

->

DEPOSITOR / MEMBER RISK

->

RBI + NABARD + REGISTRAR COORDINATION NEED

REFORM: autonomy in business + prudential accountability + professional board

Caption: Member ownership cannot replace depositor protection and risk management.

13. Article 12, Article 226 and RTI: Three Different Tests

[FACT] A cooperative society is not automatically “State” under Article 12 merely because it is registered, regulated or supervised under a cooperative statute.

[FACT] **Ajay Hasia v. Khalid Mujib** supplied instrumentality indicators; **Pradeep Kumar Biswas v. Indian Institute of Chemical Biology** refined the inquiry to whether the body is financially, functionally and administratively dominated by or under pervasive government control. Merely regulatory control is insufficient.

[FACT] In **Thalappalam Service Cooperative Bank Ltd. v. State of Kerala*** (2013), the Supreme Court held that the concerned Kerala cooperative societies were not automatically “public authorities” under RTI section 2(h), absent material showing government ownership, control or substantial financing.

Visual 50 — Three Status Tests

Question	Governing test	Result
Is the body “State”?	Article 12 instrumentality/agency test	FR claim directly against body if test met
Can a writ issue?	Article 226 authority/public-duty inquiry	Broader than Article 12, duty-specific
Is it an RTI public authority?	Section 2(h): Constitution/law/notification or government ownership, control, substantial finance	Direct RTI obligations if met

Caption: Article 12 status, writ amenability and RTI status are related but not interchangeable.

Visual 51 — Case-Control Matrix

Case	Proposition	Qualification
<i>Ajay Hasia</i> (1981)	Instrumentality indicators matter	Not a mechanical checklist
<i>Pradeep Kumar Biswas</i> (2002)	Financial, functional and administrative domination; pervasive control	Regulatory control alone is insufficient
<i>Thalappalam</i> (2013)	Kerala cooperatives not automatically RTI public authorities	Society-specific ownership/control/finance can change result
<i>Andi Mukta</i> (1989)	Article 226 reaches bodies performing public duty	Remedy must relate to that duty

Caption: Always state the legal question before citing the case.

Visual 52 — Writ and RTI Decision Tree

COOPERATIVE SOCIETY

```

|
Is it Article 12 "State"? -- yes -> Part III remedies available
|
no
|
Does impugned action involve public/statutory duty? -- yes -> Art 226 may lie
|
no -> ordinarily private/internal remedy
  
```

RTI:

```

Is society section 2(h) public authority? -- fact-specific
If not, information accessible by a public authority under law
may still be sought from that public authority through section 2(f).
  
```

Caption: A “no” under Article 12 does not automatically end every public-law inquiry.

[LIMIT] *Thalappalam* did not immunise all cooperatives from RTI forever. Ownership, pervasive control or substantial direct/indirect financing can alter the section 2(h) result; section 2(f) also preserves access to information that a public authority can lawfully obtain from a private body.

[CURRENT] No official Supreme Court decision from 2026 was verified as squarely replacing this framework. Claims of a new blanket Article 12 rule have therefore been excluded.

14. Strengths, Failures and Institutional Incentives

Visual 53 — Cooperative Theory of Change

SMALL MEMBERS

- > pool demand/output/capital
- > lower transaction cost + stronger bargaining
- > shared services and value addition
- > member income / access / resilience

CONDITIONS:

real participation + competent management + transparent accounts + market viability

Caption: Collective form produces benefit only through a functioning governance and business chain.

Visual 54 — Failure Chain

PASSIVE MEMBERSHIP

->

ENTRENCHED BOARD / POLITICAL CAPTURE

->

DELAYED ELECTIONS + WEAK AUDIT

->

RELATED-PARTY DECISIONS / POOR BUSINESS CHOICES

->

LOSS OF TRUST, CAPITAL AND MEMBER USE

Caption: Governance failure becomes economic failure through predictable institutional links.

Visual 55 — Strength-Failure Matrix

Dimension	Strength	Failure mode	Corrective lever
Ownership	Local commitment	Factional capture	Active membership and disclosure
Scale	Aggregation	Bureaucratic expansion	Subsidiarity and performance review
Democracy	Member voice	Election manipulation	Independent timely elections
Finance	Member capital	Thin capital base	Retained reserves and prudent instruments
Management	Local knowledge	Skill deficit	Professional board/CEO capacity
Regulation	Member protection	Overlap/conflict	Clear regulator coordination

Caption: Reform should repair the broken mechanism rather than merely add another institution.

Visual 56 — Example Discipline

GOOD USE:

"The dairy cooperative model shows how aggregation and processing can improve small-producer bargaining when procurement and governance work."

BAD USE:

"Amul proves all cooperatives are successful and should replace private firms."

Caption: An example proves a mechanism under conditions, not a universal law.

15. Reform Agenda: Autonomy With Accountability

[ANALYSIS] Reform should protect voluntary member control while imposing transparent, proportionate and function-specific accountability. Excessive governmental nomination can hollow autonomy; absence of prudential or fiduciary controls can harm members and depositors.

Visual 57 — Member-Centric Reform Package

Reform	Named problem addressed	Qualification
Independent timely elections	Entrenched boards	Election body must itself be accountable
Professional boards and CEOs	Capacity deficit	Expertise must not displace member control
Transparent audit and data	Delayed detection	Disclosure must be usable, not only filed
Member grievance redress	Internal power imbalance	Avoid duplicative forums and delay
Regulatory coordination	RBI/NABARD/Registrar overlap	Clarify lead role by function
Technology	Cost and traceability	Cybersecurity and inclusion safeguards

Caption: Each reform must be linked to a diagnosed failure and a safeguard.

Visual 58 — Autonomy-Accountability Matrix

	Low accountability	High accountability
Low autonomy	State-dependent and inefficient	Compliant but bureaucratised
High autonomy	Capture and prudential risk	Desired: member-led, transparent and viable

Caption: The constitutional aim is not maximum autonomy or maximum control in isolation.

Visual 59 — Reform Sequence

1. CLEAN MEMBERSHIP AND VOTER ROLLS
2. TIMELY INDEPENDENT ELECTION
3. CONFLICT DISCLOSURE + PROFESSIONAL CAPACITY
4. RISK-BASED AUDIT AND DIGITAL RECORDS
5. MEMBER INFORMATION + OMBUDSMAN
6. REGULATOR COORDINATION
7. PERIODIC OUTCOME REVIEW

Caption: Sequencing matters because audit cannot repair a board chosen through a compromised membership roll.

16. UPSC Answer Architecture

Visual 60 — 10/15/20-Mark Spine

Marks	Architecture	Evidence load
10	Define/status -> 3 provisions -> one case limit -> verdict	2-3 named Articles/entries/case
15	Thesis -> federal base -> amendment -> judgment -> statute/current layer -> balanced reform	4-6 legal anchors
20	Concept -> constitutional design -> federal litigation -> State/MSCS split -> banking/status issues -> reform	6-8 named anchors + compact visual

Caption: Marks scale dimensions and evidence, not merely word count.

Visual 61 — Prelims Close-Option Traps

Trap	Correct control
Article 43B is a Fundamental Right	DPSP
Article 19 gives unconditional recognition/aid	Formation right, subject to Article 19(4)
All cooperatives are Entry 32 only	MSCS use Entry 44; banking uses Entry 45
Whole 97th Amendment invalid	State-field Part IXB application invalid
Part IXB survives for every UT cooperative	Official judgment is narrower
Ministry replaces State Registrar	False
Every PACS is a bank	False
RTI public authority equals Article 12 State	False

Caption: Most objective errors replace a qualified rule with an absolute one.

Visual 62 — Claim-to-Evidence Unit

CLAIM:

The 2021 ruling is a federalism judgment.

NAMED EVIDENCE:

Entry 32 + proviso to Article 368(2) + Rajendra N. Shah.

ANALYSIS:

Part IXB conditioned State legislative power without ratification.

QUALIFICATION:

Article 19(1)(c), Article 43B and the MSCS field survived.

Caption: One complete unit is more valuable than four unconnected facts.

17. Current-Control and Source Ledger

Visual 63 — Claim-Risk Ledger

Claim family	Primary control	Deliberate limit
Articles and Seventh Schedule	Official Constitution PDF	Part IXB text qualified by 2021 judgment
97th Amendment dates/result	Official Amendment Act + official SC judgment	Act year not confused with assent year
Severability and UT reach	Official <i>Rajendra N. Shah</i> judgment, paras 77-80	No blanket “all UT cooperatives” claim
MSCS law	India Code consolidation as on 27 Jun 2025 + 2023 Gazette	No proposal described as enacted
Current compliance	Ministry official material through control date	No frozen disposal/society totals
Ministry/CRCS	Official Ministry pages	No current officeholder names
Banking	RBI notifications/press release + NABARD official supervision material	No claim that one regulator controls every function
Article 12/RTI	Official <i>Thalappalam</i> + settled cases	Unverified 2026 claim omitted

Caption: Current reliability comes from named first-party instruments and explicit limits.

Official and Local Sources Consulted

- [FACT] Legislative Department, **Constitution of India**, official English consolidation: Articles 19, 43B, 243ZH-243ZT and Seventh Schedule Entries 32, 44 and 45.
- [FACT] Legislative Department, **Constitution (Ninety-seventh Amendment) Act, 2011**.
- [FACT] Supreme Court of India, **Union of India v. Rajendra N. Shah***, Civil Appeal Nos. 9108-9109 of 2014, judgment dated 20 July 2021.
- [FACT] India Code, **Multi-State Co-operative Societies Act, 2002**, official consolidation marked as on 27 June 2025.
- [FACT] Gazette/Ministry of Cooperation, **Multi-State Co-operative Societies (Amendment) Act, 2023** and commencement notification; Amendment Rules, 2023.
- [CURRENT] Ministry of Cooperation, official pages on creation of the Ministry, Central Registrar, MSCS framework and National Cooperation Policy 2025; official compliance material checked to the control date.
- [FACT] RBI official material on the Banking Regulation (Amendment) Act, 2020, cooperative-bank capital, director-related lending and unauthorised use of “bank”.
- [FACT] NABARD official supervisory material on State Cooperative Banks, District Central Cooperative Banks and the exclusion of PACS from statutorily supervised entities.
- [FACT] Supreme Court of India, **Thalappalam Service Cooperative Bank Ltd. v. State of Kerala*** (2013).
- [FACT] ICA official Statement on Cooperative Identity; used as normative background, not as Indian statutory text.
- [FACT] Local owners: Polity/basic/Cooperative-Societies.md, Polity/advanced/39_Cooperative-Societies.md, Fundamental Rights, DPSP, amendment, federalism, Centre-State relations, Panchayati Raj, rural-credit and banking owners.
- [FACT] All relevant local PYQ routing and integration-audit ledgers, plus OCR-searchable official/local 2020, 2021 and 2023 Prelims papers.

Current-Law Limits

- [LIMIT] No current minister, officeholder or authority-member name is frozen.
- [LIMIT] No society count, PACS-computerisation total, portal usage, election/complaint total or financial aggregate is frozen.
- [LIMIT] The Rs 500 crore concurrent-audit line is stated as a current officially reported notified threshold, not immutable section text.
- [LIMIT] National Cooperation Policy 2025, model bye-laws, portals and schemes do not amend legislative competence.
- [LIMIT] Part IXB specifics are not generalised to State-field societies as binding constitutional commands.
- [LIMIT] No unverified 2026 Article 12 judgment is included.

PYQ, Practice and Solved Workbook

A. PYQ Routing Audit

[FACT] All local Prelims and Mains routing/audit ledgers were searched for “cooperative”, “co-operative”, “97th Amendment”, “Part IXB”, “Article 43B”, “Multi-State” and “Rajendra N. Shah”.

[LIMIT] No direct standalone Polity PYQ on the 97th Amendment, Part IXB or *Rajendra N. Shah* was verified in the routed corpus. Three genuinely adjacent Prelims PYQs were verified from the official/local papers: **2020 Q59 on DCCBs**, **2021 Q5 on UCBs**, and **2023 Q26 on Small Farmer Large Field**. They remain labelled adjacent Economy/agriculture questions and are not relabelled as direct Polity PYQs.

Visual 64 — Verified PYQ Coverage

Year/paper	Question	Relationship to topic	Key status
2020 Prelims GS-I Q59	DCCB agricultural-credit role	Adjacent cooperative-banking route	Inferred; official key unavailable locally
2021 Prelims GS-I Q5	UCB regulation/features	Adjacent cooperative-banking route	Inferred; official key unavailable locally
2023 Prelims GS-I Q26	Small Farmer Large Field	Adjacent cooperative-production route	Inferred; official key unavailable locally
Mains/direct Polity	None verified	No invented PYQ	Original practice clearly labelled

Caption: Routing relevance does not permit changing an Economy question into a Polity PYQ.

B. Verified Adjacent Prelims PYQs

PYQ 1 — 2020 Prelims GS-I Q59

Consider the following statements: 1. In terms of short-term credit delivery to the agriculture sector, District Central Cooperative Banks (DCCBs) deliver more credit in comparison to Scheduled Commercial Banks and Regional Rural Banks. 2. One of the most important functions of DCCBs is to provide funds to the Primary Agricultural Credit Societies. Which of the statements given above is/are correct? (a) 1 only (b) 2 only (c) 1 and 2 (d) Neither 1 nor 2

INFERRED KEY — NOT OFFICIALLY VERIFIED LOCALLY: B — 2 only. Confidence: high.

[FACT] DCCBs are an intermediate tier linking State Cooperative Banks and PACS and provide funds to PACS. Statement 1's comparative claim is not correct.

Visual 65 — DCCB Elimination Route

Statement 2 -> core tier function: DCCB funds/supports PACS -> true
Statement 1 -> overstates DCCB share relative to scheduled commercial banks -> false
Result -> statement 2 only -> option B

Caption: UPSC tested functional hierarchy and a misleading comparative claim.

PYQ 2 — 2021 Prelims GS-I Q5

With reference to "Urban Cooperative Banks" in India, consider the following statements: 1. They are supervised and regulated by local boards set up by the State Governments. 2. They can issue equity shares and preference shares. 3. They were brought under the purview of the Banking Regulation Act, 1949 through an Amendment in 1966. Which of the statements given above is/are correct? (a) 1 only (b) 2 and 3 only (c) 1 and 3 only (d) 1, 2 and 3

INFERRED KEY — NOT OFFICIALLY VERIFIED LOCALLY: B — 2 and 3 only. Confidence: high.

[FACT] UCB prudential regulation/supervision is not vested in State-created local boards. The legal framework permits capital instruments subject to RBI regulation, and UCBs were brought under the Banking Regulation Act's cooperative application in 1966.

Visual 66 — UCB Statement Audit

Statement	Verdict	Reason
1	False	RBI, not a State-created local board, supplies banking regulation/supervision
2	True	Equity/preference capital is permitted subject to law and RBI directions
3	True	1966 amendment brought cooperative banks into BR Act framework

Caption: Cooperative registration and banking supervision must not be fused.

PYQ 3 — 2023 Prelims GS-I Q26

Which one of the following best describes the concept of “Small Farmer Large Field”? (a) Resettlement of war-displaced people on a large collectively cultivated field (b) Many marginal farmers in an area organise into groups and synchronise and harmonise selected agricultural operations (c) Marginal farmers surrender land to a corporate body for a fixed term and payment (d) A company supplies loans, knowledge and inputs so farmers produce its required commodity

INFERRED KEY — NOT OFFICIALLY VERIFIED LOCALLY: B. Confidence: high.

[FACT] The concept preserves small holdings while coordinating selected operations for scale. It is not land surrender, refugee resettlement or contract farming.

Visual 67 — Collective Operation Without Land Surrender

SEPARATE SMALL HOLDINGS
+
GROUP COORDINATION OF SELECTED OPERATIONS
=
LARGE-FIELD ECONOMIES OF SCALE

Ownership need not be transferred to a company or collective.

Caption: The cooperative insight is operational pooling, not compulsory ownership consolidation.

C. Original MCQs — 36 Questions

MCQ 1

Which description best captures a cooperative?

A. A jointly owned, democratically controlled enterprise formed voluntarily to meet common member needs B. A government department delivering subsidies to registered members C. A company in which voting must always equal capital contribution D. A charitable trust prohibited from economic activity

Answer: A.

Explanation: [FACT] The ICA definition centres voluntary association, common needs, joint ownership and democratic control. A cooperative may conduct substantial economic activity.

MCQ 2

The seven ICA cooperative principles are best understood in India as:

A. Directly enforceable constitutional commands for every society B. Normative principles whose enforceability depends on incorporation into applicable law or bye-laws C. RBI directions binding on all non-banking cooperatives D. Rules applicable only to dairy cooperatives

Answer: B.

Explanation: [FACT] The principles are normative globally. The MSCS Act's First Schedule gives them statutory relevance in that field; State-law force depends on the applicable enactment.

MCQ 3

Incorporation, regulation and winding up of a cooperative society whose objects are confined to one State ordinarily fall under:

A. Union List Entry 43 B. Concurrent List C. State List Entry 32 D. Union List Entry 45

Answer: C.

Explanation: [FACT] Entry 32 expressly includes cooperative societies in the State legislative field.

MCQ 4

The constitutional legislative base for corporations whose objects are not confined to one State, including the MSCS framework, is:

A. State List Entry 32 B. Union List Entry 43 C. Concurrent List Entry 20 D. Union List Entry 44

Answer: D.

Explanation: [FACT] Entry 44 covers corporations, trading or not, with objects not confined to one State.

MCQ 5

The 97th Amendment added “co-operative societies” to:

A. Article 19(1)(c) B. Article 21 C. Article 39(b) D. Article 51A

Answer: A.

Explanation: [FACT] Article 19(1)(c) now expressly protects citizens’ right to form associations, unions or cooperative societies.

MCQ 6

Article 43B directs the State to promote:

A. Compulsory State ownership of cooperative assets B. Voluntary formation, autonomous functioning, democratic control and professional management C. Uniform central registration of every cooperative D. Banking licences for all PACS

Answer: B.

Explanation: [FACT] Article 43B is a DPSP containing the four stated objectives. It is not a licensing provision.

MCQ 7

Which set accurately states the three constitutional changes made by the 97th Amendment?

A. Article 14, Article 39A and Part IXA B. Article 19(1)(g), Article 43A and Part X C. Article 19(1)(c), Article 43B and Part IXB D. Article 21, Article 48 and Part IX

Answer: C.

Explanation: [FACT] The amendment created a Fundamental Right anchor, a DPSP and a dedicated cooperative-governance Part.

MCQ 8

The express restriction clause applicable to Article 19(1)(c) is:

A. Article 19(2) B. Article 19(3) C. Article 19(5) D. Article 19(4)

Answer: D.

Explanation: [FACT] Article 19(4) permits reasonable restrictions in the interests of sovereignty and integrity of India, public order or morality.

MCQ 9

Why was Part IXB invalidated in its application to State-field cooperatives?

A. It altered the State legislative field without the ratification required by Article 368(2) proviso B. Parliament lacked the special majority in both Houses C. Article 43B violated the basic structure D. The President withheld assent

Answer: A.

Explanation: [FACT] *Rajendra N. Shah* treated the missing half-State ratification as fatal because Part IXB constrained Entry 32.

MCQ 10

After *Rajendra N. Shah*, which pair unquestionably remained untouched?

- A. Articles 243ZI and 243ZK for State cooperatives B. Article 19(1)(c) and Article 43B C. Every Part IXB command for every UT society D. State List Entry 32 and Article 243ZT as a permanent transition

Answer: B.

Explanation: [FACT] The FR and DPSP amendments were not struck down. The State-field application of Part IXB did not survive.

MCQ 11

Which statement most accurately captures the majority's Union Territory holding?

- A. Part IXB was wholly invalid even for MSCS in UTs B. Every society confined within a UT is governed by Part IXB C. Part IXB survives for multi-State cooperative societies, including their operation in UTs; paragraph 78 rejects blanket application to a society confined within one UT D. Article 243ZS was expressly deleted

Answer: C.

Explanation: [FACT] Paragraphs 78 and 80 must be read together. "MSCS in States and UTs" is more accurate than "all UT cooperatives".

MCQ 12

Article 243ZI concerns:

- A. Cooperative offences B. Board supersession C. Member information D. Incorporation, regulation and winding up based on specified cooperative principles

Answer: D.

Explanation: [FACT] Article 243ZI names voluntary formation, democratic member control, member economic participation and autonomous functioning.

MCQ 13

Under Article 243ZJ, the maximum number of directors is:

- A. 21 B. 15 C. 18 D. 25

Answer: A.

Explanation: [FACT] The constitutional ceiling is 21, subject to the separate treatment of permitted co-opted and functional directors.

MCQ 14

The Part IXB reservation rule is best stated as:

- A. One SC seat, one ST seat and one women's seat in every cooperative B. One SC or ST seat and two women's seats for a society of individual members having members from those categories C. Reservation only if the government has share capital D. Reservation entirely left to bye-laws

Answer: B.

Explanation: [FACT] The constitutional text contains the membership-category qualification and uses one seat for SC or ST plus two for women.

MCQ 15

A co-opted expert under Article 243ZJ:

A. Must be elected by all members B. Counts within the 21-director ceiling and may become president C. May be one of up to two experts beyond the ceiling but cannot vote in office-bearer elections or become an office bearer D. Must be a serving government officer

Answer: C.

Explanation: [FACT] Co-option adds expertise while preserving elected control over office-bearer choice.

MCQ 16

The term of elected board members and office bearers under Article 243ZJ is:

A. Three years B. Four years C. Six years D. Five years

Answer: D.

Explanation: [FACT] The term is five years from election and the office-bearer term is conterminous with the board.

MCQ 17

Article 243ZK seeks continuity by requiring:

A. Election before expiry so the new board assumes office immediately after the outgoing term B. Election within six months after board expiry C. Appointment of an administrator for every election D. Election by the Election Commission of India

Answer: A.

Explanation: [FACT] The election must precede expiry. The competent authority/body is created by the applicable law, not the ECI.

MCQ 18

Under Article 243ZL's text, a board should not be superseded where:

A. The society has any overdue return B. There is no government shareholding, loan, financial assistance or guarantee C. The society has individual members D. The Registrar has ordered an audit

Answer: B.

Explanation: [FACT] The no-government-financial-link proviso protects autonomy against supersession under this constitutional mechanism.

MCQ 19

Which is a recognised ground in Article 243ZL for supersession or suspension?

A. A member's disagreement with dividend policy B. Failure to adopt a Union model bye-law C. Persistent default, negligence, prejudicial act, board stalemate or election-authority failure D. Refusal to receive a government loan

Answer: C.

Explanation: [FACT] The article lists specific governance breakdowns. It does not authorise supersession for any policy disagreement.

MCQ 20

Article 243ZM requires the accounts to be audited:

- A. Within three months of every quarter B. Only when the Registrar orders C. Before the board election D. Within six months of the close of the relevant financial year

Answer: D.

Explanation: [FACT] Annual audit and the six-month completion rule are distinct requirements.

MCQ 21

Article 243ZP requires returns to be filed:

- A. Within six months of financial-year close B. Within thirty days of every board meeting C. Once every five years D. Only by apex societies

Answer: A.

Explanation: [FACT] The returns include annual activity, audited accounts, surplus plan, bye-law changes, meeting/election declaration and other required information.

MCQ 22

Article 243ZR applies Part IXB to MSCS by:

- A. Deleting every reference to State institutions B. Reading State Legislature/Act/Government references as Parliament/Central Act/Central Government C. Giving State Registrars concurrent authority over MSCS D. Applying only Article 243ZH

Answer: B.

Explanation: [FACT] This reference-substitution device enabled the majority to treat the MSCS scheme as severable.

MCQ 23

Which statement about State cooperatives after the 2021 judgment is correct?

- A. They are wholly outside constitutional rights B. They are governed directly by every Part IXB detail C. State law governs them, while Article 19(1)(c), Article 43B and general constitutional review remain relevant D. The Central Registrar replaces the State Registrar

Answer: C.

Explanation: [FACT] The governance field returned to State law; the separate FR and DPSP anchors remain.

MCQ 24

The Co-operative Election Authority under the amended MSCS Act consists of:

- A. A Chairperson and exactly five Members B. The Central Registrar alone C. A Chairperson, Vice-Chairperson and exactly three Members D. A Chairperson, Vice-Chairperson and not more than three Members

Answer: D.

Explanation: [FACT] Section 45 states a ceiling, not a permanently filled exact strength.

MCQ 25

An MSCS in profit for the preceding three financial years contributes annually to the statutory Fund:

- A. Rs 1 crore or 1% of net profit, whichever is less B. Rs 1 crore or 1% of turnover, whichever is more C. 5% of net profit without a ceiling D. Only when declared sick

Answer: A.

Explanation: [FACT] Section 63A uses net profit, a three-year profitability condition and the lower of the two amounts.

MCQ 26

Current official Ministry material applies concurrent audit to MSCS having annual turnover or deposits:

- A. Of Rs 100 crore or more B. Above Rs 500 crore C. Above Rs 1,000 crore only D. At any amount chosen by the society

Answer: B.

Explanation: [CURRENT] Section 70A leaves the amount to Central Government determination; official current material reports the above-Rs-500-crore threshold.

MCQ 27

The Co-operative Ombudsman's statutory complaint jurisdiction includes:

- A. Every public grievance against any State cooperative B. Criminal prosecution of directors C. Member complaints concerning deposits, equitable benefits or individual-right issues in an MSCS D. Inter-State river disputes

Answer: C.

Explanation: [FACT] Section 85A is member-centred and MSCS-specific. It does not replace criminal courts or State forums.

MCQ 28

Under section 106, the Co-operative Information Officer must ordinarily provide information or reject with reasons within:

- A. Seven days B. Fifteen days C. Forty-five days D. Thirty days

Answer: D.

Explanation: [FACT] The member may appeal a rejection to the Ombudsman within one month.

MCQ 29

A State cooperative may merge into an existing MSCS under section 17(10) when:

- A. A two-thirds majority of members present and voting resolves, subject to the applicable State cooperative law B. The Ministry issues an executive press release C. RBI approves even if it is not a bank D. A simple board majority decides without member notice

Answer: A.

Explanation: [FACT] The 2023 route preserves the State-law qualification and member resolution.

MCQ 30

Which statement about the Ministry of Cooperation is correct?

- A. It was created by constitutional amendment B. It was created by executive allocation of business and does not replace State legislative competence C. It is the Registrar for every Indian cooperative D. It controls cooperative-bank adjudication

Answer: B.

Explanation: [FACT] The Ministry was created on 6 July 2021 through executive reallocation. Entries 32, 44 and 45 remain controlling.

MCQ 31

Urban Cooperative Banks are best described as:

- A. Regulated solely by municipal law B. State departments supervised only by the Registrar C. Cooperative entities under the applicable cooperative law with RBI banking regulation/supervision D. PACS automatically converted into companies

Answer: C.

Explanation: [FACT] Their cooperative identity and prudential banking regulation coexist.

MCQ 32

Which statement about PACS is most accurate?

- A. Every PACS has an RBI banking licence B. NABARD statutorily supervises PACS exactly like DCCBs C. PACS may accept public deposits and use “bank” without restriction D. PACS operate principally under State cooperative law and are not among NABARD’s statutorily supervised entities

Answer: D.

Explanation: [FACT] PACS are foundational cooperative credit institutions but not automatically regulated banks.

MCQ 33

For Article 12 status, the decisive inquiry is whether:

- A. Government financially, functionally and administratively dominates the body through pervasive rather than merely regulatory control B. The body is registered under any statute C. Any officer can inspect its books D. It receives any minor concession

Answer: A.

Explanation: [FACT] *Pradeep Kumar Biswas* requires a body-specific control inquiry; statutory regulation alone is insufficient.

MCQ 34

Thalappalam held that:

- A. All cooperatives are Article 12 State B. Kerala cooperatives were not automatically RTI public authorities absent ownership, control or substantial financing by government C. The RTI Act never applies to a cooperative D. Registrar supervision is always pervasive control

Answer: B.

Explanation: [FACT] The holding was evidence- and statute-specific, not a universal immunity.

MCQ 35

Article 226 may reach a cooperative that is not Article 12 “State” when:

- A. Any private contractual dispute is alleged B. The member dislikes a bye-law C. The challenged action concerns performance of a public or statutory duty D. The society has more than one office

Answer: C.

Explanation: [FACT] Article 226 is broader than Article 12, but the remedy must connect to a public-law duty.

MCQ 36

Which reform formulation best balances cooperative autonomy and accountability?

- A. Permanent government supersession of elected boards B. Complete deregulation because members bear all risk
C. Replacement of members by nominated experts D. Timely independent elections, professional capacity, transparent audit, member remedies and function-wise regulator coordination

Answer: D.

Explanation: [ANALYSIS] The balanced model protects democratic ownership while addressing fiduciary, prudential and information failures.

Visual 68 — Original MCQ Coverage Grid

MCQs	Coverage
1-8	Identity, principles, entries, FR/DPSP
9-16	Judgment and Part IXB board rules
17-24	Election, supersession, compliance, State/MSCS split
25-32	2023 reform, Ministry and cooperative banks
33-36	Article 12, RTI, writs and reform

Caption: The objective set covers constitutional, statutory, banking and rights dimensions.

D. Remedial MCQs — 12 Questions

Visual 69 — Remedial Error Map

RIGHT TO FORM != RIGHT TO AID
PART IXB TEXT != BINDING STATE-COOPERATIVE LAW
MSCS IN UT != EVERY UT-CONFINED SOCIETY
ICA PRINCIPLE != AUTOMATIC ENFORCEABLE RULE
COOPERATIVE CREDIT != RBI-LICENSED BANKING
ARTICLE 12 != ARTICLE 226 != RTI SECTION 2(h)

Caption: The remedies target the six most likely category errors.

Remedial MCQ 37

Article 19(1)(c) most directly protects:

- A. Formation of cooperative societies, not an unconditional claim to recognition, subsidy or a chosen management structure B. Guaranteed State purchase of cooperative output C. Immunity from audit D. Automatic registration of every application

Answer: A.

Explanation: [FACT] Formation is expressly protected and remains subject to Article 19(4). Consequential benefits require an independent legal source.

Remedial MCQ 38

Which statement about the 2021 judgment is correct?

A. It struck Article 43B alone B. It did not strike the entire 97th Amendment; the FR and DPSP changes survived separately C. It transferred State cooperatives to Parliament D. It invalidated the MSCS Act, 2002

Answer: B.

Explanation: [FACT] The case concerned Part IXB's unratified alteration of the State field. Article 19(1)(c), Article 43B and the statutory MSCS law remained.

Remedial MCQ 39

The safest statement on Union Territories after *Rajendra N. Shah* is:

A. Article 243ZS has no text B. Every UT society is bound by Part IXB C. Part IXB operates for MSCS in States and UTs, while paragraph 78 denies blanket application to a society confined within one UT D. UT cooperative law is exclusively a State legislative matter

Answer: C.

Explanation: [FACT] This formulation preserves both the operative order and the majority's specific reasoning.

Remedial MCQ 40

A State cooperative statute reproduces a five-year board term similar to Article 243ZJ. Its binding force after 2021 comes primarily from:

A. The ICA statement B. Article 43B alone C. A Ministry circular D. The valid State statute enacted under Entry 32

Answer: D.

Explanation: [FACT] State legislatures may independently choose similar standards. Similarity does not restore invalidated Part IXB application.

Remedial MCQ 41

Which is the best example of correct source labelling?

A. "Concern for community is an ICA principle; its enforceable content depends on the applicable statute and bye-laws." B. "ICA principles override the MSCS Act." C. "Every cooperative must follow every ICA explanatory note as constitutional law." D. "Article 43B is directly enforceable against a private board."

Answer: A.

Explanation: [FACT] Normative, constitutional-policy and statutory layers must be separated.

Remedial MCQ 42

The Co-operative Election Authority created in 2023:

A. Conducts Lok Sabha and cooperative elections B. Conducts MSCS elections under the Union statute, not elections of every State cooperative C. Is the same body as the Election Commission of India D. Is appointed by State Registrars

Answer: B.

Explanation: [FACT] Its jurisdiction follows the MSCS Act.

Remedial MCQ 43

Which society is statutorily required to make the section 63A contribution?

- A. Every cooperative, including a loss-making State society B. Only a society already declared sick C. An MSCS in profit for the preceding three financial years, subject to the lower-of-two amount D. Every RBI-regulated bank

Answer: C.

Explanation: [FACT] The contribution trigger and amount are both qualified.

Remedial MCQ 44

Why should the Rs 500 crore concurrent-audit threshold be written with a current-source label?

- A. Because section 70A has been struck down B. Because the threshold is an ICA recommendation C. Because only State law can specify it D. Because section 70A delegates the amount to Central Government determination rather than permanently writing Rs 500 crore into the section

Answer: D.

Explanation: [CURRENT] The threshold is officially reported and operative, but its legal form is delegated determination.

Remedial MCQ 45

Which statement correctly distinguishes a PACS from a DCCB?

- A. PACS is generally a primary cooperative credit society under State law; DCCB is a cooperative bank subject to RBI regulation and NABARD statutory supervision B. PACS and DCCB are identical legal categories C. PACS is regulated only by RBI D. DCCB is outside cooperative law

Answer: A.

Explanation: [FACT] The institutions occupy different tiers and regulatory positions.

Remedial MCQ 46

If a cooperative is not a “public authority” under RTI section 2(h):

- A. No information relating to it can ever be obtained B. Information that a public authority can access under another law may still be sought from that public authority under section 2(f) C. It automatically becomes Article 12 State D. Article 226 is barred

Answer: B.

Explanation: [FACT] *Thalappalam* preserves this distinction between direct RTI obligation and information accessible through a public authority.

Remedial MCQ 47

Which factor by itself is least sufficient to establish Article 12 status?

- A. Complete financial domination by government B. Functional governmental control and public character C. Ordinary statutory regulation by the Registrar D. Administrative domination particular to the body

Answer: C.

Explanation: [FACT] Merely regulatory control applies to many private bodies and does not establish government instrumentality.

Remedial MCQ 48

A high-quality Mains paragraph on cooperative federalism should:

A. List every Ministry initiative B. Quote Article 43B and stop C. Treat all cooperatives as Union subjects D. State a claim, name the Entry/Article/case, explain the federal consequence and add the State/MSCS qualification

Answer: D.

Explanation: [ANALYSIS] This follows the package's claim -> evidence -> analysis -> qualification discipline.

E. Original Solved Mains Practice — 8 Questions

Mains 1 — 10 marks | 150 words

“The 97th Constitutional Amendment survived, but not in the form originally expected.” Explain the present constitutional position of cooperative societies.

Visual 71 — Three-Change, One-Limit Spine

97TH AMENDMENT
-> Article 19(1)(c) survives
-> Article 43B survives
-> Part IXB survives only in valid multi-State field
-> State cooperatives return to State law

Model solution

The 97th Amendment gave cooperatives a three-layer constitutional position, but the Supreme Court later confined its governance layer to the field Parliament could validly reach.

First, [FACT] it added cooperative societies to **Article 19(1)(c)**. This protects citizens' freedom to form them, subject to reasonable restrictions under Article 19(4); it does not guarantee State aid, recognition or a preferred management system.

Second, [FACT] **Article 43B** directs the State to promote voluntary formation, autonomy, democratic control and professional management. As a DPSP, it guides law and policy but is non-justiciable.

Third, [FACT] it inserted **Part IXB**. In **Union of India v. Rajendra N. Shah (2021)**, the Court held that this Part altered the State legislative field under **Entry 32** without half-State ratification under Article 368(2). The majority therefore severed its State-field application but saved it for **multi-State cooperative societies under Entry 44**, including MSCS operations in Union Territories.

[LIMIT] Ordinary State cooperatives are governed by State law; States may enact similar standards independently.

Conclusion: The amendment's rights and policy anchors remain national, while detailed binding governance follows the restored State/MSCS federal divide.

Why this earns marks: It answers “present position”, separates all three changes, names the case and gives the exact qualification.

Mains 2 — 10 marks | 150 words

Does Article 19(1)(c) create an unconditional right to registration, aid and autonomous management of a cooperative society? Explain.

Visual 72 — Formation Right Funnel

RIGHT TO FORM
|
Article 19(4) reasonable restrictions
|
registration and governance under valid law
|
NO automatic aid / recognition / immunity

Model solution

No. Article 19(1)(c) expressly protects citizens' right to form cooperative societies, but it is a qualified freedom, not a bundle of guaranteed consequential benefits.

[FACT] **Article 19(4)** permits reasonable restrictions in the interests of sovereignty and integrity of India, public order and morality. [ANALYSIS] Therefore, a law that directly obstructs formation must satisfy this constitutional standard.

However, [FACT] the association doctrine distinguishes formation from every claimed consequence. Registration conditions, audit, member protection, solvency and election rules may arise from a valid State cooperative statute or the MSCS Act. The right does not compel the State to recognise any proposed body irrespective of legal requirements, grant subsidy or credit, purchase its output, or preserve a management arrangement contrary to applicable law.

[ANALYSIS] Autonomy remains constitutionally important through Article 43B, but autonomy means member-led functioning within law, not immunity from fiduciary, prudential or democratic accountability.

Conclusion: Article 19(1)(c) prevents unjustified suppression of cooperative formation; it does not constitutionalise State patronage or deregulation.

Why this earns marks: It directly rejects the absolute proposition, gives the restriction clause and distinguishes formation, regulation and benefit.

Mains 3 — 10 marks | 150 words

Map the governance architecture of Part IXB within its present surviving constitutional field.

Visual 73 — Part IXB Answer Strip

ZH definitions -> ZI incorporation principles -> ZJ board
-> ZK election -> ZL supersession -> ZM audit
-> ZN AGM -> ZO member information -> ZP returns
-> ZQ offences -> ZR MSCS -> ZS UT text -> ZT transition

Model solution

Part IXB creates a complete cooperative-governance cycle, but after **Rajendra N. Shah*** it should be stated only within its surviving multi-State field.

[FACT] Articles **243ZH-ZI** define the institution and base incorporation, regulation and winding up on voluntary formation, democratic member control, economic participation and autonomy. **243ZJ** limits directors to 21, provides qualified SC/ST and women's representation, permits expert co-option and fixes a five-year term. **243ZK-L** require pre-expiry elections and restrict supersession to listed grounds and time limits.

[FACT] Accountability follows through annual audit under **243ZM**, AGM under **243ZN**, member information and education under **243ZO**, six-month returns under **243ZP**, and offences under **243ZQ**.

[FACT] **243ZR** adapts State references to Parliament/Central institutions for MSCS; **243ZS** textually addresses UTs; **243ZT** is transitional.

[LIMIT] The Court's paragraph 78 rejects blanket Part IXB application to a cooperative confined within one UT. State-field societies are governed by State law.

Why this earns marks: It maps every article family while controlling the present reach instead of reciting invalidated general application.

Mains 4 — 15 marks | 250 words

Critically examine Union of India v. Rajendra N. Shah as a judgment on cooperative federalism and constitutional amendment procedure.

Visual 74 — Federalism Causal Chain

ENTRY 32 STATE POWER
->
PART IXB CONDITIONS STATE LEGISLATION
->
ARTICLE 368(2) RATIFICATION REQUIRED
->
RATIFICATION ABSENT
->
STATE-FIELD APPLICATION INVALID
->
MSCS SCHEME SAVED BY SEVERABILITY

Model solution

Rajendra N. Shah (2021) is best understood as a federalism judgment enforced through constitutional-amendment procedure, not as a rejection of cooperative reform.

Federal claim. [FACT] Cooperative societies confined to one State fall under **Entry 32, State List**. Part IXB prescribed incorporation principles, board composition, elections, supersession, audit and returns, thereby conditioning how State legislatures could exercise that field. [ANALYSIS] The change was substantive even though Entry 32's words were not formally amended.

Procedural evidence. [FACT] The proviso to **Article 368(2)** requires ratification by at least half of State Legislatures for specified federal changes. The 97th Amendment lacked that ratification. The majority therefore upheld invalidation insofar as Part IXB applied to State-field societies. This protects State consent against indirect centralisation.

Severability. [FACT] Article **243ZR** reads the Part for MSCS through Parliament and Central institutions. Because MSCS fall under **Entry 44, Union List**, the majority saved that scheme. It also left Article 19(1)(c) and Article 43B untouched. [ANALYSIS] The result preserved Parliament's legitimate field while correcting overreach.

Critical qualification. Justice K.M. Joseph's dissent considered the provisions too interdependent to survive severance. Further, the majority's UT reasoning requires care: paragraph 80 saves MSCS in States and UTs, while paragraph 78 rejects application to a society confined within one UT.

Verdict. The judgment strengthens cooperative federalism by requiring national reform to proceed through constitutionally valid MSCS law, State legislation, consent and coordination rather than an unratified uniform command.

Why this earns marks: It links Entry 32, Article 368, severability, dissent and the exact UT qualification to a reasoned federal verdict.

Mains 5 — 15 marks | 250 words

Assess whether the Multi-State Co-operative Societies (Amendment) Act, 2023 adequately balances democratic autonomy with governance accountability.

Visual 75 — 2023 Balance Sheet

Accountability gain	Autonomy concern	Safeguard needed
Election Authority	Centralised election administration	Transparent procedure and appeal
Concurrent audit	Compliance burden	Risk-based threshold
Ombudsman	External direction	Natural justice and timely appeal
Information Officer	Member transparency	Clear disclosure norms
Anti-nepotism rules	Board discretion reduced	Precise conflict definitions
Rehabilitation Fund	Collective support	Contribution/use accountability

Model solution

The 2023 Amendment meaningfully strengthens accountability in the multi-State field, but its success depends on preserving real member control and proportionate administration.

Democratic governance. [FACT] Sections 45-45L create a **Co-operative Election Authority**, require secret-ballot board elections and a six-month advance intimation before term expiry. [ANALYSIS] This directly addresses delayed or captured elections. [LIMIT] Independence must also be judged by transparent appointments, procedures and reasoned decisions.

Board integrity. [FACT] Section 41 retains a 21-director ceiling, qualified SC/ST and women's representation, expert co-option and new conflict/nepotism controls. These improve inclusion and fiduciary discipline; expertise should supplement rather than displace elected member authority.

Financial accountability. [FACT] Section 70A provides concurrent audit for notified large MSCS; current official material uses turnover/deposits above Rs 500 crore. National-society audit reports go to Parliament. [ANALYSIS] Risk-based scrutiny can detect irregularity earlier, but filing volume is not proof of effective audit.

Member remedies. [FACT] Section 85A creates an Ombudsman for specified member complaints; section 106 creates an Information Officer with a thirty-day response. These reduce internal information asymmetry.

Resilience. [FACT] Sections 63A-C create a contribution-funded rehabilitation and development mechanism, with RBI approval for a sick multi-State cooperative bank's reconstruction.

Verdict. The Act moves from Registrar-centric control toward elections, disclosure, grievance redress and risk-based audit. Its balance will be adequate only if implementation remains member-centric, digitally inclusive, procedurally fair and coordinated with banking regulators.

Why this earns marks: It tests the Act by mechanism, names exact provisions and gives a balanced implementation qualification.

Mains 6 — 15 marks | 250 words

“Cooperative banks face multiple regulation because they combine two legal identities.” Analyse.

Visual 76 — Two Identities, Three Regulators

COOPERATIVE IDENTITY

membership | registration | elections | bye-laws
-> State Registrar or Central Registrar

BANKING IDENTITY

licence | capital | prudential norms | depositor protection
-> RBI

RURAL SUPERVISION

StCB / DCCB statutory inspection
-> NABARD

Model solution

Cooperative banks are member-owned cooperative legal persons that also accept deposits and extend banking credit. Their multiple regulation follows from this dual character.

Cooperative-law layer. [FACT] An intra-State UCB, State Cooperative Bank or DCCB is incorporated under State cooperative law; an eligible multi-State cooperative bank uses the MSCS Act. Membership, bye-laws, elections and specified management matters therefore involve the relevant Registrar.

Prudential layer. [FACT] Banking is **Union List Entry 45**. RBI regulates covered cooperative banks under the Banking Regulation Act as applicable to cooperative societies. The 2020 Amendment strengthened RBI's role in governance, capital, audit, reconstruction and management-related controls; RBI material records staged application to UCBs and rural cooperative banks.

Supervisory layer. [FACT] NABARD statutorily supervises and inspects State Cooperative Banks and DCCBs under section 35(6), while PACS do not figure among NABARD's statutorily supervised entities.

Why overlap is necessary. [ANALYSIS] Member democracy cannot replace depositor protection, capital adequacy or connected-lending control. Conversely, prudential regulation should not erase cooperative participation.

Problems. Regulatory overlap can create conflicting directions, delayed corrective action and accountability diffusion. Political influence, weak professional capacity and poor credit discipline intensify these risks.

Reform. Define lead responsibility by function; share supervisory data; conduct fit-and-proper, conflict and audit review; professionalise boards; and preserve member information and election rights.

Verdict. Multiple regulation is structurally justified, but it must become coordinated regulation—autonomy for cooperative purpose with strict prudential accountability.

Why this earns marks: It derives each regulator from a distinct legal function and avoids the simplistic “RBI versus States” narrative.

Mains 7 — 20 marks | 250 words

A cooperative society is not automatically “State”, but it may still face public-law and transparency obligations. Discuss with reference to Article 12, Article 226 and the RTI Act.

Visual 77 — Status Is Question-Specific

ARTICLE 12 -> government instrumentality?

ARTICLE 226 -> public/statutory duty in challenged action?

RTI 2(h) -> created/owned/controlled/substantially financed?

RTI 2(f) -> can a public authority lawfully access the information?

Model solution

The statement is correct because Indian public law uses different tests for constitutional status, writ jurisdiction and information access.

Article 12. [FACT] Registration under a cooperative statute or ordinary Registrar supervision does not by itself make a society “State”. **Ajay Hasia** identified instrumentality indicators; the seven-judge bench in **Pradeep Kumar Biswas** asked whether government financially, functionally and administratively dominates the body through pervasive, body-specific control. [ANALYSIS] The test prevents the State from avoiding Fundamental Rights through an incorporated instrumentality while excluding merely regulated private bodies.

Article 226. [FACT] The High Court’s power extends to “any person or authority”. Under **Andi Mukta***, a writ may issue to a body performing a public duty even if it is not Article 12 State. [LIMIT] The remedy must relate to that public or statutory duty; a purely private membership or contract dispute does not automatically become public law.

RTI section 2(h). [FACT] In **Thalappalam Service Cooperative Bank***, the Supreme Court held that the concerned Kerala societies were not automatically public authorities absent evidence of government ownership, control or substantial direct/indirect financing. Registrar regulation was insufficient.

RTI section 2(f). [FACT] Even where the society is not itself a public authority, information relating to a private body that a public authority can access under another law may be sought from that public authority.

Application. A heavily government-dominated cooperative may satisfy Article 12; a different society may fail Article 12 yet face a writ for a statutory public duty; another may become an RTI public authority because of substantial finance.

Verdict. The correct approach is society-specific and remedy-specific, not the blanket proposition “cooperatives are private” or “cooperatives are State”.

Why this earns marks: It distinguishes all three tests, uses four named cases/provisions and shows how outcomes can legitimately differ.

Mains 8 — 20 marks | 250 words

Cooperatives can deepen inclusive development, yet democratic ownership alone does not guarantee democratic outcomes. Critically examine and suggest reforms.

Visual 78 — Development-to-Governance Balance

Development channel	Democratic risk	Reform response
Aggregation	Dominant-member capture	Transparent membership and voting
Last-mile credit	Connected lending	Prudential audit and conflict rules
Local ownership	Political factionalism	Independent timely elections
Shared surplus	Weak capital formation	Reserve and capital strategy
Community knowledge	Skill deficit	Professional management
Scale through federation	Bureaucratisation	Subsidiarity and member information

Model solution

Cooperatives can convert dispersed producers, consumers and borrowers into an institution with scale, bargaining power and local ownership. However, legal membership is only the starting condition for democratic development.

Inclusive potential. [ANALYSIS] Aggregation can lower transaction costs, improve price negotiation and enable shared processing, marketing, housing or credit. Dairy cooperatives such as the Amul model illustrate how member procurement, processing and market access can be linked. [LIMIT] The example proves a mechanism under supportive governance, not universal success.

Democratic value. [FACT] Article 19(1)(c) protects formation; Article 43B promotes voluntary, autonomous, democratic and professionally managed cooperatives. Member economic participation can retain value locally and improve last-mile access.

Failure mechanisms. Passive membership enables entrenched boards; politicised elections weaken autonomy; delayed audits conceal related-party decisions; thin capital and weak professional capacity reduce competitiveness. In cooperative banks, poor credit discipline also threatens depositors, requiring RBI/NABARD oversight.

Federal challenge. [FACT] State-field cooperatives remain under State law after **Rajendra N. Shah***, while MSCS use Part IXB and the amended 2002 Act. [ANALYSIS] Reform quality may therefore vary, making coordination preferable to a constitutionally invalid uniform command.

Reforms.

1. Clean membership and voter rolls with timely independent elections.
2. Professional boards/management with elected-member control and conflict disclosure.
3. Risk-based audit, usable public/member data and early-warning systems.
4. Information Officers, credible grievance redress and protected whistleblowing.
5. Clear RBI-NABARD-Registrar coordination for banks.
6. Technology with cybersecurity, accessibility and offline inclusion.
7. Outcome review based on member use and benefit, not registration counts.

Verdict. Cooperatives succeed when autonomy, participation, professionalism and accountability reinforce one another; democratic form without active members can merely decentralise capture.

Why this earns marks: It connects development mechanisms to failure mechanisms, uses constitutional/statutory evidence and proposes matched, qualified reforms.

Visual 79 — Eight-Answer Reuse Matrix

Question family	Reusable anchors
Constitutional status	Articles 19(1)(c), 43B, Part IXB
Federalism	Entries 32/44, Article 368(2), <i>Rajendra N. Shah</i>
Governance	243ZJ-ZQ, 2023 Amendment
Banking	Entry 45, RBI, NABARD, Registrar
Rights/status	<i>Ajay Hasia</i> , <i>Pradeep Kumar Biswas</i> , <i>Thalappalam</i> , Article 226
Reform	elections, audit, professional capacity, member information, coordination

Caption: Reuse named evidence, but tailor the thesis and dimensions to the directive.

Final Consolidated Register Notes

Constitutional Identity and Federal Base

Rapid thesis: [FACT] Cooperative societies combine a protected freedom of formation, a DPSP policy anchor and a territorially divided statutory regime; detailed constitutional governance survives only in the valid multi-State field.

Visual 80 — One-Page Master Map

COOPERATIVE
 |
 +-> Article 19(1)(c): qualified right to form
 +-> Article 43B: voluntary + autonomous + democratic + professional
 |
 +-> confined to one State -> Entry 32 -> State Act/Registrar
 +-> objects beyond one State -> Entry 44 -> MSCS Act/C RCS
 +-> banking activity -> Entry 45 -> RBI (+ NABARD for StCB/DCCB supervision)
 |
 +-> Part IXB -> operative for MSCS after Rajendra N. Shah

Cooperative Principles: Source Control

Principle	Recall	Source caution
Voluntary/open membership	Entry by choice and responsibility	ICA norm; statute/bye-laws control legal detail
Democratic member control	Member voice	Exact voting rule is law-specific
Economic participation	Equitable member contribution/control	Not a ban on all external capital
Autonomy	Member-led institution	Not regulatory immunity
Education	Member/representative capacity	Implementation must be real
Cooperation among cooperatives	Scale through networks	Avoid bureaucratic federation
Concern for community	Sustainable community policy	Not an unlimited charitable mandate

Evolution and Critical Dates

1904 credit law -> 1912 broader law -> 1919/1935 provincial subject
-> 1950 Entry 32/44 split
-> 27-28 Dec 2011 Parliament passes 97th
-> 12 Jan 2012 assent -> 13 Jan publication -> 15 Feb commencement
-> 20 Jul 2021 Rajendra N. Shah
-> 6 Jul 2021 Ministry created
-> 3/4 Aug 2023 MSCS Amendment Act/Rules
-> National Cooperation Policy 2025

97th Amendment: Three Separate Effects

Change	Status after 2021	Trap
Article 19(1)(c)	Survives	Formation, not guaranteed recognition/aid
Article 43B	Survives	DPSP, non-justiciable
Part IXB	State-field application invalid; MSCS field survives	Do not say entire Amendment struck

Rajendra N. Shah Federalism Note

- [FACT] Entry 32 gave States the intra-State cooperative field.
- [FACT] Part IXB substantially conditioned that field.
- [FACT] Article 368(2) proviso therefore required half-State ratification.
- [FACT] Ratification was absent.
- [FACT] Majority severed the invalid State-field application.
- [FACT] Article 243ZR saved the MSCS scheme under Entry 44.
- [LIMIT] Para 78: no Part IXB application to a cooperative confined within one UT.
- [FACT] Para 80: Part IXB operative for MSCS within States and in UTs.
- [ANALYSIS] Best formula: **“MSCS in States and UTs”, not “MSCS plus every UT society”**.

Visual 81 — Part IXB Recall Chain

ZH Define
ZI Incorporate
ZJ Board
ZK Elect
ZL Supersede
ZM Audit

Part IXB Numeric and Qualification Sheet

Item	Recall
Board ceiling	21
Reservation	1 SC or ST + 2 women; individual membership/category qualification
Co-opted experts	Up to 2 beyond 21; no office-bearer-election vote; no office
Board term	5 years
General supersession ceiling	6 months
No-government-finance protection	No supersession under text where no share/loan/assistance/guarantee
Audit	Annual; complete within 6 months
AGM	Within 6 months of year close
Returns	Within 6 months

State and Multi-State Regimes

Question	State society	MSCS
Law	State Act	MSCS Act 2002
Registrar	State Registrar	Central Registrar
Part IXB detail	Not binding constitutional command	Operative
Similar standards	May come from State law	Constitution + statute
Banking overlay	Add if covered	Add if covered

2023 MSCS Reform Recall

Mnemonic: “E-B-A-G-I-R-M” Election Authority | Board integrity | Audit | Grievance Ombudsman | Information Officer | Rehabilitation Fund | Merger route

- [FACT] Election Authority: Chairperson + Vice-Chairperson + not more than 3 Members.
- [FACT] Secret ballot; five-year board; six-month advance election intimation.
- [FACT] Section 41: 21 ceiling, qualified representation, conflict/nepotism controls.
- [FACT] Section 63A: profitable previous three years; Rs 1 crore or 1% net profit, lower.
- [FACT] Section 63B: statutory sickness test; RBI approval for bank reconstruction.
- [FACT] Section 70A: concurrent audit for government-determined large-society threshold.
- [CURRENT] Official current threshold: turnover/deposits above Rs 500 crore.
- [FACT] Section 85A: member deposits/equitable benefits/individual rights; three-month adjudication target.
- [FACT] Section 106: Information Officer; 30-day provide/reject; Ombudsman appeal.
- [FACT] State cooperative-to-MSCS merger: two-thirds present/voting, subject to State Act.

Ministry and Policy Boundary

Ministry = executive Union policy/administration
 CRCS = statutory MSCS registrar
 State Registrar = State-law society administration
 Policy/model bye-law/portal != constitutional competence transfer

Cooperative Banking Sheet

Institution	Key control
UCB	Cooperative law + RBI
State Cooperative Bank	State law + RBI regulation + NABARD supervision
DCCB	State law + RBI regulation + NABARD supervision
PACS	State law; not automatically RBI-licensed bank; not NABARD statutory supervised entity

- [FACT] 2020 banking amendment: stronger RBI governance/prudential role for covered cooperative banks.
- [FACT] UCB application deemed from 29 June 2020; rural cooperative banks from 1 April 2021.
- [LIMIT] RBI prudential control does not erase Registrar/member-law functions.
- [LIMIT] PACS must not be equated with a licensed bank.

Article 12, Writ and RTI

ARTICLE 12:
 Ajay Hasia indicators -> Pradeep Kumar Biswas domination/pervasive-control test
 ordinary regulation alone insufficient

ARTICLE 226:
 broader; public/statutory duty can attract writ

RTI:
 Thalappalam -> no automatic section 2(h) status
 ownership/control/substantial finance are fact-specific
 section 2(f) can reach information accessible to a public authority

Governance Strengths and Failure Chains

Strength	Failure	Reform
Aggregation	Managerial weakness	Professional capacity
Local ownership	Elite/political capture	Active membership and disclosure
Democratic election	Delay/manipulation	Independent timely process
Last-mile credit	Connected lending	Prudential oversight
Shared surplus	Thin capital	Reserve/capital strategy
Federation/scale	Bureaucratisation	Subsidiarity and member information

Visual 82 — Reform Answer Spine

MEMBER-CENTRIC GOVERNANCE

- + timely independent elections
- + professional board/CEO with conflict rules
- + transparent risk-based audit and data
- + Information Officer and grievance redress
- + RBI-NABARD-Registrar coordination
- + secure, inclusive technology
- = autonomy with prudential and democratic accountability

Prelims Trap Register

1. Part IXA = Municipalities; Part IXB = Cooperatives.
2. Article 19(1)(c) = FR; Article 43B = DPSP.
3. Entry 32 = intra-State societies; Entry 44 = objects not confined to one State.
4. Entry 45 banking can overlay either cooperative-law base.
5. Whole 97th Amendment was not struck down.
6. State cooperatives are not bound by Part IXB specifics after 2021.
7. "All UT cooperatives covered" is unsafe.
8. 21 is board ceiling; co-opted/functional qualifications matter.
9. Reservation rule is qualified by individual/category membership.
10. Election Authority under MSCS Act is not ECI or a State-wide cooperative body.
11. Rs 500 crore is a current notified threshold, not permanent section wording.
12. Ministry of Cooperation does not replace State Registrars.
13. PACS is not automatically a bank.
14. Article 12, Article 226 and RTI section 2(h) use different tests.
15. ICA principle is not automatically enforceable law.

PYQ Route and Answer Framework

- [FACT] No direct standalone routed Polity PYQ was verified.
- [FACT] Adjacent verified papers: 2020 DCCB, 2021 UCB, 2023 Small Farmer Large Field.
- [LIMIT] Their keys are labelled inferred because official keys were unavailable locally.

10-mark: define/status -> three constitutional changes -> *Rajendra* limit -> verdict. **15-mark:** federal entries -> amendment procedure -> severance -> State/MSCS regimes -> current statute -> balanced conclusion. **20-mark:** concept/principles -> constitutional/federal architecture -> Part IXB/statute -> banking/status/governance -> reform.

Final 20-Second Recall

19(1)(c) FORM
43B PROMOTE
IXB GOVERN
ENTRY 32 STATE
ENTRY 44 MULTI-STATE
ENTRY 45 BANKING
RAJENDRA = RATIFICATION + SEVERANCE
2023 = ELECTION + AUDIT + OMBUDSMAN + INFORMATION + FUND
THALAPPALAM = NOT AUTOMATIC RTI PUBLIC AUTHORITY
REFORM = MEMBER CONTROL + PROFESSIONAL / PRUDENTIAL ACCOUNTABILITY
