

COMPLETE LEARNING SESSION

Indian Diaspora, Consular Protection and Soft Power - Learner-v2 Refreshed

UPSC complete learning session | Foundation to advanced | Concepts, evidence, practice and answer writing

Original deterministic study visual; labels are explanatory, not textual quotations.

Source order: repository knowledge -> official current linkage -> clearly marked analysis. No fabricated PYQs or statistics.

CONTENTS / SESSION INDEX

Major learning parts and meaningful subtopics are listed in document order. Page numbers are generated from the final PDF layout; PDF bookmarks mirror the same hierarchy.

Indian Diaspora, Consular Protection and Soft Power - Learner-v2 Complete Learning Session . . . 7

SOURCE, PROGRESSION AND CURRENT-LINKAGE AUDIT 7

LIVE OFFICIAL-SOURCE ATTEMPT LOG 8

BASIC LEARNING SESSION 8

SESSION 1 - FOUNDATION - WHAT THIS DIASPORA OWNER HOLDS AND HOW ITS BOUNDARIES ARE ROUTED 9

SESSION 2 - FOUNDATION - FOUR CATEGORIES AND THE EXACT STATUS OF EVERY NUMBER 11

SESSION 3 - FOUNDATION - WHAT OVERSEAS CITIZEN OF INDIA STATUS IS AND IS NOT 13

SESSION 4 - CORE - THE DATED CONVENING INSTRUMENT AND ITS HONEST SILENCE 15

SESSION 5 - CORE - THE GRIEVANCE PORTAL AND THE WELFARE STACK BEHIND IT 17

SESSION 6 - CORE - THE CLEARANCE CATEGORY AS THE LEGAL HINGE OF PROTECTION 19

SESSION 7 - CORE - THE TREATY FRAME AND THE LIMIT OF ARTICLE 36 21

SESSION 8 - CORE - CASELOAD, SCALE AND THE HONEST READING OF BOTH 23

SESSION 9 - CORE - REMITTANCES AS LINKAGE, NOT AS THE POLITICAL ANSWER 25

SESSION 10 - CORE - THE COMPOSITION SHIFT AND THE INSTRUMENT MISMATCH IT EXPOSES 27

SESSION 11 - CORE - THE SOFT-POWER INVENTORY IN THE SOURCE'S OWN TERMS 29

SESSION 12 - CORE - NOW-REQUIRED-INDIANS AS A CONDITIONAL POLICY ARGUMENT 31

SESSION 13 - CORE SYNTHESIS - FRAGMENTATION AND AUTHENTICITY AS THE TWO INTERNAL
CONSTRAINTS 33

SESSION 14 - CORE SYNTHESIS - TECHNICAL COOPERATION, ITS CULTURAL ROLE AND ITS REGIONAL LIMIT . . . 35

SESSION 15 - CORE SYNTHESIS - POLITICAL INFLUENCE, ITS LIMITS AND HONEST QUESTION OWNERSHIP . . . 37

BASIC MCQS / REMEDIATION 46

Q1. Which statement correctly identifies What this diaspora owner holds and how its boundaries are routed? 46

Q2. Which card should be filed under What this diaspora owner holds and how its boundaries are routed in an
International Relations answer? 47

Q3. Which option preserves the source-bounded meaning of What this diaspora owner holds and how its boundaries are
routed? 48

Q4. Which statement avoids a close-option trap about What this diaspora owner holds and how its boundaries are
routed? 48

Q5. Which statement correctly identifies The diaspora categories and the exact status of every figure? 49

Q6. Which card should be filed under The diaspora categories and the exact status of every figure in an International
Relations answer? 50

Q7. Which option preserves the source-bounded meaning of The diaspora categories and the exact status of every figure?	51
Q8. Which statement avoids a close-option trap about The diaspora categories and the exact status of every figure?	51
Q9. Which statement correctly identifies Overseas Citizen of India status and the citizenship boundary?	52
Q10. Which card should be filed under Overseas Citizen of India status and the citizenship boundary in an International Relations answer?	53
Q11. Which option preserves the source-bounded meaning of Overseas Citizen of India status and the citizenship boundary?	53
Q12. Which statement avoids a close-option trap about Overseas Citizen of India status and the citizenship boundary?	54
Q13. Which statement correctly identifies Pravasi Bharatiya Divas as the dated convening instrument?	55
Q14. Which card should be filed under Pravasi Bharatiya Divas as the dated convening instrument in an International Relations answer?	55
Q15. Which option preserves the source-bounded meaning of Pravasi Bharatiya Divas as the dated convening instrument?	56
Q16. Which statement avoids a close-option trap about Pravasi Bharatiya Divas as the dated convening instrument?	57
Q17. Which statement correctly identifies The MADAD grievance portal and its successor version?	58
Q18. Which card should be filed under The MADAD grievance portal and its successor version in an International Relations answer?	58
Q19. Which option preserves the source-bounded meaning of The MADAD grievance portal and its successor version?	59
Q20. Which statement avoids a close-option trap about The MADAD grievance portal and its successor version?	60
Q21. Which statement correctly identifies The welfare stack behind the portal?	60
Q22. Which card should be filed under The welfare stack behind the portal in an International Relations answer?	61
Q23. Which option preserves the source-bounded meaning of The welfare stack behind the portal?	62
Q24. Which statement avoids a close-option trap about The welfare stack behind the portal?	62
Q25. Which statement correctly identifies The Protector General of Emigrants and the clearance category?	63
Q26. Which card should be filed under The Protector General of Emigrants and the clearance category in an International Relations answer?	64
Q27. Which option preserves the source-bounded meaning of The Protector General of Emigrants and the clearance category?	65
Q28. Which statement avoids a close-option trap about The Protector General of Emigrants and the clearance category?	65
Q29. Which statement correctly identifies The consular treaty frame and what Article 36 actually guarantees?	66
Q30. Which card should be filed under The consular treaty frame and what Article 36 actually guarantees in an International Relations answer?	67
Q31. Which option preserves the source-bounded meaning of The consular treaty frame and what Article 36 actually guarantees?	68
Q32. Which statement avoids a close-option trap about The consular treaty frame and what Article 36 actually guarantees?	68
Q33. Which statement correctly identifies Consular caseload as a scale indicator?	69

Q34. Which card should be filed under Consular caseload as a scale indicator in an International Relations answer?	70
Q35. Which option preserves the source-bounded meaning of Consular caseload as a scale indicator?	71
Q36. Which statement avoids a close-option trap about Consular caseload as a scale indicator?	71
Q37. Which statement correctly identifies Operation Sindhu and the evacuation-diplomacy boundary?	72
Q38. Which card should be filed under Operation Sindhu and the evacuation-diplomacy boundary in an International Relations answer?	73
Q39. Which option preserves the source-bounded meaning of Operation Sindhu and the evacuation-diplomacy boundary?	73
Q40. Which statement avoids a close-option trap about Operation Sindhu and the evacuation-diplomacy boundary?	74
Q41. Which statement correctly identifies Remittances as a diplomatic linkage and the Economy boundary?	75
Q42. Which card should be filed under Remittances as a diplomatic linkage and the Economy boundary in an International Relations answer?	75
Q43. Which option preserves the source-bounded meaning of Remittances as a diplomatic linkage and the Economy boundary?	76
Q44. Which statement avoids a close-option trap about Remittances as a diplomatic linkage and the Economy boundary?	77
Q45. Which statement correctly identifies The remittance composition shift and what it changes?	77
Q46. Which card should be filed under The remittance composition shift and what it changes in an International Relations answer?	78
Q47. Which option preserves the source-bounded meaning of The remittance composition shift and what it changes?	79
Q48. Which statement avoids a close-option trap about The remittance composition shift and what it changes?	79
Q49. Which statement correctly identifies The instrument-population mismatch?	80
Q50. Which card should be filed under The instrument-population mismatch in an International Relations answer?	81
Q51. Which option preserves the source-bounded meaning of The instrument-population mismatch?	81
Q52. Which statement avoids a close-option trap about The instrument-population mismatch?	82
Q53. Which statement correctly identifies The soft-power inventory in the source's own terms?	83
Q54. Which card should be filed under The soft-power inventory in the source's own terms in an International Relations answer?	83
Q55. Which option preserves the source-bounded meaning of The soft-power inventory in the source's own terms?	84
Q56. Which statement avoids a close-option trap about The soft-power inventory in the source's own terms?	85
Q57. Which statement correctly identifies Now-Required-Indians as a conditional policy argument?	85
Q58. Which card should be filed under Now-Required-Indians as a conditional policy argument in an International Relations answer?	86
Q59. Which option preserves the source-bounded meaning of Now-Required-Indians as a conditional policy argument?	87
Q60. Which statement avoids a close-option trap about Now-Required-Indians as a conditional policy argument?	88
Q61. Which statement correctly identifies The institutional-fragmentation critique?	89
Q62. Which card should be filed under The institutional-fragmentation critique in an International Relations answer?	89

Q63. Which option preserves the source-bounded meaning of The institutional-fragmentation critique?	90
Q64. Which statement avoids a close-option trap about The institutional-fragmentation critique?	91
Q65. Which statement correctly identifies Authenticity and self-inflicted soft-power damage?	92
Q66. Which card should be filed under Authenticity and self-inflicted soft-power damage in an International Relations answer?	93
Q67. Which option preserves the source-bounded meaning of Authenticity and self-inflicted soft-power damage?	94
Q68. Which statement avoids a close-option trap about Authenticity and self-inflicted soft-power damage?	95
Q69. Which statement correctly identifies Technical cooperation as cultural diplomacy and its regional limit?	95
Q70. Which card should be filed under Technical cooperation as cultural diplomacy and its regional limit in an International Relations answer?	96
Q71. Which option preserves the source-bounded meaning of Technical cooperation as cultural diplomacy and its regional limit?	97
Q72. Which statement avoids a close-option trap about Technical cooperation as cultural diplomacy and its regional limit?	98
Q73. Which statement correctly identifies Political influence and the liability side of the same asset?	99
Q74. Which card should be filed under Political influence and the liability side of the same asset in an International Relations answer?	100
Q75. Which option preserves the source-bounded meaning of Political influence and the liability side of the same asset?	101
Q76. Which statement avoids a close-option trap about Political influence and the liability side of the same asset?	101
Q77. Which statement correctly identifies Honest question ownership for this diaspora owner?	102
Q78. Which card should be filed under Honest question ownership for this diaspora owner in an International Relations answer?	103
Q79. Which option preserves the source-bounded meaning of Honest question ownership for this diaspora owner?	104

Indian Diaspora, Consular Protection and Soft Power - Learner-v2 Complete Learning Session

Authoring-only generation: 2026-09-03. No PDF was rendered and no tracker or index was mutated.

SOURCE, PROGRESSION AND CURRENT-LINKAGE AUDIT

- **Generation date:** 2026-09-03.
- **Repository-first evidence:** the Basic owner is taught first and preserved in full; the Advanced owner is retained only in the optional final teaching block.
- **OCR evidence:** Repository Markdown was primary. The OCR-searchable official General Studies question papers held under books\mains and books\more_previous_papers were read only to confirm the printed wording of routed demands. No official answer key, marking scheme, page precision or unsupported quotation was imported from them.
- **Qdrant:** not used; repository Markdown and available OCR context were sufficient.
- **PYQ integrity:** Two General Studies Paper II Mains demands are routed to this topic in the audited routing ledgers and each is reproduced below as a demand card with its printed year, paper, question number, directive, marks and word limit exactly as the ledger records them: 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words, for which the ledger records that the Core route supersedes the older Advanced ownership; and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value, a provenance defect that is reported here rather than repaired by invented wording. No objective demand from any audited Prelims routing ledger is routed to this owner, so none is listed, invented or answered. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in the economy and society of South-East Asian countries; that year falls outside the audited 2018-2023 and 2024-2025 routing ledgers and the wording is not confirmable from the locally held official papers, so it is recorded here as an owner-cited demand without a question number and is deliberately not converted into a solved demand card. The Basic and Advanced owners also record that no General Studies Paper II Mains question in the audited 2024-2025 papers directly names the diaspora, consular protection or soft power, and that absence is stated honestly instead of force-fitting an adjacent question. The locally held OCR-searchable official General Studies papers were read only to confirm the printed wording of the two routed Mains demands; no question was invented from them, no stem was paraphrased into an apparent routing, and no marking scheme or official answer key was imported.
- **Live-link boundary:** Live official verification was attempted on 2026-09-03 in the priority order required for this topic: the Ministry of External Affairs pages first, then the Ministry's consular and emigration portals, then the Indian Council for Cultural Relations, then the United Nations as the custodian of the consular treaty framework. Every outcome is recorded exactly as observed. The Ministry of External Affairs press-release, bilateral-document and country-brief pages returned a browser-requirement stub or the Ministry's own error page, the Press Information Bureau index returned HTTP 403, the consular grievance portal and the emigration clearance portal returned only title lines, the Indian Council for Cultural Relations site failed with a host-resolution error, and the United Nations treaty text file returned unreadable raw bytes, so no Indian official item and no treaty quotation was obtained from any of them. The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations did return substantive official text, and it is used here only for the treaty facts that page actually states. The package therefore uses the dated official anchors already carried by the repository owners together with that single verified treaty source, each with its actor, exact evidentiary level and date. It invents no diaspora, migrant or overseas-population figure, no remittance value or source share, no evacuation, consular-caseload or insurance count, no legal entitlement, citizenship or Overseas Citizen status, no scheme launch or coverage claim, no cultural-institution figure, no host-country political outcome, no date, no previous-year question, no answer key and no current claim.
- **Fact/inference discipline:** no current-affairs item, PYQ wording, figure or quotation is invented.

LIVE OFFICIAL-SOURCE ATTEMPT LOG

Every live check below was attempted on 2026-09-03 in the priority order required for International Relations: Ministry of External Affairs official pages first, then other official government or international-organisation documents. Access failures are recorded exactly as observed and no claim is reconstructed from a failed fetch.

- <https://www.mea.gov.in/press-releases.htm> - attempted 2026-09-03; the request redirected to a browser-requirement stub and returned no press release text, so no live item was taken from it.
- <https://www.mea.gov.in/bilateral-documents.htm> - attempted 2026-09-03; the request redirected to a browser-requirement stub and returned no bilateral document text, so no live item was taken from it.
- <https://www.mea.gov.in/foreign-relation.htm> - attempted 2026-09-03; the request redirected to the Ministry's own error page, so no country brief was taken from it.
- <https://www.pib.gov.in/indexd.aspx?reg=3&lang=1> - attempted 2026-09-03; the request returned HTTP 403, so no release was taken from it.
- <https://madad.gov.in/> - attempted 2026-09-03; the Ministry's consular grievance portal redirected to its landing page and returned only a title line with no grievance, caseload or scheme data, so no consular figure was taken from it and the repository owners' dated figures were used unchanged.
- <https://www.emigrate.gov.in/> - attempted 2026-09-03; the emigration clearance portal returned only the words E-migrate with no registration, clearance or grievance table, so no emigration or worker figure was taken from it.
- <https://www.iccr.gov.in/> - attempted 2026-09-03; the request failed with a host-resolution error, so no cultural-diplomacy programme, centre count or scholarship claim was taken from the Indian Council for Cultural Relations.
- <https://legal.un.org/avl/ha/vccr/vccr.html> - attempted 2026-09-03; the United Nations Audiovisual Library of International Law returned substantive official text on the Vienna Convention on Consular Relations, including the Vienna conference of 4 March to 22 April 1963 attended by delegates of ninety-five States, the adoption and opening for signature on 24 April 1963 together with the two Optional Protocols, entry into force on 19 March 1967, the Convention's 79 articles and the content of Article 36. That text is used only for those treaty facts and no Indian consular case, figure or outcome was taken from it.
- https://legal.un.org/ilc/texts/instruments/english/conventions/9_2_1963.pdf - attempted 2026-09-03; the request returned a PDF whose raw bytes could not be simplified to readable text, so no treaty article wording was quoted from it.

BASIC LEARNING SESSION

Refreshed teaching navigation

Distinct embedded teaching-navigation image. The separate continuous Cārvāka-style flowchart package remains an independent at-a-glance artifact.

SESSION 1 - FOUNDATION - WHAT THIS DIASPORA OWNER HOLDS AND HOW ITS BOUNDARIES ARE ROUTED

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Evidence chain: What this diaspora owner holds and how its boundaries are routed
Qualified use: Open a diaspora demand by fixing ownership so the answer does not drift into another owner's evidence.

Technical definition: Technically, FOUNDATION - What this diaspora owner holds and how its boundaries are routed is analysed by relating FOUNDATION to What this diaspora owner holds, then testing the relationship through how its boundaries are routed and Evidence chain.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Evidence chain: What this diaspora owner holds and how its boundaries are routed
Qualified use: Open a diaspora demand by fixing ownership so the answer does not drift into another owner's evidence.

MUST-WRITE KEYWORDS

- FOUNDATION
- What this diaspora owner holds
- how its boundaries are routed
- Evidence chain
- Qualified use
- This

How to use them: Frame the answer through FOUNDATION; define What this diaspora owner holds, connect how its boundaries are routed with Evidence chain to explain the mechanism, and use Qualified use for the decisive comparison or qualification.

VISUAL FIRST

WHAT THIS DIASPORA OWNER HOLDS AND HOW ITS BOUNDARIES ARE ROUTED

01. What this diaspora owner holds and how its boundaries are routed

BOUNDARY -> Citizenship doctrine belongs to Polity, remittance macroeconomics to Economy, relief logistics to Disaster Management and Gulf regional exposure to topic 06.

This topic-specific rail fixes the evidence sequence and its exam boundary before analysis.

CORE EXPLANATION

This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06.

NAMED EVIDENCE AND MECHANISM

- This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06.

EXAMINER CAUTION

- Citizenship doctrine belongs to Polity, remittance macroeconomics to Economy, relief logistics to Disaster Management and Gulf regional exposure to topic 06.

EXAM LINK

- **Prelims:** Retain the exact actor, document title, doctrine label, dated instrument and evidentiary level attached to What this diaspora owner holds and how its boundaries are routed, and never upgrade a vision statement into a treaty, a signature into a ratification, a participation category into membership, or an announced corridor into an operating one.
- **Mains:** Open a diaspora demand by fixing ownership so the answer does not drift into another owner's evidence.

MINI RECAP

- **Evidence chain:** What this diaspora owner holds and how its boundaries are routed
- **Qualified use:** Open a diaspora demand by fixing ownership so the answer does not drift into another owner's evidence.

CLOSING RECALL FLOW - FOUNDATION - WHAT THIS DIASPORA OWNER HOLDS AND HOW ITS BOUNDARIES ARE ROUTED

START / CONCEPT: FOUNDATION - What this diaspora owner holds and how its boundaries are routed

|
v

EXACT TERMS: FOUNDATION · What this diaspora owner holds · how its boundaries are routed · Evidence chain · Qualified use · This

|
v

MECHANISM / ARGUMENT: Prelims: Retain the exact actor, document title, doctrine label, dated instrument and evidentiary level attached to What this diaspora owner holds and how its boundaries are routed, and never upgrade a vision statement into a treaty, a signature into a ratification, a participation category into membership, or an announced corridor into an operating one.

|
v

CONSEQUENCE / CONTRAST: This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06.

|
v

UPSC TRAP / ANSWER-USE: Mains: Open a diaspora demand by fixing ownership so the answer does not drift into another owner's evidence.

|
v

ANSWER-GRABBING FORMULATION: Evidence chain: What this diaspora owner holds and how its boundaries are routed Qualified use: Open a diaspora demand by fixing ownership so the answer does not drift into another owner's evidence.

SESSION 2 - FOUNDATION - FOUR CATEGORIES AND THE EXACT STATUS OF EVERY NUMBER

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Every population figure is a stock estimate and never a count of citizens abroad or of Overseas Citizen of India cards.

Technical definition: Evidence chain: The diaspora categories and the exact status of every figure Qualified use: Secure the definitional and numerical marks that most diaspora answers concede in the first paragraph.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Evidence chain: The diaspora categories and the exact status of every figure Qualified use: Secure the definitional and numerical marks that most diaspora answers concede in the first paragraph.

MUST-WRITE KEYWORDS

- FOUNDATION
- Four categories
- the exact status of every number
- Evidence chain
- Qualified use
- The owners separate Non-Resident Indians, who

How to use them: Frame the answer through FOUNDATION; define Four categories, connect the exact status of every number with Evidence chain to explain the mechanism, and use Qualified use for the decisive comparison or qualification.

VISUAL FIRST

FOUR CATEGORIES AND THE EXACT STATUS OF EVERY NUMBER

01. The diaspora categories and the exact status of every figure

BOUNDARY -> Every population figure is a stock estimate and never a count of citizens abroad or of Overseas Citizen of India cards.

This topic-specific rail fixes the evidence sequence and its exam boundary before analysis.

CORE EXPLANATION

The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments.

NAMED EVIDENCE AND MECHANISM

- The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments.

EXAMINER CAUTION

- Every population figure is a stock estimate and never a count of citizens abroad or of Overseas Citizen of India cards.

EXAM LINK

- **Prelims:** Retain the exact actor, document title, doctrine label, dated instrument and evidentiary level attached to Four categories and the exact status of every number, and never upgrade a vision statement into a treaty, a signature into a ratification, a participation category into membership, or an announced corridor into an operating one.
- **Mains:** Secure the definitional and numerical marks that most diaspora answers concede in the first paragraph.

MINI RECAP

- **Evidence chain:** The diaspora categories and the exact status of every figure
- **Qualified use:** Secure the definitional and numerical marks that most diaspora answers concede in the first paragraph.

CLOSING RECALL FLOW - FOUNDATION - FOUR CATEGORIES AND THE EXACT STATUS OF EVERY NUMBER

START / CONCEPT: FOUNDATION - Four categories and the exact status of every number

|
v

EXACT TERMS: FOUNDATION · Four categories · the exact status of every number · Evidence chain · Qualified use · The owners separate Non-Resident Indians, who

|
v

MECHANISM / ARGUMENT: The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments.

v

UPSC TRAP / ANSWER-USE: Do not miss this limiting distinction: the diaspora categories and the exact status of every figure Qualified use.

|
v

ANSWER-GRABBING FORMULATION: Evidence chain: The diaspora categories and the exact status of every figure Qualified use: Secure the definitional and numerical marks that most diaspora answers concede in the first paragraph.

SESSION 3 - FOUNDATION - WHAT OVERSEAS CITIZEN OF INDIA STATUS IS AND IS NOT

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on.

Technical definition: Evidence chain: Overseas Citizen of India status and the citizenship boundary Qualified use: Avoid the single legal error that misstates what the Indian state may lawfully do for people abroad.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on.

MUST-WRITE KEYWORDS

- FOUNDATION
- is not
- Evidence chain
- Qualified use
- Overseas Citizen
- India

How to use them: Frame the answer through FOUNDATION; define is not, connect Evidence chain with Qualified use to explain the mechanism, and use Overseas Citizen for the decisive comparison or qualification.

VISUAL FIRST

WHAT OVERSEAS CITIZEN OF INDIA STATUS IS AND IS NOT

01. Overseas Citizen of India status and the citizenship boundary

BOUNDARY -> It is a set of rights and benefits for foreign nationals of Indian origin and is expressly not dual citizenship.

This topic-specific rail fixes the evidence sequence and its exam boundary before analysis.

CORE EXPLANATION

The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on.

NAMED EVIDENCE AND MECHANISM

- The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on.

EXAMINER CAUTION

- It is a set of rights and benefits for foreign nationals of Indian origin and is expressly not dual citizenship.

EXAM LINK

- **Prelims:** Retain the exact actor, document title, doctrine label, dated instrument and evidentiary level attached to What Overseas Citizen of India status is and is not, and never upgrade a vision statement into a treaty, a signature into a ratification, a participation category into membership, or an announced corridor into an operating one.
- **Mains:** Avoid the single legal error that misstates what the Indian state may lawfully do for people abroad.

MINI RECAP

- **Evidence chain:** Overseas Citizen of India status and the citizenship boundary
- **Qualified use:** Avoid the single legal error that misstates what the Indian state may lawfully do for people abroad.

CLOSING RECALL FLOW - FOUNDATION - WHAT OVERSEAS CITIZEN OF INDIA STATUS IS AND IS NOT

START / CONCEPT: FOUNDATION - What Overseas Citizen of India status is and is not

UPSC TRAP / ANSWER-USE: It is a set of rights and benefits for foreign nationals of Indian origin and is expressly not dual citizenship.

|
v

ANSWER-GRABBING FORMULATION: The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on.

SESSION 4 - CORE - THE DATED CONVENING INSTRUMENT AND ITS HONEST SILENCE

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: A dated edition must be cited, and the absence of a recorded next edition is stated rather than implied away.

Technical definition: Evidence chain: Pravasi Bharatiya Divas as the dated convening instrument Qualified use: Replace an undated diaspora-engagement claim with a checkable event and theme.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Evidence chain: Pravasi Bharatiya Divas as the dated convening instrument Qualified use: Replace an undated diaspora-engagement claim with a checkable event and theme.

MUST-WRITE KEYWORDS

- The dated convening instrument
- its honest silence
- Evidence chain
- Qualified use
- Pravasi Bharatiya Divas
- India's

How to use them: Frame the answer through The dated convening instrument; define its honest silence, connect Evidence chain with Qualified use to explain the mechanism, and use Pravasi Bharatiya Divas for the decisive comparison or qualification.

VISUAL FIRST

THE DATED CONVENING INSTRUMENT AND ITS HONEST SILENCE

01. Pravasi Bharatiya Divas as the dated convening instrument

BOUNDARY -> A dated edition must be cited, and the absence of a recorded next edition is stated rather than implied away.

This topic-specific rail fixes the evidence sequence and its exam boundary before analysis.

CORE EXPLANATION

Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away.

NAMED EVIDENCE AND MECHANISM

- Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away.

SESSION 5 - CORE - THE GRIEVANCE PORTAL AND THE WELFARE STACK BEHIND IT

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things.

Technical definition: Evidence chain: The MADAD grievance portal and its successor version - The welfare stack behind the portal Qualified use: Evidence routine consular capacity with named instruments and correctly bounded figures.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Evidence chain: The MADAD grievance portal and its successor version - The welfare stack behind the portal
Qualified use: Evidence routine consular capacity with named instruments and correctly bounded figures.

MUST-WRITE KEYWORDS

- The grievance portal
- the welfare stack behind it
- Evidence chain

How to use them: Frame the answer through The grievance portal; define the welfare stack behind it, connect Evidence chain with Qualified use to explain the mechanism, and use MADAD for the decisive comparison or qualification.

VISUAL FIRST

THE GRIEVANCE PORTAL AND THE WELFARE STACK BEHIND IT

01. The MADAD grievance portal and its successor version

|
v

02. The welfare stack behind the portal

BOUNDARY -> A platform launch is an available channel and not a resolved grievance, and coverage and claims measure different things.

This topic-specific rail fixes the evidence sequence and its exam boundary before analysis.

CORE EXPLANATION

MADAD is the Ministry of External Affairs online grievance-redress and consular-assistance platform for overseas Indians, launched on 21 February 2015, and MADAD 2.0 was launched in December 2025 and linked with e-Migrate and the Pravasi Bharatiya Sahayata Kendras; the owners treat this as the routine consular limb of the relationship, qualitatively different from crisis evacuation, and they insist that a platform launch is evidence of an available channel rather than evidence of a resolved grievance, so an answer should cite it as institutional capacity and not as an outcome. Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things.

SESSION 6 - CORE - THE CLEARANCE CATEGORY AS THE LEGAL HINGE OF PROTECTION

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments.

Technical definition: Evidence chain: The Protector General of Emigrants and the clearance category Qualified use: Set up the mismatch argument that a 15-mark welfare question specifically rewards.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments.

SESSION 8 - CORE - CASELOAD, SCALE AND THE HONEST READING OF BOTH

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Caseload measures obligation and not wrongdoing, and evacuation diplomacy is not evacuation logistics.

Technical definition: Evidence chain: Consular caseload as a scale indicator - Operation Sindhu and the evacuation-diplomacy boundary Qualified use: Show the operating scale of protection and demonstrate the obligation with one dated operation.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Evidence chain: Consular caseload as a scale indicator - Operation Sindhu and the evacuation-diplomacy boundary
Qualified use: Show the operating scale of protection and demonstrate the obligation with one dated operation.

MUST-WRITE KEYWORDS

- Caseload
- scale
- the honest reading of both
- Evidence chain
- Qualified use
- The Ministry

How to use them: Frame the answer through Caseload; define scale, connect the honest reading of both with Evidence chain to explain the mechanism, and use Qualified use for the decisive comparison or qualification.

VISUAL FIRST

CASELOAD, SCALE AND THE HONEST READING OF BOTH

01. Consular caseload as a scale indicator

|
v

02. Operation Sindhu and the evacuation-diplomacy boundary

BOUNDARY -> Caseload measures obligation and not wrongdoing, and evacuation diplomacy is not evacuation logistics.

This topic-specific rail fixes the evidence sequence and its exam boundary before analysis.

CORE EXPLANATION

The Ministry of External Affairs recorded 10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the caseload as evidence of obligation rather than as a criticism of the community. Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis evacuation, which is qualitatively different from routine consular welfare because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06.

NAMED EVIDENCE AND MECHANISM

- The Ministry of External Affairs recorded 10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the caseload as evidence of obligation rather than as a criticism of the community.

SESSION 9 - CORE - REMITTANCES AS LINKAGE, NOT AS THE POLITICAL ANSWER

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Evidence chain: Remittances as a diplomatic linkage and the Economy boundary
Qualified use: Answer the economic limb of the 2020 and 2023 demands without collapsing the political limb into it.

Technical definition: The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence.

SESSION 10 - CORE - THE COMPOSITION SHIFT AND THE INSTRUMENT MISMATCH IT EXPOSES

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Evidence chain: The remittance composition shift and what it changes - The instrument-population mismatch
Qualified use: Convert a statistic into a policy-design argument, which is where the analytical marks sit.

Technical definition: The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Evidence chain: The remittance composition shift and what it changes - The instrument-population mismatch
Qualified use: Convert a statistic into a policy-design argument, which is where the analytical marks sit.

THE COMPOSITION SHIFT AND THE INSTRUMENT MISMATCH IT EXPOSES

01. The remittance composition shift and what it changes

|
v

02. The instrument-population mismatch

BOUNDARY -> The fastest-growing segment is constrained by visas, portability and recognition rather than by emigration clearance.

This topic-specific rail fixes the evidence sequence and its exam boundary before analysis.

CORE EXPLANATION

The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight. The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment.

FRAGMENTATION AND AUTHENTICITY AS THE TWO INTERNAL CONSTRAINTS

01. The institutional-fragmentation critique

|
v

02. Authenticity and self-inflicted soft-power damage

BOUNDARY -> Mainstreaming is a proposal and not an implemented reform, and domestic conduct can undo external projection.

This topic-specific rail fixes the evidence sequence and its exam boundary before analysis.

CORE EXPLANATION

Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change. Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection.

NAMED EVIDENCE AND MECHANISM

- Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change.

How to use them: Frame the answer through CORE SYNTHESIS; define Technical cooperation, connect its cultural role with its regional limit to explain the mechanism, and use Evidence chain for the decisive comparison or qualification.

VISUAL FIRST

TECHNICAL COOPERATION, ITS CULTURAL ROLE AND ITS REGIONAL LIMIT

01. Technical cooperation as cultural diplomacy and its regional limit

BOUNDARY -> The cultural-diplomacy effect is strongest in South Asia and is not uniform across all partner countries.

This topic-specific rail fixes the evidence sequence and its exam boundary before analysis.

CORE EXPLANATION

The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event.

NAMED EVIDENCE AND MECHANISM

- The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event.

POLITICAL INFLUENCE, ITS LIMITS AND HONEST QUESTION OWNERSHIP

01. Political influence and the liability side of the same asset

|
v

02. Honest question ownership for this diaspora owner

BOUNDARY -> Office-holders act under host-country mandates, and an individual case is never generalised to a community.

This topic-specific rail fixes the evidence sequence and its exam boundary before analysis.

CORE EXPLANATION

Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community. The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred.

NAMED EVIDENCE AND MECHANISM

- Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community.
- The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official

papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred.

EXAMINER CAUTION

- Office-holders act under host-country mandates, and an individual case is never generalised to a community.

EXAM LINK

- **Prelims:** Retain the exact actor, document title, doctrine label, dated instrument and evidentiary level attached to Political influence, its limits and honest question ownership, and never upgrade a vision statement into a treaty, a signature into a ratification, a participation category into membership, or an announced corridor into an operating one.
- **Mains:** Close the political limb with named evidence and state exactly which demands this owner owns.

MINI RECAP

- **Evidence chain:** Political influence and the liability side of the same asset -> Honest question ownership for this diaspora owner
- **Qualified use:** Close the political limb with named evidence and state exactly which demands this owner owns.

COMPLETE BASIC OWNER EVIDENCE BANK

Subject: International Relations | **Tier:** Must-Do (foundation) | **GS Paper:** GS-II. **Core area:** Diaspora categories; diaspora diplomacy; remittances as context; cultural and knowledge links; consular support. **Grounded in:** Shashi Tharoor, *Pax Indica*; Economic Survey 2025-26 (ITEC); MEA Pravasi Bharatiya Divas references; 00_Master-Framework.md Sections 2-3. **FACT:** = source-grounded | **ANALYSIS:** = analytical inference | **CURRENT:** = current anchor. *Companion:* advanced/09_Indian-Diaspora-Consular-Protection-and-Soft-Power.md.

people-to-people/diplomatic goodwill
|
v
OUTCOME: DIASPORA AS BRIDGE
(not simply a foreign-policy "instrument"
to be deployed)

Core proposition: ANALYSIS: India's diaspora and soft-power diplomacy combines welfare/consular protection with cultural projection, treating the diaspora primarily as a bridge of goodwill and knowledge exchange between India and host countries rather than as a foreign-policy lever to be directed.

2. Essential definitions

Concept	Exam-ready meaning
ANALYSIS: Diaspora categories	Non-Resident Indians (NRIs, Indian citizens residing abroad), Persons of Indian Origin/Overseas Citizens of India (OCI cardholders, foreign nationals of Indian origin) and labour migrants (especially in the Gulf) - each with distinct legal status (Polity owns the citizenship/OCI legal doctrine). CURRENT: MEA's population table (as on January 2026) records 35,421,987 overseas Indians - 19,571,375 NRIs and 15,850,612 PIOs ; top host countries include the USA (6,079,221), the UAE (4,344,008), Malaysia (2,902,370) and Saudi Arabia (2,750,551). ANALYSIS: These are population-stock estimates, not counts of citizenship or OCI cards.
FACT: Pravasi Bharatiya Divas (PBD)	India's flagship diaspora-engagement event, held periodically to recognise diaspora contributions; the 18th edition was held 8-10 January 2025 at Bhubaneswar, Odisha, under the theme "Diaspora's Contribution to a Viksit Bharat." ANALYSIS: No 19th edition had been officially recorded as held or announced as of 3 August 2026.
ANALYSIS: MADAD portal	An MEA online grievance-redress and consular-assistance platform for overseas Indians, launched 21 February 2015; CURRENT: MADAD 2.0 was launched in December 2025 and linked with e-Migrate and Pravasi Bharatiya Sahayata Kendras.
CURRENT: Indian Community Welfare Fund (ICWF), e-Migrate and PBBY	The three operational welfare instruments alongside MADAD: ICWF supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required (ECR) workers and routes grievances to MADAD; the Pravasi Bharatiya Bima Yojana is compulsory insurance for ECR workers going to ECR countries, providing Rs 10 lakh accidental-death/permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025.
ANALYSIS: Protector General of Emigrants	The MEA authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required (ECR) categories heading to specific countries.
FACT: Soft power (Tharoor)	FACT: Tharoor lists "Bollywood cinema, books and music, educational opportunities, health care..., sporting exchanges, tourism and cultural schemes," alongside Ayurveda and yoga, and "the transformed image of the country created by its thriving diaspora," as the components of India's soft power.
FACT: "Now-Required-Indians"	FACT: Tharoor's reframing of "NRIs" - arguing India lacks "a policy to channel [diaspora] enthusiasm... and resources to the promotion of India's image," and that with such a policy NRIs could become "Now-Required-Indians."

Concept	Exam-ready meaning
ANALYSIS: Cultural diplomacy via ITEC	FACT: per the Economic Survey 2025-26, ITEC "has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region," alongside its technical-training function.
FACT: Vienna Convention on Consular Relations (1963)	Article 36 anchors communication and access when a foreign national is detained: authorities must inform the person of the right to contact the consulate and facilitate consular communication. ANALYSIS: It is a reciprocal treaty right and procedural safeguard, not an unlimited power to override host-country law or secure release.

3. How the diaspora-diplomacy mechanism works

- 1. Recognition and convening:** FACT: Pravasi Bharatiya Divas periodically brings together diaspora members and Indian officials to recognise contributions and set engagement priorities (18th edition, 8-10 January 2025).
- 2. Welfare and consular protection:** MADAD and the Protector General of Emigrants mechanism address grievances and emigration-clearance protection, particularly for vulnerable labour-migrant categories.
- 3. Soft-power projection:** FACT: Tharoor's inventory (Bollywood, yoga, cuisine, IT-sector reputation, education, healthcare, tourism) constitutes the cultural-attraction dimension, reinforced by the diaspora's own visible presence and success abroad.
- 4. Institutional coordination gap identified:** FACT: Tharoor argues soft-power promotion should be integrated into the work of "substantive territorial divisions" of the foreign ministry, not left solely to umbrella bodies like ICCR and the public-diplomacy division - a structural critique of institutional fragmentation.
- 5. Cultural-diplomacy training channel:** FACT: ITEC (Economic Survey 2025-26) supplements cultural/soft-power projection with a concrete technical-training mechanism, particularly influential in the South Asian region.
- 6. Authenticity requirement:** FACT: Tharoor insists soft power "must instead proudly reflect the multi-religious identities of our people, [and] our linguistic diversity," warning that a narrow, sectarian version of "Bharatiya sanskriti" undermines rather than projects soft power.

4. Institutions and agreements

- FACT: **Pravasi Bharatiya Divas (18th edition, 8-10 January 2025, Bhubaneswar):** the anchor diaspora-convening event, themed "Diaspora's Contribution to a Viksit Bharat."
- ANALYSIS: **MADAD (2015; MADAD 2.0 launched December 2025):** the online consular-grievance and welfare-assistance portal, now linked with e-Migrate and Pravasi Bharatiya Sahayata Kendras.
- ANALYSIS: **Protector General of Emigrants, e-Migrate, ICWF and PBBY:** the emigration-clearance and welfare stack for ECR-category migrant workers; PBBY provides Rs 10 lakh accidental-death/permanent-disability cover and had 8,536,398 beneficiaries with 2,222 claims settled through October 2025.
- CURRENT: **Crisis-evacuation practice - Operation Sindhu (June 2025):** 4,415 Indians evacuated by 27 June 2025, comprising 3,597 from Iran and 818 from Israel. ANALYSIS: IR owns the host-government coordination and consular diplomacy; Disaster - Management/basic/17 owns the relief and logistics cycle.
- CURRENT: **Consular caseload as a scale indicator:** MEA recorded **10,152 Indian

prisoners/undertrials abroad** in a Lok Sabha answer dated 28 March 2025 - ANALYSIS: a measure of consular workload, not of diaspora wrongdoing.

- FACT: **ICCR (Indian Council for Cultural Relations)**: the traditional institutional vehicle for cultural diplomacy - FACT: Tharoor argues its role should be complemented, not solely relied upon, by mainstreaming soft-power promotion across the foreign ministry's territorial divisions.

- FACT: **ITEC (Indian Technical and Economic Cooperation Programme)**: per the Economic Survey 2025-26, trained more than two lakh persons from over 160 countries, serving both a technical-training and a cultural-diplomacy function.

5. Indian applications and examples

- ANALYSIS: **PYQ mapping**: no GS-II Mains question in the audited 2024-2025 papers directly names the Indian diaspora, consular protection or soft power as the framing device. State this honestly rather than force-fitting an adjacent PYQ; use the PBD (18th edition, January 2025) and Tharoor's soft-power inventory as the structuring devices for any diaspora/soft-power question.

- FACT: Tharoor's critique of episodic soft-power failures - citing a "nativist attack" incident and comparable episodes - illustrates that soft power is vulnerable to domestic events, not solely a function of deliberate foreign-policy projection.

- ANALYSIS: Diaspora remittance flows are a significant economic linkage. FACT: The Economic Survey 2025-26 records India as "the world's largest recipient of remittances," with inflows rising from USD 55.6 billion in FY11 to **USD 135.4 billion (provisional) in FY25 - about 3.5 per cent of GDP** - and USD 73 billion in H1 FY26 against USD 64.7 billion a year earlier. ANALYSIS: The composition is shifting: per the RBI's sixth Survey on Remittances (FY24), advanced economies now contribute more than the Gulf Cooperation Council countries, with the US the top source at 27.7 per cent, followed by the UAE (19.2), the UK (10.8) and Singapore (6.6) - evidence that the diaspora's economic weight is moving from low-skilled Gulf labour toward skilled professional migration, with direct consequences for which consular and soft-power instruments matter most. Economy owns the macroeconomic mechanics; this folder treats the diplomatic and cultural-bridge role.

Political influence and diplomatic liability

- FACT: **Descriptive representation**: Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as US Vice-President (2021-25) and Rishi Sunak as UK Prime Minister (2022-24). **Significance**: representation can improve familiarity, networks and the visibility of India-related issues. **Limitation**: office-holders act under host-country mandates and cannot be treated as agents of India.

- FACT: **US Congress**: the 119th Congress included six Indian-American House members. Their presence supplies access and issue advocacy, but party, constituency and committee incentives shape positions more than ancestry alone.

- FACT: **Civil nuclear agreement advocacy**: scholarship on the 2005-08 India-US civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with US business and strategic constituencies. **Significance**: diaspora influence works through networks and alliances, not only votes. **Limitation**: advocacy contributed to but did not independently determine Congressional approval.

- ANALYSIS: **Security-friction case**: US proceedings concerning the alleged murder-for-hire plot against a US citizen created bilateral strain and prompted an Indian high-level inquiry. **Significance**: diaspora-linked separatism or security disputes can turn a community connection into a sovereignty, law-enforcement and trust problem. **Limitation**: distinguish allegations, charges, pleas and final judicial findings; do not generalise from an individual case to a diaspora.

- ANALYSIS: **Answer balance**: diaspora is an asset when welfare protection, integration, credibility and network mobilisation reinforce each other; it becomes a liability when domestic polarisation, host-country law or securitised identity politics overwhelms those gains.

6. Must-Know Facts for Prelims

- CURRENT: MEA's overseas-Indian population table (as on January 2026) records 35,421,987 overseas Indians: 19,571,375 NRIs and 15,850,612 PIOs.
- CURRENT: The 18th Pravasi Bharatiya Divas was held 8-10 January 2025 at Bhubaneswar, themed "Diaspora's Contribution to a Viksit Bharat."
- FACT: India is the world's largest recipient of remittances; inflows reached USD 135.4 billion (provisional) in FY25, about 3.5 per cent of GDP, and USD 73 billion in H1 FY26 (Economic Survey 2025-26).
- FACT: Per the RBI's sixth Survey on Remittances (FY24), advanced economies now contribute more than GCC countries: the US 27.7 per cent, the UAE 19.2, the UK 10.8 and Singapore 6.6.
- CURRENT: Operation Sindhu evacuated 4,415 Indians - 3,597 from Iran and 818 from Israel - by 27 June 2025.
- CURRENT: The Pravasi Bharatiya Bima Yojana provides Rs 10 lakh accidental-death/permanent-disability cover for ECR-category workers, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025.
- FACT: Tharoor's soft-power inventory includes Bollywood, books, music, educational opportunities, healthcare, sporting exchanges, tourism, cultural schemes, Ayurveda and yoga.
- FACT: Tharoor's "Now-Required-Indians" reframing links a coherent diaspora-engagement policy to unlocking diaspora goodwill and resources.
- FACT: ITEC has trained more than two lakh persons from over 160 countries per the Economic Survey 2025-26, with a particular cultural-diplomacy role in South Asia.
- ANALYSIS: MADAD (2015; MADAD 2.0 from December 2025), e-Migrate, ICWF, PBBY and the Protector General of Emigrants are the principal MEA mechanisms for diaspora welfare and emigration-clearance protection.

7. UPSC traps

- WRONG: OCI status confers dual citizenship. -> OCI is not dual citizenship; it is a specific set of rights/benefits for persons of Indian origin holding foreign citizenship - Polity owns this legal doctrine precisely.
- WRONG: Diaspora diplomacy is purely a "soft power instrument" to be deployed by the state. -> Tharoor's framing emphasises the diaspora as a two-way bridge of goodwill, not simply a controllable foreign-policy tool.
- WRONG: Soft power is generated automatically by diaspora success abroad, with no policy effort required. -> Tharoor explicitly argues a coherent institutional strategy (beyond ICCR alone) and channelling diaspora enthusiasm are needed to realise the "Now-Required-Indians" potential.
- WRONG: A narrow, singular version of "Indian culture" projects soft power most effectively. -> Tharoor warns explicitly that soft power must "proudly reflect" multi-religious and multi-linguistic diversity; a sectarian framing undermines it.
- WRONG: ITEC and PBD are the same programme. -> ITEC is a technical-training and cultural-diplomacy cooperation programme with partner countries; PBD is a diaspora-recognition convening event - distinct instruments.
- WRONG: The MEA overseas-Indian figure counts Indian citizens abroad. -> It counts population stock in two distinct categories - NRIs (Indian citizens resident abroad) and PIOs (foreign nationals of Indian origin) - and is not a count of OCI cards issued.
- WRONG: Gulf countries remain the dominant source of India's remittances. -> Per

the RBI's sixth Survey on Remittances (FY24, cited in the Economic Survey 2025-26), advanced economies now contribute more than GCC countries, with the US the single largest source.

8. CURRENT: Current anchor

- CURRENT: The **18th Pravasi Bharatiya Divas (8-10 January 2025, Bhubaneswar)**, themed "Diaspora's Contribution to a Viksit Bharat," is the anchor current event for this topic - cite it, dated, as evidence of India's ongoing diaspora-engagement architecture.
- CURRENT: For the protection track, cite ****Operation Sindhu (4,415 Indians evacuated from Iran and Israel by 27 June 2025) and MADAD 2.0 (December 2025); for the economic-linkage track, cite the Economic Survey 2025-26**** remittance data and the RBI's sixth Survey on Remittances.

9. PYQ application

- FACT: **2017 GS-II**: "Indian diaspora has an important role to play in South-East Asian countries' economy and society. Appraise the role of Indian diaspora in South-East Asia in this context." - separate economic contribution, social mediation and host-country constraints.
- FACT: **2020 GS-II**: "Indian diaspora has a decisive role to play in the politics and economy of America and European countries. Comment with examples." - distinguish political influence from economic contribution; do not substitute remittance data for the political half.
- ANALYSIS: No 2024-2025 question directly names the diaspora; use the 18th PBD as the current anchor, Polity for OCI doctrine and Economy for remittances.

10. Mains angles

- ANALYSIS: Always distinguish diaspora welfare/consular protection (MADAD, Protector General of Emigrants) from cultural soft-power projection (ICCR, ITEC, Bollywood/yoga/cuisine) as two related but separate policy tracks.
- ANALYSIS: Cite the dated PBD edition rather than an undated "diaspora engagement" claim.
- ANALYSIS: Use Tharoor's authenticity/diversity argument when discussing how India should project its cultural identity abroad.
- ANALYSIS: Avoid claiming OCI as dual citizenship; route precise legal doctrine to Polity.

Answer thesis: India's diaspora and soft-power diplomacy operates on two linked tracks - welfare/consular protection (MADAD, the Protector General of Emigrants) and cultural-soft-power projection (ICCR, ITEC, and the broader Tharoor inventory of cultural assets) - treating the diaspora as a two-way bridge of goodwill rather than a directed foreign-policy instrument, and requiring an authentic, plural representation of Indian identity to be effective.

11. Probable questions

- ANALYSIS: **Prelims**: The 18th Pravasi Bharatiya Divas (January 2025) was held under which theme?
- ANALYSIS: **Mains (10 marks)**: Distinguish diaspora welfare/consular protection from soft-power projection as two components of India's diaspora diplomacy.
- ANALYSIS: **Mains (15 marks)**: "Soft power requires an authentic, plural representation of national identity." Discuss with reference to India's cultural diplomacy.

11A. Answer architecture (10/15/20-mark support)

The **2020 and 2023 GS-II diaspora in America/Europe/West** demands are owned here, superseding advanced/09.

- **Mechanism**: diaspora stock/profile -> remittances, knowledge and networks ->

political advocacy/soft power -> consular protection -> host-country and domestic limits.

- **Evidence:** Gulf labour migration, skilled US/Europe communities, remittance-source shift, OCI/Pravasi institutions, evacuation operations and cultural diplomacy.

- **Balance:** diaspora influence can aid bilateral ties, but communities are internally diverse, host-country citizens have independent politics and overseas vulnerability creates protection obligations.

10 marks: economic and political contribution plus examples. **15 marks:** compare Gulf and Western profiles, consular tools and limits. **20 marks:** migration regimes, brain circulation, remittances, lobbying, identity, labour rights and crisis evacuation.

Reasoned verdict: Diaspora is an external-capability multiplier only when India avoids instrumentalising citizens abroad and pairs engagement with credible protection.

12. Study links

- FACT: Advanced companion:
advanced/09_Indian-Diaspora-Consular-Protection-and-Soft-Power.md.

- FACT: Polity/basic/Citizenship.md - OCI and citizenship legal doctrine (Polity owns this detail).

- ANALYSIS: **Cross-links within this folder:** topic 06 for Gulf-diaspora welfare context and Operation Sindhu; topic 07 for ITEC's Africa-specific role; topic 01 for the multi-alignment vocabulary. Route evacuation operations to Disaster-Management/basic/17_Humanitarian-Logistics-Relief-Rehabilitation-and-Recovery.md and international cooperation to Disaster-Management/basic/18_Governance-Capacity-and-International-Cooperation.md.

Historical PYQ Integration (2018-2023)

Status: Question-level PYQ demand is integrated into this owner. **Provenance:** Audited local official-paper routing ledgers: _PYQ-ROUTING-MAINS-GS1-GS2-ESSAY-2018-2023.md.

- **Years represented:** 2020, 2023

- **Paper(s):** GS-II

- **Routed question demands:** 2

Year	Paper	Q	PYQ demand (neutral rendering)	Directive / format	Source status	Owner requirement
2020	GS-II	10	Indian diaspora in the politics and economy of America and Europe	Comment with examples · 10 marks · 150 words	Core route supersedes older Advanced ownership	Prepare context, core dimensions, evidence/examples, counterpoint and a concise conclusion.
2023	GS-II	10	Indian diaspora in the West and its economic and political benefits	Describe · 10 marks · 150 words	Core route supersedes older Advanced ownership	Prepare context, core dimensions, evidence/examples, counterpoint and a concise conclusion.

What this owner must now support

- Indian diaspora in the politics and economy of America and Europe
- Indian diaspora in the West and its economic and political benefits

The table integrates the examinable demand and paper metadata. It does not turn an unkeyed objective question into a solved answer, and it does not claim that lexical presence alone proves full conceptual sufficiency.

CLOSING RECALL FLOW - CORE SYNTHESIS - POLITICAL INFLUENCE, ITS LIMITS AND HONEST QUESTION OWNERSHIP

START / CONCEPT: CORE SYNTHESIS - Political influence, its limits and honest question ownership

|
v

EXACT TERMS: CORE SYNTHESIS · Political influence · its limits · honest question ownership ·
Evidence chain · Qualified use

|
v

MECHANISM / ARGUMENT: The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner.

|
v

CONSEQUENCE / CONTRAST: Comment with examples." - distinguish political influence from economic contribution; do not substitute remittance data for the political half. ANALYSIS: No 2024-2025 question directly names the diaspora; use the 18th PBD as the current anchor, Polity for OCI doctrine and Economy for remittances.

|
v

UPSC TRAP / ANSWER-USE: Balance: diaspora influence can aid bilateral ties, but communities are internally diverse, host-country citizens have independent politics and overseas vulnerability creates protection obligations.

|
v

ANSWER-GRABBING FORMULATION: Evidence chain: Political influence and the liability side of the same asset - Honest question ownership for this diaspora owner Qualified use: Close the political limb with named evidence and state exactly which demands this owner owns.

BASIC MCQS / REMEDIATION

Q1. Which statement correctly identifies What this diaspora owner holds and how its boundaries are routed?

A. This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06. B. The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on. C. The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments. D. Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition

officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away.

Answer: A. Explanation: This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q2. Which card should be filed under What this diaspora owner holds and how its boundaries are routed in an International Relations answer?

A. Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away. B. This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06. C. MADAD is the Ministry of External Affairs online grievance-redress and consular-assistance platform for overseas Indians, launched on 21 February 2015, and MADAD 2.0 was launched in December 2025 and linked with e-Migrate and the Pravasi Bharatiya Sahayata Kendras; the owners treat this as the routine consular limb of the relationship, qualitatively different from crisis evacuation, and they insist that a platform launch is evidence of an available channel rather than evidence of a resolved grievance, so an answer should cite it as institutional capacity and not as an outcome. D. The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on.

Answer: B. Explanation: This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q3. Which option preserves the source-bounded meaning of What this diaspora owner holds and how its boundaries are routed?

A. Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things. B. MADAD is the Ministry of External Affairs online grievance-redress and consular-assistance platform for overseas Indians, launched on 21 February 2015, and MADAD 2.0 was launched in December 2025 and linked with e-Migrate and the Pravasi Bharatiya Sahayata Kendras; the owners treat this as the routine consular limb of the relationship, qualitatively different from crisis evacuation, and they insist that a platform launch is evidence of an available channel rather than evidence of a resolved grievance, so an answer should cite it as institutional capacity and not as an outcome. C. This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06. D. Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away.

Answer: C. Explanation: This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q4. Which statement avoids a close-option trap about What this diaspora owner holds and how its boundaries are routed?

A. Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things. B. MADAD is the Ministry of External Affairs online grievance-redress and consular-assistance platform for overseas Indians, launched on 21 February 2015, and MADAD 2.0 was launched in December 2025 and linked with e-Migrate and the Pravasi Bharatiya Sahayata Kendras; the owners treat this as the routine consular limb of the relationship, qualitatively different from

crisis evacuation, and they insist that a platform launch is evidence of an available channel rather than evidence of a resolved grievance, so an answer should cite it as institutional capacity and not as an outcome. C. The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments. D. This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06.

Answer: D. Explanation: This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q5. Which statement correctly identifies The diaspora categories and the exact status of every figure?

A. The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments. B. MADAD is the Ministry of External Affairs online grievance-redress and consular-assistance platform for overseas Indians, launched on 21 February 2015, and MADAD 2.0 was launched in December 2025 and linked with e-Migrate and the Pravasi Bharatiya Sahayata Kendras; the owners treat this as the routine consular limb of the relationship, qualitatively different from crisis evacuation, and they insist that a platform launch is evidence of an available channel rather than evidence of a resolved grievance, so an answer should cite it as institutional capacity and not as an outcome. C. The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on. D. Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away.

Answer: A. Explanation: The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q6. Which card should be filed under The diaspora categories and the exact status of every figure in an International Relations answer?

A. Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away. B. The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments. C. Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things. D. MADAD is the Ministry of External Affairs online grievance-redress and consular-assistance platform for overseas Indians, launched on 21 February 2015, and MADAD 2.0 was launched in December 2025 and linked with e-Migrate and the Pravasi Bharatiya Sahayata Kendras; the owners treat this as the routine consular limb of the relationship, qualitatively different from crisis evacuation, and they insist that a platform launch is evidence of an available channel rather than evidence of a resolved grievance, so an answer should cite it as institutional capacity and not as an outcome.

Answer: B. Explanation: The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q7. Which option preserves the source-bounded meaning of The diaspora categories and the exact status of every figure?

A. MADAD is the Ministry of External Affairs online grievance-redress and consular-assistance platform for overseas Indians, launched on 21 February 2015, and MADAD 2.0 was launched in December 2025 and linked with e-Migrate and the Pravasi Bharatiya Sahayata Kendras; the owners treat this as the routine consular limb of the relationship, qualitatively different from crisis evacuation, and they insist that a platform launch is evidence of an available channel rather than evidence of a resolved grievance, so an answer should cite it as institutional capacity and not as an outcome. B. The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments. C. The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments. D. Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things.

Answer: C. Explanation: The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q8. Which statement avoids a close-option trap about The diaspora categories and the exact status of every figure?

A. The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments. B. The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations, checked live on 2026-09-03, records that the United Nations Conference on Consular Relations was held at Vienna from 4 March to 22 April 1963 and attended by delegates of ninety-five States, that on 24 April 1963 the Conference adopted and opened for signature the Convention together with the Optional Protocol concerning Acquisition of Nationality and the Optional Protocol concerning the Compulsory Settlement of Disputes, that the Convention and both Optional Protocols came into force on 19 March 1967, and that the Convention consists of 79 articles of which Article 36 provides obligations for competent authorities on the arrest or detention of a foreign national so as to guarantee counsel and due process

through consular notification and effective access to consular protection; the owners add the limit in the same place, namely that this is a reciprocal treaty right and a procedural safeguard and not an unlimited power to override host-country law or secure release. C. Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things. D. The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments.

Answer: D. Explanation: The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q9. Which statement correctly identifies Overseas Citizen of India status and the citizenship boundary?

A. The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on. B. Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things. C. Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away. D. MADAD is the Ministry of External Affairs online grievance-redress and consular-assistance platform for overseas Indians, launched on 21 February 2015, and MADAD 2.0 was launched in December 2025 and linked with e-Migrate and the Pravasi Bharatiya Sahayata Kendras; the owners treat this as the routine consular limb of the relationship, qualitatively different from crisis evacuation, and they insist that a platform launch is evidence of an available channel rather than evidence of a resolved grievance, so an answer should cite it as institutional capacity and not as an outcome.

Answer: A. Explanation: The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q10. Which card should be filed under Overseas Citizen of India status and the citizenship boundary in an International Relations answer?

A. The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments. B. The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on. C. Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things. D. MADAD is the Ministry of External Affairs online grievance-redress and consular-assistance platform for overseas Indians, launched on 21 February 2015, and MADAD 2.0 was launched in December 2025 and linked with e-Migrate and the Pravasi Bharatiya Sahayata Kendras; the owners treat this as the routine consular limb of the relationship, qualitatively different from crisis evacuation, and they insist that a platform launch is evidence of an available channel rather than evidence of a resolved grievance, so an answer should cite it as institutional capacity and not as an outcome.

Answer: B. Explanation: The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q11. Which option preserves the source-bounded meaning of Overseas Citizen of India status and the citizenship boundary?

A. The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments. B. Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries

and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things. C. The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on. D. The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations, checked live on 2026-09-03, records that the United Nations Conference on Consular Relations was held at Vienna from 4 March to 22 April 1963 and attended by delegates of ninety-five States, that on 24 April 1963 the Conference adopted and opened for signature the Convention together with the Optional Protocol concerning Acquisition of Nationality and the Optional Protocol concerning the Compulsory Settlement of Disputes, that the Convention and both Optional Protocols came into force on 19 March 1967, and that the Convention consists of 79 articles of which Article 36 provides obligations for competent authorities on the arrest or detention of a foreign national so as to guarantee counsel and due process through consular notification and effective access to consular protection; the owners add the limit in the same place, namely that this is a reciprocal treaty right and a procedural safeguard and not an unlimited power to override host-country law or secure release.

Answer: C. Explanation: The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q12. Which statement avoids a close-option trap about Overseas Citizen of India status and the citizenship boundary?

A. The Ministry of External Affairs recorded 10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the caseload as evidence of obligation rather than as a criticism of the community. B. The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments. C. The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations, checked live on 2026-09-03, records that the United Nations Conference on Consular Relations was held at Vienna from 4 March to 22 April 1963 and attended by delegates of ninety-five States, that on 24 April 1963 the Conference adopted and opened for signature the Convention together with the Optional Protocol concerning Acquisition of Nationality and the Optional Protocol concerning the Compulsory Settlement of Disputes, that the Convention and both Optional Protocols came into force on 19 March 1967, and that the Convention consists of 79 articles of which Article 36 provides obligations for competent authorities on the arrest or detention of a foreign national so as to guarantee counsel and due process through consular notification and effective access to consular protection; the owners add the limit in the same place, namely that this is a reciprocal treaty right and a procedural safeguard and not an unlimited power to override host-country law or secure release. D. The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on.

Answer: D. Explanation: The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q13. Which statement correctly identifies Pravasi Bharatiya Divas as the dated convening instrument?

A. Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away. B. The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments. C. MADAD is the Ministry of External Affairs online grievance-redress and consular-assistance platform for overseas Indians, launched on 21 February 2015, and MADAD 2.0 was launched in December 2025 and linked with e-Migrate and the Pravasi Bharatiya Sahayata Kendras; the owners treat this as the routine consular limb of the relationship, qualitatively different from crisis evacuation, and they insist that a platform launch is evidence of an available channel rather than evidence of a resolved grievance, so an answer should cite it as institutional capacity and not as an outcome. D. Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things.

Answer: A. Explanation: Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q14. Which card should be filed under Pravasi Bharatiya Divas as the dated convening instrument in an International Relations answer?

A. The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations, checked live on 2026-09-03, records that the United Nations Conference on Consular Relations was held at Vienna from 4 March to 22 April 1963 and attended by delegates of ninety-five States, that on 24 April 1963 the Conference adopted and opened for signature the Convention together with the Optional Protocol concerning Acquisition of Nationality and the Optional Protocol concerning the Compulsory Settlement of Disputes, that the Convention and both Optional Protocols came into force on 19 March 1967, and that the Convention consists of 79 articles of which Article 36 provides obligations for competent authorities on the arrest or detention of a foreign national so as to guarantee counsel and due process through consular notification and effective access to consular protection; the owners add the limit in the same place, namely that this is a reciprocal treaty right and a procedural safeguard and not

an unlimited power to override host-country law or secure release. B. Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away. C. The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments. D. Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things.

Answer: B. Explanation: Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q15. Which option preserves the source-bounded meaning of Pravasi Bharatiya Divas as the dated convening instrument?

A. The Ministry of External Affairs recorded 10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the caseload as evidence of obligation rather than as a criticism of the community. B. The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations, checked live on 2026-09-03, records that the United Nations Conference on Consular Relations was held at Vienna from 4 March to 22 April 1963 and attended by delegates of ninety-five States, that on 24 April 1963 the Conference adopted and opened for signature the Convention together with the Optional Protocol concerning Acquisition of Nationality and the Optional Protocol concerning the Compulsory Settlement of Disputes, that the Convention and both Optional Protocols came into force on 19 March 1967, and that the Convention consists of 79 articles of which Article 36 provides obligations for competent authorities on the arrest or detention of a foreign national so as to guarantee counsel and due process through consular notification and effective access to consular protection; the owners add the limit in the same place, namely that this is a reciprocal treaty right and a procedural safeguard and not an unlimited power to override host-country law or secure release. C. Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away. D. The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as

the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments.

Answer: C. Explanation: Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q16. Which statement avoids a close-option trap about Pravasi Bharatiya Divas as the dated convening instrument?

A. Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis evacuation, which is qualitatively different from routine consular welfare because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06. B. The Ministry of External Affairs recorded 10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the caseload as evidence of obligation rather than as a criticism of the community. C. The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations, checked live on 2026-09-03, records that the United Nations Conference on Consular Relations was held at Vienna from 4 March to 22 April 1963 and attended by delegates of ninety-five States, that on 24 April 1963 the Conference adopted and opened for signature the Convention together with the Optional Protocol concerning Acquisition of Nationality and the Optional Protocol concerning the Compulsory Settlement of Disputes, that the Convention and both Optional Protocols came into force on 19 March 1967, and that the Convention consists of 79 articles of which Article 36 provides obligations for competent authorities on the arrest or detention of a foreign national so as to guarantee counsel and due process through consular notification and effective access to consular protection; the owners add the limit in the same place, namely that this is a reciprocal treaty right and a procedural safeguard and not an unlimited power to override host-country law or secure release. D. Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away.

Answer: D. Explanation: Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q17. Which statement correctly identifies The MADAD grievance portal and its successor version?

A. MADAD is the Ministry of External Affairs online grievance-redress and consular-assistance platform for overseas Indians, launched on 21 February 2015, and MADAD 2.0 was launched in December 2025 and linked with e-Migrate and the Pravasi Bharatiya Sahayata Kendras; the owners treat this as the routine consular limb of the relationship, qualitatively different from crisis evacuation, and they insist that a platform launch is evidence of an available channel rather than evidence of a resolved grievance, so an answer should cite it as institutional capacity and not as an outcome. B. The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations, checked live on 2026-09-03, records that the United Nations Conference on Consular Relations was held at Vienna from 4 March to 22 April 1963 and attended by delegates of ninety-five States, that on 24 April 1963 the Conference adopted and opened for signature the Convention together with the Optional Protocol concerning Acquisition of Nationality and the Optional Protocol concerning the Compulsory Settlement of Disputes, that the Convention and both Optional Protocols came into force on 19 March 1967, and that the Convention consists of 79 articles of which Article 36 provides obligations for competent authorities on the arrest or detention of a foreign national so as to guarantee counsel and due process through consular notification and effective access to consular protection; the owners add the limit in the same place, namely that this is a reciprocal treaty right and a procedural safeguard and not an unlimited power to override host-country law or secure release. C. C. MADAD is the Ministry of External Affairs online grievance-redress and consular-assistance platform for overseas Indians, launched on 21 February 2015, and MADAD 2.0 was launched in December 2025 and linked with e-Migrate and the Pravasi Bharatiya Sahayata Kendras; the owners treat this as the routine consular limb of the relationship, qualitatively different from crisis evacuation, and they insist that a platform launch is evidence of an available channel rather than evidence of a resolved grievance, so an answer should cite it as institutional capacity and not as an outcome. D. The Ministry of External Affairs recorded 10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the caseload as evidence of obligation rather than as a criticism of the community.

Answer: C. Explanation: MADAD is the Ministry of External Affairs online grievance-redress and consular-assistance platform for overseas Indians, launched on 21 February 2015, and MADAD 2.0 was launched in December 2025 and linked with e-Migrate and the Pravasi Bharatiya Sahayata Kendras; the owners treat this as the routine consular limb of the relationship, qualitatively different from crisis evacuation, and they insist that a platform launch is evidence of an available channel rather than evidence of

a resolved grievance, so an answer should cite it as institutional capacity and not as an outcome. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q20. Which statement avoids a close-option trap about The MADAD grievance portal and its successor version?

A. The Ministry of External Affairs recorded 10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the caseload as evidence of obligation rather than as a criticism of the community. B. Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis evacuation, which is qualitatively different from routine consular welfare because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06. C. The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence. D. MADAD is the Ministry of External Affairs online grievance-redress and consular-assistance platform for overseas Indians, launched on 21 February 2015, and MADAD 2.0 was launched in December 2025 and linked with e-Migrate and the Pravasi Bharatiya Sahayata Kendras; the owners treat this as the routine consular limb of the relationship, qualitatively different from crisis evacuation, and they insist that a platform launch is evidence of an available channel rather than evidence of a resolved grievance, so an answer should cite it as institutional capacity and not as an outcome.

Answer: D. Explanation: MADAD is the Ministry of External Affairs online grievance-redress and consular-assistance platform for overseas Indians, launched on 21 February 2015, and MADAD 2.0 was launched in December 2025 and linked with e-Migrate and the Pravasi Bharatiya Sahayata Kendras; the owners treat this as the routine consular limb of the relationship, qualitatively different from crisis evacuation, and they insist that a platform launch is evidence of an available channel rather than evidence of a resolved grievance, so an answer should cite it as institutional capacity and not as an outcome. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q21. Which statement correctly identifies The welfare stack behind the portal?

A. Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things. B. The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments. C. The Ministry of External Affairs recorded 10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the

caseload as evidence of obligation rather than as a criticism of the community. D. The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations, checked live on 2026-09-03, records that the United Nations Conference on Consular Relations was held at Vienna from 4 March to 22 April 1963 and attended by delegates of ninety-five States, that on 24 April 1963 the Conference adopted and opened for signature the Convention together with the Optional Protocol concerning Acquisition of Nationality and the Optional Protocol concerning the Compulsory Settlement of Disputes, that the Convention and both Optional Protocols came into force on 19 March 1967, and that the Convention consists of 79 articles of which Article 36 provides obligations for competent authorities on the arrest or detention of a foreign national so as to guarantee counsel and due process through consular notification and effective access to consular protection; the owners add the limit in the same place, namely that this is a reciprocal treaty right and a procedural safeguard and not an unlimited power to override host-country law or secure release.

Answer: A. Explanation: Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q22. Which card should be filed under The welfare stack behind the portal in an International Relations answer?

A. The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations, checked live on 2026-09-03, records that the United Nations Conference on Consular Relations was held at Vienna from 4 March to 22 April 1963 and attended by delegates of ninety-five States, that on 24 April 1963 the Conference adopted and opened for signature the Convention together with the Optional Protocol concerning Acquisition of Nationality and the Optional Protocol concerning the Compulsory Settlement of Disputes, that the Convention and both Optional Protocols came into force on 19 March 1967, and that the Convention consists of 79 articles of which Article 36 provides obligations for competent authorities on the arrest or detention of a foreign national so as to guarantee counsel and due process through consular notification and effective access to consular protection; the owners add the limit in the same place, namely that this is a reciprocal treaty right and a procedural safeguard and not an unlimited power to override host-country law or secure release. B. Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things. C. Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis evacuation, which is qualitatively different from routine consular welfare because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06. D. The Ministry of External Affairs recorded 10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the caseload as evidence of obligation rather than as a criticism of the community.

Answer: B. Explanation: Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears

Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q23. Which option preserves the source-bounded meaning of The welfare stack behind the portal?

A. The Ministry of External Affairs recorded 10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the caseload as evidence of obligation rather than as a criticism of the community. B. The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence. C. Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things. D. Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis evacuation, which is qualitatively different from routine consular welfare because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06.

Answer: C. Explanation: Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q24. Which statement avoids a close-option trap about The welfare stack behind the portal?

A. The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence. B. Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis evacuation, which is qualitatively different from routine consular welfare

because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06. C. The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight. D. Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things.

Answer: D. Explanation: Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q25. Which statement correctly identifies The Protector General of Emigrants and the clearance category?

A. The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments. B. The Ministry of External Affairs recorded 10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the caseload as evidence of obligation rather than as a criticism of the community. C. Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis evacuation, which is qualitatively different from routine consular welfare because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06. D. The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations, checked live on 2026-09-03, records that the United Nations Conference on Consular Relations was held at Vienna from 4 March to 22 April 1963 and attended by delegates of ninety-five States, that on 24 April 1963 the Conference adopted and opened for signature the Convention together with the Optional Protocol concerning Acquisition of Nationality and the Optional Protocol concerning the Compulsory Settlement of Disputes, that the Convention and both Optional Protocols came into force on 19 March 1967, and that the Convention consists of 79 articles of which Article 36 provides obligations for competent authorities on the arrest or detention of a foreign national so as to guarantee

counsel and due process through consular notification and effective access to consular protection; the owners add the limit in the same place, namely that this is a reciprocal treaty right and a procedural safeguard and not an unlimited power to override host-country law or secure release.

Answer: A. Explanation: The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q26. Which card should be filed under The Protector General of Emigrants and the clearance category in an International Relations answer?

A. The Ministry of External Affairs recorded 10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the caseload as evidence of obligation rather than as a criticism of the community. B. The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments. C. The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence. D. Answer: B. Explanation: The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q27. Which option preserves the source-bounded meaning of The Protector General of Emigrants and the clearance category?

A. The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence. B. Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis evacuation, which is qualitatively different from routine consular welfare because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06. C. The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments. D. The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight.

Answer: C. Explanation: The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q28. Which statement avoids a close-option trap about The Protector General of Emigrants and the clearance category?

A. The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment. B. The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight. C. The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated

evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence. D. The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments.

Answer: D. Explanation: The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q29. Which statement correctly identifies The consular treaty frame and what Article 36 actually guarantees?

A. The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations, checked live on 2026-09-03, records that the United Nations Conference on Consular Relations was held at Vienna from 4 March to 22 April 1963 and attended by delegates of ninety-five States, that on 24 April 1963 the Conference adopted and opened for signature the Convention together with the Optional Protocol concerning Acquisition of Nationality and the Optional Protocol concerning the Compulsory Settlement of Disputes, that the Convention and both Optional Protocols came into force on 19 March 1967, and that the Convention consists of 79 articles of which Article 36 provides obligations for competent authorities on the arrest or detention of a foreign national so as to guarantee counsel and due process through consular notification and effective access to consular protection; the owners add the limit in the same place, namely that this is a reciprocal treaty right and a procedural safeguard and not an unlimited power to override host-country law or secure release. Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis evacuation, which is qualitatively different from routine consular welfare because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06.

Answer: A. Explanation: The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations, checked live on 2026-09-03, records that the United Nations Conference on Consular Relations was held at Vienna from 4 March to 22 April 1963 and attended by delegates of ninety-five States, that on 24 April 1963 the Conference adopted and opened for signature the Convention together with the Optional Protocol concerning Acquisition of Nationality and the Optional Protocol concerning the Compulsory Settlement of Disputes, that the Convention and both Optional Protocols came into force on 19 March 1967, and that the Convention consists of 79 articles of which Article 36 provides

obligations for competent authorities on the arrest or detention of a foreign national so as to guarantee counsel and due process through consular notification and effective access to consular protection; the owners add the limit in the same place, namely that this is a reciprocal treaty right and a procedural safeguard and not an unlimited power to override host-country law or secure release. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q30. Which card should be filed under The consular treaty frame and what Article 36 actually guarantees in an International Relations answer?

A. Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis evacuation, which is qualitatively different from routine consular welfare because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06. B. The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations, checked live on 2026-09-03, records that the United Nations Conference on Consular Relations was held at Vienna from 4 March to 22 April 1963 and attended by delegates of ninety-five States, that on 24 April 1963 the Conference adopted and opened for signature the Convention together with the Optional Protocol concerning Acquisition of Nationality and the Optional Protocol concerning the Compulsory Settlement of Disputes, that the Convention and both Optional Protocols came into force on 19 March 1967, and that the Convention consists of 79 articles of which Article 36 provides obligations for competent authorities on the arrest or detention of a foreign national so as to guarantee counsel and due process through consular notification and effective access to consular protection; the owners add the limit in the same place, namely that this is a reciprocal treaty right and a procedural safeguard and not an unlimited power to override host-country law or secure release. C. The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence. D. The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight.

Answer: B. Explanation: The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations, checked live on 2026-09-03, records that the United Nations Conference on Consular Relations was held at Vienna from 4 March to 22 April 1963 and attended by delegates of ninety-five States, that on 24 April 1963 the Conference adopted and opened for signature the Convention together with the Optional Protocol concerning Acquisition of Nationality and the Optional Protocol concerning the Compulsory Settlement of Disputes, that the Convention and both Optional Protocols came into force on 19 March 1967, and that the Convention consists of 79 articles of which Article 36 provides obligations for competent authorities on the arrest or detention of a foreign national so as to guarantee counsel and due process through consular notification and effective access to consular protection; the owners add the limit in the same place, namely that this is a reciprocal treaty right and a procedural safeguard and not an unlimited power to override host-country law or secure release. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q31. Which option preserves the source-bounded meaning of The consular treaty frame and what Article 36 actually guarantees?

A. The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight. B. The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence. C. The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations, checked live on 2026-09-03, records that the United Nations Conference on Consular Relations was held at Vienna from 4 March to 22 April 1963 and attended by delegates of ninety-five States, that on 24 April 1963 the Conference adopted and opened for signature the Convention together with the Optional Protocol concerning Acquisition of Nationality and the Optional Protocol concerning the Compulsory Settlement of Disputes, that the Convention and both Optional Protocols came into force on 19 March 1967, and that the Convention consists of 79 articles of which Article 36 provides obligations for competent authorities on the arrest or detention of a foreign national so as to guarantee counsel and due process through consular notification and effective access to consular protection; the owners add the limit in the same place, namely that this is a reciprocal treaty right and a procedural safeguard and not an unlimited power to override host-country law or secure release. D. The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment.

Answer: C. Explanation: The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations, checked live on 2026-09-03, records that the United Nations Conference on Consular Relations was held at Vienna from 4 March to 22 April 1963 and attended by delegates of ninety-five States, that on 24 April 1963 the Conference adopted and opened for signature the Convention together with the Optional Protocol concerning Acquisition of Nationality and the Optional Protocol concerning the Compulsory Settlement of Disputes, that the Convention and both Optional Protocols came into force on 19 March 1967, and that the Convention consists of 79 articles of which Article 36 provides obligations for competent authorities on the arrest or detention of a foreign national so as to guarantee counsel and due process through consular notification and effective access to consular protection; the owners add the limit in the same place, namely that this is a reciprocal treaty right and a procedural safeguard and not an unlimited power to override host-country law or secure release. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q32. Which statement avoids a close-option trap about The consular treaty frame and what Article 36 actually guarantees?

A. The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment. B. The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's

inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight. C. Tharoor lists Bollywood cinema, books and music, educational opportunities, health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer. D. The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations, checked live on 2026-09-03, records that the United Nations Conference on Consular Relations was held at Vienna from 4 March to 22 April 1963 and attended by delegates of ninety-five States, that on 24 April 1963 the Conference adopted and opened for signature the Convention together with the Optional Protocol concerning Acquisition of Nationality and the Optional Protocol concerning the Compulsory Settlement of Disputes, that the Convention and both Optional Protocols came into force on 19 March 1967, and that the Convention consists of 79 articles of which Article 36 provides obligations for competent authorities on the arrest or detention of a foreign national so as to guarantee counsel and due process through consular notification and effective access to consular protection; the owners add the limit in the same place, namely that this is a reciprocal treaty right and a procedural safeguard and not an unlimited power to override host-country law or secure release.

Answer: D. Explanation: The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations, checked live on 2026-09-03, records that the United Nations Conference on Consular Relations was held at Vienna from 4 March to 22 April 1963 and attended by delegates of ninety-five States, that on 24 April 1963 the Conference adopted and opened for signature the Convention together with the Optional Protocol concerning Acquisition of Nationality and the Optional Protocol concerning the Compulsory Settlement of Disputes, that the Convention and both Optional Protocols came into force on 19 March 1967, and that the Convention consists of 79 articles of which Article 36 provides obligations for competent authorities on the arrest or detention of a foreign national so as to guarantee counsel and due process through consular notification and effective access to consular protection; the owners add the limit in the same place, namely that this is a reciprocal treaty right and a procedural safeguard and not an unlimited power to override host-country law or secure release. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q33. Which statement correctly identifies Consular caseload as a scale indicator?

A. The Ministry of External Affairs recorded 10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the caseload as evidence of obligation rather than as a criticism of the community. B. The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence. C. The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight. D. Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis

evacuation, which is qualitatively different from routine consular welfare because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06.

Answer: A. Explanation: The Ministry of External Affairs recorded 10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the caseload as evidence of obligation rather than as a criticism of the community. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q34. Which card should be filed under Consular caseload as a scale indicator in an International Relations answer?

A. The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment. B. The Ministry of External Affairs recorded 10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the caseload as evidence of obligation rather than as a criticism of the community. C. The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight. D. The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence.

Answer: B. Explanation: The Ministry of External Affairs recorded 10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the caseload as evidence of obligation rather than as a criticism of the community. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q35. Which option preserves the source-bounded meaning of Consular caseload as a scale indicator?

A. The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight. B. Tharoor lists Bollywood cinema, books and music, educational opportunities, health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer. C. The Ministry of External Affairs recorded 10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the caseload as evidence of obligation rather than as a criticism of the community. D. The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment.

Answer: C. Explanation: The Ministry of External Affairs recorded 10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the caseload as evidence of obligation rather than as a criticism of the community. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q36. Which statement avoids a close-option trap about Consular caseload as a scale indicator?

A. The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment. B. Tharoor reframes Non-Resident Indians as Now-Required-Indians while arguing that India lacks a policy to channel diaspora enthusiasm, commitment and resources to the promotion of India's image, and the owners stress that the reframing is explicitly conditional on India adopting such a policy rather than being a description of the diaspora's current relationship with India; the answer-writing consequence is that the phrase must be deployed as a policy-design argument with its condition attached, since quoting it as a settled description inverts the author's own claim. C. Tharoor lists Bollywood cinema, books and music, educational opportunities, health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer. D. The Ministry of External Affairs recorded

10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the caseload as evidence of obligation rather than as a criticism of the community.

Answer: D. Explanation: The Ministry of External Affairs recorded 10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the caseload as evidence of obligation rather than as a criticism of the community. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q37. Which statement correctly identifies Operation Sindhu and the evacuation-diplomacy boundary?

A. Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis evacuation, which is qualitatively different from routine consular welfare because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06. B. The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence. C. The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight. D. The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment.

Answer: A. Explanation: Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis evacuation, which is qualitatively different from routine consular welfare because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q38. Which card should be filed under Operation Sindhu and the evacuation-diplomacy boundary in an International Relations answer?

A. Tharoor lists Bollywood cinema, books and music, educational opportunities, health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer. B. Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis evacuation, which is qualitatively different from routine consular welfare because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06. C. The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight. D. The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment.

Answer: B. Explanation: Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis evacuation, which is qualitatively different from routine consular welfare because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q39. Which option preserves the source-bounded meaning of Operation Sindhu and the evacuation-diplomacy boundary?

A. The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment. B. Tharoor reframes Non-Resident Indians as Now-Required-Indians while arguing that India lacks a policy to channel diaspora enthusiasm, commitment and resources to the promotion of India's image, and the owners stress that the reframing is explicitly conditional on India adopting such a policy rather than being a description of the diaspora's current relationship with India; the answer-writing consequence is that the phrase must be deployed as a policy-design argument with its condition attached, since quoting it as a settled description inverts the author's own claim. C. Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis evacuation, which is qualitatively different from routine consular welfare because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to

the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06. D. Tharoor lists Bollywood cinema, books and music, educational opportunities, health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer.

Answer: C. Explanation: Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis evacuation, which is qualitatively different from routine consular welfare because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q40. Which statement avoids a close-option trap about Operation Sindhu and the evacuation-diplomacy boundary?

A. Tharoor lists Bollywood cinema, books and music, educational opportunities, health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer. B. Tharoor reframes Non-Resident Indians as Now-Required-Indians while arguing that India lacks a policy to channel diaspora enthusiasm, commitment and resources to the promotion of India's image, and the owners stress that the reframing is explicitly conditional on India adopting such a policy rather than being a description of the diaspora's current relationship with India; the answer-writing consequence is that the phrase must be deployed as a policy-design argument with its condition attached, since quoting it as a settled description inverts the author's own claim. C. Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change. D. Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis evacuation, which is qualitatively different from routine consular welfare because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06.

Answer: D. Explanation: Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis evacuation, which is qualitatively different from routine consular welfare because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q41. Which statement correctly identifies Remittances as a diplomatic linkage and the Economy boundary?

A. The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence. B. Tharoor lists Bollywood cinema, books and music, educational opportunities, health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer. C. The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment. D. The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight.

Answer: A. Explanation: The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q42. Which card should be filed under Remittances as a diplomatic linkage and the Economy boundary in an International Relations answer?

A. The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment. B. The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence. C. Tharoor reframes Non-Resident Indians as Now-Required-Indians while arguing that India lacks a policy to channel diaspora enthusiasm, commitment and resources to the promotion of India's image, and the owners stress that the reframing is explicitly conditional on India adopting such a policy rather than being a description of the diaspora's current relationship with India; the answer-writing consequence is that the phrase must be deployed as a policy-design

argument with its condition attached, since quoting it as a settled description inverts the author's own claim. D. Tharoor lists Bollywood cinema, books and music, educational opportunities, health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer.

Answer: B. Explanation: The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q43. Which option preserves the source-bounded meaning of Remittances as a diplomatic linkage and the Economy boundary?

A. Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change. B. Tharoor reframes Non-Resident Indians as Now-Required-Indians while arguing that India lacks a policy to channel diaspora enthusiasm, commitment and resources to the promotion of India's image, and the owners stress that the reframing is explicitly conditional on India adopting such a policy rather than being a description of the diaspora's current relationship with India; the answer-writing consequence is that the phrase must be deployed as a policy-design argument with its condition attached, since quoting it as a settled description inverts the author's own claim. C. The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence. D. Tharoor lists Bollywood cinema, books and music, educational opportunities, health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer.

Answer: C. Explanation: The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q44. Which statement avoids a close-option trap about Remittances as a diplomatic linkage and the Economy boundary?

A. Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection. B. Tharoor reframes Non-Resident Indians as Now-Required-Indians while arguing that India lacks a policy to channel diaspora enthusiasm, commitment and resources to the promotion of India's image, and the owners stress that the reframing is explicitly conditional on India adopting such a policy rather than being a description of the diaspora's current relationship with India; the answer-writing consequence is that the phrase must be deployed as a policy-design argument with its condition attached, since quoting it as a settled description inverts the author's own claim. C. Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change. D. The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence.

Answer: D. Explanation: The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q45. Which statement correctly identifies The remittance composition shift and what it changes?

A. The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight. B. Tharoor reframes Non-Resident Indians as Now-Required-Indians while arguing that India lacks a policy to channel diaspora enthusiasm, commitment and resources to the promotion of India's image, and the owners stress that the reframing is explicitly conditional on India adopting such a policy rather than being a description of the diaspora's current relationship with India; the answer-writing consequence is that the phrase must be deployed as a policy-design argument with its condition attached, since quoting it as a settled description inverts the author's own claim. C. The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment. D. Tharoor lists Bollywood cinema, books and music, educational opportunities,

health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer.

Answer: A. Explanation: The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q46. Which card should be filed under The remittance composition shift and what it changes in an International Relations answer?

A. Tharoor lists Bollywood cinema, books and music, educational opportunities, health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer. B. The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight. C. Tharoor reframes Non-Resident Indians as Now-Required-Indians while arguing that India lacks a policy to channel diaspora enthusiasm, commitment and resources to the promotion of India's image, and the owners stress that the reframing is explicitly conditional on India adopting such a policy rather than being a description of the diaspora's current relationship with India; the answer-writing consequence is that the phrase must be deployed as a policy-design argument with its condition attached, since quoting it as a settled description inverts the author's own claim. D. Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change.

Answer: B. Explanation: The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q47. Which option preserves the source-bounded meaning of The remittance composition shift and what it changes?

A. Tharoor reframes Non-Resident Indians as Now-Required-Indians while arguing that India lacks a policy to channel diaspora enthusiasm, commitment and resources to the promotion of India's image, and the owners stress that the reframing is explicitly conditional on India adopting such a policy rather than being a description of the diaspora's current relationship with India; the answer-writing consequence is that the phrase must be deployed as a policy-design argument with its condition attached, since quoting it as a settled description inverts the author's own claim. B. Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection. C. The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight. D. Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change.

Answer: C. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q48. Which statement avoids a close-option trap about The remittance composition shift and what it changes?

A. Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change. B. Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection. C. The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and

the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event. D. The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight.

Answer: D. Explanation: The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q49. Which statement correctly identifies The instrument-population mismatch?

A. The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment. B. Tharoor reframes Non-Resident Indians as Now-Required-Indians while arguing that India lacks a policy to channel diaspora enthusiasm, commitment and resources to the promotion of India's image, and the owners stress that the reframing is explicitly conditional on India adopting such a policy rather than being a description of the diaspora's current relationship with India; the answer-writing consequence is that the phrase must be deployed as a policy-design argument with its condition attached, since quoting it as a settled description inverts the author's own claim. C. Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change. D. Tharoor lists Bollywood cinema, books and music, educational opportunities, health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer.

Answer: A. Explanation: The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q50. Which card should be filed under The instrument-population mismatch in an International Relations answer?

A. Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection. B. The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment. C. Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change. D. Tharoor reframes Non-Resident Indians as Now-Required-Indians while arguing that India lacks a policy to channel diaspora enthusiasm, commitment and resources to the promotion of India's image, and the owners stress that the reframing is explicitly conditional on India adopting such a policy rather than being a description of the diaspora's current relationship with India; the answer-writing consequence is that the phrase must be deployed as a policy-design argument with its condition attached, since quoting it as a settled description inverts the author's own claim.

Answer: B. Explanation: The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q51. Which option preserves the source-bounded meaning of The instrument-population mismatch?

A. The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event. B. Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change. C. The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable

consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment. D. Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection.

Answer: C. Explanation: The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q52. Which statement avoids a close-option trap about The instrument-population mismatch?

A. Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection. B. The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event. C. Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community. D. The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment.

Answer: D. Explanation: The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched

to the segment, instead of proposing more of an instrument that does not reach that segment. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q53. Which statement correctly identifies The soft-power inventory in the source's own terms?

A. Tharoor lists Bollywood cinema, books and music, educational opportunities, health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer. B. Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change. C. Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection. D. Tharoor reframes Non-Resident Indians as Now-Required-Indians while arguing that India lacks a policy to channel diaspora enthusiasm, commitment and resources to the promotion of India's image, and the owners stress that the reframing is explicitly conditional on India adopting such a policy rather than being a description of the diaspora's current relationship with India; the answer-writing consequence is that the phrase must be deployed as a policy-design argument with its condition attached, since quoting it as a settled description inverts the author's own claim.

Answer: A. Explanation: Tharoor lists Bollywood cinema, books and music, educational opportunities, health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q54. Which card should be filed under The soft-power inventory in the source's own terms in an International Relations answer?

A. Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change. B. Tharoor lists Bollywood cinema, books and music, educational opportunities, health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer. C. The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not

uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event. D. Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection.

Answer: B. Explanation: Tharoor lists Bollywood cinema, books and music, educational opportunities, health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q55. Which option preserves the source-bounded meaning of The soft-power inventory in the source's own terms?

A. Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection. B. Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community. C. Tharoor lists Bollywood cinema, books and music, educational opportunities, health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer. D. The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event.

Answer: C. Explanation: Tharoor lists Bollywood cinema, books and music, educational opportunities, health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q56. Which statement avoids a close-option trap about The soft-power inventory in the source's own terms?

A. The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event. B. The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred. C. Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community. D. Tharoor lists Bollywood cinema, books and music, educational opportunities, health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer.

Answer: D. Explanation: Tharoor lists Bollywood cinema, books and music, educational opportunities, health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q57. Which statement correctly identifies Now-Required-Indians as a conditional policy argument?

A. Tharoor reframes Non-Resident Indians as Now-Required-Indians while arguing that India lacks a policy to channel diaspora enthusiasm, commitment and resources to the promotion of India's image, and the owners stress that the reframing is explicitly conditional on India adopting such a policy rather than being a description of the diaspora's current relationship with India; the answer-writing consequence is that the phrase must be deployed as a policy-design argument with its condition attached, since quoting it as a settled description inverts the author's own claim. B. Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural

Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change. C. Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection. D. The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event.

Answer: A. Explanation: Tharoor reframes Non-Resident Indians as Now-Required-Indians while arguing that India lacks a policy to channel diaspora enthusiasm, commitment and resources to the promotion of India's image, and the owners stress that the reframing is explicitly conditional on India adopting such a policy rather than being a description of the diaspora's current relationship with India; the answer-writing consequence is that the phrase must be deployed as a policy-design argument with its condition attached, since quoting it as a settled description inverts the author's own claim. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q58. Which card should be filed under Now-Required-Indians as a conditional policy argument in an International Relations answer?

A. Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection. B. Tharoor reframes Non-Resident Indians as Now-Required-Indians while arguing that India lacks a policy to channel diaspora enthusiasm, commitment and resources to the promotion of India's image, and the owners stress that the reframing is explicitly conditional on India adopting such a policy rather than being a description of the diaspora's current relationship with India; the answer-writing consequence is that the phrase must be deployed as a policy-design argument with its condition attached, since quoting it as a settled description inverts the author's own claim. C. Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community. D. The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya

Divas, which is a diaspora-recognition convening event.

Answer: B. Explanation: Tharoor reframes Non-Resident Indians as Now-Required-Indians while arguing that India lacks a policy to channel diaspora enthusiasm, commitment and resources to the promotion of India's image, and the owners stress that the reframing is explicitly conditional on India adopting such a policy rather than being a description of the diaspora's current relationship with India; the answer-writing consequence is that the phrase must be deployed as a policy-design argument with its condition attached, since quoting it as a settled description inverts the author's own claim. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q59. Which option preserves the source-bounded meaning of Now-Required-Indians as a conditional policy argument?

A. Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community. B. The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event. C. Tharoor reframes Non-Resident Indians as Now-Required-Indians while arguing that India lacks a policy to channel diaspora enthusiasm, commitment and resources to the promotion of India's image, and the owners stress that the reframing is explicitly conditional on India adopting such a policy rather than being a description of the diaspora's current relationship with India; the answer-writing consequence is that the phrase must be deployed as a policy-design argument with its condition attached, since quoting it as a settled description inverts the author's own claim. D. The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred.

Answer: C. Explanation: Tharoor reframes Non-Resident Indians as Now-Required-Indians while arguing that India lacks a policy to channel diaspora enthusiasm, commitment and resources to the promotion of India's image, and the owners stress that the reframing is explicitly conditional on India adopting such a policy rather than being a description of the diaspora's current relationship with India; the answer-writing consequence is that the phrase must be deployed as a policy-design argument with its condition attached, since quoting it as a settled description inverts the author's own claim. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q60. Which statement avoids a close-option trap about Now-Required-Indians as a conditional policy argument?

A. The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred. B. Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community. C. This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06. D. Tharoor reframes Non-Resident Indians as Now-Required-Indians while arguing that India lacks a policy to channel diaspora enthusiasm, commitment and resources to the promotion of India's image, and the owners stress that the reframing is explicitly conditional on India adopting such a policy rather than being a description of the diaspora's current relationship with India; the answer-writing consequence is that the phrase must be deployed as a policy-design argument with its condition attached, since quoting it as a settled description inverts the author's own claim.

Answer: D. Explanation: Tharoor reframes Non-Resident Indians as Now-Required-Indians while arguing that India lacks a policy to channel diaspora enthusiasm, commitment and resources to the promotion of India's image, and the owners stress that the reframing is explicitly conditional on India adopting such a policy rather than being a description of the diaspora's current relationship with India; the answer-writing consequence is that the phrase must be deployed as a policy-design argument with its condition attached, since quoting it as a settled description inverts the author's own claim. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q61. Which statement correctly identifies The institutional-fragmentation critique?

A. Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change. B. Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community. C. The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event. D. Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection.

Answer: A. Explanation: Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q62. Which card should be filed under The institutional-fragmentation critique in an International Relations answer?

A. The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event. B. Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a

how-should-India-improve question and not as an accomplished institutional change. C. Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community. D. The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred.

Answer: B. Explanation: Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q63. Which option preserves the source-bounded meaning of The institutional-fragmentation critique?

A. The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred. B. Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional

approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community. C. Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change. D. This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06.

Answer: C. Explanation: Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q64. Which statement avoids a close-option trap about The institutional-fragmentation critique?

A. The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred. B. This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06. C. The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a

population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments. D. Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change.

Answer: D. Explanation: Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q65. Which statement correctly identifies Authenticity and self-inflicted soft-power damage?

A. Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection. B. The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event. C. The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred. D. Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community.

Answer: A. Explanation: Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q66. Which card should be filed under Authenticity and self-inflicted soft-power damage in an International Relations answer?

A. This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06. B. Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection. C. The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred. D. Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community.

Answer: B. Explanation: Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative

investment in cultural projection. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q67. Which option preserves the source-bounded meaning of Authenticity and self-inflicted soft-power damage?

A. This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06. B. The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred. C. Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection. D. The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments.

Answer: C. Explanation: Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q68. Which statement avoids a close-option trap about Authenticity and self-inflicted soft-power damage?

A. The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments. B. The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on. C. This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06. D. Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection.

Answer: D. Explanation: Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q69. Which statement correctly identifies Technical cooperation as cultural diplomacy and its regional limit?

A. The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event. B. Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party,

constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community. C. This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06. D. The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred.

Answer: A. Explanation: The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q70. Which card should be filed under Technical cooperation as cultural diplomacy and its regional limit in an International Relations answer?

A. The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred. B. The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so

the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event. C. The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments. D. This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06.

Answer: B. Explanation: The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q71. Which option preserves the source-bounded meaning of Technical cooperation as cultural diplomacy and its regional limit?

A. This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06. B. The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on. C. The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event. D. The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian

population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments.

Answer: C. Explanation: The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q72. Which statement avoids a close-option trap about Technical cooperation as cultural diplomacy and its regional limit?

A. The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments. B. The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on. C. Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away. D. The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event.

Answer: D. Explanation: The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q73. Which statement correctly identifies Political influence and the liability side of the same asset?

A. Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community. B. The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred. C. The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments. D. This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06.

Answer: A. Explanation: Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q74. Which card should be filed under Political influence and the liability side of the same asset in an International Relations answer?

A. The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on. B. Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community. C. The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments. D. This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06.

Answer: B. Explanation: Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q75. Which option preserves the source-bounded meaning of Political influence and the liability side of the same asset?

A. The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments. B. The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on. C. Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community. D. Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away.

Answer: C. Explanation: Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q76. Which statement avoids a close-option trap about Political influence and the liability side of the same asset?

A. MADAD is the Ministry of External Affairs online grievance-redress and consular-assistance platform for overseas Indians, launched on 21 February 2015, and MADAD 2.0 was launched in December 2025 and linked with e-Migrate and the Pravasi Bharatiya Sahayata Kendras; the owners treat this as the routine consular limb of the relationship, qualitatively different from crisis evacuation, and they insist that a platform launch is evidence of an available channel rather than evidence of a resolved grievance, so an answer should cite it as institutional capacity and not as an outcome. B. The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to

the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on. C. Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away. D. Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community.

Answer: D. Explanation: Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q77. Which statement correctly identifies Honest question ownership for this diaspora owner?

A. The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred. B. This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics

belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06. C. The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on. The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments.

Answer: A. Explanation: The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q78. Which card should be filed under Honest question ownership for this diaspora owner in an International Relations answer?

A. The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments. B. The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred. C. Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition

officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away. D. The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on.

Answer: B. Explanation: The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q79. Which option preserves the source-bounded meaning of Honest question ownership for this diaspora owner?

A. MADAD is the Ministry of External Affairs online grievance-redress and consular-assistance platform for overseas Indians, launched on 21 February 2015, and MADAD 2.0 was launched in December 2025 and linked with e-Migrate and the Pravasi Bharatiya Sahayata Kendras; the owners treat this as the routine consular limb of the relationship, qualitatively different from crisis evacuation, and they insist that a platform launch is evidence of an available channel rather than evidence of a resolved grievance, so an answer should cite it as institutional capacity and not as an outcome. B. Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away. C. The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred. D. The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on.

Answer: C. Explanation: The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

Q80. Which statement avoids a close-option trap about Honest question ownership for this diaspora owner?

A. MADAD is the Ministry of External Affairs online grievance-redress and consular-assistance platform for overseas Indians, launched on 21 February 2015, and MADAD 2.0 was launched in December 2025 and linked with e-Migrate and the Pravasi Bharatiya Sahayata Kendras; the owners treat this as the routine consular limb of the relationship, qualitatively different from crisis evacuation, and they insist that a platform launch is evidence of an available channel rather than evidence of a resolved grievance, so an answer should cite it as institutional capacity and not as an outcome. B. Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things. C. Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away. D. The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred.

Answer: D. Explanation: The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the

mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred. The remaining options belong to different actors, instruments, evidentiary levels or analytical categories.

PYQS AND ANSWER PRACTICE

VERIFIED PYQ OWNERSHIP AUDIT

Two General Studies Paper II Mains demands are routed to this topic in the audited routing ledgers and each is reproduced below as a demand card with its printed year, paper, question number, directive, marks and word limit exactly as the ledger records them: 2020 General Studies Paper II question 10 on the Indian diaspora in the politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words, for which the ledger records that the Core route supersedes the older Advanced ownership; and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value, a provenance defect that is reported here rather than repaired by invented wording. No objective demand from any audited Prelims routing ledger is routed to this owner, so none is listed, invented or answered. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in the economy and society of South-East Asian countries; that year falls outside the audited 2018-2023 and 2024-2025 routing ledgers and the wording is not confirmable from the locally held official papers, so it is recorded here as an owner-cited demand without a question number and is deliberately not converted into a solved demand card. The Basic and Advanced owners also record that no General Studies Paper II Mains question in the audited 2024-2025 papers directly names the diaspora, consular protection or soft power, and that absence is stated honestly instead of force-fitting an adjacent question. The locally held OCR-searchable official General Studies papers were read only to confirm the printed wording of the two routed Mains demands; no question was invented from them, no stem was paraphrased into an apparent routing, and no marking scheme or official answer key was imported.

OWNER PYQ LEDGER EXTRACTS

9. PYQ application

- FACT: **2017 GS-II**: "Indian diaspora has an important role to play in South-East Asian countries' economy and society. Appraise the role of Indian diaspora in South-East Asia in this context." - separate economic contribution, social mediation and host-country constraints.
- FACT: **2020 GS-II**: "Indian diaspora has a decisive role to play in the politics and economy of America and European countries. Comment with examples." - distinguish political influence from economic contribution; do not substitute remittance data for the political half.
- ANALYSIS: No 2024-2025 question directly names the diaspora; use the 18th PBD as the current anchor, Polity for OCI doctrine and Economy for remittances.

Historical PYQ Integration (2018-2023)

Status: Question-level PYQ demand is integrated into this owner. **Provenance:** Audited local official-paper routing ledgers: _PYQ-ROUTING-MAINS-GS1-GS2-ESSAY-2018-2023.md.

- **Years represented:** 2020, 2023
- **Paper(s):** GS-II
- **Routed question demands:** 2

Year	Paper	Q	PYQ demand (neutral rendering)	Directive / format	Source status	Owner requirement
2020	GS-II	10	Indian diaspora in the politics and economy of America and Europe	Comment with examples · 10 marks · 150 words	Core route supersedes older Advanced ownership	Prepare context, core dimensions, evidence/examples, counterpoint and a concise conclusion.
2023	GS-II	10	Indian diaspora in the West and its economic and political benefits	Describe · 10 marks · 150 words	Core route supersedes older Advanced ownership	Prepare context, core dimensions, evidence/examples, counterpoint and a concise conclusion.

What this owner must now support

- Indian diaspora in the politics and economy of America and Europe
- Indian diaspora in the West and its economic and political benefits

The table integrates the examinable demand and paper metadata. It does not turn an unkeyed objective question into a solved answer, and it does not claim that lexical presence alone proves full conceptual sufficiency.

10. PYQ-based analytical application

- **FACT: 2017 GS-II** requires an appraisal of the diaspora's economic and social role in South-East Asia; apply the two-way-bridge model and add host-country integration/identity constraints.
- **FACT: 2020 GS-II** requires comment on the diaspora's political and economic role in America and Europe; keep lobbying/representation analytically distinct from trade, entrepreneurship and knowledge networks.
- **ANALYSIS:** No 2024-2025 question directly names this theme. An advanced answer should:
 1. Distinguish the welfare/protection track from the soft-power-projection track explicitly.
 2. Cite Tharoor's institutional-fragmentation critique as the analytical spine for any "how should India improve its soft power" question.
 3. Link authenticity/pluralism at home to credibility abroad, using the nativist-attack example as concrete evidence.
 4. Cite the dated PBD (January 2025) rather than an undated diaspora-engagement claim.

Historical PYQ Integration (2018-2023)

2023	GS-II	10	Indian diaspora in the West and its economic and political benefits	Describe · 10 marks · 150 words	Routed to owning topic; word limit taken from the instruction block	Prepare context, core dimensions, evidence/examples, counterpoint and a concise conclusion.

What this owner must now support

- Indian diaspora in the politics and economy of America and Europe
- Indian diaspora in the West and its economic and political benefits

The table integrates the examinable demand and paper metadata. It does not turn an unkeyed objective question into a solved answer, and it does not claim that lexical presence alone proves full conceptual sufficiency.

PYQ DEMAND CARD 1 - 2020 General Studies Paper II Question 10

Demand: 'Indian diaspora has a decisive role to play in the politics and economy of America and European Countries'. Comment with examples. (Answer in 150 words). A Comment with examples demand of 10 marks and 150 words, exactly as recorded in the audited 2018-2023 Mains routing ledger and confirmed against the locally held official paper.

Status: Routed to this owner in the audited 2018-2023 Mains routing ledger, where the Core route is recorded as superseding the older Advanced ownership. No official answer key exists for a Mains demand and none is claimed.

Model solution: Claim: the diaspora's role is substantial and demonstrable in the economic sphere and real but conditional in the political sphere, so the word decisive overstates the political limb while understating how the two limbs interact. Named evidence and example: the Ministry of External Affairs overseas-Indian population table as on January 2026, recording 35,421,987 overseas Indians of whom 19,571,375 are Non-Resident Indians and 15,850,612 are Persons of Indian Origin, with the United States at 6,079,221; the Economic Survey 2025-26 record of India as the world's largest recipient of remittances at USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026; the Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, showing advanced economies now contributing more than the Gulf Cooperation Council countries with the United States at 27.7 per cent, the United Kingdom at 10.8 per cent and Singapore at 6.6 per cent; Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024; six Indian-American members of the House of Representatives in the 119th Congress; and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifying Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies. Analysis: the economic limb is decisive in a measurable sense because remittances, professional presence and knowledge networks change the composition of India's external accounts and the density of its institutional links with these societies, while the political limb works indirectly through access, familiarity and coalition-building rather than through control, so the diaspora enlarges the space in which Indian diplomacy operates without determining any specific legislative or electoral outcome; the shift of the remittance base towards advanced economies makes precisely these host relationships more consequential for consular and negotiating purposes. Qualification: the comment must not overstate the political limb, because office-holders of Indian origin act under host-country mandates and cannot be treated as agents of India, party, constituency and committee incentives shape their positions more than ancestry does, diaspora advocacy contributed to but did not independently determine Congressional approval of the civil-nuclear initiative, diaspora-linked security or separatism disputes can convert a community connection into a sovereignty and law-enforcement problem, and every population figure cited is a stock estimate rather than a count of citizens or of Overseas Citizen of India cards. Why this earns marks: it engages the word decisive directly instead of ignoring it, evidences both halves of the question with dated and named material, and closes with the host-country mandate limit that separates influence from control.

PYQ DEMAND CARD 2 - 2023 General Studies Paper II Question 10

Demand: Indian diaspora has scaled new heights in the West. Describe its economic and political benefits for India. A Describe demand of 10 marks and 150 words, exactly as recorded in the audited 2018-2023 Mains routing ledger and confirmed against the locally held official paper, where the printed per-question tail carries only the mark value and the word limit is taken from the paper's instruction block.

Status: Routed to this owner in the audited 2018-2023 Mains routing ledger, where the Core route is recorded as superseding the older Advanced ownership. No official answer key exists for a Mains demand and none is claimed, and the word-limit provenance is reported rather than reconstructed.

Model solution: Claim: the diaspora's rise in the West yields three describable benefit streams for India, namely financial inflows, knowledge and institutional networks, and political access, and each is real, dated and separately bounded. Named evidence and example: the financial stream is evidenced by the Economic Survey 2025-26 record of India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025 at about 3.5 per cent of gross domestic product, and by the Reserve Bank of India's sixth Survey on Remittances for the financial year 2024 showing the United States at 27.7 per cent, the United Arab Emirates at 19.2 per cent, the United Kingdom at 10.8 per cent and Singapore at 6.6 per cent; the network stream is evidenced by a diaspora of 35,421,987 recorded by the Ministry of External Affairs as on January 2026, including 6,079,221 in the United States, and by Tharoor's inclusion of the transformed image of the country created by its thriving diaspora among the components of India's soft power alongside educational opportunities, health care, cultural schemes, Ayurveda and yoga; the political stream is evidenced by Kamala Harris as United States Vice-President from 2021 to 2025, Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, six Indian-American members of the House in the 119th Congress, and organisational advocacy around the 2005 to 2008 India-United States civil-nuclear initiative. Analysis: the three streams reinforce one another, since professional success generates both remittances and reputational capital, reputational capital lowers the cost of India's own cultural and technical diplomacy, and visibility in host institutions creates access that converts diplomatic requests into hearings rather than into outcomes; the composition shift towards advanced economies also raises the consular and negotiating weight of exactly the countries where the diaspora is most prominent, which is why benefit and obligation grow together. Qualification: the description must remain bounded, because population figures are stock estimates and not counts of citizens or Overseas Citizen of India cards, Overseas Citizen of India status is not dual citizenship, remittance data evidences economic weight and cannot be substituted for political effect, host-country office-holders act under their own mandates, the same prominence creates a protection obligation evidenced by 10,152 Indian prisoners and undertrials abroad recorded in a Lok Sabha answer of 28 March 2025, and India's soft power can be damaged by domestic conduct inconsistent with the plural, multi-religious and multi-linguistic self-image the source insists upon. Why this earns marks: it describes three distinct benefit streams with precise dated evidence rather than listing achievements, links them causally, and closes by converting the benefit into the obligation that a strong conclusion needs.

ORIGINAL MAINS 1 - 10 MARKS

Question: Comment with examples on the proposition that the Indian diaspora has a decisive role to play in the politics and economy of America and European countries. Answer in about 150 words.

Model thesis: Decisive is a strong word that the evidence only partly supports, so the comment must separate economic contribution from political effect, evidence both with named cases and figures, and then qualify the political limb with host-country mandate and incentive constraints.

Claim -> named evidence -> analysis -> qualification:

- Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or

a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community.

- The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight.
- The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment.
- The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments.

Qualified conclusion: Decisive is a strong word that the evidence only partly supports, so the comment must separate economic contribution from political effect, evidence both with named cases and figures, and then qualify the political limb with host-country mandate and incentive constraints.

ORIGINAL MAINS 2 - 10 MARKS

Question: Describe the economic and political benefits for India of the Indian diaspora's rise in the West. Answer in about 150 words.

Model thesis: Description must still be organised and bounded, so the answer must set out population, economic and political benefit streams with dated evidence, and close by noting that the same rise creates a protection obligation rather than a costless gain.

Claim -> named evidence -> analysis -> qualification:

- The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments.
- The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence.

- Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community.
- Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away.

Qualified conclusion: Description must still be organised and bounded, so the answer must set out population, economic and political benefit streams with dated evidence, and close by noting that the same rise creates a protection obligation rather than a costless gain.

ORIGINAL MAINS 3 - 15 MARKS

Question: Examine why India's diaspora-welfare instruments no longer match the fastest-growing segment of the diaspora. Answer in about 250 words.

Model thesis: The mismatch is structural rather than a funding shortfall, so the examination must describe the clearance-based architecture, evidence the composition shift with source shares, and recommend instruments matched to the skilled segment's actual constraints.

Claim -> named evidence -> analysis -> qualification:

- Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things.
- The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments.
- The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight.
- The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies

whose binding constraints are visa regimes, social-security portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment.

Qualified conclusion: The mismatch is structural rather than a funding shortfall, so the examination must describe the clearance-based architecture, evidence the composition shift with source shares, and recommend instruments matched to the skilled segment's actual constraints.

ORIGINAL MAINS 4 - 15 MARKS

Question: Examine the claim that India's soft power is constrained more by institutional fragmentation than by external competition. Answer in about 250 words.

Model thesis: The claim is largely defensible but needs both limbs, so the examination must state the fragmentation critique precisely, add the authenticity argument as a second internal constraint, evidence the instruments that do work, and note their regional concentration.

Claim -> named evidence -> analysis -> qualification:

- Tharoor lists Bollywood cinema, books and music, educational opportunities, health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer.
- Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change.
- Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection.
- The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event.

Qualified conclusion: The claim is largely defensible but needs both limbs, so the examination must state the fragmentation critique precisely, add the authenticity argument as a second internal constraint, evidence the instruments that do work, and note their regional concentration.

ORIGINAL MAINS 5 - 20 MARKS

Question: Assess the proposition that the diaspora should be treated as a two-way bridge rather than a foreign-policy lever. Answer in about 300 words.

Model thesis: Bridge and lever imply different policies, so the assessment must show why instrumentalising citizens abroad creates host-country risk, evidence the reciprocal obligations India already carries, and close on a graded verdict about credibility.

Claim -> named evidence -> analysis -> qualification:

- Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community.
- Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection.
- Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis evacuation, which is qualitatively different from routine consular welfare because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06.
- The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on.

Qualified conclusion: Bridge and lever imply different policies, so the assessment must show why instrumentalising citizens abroad creates host-country risk, evidence the reciprocal obligations India already carries, and close on a graded verdict about credibility.

ORIGINAL MAINS 6 - 20 MARKS

Question: Assess how consular protection converts a diaspora relationship into a standing obligation of the Indian state. Answer in about 300 words.

Model thesis: Obligation is legal, institutional and demonstrated, so the assessment must move from the treaty frame through the welfare stack and caseload to a dated evacuation, and must state precisely what the state can and cannot do abroad.

Claim -> named evidence -> analysis -> qualification:

- The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations, checked live on 2026-09-03, records that the United Nations Conference on Consular Relations was held at Vienna from 4 March to 22 April 1963 and attended by delegates of ninety-five States, that on 24 April 1963 the Conference adopted and opened for signature the Convention together with the Optional Protocol concerning

Acquisition of Nationality and the Optional Protocol concerning the Compulsory Settlement of Disputes, that the Convention and both Optional Protocols came into force on 19 March 1967, and that the Convention consists of 79 articles of which Article 36 provides obligations for competent authorities on the arrest or detention of a foreign national so as to guarantee counsel and due process through consular notification and effective access to consular protection; the owners add the limit in the same place, namely that this is a reciprocal treaty right and a procedural safeguard and not an unlimited power to override host-country law or secure release.

- The Ministry of External Affairs recorded 10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the caseload as evidence of obligation rather than as a criticism of the community.
- Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis evacuation, which is qualitatively different from routine consular welfare because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06.
- The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments.

Qualified conclusion: Obligation is legal, institutional and demonstrated, so the assessment must move from the treaty frame through the welfare stack and caseload to a dated evacuation, and must state precisely what the state can and cannot do abroad.

OPTIONAL ADVANCED DEPTH - NOT REQUIRED FOR A CORE ANSWER

Subject: International Relations | **Tier:** Advanced | **GS Paper:** GS-II. **Core area:** Welfare/protection; political sensitivity in host states; evacuation coordination; diaspora as bridge, not foreign-policy instrument alone. **Grounded in:** Shashi Tharoor, *Pax Indica*; Economic Survey 2025-26 (ITEC); MEA Pravasi Bharatiya Divas references; 00_Master-Framework.md Sections 3, 6 and 7. **FACT:** = source-grounded | **ANALYSIS:** = inference/analysis | **CURRENT:** = current anchor. *Companion:* basic/09_Indian-Diaspora-Consular-Protection-and-Soft-Power.md.

1. Architecture

DIASPORA AS ASSET AND RESPONSIBILITY

Analytical claim: ANALYSIS: The advanced analytical challenge in this topic is resisting the instrumentalist framing of the diaspora as simply a foreign- policy tool; Tharoor's own critique of institutional fragmentation and his insistence on authentic, plural cultural representation both point toward treating the diaspora relationship as a two-way bridge whose credibility depends on domestic Indian pluralism as much as on external diplomatic effort.

2. Concepts and distinctions

Concept	Precise meaning
FACT: Institutional fragmentation critique (Tharoor)	FACT: Tharoor argues effective "leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions, rather than leaving it solely to umbrella entities like ICCR and the public diplomacy division" - a structural, institutional-design critique, not merely a resourcing complaint.
FACT: "Now-Required-Indians" as a policy-design argument	FACT: Tharoor's reframing depends on India adopting "a policy to channel [NRIs'] enthusiasm, their commitment and their resources" - the term is conditional on policy design, not an automatic description of the diaspora's current relationship with India.
ANALYSIS: Diaspora as bridge vs. diaspora as lever	The "bridge" framing treats the diaspora as a channel of mutual understanding and goodwill between India and host societies; the "lever" framing would treat diaspora communities as an instrument to be directed for Indian foreign-policy ends - Tharoor's analysis favours the former, cautioning against the latter's risks.
FACT: Authenticity and self-inflicted soft-power damage	FACT: Tharoor explicitly attributes soft-power damage to India's own domestic failures - citing "a nativist attack" episode - arguing "soft power will not come from a narrow or restricted version of Indianness" and must instead "proudly reflect the multi-religious identities of our people, our linguistic diversity."
ANALYSIS: Political sensitivity in host states	Diaspora visibility and political engagement (e.g., diaspora advocacy, community organisation) can itself become contested within a host country's own domestic politics, requiring India to calibrate engagement carefully rather than assume unconditional diaspora mobilisation is cost-free.
ANALYSIS: Evacuation coordination as diplomatic architecture	The bilateral/multilateral arrangements (host-government coordination, consular readiness) that enable evacuation during a crisis belong to IR's diplomatic-framework domain; the operational execution belongs to Disaster-Management/basic/17. CURRENT: Operation Sindhu (4,415 Indians evacuated - 3,597 from Iran, 818 from Israel - by 27 June 2025) is the dated worked example.
CURRENT: Composition shift as a policy-design variable	FACT: Per the RBI's sixth Survey on Remittances (FY24, reported in the Economic Survey 2025-26), advanced economies now contribute more of India's inward remittances than the GCC countries, with the US at 27.7 per cent, the UAE 19.2, the UK 10.8 and Singapore 6.6. ANALYSIS: This is analytically consequential: the welfare/protection track (ECR clearance, PBBY, emigration protection) was designed around low-wage Gulf labour migration, while the fastest-growing remittance base is skilled professional migration to advanced economies - where the binding constraints are visa regimes, social-security portability and professional recognition, not emigration clearance.

3. Detailed causal chain: from fragmented promotion to authentic soft power

1. **Baseline asset:** India's diaspora, IT-sector reputation, and cultural exports (Ayurveda, yoga, Bollywood) constitute a genuine, if under-leveraged, soft-power asset base.
2. **Institutional fragmentation limits full realisation:** FACT: Tharoor's

critique - soft power confined to ICCR and the public-diplomacy division rather than mainstreamed across the foreign ministry's territorial divisions - identifies a structural, not merely resource-based, limitation.

3. **Policy-design gap compounds the problem:** FACT: Tharoor's "Now-Required-Indians" argument shows that without a deliberate policy to channel diaspora enthusiasm and resources, the diaspora's soft-power potential remains partially unrealised.

4. **Authenticity failures actively erode soft power:** FACT: Tharoor's citation of a domestic "nativist attack" incident demonstrates that soft power is not solely built by external projection efforts - it can be actively undermined by domestic events inconsistent with the plural, multi-religious image India seeks to project.

5. **Political sensitivity in host states adds a further constraint:** diaspora visibility can become entangled in a host country's own domestic political debates, requiring calibrated, context-sensitive engagement rather than uniform mobilisation.

6. **Bridge framing is the more defensible analytical outcome:** given both the fragmentation and authenticity challenges, treating the diaspora as a two-way bridge - requiring reciprocal investment in pluralism at home and coordinated promotion abroad - is more accurate than treating it as a simple directed instrument.

4. Institutional and reform architecture

- FACT: **ICCR:** the traditional cultural-diplomacy institution; Tharoor's critique calls for its complementation, not replacement, by mainstreaming soft-power promotion elsewhere in the foreign ministry.

- CURRENT: **Pravasi Bharatiya Divas (18th edition, 8-10 January 2025):** the current dated convening instrument recognising diaspora contribution.

- ANALYSIS: **MADAD and the Protector General of Emigrants:** the welfare/protection institutional pair, particularly significant for labour migrants in Emigration-Check-Required categories.

- FACT: **ITEC:** per the Economic Survey 2025-26, a technical-cooperation programme doubling as a cultural-diplomacy instrument, with particular salience in the South Asian region.

- ANALYSIS: **Territorial-division mainstreaming (Tharoor's proposed reform):** an institutional-design recommendation - embedding soft-power promotion within each geographic desk of the foreign ministry rather than centralising it in a single cultural-relations body - treat as a documented critique/proposal, not as an implemented reform, absent specific verification.

5. Indian applications and boundary cases

- ANALYSIS: **Boundary case - diaspora political mobilisation in a host state:** active diaspora political engagement (e.g., community advocacy on India-related issues in a host country's domestic politics) can generate goodwill but also friction if perceived as foreign political interference - a genuine, evolving tension requiring careful, case-specific judgment rather than a blanket policy.

- ANALYSIS: **Boundary case - remittances versus diplomatic bridge role:** the diaspora's economic contribution (CURRENT: USD 135.4 billion in FY25, about 3.5 per cent of GDP, and USD 73 billion in H1 FY26 per the Economic Survey 2025-26) is analytically distinct from its diplomatic/cultural bridge role; Economy owns the former's macroeconomic mechanics, while this folder addresses only the latter. ANALYSIS: The two nonetheless interact: a diaspora of 35,421,987 (MEA, as on January 2026) whose remittance centre of gravity is shifting from the Gulf to advanced economies changes which host-country relationships carry the greatest consular and negotiating weight.

- ANALYSIS: **Boundary case - evacuation diplomacy versus consular routine:** routine consular welfare work (MADAD-handled grievances; CURRENT: MADAD 2.0 launched December 2025) is qualitatively different from crisis evacuation coordination, which requires host-government negotiation and overlaps with Disaster Management's operational domain - CURRENT: Operation Sindhu (June 2025) is the dated illustration;

route the operational cycle to Disaster -Management/basic/17.

- ANALYSIS: **Boundary case - authenticity as a two-way requirement:** Tharoor's argument implies soft power is not solely an external-facing communications challenge but is shaped by domestic Indian social cohesion - a boundary point connecting this IR topic to (but not overlapping with) Indian Society's domestic-pluralism analysis.

6. Limitations and trade-offs

- ANALYSIS: **Institutional fragmentation** is a persistent, not easily resolved, challenge: mainstreaming soft-power promotion across territorial divisions (Tharoor's recommendation) requires sustained institutional reform, not a one-time policy announcement.
- ANALYSIS: **Diaspora mobilisation carries host-state political risk:** encouraging diaspora political engagement can generate host-country domestic friction if perceived as overreach, limiting how actively India can encourage diaspora advocacy in any specific country.
- ANALYSIS: **Authenticity failures have asymmetric impact:** a single domestic incident inconsistent with India's plural self-image (per Tharoor's nativist- attack example) can disproportionately damage cumulative soft-power investment, illustrating a fragile, asymmetric relationship between domestic conduct and external perception.
- ANALYSIS: **Welfare-protection capacity constraints:** MADAD, e-Migrate, the ICWF, PBBY and the Protector General of Emigrants mechanism operate at scale across a very large and diverse diaspora population - CURRENT: 35,421,987 overseas Indians (MEA, January 2026), with 10,152 Indian prisoners/undertrials abroad recorded in a Lok Sabha answer of 28 March 2025. ANALYSIS: Capacity and reach limitations are a genuine, ongoing operational challenge, not a solved problem.
- ANALYSIS: **Instrument-population mismatch:** the compulsory-insurance and emigration-clearance stack is tied to the ECR category, i.e. to low-wage Gulf migration; ANALYSIS: it does not by design address the skilled-migration issues (visa policy, social-security portability, qualification recognition) that dominate the fastest-growing segment of the diaspora - a structural gap distinct from the resourcing problem.
- ANALYSIS: **ITEC's cultural-diplomacy role is regionally concentrated:** the Economic Survey 2025-26 explicitly notes ITEC's cultural-diplomacy influence is strongest "in the South Asian region," meaning its soft-power effect is not uniform across all 160+ partner countries.

7. Must-Know Facts for Advanced Prelims

- FACT: Tharoor's institutional-fragmentation critique specifically names ICCR and the public-diplomacy division as the entities soft-power promotion should not be left to alone.
- FACT: Tharoor's "Now-Required-Indians" concept is explicitly conditional on India adopting a deliberate policy to channel diaspora enthusiasm and resources.
- FACT: Tharoor cites a domestic "nativist attack" incident as a concrete example of self-inflicted soft-power damage.
- CURRENT: The 18th Pravasi Bharatiya Divas (8-10 January 2025) is the most recent verified dated diaspora-convening event.
- FACT: The Economic Survey 2025-26 specifically notes ITEC's cultural-diplomacy influence is strongest in the South Asian region, not uniformly across all partner countries.
- CURRENT: MEA's overseas-Indian population table (as on January 2026) records 35,421,987 overseas Indians - 19,571,375 NRIs and 15,850,612 PIOs.
- CURRENT: Per the RBI's sixth Survey on Remittances (FY24), advanced economies now contribute more than GCC countries, with the US at 27.7 per cent, the UAE 19.2, the UK 10.8 and Singapore 6.6.
- CURRENT: Operation Sindhu evacuated 4,415 Indians from Iran and Israel by 27 June 2025; MADAD 2.0 was launched in December 2025.

8. Advanced Prelims traps

- WRONG: Soft power is generated solely through external cultural-diplomacy effort.
-> Tharoor explicitly links soft-power outcomes to domestic conduct (authenticity, pluralism), not only external promotion.
- WRONG: ICCR alone is responsible for, and sufficient for, India's soft-power projection. -> Tharoor's critique calls for mainstreaming promotion beyond ICCR into the foreign ministry's territorial divisions.
- WRONG: Diaspora political mobilisation carries no host-country risk. -> It can generate host-state domestic friction if perceived as foreign political interference - a genuine constraint on how actively India can encourage such mobilisation.
- WRONG: ITEC's cultural-diplomacy effect is uniform across all 160+ partner countries. -> The Economic Survey 2025-26 specifically flags the South Asian region as where this effect is strongest.

9. CURRENT: Current-anchor note

- CURRENT: The 18th Pravasi Bharatiya Divas (8-10 January 2025, Bhubaneswar) remains the most recent verified dated diaspora-convening event; ANALYSIS: no 19th edition was officially recorded as of 3 August 2026. For the protection track cite **Operation Sindhu (June 2025)** and **MADAD 2.0 (December 2025)**; for the economic-linkage track cite the **Economic Survey 2025-26** remittance data and the **RBI's sixth Survey on Remittances (FY24)** composition shift. Any claim about a subsequent PBD edition or a specific new diaspora-policy measure requires independent, dated verification.

10. PYQ-based analytical application

- FACT: **2017 GS-II** requires an appraisal of the diaspora's economic and social role in South-East Asia; apply the two-way-bridge model and add host-country integration/identity constraints.
- FACT: **2020 GS-II** requires comment on the diaspora's political and economic role in America and Europe; keep lobbying/representation analytically distinct from trade, entrepreneurship and knowledge networks.
- ANALYSIS: No 2024-2025 question directly names this theme. An advanced answer should:
 1. Distinguish the welfare/protection track from the soft-power-projection track explicitly.
 2. Cite Tharoor's institutional-fragmentation critique as the analytical spine for any "how should India improve its soft power" question.
 3. Link authenticity/pluralism at home to credibility abroad, using the nativist-attack example as concrete evidence.
 4. Cite the dated PBD (January 2025) rather than an undated diaspora-engagement claim.

11. Mains-ready framework

Central thesis: India's diaspora and soft-power diplomacy is best evaluated as a two-way bridge rather than a directed foreign-policy lever: its full potential is constrained less by external competition than by institutional fragmentation (soft-power promotion confined to ICCR) and by domestic authenticity failures that can undercut the plural self-image India seeks to project - both correctable through institutional reform and sustained pluralism, not through diaspora "deployment" alone.

1. **Establish the diaspora/soft-power asset base.**
2. **Distinguish welfare/protection from cultural-projection tracks.**
3. **Cite the institutional-fragmentation critique (Tharoor) as the central limiting factor.**

4. **Link domestic authenticity/pluralism to external credibility.**
5. **Acknowledge host-state political-sensitivity risk** around diaspora mobilisation.
6. **Cite the dated PBD/ITEC evidence** precisely, noting ITEC's regional concentration.
7. **Recommend institutional mainstreaming and sustained pluralism** as the calibrated way forward, without predicting a specific policy outcome.

12. Probable questions

- ANALYSIS: **Mains (15 marks):** "India's soft power is constrained more by institutional fragmentation than by external competition." Critically examine.
- ANALYSIS: **Mains (10 marks):** Explain the "diaspora as bridge, not lever" framing and its implications for India's diaspora-engagement policy.
- ANALYSIS: **Mains (15 marks):** Assess the relationship between domestic pluralism and India's external soft-power credibility.

13. Study links

- FACT: Polity/basic/Citizenship.md - OCI and citizenship legal doctrine.
- FACT: 00_Master-Framework.md Section 6 - the instrument table applied to diaspora/cultural-diplomacy instruments.
- ANALYSIS: **Cross-links within this folder:** topic 06 (advanced) for Gulf-diaspora welfare exposure to regional-conflict spillover; topic 07 for ITEC's Africa-specific role; topic 01 for the multi-alignment vocabulary. Route evacuation operations to Disaster-Management/basic/17_Humanitarian-Logistics-Relief-Rehabilitation-and-Recovery.md.

Historical PYQ Integration (2018-2023)

Status: Question-level PYQ demand is integrated into this owner. **Provenance:** Audited local official-paper routing ledgers: _PYQ-ROUTING-MAINS-GS1-GS2-ESSAY-2018-2023.md.

- **Years represented:** 2020, 2023
- **Paper(s):** GS-II
- **Routed question demands:** 2

Year	Paper	Q	PYQ demand (neutral rendering)	Directive / format	Source status	Owner requirement
2020	GS-II	10	Indian diaspora in the politics and economy of America and Europe	Comment with examples · 10 marks · 150 words	Routed to owning topic	Prepare context, core dimensions, evidence/examples, counterpoint and a concise conclusion.
2023	GS-II	10	Indian diaspora in the West and its economic and political benefits	Describe · 10 marks · 150 words	Routed to owning topic; word limit taken from the instruction block	Prepare context, core dimensions, evidence/examples, counterpoint and a concise conclusion.

What this owner must now support

- Indian diaspora in the politics and economy of America and Europe
- Indian diaspora in the West and its economic and political benefits

The table integrates the examinable demand and paper metadata. It does not turn an unkeyed objective question into a solved answer, and it does not claim that lexical presence alone proves full conceptual sufficiency.

CONSOLIDATED REGISTER NOTES

Indian Diaspora, Consular Protection and Soft Power: RAPID ACTOR, INSTRUMENT AND DATED-ANCHOR MAP

- 1. What this diaspora owner holds and how its boundaries are routed:** This topic owns the diaspora as a foreign-policy relationship: the population categories and their exact legal status, the welfare and consular-protection stack, evacuation diplomacy as distinct from evacuation logistics, remittances treated only as a diplomatic linkage, and the cultural soft-power track running through the Indian Council for Cultural Relations, the Indian Technical and Economic Cooperation Programme and India's cultural assets; its distinctive feature is that the same population is simultaneously an asset, a standing protection obligation and a potential source of host-country friction, and two General Studies Paper II Mains demands from 2020 and 2023 are routed here with no objective demand routed at all, while Overseas Citizen of India and citizenship doctrine belongs to the Polity owner, remittance macroeconomics belongs to the Economy owner, relief and logistics belong to the Disaster Management owners, and Gulf-specific regional exposure belongs to topic 06.
- 2. The diaspora categories and the exact status of every figure:** The owners separate Non-Resident Indians, who are Indian citizens residing abroad, from Persons of Indian Origin and Overseas Citizen of India cardholders, who are foreign nationals of Indian origin, and from labour migrants especially in the Gulf, and the Ministry of External Affairs overseas-Indian population table as on January 2026 records 35,421,987 overseas Indians comprising 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin, with the United States at 6,079,221, the United Arab Emirates at 4,344,008, Malaysia at 2,902,370 and Saudi Arabia at 2,750,551; the owners require every one of these to be described as a population-stock estimate and never as a count of citizens abroad or of Overseas Citizen of India cards issued, because the categories carry different rights and different policy instruments.
- 3. Overseas Citizen of India status and the citizenship boundary:** The owners state flatly that Overseas Citizen of India status is not dual citizenship but a specific set of rights and benefits for persons of Indian origin who hold foreign citizenship, and they route the precise legal doctrine to the Polity owner rather than restating it here; the examinable consequence is that an answer must not describe the diaspora as though it enjoyed a second Indian citizenship, because that single error changes what the state may lawfully do for those persons abroad and misstates the entitlement that consular protection actually rests on.
- 4. Pravasi Bharatiya Divas as the dated convening instrument:** Pravasi Bharatiya Divas is India's flagship diaspora-engagement event recognising diaspora contributions and setting engagement priorities, and the owners record its most recent verified edition exactly: the eighteenth edition was held from 8-10 January 2025 at Bhubaneswar in Odisha under the theme Diaspora's Contribution to a Viksit Bharat, with no nineteenth edition officially recorded as held or announced as of 3 August 2026; the discipline attached is that a dated edition must be cited rather than an undated claim of diaspora engagement, and that the absence of a recorded next edition is stated honestly rather than implied away.
- 5. The MADAD grievance portal and its successor version:** MADAD is the Ministry of External Affairs online grievance-redress and consular-assistance platform for overseas Indians, launched on 21 February 2015, and MADAD 2.0 was launched in December 2025 and linked with e-Migrate and the Pravasi Bharatiya Sahayata Kendras; the owners treat this as the routine consular limb of the relationship, qualitatively different from crisis evacuation, and they insist that a platform launch is evidence of an available channel rather than evidence of a resolved grievance, so an answer should cite it as institutional capacity and not as an outcome.
- 6. The welfare stack behind the portal:** Three operational welfare instruments sit alongside MADAD: the Indian Community Welfare Fund supports emergency medical care, air passage and legal aid; e-Migrate registers and clears Emigration-Check-Required workers and routes grievances to MADAD; and the Pravasi Bharatiya Bima Yojana is compulsory insurance for Emigration-Check-Required workers going to Emigration-Check-Required countries, providing ten lakh rupees of accidental-death and permanent-disability cover, with 8,536,398 beneficiaries and 2,222 claims settled through October 2025; the owners require the beneficiary and claim figures

to be cited with their exact cut-off, because a cumulative coverage figure and a settled-claim figure measure different things.

7. **The Protector General of Emigrants and the clearance category:** The Protector General of Emigrants is the Ministry of External Affairs authority overseeing emigration clearance and protection of migrant workers, particularly for Emigration-Check-Required categories heading to specified countries, and the owners treat the clearance category as the legal hinge of the welfare track because it determines who is covered by compulsory insurance and mandatory registration; the analytical point is that a protection architecture organised around a clearance category protects exactly the population inside that category and leaves everyone outside it to a different and thinner set of instruments.
8. **The consular treaty frame and what Article 36 actually guarantees:** The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations, checked live on 2026-09-03, records that the United Nations Conference on Consular Relations was held at Vienna from 4 March to 22 April 1963 and attended by delegates of ninety-five States, that on 24 April 1963 the Conference adopted and opened for signature the Convention together with the Optional Protocol concerning Acquisition of Nationality and the Optional Protocol concerning the Compulsory Settlement of Disputes, that the Convention and both Optional Protocols came into force on 19 March 1967, and that the Convention consists of 79 articles of which Article 36 provides obligations for competent authorities on the arrest or detention of a foreign national so as to guarantee counsel and due process through consular notification and effective access to consular protection; the owners add the limit in the same place, namely that this is a reciprocal treaty right and a procedural safeguard and not an unlimited power to override host-country law or secure release.
9. **Consular caseload as a scale indicator:** The Ministry of External Affairs recorded 10,152 Indian prisoners and undertrials abroad in a Lok Sabha answer dated 28 March 2025, which the owners treat as a measure of consular workload rather than of diaspora wrongdoing, and they pair it with the population stock of 35,421,987 overseas Indians to show that welfare and protection capacity operates at a very large scale; the qualification is that capacity and reach limitations are a genuine ongoing operational challenge rather than a solved problem, so an answer should treat the caseload as evidence of obligation rather than as a criticism of the community.
10. **Operation Sindhu and the evacuation-diplomacy boundary:** Operation Sindhu evacuated 4,415 Indian nationals from Iran and Israel by 27 June 2025, comprising 3,597 from Iran and 818 from Israel, and the owners treat it as the dated worked example of crisis evacuation, which is qualitatively different from routine consular welfare because it requires host-government negotiation and consular readiness before any aircraft moves; the boundary is stated in the same place, because the diplomatic architecture that enables an evacuation belongs to this folder while the relief and logistics cycle belongs to the Disaster Management owner, and the Gulf regional exposure that generates such crises belongs to topic 06.
11. **Remittances as a diplomatic linkage and the Economy boundary:** The Economic Survey 2025-26 records India as the world's largest recipient of remittances, with inflows rising from USD 55.6 billion in the financial year 2011 to USD 135.4 billion provisional in the financial year 2025, about 3.5 per cent of gross domestic product, and USD 73 billion in the first half of the financial year 2026 against USD 64.7 billion a year earlier; the owners admit these as dated evidence of the diaspora's economic weight while routing the macroeconomic mechanics to the Economy owner, and they warn that remittance data must never be substituted for the political half of a question that asks about political influence.
12. **The remittance composition shift and what it changes:** The Reserve Bank of India's sixth Survey on Remittances for the financial year 2024, reported in the Economic Survey 2025-26, records that advanced economies now contribute more of India's inward remittances than the Gulf Cooperation Council countries, with the United States the top source at 27.7 per cent, followed by the United Arab Emirates at 19.2, the United Kingdom at 10.8 and Singapore at 6.6; the owners treat this as analytically consequential rather than as a statistic, because the diaspora's economic centre of gravity is moving from low-skilled Gulf labour towards skilled professional migration, which changes which host-country relationships carry the greatest consular and negotiating weight.
13. **The instrument-population mismatch:** The owners identify a structural gap distinct from any resourcing problem: the compulsory-insurance and emigration-clearance stack is tied to the Emigration-Check-Required category and therefore to low-wage Gulf migration, while the fastest-growing remittance base is skilled professional migration to advanced economies whose binding constraints are visa regimes, social-security

portability and professional qualification recognition rather than emigration clearance; the examinable consequence is that an answer recommending better diaspora policy must name the mismatch and propose instruments matched to the segment, instead of proposing more of an instrument that does not reach that segment.

14. **The soft-power inventory in the source's own terms:** Tharoor lists Bollywood cinema, books and music, educational opportunities, health care, sporting exchanges, tourism and cultural schemes, alongside Ayurveda and yoga and the transformed image of the country created by its thriving diaspora, as the components of India's soft power, and the owners use this inventory as the precise vocabulary for the cultural-projection track; the discipline is that soft power must be evidenced through this named inventory and the institutions that carry it rather than asserted as a general national attractiveness, because a vague claim of cultural influence earns nothing in an answer.
15. **Now-Required-Indians as a conditional policy argument:** Tharoor reframes Non-Resident Indians as Now-Required-Indians while arguing that India lacks a policy to channel diaspora enthusiasm, commitment and resources to the promotion of India's image, and the owners stress that the reframing is explicitly conditional on India adopting such a policy rather than being a description of the diaspora's current relationship with India; the answer-writing consequence is that the phrase must be deployed as a policy-design argument with its condition attached, since quoting it as a settled description inverts the author's own claim.
16. **The institutional-fragmentation critique:** Tharoor argues that effective leveraging of soft power must be done by making its promotion integral to the work of the substantive territorial divisions rather than leaving it solely to umbrella entities like the Indian Council for Cultural Relations and the public diplomacy division, and the owners treat this as a structural institutional-design critique rather than a resourcing complaint; the qualification is that mainstreaming promotion across every geographic desk is a documented proposal and not an implemented reform, so an answer must present it as the analytical spine for a how-should-India-improve question and not as an accomplished institutional change.
17. **Authenticity and self-inflicted soft-power damage:** Tharoor attributes soft-power damage to India's own domestic failures, citing a nativist attack episode, and argues that soft power will not come from a narrow or restricted version of Indianness and must instead proudly reflect the multi-religious identities of our people and our linguistic diversity, which the owners convert into the rule that soft power is shaped by domestic conduct and not only by external promotion; the analytical sharpening is that the relationship is asymmetric, because a single domestic incident inconsistent with the plural self-image can disproportionately damage cumulative investment in cultural projection.
18. **Technical cooperation as cultural diplomacy and its regional limit:** The Economic Survey 2025-26 records that the Indian Technical and Economic Cooperation Programme has trained more than two lakh persons from over one hundred and sixty countries in both the civilian and the defence sector and that it has been an important tool in strengthening India's cultural diplomacy and influence, especially in the South Asian region, which the owners use to show that a technical-training programme doubles as a soft-power instrument; the limit is explicit and frequently missed, because the survey itself flags the South Asian region as where the cultural-diplomacy effect is strongest, so the effect is not uniform across all partner countries and the programme must not be confused with Pravasi Bharatiya Divas, which is a diaspora-recognition convening event.
19. **Political influence and the liability side of the same asset:** Indian-origin public figures have held prominent elected offices in developed democracies, including Kamala Harris as United States Vice-President from 2021 to 2025 and Rishi Sunak as United Kingdom Prime Minister from 2022 to 2024, the 119th Congress included six Indian-American members of the House of Representatives, and scholarship on the 2005 to 2008 India-United States civil-nuclear initiative identifies Indian-American organisations as contributors to coalition-building with United States business and strategic constituencies; the owners attach the limits directly, namely that office-holders act under host-country mandates and cannot be treated as agents of India, that party, constituency and committee incentives shape positions more than ancestry, that advocacy contributed to but did not independently determine Congressional approval, and that diaspora-linked separatism or a security dispute can turn a community connection into a sovereignty, law-enforcement and trust problem in which allegations, charges, pleas and final judicial findings must be kept distinct and never generalised to a community.
20. **Honest question ownership for this diaspora owner:** The audited ledgers route two General Studies Paper II Mains demands to this owner, namely 2020 General Studies Paper II question 10 on the Indian diaspora in the

politics and economy of America and European countries, a Comment with examples demand of 10 marks and 150 words for which the ledger records that the Core route supersedes the older Advanced ownership, and 2023 General Studies Paper II question 10 on the Indian diaspora in the West and its economic and political benefits, a Describe demand of 10 marks and 150 words on the same superseding route, for which the ledger records that the word limit was taken from the paper's instruction block because the printed per-question tail carries only the mark value; no objective demand from any audited Prelims ledger is routed to this owner. The Basic and Advanced owners additionally cite a 2017 General Studies Paper II demand on the role of the Indian diaspora in South-East Asian economy and society, which falls outside the audited 2018-2023 and 2024-2025 routing ledgers, is not confirmable from the locally held official papers, and is therefore recorded here as an owner-cited demand without a question number rather than being converted into a solved card; no option, answer letter or unverified stem is recorded or inferred.

Indian Diaspora, Consular Protection and Soft Power: CLOSE-OPTION AND STATUS-UPGRADE TRAPS

- Do not describe Overseas Citizen of India status as dual citizenship, because it is a specific set of rights and benefits for persons of Indian origin holding foreign citizenship and the precise legal doctrine belongs to the Polity owner.
- Do not treat the figure of 35,421,987 overseas Indians as a count of Indian citizens abroad or of Overseas Citizen of India cards, because the Ministry of External Affairs table as on January 2026 records population stock split into 19,571,375 Non-Resident Indians and 15,850,612 Persons of Indian Origin.
- Do not merge Non-Resident Indians, Persons of Indian Origin, Overseas Citizen of India cardholders and labour migrants into one undifferentiated diaspora, because each category carries different rights and is reached by different instruments.
- Do not make an undated diaspora-engagement claim, because the eighteenth Pravasi Bharatiya Divas of 8-10 January 2025 at Bhubaneswar is the most recent verified edition and no nineteenth edition was officially recorded as of 3 August 2026.
- Do not treat the launch of MADAD in 2015 or MADAD 2.0 in December 2025 as evidence of resolved grievances, because a platform launch evidences an available channel and not an outcome.
- Do not quote the Pravasi Bharatiya Bima Yojana figures without their cut-off, because 8,536,398 beneficiaries and 2,222 claims settled are recorded through October 2025 and measure different things.
- Do not present the Emigration-Check-Required protection stack as covering the whole diaspora, because it is tied to a clearance category built around low-wage Gulf migration.
- Do not describe Article 36 of the Vienna Convention on Consular Relations as a power to override host-country law or secure release, because it is a reciprocal treaty right and a procedural safeguard of consular notification and effective access.
- Do not misdate the consular treaty frame, because the Vienna conference ran from 4 March to 22 April 1963 with delegates of ninety-five States, the Convention was adopted and opened for signature on 24 April 1963 and it came into force with both Optional Protocols on 19 March 1967.
- Do not read 10,152 Indian prisoners and undertrials abroad, recorded in a Lok Sabha answer of 28 March 2025, as evidence of diaspora wrongdoing, because it measures consular workload.
- Do not treat Operation Sindhu's evacuation of 4,415 nationals by 27 June 2025 as an operational logistics achievement owned here, because this folder owns the host-government negotiation and consular diplomacy while the relief and logistics cycle belongs to the Disaster Management owner.
- Do not substitute remittance data for the political half of a question about political influence, because USD 135.4 billion provisional in the financial year 2025 at about 3.5 per cent of gross domestic product evidences economic weight and not political effect.
- Do not state that Gulf countries remain the dominant source of India's remittances, because the Reserve Bank of India's sixth Survey on Remittances for the financial year 2024 records advanced economies contributing more, with the United States at 27.7 per cent.
- Do not propose more emigration-clearance capacity as the answer to skilled-migration problems, because the binding constraints for that segment are visa regimes, social-security portability and qualification recognition.

- Do not assert general cultural attractiveness in place of the named soft-power inventory, because Bollywood, books and music, educational opportunities, health care, sporting exchanges, tourism, cultural schemes, Ayurveda and yoga are the components the source actually lists.
- Do not quote Now-Required-Indians as a description of the present relationship, because the reframing is explicitly conditional on India adopting a policy to channel diaspora enthusiasm, commitment and resources.
- Do not present the mainstreaming of soft-power promotion across territorial divisions as an implemented reform, because it is a documented critique and proposal about institutional design.
- Do not claim that soft power is generated only by external cultural-diplomacy effort, because the source attributes damage to domestic conduct inconsistent with a plural, multi-religious and multi-linguistic self-image.
- Do not treat the Indian Technical and Economic Cooperation Programme's cultural-diplomacy effect as uniform across more than one hundred and sixty countries, because the Economic Survey 2025-26 flags the South Asian region as where it is strongest, and do not confuse that programme with Pravasi Bharatiya Divas.
- Do not treat Indian-origin office-holders or legislators as agents of India, because they act under host-country mandates and their positions are shaped by party, constituency and committee incentives rather than by ancestry.
- Do not generalise an individual security or law-enforcement case to a community, and keep allegations, charges, pleas and final judicial findings distinct.
- Do not invent a diaspora, migrant or overseas-population figure, a remittance value or source share, an evacuation, caseload or insurance count, a legal entitlement or citizenship status, a scheme launch or coverage claim, a cultural-institution figure, a host-country political outcome, a date, a previous-year question, an answer key or a current claim for this topic.

Indian Diaspora, Consular Protection and Soft Power: ANSWER-WRITING SPINE

NAME INDIA'S PRECISE INTEREST -> IDENTIFY THE EXTERNAL ACTOR AND ITS OWN INCENTIVE
 -> CHOOSE THE LEVEL: BILATERAL, REGIONAL, MINILATERAL, MULTILATERAL OR DIASPORA
 -> CITE ONE DATED INSTRUMENT AND STATE ITS EXACT EVIDENTIARY LEVEL
 -> SEPARATE ANNOUNCED FROM SIGNED, SIGNED FROM IN FORCE, IN FORCE FROM DELIVERED
 -> NAME THE BINDING CONSTRAINT: ASYMMETRY, RIVAL POWER, PARTNER POLITICS OR CAPACITY
 -> CLOSE WITH A CALIBRATED WAY FORWARD AND AN EXPLICIT STRATEGIC-AUTONOMY LINK

Indian Diaspora, Consular Protection and Soft Power: LIVE-SOURCE AND DATED-CLAIM BOUNDARY

Live official verification was attempted on 2026-09-03 in the priority order required for this topic: the Ministry of External Affairs pages first, then the Ministry's consular and emigration portals, then the Indian Council for Cultural Relations, then the United Nations as the custodian of the consular treaty framework. Every outcome is recorded exactly as observed. The Ministry of External Affairs press-release, bilateral-document and country-brief pages returned a browser-requirement stub or the Ministry's own error page, the Press Information Bureau index returned HTTP 403, the consular grievance portal and the emigration clearance portal returned only title lines, the Indian Council for Cultural Relations site failed with a host-resolution error, and the United Nations treaty text file returned unreadable raw bytes, so no Indian official item and no treaty quotation was obtained from any of them. The United Nations Audiovisual Library of International Law page on the Vienna Convention on Consular Relations did return substantive official text, and it is used here only for the treaty facts that page actually states. The package therefore uses the dated official anchors already carried by the repository owners together with that single verified treaty source, each with its actor, exact evidentiary level and date. It invents no diaspora, migrant or overseas-population figure, no remittance value or source share, no evacuation, consular-caseload or insurance count, no legal entitlement, citizenship or Overseas Citizen status, no scheme launch or coverage claim, no cultural-institution figure, no host-country political outcome, no date, no previous-year question, no answer key and no current claim.

COMPLETE TOPIC ASCII MASTER FLOW DIAGRAM

High-yield use: Follow the panels as one topic-specific conceptual atlas: root question, classifications, processes or arguments, comparisons, objections and a final answer-writing spine. This text-native master is separate from both graphical flowchart artifacts.

ASCII MASTER FLOW - PANEL 1/12: Central question and the three faces of one population

CENTRAL QUESTION -> is a diaspora an asset, an obligation or a liability?
ANSWER -> all three at once, which is why the tracks must be separated
TRACK 1 -> WELFARE AND CONSULAR PROTECTION: a standing state obligation
TRACK 2 -> SOFT POWER AND CULTURAL PROJECTION: an influence asset
TRACK 3 -> HOST-COUNTRY POLITICS: access, advocacy and friction together
FRAME -> two-way bridge, expressly not a foreign-policy lever to be directed
BOUNDARY -> OCI doctrine to Polity; remittance mechanics to Economy;
relief logistics to Disaster Management; Gulf exposure to topic 06

ASCII MASTER FLOW - PANEL 2/12: Categories and the population table read correctly

MEA TABLE, AS ON JANUARY 2026 -> 35,421,987 overseas Indians
NRIs (Indian citizens resident abroad) -> 19,571,375
PIOs (foreign nationals of Indian origin) -> 15,850,612
TOP HOSTS -> United States 6,079,221 | United Arab Emirates 4,344,008
Malaysia 2,902,370 | Saudi Arabia 2,750,551
STATUS -> population-stock estimates only
NOT -> a count of Indian citizens abroad; not a count of OCI cards issued
OCI -> rights and benefits for foreign nationals of Indian origin, not dual citizenship

ASCII MASTER FLOW - PANEL 3/12: Welfare and consular stack, instrument by instrument

PRAVASI BHARATIYA DIVAS -> 18th edition, 8-10 January 2025, Bhubaneswar, Odisha
theme: Diaspora's Contribution to a Viksit Bharat; no 19th edition recorded
MADAD -> launched 21 February 2015; MADAD 2.0 launched December 2025,
linked with e-Migrate and the Pravasi Bharatiya Sahayata Kendras
ICWF -> emergency medical care, air passage and legal aid
e-MIGRATE -> registers and clears ECR workers; routes grievances to MADAD
PBBY -> compulsory ECR insurance; ten lakh rupees accidental-death cover;
8,536,398 beneficiaries and 2,222 claims settled through October 2025
PROTECTOR GENERAL OF EMIGRANTS -> emigration clearance and worker protection

ASCII MASTER FLOW - PANEL 4/12: The treaty frame with its dates and its exact limit

4 MARCH - 22 APRIL 1963 -> UN Conference on Consular Relations at Vienna;
attended by delegates of ninety-five States
24 APRIL 1963 -> Convention adopted and opened for signature, together with the
Optional Protocol concerning Acquisition of Nationality and the Optional
Protocol concerning the Compulsory Settlement of Disputes
19 MARCH 1967 -> the Convention and both Optional Protocols come into force
STRUCTURE -> 79 articles
ARTICLE 36 -> consular notification and effective access on arrest or detention
LIMIT -> a reciprocal procedural safeguard, not a power to override host law

ASCII MASTER FLOW - PANEL 5/12: Routine consular work against crisis evacuation

ROUTINE -> grievances, documentation, welfare, prisoner and undertrial access
SCALE: 10,152 Indian prisoners and undertrials abroad, Lok Sabha answer dated 28 March 2025; a workload measure, never a wrongdoing measure
CRISIS -> host-government negotiation, air access, consular readiness
WORKED EXAMPLE: Operation Sindhu, 4,415 nationals evacuated by 27 June 2025
3,597 from Iran and 818 from Israel
OWNED HERE -> the diplomacy that makes an evacuation possible
OWNED ELSEWHERE -> the relief and logistics cycle, by Disaster Management

ASCII MASTER FLOW - PANEL 6/12: Remittance weight and the boundary it must not cross

WORLD'S LARGEST RECIPIENT -> Economic Survey 2025-26
FY11 -> USD 55.6 billion
FY25 -> USD 135.4 billion provisional, about 3.5 per cent of GDP
H1 FY26 -> USD 73 billion against USD 64.7 billion a year earlier
OWNED BY ECONOMY -> the macroeconomic mechanics of these flows
OWNED HERE -> the diplomatic and cultural bridge the flows accompany
RULE -> never answer a political-influence question with a remittance number

ASCII MASTER FLOW - PANEL 7/12: Where the money now comes from and why it matters

RBI SIXTH SURVEY ON REMITTANCES, FY24 -> advanced economies exceed the GCC
United States 27.7% | United Arab Emirates 19.2%
United Kingdom 10.8% | Singapore 6.6%
MEANING -> the centre of gravity shifts from low-skilled Gulf labour towards skilled professional migration to advanced economies
CONSEQUENCE -> different host relationships now carry the consular weight
CONSEQUENCE -> different instruments are needed, not simply more of the same

ASCII MASTER FLOW - PANEL 8/12: The mismatch between instrument and population

PROBLEM -> the protection stack is tied to the ECR clearance category
RESPONSE: it works well for low-wage Gulf migration and reaches that group
PROBLEM -> the fastest-growing segment is skilled migration to advanced economies
RESPONSE: its constraints are visa regimes, social-security portability and professional qualification recognition, none of which clearance touches
DIAGNOSIS -> a design gap, expressly not a funding shortfall
PRESCRIPTION -> match the instrument to the segment before adding capacity

ASCII MASTER FLOW - PANEL 9/12: The soft-power inventory and the training instrument

CULTURAL -> Bollywood cinema | books and music | cultural schemes
KNOWLEDGE -> educational opportunities | health care
WELLNESS -> Ayurveda | yoga
PEOPLE -> sporting exchanges | tourism
IMAGE -> the transformed image of the country created by its thriving diaspora
INSTITUTIONS -> Indian Council for Cultural Relations; public diplomacy division
ITEC (Economic Survey 2025-26) -> more than two lakh persons trained from over one hundred and sixty countries, civilian and defence sectors; an important tool of cultural diplomacy, especially the South Asian region
LIMIT -> the cultural-diplomacy effect is not uniform across all partner countries
DO NOT CONFUSE -> ITEC is training cooperation with partner governments, while Pravasi Bharatiya Divas is a diaspora-recognition convening event
RULE -> evidence soft power through this inventory, never through vague appeal

ASCII MASTER FLOW - PANEL 10/12: Two internal constraints that outweigh external competition

CONSTRAINT 1 -> institutional fragmentation
promotion left solely to ICCR and the public diplomacy division
-> proposed remedy: make it integral to the substantive territorial divisions
-> STATUS: a documented proposal, expressly not an implemented reform
CONSTRAINT 2 -> authenticity
a narrow or restricted version of Indianness does not project soft power
-> it must reflect multi-religious identities and linguistic diversity
-> ASYMMETRY: one domestic incident can undo cumulative external investment
POLICY ARGUMENT -> Now-Required-Indians, conditional on a channelling policy

ASCII MASTER FLOW - PANEL 11/12: Political access and the same asset as a liability

ACCESS -> Kamala Harris, US Vice-President 2021-2025
Rishi Sunak, UK Prime Minister 2022-2024
119th Congress: six Indian-American members of the House
MECHANISM -> networks and coalitions, not votes alone; scholarship on the
2005-2008 India-US civil-nuclear initiative records organisational advocacy
LIMIT -> office-holders act under host-country mandates, not as agents of India
LIMIT -> party, constituency and committee incentives outweigh ancestry
LIABILITY -> diaspora-linked separatism or a security dispute converts a
community connection into a sovereignty and law-enforcement problem
DISCIPLINE -> separate allegation, charge, plea and final judicial finding

ASCII MASTER FLOW - PANEL 12/12: Answer spine for a diaspora or soft-power demand

OPEN -> name the category, its stock figure and its exact status in one line
SPLIT -> welfare and consular protection against cultural soft-power projection
EVIDENCE -> treaty frame, welfare stack, one dated evacuation, remittance shift
POLITICS -> access and advocacy with the host-country mandate limit attached
DIAGNOSE -> fragmentation, authenticity and the instrument-population mismatch
OWNERSHIP -> the 2020 Comment and 2023 Describe demands are the routed questions
CLOSE -> bridge rather than lever; predict no host-country political outcome
