Union Territories - Complete Uncompressed Learning Session

Subject: Indian Polity | **Topic:** 25 | **GS-II + Prelims** | **Export date:** 2026-08-24 **Approval:** false - awaiting explicit user approval. **Evidence key:** [FACT] verified constitutional, statutory, judicial or official proposition; [ANALYSIS] reasoned exam synthesis; [CURRENT] dated legal or institutional control; [LIMIT] qualification preventing overstatement.

Package method, source priority and current legal control

- [CURRENT] Status is controlled to **24 August 2026, Asia/Kolkata**.
- [CURRENT] **Live official refresh, 24 August 2026:** MHA, India Code, Delhi, Jammu and Kashmir and Ladakh official portals were rechecked on 24 August 2026. India continues to have eight Union Territories; Delhi, Puducherry and Jammu and Kashmir have legislatures.
- [FACT] Source order followed: `basic/Union-Territories.md` -> `advanced/25_Union-Territories.md` -> `basic/Union-and-Territory.md` and Polity 05 only for Articles 1-4 boundaries -> local OCR-searchable M. Laxmikanth Union Territories chapter -> audited PYQ ledgers and the locally held official 2025 GS-II paper -> authoritative constitutional, statutory, judicial, MHA, Department of Justice and Jammu and Kashmir government sources. Qdrant was not used.
- [CURRENT] Legal and institutional control date is **18 August 2026, Asia/Kolkata**.
- [CURRENT] India has **8 Union Territories**: Andaman and Nicobar Islands; Chandigarh; Dadra and Nagar Haveli and Daman and Diu; National Capital Territory of Delhi; Jammu and Kashmir; Ladakh; Lakshadweep; and Puducherry.
- [CURRENT] The three UTs with legislatures are **NCT Delhi, Puducherry and Jammu and Kashmir**. Their legal bases are not identical.
- [CURRENT] Jammu and Kashmir has an elected Assembly and Council of Ministers after the 2024 election. The official J&K Budget Speech 2026-27 is presented by Omar Abdullah as Chief Minister and Minister of Finance to the House. Statehood has **not** been legally restored.
- [CURRENT] The Government of NCT of Delhi (Amendment) Act, 2023 is operative. It created the National Capital Civil Service Authority and gives the Lieutenant Governor the final decision where he differs from an Authority recommendation. Therefore, the May 2023 services judgment cannot be stated as the complete present rule by itself.
- [LIMIT] No final Supreme Court judgment striking down the 2023 Delhi amendment was located in the official judgment/order search by the control date. The Act must therefore be treated as operative law while its constitutional challenge remains unresolved.
- [LIMIT] The official Article 370 judgment directed elections by 30 September 2024 and said restoration of statehood should occur at the earliest and as soon as possible. It fixed no statehood date and did not finally decide the validity of converting J&K into a UT because of the Union's assurance.
- [LIMIT] Administrator/LG officeholders, vacancy figures, litigation listings and dashboard counts change. This package states durable offices and dated legal status, not volatile officeholder lists or unsourced counts.
- [LIMIT] "Union Territory" is not one uniform governmental model. Direct administration, a statutory legislature and Delhi's constitutionally entrenched NCT arrangement must be separated.

Authoritative control set

1. Constitution of India, Legislative Department: Articles 239, 239A, 239AA, 239AB, 239B, 240, 241 and 246(4).

- **Polity 05 - Union and Territory:** owns Articles 1-4, territorial reorganisation, cession, Berubari and the State-to-UT map-changing power.
- **Polity 09/13 - Federal System and Centre-State Relations:** owns the general federal distribution and cooperative-federalism doctrine.

PYQS AND ANSWER PRACTICE

Verified routed PYQs

PYQ 1 - UPSC GS-II 2018, Q11

Verified question: Whether the Supreme Court Judgement (July 2018) can settle the political tussle between the Lt. Governor and elected government of Delhi? Examine. **15 marks | 250 words | Directive: Examine**

Demand decoding

- "Can settle" requires an extent judgement, not a summary of the case.
- "Political tussle" requires constitutional rule plus structural and behavioural limits.
- A current solved answer may use later developments to test whether the 2018 settlement proved complete.

Model solution

Thesis: [FACT] The July 2018 Constitution Bench settled the governing constitutional principle: within Delhi's legislative field, the LG is ordinarily bound by the elected CoM's aid and advice. [ANALYSIS] It could reduce legal ambiguity but could not eliminate conflict built into the national-capital design.

What the Court settled: [FACT] Article 239AA gives Delhi competence over State and Concurrent List matters except public order, police and land. The Court held executive power co-extensive with this field; the LG has no independent decision-making power; "any matter" is not "every matter"; and presidential reference must be exceptional, reasoned and preceded by dialogue. [ANALYSIS] This protects collective responsibility and prevents routine administrative veto.

Why the tussle could persist: [FACT] Parliament retains competence over every NCT subject and may override local law. The three reserved fields remain Union-controlled. Article 239AA(4) still contains a reference mechanism. [ANALYSIS] Divided authority therefore survives the judgment.

Later named evidence: [FACT] The May 2023 Constitution Bench located services in Entry 41 and gave NCTD executive control outside the reserved fields. Parliament then enacted the GNCTD Amendment Act, 2023, creating NCCSA and making the LG's decision final on a continuing disagreement. [ANALYSIS] The sequel proves that judicial principle alone did not settle the institutional contest.

Qualification: [LIMIT] Union control is not inherently unconstitutional in a national capital; intervention must remain textually grounded and non-obstructionist.

Verdict: The judgment settled the norm of representative primacy within Delhi's sphere, not the politics or all legal instruments of shared rule. Durable settlement requires statutory clarity, constitutional trust and accountable use of reserved powers.

Why this earns marks: It answers the extent question, uses Article 239AA and the operative 2018 propositions, tests them against the named 2023 sequel and ends with a qualified verdict.

PYQ 2 - UPSC GS-II 2025, Q4

Verified question from the locally held official paper: Discuss the nature of Jammu and Kashmir Legislative Assembly after the Jammu and Kashmir Reorganization Act, 2019. Briefly describe the powers and functions of the Assembly of the Union Territory of Jammu and Kashmir. **10 marks | 150 words | Directive: Discuss and briefly describe**

Demand decoding

- "Nature" requires classification as a statutory UT legislature, not a State legislature.
- "Powers and functions" requires legislation, finance and accountability.
- The current answer must acknowledge the elected Assembly after 2024 without claiming Statehood.

Model solution

Thesis: [FACT] The 2019 Act created a statutory legislature for the UT of J&K and applied Article 239A's provisions through section 13. [ANALYSIS] It restores representative government but remains weaker than a State Assembly.

Legislative power: [FACT] Section 32 permits laws on applicable State and Concurrent List matters except public order and police; land is not blanket-excluded. Parliament nevertheless retains competence over every UT subject, and section 35 gives parliamentary law priority.

Functions: [FACT] The Assembly legislates, debates policy, grants supply, authorises appropriation, examines CAG reports, exercises privileges and holds the Chief Minister-led CoM collectively responsible. Bills pass through LG assent/reservation routes.

Current institutional evidence: [CURRENT] Elections were held in 2024; the official Budget 2026-27 was presented by the elected Chief Minister/Finance Minister to the House.

Qualification: [LIMIT] LG discretion over excluded fields, AIS/ACB and specified business-rule matters remains substantial; Statehood is pending.

Verdict: J&K has democratic self-government within a Union-weighted statutory framework, not restored State-level federal autonomy.

Why this earns marks: It classifies the institution, names sections and functions, supplies current evidence and directly qualifies the extent of autonomy.

PYQ coverage control

- [FACT] The audited local ledgers route these two direct Mains demands to Union Territories.
- [LIMIT] No additional direct Union-Territories Prelims PYQ was found in the audited 2018-2026 routing ledgers. No objective key or question has been invented to inflate coverage.

Original solved Mains practice

M1. Explain the constitutional rationale for Union Territories and distinguish direct administration from a UT with a legislature. (10 marks, 150 words)

Model solution

Thesis: [ANALYSIS] Union Territories are devices of differentiated territorial governance: the Constitution permits stronger Union supervision where capital, strategic, historical or scale considerations make the ordinary State model unsuitable.

Direct administration: [FACT] Article 239 places a UT under the President acting through an Administrator. Article 246(4) lets Parliament legislate even on State-List matters. For specified territories, Article 240 permits presidential regulations. [ANALYSIS] A&N, Lakshadweep and Ladakh illustrate Union-led administration shaped by strategic geography.

Legislature model: [FACT] Delhi has a constitutionally entrenched Assembly under Article 239AA; Puducherry has a statutory Assembly under Article 239A and the 1963 Act; J&K has a statutory Assembly under the 2019 Act. These bodies legislate, vote supply and hold Councils responsible. [ANALYSIS] Yet Parliament retains overriding competence and the LG/Administrator retains special powers.

Qualification: [LIMIT] UT status does not eliminate local bodies, rights or judicial review under Article 241.

Verdict: The distinction is between Union administration with local representation and bounded territorial self-government, not between government and no government.

Why this earns marks: It explains rationale, names the governing Articles, compares the two categories and avoids treating every UT as identical.

M2. Article 240 is an exceptional law-making mechanism, not a general synonym for Union Territory administration. Explain. (10 marks, 150 words)

Model solution

Thesis: [FACT] Article 239 is the general administrative rule; Article 240 is a narrower presidential power to make regulations for specified territories.

Scope: Article 240 expressly covers A&N, Lakshadweep, DNHDD and Puducherry; section 58 of the J&K Reorganisation Act applies the route to Ladakh. [FACT] Chandigarh, Delhi and the J&K UT-with-legislature are not governed through this general regulation list.

Effect: [FACT] A regulation may amend or repeal an applicable parliamentary Act or other law and has the force of an Act of Parliament in the territory. [ANALYSIS] It is therefore direct primary territorial legislation, not an ordinary executive rule.

Puducherry condition: Once its Legislature functions, the President cannot use Article 240; the power revives during dissolution or suspension. Article 239B ordinances, conversely, cannot be made during that suspension.

Qualification: [LIMIT] Regulations remain subject to the Constitution and judicial review.

Verdict: Article 240 is a territory-specific legislative safety mechanism nested inside, but distinct from, Article 239 administration.

Why this earns marks: It separates source, territories, legal effect and Puducherry's switch between representative and direct law-making.

M3. Compare the legislatures of Delhi, Puducherry and Jammu and Kashmir. Why is the category "Union Territory with legislature" internally unequal? (15 marks, 250 words)

Model solution

Thesis: [ANALYSIS] All three legislatures supply representation and responsible government, but different constitutional sources, excluded fields and Administrator powers produce three unequal models.

Delhi: [FACT] Article 239AA constitutionally creates the NCT Assembly. It covers applicable State and Concurrent List matters except public order, police and land. Parliament retains all-subject competence and Article 239AA(4) supplies an LG-President reference route. [CURRENT] Services now operate under the 2023 NCCSA statute.

Puducherry: [FACT] Article 239A enables, and the 1963 Act creates, thirty elected plus up to three nominated members. Section 18 grants applicable State/Concurrent competence; sections 21, 44 and 50 preserve parliamentary supremacy, Administrator-President control and difference reference. [FACT] *K. Lakshminarayanan* confirms nominees' full voting role.

J&K: [FACT] The 2019 Act creates a statutory Assembly and applies Article 239A through section 13. Section 32 excludes public order and police, not blanket land. Sections 53 and the 2024 rules give the LG significant discretion over AIS/ACB and specified routed matters. [CURRENT] The Assembly functions after the 2024 election.

Common core: legislation, budget, scrutiny and collective responsibility. **Common limit:** Article 246(4) and parliamentary override.

Qualification: [LIMIT] Delhi's constitutional entrenchment does not make it a State; J&K's elected restoration does not itself restore Statehood.

Verdict: "UT with legislature" is a family of asymmetric compromises ranging from constitutional NCT government to Parliament-designed statutory self-government.

Why this earns marks: It compares legal source, competence, executive relation and current status rather than offering three disconnected descriptions.

M4. "The 2018 Delhi judgment protected representative government, but the 2023 developments reconfigured its operational content." Critically examine. (15 marks, 250 words)

Model solution

Thesis: [FACT] The 2018 Constitution Bench made aid and advice the rule and LG reference the exception; [ANALYSIS] the 2023 judgment extended that logic to services, while the later statute shifted the operational balance toward an NCCSA-LG model.

2018 constitutional principle: Article 239AA creates a directly elected Assembly and CoM. The Court held executive power co-extensive with legislative competence, the LG without independent decision power and "any matter" not "every matter". [ANALYSIS] This protected collective responsibility and limited administrative obstruction.

May 2023 extension: [FACT] Entry 41 services was not among public order, police and land. The Court therefore gave NCTD legislative/executive services power and linked officer control to the triple chain of accountability.

Legislative reconfiguration: [FACT] Act 19 of 2023 created NCCSA with the Chief Minister and two senior officials, majority decision, recommendations to the LG and final LG authority upon persistent disagreement. [ANALYSIS]

Services control became institutionally shared but Union-weighted.

Critical balance: Parliament's Article 239AA/246 power supports legislation for the capital; however, frequent displacement of the elected chain can blur answerability. Conversely, national-capital security and all-India service coordination are legitimate concerns.

Qualification: [LIMIT] The Act's constitutional challenge remains unresolved; pending litigation is not invalidation.

Verdict: 2018 remains the constitutional grammar of representative government, but current services administration must be stated through the 2023 statute until judicially altered.

Why this earns marks: It preserves chronological and doctrinal sequence, presents both legitimacy arguments and states the exact current-law limitation.

M5. Evaluate the democratic and constitutional implications of nominated members in the Puducherry Legislative Assembly. (15 marks, 250 words)

Model solution

Thesis: [FACT] Article 239A expressly permits a partly nominated legislature and section 3(3) of the 1963 Act allows the Central Government to nominate up to three members. [ANALYSIS] The arrangement is constitutional and statutory, but its influence over confidence and supply raises democratic-design concerns.

Constitutional case: Puducherry is a UT, not a State; Parliament may define the Assembly's composition. Nominees can supply expertise or representation without a separate election. [FACT] *K. Lakshminarayanan* found no legal requirement of Chief Ministerial concurrence.

Voting effect: The Court read section 12's "all questions" and "members present and voting" to include nominees in budget and no-confidence votes. [ANALYSIS] Since such votes determine government survival, Union nomination can affect the elected executive's stability.

Democratic concern: appointment without local electoral accountability may alter majority arithmetic and encourage partisan distrust. The absence of a consultation requirement intensifies this risk.

Counterpoint: [LIMIT] Judicial interpretation cannot add restrictions omitted by Parliament; nominated members are legally full members, not second-class participants.

Reform options: transparent eligibility and reasons; pre-notified timelines; conflict-of-interest disclosure; convention of broad consultation; parliamentary review if the representational purpose is no longer served.

Verdict: The design is legally valid but democratically sensitive; legitimacy depends on transparent, representational rather than tactical use of nomination.

Why this earns marks: It separates validity from desirability, names the Act and case, explains the confidence-vote mechanism and offers legally compatible safeguards.

M6. Assess the nature and democratic significance of the Jammu and Kashmir Assembly after the 2024 election. (15 marks, 250 words)

Model solution

Thesis: [CURRENT] The 2024 election restored an elected Assembly and CoM within J&K's UT framework; [ANALYSIS] this is substantial democratic restoration but incomplete federal restoration.

Nature: [FACT] Sections 13-14 of the 2019 Act apply Article 239A and create a statutory UT legislature. It is not a Part VI State legislature. Section 32 grants applicable State/Concurrent competence except public order and police; Parliament retains all-subject power under Article 246(4).

Functions: It makes laws, authorises taxation and expenditure, debates policy, examines audit material and holds the CoM collectively responsible. The official 2026-27 Budget presentation by the Chief Minister/Finance Minister to the House demonstrates functioning financial accountability.

Limits: [FACT] section 53 gives the LG discretion outside the Assembly field and in AIS/ACB matters; the 2024 business rules route specified policing, prosecution, legal-officer and senior-posting matters through the LG. Parliamentary law prevails under section 35.

Democratic significance: Elections restore voice, opposition, public debate and ministerial answerability after a long institutional gap. [ANALYSIS] Yet responsibility may still exceed control where officers or reserved subjects lie outside the elected chain.

Qualification: [LIMIT] *In Re Article 370* directed elections and earliest statehood restoration but fixed no statehood date; Statehood remains pending.

Verdict: The Assembly is meaningful self-government under Union supervision, not symbolic, but only Statehood can restore full constituent-unit parity.

Why this earns marks: It uses the current election and budget as evidence, distinguishes democracy from federal status and identifies the exact LG/Parliament limits.

M7. "Union Territory asymmetry is administratively useful but democratically costly." Critically examine with reference to Delhi, Puducherry, Jammu and Kashmir and UTs without legislatures. (20 marks, 250 words)

Model solution

Thesis: [ANALYSIS] UT asymmetry lets India tailor government to national-capital, island, frontier and historical needs, but its democratic cost rises when electoral responsibility is separated from control over law, officers and finance.

Administrative utility: [FACT] Article 239 enables unified presidential administration; Article 240 supports direct law-making for specified small/strategic territories. A&N and Lakshadweep require island-wide coordination; Chandigarh serves a shared-capital function; Ladakh combines frontier and ecological constraints. Delhi's reserved public order, police and land fields protect national-capital interests.

Representative adaptation: Article 239A/239AA and the 2019 Act show that central control can coexist with elected government. Puducherry retains a broad local legislative field; J&K has a functioning Assembly; Delhi has constitutionally entrenched representation.

Democratic costs: Delhi's NCCSA can leave ministers electorally liable without final service control. Puducherry's centrally nominated members may influence supply and confidence. J&K's LG discretion and business routing narrow the elected chain. Non-legislature UTs rely on local bodies and advisory forums rather than territorial law-making.

Constitutional safeguards: Article 241 judicial review, legislative scrutiny, collective responsibility and reasoned-reference duties prevent unbounded administration.

Counterpoint: [LIMIT] uniform Statehood is not always feasible or desired; national security, scale and minority protection can justify difference.

Reform principle: define reserved fields narrowly; publish decision reasons; align officers with accountable ministers where possible; strengthen local consultation; periodically review whether direct administration remains proportionate.

Verdict: Asymmetry is defensible as calibrated governance, not as permanent democratic discount.

Why this earns marks: It covers four models, supplies named legal mechanisms, balances utility and cost and derives a proportional reform test.

M8. Design a reform framework to reduce Administrator-elected government conflict while preserving legitimate Union interests. (20 marks, 250 words)

Model solution

Thesis: [ANALYSIS] Reform should not erase UT asymmetry; it should align authority, procedure and public accountability so that reserved Union interests are protected without routine paralysis.

1. Competence clarity: publish consolidated subject maps for Delhi, Puducherry and J&K, identifying the law-maker, executive controller and assent route. Use Article 239AA entries and sections 18/32 as legal anchors.

2. Officer accountability: create transparent posting and performance protocols. For Delhi NCCSA and J&K AIS matters, record institutional reasons, timelines and dissent rather than relying on opaque files.

3. Difference resolution: operationalise the 2018 Delhi principle - dialogue first, reference exceptionally, written rationale always. Adapt comparable consultation norms in Puducherry and J&K without contradicting their statutes.

4. Legislative transparency: publish the status and reasons for reserved/returned Bills, subject to legitimate confidentiality; require periodic Assembly reporting.

5. Nomination safeguards: for Puducherry, use public eligibility criteria, conflict disclosure and a representational purpose statement, while respecting *K. Lakshminarayanan*.

6. Direct-UT participation: strengthen elected local bodies, advisory committees, indigenous/community consultation and accessible grievance review in island/frontier territories.

7. Periodic proportionality review: Parliament should review whether the scope of direct administration still matches scale, strategy and democratic demand. J&K Statehood must be addressed through law, not converted into an assumed date.

Qualification: [LIMIT] security-sensitive material and urgent action may require confidentiality and speed.

Verdict: The objective is not maximum local power, but congruence between who decides, who can implement and who is publicly answerable.

Why this earns marks: It provides a sequenced institution-specific framework, protects Union interests and applies claim -> named evidence -> mechanism -> qualification throughout.

PART C - SPECIAL STATUS OF DELHI (Art 239-AA) □□

FACT: **69th Amendment Act, 1991** -> redesignated Delhi as the **National Capital Territory (NCT)**, administrator = **LG**. Assembly of **70** members (elections by the **ECI**); CoM = **10%** of assembly = **7** (CM + 6).

- FACT: **CM appointed by the President** (not the LG); ministers hold office during President's pleasure.

- CURRENT: **GNCTD (Amendment) Act 2023 + National Capital Civil Services Authority** effectively restored the LG/Centre's primacy over services - the live **federalism / LG-vs-elected-govt** tussle.

UPSC Traps

- WRONG: There are 9 UTs -> **8** (DNH + DD merged on 26 Jan 2020).
- WRONG: An Administrator is like a Governor -> he is an **agent of the President**, not a head of state.

- WRONG: Ladakh has a legislature -> **no legislature** (J&K has one).
- WRONG: Every UT has its own High Court -> only **Delhi** does.

STATE GOVERNOR

Part VI constitutional head
ordinary State parliamentary framework

- One person may hold both capacities.
- As adjoining UT Administrator, a State Governor acts independently of the State CoM.
- Never transfer State-Governor assumptions mechanically to a UT.

Delhi legal sequence

69th Amendment / Article 239AA

- > 2018: aid/advice rule, no independent LG power, exceptional reference
- > May 2023: Entry 41 services within NCTD field except three exclusions
- > Act 19 of 2023: NCCSA + final LG decision on persistent disagreement
- > challenge unresolved; Act treated as operative
- Exclusions: public order, police, land.
- Parliament retains competence over every NCT field.
- CM is appointed by President.
- CoM maximum: 10 per cent of Assembly strength.
- Current trap: never state unqualified elected-government services control.

NCCSA quick recall

Component	Rule
Chairperson	Chief Minister

- CM appointed by President.
- Section 50: Administrator and CoM under President's general control/directions.
- *K. Lakshminarayanan*:

- 2024 Second Amendment Rules route specified police/public order/AIS/ACB, law, prosecution, prisons, forensic and senior-posting matters to LG channels.
- Statehood not restored; no fixed Supreme Court deadline.
- Land is not one of section 32's blanket exclusions.

Non-legislature UT profiles

UT	Executive	Article 240	High Court	Key recall
A&N	LG	yes	Calcutta	strategic archipelago
Chandigarh	Administrator	no	Punjab and Haryana	shared capital, separate UT
DNHDD	Administrator	yes	Bombay	one merged UT
Ladakh	LG	yes via s.58	J&K and Ladakh	no Assembly
Lakshadweep	Administrator	yes	Kerala	small-island ecology

Federal and democratic debate

Claim	Named evidence	Analysis	Qualification
asymmetry serves function	Article 239/240; island/frontier/capital models	permits tailored coordination	reason must remain proportionate
legislatures create accountability	Articles 239A/AA; 2019 Act	voters can sanction ministers	officer/reserved-field control may be split
Union supremacy is durable	Article 246(4), repugnancy clauses	UT legislature is not State-equivalent	local competence remains legally real
courts protect elected sphere	Delhi 2018/2023	aid/advice and accountability have constitutional force	Parliament may legislate within competence
status change remains open	Article 3 and J&K debate	UT can be transitional	promise is not legal restoration

Friction diagnosis

electoral promise

- > needs law
- > needs officer
- > needs money
- > may need assent / no reference
- > split control
- > delay and blame shifting
- Ask who controls each step.
- Separate legal overlap from party-political behaviour.
- Test intervention for textual source, reason, proportionality and review.

PYQ routes

- **2018 GS-II Q11:** Article 239AA -> 2018 holdings -> limits of judicial settlement -> 2023 judgment -> 2023 Act -> qualified verdict.
- **2025 GS-II Q4:** statutory nature -> sections 32/35/53 -> legislative/financial/accountability functions -> 2024 election + 2026 budget -> pending Statehood.
- No additional direct Prelims route was found in audited 2018-2026 ledgers; do not fabricate one.

Evidence bank for Mains

Last-minute traps

1. Eight UTs, not nine.
2. DNHDD is one UT.
3. Delhi, Puducherry and J&K have legislatures.
4. Administrator is not a State Governor.
5. Article 246(4), not Article 240, is Parliament's general State-List UT power.
6. Article 239A is Puducherry's enabling provision; J&K uses it through section 13.
7. Article 239AA is Delhi only.
8. Article 239AB concerns Delhi failure of machinery.
9. Chandigarh is not in the Article 240 set.
10. Puducherry Article 240 power is conditional on dissolution/suspension.
11. Delhi excludes public order, police and land.
12. J&K excludes public order and police, not blanket land.
13. 2018: "any matter" does not mean "every matter".
14. 2023 services judgment is not the entire current rule; add Act 19 of 2023.
15. NCCSA has CM plus two senior officials; majority decision.
16. Persistent NCCSA-LG difference ends with LG's decision under section 45H.
17. Puducherry nominees can vote on budget and no-confidence.
18. J&K has an elected Assembly after 2024.
19. Election did not automatically restore J&K Statehood.
20. Delhi alone has a separate UT High Court.
21. Current common court name: High Court of Jammu & Kashmir and Ladakh.
22. A pending legal challenge is not a completed invalidation.

Final verdicts

- **Constitutional design:** UTs are differentiated instruments of territorial governance, not a uniform category.
- **Parliament:** Article 246(4) ensures continuing Union legislative supremacy over every UT.
- **Democracy:** a UT Assembly creates real responsible government but not State-equivalent autonomy.
- **Delhi:** representative primacy survives as a constitutional principle; services currently operate through the 2023 NCCSA-LG statute.
- **Puducherry:** broad statutory self-government coexists with central nomination and presidential control.
- **J&K:** elected government has returned, while Statehood and full federal parity remain pending.
- **Reform:** legitimacy depends on narrow reserved fields, reasoned intervention, transparent routing and alignment of implementation control with public accountability.

CORE IDEA one constitutional label contains deliberately unequal governance models.

ASCII MASTER FLOW - PANEL 2/9: President, Administrator and Parliament in the UT administration chain

ARTICLE 239

President administers UT through an appointed Administrator
unless the Constitution or parliamentary law creates another arrangement.

ADMINISTRATOR / LIEUTENANT GOVERNOR

designation does not convert the office into a Part VI State Governor.
power depends on the exact Constitution, statute and rules.

PARLIAMENT

may legislate for any UT, including matters otherwise in the State List.

UT WITH LEGISLATURE

local Assembly + Council of Ministers operate only inside the allotted field.
Parliament retains overriding legislative competence.

ARTICLE 239A

Parliament may create Puducherry legislature/CoM by law.

ARTICLE 239B -> Administrator ordinance within the statutory legislature model.

ASCII MASTER FLOW - PANEL 3/9: Article 240 regulations, High Courts, budgets and representation

ARTICLE 240

President may make regulations for listed UTs; a regulation can amend/repeal Acts.
Its availability changes when a qualifying legislature is functioning.

ARTICLE 241

Parliament may constitute a High Court for a UT or extend another High Court's jurisdiction.

JUDICIAL MAP

Delhi has its High Court | J&K and Ladakh share one High Court
| other UTs use constitutionally/statutorily assigned High Courts.

BUDGET AND REPRESENTATION

legislature UTs have statutory/constitutional budget procedures.
Parliamentary representation follows the Constitution and representation statutes.

LIMIT direct Union administration does not mean absence of courts, elected MPs or local bodies.

ASCII MASTER FLOW - PANEL 4/9: Delhi Article 239AA: elected government inside reserved-field asymmetry

ARTICLE 239AA

NCT Assembly may legislate on State/Concurrent matters
EXCEPT public order, police and land, plus related entries.

EXECUTIVE POWER

normally co-extensive with the allotted legislative field.
Council of Ministers aids and advises LG within that field.

REFERENCE MECHANISM

LG difference route is exceptional and must not convert "any matter" into "every matter".

PARLIAMENTARY OVERRIDE

Parliament may legislate for Delhi on any subject; inconsistent local law yields as provided.

NCT IS NOT A STATE

representative government is constitutionally real but operates inside Union-capital safeguards.

ASCII MASTER FLOW - PANEL 5/9: Delhi cases, services and the operative 2023 statutory layer

GNCTD aid-and-advice judgment (2018)

aid/advice is the rule within Delhi's field; LG has no general independent power.

Delhi services judgment (2023)

Entry 41 services followed the representative-accountability chain
outside public order, police and land.

GNCTD AMENDMENT ACT, 2023

National Capital Civil Service Authority -> recommendation
-> LG may differ and has the statutory final decision on disagreement.

CURRENT CONTROL: 24 AUGUST 2026

the Act is treated as operative; a pending challenge is not a final invalidation.

ANSWER RULE

state the 2018 principle -> 2023 services holding -> later statute -> pending-review caveat.

ASCII MASTER FLOW - PANEL 6/9: Puducherry under Article 239A and its nominated-member design

ARTICLE 239A + GOVERNMENT OF UNION TERRITORIES ACT, 1963

statutory Assembly + Council of Ministers + Administrator.

LEGISLATIVE FIELD

defined by parliamentary law; Parliament retains UT-wide competence.

K. Lakshminarayanan (2018)

upheld Central nomination of Assembly members under the governing statute.
Nominees may vote unless the law provides otherwise.

ARTICLE 240

presidential-regulation power is unavailable while the legislature operates
and may revive during dissolution/suspension under the constitutional text.

LIMIT Puducherry is not Delhi: Article 239A statutory design != Article 239AA NCT design.

ASCII MASTER FLOW - PANEL 7/9: Jammu and Kashmir, Ladakh and the present statutory position

J&K REORGANISATION ACT, 2019

former State -> J&K UT with legislature + Ladakh UT without legislature
from 31 October 2019.

J&K ASSEMBLY

statutory legislative field and LG relationship follow the 2019 Act and rules.
Police and public order remain outside the Assembly's ordinary field.

In Re: Article 370 of the Constitution (2023)

upheld the operative abrogation result; recorded Statehood assurance
and did not set a judicial restoration date.

CURRENT: 24 AUGUST 2026

J&K Statehood not restored | Ladakh has no legislature.
Demands for Sixth Schedule/Statehood/special provisions are proposals, not law.

ASCII MASTER FLOW - PANEL 8/9: Bounded UT profiles and State-UT-NCT comparison

WITHOUT LEGISLATURE

Andaman and Nicobar -> strategic archipelago
Lakshadweep -> small island UT
Chandigarh -> capital of Punjab and Haryana
DNHDD -> merged western UT
Ladakh -> frontier UT after 2019 reorganisation.

STATE	ORDINARY UT	DELHI NCT
Part VI government	Article 239 chain	Article 239AA elected design
State-list autonomy	Parliament plenary	three reserved fields
Governor/CoM model	Administrator	LG + CoM + reference route

ACCOUNTABILITY TEST

exact field -> decision-maker -> override -> finance/staff -> court remedy.

LIMIT Administrator powers are UT-specific; title alone supplies no common rule.

ASCII MASTER FLOW - PANEL 9/9: Creation, reorganisation, current traps and qualified answer synthesis

CREATION / MERGER

Articles 2-4 and parliamentary reorganisation law can alter territory and status.
UT status is constitutional-administrative design, not a permanently fixed category.

PRELIMS FIREWALL

Article 239 = presidential administration
| 239A Puducherry enabling route | 239AA Delhi
| 239AB Delhi constitutional breakdown | 240 listed-UT regulations
| 241 High Courts | Parliament can legislate on State List for UTs.

CURRENT FIREWALL

operative statute != pending challenge outcome
| political proposal != law | office/status facts require a date.

MAINS SPINE

rationale -> classify UT -> exact Article/statute -> democratic mechanism
-> Union safeguard -> friction -> case-year control -> calibrated reform/verdict.
