E

EXTRA SUBORDINATE ENRICHMENT — ONLY AFTER THE COMPLETE CORE

OPTIONAL ADVANCED ENRICHMENT · A PROCUREMENT RULE CAN ENCOURAGE LOCALISATION BUT CANNOT ITSELF · SCALE MATTERS · WITHOUT REGULAR ORDERS, DOMESTIC FIRMS CANNOT AMORTISE CAPITAL INVESTMENT · EXPORT COMPETITIVENESS REQUIRES QUALITY, CERTIFICATION CREDIBILITY, AFTER-SALES SUPPORT AND · DIPLOMATIC-MARKET ACCESS, NOT JUST A DOMESTIC "MAKE IN INDIA" · THE HARDEST STEP IS OFTEN FROM PROTOTYPE OR LIMITED-SERIES · DEPARTMENT OF DEFENCE PRODUCTION

OPTIONAL SCIENTIFIC / ENGINEERING DEPTH
- CAUTION: A procurement rule can encourage localisation but cannot itself create deep technology absorption.
- CAUTION: Scale matters: without regular orders, domestic firms cannot amortise capital investment or build supplier confidence.
- CAUTION: Export competitiveness requires quality, certification credibility, after-sales support and diplomatic-market access, not just a domestic "Make in India" slogan.

READINESS, UNIT OR STATUS LIMIT
- CAUTION: The hardest step is often from prototype or limited-series production to reliable, repeatable industrial throughput.
- Department of Defence Production: central administrative anchor for production and DPSUs — distinct from the Department
- of Defence R&D/DRDO (technology creation) and from the Defence Acquisition Council (approval of necessity and categorisation).
- DAP 2020: formal acquisition rulebook.

COMPARATIVE TECHNOLOGY / GOVERNANCE NUANCE
- Defence Innovation Organisation — iDEX and ADITI: startup/MSME innovation channel
- Technology Development Fund (DRDO): industry-led development funding.
- SRIJAN: public-facing implementation dashboard for positive-indigenisation items.
- DPSU product filters on official DDP page: HAL, BEL, BDL, MDL, GRSE and GSL are visible categories

OPTIONAL STATUS — This optional depth is unnecessary for a competent core answer; use it only for added nuance after the complete core has been written.
