Approval: FALSE • Pending user review • source generation g2 and all prior artifacts unchanged

00

STAGE 00 THREE EI MODELS: ABILITY, MIXED AND TRAIT

THREE EI MODELS · ABILITY, MIXED AND TRAIT · CENTRAL FOCUS · 1. THREE EI MODELS · [1] ABILITY MODEL (MAYER-SALOVEY 1997) · EI AS COGNITIVE ABILITY TESTED BY PERFORMANCE. · [2] MIXED MODEL (GOLEMAN 1995/1998) · EI AS FIVE WORKPLACE COMPETENCIES BLENDING ABILITY AND PERSONALITY.

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
CENTRAL FOCUS 1. Three EI models: ability, mixed and trait [1] Ability model (Mayer-Salovey 1997): EI as cognitive ability tested by performance. [2] Mixed model (Goleman 1995/1998): EI as five workplace competencies blending ability and personality.	[4] Later performance tests such as MSCEIT operationalise the ability-model approach. [5] The three models differ in theory, method and predictive validity. [6] UPSC GS-IV primarily tests Goleman's five components in applied scenarios. [7] Advanced answers distinguish models to show conceptual precision.	VERDICT → Name the specific model you are using before applying it to a scenario. ANSWER USE → Open any EI definition or comparison answer by distinguishing the three models. MUST REMEMBER: Emotional intelligence involves perceiving, using, understanding and regulating emotion Goleman's competency model is related but not identical to the Mayer-Salovey ability model, and empathy is neither agreement

CORE CLAIM
- CENTRAL FOCUS
- 1. Three EI models: ability, mixed and trait
- [1] Ability model (Mayer-Salovey 1997): EI as cognitive ability tested by performance.
- [2] Mixed model (Goleman 1995/1998): EI as five workplace competencies blending ability and personality.
- [3] Trait model (Bar-On EQ-i 1997): EI as self-perceived competencies measured by self-report.

MECHANISM
- [4] Later performance tests such as MSCEIT operationalise the ability-model approach.
- [5] The three models differ in theory, method and predictive validity.
- [6] UPSC GS-IV primarily tests Goleman's five components in applied scenarios.
- [7] Advanced answers distinguish models to show conceptual precision.
- [8] Confusing models or claiming they measure the same construct is a common exam trap.

CONSEQUENCE / LIMIT
- VERDICT → Name the specific model you are using before applying it to a scenario.
- ANSWER USE → Open any EI definition or comparison answer by distinguishing the three models.
- MUST REMEMBER: Emotional intelligence involves perceiving, using, understanding and regulating emotion
- Goleman's competency model is related but not identical to the Mayer-Salovey ability model, and empathy is neither agreement

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Name the specific model you are using before applying it to a scenario.

01

STAGE 01 FOUR-BRANCH ABILITY MODEL: ASCENDING HIERARCHY

FOUR-BRANCH ABILITY MODEL · ASCENDING HIERARCHY · CENTRAL FOCUS · 2. FOUR-BRANCH ABILITY MODEL · [1] BRANCH 1 · PERCEIVING EMOTION — RECOGNISING EMOTIONAL CUES IN SELF AND · [2] BRANCH 2 · USING EMOTION — CHANNELLING EMOTION TO FACILITATE THOUGHT AND

CENTRAL FOCUS

2. Four-branch ability model: ascending hierarchy → [1] Branch 1: Perceiving emotion — recognising emotional cues in self and others. → [2] Branch 2: Using emotion — channelling emotion to facilitate thought and creativity.

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
CENTRAL FOCUS 2. Four-branch ability model: ascending hierarchy [1] Branch 1: Perceiving emotion — recognising emotional cues in self and others. [2] Branch 2: Using emotion — channelling emotion to facilitate thought and creativity.	[3] Branch 3: Understanding emotion — grasping emotional complexity and transitions. [4] Branch 4: Managing emotion — regulating emotion in self and others toward goals. [5] The four branches form an ascending hierarchy of cognitive complexity. [6] Perceiving is the foundational skill; managing is the most advanced.	[7] The DC Vijay case tests all four branches in a single scenario. [8] Ability-model decomposition earns advanced marks in case-study answers. VERDICT → Use the four-branch decomposition to structure any advanced EI case-study analysis. ANSWER USE → Apply to disaster-leadership and crisis-of-conscience case studies.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Use the four-branch decomposition to structure any advanced EI case-study analysis.

02

STAGE 02 GOLEMAN'S FIVE COMPONENTS MAPPED TO ADMINISTRATION

GOLEMAN'S FIVE COMPONENTS MAPPED TO ADMINISTRATION · CENTRAL FOCUS · 3. GOLEMAN'S FIVE COMPONENTS MAPPED TO ADMINISTRATION · [1] SELF-AWARENESS · RECOGNISING OWN BIAS, STRESS OR FATIGUE BEFORE DECIDING. · [2] SELF-REGULATION · COMPOSURE UNDER PROVOCATION, CRISIS OR MEDIA SCRUTINY. · [3] MOTIVATION

CENTRAL FOCUS

3. Goleman's five components mapped to administration → [1] Self-awareness: recognising own bias, stress or fatigue before deciding. → [2] Self-regulation: composure under provocation, crisis or media scrutiny.

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
CENTRAL FOCUS 3. Goleman's five components mapped to administration [1] Self-awareness: recognising own bias, stress or fatigue before deciding. [2] Self-regulation: composure under provocation, crisis or media scrutiny.	[3] Motivation: sustained public-service drive beyond external incentive. [4] Empathy: reading citizens' or colleagues' unstated needs. [5] Social skill: managing teams, stakeholders and conflict resolution. [6] Each component maps to a specific administrative behaviour.	[7] GS-IV questions test components in combination, not isolation. [8] The five components are the default framework for most EI answers. VERDICT → Name the specific component engaged at each decision point in your answer. ANSWER USE → Structure any Goleman-based EI answer by naming components before describing behaviour.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Name the specific component engaged at each decision point in your answer.

03

STAGE 03 EI'S DARK SIDE: ETHICAL NEUTRALITY AND MANIPULATION RISK

EI'S DARK SIDE · ETHICAL NEUTRALITY AND MANIPULATION RISK · CENTRAL FOCUS · 4. EI'S DARK SIDE · [1] EI IS A CAPACITY, NOT A MORAL COMPASS · [2] HIGH SOCIAL SKILL PLUS INTEGRITY PRODUCES EFFECTIVE CITIZEN · [3] HIGH SOCIAL SKILL MINUS INTEGRITY PRODUCES SOPHISTICATED MANIPULATION. · [4] EXAMPLE

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
CENTRAL FOCUS 4. EI's dark side: ethical neutrality and manipulation risk [1] EI is a capacity, not a moral compass — it is ethically neutral. [2] High social skill plus integrity produces effective citizen service.	[3] High social skill minus integrity produces sophisticated manipulation. [4] Example: empathic reading used to extract a bribe by exploiting urgency. [5] Ignoring without ethics framework can enable more effective misconduct. [6] Integrity, probity and audit must be independently assessed.	[7] The dark side is not hypothetical — it is a genuine administrative risk. [8] Joint necessity: EI and ethics are both required; neither alone suffices. VERDICT → Always flag EI's ethical boundary when discussing its benefits. ANSWER USE → Include the dark-side qualification in any answer that claims EI improves governance.

MECHANISM / VERDICT — VERDICT → Always flag EI's ethical boundary when discussing its benefits.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: ANSWER USE → Include the dark-side qualification in any answer that claims EI improves governance.

04

STAGE 04 IQ VERSUS EQ: JOINT NECESSITY, NOT SUBSTITUTION

IQ VERSUS EQ · JOINT NECESSITY, NOT SUBSTITUTION · CENTRAL FOCUS · 5. IQ VERSUS EQ · [1] EQ PREDICTS TASK-COMPETENCE AND TECHNICAL PROBLEM-SOLVING ABILITY. · [2] EQ PREDICTS HOW WELL COMPETENCE IS DEPLOYED UNDER · [3] TWO OFFICERS WITH IDENTICAL IQ CAN PRODUCE DIVERGENT · [4] THE DIVERGENCE IS EXPLAINED BY EQ

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
CENTRAL FOCUS 5. IQ versus EQ: joint necessity, not substitution [1] EQ predicts task-competence and technical problem-solving ability. [2] EQ predicts how well competence is deployed under interpersonal pressure.	[3] Two officers with identical IQ can produce divergent crisis outcomes. [4] The divergence is explained by EQ: regulation, empathy and social skill. [5] EQ matters disproportionately at the point of execution under stress. [6] EQ cannot substitute for technical or legal competence.	[7] An empathetic but legally uninformed officer can still err. [8] The defensible position: IQ and EQ are jointly necessary. VERDICT → EQ amplifies competence under stress; it does not replace technical knowledge. ANSWER USE → Use to resolve any IQ-vs-EQ or cognitive-vs-emotional ability question.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → EQ amplifies competence under stress; it does not replace technical knowledge.

05

STAGE 05 DC VIJAY CASE STUDY: STRUCTURED EI DECOMPOSITION

DC VIJAY CASE STUDY · STRUCTURED EI DECOMPOSITION · CENTRAL FOCUS · 6. DC VIJAY CASE STUDY · [1] SCENARIO · DC LEADS DISASTER RELIEF; MOTHER DIES; FAMILY DEMANDS PRESENCE. · [2] PERCEIVING · ACKNOWLEDGE GRIEF WITHOUT DENIAL — A LEGITIMATE EMOTIONAL REALITY.

CENTRAL FOCUS

6. DC Vijay case study: structured EI decomposition → [1] Scenario: DC leads disaster relief; mother dies; family demands presence. → [2] Perceiving: acknowledge grief without denial — a legitimate emotional reality.

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
CENTRAL FOCUS 6. DC Vijay case study: structured EI decomposition [1] Scenario: DC leads disaster relief; mother dies; family demands presence. [2] Perceiving: acknowledge grief without denial — a legitimate emotional reality.	[3] Using: channel urgency of grief productively into sustained relief effort. [4] Understanding: grasp competing claims of family, victims and subordinates. [5] Managing: structured decision — designate deputy, communicate, document. [6] The correct answer is structured transparent balancing, not single heroism.	[7] Institutional complement: pre-designated succession and family-emergency SOP. [8] The case tests EI through institutional process, not one willpower alone. VERDICT → Decompose the dilemma using named EI branches; propose a structured, documented resolution. ANSWER USE → Apply to any disaster-leadership or duty-versus-family case study.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Decompose the dilemma using named EI branches; propose a structured, documented resolution.

06

STAGE 06 EMOTIONAL LABOUR: COST, RECOGNITION AND INSTITUTIONAL RESPONSE

EMOTIONAL LABOUR · COST, RECOGNITION AND INSTITUTIONAL RESPONSE · CENTRAL FOCUS · 7. EMOTIONAL LABOUR · [1] EMOTIONAL LABOUR (HOCHSCHILD 1983) · MANAGED DISPLAY OF ROLE-APPROPRIATE EMOTION. · [2] CITIZEN-FACING ROLES REQUIRE SUSTAINED COURTESY DESPITE PROVOCATION. · [3] EMOTIONAL LABOUR IS INVISIBLE IN TRADITIONAL WORKLOAD ASSESSMENTS.

CENTRAL FOCUS → 7. Emotional labour: cost, recognition and institutional response → [1] Emotional labour (Hochschild 1983): managed display of role-appropriate emotion. → [2] Citizen-facing roles require sustained courtesy despite provocation. → [3] Emotional labour is invisible in traditional workload assessments.

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
CENTRAL FOCUS 7. Emotional labour: cost, recognition and institutional response [1] Emotional labour (Hochschild 1983): managed display of role-appropriate emotion. [2] Citizen-facing roles require sustained courtesy despite provocation.	[3] Emotional labour is invisible in traditional workload assessments. [4] Sustained emotional labour carries burnout risk regardless of natural empathy. [5] Institutional responses: rotation, debrief, staff grievance channels, team distribution. [6] Staff-welfare support sustains capacity; it does not reduce service obligations.	[7] Overemphasis on staff welfare must not become excuse for poor service. [8] Emotional labour is a hidden cost of citizen-centric governance. VERDICT → Acknowledge emotional labour as real cost and prescribe institutional support alongside duty. ANSWER USE → Use in any question about frontline service quality, officer welfare or burnout.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Acknowledge emotional labour as real cost and prescribe institutional support alongside duty.

07

STAGE 07 MORAL INTUITION VERSUS MORAL REASONING: EI AS BRIDGE

MORAL INTUITION VERSUS MORAL REASONING · EI AS BRIDGE · CENTRAL FOCUS · 8. MORAL INTUITION VERSUS MORAL REASONING · [1] MORAL INTUITION · FAST, AFFECT-DRIVEN SENSE THAT SOMETHING FEELS WRONG. · [2] DRAWS ON EI'S EMPATHY (SENSING OTHERS' DISTRESS) AND · [3] MORAL REASONING

CENTRAL FOCUS → 8. Moral intuition versus moral reasoning: EI as bridge → [1] Moral intuition: fast, affect-driven sense that something feels wrong. → [2] Draws on EI's empathy (sensing others' distress) and self-awareness. → [3] Moral reasoning: slow, deliberate application of ethical theory or rule.

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
CENTRAL FOCUS 8. Moral intuition versus moral reasoning: EI as bridge [1] Moral intuition: fast, affect-driven sense that something feels wrong. [2] Draws on EI's empathy (sensing others' distress) and self-awareness.	[3] Moral reasoning: slow, deliberate application of ethical theory or rule. [4] Self-awareness detects when intuitive reaction may be bias, not signal. [5] The regulatory bridge: intuition triggers reasoning; reasoning tests intuition. [6] Neither alone is sufficient: intuition without reasoning can be prejudice.	[7] Reasoning without intuition can miss human impact of technically correct decisions. [8] EI mediates between the two by providing the self-awareness check. VERDICT → Intuition is the trigger; reasoning is the test; self-awareness is the bridge. ANSWER USE → Use to answer any moral intuition vs moral reasoning or EQ-linked ethical-judgment question.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Intuition is the trigger; reasoning is the test; self-awareness is the bridge.

08

STAGE 08 EMPATHY AND WISDOM: PREVENTING TRAVESTY OF JUSTICE

EMPATHY AND WISDOM · PREVENTING TRAVESTY OF JUSTICE · CENTRAL FOCUS · 9. EMPATHY AND WISDOM · [1] WISDOM (PHRONESIS) · PRACTICAL JUDGMENT APPLYING RULES WITH CONTEXTUAL SENSITIVITY. · [2] TRAVESTY OF JUSTICE · LITERAL COMPLIANCE DEFEATING THE RULE'S PURPOSE. · [3] EMPATHY TRIGGERS WISDOM BY ALERTING THE OFFICER TO HUMAN COST OF MECHANICAL APPLICATION.

CENTRAL FOCUS → 9. Empathy and wisdom: preventing travesty of justice → [1] Wisdom (phronesis): practical judgment applying rules with contextual sensitivity. → [2] Travesty of justice: literal compliance defeating the rule's purpose. → [3] Empathy triggers wisdom by alerting the officer to human cost of mechanical application.

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
CENTRAL FOCUS 9. Empathy and wisdom: preventing travesty of justice [1] Wisdom (phronesis): practical judgment applying rules with contextual sensitivity. [2] Travesty of justice: literal compliance defeating the rule's purpose.	[3] Empathy triggers wisdom by alerting the officer to human cost of mechanical application. [4] Ignoring welfare on a minor technicality despite clear substantive eligibility. [5] Without empathy, wisdom has no trigger to activate. [6] Empathy without rule-awareness risks arbitrary favouritism.	[7] The safeguard is transparent reasoning and appeal mechanisms. [8] Wisdom requires both legal competence and empathetic perception. VERDICT → Empathy activates wisdom; rule-based transparency prevents it from degenerating into favouritism. ANSWER USE → Use to answer any wisdom-in-administration or travesty-of-justice question.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Empathy activates wisdom; rule-based transparency prevents it from degenerating into favouritism.

09

STAGE 09 CRISIS OF CONSCIENCE: EI NAVIGATION MECHANISM

CRISIS OF CONSCIENCE · EI NAVIGATION MECHANISM · CENTRAL FOCUS · 10. CRISIS OF CONSCIENCE · [1] CRISIS OF CONSCIENCE · PERSONAL VALUES, DUTY AND PRESSURE CONFLICT IRRECONCILABLY. · [2] SELF-AWARENESS NAMES THE CONFLICT PRECISELY RATHER THAN DIFFUSE · [3] SELF-REGULATION PREVENTS IMPULSIVE ACTION OR PARALYSIS UNDER EMOTIONAL

CENTRAL FOCUS → 10. Crisis of conscience: EI navigation mechanism → [1] Crisis of conscience: personal values, duty and pressure conflict irreconcilably. → [2] Self-awareness names the conflict precisely rather than diffuse anguish. → [3] Self-regulation prevents impulsive action or paralysis under emotional turmoil.

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
CENTRAL FOCUS 10. Crisis of conscience: EI navigation mechanism [1] Crisis of conscience: personal values, duty and pressure conflict irreconcilably. [2] Self-awareness names the conflict precisely rather than diffuse anguish. [3] Self-regulation prevents impulsive action or paralysis under emotional turmoil.	[4] Social skill enables transparent communication of the chosen course. [5] The officer converts private moral burden into documented accountable decision. [6] EI provides psychological infrastructure but not the ethical standard. [7] Moral framework (deontological, consequentialist, virtue-based) supplies direction. [8] EI without ethical grounding can produce composed capitulation, not principled resolution.	VERDICT → EI navigates the crisis of conscience; the ethical stand must come from moral reasoning. ANSWER USE → Use to structure any crisis-of-conscience or ethical-dilemma answer. CLOSE DISTINCTION: EI can support de-escalation, leadership and citizen sensitivity but can also enable manipulation ethical EI remains bounded by rights, evidence, due process, confidentiality and institutional accountability.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → EI navigates the crisis of conscience; the ethical stand must come from moral reasoning.

10

STAGE 10 MISSION KARMAYOGI AND INSTITUTIONAL EI ARCHITECTURE

MISSION KARMAYOGI AND INSTITUTIONAL EI ARCHITECTURE · CENTRAL FOCUS · 11. MISSION KARMAYOGI AND INSTITUTIONAL EI ARCHITECTURE · [1] MISSION KARMAYOGI PROVIDES THE INSTITUTIONAL SETTING FOR ROLE-BASED · [2] KCM ALIGNS ROLES WITH COMPETENCIES AND EMBEDS COMPETENCIES · [3] AI SARTHI AND AI TUTOR SHOWCASED AT INDIAAI · [4] IGOT-KARMAYOGI DELIVERS ROLE-BASED PERSONALISED MULTILINGUAL LEARNING. · [5] A NAMED EI MODULE IS NOT VERIFIED BY

CENTRAL FOCUS → 11. Mission Karmayogi and institutional EI architecture → [1] Mission Karmayogi provides the institutional setting for role-based learning. → [2] KCM aligns roles with competencies and embeds competencies in training (CBC). → [3] AI Sarthi and AI Tutor showcased at IndiaAI Impact Summit (16-20 Feb 2026).

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
CENTRAL FOCUS 11. Mission Karmayogi and institutional EI architecture [1] Mission Karmayogi provides the institutional setting for role-based learning. [2] KCM aligns roles with competencies and embeds competencies in training (CBC). [3] AI Sarthi and AI Tutor showcased at IndiaAI Impact Summit (16-20 Feb 2026).	[4] iGOT-Karmayogi delivers role-based personalised multilingual learning. [5] A named EI module is not verified by the cited official CBC pages. [6] Learning architecture demonstrates institutional design, not ethical internalisation. [7] Do not claim a general APAR linkage without a service-specific DoPT order. [8] Training must be supplemented by delegation protocols, rotation and citizen feedback.	VERDICT → Use Mission Karmayogi as a competency-architecture example, not proof of EI training or conduct. ANSWER USE → Clearly label any EI linkage as an analytical application unless a named module is verified. EVIDENCE / AUTHORITY / APPLICATION LIMIT: Use named administrative settings such as disaster relief, policing, grievance hearings and team conflict with an executable sequence recognise emotion, regulate response, verify facts, communicate reasons, act lawfully and provide review.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Use Mission Karmayogi as a competency-architecture example, not proof of EI training or conduct.

11

STAGE 11 PYQ DEMAND MAP AND ANSWER SYNTHESIS

PYQ DEMAND MAP AND ANSWER SYNTHESIS · CENTRAL FOCUS · 12. PYQ DEMAND MAP AND ANSWER SYNTHESIS · [1] 2013 Q4 · DEFINE EI, DEVELOPMENT, ROLE IN ETHICAL DECISIONS — USE · [2] 2019 Q5(B) · EI AS MAKING EMOTIONS WORK FOR YOU — USE · [3] 2020 Q2(B)

CENTRAL FOCUS → 12. PYQ demand map and answer synthesis → [1] 2013 Q4: define EI, development, role in ethical decisions — use definition plus mechanism. → [2] 2019 Q5(b): EI as making emotions work for you — use five-component administrative mapping. → [3] 2020 Q2(b): components and learnability — use ability/competency distinction.

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
CENTRAL FOCUS 12. PYQ demand map and answer synthesis [1] 2013 Q4: define EI, development, role in ethical decisions — use definition plus mechanism. [2] 2019 Q5(b): EI as making emotions work for you — use five-component administrative mapping.	[3] 2020 Q2(b): components and learnability — use ability/competency distinction. [4] 2021 Q4(b): EI and crisis of conscience — use self-awareness plus ethical framework. [5] 2022 Q1: wisdom/travesty plus empathy/compassion — use phronesis plus empathy-as-trigger. [6] 2023 Q4: EQ vs IQ plus moral intuition vs reasoning — use joint-necessity plus bridge model.	[7] 2025 Q2: DC Vijay case study — use four-branch decomposition plus institutional protocol. [8] Name the EI component precisely; show institutional mechanism; close with a qualified verdict. VERDICT → The highest-scoring answer moves from named model to specific component to example to institutional limit. ANSWER USE → Use as the revision checklist before any EI PYQ attempt.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → The highest-scoring answer moves from named model to specific component to example to institutional limit.

E

EXTRA SUBORDINATE ENRICHMENT — ONLY AFTER THE COMPLETE CORE

OPTIONAL ADVANCED ENRICHMENT · 1. ARCHITECTURE · 2. CONCEPTS AND DISTINCTIONS · 3. DETAILED TREATMENT · 4. INSTITUTIONAL AND POLICY APPLICATION · 5. INDIAN APPLICATIONS AND BOUNDARY CASES · 6. LIMITATIONS AND TRADE-OFFS · 7. MUST-KNOW FACTS FOR ADVANCED PRELIMS

OPTIONAL SOURCE DEPTH
- 1. Architecture
- 2. Concepts and distinctions
- 3. Detailed treatment
- 4. Institutional and policy application

ADVANCED DEBATE
- 5. Indian applications and boundary cases
- 6. Limitations and trade-offs
- 7. Must-Know Facts for Advanced Prelims
- 8. Advanced Prelims traps

LEGACY / NUANCE
- 9. Current application
- 10. PYQ-based analytical application
- 11. Mains-ready framework
- 12. Probable questions

OPTIONAL STATUS — This optional depth is unnecessary for a competent core answer; use it only for added nuance after the complete core has been written.
