00 — CRISIS AND THE PROJECT OF RIGOROUS PHENOMENOLOGY

STAGE 00

CRISIS: NATURALISM, HISTORICISM, SCEPTICISM | PHILOSOPHY AS RIGOROUS SCIENCE | RETURN TO MODES OF GIVENNESS | GROUND MEANING AND OBJECTIVITY | NOT VAGUE INTROSPECTION

SOURCE / DOCTRINE	ARGUMENT / MECHANISM	IMPLICATION / VERDICT
START — philosophy must ground meaning, truth and objectivity without borrowed assumptions.	PROJECT — philosophy as rigorous science answerable to evidence and structures of givenness.	UNITY → method + essences + anti-psychologism form one programme of objectivity.
NATURALISM — reduces reason and meaning to empirical natural or psychological processes.	PHENOMENOLOGY — disciplined description of how objects are given to consciousness.	LIMIT — complete presuppositionlessness remains a regulative aspiration.
HISTORICISM — makes truth relative to a worldview, culture or historical epoch.	MOTTO — to the things themselves: subject-matters as given, not merely physical things.	
SCEPTICISM — follows when objective validity cannot exceed contingent human facts.	NOT — vague introspection, private images, appearance-talk or empirical psychology.	

THE CRISIS

- Naturalism reduces reason and meaning to empirical processes.
- Historicism makes validity relative to an age or worldview.
- Scepticism follows when objectivity cannot exceed contingent facts.

THE METHODICAL ANSWER

- Return to subject-matters through their modes of givenness.
- Describe intentional structures instead of inventing a causal psychology.
- Demand evidence for every philosophical posit and distinction.

THE UNIFIED PROGRAMME

- Reduction opens the object-givenness correlation.
- Eidetic variation discloses invariant possibility-conditions.
- Anti-psychologism protects ideal validity and objective truth.

MECHANISM / VERDICT — Naturalism or historicism -> threatened validity -> return to givenness -> disciplined description -> structures of experience -> renewed claim to objective philosophy.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Husserl develops from descriptive anti-psychologism through transcendental constitution to late life-world themes; terminology must remain phase-specific.

01 — NATURAL ATTITUDE, PROFILES, HORIZONS AND OBJECT IDENTITY

STAGE 01

NATURAL ATTITUDE: WORLD SIMPLY THERE | PROFILES / ADUMBRATIONS | HORIZON OF FURTHER APPEARANCES | IDENTITY ACROSS CHANGING VIEWS | NOT STUPIDITY OR FALSE THEORY

NATURAL ATTITUDE → ordinary, useful and unexamined positing of world and objects as existing.

GENERAL THESIS → the world is simply there; it is operative before explicit belief. → NOT → stupidity, a false doctrine or a worked-out theory of naive realism. → PROFILE / ADUMBRATION → one perspectival presentation of a transcendent object.

SOURCE / DOCTRINE	ARGUMENT / MECHANISM	IMPLICATION / VERDICT
• NATURAL ATTITUDE — ordinary, useful and unexamined positing of world and objects as existing.	• TABLE — front, side, rear and new-light profiles are intended as one identical thing.	• PROBLEM — naive object-focus hides the correlation between object and givenness.
• GENERAL THESIS — the world is simply there; it is operative before explicit belief.	• HORIZON — absent sides, possible uses, contexts and further confirmable appearances.	• BRIDGE → epoché changes attitude toward the posit without abandoning the world.
• NOT — stupidity, a false doctrine or a worked-out theory of naive realism.	• SYNTHESIS — identification across changing profiles sustains object identity.	
• PROFILE / ADUMBRATION — one perspectival presentation of a transcendent object.	• TRANSCENDENT OBJECT — exceeds every finite presentation but is directly intended.	

MECHANISM / VERDICT — World silently posited -> object given through one profile -> absent sides co-intended within a horizon -> syntheses sustain identity across changing appearances.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Suspension withholds the existence-posit; phenomenological reduction redirects to givenness without denying the world or doing introspective psychology.

02 — EPOCHÉ AND THE THREE REDUCTIONS

STAGE 02

EPOCHÉ SUSPENDS EXISTENTIAL POSIT | DOUBT != SUSPENSION != DENIAL | PHENOMENOLOGICAL / TRANSCENDENTAL / EIDETIC | WORLD RETURNS AS MEANINGFUL | REDUCTION != INTROSPECTION

EPOCHÉ → suspend the natural attitude's existential posit for phenomenological inquiry. → NOT DENIAL → no claim that the world is unreal, destroyed or only mental. → NOT DOUBT → Cartesian doubt questions existence; Husserl neutralises the commitment. → PHENOMENOLOGICAL REDUCTION → shift from object alone to object-givenness correlation. → TRANSCENDENTAL REDUCTION → disclose the non-empirical field of sense-constitution.

SOURCE / DOCTRINE	ARGUMENT / MECHANISM	IMPLICATION / VERDICT
• EPOCHÉ — suspend the natural attitude's existential posit for phenomenological inquiry.	• TRANSCENDENTAL REDUCTION — disclose the non-empirical field of sense-constitution.	• OBJECTION — circularity, infeasibility, world-denial and transcendental idealism.
• NOT DENIAL — no claim that the world is unreal, destroyed or only mental.	• EIDETIC REDUCTION — move from factual instance to invariant possibility-condition.	• VERDICT — powerful change of attitude; complete execution remains contestable.
• NOT DOUBT — Cartesian doubt questions existence; Husserl neutralises the commitment.	• NOT INTROSPECTION — empirical self-observation remains a worldly psychology.	
• PHENOMENOLOGICAL REDUCTION — shift from object alone to object-givenness correlation.	• RETURN — the same world is recovered as intended, meaningful and confirmable.	

MECHANISM / VERDICT — Intentionality is directedness; noesis/noema is "ideas I" vocabulary and the noema is not a private image or guaranteed existent.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Epoché suspends the world's existential posit rather than the world itself, and reduction redirects inquiry to the object-givenness correlation instead of retreating into a private mind.

03 — INTENTIONALITY, FULFILMENT, TRANSCENDENCE AND HORIZON

STAGE 03

CONSCIOUSNESS IS OF SOMETHING | DIRECTEDNESS != PURPOSE | EMPTY INTENTION -> FULFILMENT | EVIDENCE THROUGH CONFIRMABLE GIVENNESS | HALLUCINATION CAN BE INTENTIONAL

INTENTIONALITY → consciousness is consciousness of something: directedness, not purpose.

ACT / OBJECT → perceiving, remembering, imagining and judging each intend an object. → EMPTY OR SIGNITIVE INTENTION → meaning without intuitive presence of the object. → INTUITIVE FULFILMENT → givenness confirms, enriches or disappoints what was meant.

SOURCE / DOCTRINE	ARGUMENT / MECHANISM	IMPLICATION / VERDICT
• INTENTIONALITY → consciousness is consciousness of something; directedness, not purpose.	• IMMANENT → experience as lived in the stream; not a private object inside the mind.	• HORIZON → possible further views, corrections, uses and intersubjective confirmations.
• ACT / OBJECT → perceiving, remembering, imagining and judging each intend an object.	• TRANSCENDENT → physical object exceeds every profile and remains horizonally open.	• LIMIT → phenomenology describes evidence but is not a full causal reliability theory.
• EMPTY OR SIGNITIVE INTENTION → meaning without intuitive presence of the object.	• HALLUCINATION → genuinely intentional though no corresponding physical object exists.	
• INTUITIVE FULFILMENT → givenness confirms, enriches or disappoints what was meant.	• EVIDENCE → concordant fulfilment differs from mere directedness or felt certainty.	

MECHANISM / VERDICT — Act intends object -> object may be emptily meant -> intuition presents a confirming or disconfirming profile -> syntheses modifies evidence within an open horizon.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Profiles, horizons and temporal synthesis identify one object through partial givenness; intuitive fulfilment/evidence is dynamic and graded.

04 — NOESIS, NOEMA, CONSTITUTION, EVIDENCE AND TRUTH

STAGE 04

NOESIS: ACT / NOEMA: OBJECT-AS-INTENDED | NOEMA != PRIVATE PICTURE | SYNTHESIS OF PROFILES AND HORIZONS | CONSTITUTED OBJECTIVITY | CONSTITUTION != CAUSAL CREATION

SOURCE / DOCTRINE	ARGUMENT / MECHANISM	IMPLICATION / VERDICT
NOESIS — intentional act or process: perceiving, judging, remembering, valuing.	CONSTITUTION — synthesis and disclosure of stable sense and objectivity.	TRUTH — validity not reducible to a subject's current feeling of evidence.
NOEMA — object-as-intended or noematic sense within the intentional correlation.	NOT CREATION — the mind does not causally manufacture physical objects.	LIMIT — noema interpretation and transcendental idealism remain disputed.
NOT PRIVATE PICTURE — noema does not block access to a worldly object.	SYNTHESIS — profiles, retention, fulfilment and horizon yield one identifiable object.	
NOEMA QUALIFICATION — not simply the physical object without its mode of givenness.	EVIDENCE — fulfilled givenness that justifies a judgment.	

SOURCE / DOCTRINE

- NOESIS — intentional act or process: perceiving, judging, remembering, valuing.
- NOEMA — object-as-intended or noematic sense within the intentional correlation.
- NOT PRIVATE PICTURE — noema does not block access to a worldly object.
- NOEMA QUALIFICATION — not simply the physical object without its mode of givenness.

ARGUMENT / MECHANISM

- CONSTITUTION — synthesis and disclosure of stable sense and objectivity.
- NOT CREATION — the mind does not causally manufacture physical objects.
- SYNTHESIS — profiles, retention, fulfilment and horizon yield one identifiable object.
- EVIDENCE — fulfilled givenness that justifies a judgment.

IMPLICATION / VERDICT

- TRUTH — validity not reducible to a subject's current feeling of evidence.
- LIMIT — noema interpretation and transcendental idealism remain disputed.

MECHANISM / VERDICT — Noetic act -> noematic object-sense -> changing profiles and fulfilments -> syntheses of identification -> constituted objectivity open to truth and correction.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Eidetic variation discloses invariants without induction or separated Forms; framework and counter-variation constrain the claim.

05 — TEMPORAL SYNTHESIS AND THE LIVING PRESENT

STAGE 05

RETENTION / PRIMAL IMPRESSION / PROTENTION | RETENTION != RECOLLECTION | PASSIVE TEMPORAL SYNTHESIS | MELODY AND IDENTITY ACROSS PHASES | SELF-CONSTITUTING FLOW REMAINS A LIMIT

PROBLEM → isolated now-points could never be heard as one melody or meaningful sentence. → PRIMAL IMPRESSION → the now-phase or source-point of the temporal object. → RETENTION → just-past still held within present perception; primary memory. → PROTENTION → open anticipation of the just-coming, fulfilled or disappointed. → LIVING PRESENT → retention + primal impression + protention as one structured field.

SOURCE / DOCTRINE	ARGUMENT / MECHANISM	IMPLICATION / VERDICT
• PROBLEM — isolated now-points could never be heard as one melody or meaningful sentence.	• LIVING PRESENT → retention + primal impression + protention as one structured field.	• PAYOFF → identity, habituality, sedimentation and non-atomistic experience.
• PRIMAL IMPRESSION — the now-phase or source-point of the temporal object.	• RETENTION != RECOLLECTION — present perception versus a fresh re-presentation.	• LIMIT — self-constituting absolute flow may stop regress only by stipulation.
• RETENTION — just-past still held within present perception; primary memory.	• PASSIVE SYNTHESIS — temporal unity and identification before explicit judgment.	
• PROTENTION — open anticipation of the just-coming, fulfilled or disappointed.	• ACTIVE SYNTHESIS — deliberate identification, predication and confirmation.	

MECHANISM / VERDICT — Anti-psychologism separates ideal validity/content from empirical acts and causal genesis; transcendental constitution is not fabrication.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Temporal synthesis shows that object identity is constituted in a living present whose retentions and protentions make succession experienced rather than merely inferred.

06 — EIDETIC SCIENCE AND FREE IMAGINATIVE VARIATION

STAGE 06

FACTUAL SCIENCE != EIDETIC SCIENCE | FREE IMAGINATIVE VARIATION | COUNTER-VARIATION TEST | INVARIANT ESSENCE / A PRIORI CONDITION | NOT AVERAGE, DEFINITION OR SEPARATE FORM

SYSTEM / DOCTRINE	DECISIVE DISTINCTION	EVALUATION / TRAP
EIDOS / ESSENCE — invariant structure or possibility-condition of a phenomenon's kind.	TRIANGLE — colour, size and orientation vary; three-sidedness cannot be removed.	OBJECTIONS — cultural bias, selection bias, hidden concepts and limited imagination.
FACTUAL SCIENCE — actual individuals, causal regularities and contingent truths.	PROMISE — wording may vary; an undertaking answerable to another remains essential.	REPLY / LIMIT — counter-variation and criticism help; exhaustiveness is never guaranteed.
EIDETIC SCIENCE — possible instances, invariants and a priori necessary structures.	PERCEPTION — contents vary; perspectival and horizon- structured givenness remains.	
METHOD — choose case -> vary features -> test kind-change -> isolate invariant.	NOT — inductive average, dictionary definition, mysticism or separate Platonic realm.	

SYSTEM / DOCTRINE

- EIDOS / ESSENCE → invariant structure or possibility-condition of a phenomenon's kind.
- FACTUAL SCIENCE → actual individuals, causal regularities and contingent truths.
- EIDETIC SCIENCE → possible instances, invariants and a priori necessary structures.
- METHOD → choose case → vary features → test kind-change → isolate invariant.

DECISIVE DISTINCTION

- TRIANGLE → colour, size and orientation vary; three-sidedness cannot be removed.
- PROMISE → wording may vary; an undertaking answerable to another remains essential.
- PERCEPTION → contents vary; perspectival and horizon-structured givenness remains.
- NOT → inductive average, dictionary definition, mysticism or separate Platonic realm.

EVALUATION / TRAP

- OBJECTIONS → cultural bias, selection bias, hidden concepts and limited imagination.
- REPLY / LIMIT → counter-variation and criticism help; exhaustiveness is never guaranteed.

MECHANISM / VERDICT — Choose example -> freely vary contingent features -> test when kind changes -> isolate invariant -> formulate universal possibility-condition -> seek intersubjective confirmation.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Transcendental subjectivity differs from Cartesian substance and Kantian formal apperception without becoming a transparent private mental thing.

07 — TRANSCENDENTAL SUBJECTIVITY, WORLD-RETURN AND LIFEWORLD

STAGE 07

TRANSCENDENTAL FIELD != EMPIRICAL PSYCHE | WORLD RETURN AND LIFEWORLD | SCIENCE PRESUPPOSES EXPERIENCE | CRITIQUE OF OBJECTIVISM | IDEALISM OBJECTION REMAINS

SOURCE / DOCTRINE	ARGUMENT / MECHANISM	IMPLICATION / VERDICT
• EMPIRICAL PSYCHE — psychophysical person within the world and studied causally.	• TRANSCENDENTAL IDEALISM → being-for-us is tied to conditions of givenness.	• REPLY → late history, body, sedimentation and intersubjectivity internalise worldliness.
• DESCARTES → thinking substance that must recover a doubted external world.	• LIFEWORLD → pre-theoretical, practical and shared ground of experience.	• LIMIT → expansion may reveal instability in the purified transcendental starting point.
• TRANSCENDENTAL SUBJECTIVITY → field for which world, self and validity have sense.	• SCIENCE → idealises the lifeworld through measurement and mathematical abstraction.	
• WORLD RETURN → bracketed world reappears as intended horizon, not a mental fabrication.	• CRISIS → objectivism forgets the experiential source of scientific meaning.	

MECHANISM / VERDICT — Reduction -> empirical person bracketed -> transcendental field disclosed -> acts and horizons constitute sense -> sciences traced back to lifeworld evidence.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Lived body, pairing, empathy and appresentation constitute the sense of an other perspective; ownness–first circularity remains.

08 — PSYCHOLOGISM, IDEAL MEANING AND TRANSCENDENTAL BRIDGE

STAGE 08

PSYCHOLOGISM REDUCES VALIDITY TO FACT | LOGICAL LAW != PSYCHOLOGICAL LAW | ACT / CONTENT / TRUTH / EVIDENCE | IDEAL MEANING AND OBJECTIVITY | THINKING IS PSYCHOLOGICAL; VALIDITY IS NOT

SYSTEM / DOCTRINE	DECISIVE DISTINCTION	EVALUATION / TRAP
PSYCHOLOGISM — reduces logical laws, meanings, number or validity to mental facts.	ACT OF JUDGING — real event; CONTENT / PROPOSITION — ideal meaning.	BRIDGE — phenomenology explains how finite acts grasp ideal meanings.
DESCRIPTIVE PSYCHOLOGY — legitimately studies real acts without grounding validity.	TRUTH — validity of content; EVIDENCE — fulfilled givenness justifying assent.	LIMIT — transcendental constitution avoids psychology but invites idealism.
LOGICAL LAW — ideal, normative, necessary, universal and a ground of correctness.	CONSEQUENCE — psychologism cannot explain error and tends to relativism or scepticism.	
PSYCHOLOGICAL LAW — empirical, causal, contingent and species-dependent.	SELF-PRESSURE — its reasoning claims more validity than its theory permits.	

SYSTEM / DOCTRINE

- PSYCHOLOGISM → reduces logical laws, meanings, number or validity to mental facts.
- DESCRIPTIVE PSYCHOLOGY → legitimately studies real acts without grounding validity.
- LOGICAL LAW → ideal, normative, necessary, universal and a ground of correctness.
- PSYCHOLOGICAL LAW → empirical, causal, contingent and species-dependent.

DECISIVE DISTINCTION

- ACT OF JUDGING → real event; CONTENT / PROPOSITION → ideal meaning.
- TRUTH → validity of content; EVIDENCE → fulfilled givenness justifying assent.
- CONSEQUENCE → psychologism cannot explain error and tends to relativism or scepticism.
- SELF-PRESSURE → its reasoning claims more validity than its theory permits.

EVALUATION / TRAP

- BRIDGE → phenomenology explains how finite acts grasp ideal meanings.
- LIMIT → transcendental constitution avoids psychology but invites idealism.

MECHANISM / VERDICT — Psychologism confuses acts with ideal contents and causal conditions with grounds of validity; the transcendental turn faces a reflexive objection.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Husserl defeats psychologism by separating real acts from ideal meanings and validity, then turns to transcendental phenomenology to explain how objective sense can be given.

09 — INTERSUBJECTIVITY, EVALUATION, LEGACY AND ANSWER SPINE

STAGE 09

PAIRING + APPRESENTATION + ALTER EGO | PUBLIC OBJECTIVITY: VALID FOR ANYONE | CRITICISM / REPLY / RESIDUAL LIMIT | INTENTIONALITY'S PHENOMENOLOGICAL LEGACY | SOLIPSISM DEFEATED MORE AS DOCTRINE

INTERSUBJECTIVITY → condition for a world valid for subjects other than myself. → PAIRING → passive association between my lived body and another expressive body. → APPRESENTATION → other's stream co-intended but never originally presented to me. → NOT INFERENCE → analogising transfer of sense, not deduction from behaviour. → ALTER EGO → another centre with a here that is there from my viewpoint.

SOURCE / DOCTRINE	ARGUMENT / MECHANISM	IMPLICATION / VERDICT
• INTERSUBJECTIVITY — condition for a world valid for subjects other than myself.	• ALTER EGO → another centre with a here that is there from my viewpoint.	• ANSWER SPINE → project → method → correlation → essence → validity → critique.
• PAIRING — passive association between my lived body and another expressive body.	• PUBLIC OBJECTIVITY → potentially shareable and correctable validity for anyone.	• VERDICT → descriptive precision and anti-reductionism with unresolved subject-priority.
• APPRESENTATION — other's stream co-intended but never originally presented to me.	• CRITICISMS → circularity, solipsism, idealism, body, language, history and noema.	
• NOT INFERENCE — analogising transfer of sense, not deduction from behaviour.	• LEGACY → Heidegger and Merleau-Ponty inherit intentionality while revising reduction.	

MECHANISM / VERDICT — Own lived body -> pairing with another expressive body -> appresentation of alter ego -> mutual horizons -> one world valid for anyone -> public objectivity.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Time-consciousness, life-world, sedimentation and existential heirs are bounded depth; the printed method/essence/psychologism core remains primary.

E — SUBORDINATE ENRICHMENT — ONLY AFTER THE COMPLETE CORE

EXTRA

OPTIONAL ADVANCED ENRICHMENT | ADVANCED SESSION 1 — THE PROGRAMME - PRESUPPOSITIONLESS RIGOROUS | ADVANCED SESSION 2 — THE NATURAL ATTITUDE AND ITS | ADVANCED SESSION 3 — EPOCHE, BRACKETING AND THE REDUCTION | ADVANCED SESSION 4 — INTENTIONALITY - CONSCIOUSNESS OF SOMETHING | ADVANCED SESSION 5 — HYLE AND MORPHE - NON-INTENTIONAL | ADVANCED SESSION 6 — INNER TIME-CONSCIOUSNESS - RETENTION, PRIMAL | ADVANCED SESSION 7 — ESSENCES - EIDETIC REDUCTION, FREE

OPTIONAL SOURCE WITNESS	ADVANCED OBJECTION	COMPARATIVE NUANCE
• ADVANCED SESSION 1 — The Programme - Presuppositionless Rigorous Science, 'To the Things Themselves' and the One-Screen Map	• ADVANCED SESSION 5 — Hyle and Morphe - Non-Intentional Sense-Matter, Animation, and the Anti-Sense-Datum Argument	• ADVANCED SESSION 9 — Avoidance of Psychologism - Four Prolegomena Arguments, Frege, Ideal Objectivity and the Transcendental-Turn Charge
• ADVANCED SESSION 2 — The Natural Attitude and Its General Thesis - Why the World Must Be Bracketed, Not Denied	• ADVANCED SESSION 6 — Inner Time-Consciousness - Retention, Primal Impression, Protention and the Absolute Flow	• ADVANCED SESSION 10 — Intersubjectivity - The Fifth Cartesian Meditation, Pairing, Appresentation and the Answer to Solipsism
• ADVANCED SESSION 3 — Epoche, Bracketing and the Reduction - Suspension (Not Doubt), the Residue and Why It Matters	• ADVANCED SESSION 7 — Essences - Eidetic Reduction, Free Imaginative Variation, and the Continuity of Consciousness and Being	• ADVANCED DOSSIER REFINEMENTS — USE SELECTIVELY
• ADVANCED SESSION 4 — Intentionality - Consciousness Of Something, Noesis-Noema, and Why Hallucination Is a Genuine Act	• ADVANCED SESSION 8 — The Transcendental Ego and the Lebenswelt - Constituting Field vs Res Cogitans, and the Crisis of the Sciences	• Presuppositionless does not mean "with no beliefs"

OPTIONAL STATUS — This optional depth is unnecessary for a competent core answer; use it only for added nuance after the complete core has been written.

END OF MASTER CANVAS • poster embeds this exact master • tiled pages are overlapping crops of the same pixels
