

REASON, REVELATION AND FAITH

THREE-TERM CONTROL → FOUR RELATION MODELS → REVELATION TYPES AND TESTS → AQUINAS AND NATURAL THEOLOGY → KIERKEGAARD, FIDEISM AND FAITH → SCIENCE, MIRACLE AND TESTIMONY

Read the thick cyan rail from Stage 00 to the final core synthesis. Each card uses a concept-appropriate structure; the grey E card is optional enrichment only and never repairs missing core content.

PRIMARY CORE FLOW SUBORDINATE EXTRA APPROVAL / REVIEW

Approval: FALSE • Pending user review • source generation g11 repaired in place; prior artifacts unchanged outside the scoped current generation

CORE BEFORE EXTRA • prior artefacts unchanged • exact same master drives poster and tiles

- capacity to disclose rather than merely confirm desire circularity problem: scripture authenticates God while God authenticates scripture.

STAGE 03 AQUINAS AND NATURAL THEOLOGY

IMPORTED METAPHYSICS MAY DOMESTICATE REVELATION REPLY

- ONE TRUTH, TWO ROUTES truths accessible to reason: that God exists, some attributes, natural law mysteries above reason: Trinity, Incarnation
- not contrary to reason grace perfects nature

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Aquinas allows reason to establish preambles of faith while revelation supplies mysteries that exceed, but should not contradict, reason.

STAGE 04 KIERKEGAARD, FIDEISM AND FAITH

PROPOSITIONAL ASSENT

- reply: authentic faith entails inward risk, responsibility and transformation, not arbitrary immunity from criticism.
- OBJECTIVE UNCERTAINTY + INFINITE PERSONAL CONCERN → SUBJECTIVE APPROPRIATION

STAGE 05 SCIENCE, MIRACLE AND TESTIMONY

ASSESS SPECIFIC EVENT, INDEPENDENT WITNESSES, BACKGROUND PROBABILITY AND DIVINE

SCIENCE asks repeatable natural mechanism

- TESTIMONY is indispensable but defeasible; miracle cannot be inferred merely from anomaly.
- SCIENCE asks repeatable natural mechanism

STAGE 06 JUSTIFICATION AND INDIAN PARITY

INDIAN PARITY ÉRTÉLT/ÁRDA, ÁS TESTIMONY

06

SYSTEM / DOCTRINE

- SCIENCE asks repeatable natural mechanism
- religion may ask ground, value and destiny conflict arises when sacred interpretation makes empirical claims or scientism makes total claims

DECISIVE DISTINCTION

- HUME ON MIRACLES: proportion belief to evidence; false testimony is usually more probable than violation of uniform experience
- REPLIES: assess specific event, independent witnesses, background probability and divine context

EVALUATION / TRAP

- TESTIMONY is indispensable but defeasible; miracle cannot be inferred merely from anomaly.
- SCIENCE asks repeatable natural mechanism

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Scientific and religious claims may differ in scope, but miracle and testimony claims still enter ordinary evidential assessment.

06

STAGE 06

JUSTIFICATION AND INDIAN PARITY

JUSTIFICATION AND INDIAN PARITY

BELIEF SHOULD MATCH PUBLICLY AVAILABLE EVIDENCE

REFORMED EPISTEMOLOGY

BELIEF IN GOD MAY BE PROPERLY BASIC UNLESS DEFEATED

WITTGENSTEINIAN VIEW

FAITH HAS GRAMMAR WITHIN A FORM OF LIFE

INDIAN PARITY ŚRUTI/ŚABDA AS TESTIMONY

YUKTI AS REASONING

SYSTEM / DOCTRINE	DECISIVE DISTINCTION	EVALUATION / TRAP
EVIDENTIALISM: belief should match publicly available evidence	yukti as reasoning	Nyāya: āpta testimony is a pramāṇa but must be semantically and causally trustworthy
REFORMED EPISTEMOLOGY: belief in God may be properly basic unless defeated	anubhava as realisation	Mīmāṃsā: authorless Veda avoids dependence on a divine speaker.
WITTGENSTEINIAN VIEW: faith has grammar within a form of life	Advaita: scripture initiates inquiry; reasoning removes contradiction	
INDIAN PARITY śruti/śabda as testimony	knowledge culminates in direct realisation	

SYSTEM / DOCTRINE

- EVIDENTIALISM: belief should match publicly available evidence
- REFORMED EPISTEMOLOGY: belief in God may be properly basic unless defeated
- WITTGENSTEINIAN VIEW: faith has grammar within a form of life
- INDIAN PARITY śruti/śabda as testimony

DECISIVE DISTINCTION

- yukti as reasoning
- anubhava as realisation
- Advaita: scripture initiates inquiry; reasoning removes contradiction
- knowledge culminates in direct realisation

EVALUATION / TRAP

- Nyāya: āpta testimony is a pramāṇa but must be semantically and causally trustworthy
- Mīmāṃsā: authorless Veda avoids dependence on a divine speaker.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Religious belief may be inferentially warranted, properly basic or testimony-based, yet every model remains open to defeaters.

07

STAGE 07

PYQ ANSWER SYNTHESIS

PYQ ANSWER SYNTHESIS

DEFINE ALL THREE TERMS

SELECT CONFLICT/INDEPENDENCE/DIALOGUE/INTEGRATION MODEL

DISTINGUISH REVELATION TYPE

NAMED THINKER

STRONGEST OBJECTION AND REPLY

INDIAN ŚRUTI-YUKTI-ANUBHAVA COMPARISON

PRACTICAL AND PUBLIC IMPLICATIONS AVOID “FAITH VERSUS REASON” AS

DEFINE all three terms → select conflict/independence/dialogue/integration model

distinguish revelation type → named thinker → strongest objection and reply

Indian śruti-yukti-anubhava comparison → practical and public implications avoid “faith versus reason” as a slogan

is contrary, above or supported by reason

QUALIFIED VERDICT: faith needs neither reduction to proof nor exemption from criticism

SOURCE / DOCTRINE

- DEFINE all three terms → select conflict/independence/dialogue/integration model
- distinguish revelation type → named thinker → strongest objection and reply

ARGUMENT / MECHANISM

- Indian śruti-yukti-anubhava comparison → practical and public implications avoid “faith versus reason” as a slogan: ask whether faith
- is contrary, above or supported by reason

IMPLICATION / VERDICT

- QUALIFIED VERDICT: faith needs neither reduction to proof nor exemption from criticism
- rationally responsible faith is interpretive trust answerable to coherence, evidence and moral fruit.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Faith should be neither reduced to proof nor protected from criticism; it is responsible commitment under incomplete evidence.

E

EXTRA

SUBORDINATE ENRICHMENT — ONLY AFTER THE COMPLETE CORE

OPTIONAL ADVANCED ENRICHMENT

ADVANCED-DOSSIER RECONCILIATION — [OPTIONAL ADVANCED]

DOCTRINE STATEMENT. REASON CAN INFER AND TEST SOME RELIGIOUS

IT IDENTIFIES PUBLICLY ACCESSIBLE PREMISES, DERIVES IMPLICATIONS, TESTS COHERENCE

PRESUPPOSITION. CAUTION

REALITY IS INTELLIGIBLE AND REASON IS NOT WHOLLY CORRUPTED

NATURAL THEOLOGY DIFFERS FROM PHILOSOPHY OF RELIGION

THE FORMER ARGUES TOWARD THEOLOGICAL CONCLUSIONS

OPTIONAL SOURCE WITNESS

- Advanced-dossier reconciliation — [OPTIONAL ADVANCED]
- Doctrine statement. Reason can infer and test some religious claims without relying on a special historical disclosure.
- Argument.
- It identifies publicly accessible premises, derives implications, tests coherence, and distinguishes demonstration, probability and practical postulation.

ADVANCED OBJECTION

- Presupposition. CAUTION: Reality is intelligible and reason is not wholly corrupted or confined to empirical objects.
- Distinction.
- Natural theology differs from philosophy of religion: the former argues toward theological conclusions
- the latter also analyses language, experience and warrant.

COMPARATIVE NUANCE

- Canonical examples. Aquinas' preambles of faith; Nyāya inference to Īśvara.
- Objection → reply.
- CAUTION: Kant restricts speculative reason beyond possible experience.
- Natural theologians reply that metaphysical inference concerns conditions of experience, not another observed object.

OPTIONAL STATUS — This optional depth is unnecessary for a competent core answer; use it only for added nuance after the complete core has been written.
