

ASCII MASTER FLOW – PANEL 1/10: 1. Official boundary and the two-axis control

IDENTITY -> learner-v2:g12 | generated 2026-08-27 | approval FALSE
OFFICIAL CLAUSE -> analogical and symbolic; cognitivist and non-cognitive
|
+--> HOW DOES A PREDICATE REFER?
| univocal | analogical | symbolic | negative | indicative
|
+--> DOES THE UTTERANCE STATE A TRUTH?
 cognitive | mixed | moral-conative | blik | use | meaningless
CONTROL -> "God is good" may be ANALOGICAL and COGNITIVE at once.
Never infer truth-status from semantic mode or semantic mode from use.

ASCII MASTER FLOW – PANEL 2/10: 2. Aquinas and Scotus: continuity without collapse

AQUINAS -> pure perfection exists in God ESSENTIALLY AND EMINENTLY
res significata = perfection signified applies truly to God
modus significandi = creature-derived manner remains inadequate
Aquinas REJECTS: "God is good" merely means God causes goodness
later Thomist/Cajetan: attribution and proportionality systematisation
|
SCOTUS -> semantic, NOT ontological, univocity secures valid inference
one common concept; FINITE / INFINITE INTRINSIC MODES preserve the gulf
TRADE-OFF -> univocity risks anthropomorphism; analogy risks indeterminacy.

ASCII MASTER FLOW – PANEL 3/10: 3. Tillich: symbol, participation and distortion

SIGN -> conventional pointer, replaceable, does not participate

SYMBOL -> points + PARTICIPATES + opens reality/self + transforms
arises collectively + may grow and die

|

GOD -> not one being; symbolically disclosed as BEING-ITSELF

DISPUTED LIMIT -> Tillich's proposed non-symbolic anchor was modified

FAILURE 1 -> finite bearer claims ultimacy = IDOLATRY / DEMONIC distortion

FAILURE 2 -> unconstrained participation = vague or circular reference

VERDICT -> symbolic realism needs participation and referential discipline.

ASCII MASTER FLOW – PANEL 4/10: 4. Verification, falsification and the cognitive spectrum

COGNITIVE REALISM -> claims may be true or false; analogy can qualify mode

AYER -> unverifiable theology is literally meaningless

FLEW -> what could count against it? death by a thousand qualifications

HARE -> blik: non-factual world-orientation can still govern life

MITCHELL -> partisan: truth-apt DEFEASIBLE TRUST admits adverse evidence

HICK -> eschatological verification: confirmable at the journey's end

BRAITHWAITE -> moral commitment; constructive, not Ayer's elimination

CONTROL -> unverifiability is not automatically a formal contradiction.

ASCII MASTER FLOW – PANEL 5/10: 5. Braithwaite and qualified Wittgensteinian use

BRAITHWAITE -> "God is love" avows an AGAPEISTIC MORAL POLICY

stories sustain intention; strength = conduct; risk = reductionism

WITTGENSTEIN'S LECTURES -> Last Judgement differs from ordinary prediction

LATER WITTGENSTEINIANS -> language-game, grammar and form of life

D. Z. PHILLIPS -> resisted reductionist/simple non-cognitivist labels

OBJECTION -> internal grammar can become fideistic insulation

REPLY -> use explains intelligibility, not automatic truth or immunity

VERDICT -> practical force may supplement rather than erase assertion.

ASCII MASTER FLOW – PANEL 6/10: 6. Speech acts, Ramsey and Mimamsa

AUSTIN -> locutionary content | illocutionary force | perlocutionary effect

EVANS -> SELF-INVOLVING language commits speaker and constitutes relation

RAMSEY -> ordinary MODEL + QUALIFIER -> disclosure situation

MIMAMSA -> VIDHI has priority in disclosing DHARMA; not all sastra is
grammatically imperative; MANTRA functions as ritual instrument
sabda-nityatva = eternity of word/sound and word-meaning relation

GRAMMARIANS -> classical SPHOTA (sentence-whole disclosure), especially Bhartrhari

CONTROL -> performative force does not by itself cancel cognitive content.

ASCII MASTER FLOW – PANEL 7/10: 7. Advaita: negation, indication and sublation

BRAHMAN -> SAT, but NON-OBJECTIFIABLE; words turn back

MAYA / WORLD-APPEARANCE -> ANIRVACANIYA: neither absolutely real nor unreal

|

NETI NETI (not this, not this) -> ELIMINATIVE removal of finite limits

LAKSANA (indirect indication) -> retain intended import when literal sense fails

BHAGA-TYAGA -> discard incompatible connotations in "tat tvam asi"

SUBLATION -> teaching language removes error like a thorn, then is cancelled

TRAP -> never call Brahman neither real nor unreal in maya's technical sense.

ASCII MASTER FLOW – PANEL 8/10: 8. From symbol toward mysticism: mechanism and counter-case

AFFIRMATIVE ROUTE

symbol participates -> draws practitioner in -> becomes transparent

-> SELF-EFFACEMENT -> possible IMMEDIACY beyond mediation

OMKARA: A-U-M -> waking/dream/deep sleep -> soundless AMATRA / TURIYA

|

COUNTER-CASE

idolatry arrests | KATZ: symbols constitute experience | iconoclasm deletes

ethics, inquiry and grace show NON-NECESSITY; no symbol guarantees mysticism

VERDICT -> normal and powerful route, but neither necessary nor sufficient.

ASCII MASTER FLOW – PANEL 9/10: 9. Fourteen verified PYQ demand routes

2018 Q5(a) secular/religious use | Q7(b) Braithwaite | Q8(c) symbol mediation
2019 Q6(a) whether AND how symbol leads to mysticism
2020 Q8(a) cognitive content in detail
2021 Q8(a) Braithwaite non-cognitive | Q8(c) Tillich symbolism
2022 Q5(e) "God exists": cognitive versus non-cognitive
2023 Q5(d) qualified Wittgenstein | Q7(c) Tillich
2024 Q5(e) analogy | Q8(a) cognitive/non-cognitive plus contradiction 10+10
2025 Q5(b) symbolic? reasons | Q8(c) Advaitic anirvacaniyata
CONTROL -> obey directive, printed marks split and answer-specific mechanism.

ASCII MASTER FLOW – PANEL 10/10: 10. Executable answer spine, traps and qualified conclusion

OPEN -> define the exact demand and separate HOW from WHETHER

MAP -> doctrine with named mechanism, not a thinker list

EVIDENCE -> one canonical example or text locus

TEST -> strongest objection at the point where it bites

REPLY -> preserve the theory's gain without denying its cost

COMPARE -> Indian/Western only as qualified structural comparison

TRAPS -> cause-only Aquinas | settled Wittgenstein | Mimamsa=sphota

CLOSE -> intelligible reference + apophatic humility + critical vulnerability

FORMULA -> qualified mixed realism, not literalism and not disguised silence.
