

```

[1] NAME + TIME + METHOD
Harappan/Indus civilisation = Bronze Age archaeological civilisation
Early c. 3300-2600 BCE -> Mature c. 2600-1900 BCE -> Late c. 1900-1300 BCE
regionalisation          integration          localisation
CAUTION: dates vary by site; phases are processes, not sealed peoples.
|
v

[2] DISCOVERY + EVIDENCE CONTROL
Cunningham seal (1853) -> Sahni at Harappa (1921) -> Banerji at Mohenjo-daro
-> Marshall's announcement -> later household/landscape/scientific archaeology
script undeciphered -> strong claims: building/craft/diet/exchange
                        -> weak claims: named rulers/language/doctrine/law
|
v

[3] GEOGRAPHICAL SYSTEM
west Sutkagen-dor | north Manda | east Alamgirpur | south Malvan
Indus core + Ghaggar-Hakra/Haryana-Rajasthan + Kutch/Gujarat + Shortugai outpost
Ghaggar-Hakra palaeochannel != automatically the textual Sarasvati.
|
v

[4] SETTLEMENT AND LABOUR HIERARCHY
farms/herds/resource zones -> villages -> craft/route centres -> towns -> cities
food + labour + copper/stone/shell/timber -> workshops/public works/consumption
urbanism depended on rural production; labour status is not directly known.
|
v

[5] SITE-FEATURE PRECISION
Harappa: Ravi, R-37, working platforms, 12-unit 'granary' caution
Mohenjo-daro: Great Bath, wells/drains, bronze Dancing Girl, 'Priest-King' caution
Dholavira: Khadir, stone, multi-sector plan, reservoirs, signboard
Rakhigarhi: Haryana, large inland complex, craft/cemetery; one-genome limit
Kalibangan: ploughed field, fire installations; not automatic Vedic ritual
Lothal: bead/copper craft, brick basin; 'dockyard' qualified
Banawali: sequence, moat/fortification, plough model, seals/weights
Chanhudaro: unfortified craft town | Surkotada: disputed equid
Shortugai: Afghanistan procurement node, not automatic imperial province
|
v

[6] BUILT FORM + WATER
shared brick/street/courtyard norms + regional materials/layouts
well/reservoir -> bathing floor -> house drain -> street drain/soak/inspection
Dholavira water storage != Mohenjo-daro well-drain emphasis
coordination and maintenance secure; political office unknown.
|
v

[7] SUBSISTENCE + PRODUCTION
wheat/barley + regional millets/rice + pulses/oilseeds + cotton
cattle/sheep/goat/buffalo/pig + fish/wild resources; horse rare/disputed
beads + shell + faience + pottery + textiles + copper/bronze metallurgy
BRONZE AGE: no iron-centred technology, no minted coinage.
|
v

[8] MEASUREMENT + INTERNAL/EXTERNAL EXCHANGE
graded weights + scales + seals + transport -> comparable production/exchange
internal: food, fibre, metals, stone, shell, timber and finished goods

```

external: Meluhha -> Indus-related eastern sphere; Dilmun/Magan -> Gulf links
contact secure; route, volume, colony and state control remain qualified.

|
v

[9] SCRIPT + AUTHORITY

short inscriptions; many right-to-left; several hundred signs; undeciphered
standardisation/public works -> strong coordination
central state vs regional states vs corporate elites -> unresolved
no secure king-list, dynasty, palace, royal tomb or constitutional text.

|
v

[10] SOCIETY + RELIGION

houses + rare goods + craft zones + burials -> differentiation/occupation
NOT automatic caste, slavery, matriarchy or complete class map
horned figure + female figurines + pipal/animals + fire features + Great Bath
-> possible rituals; NOT secure Shiva/Mother Goddess/Vedic/state religion.

|
v

[11] DECLINE -> TRANSFORMATION

river/flood change + monsoon stress + exchange contraction + reorganisation
-> uneven post-1900 BCE city contraction, settlement shifts, reduced script/seals
-> Late Harappan regionalisation, agricultural diversification and continuity
NOT one invasion, one drought, one river or instant extinction.

|
v

[12] PYQ + ANSWER SPINE

2019 non-Harappan site -> Sohgauna [inferred; key unavailable]
2021 reservoir town -> Dholavira [inferred; key unavailable]
2025 Dancing Girl -> bronze [official local Set-A key]
2026 household inference -> statements 1 and 2 [inferred; provisional key]
2025 Mains architecture -> plan + material + water + sites + variation + caution

FINAL FORMULA:

definition -> phase/map -> named evidence -> mechanism -> alternative/limit
-> regional qualification -> verdict: coordinated diversity and transformation.
