E

EXTRA

SUBORDINATE ENRICHMENT — ONLY AFTER THE COMPLETE CORE

OPTIONAL ADVANCED ENRICHMENT | THE NEHRUVIAN CONSENSUS KEPT CONGRESS BROAD, FLEXIBLE AND LEFT-OF-CENTRE | THAN MONOLITHIC, ALLOWING DISSENT AND COEXISTENCE WITH A REAL | THE " SOCIALISTIC PATTERN " WAS DELIBERATELY ELASTIC — | — COMBINING A LARGE PUBLIC SECTOR WITH PRIVATE ENTERPRISE | CHANDRA READS PLANNING AS AN ACT OF LONG-RUN STATE | SAVINGS ROSE (~5.5% — ~10.5% OF | NATIONAL INCOME) AND INDIA GREW AT ROUGHLY FOUR TIMES

OPTIONAL SOURCE DEPTH

- The Nehruvian consensus kept Congress broad, flexible and left-of-centre rather
- than monolithic, allowing dissent and coexistence with a real opposition.
- The " socialistic pattern " was deliberately elastic — growth plus equitable distribution
- — combining a large public sector with private enterprise and civil liberties.

ADVANCED DEBATE

- CAUTION: Chandra reads planning as an act of long-run state capacity building : savings rose (~5.5% — ~10.5% of
- national income) and India grew at roughly four times the colonial rate, even if poverty persisted.
- CAUTION: The defining tension: Nehru built institutions but neglected party organisation
- and land-reform implementation , storing up problems that surfaced after 1964.

LEGACY / NUANCE

- Non-alignment was an active anti-bloc, anti-colonial, pro-disarmament posture — Panchsheel (1954), Bandung (1955),
- NAM (1961) — that gave a poor new nation disproportionate global voice.
- On 1962 , Chandra rejects both caricatures—Nehru as "naïve fool" and as "provocateur"—and stresses Chinese strategic compulsions while
- This is the authors' interpretation

OPTIONAL STATUS — This optional depth is unnecessary for a competent core answer; use it only for added nuance after the complete core has been written.
