Swarajists, Constructive Work & Revolutionaries of the 1920s (HSRA, Bhagat Singh) - Learner-v2 Complete Learning Session

SOURCE, PROGRESSION AND CURRENT-LINKAGE AUDIT

- **Repository owners queried:** Basic and Advanced Markdown for this topic, the master chronology, syllabus map and linked Modern History owners.
- **OCR book evidence queried:** OCR-based verification for this pass relies on the repository's already-authored Basic and Advanced Markdown owners for Swarajists and revolutionaries, themselves grounded in Bipin Chandra's Modern India (Chapter XV) and India's Struggle for Independence. The Naujawan Bharat Sabha, the Lahore Conspiracy Case tribunal timeline and Jatin Das's hunger strike are not covered in these local owners and are added here from independently verified public-record sources, clearly labelled as such rather than presented as repository-book facts. HRA's Kanpur founding location, the HSRA's Ferozeshah Kotla renaming site, and Jatin Das's fast-length variance (63 versus 64 days) are likewise independently verified additions, not repository-book facts.
- **Qdrant:** not used; Markdown plus searchable local PDFs were sufficient.
- **PYQ integrity:** No routed Prelims objective demand for this topic was found in the repository's PYQ routing ledgers at the time of authoring, other than one thematically adjacent 2018 GS-I demand (Q79, Series C, knowledge-export/Prelims PYQ/QP-CSP-18-GS-I-C.pdf.md) on the renaming of a body to 'Swarajya Sabha' in 1920; no answer-key file for that series is held locally, so no option or letter is recorded or inferred for it. The 2020 GS-I Mains demand on the ideological strands of the national movement since the 1920s is solved as a bounded, cross-cutting model shared with the Left/Peasant topic.
- **Bounded live linkage:** The Prime Minister's 9 August 2025 centenary tribute to the Kakori Train Action (PIB, PRID 2154621) is retained only as a public-memory bridge for the HRA's Kakori case. It does not supply new dates, casualty figures or sentencing details beyond what this package already verifies, and it does not extend to the later HSRA, Assembly Bomb or Lahore Conspiracy Case sequence. A second, separate bridge: on Shaheed Diwas, 23 March 2026 (the 95th anniversary of the 1931 executions), Delhi Chief Minister Rekha Gupta unveiled a Bhagat Singh statue and inaugurated a restored historic courtroom at the Registrar Cooperative Society office on Parliament Street, New Delhi. This courtroom is the site where Bhagat Singh and Batukeshwar Dutt were tried specifically for the Central Assembly bomb action; this package links the site only to the Assembly Bomb Case, not to the separate Lahore Conspiracy Case tribunal. Business Today's coverage was directly fetched for this event; the PIB press release page was inaccessible during this authoring pass, so ddnews.gov.in is retained as the directly verified corroborating link.
- **Fact/inference rule:** historical claims are source-backed; analytical judgements are explicitly framed as interpretation and do not invent figures.

EVIDENCE, PYQ AND CURRENT-STATUS CONTROL

- **Official and primary evidence:** Acts, charters, treaties, proclamations, committee reports, proceedings, organisational resolutions, speeches and contemporary records are dated and read for authorship and purpose.
- **Regional and social evidence:** petitions, newspapers, memoirs, local studies and material geography qualify elite or all-India generalisation.
- **Economic and quantitative evidence:** revenue, trade, price, wage, craft and mortality claims retain unit, region, period and uncertainty; statistics are never invented.
- **Scholarly interpretation:** historian schools are competing explanations tied to named evidence, not memorised verdicts.
- **PYQ discipline:** repository ledgers and locally held official papers control wording and metadata; reconstructed wording and unavailable official keys remain explicitly labelled.
- **Current-status note, rechecked 2026-08-31:** The Prime Minister's 9 August 2025 centenary tribute to the Kakori Train Action (PIB, PRID 2154621) is retained only as a public-memory bridge for the HRA's Kakori case. SESSION 1 - FOUNDATION - THE 1922 STRATEGIC VACUUM AND THE NO-CHANGER/PRO-CHANGER DEBATE

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Precise definition: The 1922 strategic vacuum is Congress's post-withdrawal need to choose a new method, resolved through the No-changer/Pro-changer debate rather than an organisational split.

Technical definition: Both positions remained within Congress; the debate was over method, not over the goal of Swaraj.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Precise definition: The 1922 strategic vacuum is Congress's post-withdrawal need to choose a new method, resolved through the No-changer/Pro-changer debate rather than an organisational split.

- FOUNDATION
- The 1922 strategic vacuum
- the No-changer/Pro-changer debate
- Precise definition
- Topic boundary

How to use them: Frame the answer through FOUNDATION; define The 1922 strategic vacuum, connect the No-changer/Pro-changer debate with Precise definition to explain the mechanism, and use Topic boundary for the decisive comparison or qualification.

VISUAL FIRST

THE 1922 STRATEGIC VACUUM AND THE NO-CHANGER/PRO-CHANGER DEBATE

FEB 1922 -> Non-Cooperation withdrawn; Congress faces a strategic vacuum

1922 -> No-changer versus Pro-changer debate opens over the next method

1 JAN 1923 -> Swaraj Party founded by C.R. Das and Motilal Nehru

1923 -> Swarajists enter legislatures on a council-entry, obstruction platform

1924 -> Hindustan Republican Association founded with a republican programme

The visual fixes this subtopic's chronology, mechanism or comparison before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The 1922 strategic vacuum is Congress's post-withdrawal need to choose a new method, resolved through the No-changer/Pro-changer debate rather than an organisational split.
- **Topic boundary:** Apply this definition only within Swarajists, Constructive Work & Revolutionaries of the 1920s (HSRA, Bhagat Singh); preserve the named actors, date and institutional setting.

CORE EXPLANATION

Gandhi's February 1922 withdrawal of Non-Cooperation left Congress without an agreed method for continuing the struggle, opening a debate between No-changers, who wanted to continue constructive work, and Pro-changers, who wanted to enter the legislatures.

EVIDENCE AND MECHANISM

- The withdrawal removed the movement's central activity without resolving how nationalist energy should now be organised.
- No-changers argued for continued constructive work: khadi, national education, Hindu-Muslim unity and removal of untouchability.
- Pro-changers, led by C.R. Das and Motilal Nehru, argued for entering legislative councils to obstruct government from within.
- Both positions remained within Congress; the debate was over method, not over the goal of Swaraj.

EXAMINER CAUTION

- Do not present the 1922-23 debate as a break with nationalism; both sides accepted the same ultimate objective.

EXAM LINK

- **Prelims:** Do not present the 1922-23 debate as a break with nationalism; both sides accepted the same ultimate objective.

SESSION 2 - FOUNDATION - NO-CHANGERS AND CONSTRUCTIVE WORK AFTER WITHDRAWAL

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Precise definition: No-changer continuity is the sustained pursuit of Gandhian constructive work as preparation for future struggle, rather than a passive retreat from politics.

Technical definition: Prelims: Do not call constructive work politically passive; assess it as preparation, while conceding it did not directly confront colonial authority.

VISUAL FIRST

NO-CHANGERS AND CONSTRUCTIVE WORK AFTER WITHDRAWAL

METHOD -> khadi, national schools, Hindu-Muslim unity, anti-untouchability

AIM -> preparation for a future mass struggle, not passivity

EFFECT -> continuous rural contact and a trained cadre of workers

LIMIT -> politically quietist; no direct confrontation with the state

LEGACY -> this cadre supplies the 1930 movement's social base

The visual fixes this subtopic's chronology, mechanism or comparison before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** No-changer continuity is the sustained pursuit of Gandhian constructive work as preparation for future struggle, rather than a passive retreat from politics.
- **Topic boundary:** Apply this definition only within Swarajists, Constructive Work & Revolutionaries of the 1920s (HSRA, Bhagat Singh); preserve the named actors, date and institutional setting.

CORE EXPLANATION

No-changers continued the Gandhian constructive programme through the mid-1920s, treating khadi, national schools, Hindu-Muslim unity and anti-untouchability work as preparation for a future mass struggle rather than passivity.

EVIDENCE AND MECHANISM

- Constructive work kept a cadre of full-time workers in continuous contact with rural India between national campaigns.
- Khadi, charkha and swadeshi work continued the economic dimension of the earlier boycott's constructive stage.
- Anti-untouchability and Hindu-Muslim unity work addressed social reform alongside political preparation.
- This continuity supplied the social base the 1930 Civil Disobedience Movement later used.

EXAMINER CAUTION

- Do not call constructive work politically passive; assess it as preparation, while conceding it did not directly confront colonial authority.

SESSION 3 - FOUNDATION - SWARAJ PARTY FORMATION AND COUNCIL-ENTRY LOGIC

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Precise definition: Council-entry logic is the Swarajist argument that entering the legislatures to obstruct government exposes colonial reform's limits rather than legitimising colonial rule.

Technical definition: The Swaraj Party's declared method was council-entry followed by obstruction, not cooperation.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Precise definition: Council-entry logic is the Swarajist argument that entering the legislatures to obstruct government exposes colonial reform's limits rather than legitimising colonial rule.

MUST-WRITE KEYWORDS

- FOUNDATION
- Swaraj Party formation
- council-entry logic
- Precise definition
- Topic boundary
- Core claim

How to use them: Frame the answer through FOUNDATION; define Swaraj Party formation, connect council-entry logic with Precise definition to explain the mechanism, and use Topic boundary for the decisive comparison or qualification.

VISUAL FIRST

SWARAJ PARTY FORMATION AND COUNCIL-ENTRY LOGIC

DEC 1922 GAYA -> council-entry proposal rejected by Congress

1 JAN 1923 (WORKING DATE) -> Swaraj Party founded by C.R. Das and Motilal Nehru

METHOD -> council-entry followed by disciplined obstruction

NOTE -> some compact sources date founding to Dec 1922 itself; variance flagged

RULE -> obstruction is a tactic, not constitutional loyalism

The visual fixes this subtopic's chronology, mechanism or comparison before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** Council-entry logic is the Swarajist argument that entering the legislatures to obstruct government exposes colonial reform's limits rather than legitimising colonial rule.
- **Topic boundary:** Apply this definition only within Swarajists, Constructive Work & Revolutionaries of the 1920s (HSRA, Bhagat Singh); preserve the named actors, date and institutional setting.

CORE EXPLANATION

C.R. Das and Motilal Nehru pressed a council-entry proposal at Congress's Gaya session in December 1922, and after its rejection there founded the Swaraj Party on the argument that entering the legislative councils and obstructing government from within would prevent political passivity and publicly expose the emptiness of dyarchy rather than legitimise colonial rule.

EVIDENCE AND MECHANISM

- The Swaraj Party's declared method was council-entry followed by obstruction, not cooperation.
- The logic answered critics who feared council-entry meant accepting the 1919 reforms.
- C.R. Das and Motilal Nehru led the new party while remaining within the wider Congress fold.
- This package uses 1 January 1923 as the Party's working founding date, though the proposal's Gaya rejection in December 1922 leads some compact sources to date the founding itself to December 1922 - a flagged source variance, not a resolved fact.

EXAMINER CAUTION

- Council-entry was a tactic of obstruction; do not describe Swarajists as constitutional loyalists who accepted colonial rule.

EXAM LINK

- **Prelims:** Council-entry was a tactic of obstruction; do not describe Swarajists as constitutional loyalists who accepted colonial rule.
- **Mains:** State the founding date, founders and council-entry logic together whenever a question asks about the Swaraj Party's formation, and flag the Gaya/January source variance rather than silently picking one date.

MINI RECAP

- **Core claim:** C.R. SESSION 4 - CORE - SWARAJIST ACHIEVEMENTS IN THE 1923 LEGISLATURES

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Precise definition: The Swarajist record is the demonstrated legislative fact that an elected Indian majority could obstruct dyarchy without being able to govern under it.

Technical definition: Strong 1923 election results gave Swarajists a real legislative presence.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Precise definition: The Swarajist record is the demonstrated legislative fact that an elected Indian majority could obstruct dyarchy without being able to govern under it.

MUST-WRITE KEYWORDS

- Swarajist achievements in the 1923 legislatures

- Precise definition: The Swarajist record
- Precise

How to use them: Frame the answer through Swarajist achievements in the 1923 legislatures; define Precise definition, connect Topic boundary with Core claim to explain the mechanism, and use Precise definition: The Swarajist record for the decisive comparison or qualification.

VISUAL FIRST

SWARAJIST ACHIEVEMENTS IN THE 1923 LEGISLATURES

1923 ELECTIONS -> strong Swarajist performance

METHOD -> obstruct budgets and government motions

EFFECT -> exposes the structural weakness of dyarchy

VALUE -> demonstration matters as much as any single legislative win

CAUTION -> do not state unverified seat numbers or vote shares

The visual fixes this subtopic's chronology, mechanism or comparison before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The Swarajist record is the demonstrated legislative fact that an elected Indian majority could obstruct dyarchy without being able to govern under it.
- **Topic boundary:** Apply this definition only within Swarajists, Constructive Work & Revolutionaries of the 1920s (HSRA, Bhagat Singh); preserve the named actors, date and institutional setting.

CORE EXPLANATION

The Swarajists performed strongly in the 1923 elections and used their legislative position to obstruct budgets and expose the structural weaknesses of dyarchy, converting an abstract nationalist critique of the 1919 reforms into a demonstrated legislative fact.

EVIDENCE AND MECHANISM

- Strong 1923 election results gave Swarajists a real legislative presence.
- Obstruction targeted budgets and government motions to expose dyarchy's limits.
- The demonstration effect mattered as much as any specific legislative victory.
- This record answers 'assess the Swarajist experiment' demands directly.

EXAMINER CAUTION

- Do not state specific Swarajist seat numbers or vote shares without a verified figure; argue from the qualitative record instead.

- Motilal Nehru continued association with the Party and later constitutional debates.
- Ministerial office and patronage opportunities diluted obstruction's discipline over time.
- Decline does not erase the Party's earlier demonstration effect against dyarchy.

- Saunders was killed in December 1928 by HSRA revolutionaries in retaliation.
- This episode escalated HSRA's confrontation with colonial authority just before the Assembly bomb action.

EXAMINER CAUTION

- Do not conflate the Saunders case with the Kakori case; Saunders belongs to the later HSRA phase.

SESSION 12 - CORE - THE ASSEMBLY BOMB: SYMBOLIC AND NON-LETHAL INTENT

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Precise definition: The Assembly bomb is the 8 April 1929 deliberately non-lethal, symbolic action, tried separately as the Assembly Bomb Case in the Sessions Court (life imprisonment), intended to publicise revolutionary politics through voluntary arrest and trial.

Technical definition: Prelims: Do not describe the Assembly bomb as an attempt at mass killing; its intent was symbolic and non-lethal by design.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

THE ASSEMBLY BOMB: SYMBOLIC AND NON-LETHAL INTENT

8 APRIL 1929 -> Bhagat Singh and Batukeshwar Dutt act in the Assembly

METHOD -> bombs designed to be non-lethal; leaflets and slogans follow

INTENT -> 'to make the deaf hear', not to kill

CHOICE -> both accept arrest rather than flee

CASE -> tried separately as Assembly Bomb Case; life imprisonment (Sessions Court)

The visual fixes this subtopic's chronology, mechanism or comparison before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The Assembly bomb is the 8 April 1929 deliberately non-lethal, symbolic action, tried separately as the Assembly Bomb Case in the Sessions Court (life imprisonment), intended to publicise revolutionary politics through voluntary arrest and trial.
- **Topic boundary:** Apply this definition only within Swarajists, Constructive Work & Revolutionaries of the 1920s (HSRA, Bhagat Singh); preserve the named actors, date and institutional setting.

CORE EXPLANATION

On 8 April 1929 Bhagat Singh and Batukeshwar Dutt threw bombs in the Central Legislative Assembly, deliberately designed to be non-lethal and symbolic, intended, in their own political language, 'to make the deaf hear', and both accepted arrest to use the ensuing trial as a public platform. This bombing was tried separately as the Assembly Bomb Case in the Sessions Court, which sentenced both men to life imprisonment - a distinct proceeding from the later Lahore Conspiracy Case.

EVIDENCE AND MECHANISM

- The action targeted the Assembly chamber during a sitting, not a crowd of civilians.
- The bombs were designed to avoid indiscriminate killing, unlike an assassination attempt.
- Bhagat Singh and Dutt did not attempt to escape, choosing arrest and trial deliberately.
- The Assembly Bomb Case (Sessions Court, life imprisonment) is a separate proceeding from the later Lahore Conspiracy Case (Special Tribunal, death sentence).

EXAMINER CAUTION

- Do not describe the Assembly bomb as an attempt at mass killing; its intent was symbolic and non-lethal by design. Do not merge the Assembly Bomb Case with the Lahore Conspiracy Case into one undifferentiated trial.

DEMAND -> hunger strike for treatment as political prisoners

13 SEP 1929 -> Jatin Das dies after a jail hunger strike (63 or 64 days, source variance)

OCT 1930 -> Special Tribunal sentences the three to death

23 MAR 1931 -> the three are executed at Lahore

The visual fixes this subtopic's chronology, mechanism or comparison before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The Lahore Conspiracy Case is a separate, later Special Tribunal proceeding from the Assembly Bomb Case, during which the jail hunger strike and Jatin Das's 1929 death (reported as 63 or 64 days) occurred, distinct from the 1930 verdict and 1931 execution.
- **Topic boundary:** Apply this definition only within Swarajists, Constructive Work & Revolutionaries of the 1920s (HSRA, Bhagat Singh); preserve the named actors, date and institutional setting.

CORE EXPLANATION

Evidence from the Assembly Bomb Case and the Saunders killing together fed the separate, later Lahore Conspiracy Case, during which political prisoners including Jatin Das undertook a hunger strike demanding better prison treatment; Jatin Das died on 13 September 1929 after a sustained hunger strike in Lahore Central Jail reported as 63 days in most accounts and 64 days in some others, and the Special Tribunal later sentenced Bhagat Singh, Sukhdev and Rajguru to death in October 1930.

EVIDENCE AND MECHANISM

- The Lahore Conspiracy Case tried Bhagat Singh, Sukhdev, Rajguru and other HSRA members, and is a distinct proceeding from the earlier Assembly Bomb Case.
- Prisoners undertook a hunger strike demanding treatment appropriate to political prisoners, not ordinary criminals.
- Jatin Das died on 13 September 1929 after the hunger strike, its length reported as 63 or 64 days depending on the source, becoming a widely mourned martyr figure.
- The Special Tribunal's death sentence followed later, in October 1930.

EXAMINER CAUTION

- Keep the jail hunger strike and Jatin Das's death (1929) distinct from the Tribunal's verdict (1930) and the execution (1931); keep this case distinct from the earlier Assembly Bomb Case; and retain both the 63-day and 64-day fast figures as an open source variance rather than asserting one.

ENEMY -> imperialism and class exploitation named together
METHOD -> courtroom and public trial used as political theatre
LEGACY -> political thinker as well as martyr
23 MAR 1931 -> executed with Sukhdev and Rajguru at Lahore

- **Topic boundary:** Apply this definition only within Swarajists, Constructive Work & Revolutionaries of the 1920s (HSRA, Bhagat Singh); preserve the named actors, date and institutional setting.

CORE EXPLANATION

Bhagat Singh's later writings and prison conduct show a rationalist, atheist and socialist political position that named both imperialism and class exploitation as the movement's targets, so his legacy should be read as a political thinker as well as a martyr; he, Sukhdev and Rajguru were executed on 23 March 1931 after the Lahore Conspiracy Case verdict.

EVIDENCE AND MECHANISM

- Bhagat Singh's prison writings reflect a rationalist and explicitly socialist political outlook.
- His politics named imperialism and class exploitation together as the object of struggle.
- Bhagat Singh, Sukhdev and Rajguru were executed on 23 March 1931 at Lahore.
- Historiography has moved from a romantic-martyr reading toward recognising his ideological and analytical contribution.

SESSION 15 - CORE SYNTHESIS - CHITTAGONG AND THE PLURAL REVOLUTIONARY FIELD OF THE 1920S

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Core claim: The Chittagong Armoury Raid of 1930 in Bengal, led by Surya Sen and including women revolutionaries, represents an attempted seizure of a locality rather than an individual action, showing that revolutionary nationalism in the 1920s was regionally plural, spanning Punjab, the United Provinces and Bengal, and not confined to one figure or one province.

Technical definition: The Chittagong stream was organisationally separate from the Punjab-United Provinces HRA/HSRA network, sharing revolutionary aims but not a common command structure.

REGIONS -> Punjab, United Provinces and Bengal, not one province

VERDICT -> the 1920s were organisationally and ideologically dense

The visual fixes this subtopic's chronology, mechanism or comparison before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The plural revolutionary field names the regional and organisational diversity of 1920s revolutionary nationalism, from Punjab and the United Provinces to the Chittagong Armoury Raid in Bengal.
- **Topic boundary:** Apply this definition only within Swarajists, Constructive Work & Revolutionaries of the 1920s (HSRA, Bhagat Singh); preserve the named actors, date and institutional setting.

The Chittagong Armoury Raid of 1930 in Bengal, led by Surya Sen and including women revolutionaries, represents an attempted seizure of a locality rather than an individual action, showing that revolutionary nationalism in the 1920s was regionally plural, spanning Punjab, the United Provinces and Bengal, and not confined to one figure or one province. The Chittagong stream was organisationally separate from the Punjab-United Provinces HRA/HSRA network, sharing revolutionary aims but not a common command structure.

EVIDENCE AND MECHANISM

- The Chittagong Armoury Raid occurred in 1930 in Bengal under Surya Sen's leadership.
- Women revolutionaries participated in the Chittagong action, widening the standard picture of revolutionary nationalism.
- Chittagong's ambition to seize a locality distinguishes it from the individual actions typical of HRA and HSRA elsewhere.
- Chittagong was organisationally separate from the Punjab-United Provinces HRA/HSRA network, not a regional branch of it.

MODERN HISTORY DEEP-REVIEW CORE CONTROL

- **Must remember:** The Swaraj Party was formed in 1923 by C.R. Das and Motilal Nehru; constructive work, council obstruction, HRA-Kakori and the 1928 HSRA reorientation were distinct post-withdrawal strategies.
- **Close distinction:** Bhagat Singh's politics included republican and socialist argument, not only martyrdom; HSRA action, trade-union work and Congress politics should not be collapsed into one revolutionary stream.
- **Evidence / interpretation limit:** Legislative records, organisational manifestos, prison writings and police files must be cross-read to avoid hero worship, colonial criminalisation and retrospective ideological simplification.

BASIC MCQS / REMEDIATION

Q1. Which statement correctly identifies 1922 strategic vacuum?

A. Gandhi's withdrawal of Non-Cooperation in February 1922 left Congress without an agreed method and opened a debate over the next phase of the struggle. B. Swarajists argued that entering councils would prevent political passivity and publicly expose the limits of dyarchy rather than legitimise it. C. No-changers argued for continued constructive work such as khadi, national education, Hindu-Muslim unity and removal of untouchability as preparation for future struggle. D. Pro-changers led by C.R. Das and Motilal Nehru pressed their council-entry proposal at the Congress session at Gaya in December 1922, where it was rejected, prompting them to found the Swaraj Party. This package retains 1 January 1923 as the Party's working founding date, while noting that some compact sources instead date the founding to December 1922 itself; this source variance is flagged rather than silently resolved.

Answer: B. Explanation: The 1920s produced four parallel streams - Swarajist council politics, No-changer constructive work, HRA-HSRA revolutionary action and an emerging left/labour current - whose combined legacy shaped the movement that resumed in 1930. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q79. Which option should a candidate retain when revising Four streams of the 1920s?

A. Pro-changers led by C.R. Das and Motilal Nehru pressed their council-entry proposal at the Congress session at Gaya in December 1922, where it was rejected, prompting them to found the Swaraj Party. This package retains 1 January 1923 as the Party's working founding date, while noting that some compact sources instead date the founding to December 1922 itself; this source variance is flagged rather than silently resolved. B. The Swarajists performed strongly in the 1923 elections and used their position to expose the structural weaknesses of dyarchy and the budgetary settlement. C. The 1920s produced four parallel streams - Swarajist council politics, No-changer constructive work, HRA-HSRA revolutionary action and an emerging left/labour current - whose combined legacy shaped the movement that resumed in 1930. D. Swarajists argued that entering councils would prevent political passivity and publicly expose the limits of dyarchy rather than legitimise it.

Answer: C. Explanation: The 1920s produced four parallel streams - Swarajist council politics, No-changer constructive work, HRA-HSRA revolutionary action and an emerging left/labour current - whose combined legacy shaped the movement that resumed in 1930. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q80. Which statement avoids a common matching trap about Four streams of the 1920s?

A. C.R. Das's death in 1925 and the gradual erosion of obstruction as ministries and patronage drew some members in reduced Swarajist momentum through the later 1920s. B. The Swarajists performed strongly in the 1923 elections and used their position to expose the structural weaknesses of dyarchy and the budgetary settlement. C. Swarajists argued that entering councils would prevent political passivity and publicly expose the limits of dyarchy rather than legitimise it. D. The 1920s produced four parallel streams - Swarajist council politics, No-changer constructive work, HRA-HSRA revolutionary action and an emerging left/labour current - whose combined legacy shaped the movement that resumed in 1930.

Answer: D. Explanation: The 1920s produced four parallel streams - Swarajist council politics, No-changer constructive work, HRA-HSRA revolutionary action and an emerging left/labour current - whose combined legacy shaped the movement that resumed in 1930. What this owner must now support

- Ideological strands of the national movement since the 1920s

The table integrates the examinable demand and paper metadata. It does not turn an unkeyed objective question into a solved answer, and it does not claim that lexical presence alone proves full conceptual sufficiency.

PYQ DEMAND CARD 1 - 2020 GS-I Q13

Demand: Official wording (verbatim, knowledge-export/Mains PYQ/Gen_St_P1.pdf.md): 'Since the decade of the 1920s, the national movement acquired various ideological strands and thereby expanded its social base. Discuss. (Answer in 250 words).'

Status: bounded-model

Model solution / safe handling: Organise the answer around the Swarajist constitutional strand, the Gandhian No-changer/constructive strand, the HRA-HSRA revolutionary-socialist strand, and the emerging left/labour strand; each widened the movement's social base differently, and the shared institutional home was Congress even where methods diverged sharply.

Demand decoding: The directive **answer** requires a direct position on "PYQ DEMAND CARD 1 - 2020 GS-I Q13", coverage of every clause, chronological-causal analysis, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: For a 15-mark answer, open with a two-sentence thesis; organise five named Acts, events, organisations, regions, primary records or scholarly positions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded conclusion.

Why this earns marks: The answer obeys the directive, distinguishes dates and policy stages, connects evidence to mechanism, recognises regional/social variation and avoids teleology or hero worship.

How to improve this answer: For "PYQ DEMAND CARD 1 - 2020 GS-I Q13", replace the weakest generalisation with one additional named primary/official record or attributed scholarly interpretation and state exactly what it cannot prove.

PYQ DEMAND CARD 2 - 2018 Prelims GS-I Q79 (Series C)

Demand: Official wording (verbatim, knowledge-export/Prelims PYQ/QP-CSP-18-GS-I-C.pdf.md): 'In 1920, which of the following changed its name to "Swarajya Sabha"? (a) All India Home Rule League (b) Hindu Mahasabha (c) South Indian Liberal Federation (d) The Servants of India Society.'

Status: open-evidence-gap-key-unavailable

Model solution / safe handling: No paired official answer-key file for this 2018 Series-C paper is held locally, so no option or letter is selected or inferred here. The question's exam value for this topic is the trap it sets: 'Swarajya Sabha' is the 1920 renaming of a pre-existing Home Rule-era body, and must not be confused with the unrelated 'Swaraj Party' that C.R. Das and Motilal Nehru founded in 1922-23; this package keeps the two distinct rather than merging them.

Demand decoding: Treat "PYQ DEMAND CARD 2 - 2018 Prelims GS-I Q79 (Series C)" as a statement-level chronology and attribution problem: verify every date, Act/provision, person, organisation, region and causal claim independently, without inventing an official key.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: Fix the tested time window; separate event/enactment/commencement; match each actor and provision; eliminate the closest distractor with one named record, treaty, session or regional fact.

Why this earns marks: It preserves exact chronology and answer-text mapping, uses named evidence and keeps inferred elimination distinct from an official key.

How to improve this answer: For "PYQ DEMAND CARD 2 - 2018 Prelims GS-I Q79 (Series C)", add one explicit line showing why the nearest distractor fails on date, legal status, geography, attribution or degree.

Question: Why was the Swarajist-No-changer split a tactical division rather than a break in the national movement?
Answer in about 150 words.

Model thesis: Both No-changers and Pro-changers accepted Swaraj as the goal and remained within Congress; they differed only over whether constructive work or council-entry was the better method after 1922.

Evidence spine:

- Gandhi's withdrawal of Non-Cooperation in February 1922 left Congress without an agreed method and opened a debate over the next phase of the struggle.
- No-changers argued for continued constructive work such as khadi, national education, Hindu-Muslim unity and removal of untouchability as preparation for future struggle.
- Pro-changers led by C.R. Das and Motilal Nehru pressed their council-entry proposal at the Congress session at Gaya in December 1922, where it was rejected, prompting them to found the Swaraj Party. This package retains 1 January 1923 as the Party's working founding date, while noting that some compact sources instead date the founding to December 1922 itself; this source variance is flagged rather than silently resolved.
- Swarajists argued that entering councils would prevent political passivity and publicly expose the limits of dyarchy rather than legitimise it.

Balance: Distinguish intention from outcome, identify regional or social variation, and avoid treating a formal measure as complete implementation.

Conclusion: Both No-changers and Pro-changers accepted Swaraj as the goal and remained within Congress; they differed only over whether constructive work or council-entry was the better method after 1922.

Demand decoding: The directive **answer** requires a direct position on "Why was the Swarajist-No-changer split a tactical division rather than a break in the...", coverage of every clause, chronological-causal analysis, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: For a 10-mark answer, open with a two-sentence thesis; organise three named Acts, events, organisations, regions, primary records or scholarly positions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded conclusion.

Why this earns marks: The answer obeys the directive, distinguishes dates and policy stages, connects evidence to mechanism, recognises regional/social variation and avoids teleology or hero worship.

How to improve this answer: For "Why was the Swarajist-No-changer split a tactical division rather than a break in the...", replace the weakest generalisation with one additional named primary/official record or attributed scholarly interpretation and state exactly what it cannot prove.

Question: Distinguish the HRA and HSRA phases of revolutionary nationalism in the 1920s. Answer in about 150 words.

Model thesis: HRA (1924) pursued a republican overthrow associated with Kakori, Sanyal and Bismil, while HSRA (1928) added an explicit socialist orientation under Bhagat Singh and Azad; the two phases and their cases must not be merged.

Evidence spine:

- The Hindustan Republican Association was founded at Kanpur in October 1924 by leaders including Sachindranath Sanyal, Ram Prasad Bismil and Jogesh Chatterjee with a republican revolutionary programme aimed at armed overthrow of colonial rule.
- The Kakori train action of 1925 aimed to raise funds for revolutionary activity, and Bismil, Ashfaqulla Khan, Roshan Singh and Rajendra Lahiri were executed in 1927 after the case.
- The HRA was reorganised as the Hindustan Socialist Republican Association at Ferozeshah Kotla, Delhi, on 9-10 September 1928, adding an explicit socialist and anti-imperialist orientation under leaders including Bhagat Singh,

Chandrashekhhar Azad, Sukhdev and Bhagwati Charan Vohra. HRA and HSRA are one continuous organisational lineage under a new name and programme, not two rival bodies; 'Association' and 'Army' are variant source labels for the same body, not separate names.

- The Chittagong Armoury Raid of 1930 in Bengal was led by Surya Sen and included women revolutionaries, representing an attempted seizure of a locality rather than an individual action; the Chittagong stream was organisationally separate from the Punjab-United Provinces HRA/HSRA network, sharing revolutionary aims but not a common command structure.

Balance: Distinguish intention from outcome, identify regional or social variation, and avoid treating a formal measure as complete implementation.

Conclusion: HRA (1924) pursued a republican overthrow associated with Kakori, Sanyal and Bismil, while HSRA (1928) added an explicit socialist orientation under Bhagat Singh and Azad; the two phases and their cases must not be merged.

Question: Assess the Swarajist experiment in the legislatures between 1923 and the later 1920s. Answer in about 250 words.

Model thesis: Council-entry exposed dyarchy's structural weakness through obstruction and demonstration rather than legislative victory, but C.R. Das's 1925 death and later patronage politics eroded its momentum.

Question: Discuss the ideological evolution from HRA republicanism to HSRA socialism and its significance. Answer in about 250 words.

Model thesis: The 1928 reorganisation, prepared partly through the Naujawan Bharat Sabha's youth mobilisation, added an explicit anti-imperialist and anti-capitalist theory, making socialism a mainstream vocabulary of Indian revolutionary politics.

Evidence spine:

- The Hindustan Republican Association was founded at Kanpur in October 1924 by leaders including Sachindranath Sanyal, Ram Prasad Bismil and Jogesh Chatterjee with a republican revolutionary programme aimed at armed overthrow of colonial rule.
- The Naujawan Bharat Sabha was founded in March 1926 in Lahore with Bhagat Singh as a leading organiser, mobilising youth toward socialist and anti-imperialist politics as an open, legal public front, organisationally distinct from the underground HRA/HSRA network it fed ahead of the HSRA's formation.
- The HRA was reorganised as the Hindustan Socialist Republican Association at Ferozeshah Kotla, Delhi, on 9-10 September 1928, adding an explicit socialist and anti-imperialist orientation under leaders including Bhagat Singh, Chandrashekhar Azad, Sukhdev and Bhagwati Charan Vohra. HRA and HSRA are one continuous organisational lineage under a new name and programme, not two rival bodies; 'Association' and 'Army' are variant source labels for the same body, not separate names.
- On 8 April 1929 Bhagat Singh and Batukeshwar Dutt threw bombs in the Central Legislative Assembly, deliberately designed to be non-lethal and symbolic, intended to make the deaf hear rather than to kill. This bombing was tried as a separate Sessions Court proceeding, the Assembly Bomb Case, in which Bhagat Singh and Batukeshwar Dutt received life imprisonment.
- Bhagat Singh's later writings show a rationalist, atheist and socialist political position that framed the enemy as both imperialism and class exploitation, not only a personal call to martyrdom.

Balance: Distinguish intention from outcome, identify regional or social variation, and avoid treating a formal measure as complete implementation.

Question: Evaluate Bhagat Singh's political significance as a rationalist and socialist thinker rather than only a martyr. Answer in about 300 words.

Model thesis: His prison writings and the Assembly bomb's deliberately symbolic, non-lethal design show a reasoned political strategy targeting both imperialism and class exploitation, which the Lahore Conspiracy Case, the jail hunger strike and his 1931 execution should not reduce to sentiment alone.

Evidence spine:

- The HRA was reorganised as the Hindustan Socialist Republican Association at Ferozeshah Kotla, Delhi, on 9-10 September 1928, adding an explicit socialist and anti-imperialist orientation under leaders including Bhagat Singh, Chandrashekhar Azad, Sukhdev and Bhagwati Charan Vohra. This bombing was tried as a separate Sessions Court proceeding, the Assembly Bomb Case, in which Bhagat Singh and Batukeshwar Dutt received life imprisonment.
- Evidence from the Assembly Bomb Case and the Saunders killing together fed a separate, later proceeding, the Lahore Conspiracy Case, whose Special Tribunal sentenced Bhagat Singh, Sukhdev and Rajguru to death in October 1930; the Assembly Bomb Case and the Lahore Conspiracy Case are two distinct legal proceedings with different courts and sentences, not one undifferentiated trial.
- Jatin Das died on 13 September 1929 after a sustained hunger strike in Lahore Central Jail demanding better treatment for political prisoners during the Lahore Conspiracy Case trial. The fast's length is reported as 63 days in most accounts and as 64 days in some others; this package retains both durations as an open source variance rather than asserting one as definitively correct.
- Bhagat Singh's later writings show a rationalist, atheist and socialist political position that framed the enemy as both imperialism and class exploitation, not only a personal call to martyrdom.
- Bhagat Singh, Sukhdev and Rajguru were executed on 23 March 1931 after the Lahore Conspiracy Case verdict.

Balance: Distinguish intention from outcome, identify regional or social variation, and avoid treating a formal measure as complete implementation.

Question: Was the 1920s a lull in the national movement? Examine using the Swarajist, constructive, revolutionary and Bengal streams. Answer in about 300 words.

Model thesis: Council obstruction, rural constructive work, HRA-HSRA revolutionary politics and the 1930 Chittagong Raid together show the decade built the organisation, arguments and cadre the 1930 movement required, rather than marking an empty gap.

- The Chittagong Armoury Raid of 1930 in Bengal was led by Surya Sen and included women revolutionaries, representing an attempted seizure of a locality rather than an individual action; the Chittagong stream was organisationally separate from the Punjab-United Provinces HRA/HSRA network, sharing revolutionary aims but not a common command structure.

1. Snapshot & core idea

Deeper - the Swarajist debate was tactical, not anti-national.

- FACT: *India's Struggle for Independence* presents the No-changer versus Pro-changer debate as a disagreement over method after the suspension of mass struggle.
- FACT: No-changers defended Gandhian constructive work as preparation for future struggle and as a way to keep Congress rooted among the people.
- FACT: Swarajists argued that entering legislatures would prevent political passivity, expose colonial reforms and wreck dyarchy from within.
- FACT: Their 1923 successes gave them a platform, but obstruction had limits because executive power remained colonial and C.R. Das's death in 1925 weakened leadership.

Deeper - revolutionary nationalism moved toward socialism.

5. UPSC Traps

MEMORY: Trap: Do not place Bhagat Singh in Kakori; his major cases are Saunders, Assembly Bomb and Lahore Conspiracy.

- **WRONG:** Swarajists were constitutional loyalists. -> **FACT:** They entered councils to **obstruct** and expose colonial rule, not to legitimise it.
- **WRONG:** No-changers and Pro-changers represented a permanent split. -> **FACT:** They were tactical streams within the wider national movement.
- **WRONG:** HSRA was merely HRA renamed. -> **FACT:** The new name reflected a **socialist ideological turn**.
- **WRONG:** Assembly Bomb aimed at mass killing. -> **FACT:** It was symbolic and designed to avoid indiscriminate killing.

- WRONG: Revolutionary nationalism was confined to Punjab. -> FACT: It had major centres in Punjab, United Provinces and Bengal.

6. CURRENT: Current link

- CURRENT: **Kakori Train Action centenary (9 August 2025)**: the Prime Minister's official centenary tribute marked one hundred years since the 1925 action (PIB, PRID 2154621). Use it to revise the HRA's republican programme, fund-raising objective, trial and executions-not to merge Kakori with the later HSRA/Saunders/Assembly Bomb sequence.
- ANALYSIS: Public memory is the hook; the historical answer must still distinguish HRA republicanism from HSRA socialism.

7. Mains angles

- ANALYSIS: GS-1: Analyse the Swarajists as a tactical innovation within the national movement rather than a departure from it.
- ANALYSIS: GS-1: Discuss the ideological transformation of revolutionary nationalism from HRA republicanism to HSRA socialism.
- ANALYSIS: GS-1: Evaluate Bhagat Singh as a political thinker, not merely a martyr.
