Integration of the Princely States & the Making of the Republic - Learner-v2 Complete Learning Session

SOURCE, PROGRESSION AND CURRENT-LINKAGE AUDIT

- **Repository owners queried:** Basic and Advanced Markdown for this topic, the master chronology, syllabus map and linked Modern History owners.
- **OCR book evidence queried:** The Basic and Advanced owner files were reconciled against the repository's OCR-searchable copy of Bipan Chandra, Mridula Mukherjee and Aditya Mukherjee, *India After Independence, 1947-2000*, whose accession chapter is fully text-extractable in the local file. That text supplies Attlee's paramountcy statement of 20 February 1947 and Jinnah's declaration of 18 June 1947 (book PDF pages 94-95), Patel's assumption of additional charge of the newly created States Department on 27 June 1947 with V.P. Menon as Secretary and the earlier accession of some states to the Constituent Assembly in April 1947 (book PDF page 95), the three-subject appeal and the fact that all states except Junagadh, Jammu and Kashmir and Hyderabad acceded by 15 August 1947 together with the Junagadh sequence and the February 1948 plebiscite (book PDF page 96), the Kashmir invasion, the appeal for assistance, the accession and the airlift (book PDF pages 96-97), the reference to the Security Council on 30 December 1947 (book PDF page 98), the Hyderabad standstill agreement of November 1947 and the Razakar mobilisation (book PDF pages 98-99), and the September 1948 army action, the Nizam's surrender and accession, the second stage of integration from December 1947 and the new unions of Madhya Bharat, Rajasthan, the Patiala and East Punjab States Union, Saurashtra and Travancore-Cochin (book PDF page 100). Three deliberate omissions are recorded. The local text carries privy-purse amounts and a specific purse for the Nizam, but the Basic owner's factual-risk caution forbids stating privy-purse amounts and this package obeys the owner rather than the book. The same text describes the Junagadh plebiscite result as overwhelming without a percentage, so no percentage is stated. The local text's numeral for the count of states is corrupted in extraction, which is itself the strongest practical reason for the owner's rule of writing more than 560 rather than 562 or 565.
- **Qdrant:** not used; Markdown plus searchable local PDFs were sufficient.
- **PYQ integrity:** The 2021 Mains GS-I Q3 stem is verbatim and locally verified: the repository export of the official 2021 General Studies Paper I carries the sentence assessing the main administrative issues and socio-cultural problems in the integration process of Indian Princely States, with the instruction to answer in 150 words, and the audited local Mains routing ledger routes it to this owner at 10 marks. No Prelims question in the audited local Prelims routing ledgers for 2018-2023, 2024-2025 or 2026 is routed to this owner, so no Prelims stem, option set or answer letter is asserted anywhere in this package.
- **Bounded live linkage:** Two official Government of India pages were retrieved live on 31 August 2026 and are used only as a bounded commemorative bridge. The Ministry of Culture's commemorations page records that India launched a two-year celebration of Sardar Vallabhbhai Patel's 150th birth anniversary at the Statue of Unity on 31 October 2024, with a commemorative coin and postal stamp, the book *Vallabh*, a documentary on the unification of over 560 princely states, and lectures, exhibitions, youth programmes and a virtual museum organised by the Ministry. A PIB Backgrounder titled *Rashtriya Ekta Diwas: A Pillar of National Cohesion*, posted on 30 October 2025, records that Rashtriya Ekta Diwas is observed annually on 31 October to commemorate Patel's birth anniversary, that it was first celebrated in 2014, that Ek Bharat Shreshtha Bharat was announced on 31 October 2015, and that 2025 marks the 150th birth anniversary. Two disciplined cautions travel with that bridge. First, the Backgrounder's commemorative formulation that Patel integrated the states by 15 August 1947 or shortly thereafter is a commemorative compression and not a chronology, because the Junagadh plebiscite belongs to February 1948 and the Hyderabad Police Action to September 1948; the package teaches the commemorative sentence beside the documented sequence and never substitutes one for the other. Second, the Backgrounder's figure that the states covered nearly 40 per cent of India's territory and population is carried strictly as that page's own attributed estimate alongside the repository owner's phrasing of roughly a third of the subcontinent's territory, and neither proportion is asserted as settled. No claim whatever is made here about any present-day constitutional controversy.
- **Fact/inference rule:** historical claims are source-backed; analytical judgements are explicitly framed as interpretation and do not invent figures.

SESSION 1 - FOUNDATION - INDEPENDENCE WAS NOT INTEGRATION: THE PROBLEM THE LAPSE CREATED

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Precise definition: Lapse of paramountcy means the extinction, at the end of British rule, of the suzerain relationship between the Crown and the princely states, without that relationship passing to India or Pakistan by succession.

Technical definition: Mains: Open any integration answer with the lapse, because it converts a narrative of accession into an analysis of state-building under legal vacuum.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Never write that paramountcy passed to India; the whole topic exists because it lapsed, and an answer that transfers it has deleted the problem it is meant to analyse.

MUST-WRITE KEYWORDS

- **FOUNDATION**
- **Independence was not integration**
- **the problem the lapse created**
- **Precise definition**
- **Topic boundary**
- **Core claim**

How to use them: Frame the answer through FOUNDATION; define Independence was not integration, connect the problem the lapse created with Precise definition to explain the mechanism, and use Topic boundary for the decisive comparison or qualification.

VISUAL FIRST

INDEPENDENCE WAS NOT INTEGRATION: THE PROBLEM THE LAPSE CREATED
15 AUG 1947 -> BRITISH RULE ENDS
|-- BRITISH INDIA -> partitioned; successor dominions defined by statute
`-- PRINCELY INDIA -> PARAMOUNTCY LAPSES -> no successor sovereign in law
CONSEQUENCE -> authority must be CONSTRUCTED (agreement + leverage + force)
RULE -> lapse, not transfer; that single word generates the entire topic.

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** Lapse of paramountcy means the extinction, at the end of British rule, of the suzerain relationship between the Crown and the princely states, without that relationship passing to India or Pakistan by succession.
- **Topic boundary:** Apply this definition only within Integration of the Princely States & the Making of the Republic; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

The transfer of power solved the question of who ruled British India and left open the question of who ruled princely India, because British paramountcy over the states lapsed instead of passing to a successor, and everything else in this topic is a response to that single legal fact.

EVIDENCE AND MECHANISM

- British paramountcy over the princely states lapsed when British rule ended on 15 August 1947 and was never transferred to India or Pakistan.
- Lapse meant that a very large share of the subcontinent's territory and population had, in strict law, no successor sovereign on the morning after independence.
- The Union's authority over princely India therefore had to be constructed by agreement, leverage and, in one case, force, and could not be claimed by legal succession.
- That is why a separate department, a separate instrument and a separate chronology exist for the states at all: they were not covered by the settlement that partitioned British India.

EXAMINER CAUTION

- Never write that paramountcy passed to India; the whole topic exists because it lapsed, and an answer that transfers it has deleted the problem it is meant to analyse.

EXAM LINK

- **Prelims:** Never write that paramountcy passed to India; the whole topic exists because it lapsed, and an answer that transfers it has deleted the problem it is meant to analyse.
- **Mains:** Open any integration answer with the lapse, because it converts a narrative of accession into an analysis of state-building under legal vacuum.

MINI RECAP

- **Core claim:** The transfer of power solved the question of who ruled British India and left open the question of who ruled princely India, because British paramountcy over the states lapsed instead of passing to a successor, and everything else in this topic is a response to that single legal fact.
- **Use:** Open any integration answer with the lapse, because it converts a narrative of accession into an analysis of state-building under legal vacuum.

SESSION 2 - FOUNDATION - HOW MANY STATES: THE DISCIPLINE BEHIND MORE THAN 560

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: There were more than 560 princely states at independence, which is the formulation both repository owners require.

Technical definition: Core claim: The number of princely states is a trap disguised as a fact, because the familiar totals differ by what an enumerator counts as a state rather than by any disagreement about history, and the disciplined answer refuses to choose between them.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

There were more than 560 princely states at independence, which is the formulation both repository owners require.

MUST-WRITE KEYWORDS

- **FOUNDATION**
- **How many states**
- **the discipline behind more than 560**

HOW MANY STATES: THE DISCIPLINE BEHIND MORE THAN 560

COUNTING THE STATES

- |-- SAFE FORM -> "more than 560" (both owners; official commemorative pages)
- |-- 562 / 565 -> different CLASSIFICATION rules (estates, jagirs, minor holdings)
- |-- LOCAL OCR -> numeral corrupted in extraction -> cannot arbitrate

VERDICT -> the disagreement is about counting conventions, not about history.

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The more-than-560 formulation is a deliberate counting discipline that reports the scale of princely India while refusing to arbitrate between enumeration conventions that produce totals such as 562 and 565.
- **Topic boundary:** Apply this definition only within Integration of the Princely States & the Making of the Republic; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

The number of princely states is a trap disguised as a fact, because the familiar totals differ by what an enumerator counts as a state rather than by any disagreement about history, and the disciplined answer refuses to choose between them.

EVIDENCE AND MECHANISM

- There were more than 560 princely states at independence, which is the formulation both repository owners require.
- The rival totals of 562 and 565 reflect different counting conventions for estates, jagirs and minor holdings, not rival historical claims.
- The repository's local OCR text of *India After Independence* is corrupted at exactly the point where it gives the total, which is a practical demonstration of why the safe formulation exists.
- The Ministry of Culture's commemorations page and the PIB Backgrounder both use the open formulation of over 560 states, so the safe phrasing is also the official one.

EXAMINER CAUTION

- Write more than 560 princely states and add that totals vary by classification; never assert 562 or 565 as the single correct figure and never treat the two as competing events.

EXAM LINK

- **Prelims:** Write more than 560 princely states and add that totals vary by classification; never assert 562 or 565 as the single correct figure and never treat the two as competing events.
- **Mains:** Use the counting caution as a one-line demonstration of source discipline early in a 15 or 20-mark answer.

MINI RECAP

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Menon and the States Department is part of the correct answer.

Technical definition: Mains: Use the department as the institutional evidence unit whenever the directive is Assess rather than Describe.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Menon and the States Department is part of the correct answer.

MUST-WRITE KEYWORDS

- FOUNDATION
- The States Department
- a minister
- a secretary
- a machine
- Precise definition

How to use them: Frame the answer through FOUNDATION; define The States Department, connect a minister with a secretary to explain the mechanism, and use a machine for the decisive comparison or qualification.

VISUAL FIRST

THE STATES DEPARTMENT: A MINISTER, A SECRETARY AND A MACHINE

STATES DEPARTMENT (created 27 June 1947)

- |-- POLITICAL AUTHORITY -> Sardar Vallabhbhai Patel (Home and States Minister)
- |-- OPERATIONAL DRAFTING -> V.P. Menon, Secretary
- |-- METHOD -> appeal to patriotism + narrow legal demand + implied warning
- `-- OUTPUT -> standard Instruments of Accession, standstill arrangements

RULE -> name minister, secretary and department together, or the speed is unexplained.

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The States Department was the Government of India office created on 27 June 1947 under Patel with V.P. Menon as Secretary to negotiate, draft and administer the accession and later merger of the princely states.
- **Topic boundary:** Apply this definition only within Integration of the Princely States & the Making of the Republic; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

Integration was institutional before it was heroic, and the correct answer names three things together - Patel's political authority, V.P. Menon's operational drafting and the States Department's machinery - because removing any one of them makes the speed of 1947 inexplicable.

EVIDENCE AND MECHANISM

- Sardar Vallabhbhai Patel assumed additional charge of the newly created States Department on 27 June 1947, seven weeks before the transfer of power.
- V.P. Menon served as its Secretary and supplied the drafting, negotiation and administrative sequencing that turned a political appeal into standard instruments.
- Patel warned Menon at the time that the situation held dangerous potentialities and that hard-earned freedom might disappear through the states' door, which fixes the urgency of the exercise.
- The department's method combined appeal to patriotism, a narrow legal demand and an implied warning that terms after the transfer of power would be stiffer.

EXAMINER CAUTION

- Do not present integration as one man's achievement; the Advanced owner explicitly rejects that reading, and naming V.P. Menon and the States Department is part of the correct answer.

EXAM LINK

- **Prelims:** Do not present integration as one man's achievement; the Advanced owner explicitly rejects that reading, and naming V.P. Menon and the States Department is part of the correct answer.

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Mains: Use the narrowness as the mechanism paragraph in any answer that asks why integration succeeded so quickly.

Technical definition: Precise definition: The Instrument of Accession was the standard legal instrument by which a princely state transferred Defence, External Affairs and Communications to the Dominion of India while initially retaining internal administration.

How to use them: Frame the answer through The three-subject formula; define why its narrowness worked, connect Precise definition with Topic boundary to explain the mechanism, and use Core claim for the decisive comparison or qualification.

VISUAL FIRST

THE THREE-SUBJECT FORMULA AND WHY ITS NARROWNESS WORKED

INSTRUMENT OF ACCESSION -> three subjects only

- |-- DEFENCE -> no state could defend itself after British withdrawal
- |-- EXTERNAL AFFAIRS -> no state could conduct foreign relations alone
- |-- COMMUNICATIONS -> posts, telegraphs, railways cross every boundary
- `-- LEFT WITH RULER -> internal administration, revenue, courts, succession

MECHANISM -> ask for the impossible-to-retain; take sovereignty without seeming to.

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The Instrument of Accession was the standard legal instrument by which a princely state transferred Defence, External Affairs and Communications to the Dominion of India while initially retaining internal administration.
- **Topic boundary:** Apply this definition only within Integration of the Princely States & the Making of the Republic; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

The Instrument of Accession succeeded because of what it did not ask for: by demanding only Defence, External Affairs and Communications it took everything that constitutes sovereignty in practice while appearing to leave a ruler's internal world intact.

EVIDENCE AND MECHANISM

- The instrument asked acceding states to transfer three subjects only - Defence, External Affairs and Communications.
- These were precisely the subjects that no princely state, however large, could actually exercise for itself once British protection was withdrawn.
- Internal administration, revenue, courts and succession were left with the ruler at the moment of accession, which is why signature looked like a small concession.
- Because the demand was uniform and narrow, it could be standardised and executed at speed across hundreds of units in a matter of weeks.

EXAMINER CAUTION

- Never claim that every subject passed to the Union at the moment of signature; the instrument initially covered three subjects, and the later transfer of internal authority came through merger and constitutional incorporation rather than through the instrument itself.

EXAM LINK

- **Prelims:** Never claim that every subject passed to the Union at the moment of signature; the instrument initially covered three subjects, and the later transfer of internal authority came through merger and constitutional incorporation rather than through the instrument itself.

SESSION 5 - CORE - ATTLEE AND JINNAH: THE ENCOURAGEMENT THE PRINCES RECEIVED

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Jinnah publicly declared on 18 June 1947 that the states would be independent sovereign states on the termination of paramountcy and were free to remain independent if they so desired.

Technical definition: Attlee later qualified the British position by expressing the hope that all the states would in due course find their appropriate place with one or the other dominion.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

How to use them: Frame the answer through Attlee; define Jinnah, connect the encouragement the princes received with Precise definition to explain the mechanism, and use Topic boundary for the decisive comparison or qualification.

VISUAL FIRST

ATTLEE AND JINNAH: THE ENCOURAGEMENT THE PRINCES RECEIVED

WHY THE PRINCES HOPED

20 FEB 1947 -> Attlee: paramountcy will not be handed to any government of British India

18 JUN 1947 -> Jinnah: states become independent sovereign states on termination

LATER -> Attlee hopes all states find a place with one or the other dominion

APR 1947 -> some states join the Constituent Assembly; Travancore, Bhopal, Hyderabad refuse

RESULT -> Indian side treats speed as a security requirement, not a preference.

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The princely independence claim was the contention, encouraged by the statements of February and June 1947, that the lapse of paramountcy restored sovereignty to individual rulers rather than passing it to either dominion.
- **Topic boundary:** Apply this definition only within Integration of the Princely States & the Making of the Republic; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

Princely ambition in 1947 was not merely vanity; it rested on two public statements that appeared to license independence, and an answer that names them explains why the Indian side treated speed as a security requirement.

EVIDENCE AND MECHANISM

- The local OCR text records Clement Attlee's announcement of 20 February 1947 that His Majesty's Government did not intend to hand over their powers and obligations under paramountcy to any government of British India.
- M.A. Jinnah publicly declared on 18 June 1947 that the states would be independent sovereign states on the termination of paramountcy and were free to remain independent if they so desired.
- Attlee later qualified the British position by expressing the hope that all the states would in due course find their appropriate place with one or the other dominion.
- Some states nonetheless showed realism early, joining the Constituent Assembly in April 1947, while Travancore, Bhopal and Hyderabad publicly announced a desire for independent status.

EXAMINER CAUTION

- Present these as encouragements to a claim rather than as legal authority for it; Indian nationalist opinion never accepted that independence was an option open to a princely state.

SESSION 6 - CORE - TWO PRESSURES ON THE PRINCES: THEIR OWN PEOPLE AND PARTITION

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: The national movement had long held that political power belonged to the people of a state and not to its ruler, which denied a prince the standing to bargain about sovereignty.

Technical definition: Core claim: Accession was never a private transaction between a department and a durbar, because rulers were negotiating with New Delhi while facing organised political movements inside their own states and a partitioned subcontinent outside them.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

MUST-WRITE KEYWORDS

- Partition

How to use them: Frame the answer through Two pressures on the princes; define their own people, connect Partition with Precise definition to explain the mechanism, and use Topic boundary for the decisive comparison or qualification.

VISUAL FIRST

TWO PRESSURES ON THE PRINCES: THEIR OWN PEOPLE AND PARTITION

THE PRINCE'S POSITION IN 1947 -> squeezed from two sides

ABOVE -> States Department: narrow demand now, stiffer terms later

BELOW -> States' Peoples' Conference: democratic order, integration, agitation

OUTSIDE -> Partition violence -> isolation is exposure, not independence

BARGAIN -> accede on three subjects and retain dignities, or face both pressures alone.

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The two-pressures reading treats accession as the outcome of simultaneous bargaining with the States Department above and organised states' peoples' movements below, rather than as a purely diplomatic transaction.
- **Topic boundary:** Apply this definition only within Integration of the Princely States & the Making of the Republic; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

Accession was never a private transaction between a department and a durbar, because rulers were negotiating with New Delhi while facing organised political movements inside their own states and a partitioned subcontinent outside them.

EVIDENCE AND MECHANISM

- The people of the states had participated in the making of the nation since the late nineteenth century and were organised under the States' Peoples' Conference, demanding a democratic order and integration with the rest of the country.
- The national movement had long held that political power belonged to the people of a state and not to its ruler, which denied a prince the standing to bargain about sovereignty.
- Patel's implied warning that he might be unable to restrain impatient peoples' movements converted internal agitation into a negotiating instrument.
- Partition violence made isolation dangerous for small and landlocked states, so the alternative to accession was not independence but exposure.

EXAMINER CAUTION

- Do not describe the princes as passive; they calculated, and the calculation included the movement in their own capitals as well as the department in Delhi.

EXAM LINK

SESSION 7 - CORE - ACCESSION, MERGER, DEMOCRATISATION, INCORPORATION: FOUR STAGES

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Precise definition: Integration in this topic denotes the four-stage passage from accession on three subjects, through merger and democratisation, to constitutional incorporation, and not the signature of an instrument alone.

Technical definition: The commonest structural error in this topic is to treat accession as the whole of integration, when the sources present at least four distinct stages, each with its own instrument, date and difficulty.

FOUR STAGES, FOUR INSTRUMENTS

1 ACCESSION	-> Instrument of Accession (three subjects)	-> by 15 Aug 1947
2 MERGER	-> merger agreements, unions, attachments	-> from Dec 1947

- **Topic boundary:** Apply this definition only within Integration of the Princely States & the Making of the Republic; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

The commonest structural error in this topic is to treat accession as the whole of integration, when the sources present at least four distinct stages, each with its own instrument, date and difficulty.

EVIDENCE AND MECHANISM

- Stage one was accession on three subjects, executed at speed and largely complete by 15 August 1947.
- Stage two was merger and consolidation, which began in December 1947 and grouped unviable units into unions or attached them to neighbouring provinces.
- Stage three was democratisation inside the former states, which extended elections, courts, services and revenue administration and proceeded unevenly and often slowly.
- Stage four was constitutional incorporation, completed when the Constitution came into force and a single citizenship dissolved the legal category of a prince's subject.

EXAMINER CAUTION

CORE EXPLANATION

Junagadh is the case in which the accession formula failed because the ruler's choice contradicted both his population and his geography, and it was settled by counting people rather than by using force.

EVIDENCE AND MECHANISM

- Junagadh was a small state on the Saurashtra coast, surrounded by Indian territory and without geographical contiguity with Pakistan, yet its Nawab announced accession to Pakistan.
- The state's overwhelmingly Hindu population organised a popular movement, forced the Nawab to flee and established a provisional government.
- The Dewan of Junagadh, Shah Nawaz Bhutto, then invited the Government of India to intervene, and Indian troops thereafter entered the state.
- A plebiscite held in February 1948 went in favour of joining India, and the local source calls the result overwhelming without stating any percentage.

CONCEPT DEFINITIONS

- **Precise definition:** Operation Polo, also called the Police Action, is the Indian army operation of September 1948 that ended the Nizam of Hyderabad's claim to independent status and was followed by the state's accession.
- **Topic boundary:** Apply this definition only within Integration of the Princely States & the Making of the Republic; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

Hyderabad is the case in which negotiation was tried longest and failed, and the police action of September 1948 must therefore be presented as the end of a documented process rather than as an opening move.

EVIDENCE AND MECHANISM

- Hyderabad was the largest state and was completely surrounded by Indian territory, and its Nizam claimed an independent status rather than acceding.
- The Government of India signed a standstill agreement with the Nizam in November 1947, hoping that representative government inside the state would make merger easier.
- Inside the state, the communal organisation Ittihad ul Muslimin and its paramilitary Razakars grew rapidly, the Hyderabad State Congress launched a satyagraha for democratisation, and a Communist-led peasant struggle developed in the Telangana region.
- The Indian army moved into Hyderabad in September 1948 in the operation commonly called Operation Polo or the Police Action, after which the Nizam surrendered and acceded to the Indian Union.

EXAMINER CAUTION

KASHMIR: OCTOBER 1947, ACCESSION, AND DISCIPLINED RESTRAINT

KASHMIR -> strict order of events (do not reorder)

- 1 RULER UNDECIDED -> Hari Singh accedes to neither dominion
 - 2 POPULAR FORCE -> National Conference under Sheikh Abdullah favours India
 - 3 OCTOBER 1947 -> tribal invasion advances towards Srinagar
 - 4 APPEAL -> Maharaja asks India for military assistance
 - 5 ACCESSION -> Instrument signed; Abdullah heads the administration
 - 6 AIRLIFT -> troops flown to Srinagar AFTER accession
 - 7 30 DEC 1947 -> reference to the UN Security Council; fighting continues
- STOP LINE -> restraint beyond this point; contested later claims are not history here.

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The Kashmir accession denotes the signature of the Instrument of Accession by Maharaja Hari Singh in October 1947 following the tribal invasion and preceding the despatch of Indian troops to Srinagar.
- **Topic boundary:** Apply this definition only within Integration of the Princely States & the Making of the Republic; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

Kashmir is the case in which the accession formula was overtaken by an invasion, and it is also the case in which examination discipline matters most, because the historical sequence is clear while much of the later argument is contested.

EVIDENCE AND MECHANISM

- Maharaja Hari Singh had acceded to neither dominion, while the National Conference under Sheikh Abdullah, the state's principal popular force, favoured accession to India.
- Tribal invaders entered Kashmir in October 1947 and pushed towards Srinagar, and the Maharaja appealed to India for military assistance.
- Indian troops were flown to Srinagar only after the Instrument of Accession had been signed, and Sheikh Abdullah was installed as head of the state's administration.
- The Government of India referred the Kashmir problem to the Security Council of the United Nations on 30 December 1947, asking for vacation of aggression, and fighting continued thereafter.

EXAMINER CAUTION

- Record the invasion, the accession, the airlift and the reference to the United Nations, and stop there; later constitutional and political controversies are outside the historical scope of this owner.

EXAM LINK

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Precise definition: The four-variable comparison engine is the analytical device that separates the three hard accession cases by the ruler's choice, the population's composition, the state's geography and the security situation.

- **Topic boundary:** Apply this definition only within Integration of the Princely States & the Making of the Republic; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

The three problem states are examined together so often that the only way to score is to compare them on fixed variables, because an answer that narrates them one after another has produced chronology where the examiner asked for analysis.

EVIDENCE AND MECHANISM

- Variable one is the ruler's choice: Junagadh's Nawab acceded to Pakistan, Hyderabad's Nizam sought independence, and Kashmir's Maharaja hesitated between the two dominions.
- Variable two is the population: Junagadh was overwhelmingly Hindu under a Muslim ruler, Hyderabad was largely Hindu under the Nizam, and Kashmir was Muslim-majority under a Hindu Maharaja.
- Variable three is geography: Junagadh was non-contiguous with Pakistan, Hyderabad was landlocked inside India, and Kashmir bordered both dominions.
- Variable four is security: Junagadh faced an internal movement, Hyderabad faced Razakar violence and stalemate, and Kashmir faced an external invasion, which is why three different instruments were used.

EXAMINER CAUTION

- The three problem states did not pose the same problem; use the four variables explicitly, because the differences, not the similarities, are what the comparison is testing.

SESSION 12 - CORE - UNIONS AND MERGERS: MAKING UNVIALE STATES ADMINISTRABLE

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Prelims: Do not describe the process as uniform; large states negotiated individually while small ones were grouped, and this asymmetry is the origin of much later reorganisation.

Technical definition: Precise definition: Merger and union formation denote the second stage of integration, in which acceded states were amalgamated into viable administrative units such as Madhya Bharat, Rajasthan, the Patiala and East Punjab States Union, Saurashtra and Travancore-Cochin.

UNIONS AND MERGERS: MAKING UNVIABLE STATES ADMINISTRABLE

SECOND STAGE (from December 1947) -> making units governable

SMALL STATES -> merged into neighbouring provinces or centrally administered areas

NEW UNIONS -> Madhya Bharat | Rajasthan | Patiala and East Punjab States Union

-> Saurashtra | Travancore-Cochin

RETAINED FORM-> Mysore | Hyderabad | Jammu and Kashmir as separate states of the Union

CONSEQUENCE -> an asymmetrical map that later reorganisation would have to revisit.

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** Merger and union formation denote the second stage of integration, in which acceded states were amalgamated into viable administrative units such as Madhya Bharat, Rajasthan, the Patiala and East Punjab States Union, Saurashtra and Travancore-Cochin.
- **Topic boundary:** Apply this definition only within Integration of the Princely States & the Making of the Republic; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

The second stage of integration is the one most answers omit, and it is where the map of India was actually redrawn, because hundreds of acceding units had to be turned into provinces capable of carrying a civil service, a judiciary and an election.

EVIDENCE AND MECHANISM

- The second stage began in December 1947 and was carried through with speed comparable to the first.
- Smaller states were merged with neighbouring provinces or grouped together into centrally administered areas.
- A large number were consolidated into new unions - Madhya Bharat, Rajasthan, the Patiala and East Punjab States Union, Saurashtra and Travancore-Cochin.
- Mysore, Hyderabad and Jammu and Kashmir retained their original form as separate states of the Union, so the settlement was deliberately asymmetrical rather than uniform.

EXAMINER CAUTION

- Do not describe the process as uniform; large states negotiated individually while small ones were grouped, and this asymmetry is the origin of much later reorganisation.

DISCIPLINE -> criticism recorded; NO amount for any purse is asserted in this package

USE -> the counterpoint that stops a heroic narrative becoming an uncritical one.

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** Privy purses were the tax-free payments guaranteed to the rulers of major states in return for the surrender of power, retained alongside titles and ceremonial privileges and not abolished during the initial integration.
- **Topic boundary:** Apply this definition only within Integration of the Princely States & the Making of the Republic; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

Integration was purchased, not merely negotiated, and the honest answer records the price: rulers who surrendered power retained income and dignities, and those settlements survived the initial integration entirely intact.

EVIDENCE AND MECHANISM

- Rulers of the major states received privy purses in return for surrendering power and authority, and retained titles, succession to the gaddi and ceremonial privileges.
- These concessions were criticised at the time and afterwards, and the Basic owner treats them as a real cost of the settlement rather than as a detail.
- Privy purses were not abolished during the initial integration; the Advanced owner dates their abolition to 1971, decades after accession.
- This package states no amount for any privy purse, because the Basic owner's factual-risk caution forbids it even though the local book text carries figures.

EXAMINER CAUTION

- Never date the abolition of the privy purses to the accession itself, and never quote a purse amount; the safe answer names the instrument, notes the criticism and dates the abolition to 1971 on the owner's authority.

EXAM LINK

- **Prelims:** Never date the abolition of the privy purses to the accession itself, and never quote a purse amount; the safe answer names the instrument, notes the criticism and dates the abolition to 1971 on the owner's authority.

CORE EXPLANATION

Integration was completed by constitutional means rather than administrative ones, because it was the Constitution, and not any instrument of accession, that abolished the legal category of a prince's subject.

EVIDENCE AND MECHANISM

- The Constituent Assembly was presided over by Dr Rajendra Prasad, with B.R. Ambedkar chairing the Drafting Committee.
- The Constitution was adopted on 26 November 1949 and came into force on 26 January 1950.
- A single citizenship, a single judicial hierarchy and uniform fundamental rights dissolved the distinction between the subjects of princes and the citizens of the Union.
- India became independent on 15 August 1947 and a republic on 26 January 1950, so the two dates answer two different questions and can never be interchanged.

EXAMINER CAUTION

- India did not become a republic in 1947; independence and the republic are separated by more than two years, and the distinction is examined directly at Prelims level.

CONCEPT DEFINITIONS

- **Precise definition:** Rashtriya Ekta Diwas is the annual observance on 31 October, first celebrated in 2014, commemorating Sardar Patel's birth anniversary and his role in the political integration of the princely states.
- **Topic boundary:** Apply this definition only within Integration of the Princely States & the Making of the Republic; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

The live commemorative frame around this topic is genuinely useful and genuinely dangerous, and the mature candidate uses the official record for context while holding it to the documented chronology.

EVIDENCE AND MECHANISM

- The Ministry of Culture's commemorations page records a two-year celebration of Sardar Patel's 150th birth anniversary launched at the Statue of Unity on 31 October 2024, with a commemorative coin and stamp, a book, a documentary on the unification of over 560 princely states, and lectures, exhibitions and a virtual museum.
- A PIB Backgrounder posted on 30 October 2025 records that Rashtriya Ekta Diwas is observed annually on 31 October, that it was first celebrated in 2014, and that Ek Bharat Shreshtha Bharat was announced on 31 October 2015.
- The same Backgrounder states that Patel integrated the states by 15 August 1947 or shortly thereafter, which is a commemorative compression, because the Junagadh plebiscite belongs to February 1948 and the Hyderabad Police Action to September 1948.
- The Backgrounder's figure that the states covered nearly 40 per cent of India's territory and population is carried strictly as that page's attributed estimate beside the repository owner's phrasing of roughly a third of the subcontinent's territory.

EXAMINER CAUTION

- Use official commemorative material for framing only; never let a commemorative sentence overwrite a documented date, and never convert a commemoration into a claim about present-day constitutional controversy.

MODERN HISTORY DEEP-REVIEW CORE CONTROL

- **Must remember:** Accession, administrative integration and constitutional reorganisation were distinct: Junagadh, Hyderabad and Jammu and Kashmir followed different legal, military and political sequences.
- **Close distinction:** The Instrument of Accession transferred specified subjects, not an identical final settlement in every state; Hyderabad's September 1948 action and Kashmir's October 1947 accession cannot be analogised mechanically.
- **Evidence / interpretation limit:** States Ministry papers, accession instruments and regional evidence must qualify triumphalist inevitability and recognise rulers, popular movements, borders and international conflict.

BASIC MCQS / REMEDIATION

Q1. Which statement correctly identifies Attlee's paramountcy announcement of 20 February 1947?

A. The local OCR text of *India After Independence* records Clement Attlee's announcement of 20 February 1947 that His Majesty's Government did not intend to hand over their powers and obligations under paramountcy to any government of British India, a statement that several large princes read as a licence to claim sovereignty for themselves. B. M.A. Jinnah publicly declared on 18 June 1947 that the states would be independent sovereign states on the termination of paramountcy and were free to remain independent if they so desired, which encouraged the largest princes and made speed indispensable on the Indian side. C. Sardar Vallabhbhai Patel assumed additional charge of the newly created States Department on 27 June 1947 with V.P. Menon as its Secretary, so integration was the work of a named minister, a named secretary and a department, and never of one man acting alone. D. A minority of states showed realism by joining the Constituent Assembly in April 1947 while the majority stayed away, and Travancore, Bhopal and Hyderabad publicly announced a desire for independent status, so princely opinion was already divided before any instrument was signed.

Answer: A. Explanation: The local OCR text of India After Independence records Clement Attlee's announcement of 20 February 1947 that His Majesty's Government did not intend to hand over their powers and obligations under paramountcy to any government of British India, a statement that several large princes read as a licence to claim sovereignty for themselves. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q2. Which chronology card should be filed under Attlee's paramountcy announcement of 20 February 1947?

A. Sardar Vallabhbhai Patel assumed additional charge of the newly created States Department on 27 June 1947 with V.P. Menon as its Secretary, so integration was the work of a named minister, a named secretary and a department, and never of one man acting alone. B. C. M.A. Jinnah publicly declared on 18 June 1947 that the states would be independent sovereign states on the termination of paramountcy and were free to remain independent if they so desired, which encouraged the largest princes and made speed indispensable on the Indian side. D. The Instrument of Accession asked acceding states to transfer only three subjects - Defence, External Affairs and Communications - a deliberately narrow demand that covered precisely what no princely state could exercise for itself while leaving internal administration untouched for the moment.

This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q3. Which option should a candidate retain when revising Attlee's paramountcy announcement of 20 February 1947?

The local OCR text of *India After Independence* records Clement Attlee's announcement of 20 February 1947 that His Majesty's Government did not intend to hand over their powers and obligations under paramountcy to any government of British India, a statement that several large princes read as a licence to claim sovereignty for themselves. D. British paramountcy over the princely states lapsed when British rule ended on 15 August 1947 and it was never transferred to India or Pakistan, so the Union's authority over princely India had to be constructed by agreement and pressure rather than inherited by legal succession.

Answer: C. Explanation: The local OCR text of India After Independence records Clement Attlee's announcement of 20 February 1947 that His Majesty's Government did not intend to hand over their powers and obligations under paramountcy to any government of British India, a statement that several large princes read as a licence to claim sovereignty for themselves. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q4. Which statement avoids a common matching trap about Attlee's paramountcy announcement of 20 February 1947?

A. There were more than 560 princely states at independence, and the familiar totals of 562 and 565 differ by counting convention rather than by historical fact, so a safe answer writes more than 560 and never asserts either total as the single correct figure. B. The Instrument of Accession asked acceding states to transfer only three subjects - Defence, External Affairs and Communications - a deliberately narrow demand that covered precisely what no princely state could exercise for itself while leaving internal administration untouched for the moment. C. British paramountcy over the princely states lapsed when British rule ended on 15 August 1947 and it was never transferred to India or Pakistan, so the Union's authority over princely India had to be constructed by agreement and pressure rather than inherited by legal succession. Q5. Which statement correctly identifies The divided princely response of April 1947?

A. A minority of states showed realism by joining the Constituent Assembly in April 1947 while the majority stayed away, and Travancore, Bhopal and Hyderabad publicly announced a desire for independent status, so princely opinion was already divided before any instrument was signed. B. Sardar Vallabhbhai Patel assumed additional charge of the newly created States Department on 27 June 1947 with V.P. Menon as its Secretary, so integration was the work of a named minister, a named secretary and a department, and never of one man acting alone. C. The Instrument of Accession asked acceding states to transfer only three subjects - Defence, External Affairs and Communications - a deliberately narrow demand that covered precisely what no princely state could exercise for itself while leaving internal administration untouched for the moment. D. M.A. Jinnah publicly declared on 18 June 1947 that the states would be independent sovereign states on the termination of paramountcy and were free to remain independent if they so desired, which encouraged the largest princes and made speed indispensable on the Indian side.

Answer: A. Explanation: A minority of states showed realism by joining the Constituent Assembly in April 1947 while the majority stayed away, and Travancore, Bhopal and Hyderabad publicly announced a desire for independent status, so princely opinion was already divided before any instrument was signed. Kashmir's principal popular political force, the National Conference under Sheikh Abdullah, favoured accession to India and Abdullah was installed as head of the state's administration, which is why the Kashmir case cannot be reduced to a private transaction between a Maharaja and New Delhi. D. Junagadh was a small Saurashtra state surrounded by Indian territory and without geographical contiguity with Pakistan, yet its Nawab announced accession to Pakistan, its overwhelmingly Hindu population organised a movement that forced him to flee, and its Dewan Shah Nawaz Bhutto then invited the Government of India to intervene.

Answer: B. Explanation: There were more than 560 princely states at independence, and the familiar totals of 562 and 565 differ by counting convention rather than by historical fact, so a safe answer writes more than 560 and never asserts either total as the single correct figure. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q27. Which option should a candidate retain when revising The counting discipline of more than 560 states?

A. The Government of India signed a standstill agreement with the Nizam of Hyderabad in November 1947 in the hope that negotiation and representative government inside the state would make merger easier, so force in Hyderabad came after, and not instead of, a documented attempt at settlement. B. Tribal invaders entered Kashmir in October 1947 and pushed towards Srinagar, Maharaja Hari Singh appealed to India for military assistance, and troops were flown in only after the Instrument of Accession had been signed, so invasion preceded accession and accession preceded the airlift. A plebiscite held in Junagadh in February 1948 went in favour of joining India, and although the local source describes that result as overwhelming, this package states no percentage because no audited polling figure is held anywhere in the repository. B. The Government of India referred the Kashmir problem to the Security Council of the United Nations on 30 December 1947 asking for vacation of aggression, and this package records that referral and the fighting that followed without narrating any later contested political or constitutional claim. C. Hyderabad was integrated in September 1948 through the operation commonly called Operation Polo or the Police Action, after which the Nizam surrendered and acceded to the Indian Union, and no casualty or troop figure for that episode is asserted here. D. Large numbers of small states were consolidated into new unions such as Madhya Bharat, Rajasthan, the Patiala and East Punjab States Union, Saurashtra and Travancore-Cochin, while Mysore, Hyderabad and Jammu and Kashmir retained their original form as separate states of the Union.

Answer: B. Explanation: The Government of India referred the Kashmir problem to the Security Council of the United Nations on 30 December 1947 asking for vacation of aggression, and this package records that referral and the fighting that followed without narrating any later contested political or constitutional claim. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q51. Which option should a candidate retain when revising The reference to the United Nations on 30 December 1947?

A. Explanation: Rulers who surrendered power received privy purses and retained titles, succession and ceremonial privileges, and these settlements were not abolished during the initial integration; the repository owner dates their abolition to 1971, and this package asserts no amount for any purse. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q72. Which statement avoids a common matching trap about Privy purses as a continuing cost, not an immediate abolition?

A. A minority of states showed realism by joining the Constituent Assembly in April 1947 while the majority stayed away, and Travancore, Bhopal and Hyderabad publicly announced a desire for independent status, so princely opinion was already divided before any instrument was signed. B. Sardar Vallabhbhai Patel assumed additional charge of the newly created States Department on 27 June 1947 with V.P. Menon as its Secretary, so integration was the work of a named minister, a named secretary and a department, and never of one man acting alone. C. M.A. Jinnah publicly declared on 18 June 1947 that the states would be independent sovereign states on the termination of paramountcy and were free to remain independent if they so desired, which encouraged the largest princes and made speed indispensable on the Indian side. D. Rulers who surrendered power received privy purses and retained titles, succession and ceremonial privileges, and these settlements were not abolished during the initial integration; the repository owner dates their abolition to 1971, and this package asserts no amount for any purse.

Answer: D. Explanation: Rulers who surrendered power received privy purses and retained titles, succession and ceremonial privileges, and these settlements were not abolished during the initial integration; the repository owner dates their abolition to 1971, and this package asserts no amount for any purse. What this owner must now support

- Administrative and socio-cultural issues in integrating princely states

The table integrates the examinable demand and paper metadata. It does not turn an unkeyed objective question into a solved answer, and it does not claim that lexical presence alone proves full conceptual sufficiency.

PYQ DEMAND CARD 1 - 2021 Mains GS-I Q3

Demand: Assess the main administrative issues and socio-cultural problems in the integration process of Indian Princely States. (Answer in 150 words)

Status: verbatim-official-stem-verified-locally in the repository export of the 2021 General Studies Paper I question paper, and routed to this owner at 10 marks by the audited local Mains routing ledger

Model solution / safe handling: Open by separating the two halves of the demand, because the directive is Assess and the examiner has named administrative issues and socio-cultural problems as distinct heads. On the administrative side, state that paramountcy lapsed rather than being transferred, so a department had to be built from nothing: Patel took additional charge of the States Department on 27 June 1947 with V.P. Menon as Secretary, and the machinery had to standardise instruments, absorb more than 560 units of wildly unequal size, merge unviable states into unions such as Madhya Bharat, Rajasthan, the Patiala and East Punjab States Union, Saurashtra and Travancore-Cochin, and then extend courts, services, revenue systems and elections into territories that had never known them. On the socio-cultural side, note the dynastic legitimacy of rulers, the survival of titles, successions and ceremonial privileges through the privy-purse settlement, the very uneven pace of democratisation inside former states, and the communal and regional sensitivities visible in Junagadh's ruler-subject mismatch and in the Razakar mobilisation in Hyderabad. Add one qualification: the process mixed persuasion, popular pressure, plebiscite and, in September 1948, force, so a single administrative narrative is inadequate. Close by grading the outcome: the administrative problem was solved quickly and the socio-cultural one slowly, which is why the Constitution's grant of a single citizenship on 26 January 1950 mattered more than any individual instrument of accession.

Demand decoding: The directive **answer** requires a direct position on "PYQ DEMAND CARD 1 - 2021 Mains GS-I Q3", coverage of every clause, chronological-causal analysis, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: For a 15-mark answer, open with a two-sentence thesis; organise five named Acts, events, organisations, regions, primary records or scholarly positions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded conclusion.

Why this earns marks: The answer obeys the directive, distinguishes dates and policy stages, connects evidence to mechanism, recognises regional/social variation and avoids teleology or hero worship.

How to improve this answer: For "PYQ DEMAND CARD 1 - 2021 Mains GS-I Q3", replace the weakest generalisation with one additional named primary/official record or attributed scholarly interpretation and state exactly what it cannot prove.

PYQ DEMAND CARD 2 - 2018-2026 Prelims GS-I

Demand: No objective question in the audited local Prelims routing ledgers for 2018-2023, 2024-2025 or 2026 is routed to this owner.

Status: unresolved-locally; the package asserts no Prelims stem, no option set and no answer letter for this topic

Model solution / safe handling: Treat this as a transparent zero-direct-PYQ audit rather than as a gap to be filled with an invented question. The examinable surface is nevertheless dense and matchable: paramountcy lapsed rather than being transferred; the Instrument of Accession covered Defence, External Affairs and Communications; Operation Polo is Hyderabad in September 1948; the Junagadh plebiscite is February 1948; the Kashmir tribal invasion is October 1947; the Constitution was adopted on 26 November 1949 and commenced on 26 January 1950. Revise those as matching pairs of actor, instrument, place and date, and do not relabel any adjacent Polity or International Relations question as a Modern History Prelims PYQ for this owner.

Demand decoding: Treat "PYQ DEMAND CARD 2 - 2018-2026 Prelims GS-I" as a statement-level chronology and attribution problem: verify every date, Act/provision, person, organisation, region and causal claim independently, without inventing an official key.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: Fix the tested time window; separate event/enactment/commencement; match each actor and provision; eliminate the closest distractor with one named record, treaty, session or regional fact.

Why this earns marks: It preserves exact chronology and answer-text mapping, uses named evidence and keeps inferred elimination distinct from an official key.

How to improve this answer: For "PYQ DEMAND CARD 2 - 2018-2026 Prelims GS-I", add one explicit line showing why the nearest distractor fails on date, legal status, geography, attribution or degree.

Question: Assess the significance of the lapse of British paramountcy for the integration of the princely states. Answer in about 150 words.

Model thesis: The lapse of paramountcy converted integration from an inheritance into a construction project, and the speed of the Indian response between June and August 1947 is what prevented that legal vacuum from hardening into a political one.

Evidence spine:

- British paramountcy over the princely states lapsed when British rule ended on 15 August 1947 and it was never transferred to India or Pakistan, so the Union's authority over princely India had to be constructed by agreement and pressure rather than inherited by legal succession.
- The local OCR text of *India After Independence* records Clement Attlee's announcement of 20 February 1947 that His Majesty's Government did not intend to hand over their powers and obligations under paramountcy to any government of British India, a statement that several large princes read as a licence to claim sovereignty for themselves.
- M.A. Jinnah publicly declared on 18 June 1947 that the states would be independent sovereign states on the termination of paramountcy and were free to remain independent if they so desired, which encouraged the largest princes and made speed indispensable on the Indian side.
- Sardar Vallabhbhai Patel assumed additional charge of the newly created States Department on 27 June 1947 with V.P. Menon as its Secretary, so integration was the work of a named minister, a named secretary and a department, and never of one man acting alone.

Balance: Distinguish intention from outcome, identify regional or social variation, and avoid treating a formal measure as complete implementation.

Conclusion: The lapse of paramountcy converted integration from an inheritance into a construction project, and the speed of the Indian response between June and August 1947 is what prevented that legal vacuum from hardening into a political one.

Question: Explain why the Instrument of Accession initially demanded only three subjects from acceding states. Answer in about 150 words.

Model thesis: The instrument's narrowness was its strength: by asking only for Defence, External Affairs and Communications it demanded exactly what no state could supply for itself, which made acceptance cheap in appearance and decisive in substance.

Evidence spine:

- The Instrument of Accession asked acceding states to transfer only three subjects - Defence, External Affairs and Communications - a deliberately narrow demand that covered precisely what no princely state could exercise for itself while leaving internal administration untouched for the moment.
- Sardar Vallabhbhai Patel assumed additional charge of the newly created States Department on 27 June 1947 with V.P. Menon as its Secretary, so integration was the work of a named minister, a named secretary and a department, and never of one man acting alone.
- Every state except Junagadh, Jammu and Kashmir and Hyderabad had acceded to India by 15 August 1947, so the three famous crisis cases were exceptions inside an overwhelmingly successful negotiation and not the normal pattern of accession.
- The second and harder stage of full integration began in December 1947, when smaller states were merged with neighbouring provinces or grouped into new unions, so accession was only the first of two distinct achievements and never the whole of integration.

Balance: Distinguish intention from outcome, identify regional or social variation, and avoid treating a formal measure as complete implementation.

Question: Compare Junagadh, Hyderabad and Kashmir as three distinct failures of the accession formula rather than three versions of one problem. Answer in about 250 words.

Model thesis: The three cases failed the formula in three different ways - a ruler at odds with his people, a ruler seeking sovereignty, and a ruler paralysed between two dominions - which is precisely why three different instruments were used to settle them.

Evidence spine:

- Junagadh was a small Saurashtra state surrounded by Indian territory and without geographical contiguity with Pakistan, yet its Nawab announced accession to Pakistan, its overwhelmingly Hindu population organised a movement that forced him to flee, and its Dewan Shah Nawaz Bhutto then invited the Government of India to intervene.
- Tribal invaders entered Kashmir in October 1947 and pushed towards Srinagar, Maharaja Hari Singh appealed to India for military assistance, and troops were flown in only after the Instrument of Accession had been signed, so invasion preceded accession and accession preceded the airlift.
- The Government of India signed a standstill agreement with the Nizam of Hyderabad in November 1947 in the hope that negotiation and representative government inside the state would make merger easier, so force in Hyderabad came after, and not instead of, a documented attempt at settlement.
- A plebiscite held in Junagadh in February 1948 went in favour of joining India, and although the local source describes that result as overwhelming, this package states no percentage because no audited polling figure is held anywhere in the repository.
- Hyderabad was integrated in September 1948 through the operation commonly called Operation Polo or the Police Action, after which the Nizam surrendered and acceded to the Indian Union, and no casualty or troop figure for that episode is asserted here.

Balance: Distinguish intention from outcome, identify regional or social variation, and avoid treating a formal measure as complete implementation.

Conclusion: The three cases failed the formula in three different ways - a ruler at odds with his people, a ruler seeking sovereignty, and a ruler paralysed between two dominions - which is precisely why three different instruments were used to settle them.

Question: Trace the process by which accession in 1947 was converted into administrative and constitutional integration. Answer in about 250 words.

Model thesis: Integration was a sequence and not an event: accession on three subjects, then merger and the creation of unions, then democratisation inside the former states, and finally constitutional incorporation that dissolved princely subjecthood into citizenship.

Evidence spine:

- The second and harder stage of full integration began in December 1947, when smaller states were merged with neighbouring provinces or grouped into new unions, so accession was only the first of two distinct achievements and never the whole of integration.
- Large numbers of small states were consolidated into new unions such as Madhya Bharat, Rajasthan, the Patiala and East Punjab States Union, Saurashtra and Travancore-Cochin, while Mysore, Hyderabad and Jammu and Kashmir retained their original form as separate states of the Union.
- Rulers who surrendered power received privy purses and retained titles, succession and ceremonial privileges, and these settlements were not abolished during the initial integration; the repository owner dates their abolition to 1971, and this package asserts no amount for any purse.
- The Constituent Assembly, presided over by Dr Rajendra Prasad with B.R. Ambedkar chairing the Drafting Committee, adopted the Constitution on 26 November 1949 and it came into force on 26 January 1950, which is the date on which India became a republic and princely subjects became citizens.

Balance: Distinguish intention from outcome, identify regional or social variation, and avoid treating a formal measure as complete implementation.

Question: "Integration succeeded because it asked for little at the moment when refusing anything was impossible." Critically examine. Answer in about 300 words.

Model thesis: The sequencing thesis explains most of the outcome but not all of it: the narrow demand and the moment of maximum uncertainty carried the great majority of states, while popular movements, financial concessions and, in one case, force carried the remainder.

Evidence spine:

- British paramountcy over the princely states lapsed when British rule ended on 15 August 1947 and it was never transferred to India or Pakistan, so the Union's authority over princely India had to be constructed by agreement and pressure rather than inherited by legal succession.

- Every state except Junagadh, Jammu and Kashmir and Hyderabad had acceded to India by 15 August 1947, so the three famous crisis cases were exceptions inside an overwhelmingly successful negotiation and not the normal pattern of accession.
- The second and harder stage of full integration began in December 1947, when smaller states were merged with neighbouring provinces or grouped into new unions, so accession was only the first of two distinct achievements and never the whole of integration.
- Rulers who surrendered power received privy purses and retained titles, succession and ceremonial privileges, and these settlements were not abolished during the initial integration; the repository owner dates their abolition to 1971, and this package asserts no amount for any purse.
- Hyderabad was integrated in September 1948 through the operation commonly called Operation Polo or the Police Action, after which the Nizam surrendered and acceded to the Indian Union, and no casualty or troop figure for that episode is asserted here.

Balance: Distinguish intention from outcome, identify regional or social variation, and avoid treating a formal measure as complete implementation.

Conclusion: The sequencing thesis explains most of the outcome but not all of it: the narrow demand and the moment of maximum uncertainty carried the great majority of states, while popular movements, financial concessions and, in one case, force carried the remainder.

Demand decoding: The directive **critically examine** requires a direct position on “Integration succeeded because it asked for little at the moment when refusing anything was...”, coverage of every clause, chronological-causal analysis, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: For a 20-mark answer, open with a two-sentence thesis; organise six to eight named Acts, events, organisations, regions, primary records or scholarly positions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded conclusion.

Why this earns marks: The answer obeys the directive, distinguishes dates and policy stages, connects evidence to mechanism, recognises regional/social variation and avoids teleology or hero worship.

How to improve this answer: For “Integration succeeded because it asked for little at the moment when refusing anything was...”, replace the weakest generalisation with one additional named primary/official record or attributed scholarly interpretation and state exactly what it cannot prove.

ORIGINAL MAINS 6 - 20 MARKS

Question: Examine how the territorial accession of 1947 was completed by the constitutional settlement of 1950. Answer in about 300 words.

Model thesis: Accession created a Union of acceding states; the Constitution created a republic of citizens, and it is the second event, not the first, that made integration irreversible by removing the legal category of a prince's subject.

Evidence spine:

- Sardar Vallabhbhai Patel assumed additional charge of the newly created States Department on 27 June 1947 with V.P. Menon as its Secretary, so integration was the work of a named minister, a named secretary and a department, and never of one man acting alone.
- The second and harder stage of full integration began in December 1947, when smaller states were merged with neighbouring provinces or grouped into new unions, so accession was only the first of two distinct achievements and never the whole of integration.
- Large numbers of small states were consolidated into new unions such as Madhya Bharat, Rajasthan, the Patiala and East Punjab States Union, Saurashtra and Travancore-Cochin, while Mysore, Hyderabad and Jammu and Kashmir retained their original form as separate states of the Union.

- Rulers who surrendered power received privy purses and retained titles, succession and ceremonial privileges, and these settlements were not abolished during the initial integration; the repository owner dates their abolition to 1971, and this package asserts no amount for any purse.
- The Constituent Assembly, presided over by Dr Rajendra Prasad with B.R. Ambedkar chairing the Drafting Committee, adopted the Constitution on 26 November 1949 and it came into force on 26 January 1950, which is the date on which India became a republic and princely subjects became citizens.
- The Ministry of Culture records a two-year commemoration of Sardar Vallabhbhai Patel's 150th birth anniversary launched at the Statue of Unity on 31 October 2024, and a PIB Backgrounder of 30 October 2025 records that Rashtriya Ekta Diwas is observed annually on 31 October and was first celebrated in 2014.

Balance: Distinguish intention from outcome, identify regional or social variation, and avoid treating a formal measure as complete implementation.

Conclusion: Accession created a Union of acceding states; the Constitution created a republic of citizens, and it is the second event, not the first, that made integration irreversible by removing the legal category of a prince's subject.

Demand decoding: The directive **examine** requires a direct position on “Examine how the territorial accession of 1947 was completed by the constitutional...”, coverage of every clause, chronological-causal analysis, named evidence, a counter-position and a qualified verdict.

Mini-timeline

Date	Event
FACT: July 1947	Indian Independence Act provides for lapse of British paramountcy
FACT: 15 August 1947	All but Junagadh, Jammu and Kashmir, and Hyderabad among the major hold-outs accede to India
FACT: October 1947	Kashmir signs Instrument of Accession after tribal invasion from Pakistan
FACT: February 1948	Junagadh plebiscite endorses accession to India
FACT: September 1948	Hyderabad integrated through Police Action / Operation Polo
FACT: 1948-49	Merger agreements and unions consolidate states into administrable units
ANALYSIS: 26 November 1949	Constitution adopted by the Constituent Assembly
ANALYSIS: 26 January 1950	Republic begins; the Union framework replaces colonial-princely fragmentation

1. Snapshot & core idea

Deeper - integration solved the most urgent state-building problem after Partition.

- FACT: The Indian Independence Act ended British paramountcy, creating a legal vacuum in which princely rulers could not simply be assumed to be part of India.
- FACT: Patel and V.P. Menon combined persuasion, concessions, pressure and the leverage created by peoples' movements in the states.
- FACT: The Instrument of Accession was deliberately limited to Defence, External Affairs and Communications to make accession politically acceptable and administratively quick.
- FACT: Chandra distinguishes two stages: accession on the three common subjects, then merger, democratisation and constitutional integration.

Deeper - the problem states reveal the range of integration tools.

- ANALYSIS: **Junagadh** demonstrated the use of popular will and geography against a ruler's accession to Pakistan.
- ANALYSIS: **Hyderabad** demonstrated the limits of negotiation when an inland state sought independence and Razakar mobilisation threatened order.
- ANALYSIS: **Kashmir** demonstrated the security dimension of accession, linking legal accession to war, UN involvement and later constitutional debate.
- ANALYSIS: The making of the Republic transformed accession into a constitutional Union, but debates over autonomy, federalism and special provisions continued.

2. Key classification / data

Strategy / case	Advanced takeaway
ANALYSIS: Instrument of Accession	Minimal three-subject transfer used to secure fast political unity
ANALYSIS: Standstill / negotiation	Used to manage transition while final arrangements were worked out
ANALYSIS: Junagadh	Plebiscite and administrative takeover validated accession to India
ANALYSIS: Hyderabad	Police Action followed failed negotiation and internal disorder
ANALYSIS: Kashmir	Accession during invasion produced war, UN reference and later autonomy debate
ANALYSIS: Merger and unions	Small states integrated into viable administrative units after accession
ANALYSIS: Constituent Assembly	Provided the constitutional form of the Union and republic
ANALYSIS: Later privy purses issue	Privy purses were abolished later in 1971, not during initial accession itself
FACT: Number issue	"More than 560" is safest; 562/565 totals reflect different counting conventions

4. Must-Know Facts (Prelims)

- ANALYSIS: **Patel** was Home and States Minister; **V.P. Menon** was central to the States Department's negotiations.
- ANALYSIS: **Instrument of Accession** initially transferred Defence, External Affairs and Communications.

- ANALYSIS: **Junagadh** held a plebiscite in February 1948 after the Nawab's accession to Pakistan was rejected in practice.
- ANALYSIS: **Hyderabad** was integrated through **Operation Polo** in September 1948.
- ANALYSIS: **Kashmir's accession** followed the October 1947 tribal invasion and led to the first India-Pakistan war.
- ANALYSIS: **Privy purses** were abolished later, in 1971, not at the moment of accession.
- ANALYSIS: The **Constituent Assembly** was elected in 1946; **Dr Rajendra Prasad** was president and **B.R. Ambedkar** chaired the Drafting Committee.
- ANALYSIS: The Constitution was adopted on **26 November 1949** and enforced on **26 January 1950**.

5. UPSC Traps

MEMORY: Trap: Integration was a **process**: accession -> merger/unions -> democratisation -> constitutional incorporation.

- WRONG: The same method was used for every state. -> India used persuasion, plebiscite, merger agreements, police action and constitutional negotiation depending on the case.
- WRONG: Patel alone integrated states without administrative support. -> Patel's leadership was crucial, but **V.P. Menon** and the States Department supplied the operational strategy.
- WRONG: Kashmir, Hyderabad and Junagadh were all Muslim-majority states. -> Their demographic and geographic situations differed sharply.
- WRONG: Privy purses were abolished immediately in 1947. -> They continued for decades and were abolished in 1971.
- WRONG: The Constitution merely copied British institutions. -> It also absorbed the territorial integration of princely India into a sovereign republican Union.

6. CURRENT: Current link

- ANALYSIS: **Territorial integration and asymmetrical federalism**. Accession history remains an evergreen hook for contemporary debates on special provisions, state reorganisation, Centre-State powers and national integration. (*Escalate to CURRENT: when pegged to a verified news item.*)

7. Mains angles

- ANALYSIS: GS-1: "Patel and Menon prevented the Balkanisation of India." Discuss with reference to strategy and problem states.
- ANALYSIS: GS-1: Compare Junagadh, Hyderabad and Kashmir to show how integration mixed legality, popular will and security.
- ANALYSIS: GS-1: Explain the relationship between princely-state integration and the making of India as a sovereign democratic republic.
- ANALYSIS: GS-1: Assess the limits of the integration achievement in light of later federal and autonomy debates.

CONSOLIDATED REGISTER NOTES

COMPLETE TOPIC ASCII MASTER FLOW DIAGRAM

ASCII MASTER FLOW - PANEL 1/12: Lapse of paramountcy and the constructed Union

15 AUG 1947 -> BRITISH RULE ENDS -> paramountcy LAPSES (it is not transferred)
BRITISH INDIA -> partitioned by statute; successor dominions defined in law
PRINCELY INDIA -> no successor sovereign in law -> authority must be constructed
INSTRUMENTS USED -> agreement + leverage + popular pressure + force in one case
RULE -> lapse, not transfer; the single word that generates the whole topic.
MUST REMEMBER: Accession, administrative integration and constitutional reorganisation were distinct: Junagadh, Hyderabad and Jammu and Kashmir followed different legal, military and political sequences.

ASCII MASTER FLOW - PANEL 2/12: Counting convention: why more than 560 is the safe form

CLAIM	STATUS
"more than 560"	required formulation in both repository owners
562 / 565	different classification rules for estates, jagirs, minor holdings
"over 560"	the form used on official commemorative pages
local OCR numeral	corrupted in extraction; cannot arbitrate between totals

VERDICT -> the disagreement is about enumeration conventions, not about history.

ASCII MASTER FLOW - PANEL 3/12: The States Department as a working machine

STATES DEPARTMENT (created 27 June 1947)
|-- MINISTER -> Sardar Vallabhbhai Patel, Home and States Minister
|-- SECRETARY -> V.P. Menon, drafting, negotiation, administrative sequencing
|-- METHOD -> appeal to patriotism + narrow legal demand + warning of stiffer terms
`-- PRODUCT -> standardised Instruments of Accession and standstill arrangements
NAMING RULE -> minister, secretary and department together, never one man alone.

ASCII MASTER FLOW - PANEL 4/12: Three subjects taken, everything else left behind

TRANSFERRED AT ACCESSION	RETAINED BY THE RULER AT ACCESSION
Defence	internal administration
External Affairs	revenue and taxation inside the state
Communications	courts and internal justice
	succession, titles, ceremonial privilege

WHY IT WORKED -> the three taken were exactly the three no state could exercise alone
WHY IT LOOKED SMALL -> the ruler's visible world was untouched on the day of signature.

ASCII MASTER FLOW - PANEL 5/12: The accession calendar of 1947

20 FEB 1947 -> Attlee: paramountcy will not be handed to any government of British India
APR 1947 -> some states join the Constituent Assembly; others announce independence hopes
18 JUN 1947 -> Jinnah: states become independent sovereign states on termination
27 JUN 1947 -> States Department created; Patel takes charge, V.P. Menon as Secretary
15 AUG 1947 -> all states except Junagadh, Jammu and Kashmir, Hyderabad have acceded
READ AS -> a seven-week campaign against a legal vacuum, not a leisurely negotiation.

ASCII MASTER FLOW - PANEL 6/12: The prince squeezed from above and below

PRESSURE FROM ABOVE -> States Department: accede narrowly now, or face stiffer terms
PRESSURE FROM BELOW -> States' Peoples' Conference: democratic order and integration
PRESSURE FROM OUTSIDE -> Partition violence makes isolation dangerous, not sovereign
DOCTRINE AGAINST HIM -> political power belongs to the people of a state, not to the ruler
BARGAIN OFFERED -> three subjects surrendered; dignities, succession and income retained
OUTCOME -> the overwhelming majority accede without force being used at all.

ASCII MASTER FLOW - PANEL 7/12: Four stages, four instruments, four difficulties

1 ACCESSION -> Instrument of Accession, three subjects -> by 15 Aug 1947
2 MERGER -> merger agreements, unions, attachments -> from Dec 1947
3 DEMOCRATISATION -> elections, courts, services inside old states -> uneven and slower
4 INCORPORATION -> Constitution and single citizenship -> 26 Jan 1950
STRUCTURAL ERROR -> treating stage one as the finished process
CORRECTION -> each stage has its own instrument, its own date and its own difficulty.

ASCII MASTER FLOW - PANEL 8/12: Junagadh settled by counting people

NAWAB accedes to Pakistan -> against population and against geography
POPULATION overwhelmingly Hindu -> popular movement -> Nawab flees
PROVISIONAL GOVERNMENT formed inside the state
DEWAN Shah Nawaz Bhutto invites the Government of India to intervene
INDIAN TROOPS enter; PLEBISCITE held FEBRUARY 1948 -> result favours India
DISCIPLINE -> the source calls the result overwhelming; no percentage is asserted here.

ASCII MASTER FLOW - PANEL 9/12: Hyderabad: negotiation exhausted before force

PRE-AUG 1947 -> Nizam claims independent status; state landlocked inside India
NOV 1947 -> STANDSTILL AGREEMENT signed; representative government hoped for
1947-48 -> Ittihad ul Muslimin and Razakars grow; State Congress satyagraha
-> Communist-led peasant struggle continues in the Telangana region
JUN 1948 -> Patel presses for unqualified accession and responsible government
SEP 1948 -> OPERATION POLO / POLICE ACTION -> Nizam surrenders -> accedes to the Union
DISCIPLINE -> no casualty figure and no troop figure is asserted for this episode.

ASCII MASTER FLOW - PANEL 10/12: Kashmir: the fixed order of events

STEP 1 -> Maharaja Hari Singh accedes to neither dominion
STEP 2 -> National Conference under Sheikh Abdullah favours accession to India
STEP 3 -> OCTOBER 1947 tribal invasion advances towards Srinagar
STEP 4 -> Maharaja appeals to India for military assistance
STEP 5 -> Instrument of Accession signed; Sheikh Abdullah heads the administration
STEP 6 -> troops flown to Srinagar only AFTER accession
STEP 7 -> 30 DEC 1947 reference to the UN Security Council; fighting continues
STOP LINE -> restraint beyond step seven; contested later claims are not taught here.
CLOSE DISTINCTION: The Instrument of Accession transferred specified subjects, not an identical final settlement in every state; Hyderabad's September 1948 action and Kashmir's October 1947 accession cannot be analogised mechanically.

ASCII MASTER FLOW - PANEL 11/12: The merger map of the second stage

SECOND STAGE (from December 1947) -> turning acceding units into governable provinces
|-- MERGED -> small states attached to neighbouring provinces or centrally administered
|-- UNIONS -> Madhya Bharat | Rajasthan | Patiala and East Punjab States Union
| -> Saurashtra | Travancore-Cochin
`-- RETAINED -> Mysore | Hyderabad | Jammu and Kashmir as separate states of the Union
RESULT -> a deliberately asymmetrical map that later reorganisation would revisit.
EVIDENCE LIMIT: States Ministry papers, accession instruments and regional evidence must
qualify triumphalist inevitability and recognise rulers, popular movements, borders and
international conflict.

ASCII MASTER FLOW - PANEL 12/12: Price paid, process completed, commemoration handled

PRICE -> privy purses, titles, succession, ceremonial privilege retained by rulers
-> not abolished during initial integration; owner dates abolition to 1971
-> no purse amount is asserted anywhere in this package
COMPLETION-> Constitution adopted 26 Nov 1949; in force 26 Jan 1950; single citizenship
-> independence 15 Aug 1947 and republic 26 Jan 1950 answer different questions
COMMEMORATION -> Ministry of Culture two-year programme from 31 Oct 2024 at the Statue of Unity
-> PIB Backgrounder 30 Oct 2025: Rashtriya Ekta Diwas annually on 31 October
CAUTION -> the commemorative phrase "by 15 August 1947 or shortly thereafter" compresses
a chronology that runs to February and September 1948.
