RATIONALIST STARTING PROBLEM AND CONNECTED 3-1-INFINITY SEQUENCE

CAN REASON SECURE NECESSARY KNOWLEDGE AND AN INTELLIGIBLE WORLD?

A PRIORI PRINCIPLES + INTUITION + DEDUCTION

SUBSTANCE, ATTRIBUTE, MODE AND SUFFICIENT EXPLANATION

GOD + MIND + BODY

INTERACTION PROBLEM

ONE GOD/NATURE

PARALLELISM + NECESSITY

CENTRAL QUESTION: CAN REASON SECURE NECESSARY KNOWLEDGE AND AN INTELLIGIBLE WORLD?

METHOD: a priori principles + intuition + deduction

METAPHYSICS: substance, attribute, mode and sufficient explanation

DESCARTES: God + mind + body → interaction problem

SPINOZA: one God/Nature → parallelism + necessity → individuality problem

SOURCE / DOCTRINE

- CENTRAL QUESTION: CAN REASON SECURE NECESSARY KNOWLEDGE AND AN INTELLIGIBLE WORLD?
- METHOD: a priori principles + intuition + deduction
- METAPHYSICS: substance, attribute, mode and sufficient explanation

ARGUMENT / MECHANISM

- DESCARTES: God + mind + body → interaction problem
- SPINOZA: one God/Nature → parallelism + necessity → individuality problem
- LEIBNIZ: many monads → harmony + contingency → economy and evil problem

IMPLICATION / VERDICT

- MEMORY: substance 3-1-infinity; mind-body I-P-H.

MECHANISM / VERDICT — A shared demand for intelligibility produces different systems because independence, simplicity and individuation are interpreted differently.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Rationalism uses reason and innate structure to ground necessity while allowing experience to occasion cognition; shared method does not fix one substance theory.

COMPLETE REVIEW

SENSE ERROR

DREAM ARGUMENT

EVIL-GENIUS HYPOTHESIS SUSPEND EVERY BELIEF THAT CAN BE DOUBTED

I AM, I EXIST WHENEVER I THINK IMMEDIATE INTUITION

FOUR METHOD RULES: evidence → division → simple-to-complex order → complete review

SENSE ERROR → DREAM ARGUMENT → EVIL-GENIUS HYPOTHESIS suspend every belief that can be doubted

COGITO: I AM, I EXIST WHENEVER I THINK immediate intuition, not a syllogism

clear and distinct perception becomes the model

intuition supplies first principles; deduction orders consequences

SOURCE / DOCTRINE

- FOUR METHOD RULES: evidence → division → simple-to-complex order → complete review
- SENSE ERROR → DREAM ARGUMENT → EVIL-GENIUS HYPOTHESIS suspend every belief that can be doubted

ARGUMENT / MECHANISM

- COGITO: I AM, I EXIST WHENEVER I THINK immediate intuition, not a syllogism
- clear and distinct perception becomes the model

IMPLICATION / VERDICT

- intuition supplies first principles; deduction orders consequences
- LIMIT: present thinking is certain; enduring res cogitans needs further argument.

MECHANISM / VERDICT — The attempt to doubt thinking existence performs the very thinking whose existence it tries to deny.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: The cogito secures present thinking existence performatively, not an enduring immaterial substance, world or complete personal identity.

02

STAGE 02 CARTESIAN KNOWLEDGE ARCHITECTURE AND CIRCLE OBJECTION

CARTESIAN KNOWLEDGE ARCHITECTURE AND CIRCLE OBJECTION

MATHEMATICS AND EXTERNAL RES EXTENSA

FACTITIOUS; OBJECTIVE REALITY

REPRESENTATIONAL CONTENT

CAUSAL ADEQUACY OR TRADEMARK ROUTE + ONTOLOGICAL ROUTE; PRESENT

INTELLECT JUDGES EXTENDED, FLEXIBLE, CHANGEABLE IDENTITY BEYOND SENSORY QUALITIES

CLEAR/DISTINCT PREMISES PROVE GOD

GOD GUARANTEES CLEAR/DISTINCT TRUTH

DOCTRINE / CLAIM

- COGITO → IDEAS → GOD → NON-DECEPTION → MATHEMATICS AND EXTERNAL RES EXTENSA
- IDEAS: innate / adventitious / factitious; objective reality = representational content
- GOD: causal adequacy or trademark route + ontological route; present cautiously

OBJECTION / PRESSURE

- WAX: intellect judges extended, flexible, changeable identity beyond sensory qualities
- CIRCLE: clear/distinct premises prove God → God guarantees clear/distinct truth
- REPLY: present intuition compels; God secures memory and extended reasoning

REPLY / RESIDUAL

- RESIDUAL: the divine proofs themselves use inferential premises
- WORLD: involuntary sensory ideas require an active cause; veracity blocks deception
- LIMIT: body-existence is stronger than exact resemblance of sensible qualities.

MECHANISM / VERDICT — Innate resources, divine veracity and involuntary sensory ideas rebuild knowledge and bodies, but Locke and the Cartesian Circle pressure the bridge.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: God is the epistemic hinge of Cartesian reconstruction because divine non-deception extends clear and distinct certainty beyond the cogito, yet that hinge creates the Cartesian Circle.

03

STAGE 03 DESCARTES ON SUBSTANCE, INTERACTION AND FREEDOM

- WORLD: involuntary sensory ideas require an active cause; veracity blocks deception
- LIMIT: body-existence is stronger than exact resemblance of sensible qualities.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: God is the epistemic hinge of Cartesian reconstruction because divine non-deception extends clear and distinct certainty beyond the cogito, yet that hinge creates the Cartesian Circle.

STAGE 03 DESCARTES ON SUBSTANCE, INTERACTION AND FREEDOM

REAL DISTINCTION

CLEAR CONCEPTION OF EACH WITHOUT THE OTHER

GOD = INFINITE SUBSTANCE, ABSOLUTELY INDEPENDENT

RES COGITANS: attribute thought; modes include ideas and volitions

- ▶ **RES EXTENSA:** attribute extension; modes include shape and motion

→ **REAL DISTINCTION:** clear conception of each without the other

SOURCE / DOCTRINE

- GOD = INFINITE SUBSTANCE, ABSOLUTELY INDEPENDENT
- RES COGITANS: attribute thought; modes include ideas and volitions
- RES EXTENSA: attribute extension; modes include shape and motion
- REAL DISTINCTION: clear conception of each without the other

ARGUMENT / MECHANISM

- **SUBSTANTIAL UNION:** one embodied person experiences cross-domain coordination
- **OBJECTION:** how can unextended mind cause extended motion? causal-closure pressure
- **REPLY:** primitive notion of union; **RESIDUAL:** no transparent mechanism
- **OTHER MINDS:** inferred through embodied behaviour, not given by the cogito

IMPLICATION / VERDICT

- **FREEDOM:** will assents or withholds; error occurs when will outruns intellect
- **LIMIT:** created substances depend continuously on God.

MECHANISM / VERDICT — Clear and distinct conceivability supports real distinction, while the human union is treated as a primitive lived fact rather than a third substance.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Cartesian dualism gains conceptual clarity by separating thought from extension, but its success in distinction becomes its central causal problem because heterogeneous substances must still explain one life.

04

STAGE 04 SPINOZA'S SUBSTANCE-ATTRIBUTE-MODE HIERARCHY AND IMMANENT GOD

ACOSMISM; REPLY

MODES RETAIN DEPENDENT REALITY.

ONE SELF-CAUSED, NECESSARILY EXISTING, ABSOLUTELY INFINITE SUBSTANCE

= DEUS SIVE NATURA infinitely many ATTRIBUTES humans know THOUGHT and EXTENSION finite minds and

- ▶ **GOD = immanent cause; whatever is, is in God; no external created realm**

→ **OBJECTION: acosmism; REPLY: modes retain dependent reality.**

SOURCE / DOCTRINE

- ONE SELF-CAUSED, NECESSARILY EXISTING, ABSOLUTELY INFINITE SUBSTANCE
- = DEUS SIVE NATURA infinitely many ATTRIBUTES humans know THOUGHT and EXTENSION finite minds and bodies are MODES

ARGUMENT / MECHANISM

- GOD = immanent cause; whatever is, is in God; no external created realm
- OBJECTION: acosmism; REPLY: modes retain dependent reality.

IMPLICATION / VERDICT

- ONE SELF-CAUSED, NECESSARILY EXISTING, ABSOLUTELY INFINITE SUBSTANCE
- = DEUS SIVE NATURA infinitely many ATTRIBUTES humans know THOUGHT and EXTENSION finite minds and bodies are MODES

MECHANISM / VERDICT — Because substance is conceived through itself and cannot be limited by another substance of the same nature, the system culminates in one infinite substance.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: All modes are in God by immanent necessity, yet no finite mode or finite aggregate is numerically identical with the whole infinite divine essence.

05

STAGE 05 SPINOZA'S PARALLELISM AND ROUTE FROM BONDAGE TO FREEDOM

NO CROSS-ATTRIBUTE CAUSAL TRANSFER; PARALLELISM REPLACES CARTESIAN INTERACTION

FINITE MODES ARE NECESSARILY CAUSED; CONTINGENCY RECORDS IGNORANCE OF

ONE EVENT → under **THOUGHT**: idea → under **EXTENSION**: body-state

ORDER AND CONNECTION OF IDEAS = ORDER AND CONNECTION OF THINGS

- ▶ NO cross-attribute causal transfer; parallelism replaces Cartesian interaction

- **FINITE MODES** are necessarily caused; contingency records ignorance of causes

SOURCE / DOCTRINE

- ONE EVENT → under THOUGHT: idea → under EXTENSION: body-state
- ORDER AND CONNECTION OF IDEAS = ORDER AND CONNECTION OF THINGS
- NO cross-attribute causal transfer; parallelism replaces Cartesian interaction

ARGUMENT / MECHANISM

- FINITE MODES are necessarily caused; contingency records ignorance of causes
- CONATUS = each thing's striving to persevere in being
- INADEQUATE IDEAS + external causes → passive affects → BONDAGE

IMPLICATION / VERDICT

- COMMON NOTIONS / REASON / INTUITION → ADEQUATE IDEAS → ACTIVITY
- FREEDOM = acting from understood nature within necessity, not uncaused choice
- LIMIT: autonomy survives, but alternative possibilities do not.

IMPLICATION / VERDICT

COMMON NOTIONS / REASON / INTUITION → ADEQUATE IDEAS → ACTIVITY

FREEDOM = acting from understood nature within necessity, not uncaused choice

LIMIT: autonomy survives, but alternative possibilities do not.

MECHANISM / VERDICT

The same modal event is expressed under Thought as an idea and under Extension as a body-state, eliminating cross-attribute causal transfer.

ANSWER-GRABBING LINE

WRITE/ADAPT IN THE EXAM: Spinoza reconciles freedom with determinism by treating freedom not as uncaused choice but as adequate self-determination within the necessary order of God or Nature.

ANIMAL SOULS: memory + clearer perception

SOURCE / DOCTRINE

WHY MONADS? extension is divisible; ultimate substance must be simple

GOD: necessary supreme monad / complete intelligence

RATIONAL SPIRITS: apperception + reason + moral agency

ARGUMENT / MECHANISM

ANIMAL SOULS: memory + clearer perception

BARE MONADS: obscure petites perceptions

EVERY MONAD: simple, unextended, windowless, perceptive and appetitive

IMPLICATION / VERDICT

APPETITION = internal transition; each perspective expresses the universe

IDENTITY OF INDISCERNIBLES secures uniqueness

BODIES = well-founded phenomena, not ultimate substances.

MECHANISM / VERDICT

Appetition moves each monad from one perception to another according to its own law, while its perspective differentiates it from every other monad.

ANSWER-GRABBING LINE

WRITE/ADAPT IN THE EXAM: Created monads perceive and appetitively unfold; minute perception differs from apperception, and God is their unique uncreated necessary source.

SOURCE / DOCTRINE

GOD chooses a compossible best world under the PRINCIPLE OF SUFFICIENT REASON

mind-monad states unfold internally

bodily/organic states unfold internally

PRE-ESTABLISHED HARMONY makes them correspond without interaction

ARGUMENT / MECHANISM

TRUTHS OF REASON: opposite contradictory → logically necessary

TRUTHS OF FACT: opposite conceivable → contingent though certain

COMPLETE CONCEPT: all predicates belong to the individual known fully by God

FREEDOM: spontaneity + intelligence + contingency; reasons incline, not coerce

IMPLICATION / VERDICT

OBJECTION: programming/evil; REPLY: self-expression + optimal compossibility

LIMIT: compatibility is stronger than libertarian freedom.

MECHANISM / VERDICT

Truths of reason are necessary; truths of fact remain logically contingent through possible worlds despite complete-concept certainty in the actual world.

ANSWER-GRABBING LINE

WRITE/ADAPT IN THE EXAM: Leibniz preserves freedom by distinguishing certainty from absolute necessity: rational actions arise spontaneously from the agent's own reasons, which incline without necessitating in the logical sense.

MECHANISM / VERDICT — Each successor accepts the Cartesian pressure but redistributes substance and causation to avoid direct interaction between heterogeneous realities.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Spinoza removes the interaction gap by collapsing Cartesian substances into attributes of one order, while Leibniz restores plurality by replacing interaction with divinely coordinated internal activity.
