00 — KANTIAN DUALISMS AND HEGEL'S IMMANENT STARTING PROJECT

STAGE 00 · KANTIAN DUALISMS AND HEGEL'S IMMANENT STARTING PROJECT · KANT SECURES OBJECTIVE EXPERIENCE BUT RETAINS FIXED RESIDUAL OPPOSITIONS. · KNOWABLE APPEARANCE; NOUMENON · UNKNOWABLE THING-IN-ITSELF. · SUBJECT SUPPLIES COGNITIVE FORM; OBJECT NAMES INDEPENDENTLY EXISTING REALITY. · THOUGHT VERSUS BEING; FREEDOM VERSUS NATURE REMAIN EXTERNALLY DIVIDED. · HEGEL'S CHARGE · A LIMIT DETERMINATELY THOUGHT IS ALREADY WITHIN THOUGHT.

SOURCE / DOCTRINE

- START: Kant secures objective experience but retains fixed residual oppositions.
- PHENOMENON = knowable appearance; NOUMENON = unknowable thing-in-itself.
- SUBJECT supplies cognitive form; OBJECT names independently existing reality.
- THOUGHT versus BEING; FREEDOM versus NATURE remain externally divided.

ARGUMENT / MECHANISM

- HEGEL'S CHARGE → a limit determinately thought is already within thought.
- IMMANENT CRITIQUE → test a category or form of life by its own criterion.
- FINITE CATEGORY → its claim to self-sufficiency discloses dependence on its other.
- ABSTRACT/UNDERSTANDING → NEGATIVE/DIALECTICAL → SPECULATIVE/POSITIVE moment

IMPLICATION / VERDICT

- IDENTITY-IN-DIFFERENCE → reconciliation preserves determinate distinctions.
- ABSOLUTE → self-developing rational whole/subject, not a static supernatural thing.
- ANSWER LINE → Hegel transforms Kantian limits into internally mediated relations.

MECHANISM / VERDICT — Each opposition is taken on its own terms; when either pole claims self-sufficiency, its dependence on the other appears and forces a richer determination.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Hegel radicalises Kant's critical achievement by arguing that a limit reason can determinately think cannot remain an external barrier to reason, so subject and object must be reconciled through identity-in-difference rather than collapsed into featureless sameness.

01 — DETERMINATE NEGATION, SUBLATION AND THE OPENING LOGICAL MOVEMENT

STAGE 01 · DETERMINATE NEGATION, SUBLATION AND THE OPENING LOGICAL MOVEMENT · IMMANENT SELF-MOVEMENT THROUGH AN INTERNALLY GENERATED TENSION. · OPPOSED DETERMINATIONS WITHIN A CLAIM, NOT LICENCE FOR FORMAL. · DETERMINATE NEGATION · NEGATION OF THIS CONTENT YIELDS A SPECIFIC SUCCESSOR. · CANCEL ONE-SIDEDNESS + PRESERVE TRUTH + ELEVATE RESULT · NEGATION OF NEGATION · MEDIATED RECOVERY, NOT RETURN TO UNTOUCHED IMMEDIACY.

DIALECTIC — immanent self-movement through an internally generated tension. → CONTRADICTION — opposed determinations within a claim; not licence for formal chaos. → DETERMINATE NEGATION — negation of THIS content yields a SPECIFIC successor. → AUFHEBUNG / SUBLATION — CANCEL one-sidedness + PRESERVE truth + ELEVATE result. → NEGATION OF NEGATION — mediated recovery, not return to untouched immediacy.

SOURCE / DOCTRINE

- DIALECTIC → immanent self-movement through an internally generated tension.
- CONTRADICTION → opposed determinations within a claim, not licence for formal chaos.
- DETERMINATE NEGATION → negation of THIS content yields a SPECIFIC successor.
- AUFHEBUNG / SUBLATION → CANCEL one-sidedness + PRESERVE truth + ELEVATE result.

ARGUMENT / MECHANISM

- NEGATION OF NEGATION → mediated recovery, not return to untouched immediacy.
- PURE BEING → no determination; therefore indistinguishable from PURE NOTHING.
- BEING <-> NOTHING → their truth is the passing-over named BECOMING.
- BECOMING → first richer determination; Being and Nothing survive as moments.

IMPLICATION / VERDICT

- TRANSITION IS LOGICAL → no temporal sequence and no magic formula.
- T-A-S → loose teaching shorthand, not Hegel's standard fixed algorithm.
- TEST → every progression must be justified from the prior term's precise failure.

MECHANISM / VERDICT — A finite determination claims independence, reveals a contradiction internal to that claim, is specifically negated, and returns as a new immediacy enriched by the mediation.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Hegelian negation is productive only when the successor is generated by the precise defect of the earlier determination, and Aufhebung names the single act by which the earlier moment is cancelled, preserved and elevated.

02 — CONCRETE UNIVERSAL, FINITE REALITY AND NESTED SYSTEM ARCHITECTURE

STAGE 02 · CONCRETE UNIVERSAL, FINITE REALITY AND NESTED SYSTEM ARCHITECTURE · ABSTRACT UNIVERSAL · GAINS UNITY BY OMITTING DIFFERENCE; HEGEL CALLS IT ONE-SIDED. · CONCRETE UNIVERSAL · PARTICULARISES ITSELF AND CONTAINS ORGANISED DIFFERENCES. · FINITE ENTITIES/CATEGORIES · REAL AS MOMENTS, PARTIAL WHEN TREATED IN ISOLATION. · INTERNAL RELATIONS

ABSTRACT UNIVERSAL — gains unity by omitting difference; Hegel calls it one-sided. → CONCRETE UNIVERSAL — particularises itself and contains organised differences. → FINITE ENTITIES/CATEGORIES — real as moments, partial when treated in isolation. → INTERNAL RELATIONS — a moment's identity depends on mediated relations to others. → 'THE TRUE IS THE WHOLE' — whole is RESULT of development, not ready-made totality.

SOURCE / DOCTRINE

- ABSTRACT UNIVERSAL → gains unity by omitting difference; Hegel calls it one-sided.
- CONCRETE UNIVERSAL → particularises itself and contains organised differences.
- FINITE ENTITIES/CATEGORIES → real as moments, partial when treated in isolation.
- INTERNAL RELATIONS → a moment's identity depends on mediated relations to others.

ARGUMENT / MECHANISM

- 'THE TRUE IS THE WHOLE' → whole is RESULT of development, not ready-made totality.
- LOGIC → Idea in-itself; Being → Essence → Concept.
- NATURE → Idea in otherness; space, time, matter, life; not created later in time.
- SPIRIT → Idea returned-to-itself through rational self-conscious life.

IMPLICATION / VERDICT

- SUBJECTIVE SPIRIT → mind; OBJECTIVE SPIRIT → right, morality, ethical life, history
- ABSOLUTE SPIRIT → art → religion → philosophy as conceptual comprehension.
- ANSWER LINE → the whole preserves finite difference while making it intelligible.

MECHANISM / VERDICT — Finite moments gain determinate identity through relations; the whole develops from pure categories through externality to self-conscious institutional and cultural life.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: The Hegelian whole is concrete because it preserves determinate finite moments within their internal relations, so 'the true is the whole' means the whole is the result of its development rather than a ready-made totality that swallows its parts.

03 — RECOGNITION AND THE LORDSHIP-BONDAGE DEPENDENCE REVERSAL

STAGE 03 · RECOGNITION AND THE LORDSHIP-BONDAGE DEPENDENCE REVERSAL · REQUIRES RECOGNITION FROM ANOTHER SELF-CONSCIOUSNESS. · EACH SEEKS CERTAINTY OF ITSELF THROUGH THE OTHER'S ACKNOWLEDGEMENT. · ONE BECOMES LORD; THE OTHER BECOMES BONDMAN THROUGH FEAR · LORD'S FAILURE · RECOGNITION FROM A DEVALUED UNFREE OTHER IS WORTHLESS. · LORD'S DEPENDENCE · ENJOYMENT RELIES ON THE BONDSMAN'S LABOUR AND MEDIATION.

SOURCE / DOCTRINE

- SELF-CONSCIOUSNESS → requires recognition from another self-consciousness.
- ENCOUNTER → each seeks certainty of itself through the other's acknowledgement.
- STRUGGLE → one becomes LORD; the other becomes BONDMAN through fear of death.
- LORD'S FAILURE → recognition from a devalued unfree other is worthless.

ARGUMENT / MECHANISM

- LORD'S DEPENDENCE → enjoyment relies on the bondsman's labour and mediation.
- BONDMAN'S FEAR → disrupts attachment to immediate natural desire.
- SERVICE → disciplines desire; LABOUR shapes an enduring independent object.
- BILDUNG → the bondsman sees his own form in the worked world and forms himself.

IMPLICATION / VERDICT

- REVERSAL → apparent independence is dependent; servitude becomes formative.
- LIMIT → unequal recognition is conceptually unstable, not historically brief.
- ROLE → bounded illustration of dialectic Hegel is not reducible to this episode.

MECHANISM / VERDICT — The lord consumes through the bondsman's work and receives recognition from an unfree other; the bondsman disciplines desire, shapes the object and encounters his own form in the worked world.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: The lordship-bondage episode demonstrates that unequal recognition is conceptually unstable: the lord depends on an acknowledgement he has devalued, whereas the bondsman's fear and labour form a more durable self-relation.

04 — PHENOMENOLOGICAL LADDER FROM CONSCIOUSNESS TO REASON AND SPIRIT

STAGE 04 · PHENOMENOLOGICAL LADDER FROM CONSCIOUSNESS TO REASON AND SPIRIT · A CRITERION OF KNOWING PLUS THE OBJECT IT CLAIMS · THE OBJECT FAILS THE SHAPE'S OWN CRITERION; BOTH STANDARD · TREATS THE OBJECT AS INDEPENDENT; IMMEDIACY PROVES UNSTABLE. · DISCOVERS THAT ANOTHER SELF AND RECOGNITION ARE NECESSARY. · UNEQUAL RECOGNITION FAILS AND FREEDOM WITHDRAWS INTO THOUGHT. · ABSTRACT INNER FREEDOM; EMPTY BECAUSE INDIFFERENT TO DETERMINATE CONTENT. · DISSOLVES CONTENT BUT LIVES AS A DETERMINATE SELF

GESTALT / SHAPE — a criterion of knowing plus the object it claims to know.

EXPERIENCE — the object fails the shape's own criterion; both standard and object shift. → CONSCIOUSNESS — treats the object as independent; immediacy proves unstable. → SELF-CONSCIOUSNESS — discovers that another self and recognition are necessary.

SOURCE / DOCTRINE

- GESTALT / SHAPE → a criterion of knowing plus the object it claims to know.
- EXPERIENCE → the object fails the shape's own criterion; both standard and object shift.
- CONSCIOUSNESS → treats the object as independent; immediacy proves unstable.
- SELF-CONSCIOUSNESS → discovers that another self and recognition are necessary.

ARGUMENT / MECHANISM

- LORDSHIP-BONDAGE → unequal recognition fails and freedom withdraws into thought.
- STOICISM → abstract inner freedom; empty because indifferent to determinate content.
- SCEPTICISM → dissolves content but lives as a determinate self- performative conflict.
- UNHAPPY CONSCIOUSNESS → knows the split between changeable self and beyond.

IMPLICATION / VERDICT

- DEVOTION → WORK → MEDIATOR → self-renunciation reverses into universality.
- REASON → finds itself in reality; SPIRIT → shared historical and social life.
- RULE → transitions are logical immanent failures, not a literal world chronology.

MECHANISM / VERDICT — Sense-certainty and object-consciousness expose unstable immediacy; recognition makes self-consciousness relational; failed freedoms in thought make their contradiction explicit and open the standpoint of reason.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: The Phenomenology is a ladder of immanent failures: each shape discovers that its own criterion cannot secure the object it claims, so consciousness preserves the lesson and advances toward reason and Spirit.

05 — ABSOLUTE IDEALISM, SUBSTANCE-AS-SUBJECT AND ACTUALITY

STAGE 05 · ABSOLUTE IDEALISM, SUBSTANCE-AS-SUBJECT AND ACTUALITY · ABSOLUTE IDEALISM · REALITY INTELLIGIBLE AS ONE INTERNALLY RELATED DEVELOPING WHOLE. · ABSOLUTE AS RESULT · WHOLE BECOMES WHAT IT IS THROUGH DIFFERENTIATION AND RETURN. · SUBSTANCE ALSO AS SUBJECT · UNITY IS ACTIVE, SELF-DIFFERENTIATING AND SELF-KNOWING. · THOUGHT AND BEING

ABSOLUTE IDEALISM — reality intelligible as one internally related developing whole. → ABSOLUTE AS RESULT — whole becomes what it is through differentiation and return. → SUBSTANCE ALSO AS SUBJECT — unity is active, self-differentiating and self-knowing. → THOUGHT AND BEING — identity through mediation, not undifferentiated sameness. → NATURE + FINITE MINDS — real moments of the Absolute, not unreal illusions.

SOURCE / DOCTRINE

- ABSOLUTE IDEALISM → reality intelligible as one internally related developing whole.
- ABSOLUTE AS RESULT → whole becomes what it is through differentiation and return.
- SUBSTANCE ALSO AS SUBJECT → unity is active, self-differentiating and self-knowing.
- THOUGHT AND BEING → identity through mediation, not undifferentiated sameness.

ARGUMENT / MECHANISM

- NATURE + FINITE MINDS → real moments of the Absolute, not unreal illusions.
- PHENOMENAL WORLD → mediated manifestation: real as moment, not ultimate alone.
- DASEIN / MERE EXISTENCE → a fact may fail its concept or norm.
- WIRKLICHKEIT / ACTUALITY → existence that has realised its rational concept.

IMPLICATION / VERDICT

- 'ACTUAL IS RATIONAL' → NOT 'whatever exists or every injustice is justified.'
- INSTITUTIONAL TEST → does the form concretely realise freedom?
- RESIDUAL → reconciliation can still slide into retrospective conservatism.

MECHANISM / VERDICT — The Absolute differentiates itself in nature and finite spirit, relates those differences internally, and returns to conceptual self-comprehension without cancelling their reality.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Hegel's Absolute Idealism neither reduces reality to a private mind nor blesses every fact: it treats finite beings as real moments of a substance that is also subject and reserves actuality for existence that has realised its rational concept.

06 — KANT-HEGEL COMPARISON: NOUMENAL LIMIT AND IMMANENT REASON

STAGE 06 · KANT-HEGEL COMPARISON · NOUMENAL LIMIT AND IMMANENT REASON · FORMS/CATEGORIES SECURE PHENOMENA; THING-IN-ITSELF LIMITS THEORETICAL KNOWLEDGE. · HEGEL PRONG 1 · THE BOUNDARY OF THOUGHT IS ITSELF A THOUGHT AND · HEGEL PRONG 2 · THING-IN-ITSELF' USES BEING, NEGATION AND DETERMINACY. · HEGEL PRONG 3

SYSTEM / DOCTRINE	DECISIVE DISTINCTION	EVALUATION / TRAP
KANT → forms/categories secure phenomena; thing-in-itself limits theoretical knowledge.	RESULT → fixed subject/object dualism is unstable and must be internally mediated.	KANT → phenomenal objectivity; HEGEL → identity-in-difference of thought and being.
HEGEL PRONG 1 → the boundary of thought is itself a thought and relates both sides.	KANT'S REPLY → noumenon is a negative limiting concept, not positive knowledge.	VERDICT → Hegel pressures positive noumenal causation more than he proves totality.
HEGEL PRONG 2 → 'thing-in-itself' uses being, negation and determinacy.	HEGEL'S REJOINDER → externally imposed limits remain dogmatic unless self-generated.	ANSWER RULE → present both systems accurately before ruling.
HEGEL PRONG 3 → noumenal affection applies relation/causality beyond experience.	KANT → critical restraint; HEGEL → reason develops its own criteria and limits.	

SYSTEM / DOCTRINE

- KANT → forms/categories secure phenomena; thing-in-itself limits theoretical knowledge.
- HEGEL PRONG 1 → the boundary of thought is itself a thought and relates both sides.
- HEGEL PRONG 2 → 'thing-in-itself' uses being, negation and determinacy.
- HEGEL PRONG 3 → noumenal affection applies relation/causality beyond experience.

DECISIVE DISTINCTION

- RESULT → fixed subject/object dualism is unstable and must be internally mediated.
- KANT'S REPLY → noumenon is a negative limiting concept, not positive knowledge.
- HEGEL'S REJOINDER → externally imposed limits remain dogmatic unless self-generated.
- KANT → critical restraint; HEGEL → reason develops its own criteria and limits.

EVALUATION / TRAP

- KANT → phenomenal objectivity; HEGEL → identity-in-difference of thought and being.
- VERDICT → Hegel pressures positive noumenal causation more than he proves totality.
- ANSWER RULE → present both systems accurately before ruling.

MECHANISM / VERDICT — Thinking a boundary relates both sides; naming a thing-in-itself applies being and negation; invoking affection applies causal relation beyond possible experience.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Hegel's strongest objection is not that Kant distinguishes appearance from reality, but that Kant freezes this distinction into an unknowable beyond while still thinking and relating that beyond to experience.

07 — LOGIC-NATURE SEAM: FREE RELEASE, CONTINGENCY AND OBJECTIONS

STAGE 07 · LOGIC-NATURE SEAM · FREE RELEASE, CONTINGENCY AND OBJECTIONS · ABSOLUTE IDEA UNDER CLAIMED NECESSITY. · HOW CAN PURE CATEGORIES BE FOLLOWED BY EXISTING CONTINGENT · 'FREE RELEASE' · ABSOLUTE IDEA RELATES TO ITSELF AS EXTERNALITY. · IDEA IN OTHERNESS; NOT LATER IN TIME, NOT CAUSED · IMPOTENCE OF NATURE

DOCTRINE / CLAIM

- LOGIC → Being → Essence → Concept → Absolute Idea under claimed necessity.
- QUESTION → how can pure categories be followed by existing contingent nature?
- 'FREE RELEASE' → Absolute Idea relates to itself as externality.
- NATURE → Idea in otherness; NOT later in time, NOT caused by a thinking agent.

OBJECTION / PRESSURE

- IMPOTENCE OF NATURE → externality cannot perfectly hold the Concept.
- CONSEQUENCE → contingency and imprecision; no deduction of every natural fact.
- SCHELLING → logic gives what existence must be, not THAT anything exists.
- TRENDELENBURG → movement is smuggled into static categories.

REPLY / RESIDUAL

- FEUERBACH → disguised creation theology; ANALYTIC → personification, no proof.
- REPLY → conceptual instability is non-spatial and non-temporal self-undermining.
- VERDICT → coherent within the system, but not strictly demonstrative to every critic.

MECHANISM / VERDICT — Pure self-relating form is said to externalise as nature; nature's externality cannot perfectly hold the Concept, so contingent particulars are not deduced one by one.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: The Logic-Nature transition is defensible only as a non-temporal claim that complete self-relation includes externality, not as the story of an idea existing before nature and causing a world.

08 — OBJECTIVE SPIRIT, INSTITUTIONAL FREEDOM AND HISTORICAL DEVELOPMENT

STAGE 08 · OBJECTIVE SPIRIT, INSTITUTIONAL FREEDOM AND HISTORICAL DEVELOPMENT · BEING AT HOME WITH ONESELF IN AN OTHER, NOT · SUBJECTIVE WILL · CHOICE REMAINS ABSTRACT WITHOUT RECOGNITION AND STABLE NORMS. · ABSTRACT RIGHT · PERSONS AND PROPERTY; MORALITY · INTENTION AND CONSCIENCE · ETHICAL LIFE

SOURCE / DOCTRINE

- FREEDOM → being at home with oneself in an other, not arbitrary absence of limits.
- SUBJECTIVE WILL → choice remains abstract without recognition and stable norms.
- ABSTRACT RIGHT → persons and property; MORALITY → intention and conscience
- ETHICAL LIFE → family, civil society and constitutional institutions.

ARGUMENT / MECHANISM

- OBJECTIVE SPIRIT → freedom becomes durable, public and mutually recognisable.
- HISTORY → development of consciousness that freedom belongs in principle to all.
- ONE FREE → SOME FREE → ALL FREE IN PRINCIPLE is Hegel's broad sequence.
- INTERNAL CONTRADICTION → a society fails its own norm, such as freedom with slavery.

IMPLICATION / VERDICT

- CUNNING OF REASON → passions produce outcomes beyond agents' intentions.
- CRITIQUE → Eurocentrism, retrospective necessity, conservatism and material exclusion.
- DEFENSIBLE RESIDUE → institutions can be criticised by their own norm of freedom.

MECHANISM / VERDICT — Individual will enters relations of right and morality, finds fuller mediation in ethical institutions, and historically becomes conscious that freedom belongs in principle to all.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: For Hegel, freedom becomes actual only when subjective willing is mediated by rights, practices and institutions that agents can recognise as their own rational life, though his historical teleology remains vulnerable to Eurocentrism and conservatism.

09 — COMPARISON, CRITICISM-REPLY MAP AND COMPLETE ANSWER SPINE

STAGE 09 · COMPARISON, CRITICISM-REPLY MAP AND COMPLETE ANSWER SPINE · SUBJECTIVE IDEALISM · FINITE MIND/IDEAS; OBJECTIVE · MIND-INDEPENDENT IDEAL ORDER. · ABSOLUTE IDEALISM · FINITE SUBJECT AND OBJECT ARE MOMENTS OF ONE DEVELOPING · SYSTEM LOSES EXISTING INDIVIDUAL; REPLY · FINITE IS PRESERVED AS MOMENT.

SUBJECTIVE IDEALISM — finite mind/ideas; OBJECTIVE → mind-independent ideal order. → ABSOLUTE IDEALISM — finite subject and object are moments of one developing whole. → KIERKEGAARD — system loses existing individual; reply: finite is preserved as moment. → MARX — idealist inversion/material relations; bounded link keeps dialectical change. → SCHOPENHAUER/ANALYTIC — obscurity, contradiction and unproved transitions.

DOCTRINE / CLAIM

- SUBJECTIVE IDEALISM → finite mind/ideas; OBJECTIVE → mind-independent ideal order.
- ABSOLUTE IDEALISM → finite subject and object are moments of one developing whole.
- KIERKEGAARD → system loses existing individual; reply: finite is preserved as moment.
- MARX → idealist inversion/material relations; bounded link keeps dialectical change.

OBJECTION / PRESSURE

- SCHOPENHAUER/ANALYTIC → obscurity, contradiction and unproved transitions.
- REPLY → determinate negation demands a specific successor, not arbitrary synthesis.
- POLITICAL OBJECTION → actuality excuses power; reply: Wirklichkeit != mere existence.
- STRENGTH → immanent critique, mediation, recognition and internal relations.

REPLY / RESIDUAL

- TENSION → retrospective coherence may fall short of demonstrative necessity.
- PYQS → 2019 truth; 2020 phenomenal world; 2021/22 method-Absolute; 2023 history
- PYQ → 2025 Kant challenge; practice → 36 MCQs + solved 10/15/20-mark originals.
- ANSWER SPINE → thesis → terms → transition → example → objection/reply → verdict.

MECHANISM / VERDICT — Each critic targets a different joint: the individual's irreducibility, material conditions, logical obscurity, necessity of transition, or political reconciliation.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Comparisons and criticisms reveal Hegel's strength in immanent critique, while the best replies still leave a Philosophy Optional answer to judge the gap between retrospective reconstruction and strict demonstration.

E — SUBORDINATE ENRICHMENT — ONLY AFTER THE COMPLETE CORE

EXTRA · SUBORDINATE ENRICHMENT — ONLY AFTER THE COMPLETE CORE · OPTIONAL ADVANCED ENRICHMENT · ADVANCED SESSION 1 — THE DIALECTICAL METHOD - IMMANENT · ADVANCED SESSION 2 — AUFHEBUNG AND THE FIRST TRIAD · ADVANCED SESSION 3 — THE CONCRETE UNIVERSAL AND THE · ADVANCED SESSION 4 — THE MASTER-SLAVE DIALECTIC - RECOGNITION · ADVANCED SESSION 5 — STOICISM, SCEPTICISM AND THE UNHAPPY · ADVANCED SESSION 6 — ABSOLUTE IDEALISM - THE REAL · ADVANCED SESSION 7 — THE CHALLENGE TO KANT'S PHENOMENA/NOUMENA
