

ASCII MASTER FLOW – PANEL 1/12: State capacity as an integrated architecture

RULER-CENTRED AUTHORITY -> appointment, transfer, promotion and judgement

OFFICES -> differentiated finance, military, household and grant functions

MANSABDARI -> ranks elite status, remuneration and service obligation

REVENUE -> measurement, averages, records and local mediation fund the state

VERIFICATION -> dagh, chehra, accounts and news test paper claims

VERDICT: substantial capacity remained personal, hierarchical and uneven.

MUST REMEMBER: Mansab ranked service through zat and sawar; jagir assigned revenue and did not confer private ownership of land.

ASCII MASTER FLOW – PANEL 2/12: Administrative evolution 1556-1605

1556 -> Bairam Khan as powerful wakil during minority
1565 -> Muzaffar Khan Turbati strengthens the diwan's fiscal role

1573-74 -> dagh introduced | 1575 -> Todar Mal as mushrif-i-diwan
1580 -> dahsala and twelve subas
1595-96 -> zat-sawar distinction in the 40th regnal year.

ASCII MASTER FLOW – PANEL 3/12: Central offices and ruler-centred checks

PADSHAH -> appointments + transfers + justice + court access

WAKIL -> regency concentration reduced after Bairam

DIWAN -> revenue/accounts/khalisa/jagir/expenditure

MIR BAKHSHI -> mansab presentation + muster + pay + intelligence

SADR / QAZI -> grants and judicial-religious functions; powers change

MIR SAMAN / BUYUTAT -> household, karkhanas, stores and accounts

RULE: overlapping reports checked officers but centred the emperor.

ASCII MASTER FLOW – PANEL 4/12: Province to village: hierarchy and counterweights

SUBA -> subadar + provincial diwan + bakhshi + sadr/qazi + news writer

SARKAR -> faujdar + amalguzar/amil; jurisdictions may overlap

PARGANA -> shiqdar + amin/munsif + qanungo + chaudhuri + fotedar/karkun

VILLAGE -> muqaddam/headman + patwari + panchayat + cultivator

LOCAL POWER -> zamindar/chief rights, forts, armed following and custom

1580 -> twelve subas; later conquest changes count, often fifteen by reign-end

CAUTION: formal ladder did not erase negotiated/regional practice.

ASCII MASTER FLOW – PANEL 5/12: Mansabdari: rank, remuneration and obligation

MANSAB -> numerical status + remuneration + service relation

RECRUIT -> Turani + Irani + Afghan + Indian Muslim + Rajput + others

APPOINT/PROMOTE/TRANSFER -> ruler-centred integration and discipline

SERVICE -> military + provincial + court + administrative roles

PAY -> cash or jagir realization; rank is not land ownership

AHADIS/ARTILLERY/INFANTRY -> army was not mansab cavalry alone

CAUTION: not a modern merit civil service or one static table.

ASCII MASTER FLOW – PANEL 6/12: Zat, sawar and jagir logic

LATE AKBAR -> ZAT broadly personal rank/pay | SAWAR cavalry obligation
RATIOS/CATEGORIES -> changed; earlier ranks cannot be read through final formula
TANKHWAH JAGIR -> revenue assignment in lieu of salary
KHALISA -> revenue reserved for central expenditure
JAMA -> assessed paper demand | HASIL -> amount realized
MASHRUT/DU-ASPA SIH-ASPA -> later Mughal refinements, not normal Akbar
DEPENDENCE -> salary, status and assignment tied elite to emperor.

ASCII MASTER FLOW – PANEL 7/12: Dagħ, chehra and the verification problem

PAPER RANK -> claimed cavalry obligation

CHEHRA -> descriptive roll of trooper/personnel

DAGH -> branded horse identification and inspection

1573-74 -> Akbar-period strengthening with Sultanate/Sur precedents

MUSTER -> mir bakhshi records, deductions, categories and resistance

GAP -> substitution/corruption/harassment can survive documentation

RULE: verification reduces but never eliminates paper-versus-field divergence.

ASCII MASTER FLOW – PANEL 8/12: Revenue reform as experiment

EARLY -> restored systems + central price problems + provincial variation

1570s -> karori/measurement and record experiments

TEAM -> Muzaffar Khan + Todar Mal + Shah Mansur + local qanungos

MEASURE -> Ilahi gaz/bigha + iron-ring bamboo jarib

CLASSIFY -> polaj + parauti + chachar + banjar

RATE -> crop/price data organized into regional dastur circles

RULE: reform evolved through trial, officials and local information.

ASCII MASTER FLOW – PANEL 9/12: Zabt-dahsala calculation chain

ZABT -> measure area and identify crop/land category
DATA -> ten-year produce and price information
DAHSALE -> averages support annual cash-rate schedule
DASTUR -> regional crop-price/rate circle, not empire-wide price
DEMAND -> qualified one-third norm + cesses/collection realities
JAMA -> assessment | HASIL -> realization | cash risk to cultivator
CAUTION: not ten-year tax, permanent settlement or uniform coverage.

ASCII MASTER FLOW – PANEL 10/12: Methods, geography and mediation

ZABT -> measured cash schedule in settled/recorded/monetized zones

BATAI -> crop sharing after harvest; variants differ

KANKUT -> measure plus standing-crop appraisal

NASDAQ -> estimate from prior/local demand without full fresh survey

REGION -> Bengal/delta + hills/forest/frontier + uncertain crops limit zabt

MEDIATION -> zamindar + chaudhuri + qanungo + muqaddam + patwari

RULE: method followed ecology, records, crop and bargaining.

CLOSE DISTINCTION: Zabt and dahsala depended on measurement, prices and assessment but were not uniformly applicable everywhere.

ASCII MASTER FLOW – PANEL 11/12: Continuity, evidence and structural limits

SOURCE -> Ain ideal/enumeration versus farman/record/coin/regional outcome

SULTANATE/SUR -> assignment + measure + dagh/chehra + local offices

AKBAR -> suba checks + mansab-jagir + evolving zabt/dahsala methods

TENSIONS -> jama-hasil + jagir pressure + paper troops + corruption + cash risk

CENTRE -> strong but personal, dependent on appointments/reports

LATER -> Jahangir/Shah Jahan changes; no crisis projected fully backward

VERDICT: high state capacity through negotiated, uneven implementation.

EVIDENCE LIMIT: Imperial regulations must be distinguished from local practice, crop variation and later administrative adjustment.

ASCII MASTER FLOW – PANEL 12/12: Topic 16 answer spine

SOURCE -> Ain norm + document/region + assessment/realization distinction

OFFICES -> ruler-centred central/provincial checks

ELITE -> mansab + zat/sawar + jagir + muster/transfer

FISCAL -> measure + categories + dastur + dahsala + alternative methods

LOCAL -> zamindar/chaudhuri/qanungo/muqaddam/patwari + differentiated peasants

LIMIT -> ecology + cash + corruption + jama-hasil + personal centre

VERDICT -> major team-built system, neither sole invention nor impersonal uniform state.
