Complete Learning Session

SOURCE, PROGRESSION AND CURRENT-LINKAGE AUDIT

- **Repository owners queried:** Basic and Advanced Markdown for this topic, the master chronology, syllabus map and linked Modern History owners.
- **OCR book evidence queried:** OCR checks use Bipan Chandra's Modern India and India's Struggle for Independence for the Swadeshi aftermath, Bengal and Maharashtra cells, India House, Ghadar, wartime conspiracy, repression and strategic limits. Sekhar Bandyopadhyay supplies regional and transnational qualifications.
- **Qdrant:** not used; Markdown plus searchable local PDFs were sufficient.
- **PYQ integrity:** UPSC Prelims 2022 Q53 on association with the Ghadar Party is retained as a routed verification card. The local official key is unavailable, so no answer option is inferred. No direct Mains PYQ is claimed; all six Mains questions in this package are explicitly original practice.
- **Bounded live linkage:** The National Archives portal is retained only as a present-day archival bridge. Claims about revolutionary networks, actions, prosecutions and wartime plans remain grounded in the repository owners and OCR books.
- **Fact/inference rule:** historical claims are source-backed; analytical judgements are explicitly framed as interpretation and do not invent figures.

BASIC LEARNING SESSION

DEEP-REVIEW LEARNING CONTRACT

Control	Binding rule for this package
Syllabus boundary	Complete Modern History Core is taught chronologically and causally before optional enrichment.
Evidence method	Claim -> named Act/treaty/record/organisation/person/region or scholarly evidence -> analysis -> qualification.
Date discipline	Event, proposal, enactment, commencement, official policy, implementation and later interpretation remain distinct.
Historiography	Colonial, nationalist, Marxist, subaltern, Cambridge, feminist and other relevant arguments are attributed and tested, never used as labels alone.
Practice contract	Every solved item has demand decoding, an examiner-grade model, an executable answer/compression plan, marks rationale and answer-specific improvement.
Approval	This immutable successor remains approved : false pending explicit approval.

EVIDENCE, PYQ AND CURRENT-STATUS CONTROL

- **Official and primary evidence:** Acts, charters, treaties, proclamations, committee reports, proceedings, organisational resolutions, speeches and contemporary records are dated and read for authorship and purpose.
- **Regional and social evidence:** petitions, newspapers, memoirs, local studies and material geography qualify elite or all-India generalisation.
- **Economic and quantitative evidence:** revenue, trade, price, wage, craft and mortality claims retain unit, region, period and uncertainty; statistics are never invented.
- **Scholarly interpretation:** historian schools are competing explanations tied to named evidence, not memorised verdicts.
- **PYQ discipline:** repository ledgers and locally held official papers control wording and metadata; reconstructed wording and unavailable official keys remain explicitly labelled.
- **Current-status note, rechecked 2026-09-04:** The National Archives portal is retained only as a present-day archival bridge. Claims about revolutionary networks, actions, prosecutions and wartime plans remain grounded in the repository owners and OCR books.

TOPIC 16 CLOSING REVOLUTIONARY-NETWORK LEDGER

Topic 16 owns underground and overseas revolutionary activity from the Swadeshi aftermath through the wartime conspiracies of 1915-17. Topic 15 owns open militant-nationalist and Swadeshi politics; Topic 18 owns wartime Home Rule and Lucknow; Topic 21 owns HRA, HSRA, Kakori and Bhagat Singh.

Keep Bengal, Maharashtra, London/Paris and Pacific-coast networks distinct. Anushilan and Dacca Anushilan were related but not identical; Jugantar was both a network and a paper; Shyamji Krishna Varna founded India House, whereas Savarkar became a leading organiser there. Muzaffarpur (April 1908), Alipore (1908-09), Dhingra (1 July 1909), Nasik (December 1909), Hardinge (23 December 1912), Ghadar organisation/paper (1913), Komagata Maru (1914), the planned rising and Singapore mutiny (February 1915), Bagha Jatin's death (1915), and Defence of India repression are separate events.

The 2022 Prelims Q53 association test is direct. Supplementary historical evidence identifies only Rash Behari Bose among Barindra Kumar Ghosh, Jogesh Chandra Chatterjee and Rash Behari Bose as actively associated with Ghadar; the answer is retained as inferred because the local official key is absent.

Answer: post-Swadeshi closure -> regional and overseas networks -> methods and social bases -> wartime convergence -> surveillance/repression -> psychological and transnational gains -> organisational ceiling -> Topic 18/21 handoff without telescoping later revolutionary socialism backward.

PYQS AND ANSWER PRACTICE

Historical PYQ Integration (2018-2023)

Status: Question-level PYQ demand is integrated into this owner. **Provenance:** Audited local official-paper routing ledgers: _PYQ-ROUTING-PRELIMS-2018-2023.md. **Answer-key rule:** The official 2018-2023 Prelims/CSAT keys are not held locally; no option or answer has been inferred.

- **Years represented:** 2022
- **Paper(s):** Prelims GS-I
- **Routed question demands:** 1

Year	Paper	Q	PYQ demand (neutral rendering)	Directive / format	Source status	Owner requirement
2022	Prelims GS-I	53	Freedom fighters association with the Ghadar Party	Objective question; official key unavailable locally	Routed; key unavailable locally	Cover the named fact/concept and its likely statement-level distinctions.

What this owner must now support

- Freedom fighters association with the Ghadar Party

The table integrates the examinable demand and paper metadata. It does not turn an unkeyed objective question into a solved answer, and it does not claim that lexical presence alone proves full conceptual sufficiency.

PYQ DEMAND CARD 1 - 2022 Prelims GS-I Q53

Demand: Assess the association of Barindra Kumar Ghosh, Jogesh Chandra Chatterjee and Rash Behari Bose with the Ghadar Party.

Status: supplementary-evidence; local official key unavailable

Model solution / safe handling: Supplementary historical evidence distinguishes the three: Barindra Kumar Ghosh belonged to the Bengal Anushilan-Jugantar milieu; Jogesh Chandra Chatterjee belonged to Anushilan and later the Hindustan Republican Association; only Rash Behari Bose was actively associated with the Ghadar wartime rising. Therefore '3 only' is retained as an inferred answer because the local official 2022 key is unavailable.

Demand decoding: Treat "PYQ DEMAND CARD 1 - 2022 Prelims GS-I Q53" as a statement-level chronology and attribution problem: verify every date, Act/provision, person, organisation, region and causal claim independently, without inventing an official key.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: Fix the tested time window; separate event/enactment/commencement; match each actor and provision; eliminate the closest distractor with one named record, treaty, session or regional fact.

Why this earns marks: It preserves exact chronology and answer-text mapping, uses named evidence and keeps inferred elimination distinct from an official key.

How to improve this answer: For "PYQ DEMAND CARD 1 - 2022 Prelims GS-I Q53", add one explicit line showing why the nearest distractor fails on date, legal status, geography, attribution or degree.

Evidence spine:

- Anushilan Samiti and Dacca Anushilan were related but distinct Bengal networks; Barindra Ghosh's circle and Jugantar formed another centre.
- Jugantar was both a revolutionary network and a newspaper launched in 1906; Sandhya and Bande Mataram belonged to the wider militant press.

Conclusion: Repression and the decline of open Swadeshi politics encouraged a vanguard strategy of exemplary action, but did not mechanically produce every revolutionary network.

Demand decoding: The directive **answer** requires a direct position on “Why did some nationalists turn from Swadeshi mobilisation to clandestine armed action after...”, coverage of every clause, chronological-causal analysis, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: For a 10-mark answer, open with a two-sentence thesis; organise three named Acts, events, organisations, regions, primary records or scholarly positions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded conclusion.

Why this earns marks: The answer obeys the directive, distinguishes dates and policy stages, connects evidence to mechanism, recognises regional/social variation and avoids teleology or hero worship.

How to improve this answer: For “Why did some nationalists turn from Swadeshi mobilisation to clandestine armed action after...”, replace the weakest generalisation with one additional named primary/official record or attributed scholarly interpretation and state exactly what it cannot prove.
