Simon Commission, Nehru Report, Civil Disobedience & Round Table Conferences (1927-1934) - Learner-v2 Complete Learning Session

SOURCE, PROGRESSION AND CURRENT-LINKAGE AUDIT

- **Repository owners queried:** Basic and Advanced Markdown for this topic, the master chronology, syllabus map and linked Modern History owners.
- **OCR book evidence queried:** The Basic and Advanced owners were reconciled with the repository OCR of Bipan Chandra's Modern India and India's Struggle for Independence. The route is stated as about 385/388 km; historical sources that render it as 240 miles are explicitly identified as a source variation. The local Bipan Chandra OCR's 147-seat Poona Pact figure is not silently preferred over the widespread 148 convention.
- **Qdrant:** not used; Markdown plus searchable local PDFs were sufficient.
- **PYQ integrity:** The exact 2025 Prelims GS-I Q74 stem is taken from knowledge-export/Prelims PYQ/2025-GS1-Set A.md; its official Series-A answer A (Poona Pact) is independently confirmed from books/prelima_question_paper_answers/Ans-2025-GS1.pdf. The exact 2020 Gandhi-Irwin Pact stem is retained from the local official-paper OCR, but no answer letter is invented because no local official key is held.
- **Bounded live linkage:** The 12 March 2026 date was the 96th calendar anniversary of the Dandi March's departure. The anniversary is used only as a restrained public-memory bridge. The Central Bureau of Communication page on the National Salt Satyagraha Memorial at Dandi supplies official static memorial context; no claim is made that a Prime Minister, Vice-President or minister issued an independently verified 2026 tribute.
- **Fact/inference rule:** historical claims are source-backed; analytical judgements are explicitly framed as interpretation and do not invent figures.

DEEP-REVIEW LEARNING CONTRACT

Control	Binding rule for this package
Syllabus boundary	Complete Modern History Core is taught chronologically and causally before optional enrichment.
Evidence method	Claim -> named Act/treaty/record/organisation/person/region or scholarly evidence -> analysis -> qualification.
Date discipline	Event, proposal, enactment, commencement, official policy, implementation and later interpretation remain distinct.
Historiography	Colonial, nationalist, Marxist, subaltern, Cambridge, feminist and other relevant arguments are attributed and tested, never used as labels alone.
Practice contract	Every solved item has demand decoding, an examiner-grade model, an executable answer/compression plan, marks rationale and answer-specific improvement.

EVIDENCE, PYQ AND CURRENT-STATUS CONTROL

- **Official and primary evidence:** Acts, charters, treaties, proclamations, committee reports, proceedings, organisational resolutions, speeches and contemporary records are dated and read for authorship and purpose.
- **Regional and social evidence:** petitions, newspapers, memoirs, local studies and material geography qualify elite or all-India generalisation.
- **Economic and quantitative evidence:** revenue, trade, price, wage, craft and mortality claims retain unit, region, period and uncertainty; statistics are never invented.
- **Scholarly interpretation:** historian schools are competing explanations tied to named evidence, not memorised verdicts.
- **PYQ discipline:** repository ledgers and locally held official papers control wording and metadata; reconstructed wording and unavailable official keys remain explicitly labelled.
- **Current-status note, rechecked 2026-09-04:** The 12 March 2026 date was the 96th calendar anniversary of the Dandi March's departure. The anniversary is used only as a restrained public-memory bridge. The Central Bureau of Communication page on the National Salt Satyagraha Memorial at Dandi supplies official static memorial context; no claim is made that a Prime Minister, Vice-President or minister issued an independently verified 2026 tribute.

SIMON COMMISSION: EXCLUSION BECOMES A MASS ISSUE
1927 -> all-British statutory commission appointed
NO INDIAN MEMBER -> constitutional review loses representative legitimacy

POLITICAL EFFECT -> constitutional protest becomes a national mass issue

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The Simon crisis was a legitimacy crisis created when an imperial government excluded Indians from the statutory review of India's own constitutional system.
- **Topic boundary:** Apply this definition only within Simon Commission, Nehru Report, Civil Disobedience & Round Table Conferences (1927-1934); retain the named actor, institution, date and chronological role.

- Exclusion linked constitutional criticism to street mobilisation.

EXAMINER CAUTION

- Keep appointment in 1927 distinct from arrival on 3 February 1928.

EVIDENCE AND MECHANISM

- Rai led an anti-Simon demonstration at Lahore.
- Police used lathis on 30 October 1928.
- Rai died on 17 November 1928 after the injuries.
- Revolutionary retaliation against Saunders belongs to the subsequent HSRA chain, not to the Simon Commission itself.

- **Topic boundary:** Apply this definition only within Simon Commission, Nehru Report, Civil Disobedience & Round Table Conferences (1927-1934); retain the named actor, institution, date and chronological role.

CORE EXPLANATION

The Nehru Report was not simply an anti-Simon protest document; it was an Indian attempt to design responsible government under Dominion Status while balancing rights and minority representation.

EVIDENCE AND MECHANISM

- Motilal Nehru chaired the All-Parties committee.
- The report proposed responsible government and enforceable rights.
- It preferred joint electorates but retained qualified minority reservations where minorities required protection.
- Its Dominion framework separated it from Lahore's later Purna Swaraj position.

EXAMINER CAUTION

CORE EXPLANATION

EVIDENCE AND MECHANISM

- The disagreement concerned representation at the Centre and in Punjab and Bengal, residuary powers and separate electorates.
- The Fourteen Points followed the 1928 report; they did not precede it.
- The Hindu Mahasabha and other interests also constrained compromise.
- The deadlock exposed competing constitutional securities inside the anti-colonial field.

CONCEPT DEFINITIONS

- **Precise definition:** The 1928-29 ultimatum sequence tested whether imperial language would be converted into a binding transfer programme and found it insufficient.
- **Topic boundary:** Apply this definition only within Simon Commission, Nehru Report, Civil Disobedience & Round Table Conferences (1927-1934); retain the named actor, institution, date and chronological role.

CORE EXPLANATION

Between December 1928 and December 1929, Congress moved from a one-year Dominion ultimatum to rejecting vague imperial assurances that did not commit an RTC to implement Dominion Status.

EVIDENCE AND MECHANISM

- Calcutta Congress gave Britain one year from December 1928.
- Irwin's 31 October 1929 declaration called Dominion Status the natural issue of constitutional progress.
- The Delhi Manifesto asked that the RTC implement rather than merely debate the objective.
- Failure to secure assurance cleared the path to Lahore.

24 SEP 1932 -> POONA PACT
DESIGN -> reserved seats in joint electorates; disagreement persists

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The Gandhi-Ambedkar debate concerned which electoral institution could secure dignity and representation without reproducing social domination.
- **Topic boundary:** Apply this definition only within Simon Commission, Nehru Report, Civil Disobedience & Round Table Conferences (1927-1934); retain the named actor, institution, date and chronological role.

CORE EXPLANATION

The 1932 representation crisis opposed two serious political fears: Gandhi feared separate electorates would harden untouchability into permanent social separation, while Ambedkar feared joint electorates would deny Depressed Classes an independent political voice.

EVIDENCE AND MECHANISM

- The Communal Award extended separate electorates to Depressed Classes.
- Gandhi's Yeravda fast began on 20 September 1932.
- The Poona Pact was concluded on 24 September 1932.
- It substituted reserved seats in joint electorates; the fast created a coercive bargaining context that a balanced answer must name.

EXAMINER CAUTION

- Do not describe the settlement as full agreement or flatten either side into bad faith.

EXAM LINK

- **Prelims:** Do not describe the settlement as full agreement or flatten either side into bad faith.
- **Mains:** Build the answer as representation problem, rival safeguards, coercive context, institutional compromise and unresolved legacy.

MINI RECAP

- **Core claim:** The 1932 representation crisis opposed two serious political fears: Gandhi feared separate electorates would harden untouchability into permanent social separation, while Ambedkar feared joint electorates would deny Depressed Classes an independent political voice.
- **Use:** Build the answer as representation problem, rival safeguards, coercive context, institutional compromise and unresolved legacy.

SESSION 15 - CORE SYNTHESIS - POONA SEAT-NUMBER CAUTION, THIRD RTC AND CDM WITHDRAWAL

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: The end phase requires evidentiary restraint: Poona's provincial seat total varies between the local OCR's 147 and the widespread 148 convention, the Third RTC had limited importance without Congress, and CDM ended under repression in early April 1934.

Technical definition: CDM's withdrawal in early April 1934 followed a repressed and declining resumed phase, not an immediate post-Pact ending.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

The Third RTC was largely formal and should not be overstated.

MUST-WRITE KEYWORDS

- **CORE SYNTHESIS**
- **Poona seat-number caution**
- **Third RTC**
- **CDM withdrawal**
- **Precise definition**
- **Topic boundary**

How to use them: Frame the answer through CORE SYNTHESIS; define Poona seat-number caution, connect Third RTC with CDM withdrawal to explain the mechanism, and use Precise definition for the decisive comparison or qualification.

VISUAL FIRST

POONA SEAT-NUMBER CAUTION, THIRD RTC AND CDM WITHDRAWAL
POONA PACT NUMBER -> local OCR 147 | widespread convention 148
RULE -> attribute the variation; do not present false certainty
THIRD RTC -> Congress absent -> limited/formal significance
1932-34 -> resumed CDM under repression
EARLY APRIL 1934 -> withdrawal
VERDICT -> no immediate freedom, durable legitimacy shift

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The end-phase verdict separates disputed quantitative detail, weak constitutional conferencing and the strategic closure of a repressed movement.
- **Topic boundary:** Apply this definition only within Simon Commission, Nehru Report, Civil Disobedience & Round Table Conferences (1927-1934); retain the named actor, institution, date and chronological role.

CORE EXPLANATION

The end phase requires evidentiary restraint: Poona's provincial seat total varies between the local OCR's 147 and the widespread 148 convention, the Third RTC had limited importance without Congress, and CDM ended under repression in early April 1934.

EVIDENCE AND MECHANISM

- The package identifies the 147/148 variation rather than silently choosing one total.
- Congress was absent from the Third RTC.
- The Third RTC was largely formal and should not be overstated.
- CDM's withdrawal in early April 1934 followed a repressed and declining resumed phase, not an immediate post-Pact ending.

EXAMINER CAUTION

- Do not state a disputed seat total as uncontested or make the Third RTC the decisive constitutional settlement.

EXAM LINK

- **Prelims:** Do not state a disputed seat total as uncontested or make the Third RTC the decisive constitutional settlement.
- **Mains:** End a period answer with a qualified verdict on transformed political consciousness despite limited immediate concession.

MODERN HISTORY DEEP-REVIEW CORE CONTROL

- **Must remember:** Simon Commission protest, the 1928 Nehru Report, Lahore's Purna Swaraj resolution in 1929, the 1930 salt march, Gandhi-Irwin Pact of 5 March 1931 and three Round Table Conferences form separate stages.
- **Close distinction:** The Communal Award and Poona Pact belong to 1932 and addressed representation differently; Civil Disobedience changed phases before formal withdrawal in 1934.
- **Evidence / interpretation limit:** Official conference records, Congress resolutions, Ambedkar-Gandhi positions and regional no-tax or forest struggles prevent an elite-negotiation-only account.

TOPIC 22 CLOSING CONSTITUTIONAL-DEADLOCK-AND-CDM LEDGER

Topic 22 owns the 1927-34 sequence from the all-British Simon Commission and the Indian-authored Nehru Report through Purna Swaraj, Civil Disobedience, the Gandhi-Irwin Pact, three Round Table Conferences, the Communal Award, Poona Pact and final withdrawal. Topic 21 owns the Swarajist and HRA-HSRA streams; Topic 23 owns organised Left, peasant, worker and states-peoples movements; Topic 24 owns the 1935 Act and 1937 ministries. Topics 26 and 27 retain the post-war upsurge/Cabinet Mission and independence/partition respectively.

Keep appointment, arrival and protest distinct: Simon appointed in 1927 and arrived on 3 February 1928; Lala Lajpat Rai was injured at Lahore on 30 October and died on 17 November. Nehru Report dominion status (1928), Jinnah's Fourteen Points (1929), Lahore Purna Swaraj (December 1929), Independence Day (26 January 1930), Dandi departure (12 March) and salt-law breach (6 April) are separate constitutional and movement stages.

Civil Disobedience must extend beyond Dandi to Dharasana, Peshawar and the Khudai Khidmatgars, Garhwali refusal, Sholapur, no-tax, forest-law defiance, women's participation and differentiated class/regional response. The Gandhi-Irwin Pact of 5 March 1931 was a truce, not independence. Congress was absent from the First RTC, Gandhi was its sole representative at the Second, and the Third was marginal. Communal Award separate electorates and Poona Pact reserved seats in joint electorates are not interchangeable; the 147/148 seat figure remains a recorded source variance.

Two direct objective routes are retained: 2025 Prelims Q74 has a locally confirmed Series-A key; 2020 Prelims Q27 is locally unkeyed and no official letter is invented.

Answer: exclusion and boycott -> Indian constitutional draft and communal deadlock -> Purna Swaraj -> salt as universal law-breaking symbol -> regional and social spread -> repression and negotiation -> RTC limits -> Communal Award/Poona Pact conflict -> resumed struggle, withdrawal in 1934 and bounded handoff to the 1935 Act.

PYQ DEMAND CARD 1 - 2025 Prelims GS-I Q74

Demand: Subsequent to which one of the following events, Gandhiji, who consistently opposed untouchability and appealed for its eradication from all spheres, decided to include the upliftment of 'Harijans' in his political and social programme? (2025-GS1-Set A.md)

Status: official-key-confirmed

Model solution / safe handling: The official Series-A answer is **A - The Poona Pact**, verified directly from Ans-2025-GS1 . pdf. The package links the answer to the post-Communal-Award fast, Pact and Harijan-work sequence.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: Fix the tested time window; separate event/enactment/commencement; match each actor and provision; eliminate the closest distractor with one named record, treaty, session or regional fact.

Why this earns marks: It preserves exact chronology and answer-text mapping, uses named evidence and keeps inferred elimination distinct from an official key.

How to improve this answer: For “PYQ DEMAND CARD 1 - 2025 Prelims GS-I Q74”, add one explicit line showing why the nearest distractor fails on date, legal status, geography, attribution or degree.

Question: Trace the constitutional and mass-political sequence from the Simon Commission to the withdrawal of CDM. Answer in about 300 words.

Model thesis: The period formed a single escalation cycle: exclusion, Indian constitution-making, Purna Swaraj, mass illegality, negotiation, representation conflict, repression and strategic withdrawal.

Evidence spine:

- The Communal Award extended separate electorates to the Depressed Classes; Gandhi's Yeravda fast began on 20 September 1932.
- The Poona Pact of 24 September 1932 substituted reserved seats in joint electorates for separate electorates; the local Bipan Chandra OCR gives 147 provincial seats while 148 is the widespread convention, so the total is identified as disputed.

Balance: Distinguish intention from outcome, identify regional or social variation, and avoid treating a formal measure as complete implementation.

Conclusion: The period formed a single escalation cycle: exclusion, Indian constitution-making, Purna Swaraj, mass illegality, negotiation, representation conflict, repression and strategic withdrawal.

Demand decoding: The directive **trace** requires a direct position on "Trace the constitutional and mass-political sequence from the Simon Commission to the...", coverage of every clause, chronological-causal analysis, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: For a 20-mark answer, open with a two-sentence thesis; organise six to eight named Acts, events, organisations, regions, primary records or scholarly positions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded conclusion.

Why this earns marks: The answer obeys the directive, distinguishes dates and policy stages, connects evidence to mechanism, recognises regional/social variation and avoids teleology or hero worship.

How to improve this answer: For "Trace the constitutional and mass-political sequence from the Simon Commission to the...", replace the weakest generalisation with one additional named primary/official record or attributed scholarly interpretation and state exactly what it cannot prove.

ORIGINAL MAINS 6 - 20 MARKS

Question: Critically examine the Gandhi-Ambedkar disagreement and the Poona Pact's representational compromise. Answer in about 300 words.

Model thesis: A balanced answer must hold together Gandhi's fear of permanent social separation, Ambedkar's demand for autonomous political voice, the coercive fast context and the Pact's joint-electorate reservation design.

Evidence spine:

- The Communal Award extended separate electorates to the Depressed Classes; Gandhi's Yeravda fast began on 20 September 1932.
- The Poona Pact of 24 September 1932 substituted reserved seats in joint electorates for separate electorates; the local Bipan Chandra OCR gives 147 provincial seats while 148 is the widespread convention, so the total is

identified as disputed.

Balance: Distinguish intention from outcome, identify regional or social variation, and avoid treating a formal measure as complete implementation.

Conclusion: A balanced answer must hold together Gandhi's fear of permanent social separation, Ambedkar's demand for autonomous political voice, the coercive fast context and the Pact's joint-electorate reservation design.
