Left, Peasant, Workers' & States' Peoples' Movements (1930s) - Learner-v2 Complete Learning Session

SOURCE, PROGRESSION AND CURRENT-LINKAGE AUDIT

- **Repository owners queried:** Basic and Advanced Markdown for this topic, the master chronology, syllabus map and linked Modern History owners.
- **OCR book evidence queried:** The Basic and Advanced owners were reconciled with the repository OCR of India's Struggle for Independence. Tashkent 1920 is identified as the international/emigre communist formation and Kanpur 1925 as the all-India organisation formed inside India. The AISPC first convention is fixed to December 1927, with the source spelling G.R. Abhayankar.
- **Qdrant:** not used; Markdown plus searchable local PDFs were sufficient.
- **PYQ integrity:** Exact local official-paper wording is retained for the 2019, 2020 and 2023 GS-I questions. The 2020 Ulgulan objective stem is retained from the local official-paper OCR without an answer letter because no local official key is held. The 2026 Forward Bloc stem is explicitly provisional and receives no answer letter.
- **Bounded live linkage:** The Hindu report on farm-worker organisations announcing an indefinite countrywide protest from 1 July 2026 over rural-employment policy is used only as an organisational-lineage and labour-rights bridge. Contemporary policy claims are kept separate from the history of the 1930s; no unrelated secondary strike claim is used.
- **Fact/inference rule:** historical claims are source-backed; analytical judgements are explicitly framed as interpretation and do not invent figures.

DEEP-REVIEW LEARNING CONTRACT

Control	Binding rule for this package
Syllabus boundary	Complete Modern History Core is taught chronologically and causally before optional enrichment.
Evidence method	Claim -> named Act/treaty/record/organisation/person/region or scholarly evidence -> analysis -> qualification.
Date discipline	Event, proposal, enactment, commencement, official policy, implementation and later interpretation remain distinct.
Historiography	Colonial, nationalist, Marxist, subaltern, Cambridge, feminist and other relevant arguments are attributed and tested, never used as labels alone.
Practice contract	Every solved item has demand decoding, an examiner-grade model, an executable answer/compression plan, marks rationale and answer-specific improvement.
Approval	This immutable successor remains approved : false pending explicit approval.

EVIDENCE, PYQ AND CURRENT-STATUS CONTROL

- **Official and primary evidence:** Acts, charters, treaties, proclamations, committee reports, proceedings, organisational resolutions, speeches and contemporary records are dated and read for authorship and purpose.
- **Regional and social evidence:** petitions, newspapers, memoirs, local studies and material geography qualify elite or all-India generalisation.
- **Economic and quantitative evidence:** revenue, trade, price, wage, craft and mortality claims retain unit, region, period and uncertainty; statistics are never invented.
- **Scholarly interpretation:** historian schools are competing explanations tied to named evidence, not memorised verdicts.
- **PYQ discipline:** repository ledgers and locally held official papers control wording and metadata; reconstructed wording and unavailable official keys remain explicitly labelled.
- **Current-status note, rechecked 2026-09-04:** The Hindu report on farm-worker organisations announcing an indefinite countrywide protest from 1 July 2026 over rural-employment policy is used only as an organisational-lineage and labour-rights bridge. Contemporary policy claims are kept separate from the history of the 1930s; no unrelated secondary strike claim is used.

SESSION 1 - FOUNDATION - SCOPE MAP: ROOTS, 1930S CORE AND LATE-COLONIAL BRIDGES

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Chronology is the organising discipline for this topic: pre-1930 organisations are roots, the 1930s are the core phase, and 1945-46 movements are consequences or late-colonial bridges.

Technical definition: Precise definition: The topic is a periodised study of how earlier organisations enabled the 1930s social turn and later movements radicalised its unresolved demands.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

- roots
- late-colonial bridges
- Precise definition
- 1930s core

How to use them: Frame the answer through FOUNDATION; define Scope map, connect roots with late-colonial bridges to explain the mechanism, and use Precise definition for the decisive comparison or qualification.

GENEALOGY -> Birsa Ulgulan 1899-1900

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The topic is a periodised study of how earlier organisations enabled the 1930s social turn and later movements radicalised its unresolved demands.
- **Topic boundary:** Apply this definition only within Left, Peasant, Workers' & States' Peoples' Movements (1930s); retain the named actor, institution, date and chronological role.

CORE EXPLANATION

Chronology is the organising discipline for this topic: pre-1930 organisations are roots, the 1930s are the core phase, and 1945-46 movements are consequences or late-colonial bridges.

EVIDENCE AND MECHANISM

- AITUC, early communist organisation, Bardoli and AISPC precede the 1930s.
- CSP, AIKS, Faizpur, ministries, planning and Praja Mandal awakening form the core 1930s sequence.
- Warli, Tebhaga, Telangana and Punnapra-Vayalar belong to 1945-46.
- Birsa Ulgulan in 1899-1900 is a deeper tribal genealogy.

EXAMINER CAUTION

- Do not pull every agrarian or tribal movement into the 1930s.

EXAM LINK

- **Prelims:** Do not pull every agrarian or tribal movement into the 1930s.

- **Mains:** Begin broad answers with a roots-core-consequences periodisation.

MINI RECAP

SESSION 2 - FOUNDATION - AITUC AND THE LABOUR CONSTITUENCY

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Precise definition: AITUC was an all-India trade-union platform that organised industrial labour as a distinct political constituency within anti-colonial India.

Technical definition: Prelims: Do not confuse AITUC's 1920 labour role with AIKS's 1936 peasant role.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Precise definition: AITUC was an all-India trade-union platform that organised industrial labour as a distinct political constituency within anti-colonial India.

MUST-WRITE KEYWORDS

VISUAL FIRST

AITUC AND THE LABOUR CONSTITUENCY

1920 -> AITUC FOUNDED

FIRST PRESIDENT -> LALA LAJPAT RAI

BASE -> industrial workers; especially organised urban centres

METHOD -> unions + strikes + political representation

LIMIT -> geographically concentrated, not the whole Indian workforce

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** AITUC was an all-India trade-union platform that organised industrial labour as a distinct political constituency within anti-colonial India.
- **Topic boundary:** Apply this definition only within Left, Peasant, Workers' & States' Peoples' Movements (1930s); retain the named actor, institution, date and chronological role.

CORE EXPLANATION

AITUC made industrial labour visible as an organised all-India constituency from 1920, with Lala Lajpat Rai as first president, before the socialist consolidation of the 1930s.

EVIDENCE AND MECHANISM

- AITUC was founded in 1920.
- Lala Lajpat Rai was its first president.
- Textile and railway action connected workplace demands to anti-imperial politics.
- Trade union strength remained concentrated in selected industrial centres.

EXAMINER CAUTION

- Do not confuse AITUC's 1920 labour role with AIKS's 1936 peasant role.

EXAM LINK

- **Prelims:** Do not confuse AITUC's 1920 labour role with AIKS's 1936 peasant role.

SESSION 3 - FOUNDATION - COMMUNIST CHRONOLOGY: TASHKENT, KANPUR AND WPP

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Roy is associated with the Tashkent formation.

Technical definition: Precise definition: The two-date CPI chronology distinguishes an international founding initiative from the later all-India organisational formation inside India.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Roy is associated with the Tashkent formation.

MUST-WRITE KEYWORDS

- FOUNDATION
- Communist chronology
- Tashkent
- Kanpur
- WPP
- Precise definition

How to use them: Frame the answer through FOUNDATION; define Communist chronology, connect Tashkent with Kanpur to explain the mechanism, and use WPP for the decisive comparison or qualification.

VISUAL FIRST

COMMUNIST CHRONOLOGY: TASHKENT, KANPUR AND WPP
TASHKENT 1920 -> international/emigre communist formation
KANPUR 1925 -> all-India organisation formed inside India
WPP -> open workers-peasants political activity in the late 1920s
CSP 1934 -> separate socialist current within Congress
RULE -> related left histories, not one interchangeable organisation

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The two-date CPI chronology distinguishes an international founding initiative from the later all-India organisational formation inside India.
- **Topic boundary:** Apply this definition only within Left, Peasant, Workers' & States' Peoples' Movements (1930s); retain the named actor, institution, date and chronological role.

CORE EXPLANATION

Communist formation cannot be compressed into one unexplained date: Tashkent 1920 identifies an international/emigre initiative, Kanpur 1925 an all-India organisation inside India, and Workers' and Peasants' Parties a later open political form.

EVIDENCE AND MECHANISM

- M.N. Roy is associated with the Tashkent formation.
- Kanpur 1925 marks organisation within India.
- Workers' and Peasants' Parties linked labour and peasant work to Congress-left activity.
- These currents were not identical to the later CSP.

EXAMINER CAUTION

- Never write only 'CPI founded in 1925' without qualifying the 1920 history.

EXAM LINK

- **Prelims:** Never write only 'CPI founded in 1925' without qualifying the 1920 history.
- **Mains:** A strong answer distinguishes location, organisational form and political arena.

SESSION 4 - CORE - MEERUT CONSPIRACY CASE: REPRESSION AND PUBLICITY

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Precise definition: Meerut was a colonial conspiracy prosecution whose political effect combined organisational repression with unintended ideological publicity.

Technical definition: Mains: Use Meerut as a repression-publicity paradox rather than a bare case name.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Precise definition: Meerut was a colonial conspiracy prosecution whose political effect combined organisational repression with unintended ideological publicity.

MUST-WRITE KEYWORDS

- repression
- publicity

- Topic boundary
- Core claim

How to use them: Frame the answer through Meerut Conspiracy Case; define repression, connect publicity with Precise definition to explain the mechanism, and use Topic boundary for the decisive comparison or qualification.

VISUAL FIRST

MEERUT CONSPIRACY CASE: REPRESSION AND PUBLICITY

COLONIAL AIM -> disable communist + trade-union organisation

1929 ARRESTS -> prolonged MEERUT TRIAL -> 1933

DIRECT EFFECT -> leadership disruption + imprisonment

PARADOXICAL EFFECT -> national publicity for labour and socialist arguments

EVIDENCE RULE -> avoid unreconciled precise accused counts

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** Meerut was a colonial conspiracy prosecution whose political effect combined organisational repression with unintended ideological publicity.
- **Topic boundary:** Apply this definition only within Left, Peasant, Workers' & States' Peoples' Movements (1930s); retain the named actor, institution, date and chronological role.

CORE EXPLANATION

The Meerut Conspiracy Case of 1929-33 sought to disable communist and trade-union networks, yet its extended public trial also exposed a wider audience to socialist and labour politics.

EVIDENCE AND MECHANISM

- The case began with arrests in 1929 and lasted to 1933.
- It targeted communist and trade-union organisers.
- The package avoids a precise accused count because held sources and summaries require reconciliation.
- Repression could weaken organisations while publicising their ideas.

EXAMINER CAUTION

- Do not turn an unreconciled accused count into a memorised fact.

EXAM LINK

- **Prelims:** Do not turn an unreconciled accused count into a memorised fact.

VISUAL FIRST

CONGRESS SOCIALIST PARTY INSIDE CONGRESS
BOMBAY, OCTOBER 1934 -> CSP FORMED WITHIN CONGRESS
LEADERS -> J.P. Narayan | Narendra Dev | Lohia | Minoo Masani
STRATEGY -> radicalise the national platform from inside

- **Topic boundary:** Apply this definition only within Left, Peasant, Workers' & States' Peoples' Movements (1930s); retain the named actor, institution, date and chronological role.

CORE EXPLANATION

The CSP formed at Bombay in October 1934 to radicalise the national movement from within Congress, not to create an organisation identical with the CPI.

EVIDENCE AND MECHANISM

- Key leaders included J.P. Narayan and Acharya Narendra Dev.
- Ram Manohar Lohia and Minoo Masani were also central.
- Members agreed that the anti-imperialist national struggle remained primary.
- The inside-Congress choice preserved coalition breadth but constrained class autonomy.

EXAMINER CAUTION

- CSP and CPI had interactions, but they were not the same organisation.

EXAM LINK

- **Prelims:** CSP and CPI had interactions, but they were not the same organisation.
- **Mains:** Use organisational location to explain both CSP influence and its limits.

MINI RECAP

SESSION 15 - CORE SYNTHESIS - SYNTHESIS: SOCIAL TRANSFORMATION WITHIN A BROAD COALITION

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Precise definition: Agenda transformation means that organised social constituencies altered Congress commitments even though no single left organisation captured the nationalist coalition.

Technical definition: Core claim: The Left's decisive achievement was to change the social content and commitments of nationalism through organisations and pressure from below; its decisive limit was that Congress remained broad, multi-class and committed to coalition unity.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

- **Synthesis**
- **social transformation within a broad coalition**
- **Precise definition**
- **Topic boundary**

VISUAL FIRST

SYNTHESIS: SOCIAL TRANSFORMATION WITHIN A BROAD COALITION
PRESSURE FROM BELOW

MODERN HISTORY DEEP-REVIEW CORE CONTROL

- **Must remember:** CSP (1934), All India Kisan Sabha (1936), trade unions, communist networks and princely-state Praja Mandals linked national politics to class and regional struggles in different ways.
- **Close distinction:** The CPI's origin requires qualification between the 1920 Tashkent formation and the 1925 Kanpur conference; peasant, labour, caste and women's movements were not Congress appendages.
- **Evidence / interpretation limit:** Party documents, labour reports and local movement studies must recover agency while avoiding the claim that one ideological line uniformly controlled India's diverse social struggles.

CLOSING SEMANTIC LEDGER A - WATER, GRANT FORMS, INTERMEDIARIES AND STATE DEBATE

Why this supplement is necessary

[ANALYSIS] A complete account cannot move directly from dynastic war to temples. It must show the material and intermediary mechanisms that connected a court to uneven local societies.

Missing bridge	Evidence-led reconstruction	Limit
Irrigation	Tanks, wells and channels supported cultivation in rainfall-variable zones; donors, local bodies and institutions could share maintenance	An inscription naming a work does not prove uniform state irrigation
Grant forms	<i>Brahmadeya</i> and <i>agrahara</i> primarily concern Brahmana beneficiaries; <i>devadana</i> assigns resources to a deity or temple	Formula and actual enforcement must be separated
Intermediary power	Princes, officers, tributary chiefs, military retainers, village bodies and beneficiaries connected core courts to localities	A campaign zone is not automatically an annexed province
Production society	Peasants, pastoralists, artisans and service groups sustained agrarian and temple networks	Elite records create severe source silence
Gendered patronage	Queen Lokamahadevi is associated with Virupaksha and Queen Trailokyamahadevi with Mallikarjuna at Pattadakal	Elite female patronage does not establish general equality

State-formation debate

Model	What it illuminates	Why it is insufficient alone
Indian-feudalism interpretation	Fiscal immunities, landed intermediaries and possible peasant dependence	Grants varied; royal capacity, towns and exchange did not vanish uniformly
Segmentary-state heuristic	Stronger core, graded authority and ritual claims beyond direct control	It was developed most fully for later Chola evidence and cannot be pasted onto every Pallava-Chalukya phase
Integrative/processual approach	Grants, cults, alliances and local institutions as polity-building mechanisms	Integration remained unequal and conflictual
Peasantization/agrarian-expansion approach	Incorporation of forest, pastoral and cultivating populations	Change was not one-way or identical in every ecology

Qualified verdict: Pallava and Chalukya states combined coercion, tribute, redistribution, intermediary negotiation and ritual-cultural integration.

CLOSING SEMANTIC LEDGER B - NEGOTIATED CULTURE, LANGUAGE AND BOUNDARY CONTROL

Brahmanization was negotiated and uneven

- [FACT] Grants record Brahmana migration and beneficiary networks, but they are not complete population maps.

- [ANALYSIS] *Sanskritization* identifies some adoption of high-status practices;

localization and vernacularization show how received forms were changed in Tamil, Kannada and Telugu-region settings.

- [ANALYSIS] Puranic identifications could incorporate local deities without erasing local names, myths, festivals or constituencies.

- [LIMIT] Varna idioms interacted with occupational and locality-based jatis; the peninsula did not become a copy of a northern normative text.

- [LIMIT] Bhakti could broaden devotional access and criticize hierarchy, yet temple institutions could reproduce rank. It was not solely an anti-caste protest.

Language and script matrix

Context	Exam-safe formulation
Pallava chancery	Early Prakrit and then Sanskrit charters; later Sanskrit eulogy often coexisted with Tamil documentary content
Badami Chalukya realm	Sanskrit court poetry coexisted with expanding Kannada epigraphic expression
Vengi	Sanskrit prestige interacted with regional documentary practice; major Telugu literary florescence belongs substantially to later centuries
Literacy	Epigraphic production proves institutional literacy, not mass literacy

Correct eastern and transition boundary

- [FACT] Pulakeshin II's brother Kubja Vishnuvardhana founded the Eastern Chalukya line in Vengi in the early seventh century.
- [FACT] The branch continued into the eleventh century. Rajaraja I intervened in Vengi succession politics and backed restoration; this must not be rewritten as a simple conquest ending the dynasty in AD 999.
- [FACT] Rashtrakuta displacement of Kirtivarman II is conventionally placed around AD 753. It ends Badami Chalukya rule, not every Chalukya line.
- [BOUNDARY] Full Rashtrakuta history and later Chola-Vengi integration remain outside Topic 23.

Final source-control checklist

1. Court eulogy is evidence of a claim, not an audited campaign map.
2. A grant formula is not proof that every listed right was uniformly exercised.
3. Monument style is not a rigid ethnic identity.
4. Royal patronage does not erase artisans, queens, local donors or institutions.
5. Modern linguistic-state boundaries must not be projected backward.
6. Contact with Sri Lanka or Southeast Asia is not proof of a colonial empire.

TOPIC 23 CLOSING SOCIAL-MOVEMENTS-AND-LEFT LEDGER

Topic 23 owns the 1930s widening of nationalism through socialist, communist, worker, peasant and princely-state peoples' organisation. AITUC (1920), the Tashkent/Kanpur communist-origin distinction, AISPC (1927), Bardoli (1928) and Bihar Kisan Sabha (1929) are roots; CSP (1934), AIKS/Faizpur (1936), Congress ministries, Haripura (1938) and Tripuri/Forward Bloc (1939) are the core. Bakasht, Warli, Tebhaga and Telangana are bounded late-colonial bridges, not a licence to absorb Topic 26's INA/RIN/Cabinet Mission, Topic 27's independence and partition, Topic 28's integration, or Topic 38's post-independence land and agrarian synthesis.

Keep organisations and social bases separate. AITUC was an all-India labour platform; CSP worked within Congress; CPI origins require Tashkent 1920 versus Kanpur 1925 qualification; AIKS organised agrarian demands; AISPC coordinated rights struggles under princes. Congress absorption and autonomous popular initiative must be assessed together rather than forcing every movement into a single command hierarchy.

Movement analysis requires grievance -> organisation -> repertoire -> state response -> outcome. Bardoli's disciplined revenue satyagraha differs from Awadh/Eka landlord-tenant conflict; Moplah requires agrarian, anti-colonial and communal dimensions; Ulgulan is a nineteenth-century tribal demand routed here only through the dedicated tribal-response bank. Tripuri was an ideological, strategic and organisational conflict, not merely a Bose-Gandhi personality clash.

Five routed demands are controlled: 2019 and 2020 GS-I are bounded/shared national-movement questions; 2023 GS-I is a cross-period tribal route; 2020 Prelims Q35 is locally unkeyed; 2026 Prelims Q16 is provisional and no answer letter is promoted.

Answer: roots and repression -> socialist/communist organisational distinctions -> worker and peasant mobilisation -> rights and agrarian programmes -> princely-state democratisation -> Bose/Tripuri strategic tension -> bounded late-colonial radicalisation -> wider social base with coalition limits.

PYQ DEMAND CARD 1 - 2019 GS-I Q11

Demand: Many voices had strengthened and enriched the nationalist movement during the Gandhian phase.

Elaborate. (Answer in 250 words) [QP-CSM19-GeneralStudies-I.pdf.md]

Status: official-wording-bounded-model

Model solution / safe handling: Organise the answer by Gandhian mass politics, socialist and communist currents, peasants, workers, women, tribals and princely-state subjects; explain enrichment without erasing autonomous agendas or Congress's coalition limits.

Demand decoding: The directive **answer** requires a direct position on "PYQ DEMAND CARD 1 - 2019 GS-I Q11", coverage of every clause, chronological-causal analysis, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: For a 15-mark answer, open with a two-sentence thesis; organise five named Acts, events, organisations, regions, primary records or scholarly positions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded conclusion.

Why this earns marks: The answer obeys the directive, distinguishes dates and policy stages, connects evidence to mechanism, recognises regional/social variation and avoids teleology or hero worship.

How to improve this answer: For "PYQ DEMAND CARD 1 - 2019 GS-I Q11", replace the weakest generalisation with one additional named primary/official record or attributed scholarly interpretation and state exactly what it cannot prove.

PYQ DEMAND CARD 2 - 2020 GS-I Q13

Demand: Since the decade of the 1920s, the national movement acquired various ideological strands and thereby expanded its social base. Discuss. (Answer in 250 words) [Gen_St_P1.pdf.md]

Status: official-wording-bounded-model

Model solution / safe handling: Use communist, socialist, revolutionary, peasant, labour and states' peoples' strands, then show their institutional effect on Karachi, Faizpur and planning while retaining a graded verdict.

Demand decoding: The directive **answer** requires a direct position on "PYQ DEMAND CARD 2 - 2020 GS-I Q13", coverage of every clause, chronological-causal analysis, named evidence, a counter-position and a qualified verdict.

PYQ DEMAND CARD 3 - 2023 GS-I Q13

Demand: How did the colonial rule affect the tribals in India and what was the tribal response to the colonial oppression? (Answer in 250 words) [QP-CSM-23-GENERAL-STUDIES-PAPER-I-180923.pdf.md]

Status: official-wording-cross-topic-model

Model solution / safe handling: This topic uses Birsa's Ulgulan only as genealogy. A full answer must range across land alienation, forest restrictions, forced labour, dikus, cultural intrusion and regionally varied tribal responses rather than forcing them into the 1930s.

Demand decoding: The directive **answer** requires a direct position on "PYQ DEMAND CARD 3 - 2023 GS-I Q13", coverage of every clause, chronological-causal analysis, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

PYQ DEMAND CARD 4 - 2020 Prelims GS-I Q35

Demand: With reference to the history of India, 'Ulgulan' or the Great Tumult is the description of which of the following events? (CSP_2020_GS_Paper-1.pdf.md)

Status: official-stem-key-unavailable

Model solution / safe handling: The source-backed identification is Birsa Munda's revolt of 1899-1900, but no answer letter is asserted because a local official 2020 key is unavailable.

Demand decoding: Treat "PYQ DEMAND CARD 4 - 2020 Prelims GS-I Q35" as a statement-level chronology and attribution problem: verify every date, Act/provision, person, organisation, region and causal claim independently, without inventing an official key.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: Fix the tested time window; separate event/enactment/commencement; match each actor and provision; eliminate the closest distractor with one named record, treaty, session or regional fact.

Why this earns marks: It preserves exact chronology and answer-text mapping, uses named evidence and keeps inferred elimination distinct from an official key.

How to improve this answer: For "PYQ DEMAND CARD 4 - 2020 Prelims GS-I Q35", add one explicit line showing why the nearest distractor fails on date, legal status, geography, attribution or degree.

PYQ DEMAND CARD 5 - 2026 Prelims GS-I Q16

Demand: Which of the following factors contributed to the formation of the Forward Bloc by Subhas Chandra Bose in 1939? (2026-GS1-Set A.md)

Status: provisional-key-no-answer-letter

Model solution / safe handling: Use the stem only to revise the Tripuri institutional alignment. The held 2026 key is provisional, so this package records no answer letter and makes no independent key inference.

- The CSP formed within Congress at Bombay in October 1934 under J.P. Narayan, Acharya Narendra Dev, Ram Manohar Lohia and Minoo Masani; it was not identical with the CPI.
- The All-India Kisan Congress, later AIKS, met at Lucknow in April 1936 with Sahajanand Saraswati as president and N.G. Ranga as general secretary.

Balance: Distinguish intention from outcome, identify regional or social variation, and avoid treating a formal measure as complete implementation.

Conclusion: The three bodies organised different constituencies and occupied different relations to Congress: labour federation, socialist current within Congress and all-India peasant platform.

Demand decoding: The directive **answer** requires a direct position on “Distinguish the organisational roles of AITUC, CSP and AIKS. Answer in about 150 words.”, coverage of every clause, chronological-causal analysis, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: For a 10-mark answer, open with a two-sentence thesis; organise three named Acts, events, organisations, regions, primary records or scholarly positions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded conclusion.

Why this earns marks: The answer obeys the directive, distinguishes dates and policy stages, connects evidence to mechanism, recognises regional/social variation and avoids teleology or hero worship.

How to improve this answer: For “Distinguish the organisational roles of AITUC, CSP and AIKS. Answer in about 150 words.”, replace the weakest generalisation with one additional named primary/official record or attributed scholarly interpretation and state exactly what it cannot prove.

Question: Why must CPI formation be explained through both 1920 and 1925? Answer in about 150 words.

Model thesis: The two dates identify different sites and organisational moments: international/emigre formation at Tashkent and an all-India organisation inside India at Kanpur.

1. Snapshot & core idea

Deeper - the Left gave nationalism a sharper socio-economic programme.

- FACT: *India's Struggle for Independence* presents the 1930s as a decade when the Congress became a broad platform containing Gandhian, socialist, communist, peasant, labour and left-nationalist strands.
- FACT: **Jawaharlal Nehru** and **Subhas Chandra Bose** popularised socialist language inside nationalism, linking anti-imperialism with planning, labour rights and social transformation.
- FACT: The **Congress Socialist Party (1934)** worked within Congress rather than outside it, showing that left politics sought to radicalise the national platform from within.
- FACT: Communists faced colonial repression through conspiracy cases, especially the **Meerut Conspiracy Case (1929-33)**, but labour and anti-imperialist networks expanded despite repression.
- ANALYSIS: The ideological effect of the Left was larger than its organisational numbers because it pushed Congress to speak of rights, redistribution, planning and anti-fascism.

Deeper - pressure from below reshaped Congress and exposed class tensions.

- FACT: Peasant mobilisation moved from **Champaran, Awadh/Eka, Moplah** and **Bardoli** toward the **All India Kisan Sabha (1936)**. These were not interchangeable: Moplah joined agrarian and anti-imperial anger to a later communal rupture, while Bardoli remained a disciplined revenue satyagraha under Congress leadership.
- FACT: Labour activism through **AITUC**, textile strikes and railway strikes made industrial workers visible as a political category within anti-colonial struggle.
- FACT: The **Karachi Resolution (1931)** and **Faizpur Congress (1936)** showed that Congress could not remain confined to constitutional freedom; it had to address labour protection, civil liberties and agrarian distress.
- FACT: States' Peoples' Movements challenged autocracy in princely states while also widening nationalism beyond British Indian provinces.
- FACT: The **Tripuri crisis** showed a real tension between Bose's left-nationalist impatience and the Gandhian-majority preference for organisational discipline and controlled mass struggle.
- FACT: The late-colonial sequence-**Bakasht, Warli, Tebhaga** and **Telangana**-shows movement from rent and tenancy reform toward sharper class organisation, sharecropper claims and, in Telangana, armed struggle.
