BASIC MCQS / REMEDIATION	35
Q1. Which statement correctly identifies The economic model: IPRs and the Mahalanobis strategy, 1948-56?	35
Q2. Which chronology card should be filed under The economic model: IPRs and the Mahalanobis strategy, 1948-56?	35
Q3. Which option should a candidate retain when revising The economic model: IPRs and the Mahalanobis strategy, 1948-56?	35
Q4. Which statement avoids a common matching trap about The economic model: IPRs and the Mahalanobis strategy, 1948-56?	36

Q5. Which statement correctly identifies Growth and the licence-permit raj?	36
Q6. Which chronology card should be filed under Growth and the licence-permit raj?	36
Q7. Which option should a candidate retain when revising Growth and the licence-permit raj?	37
Q8. Which statement avoids a common matching trap about Growth and the licence-permit raj?	37
Q9. Which statement correctly identifies Zamindari abolition, largely by 1956?	37
Q10. Which chronology card should be filed under Zamindari abolition, largely by 1956?	37
Q11. Which option should a candidate retain when revising Zamindari abolition, largely by 1956?	38
Q12. Which statement avoids a common matching trap about Zamindari abolition, largely by 1956?	38
Q13. Which statement correctly identifies Tenancy and ceiling reform, largely failed?	38
Q14. Which chronology card should be filed under Tenancy and ceiling reform, largely failed?	39
Q15. Which option should a candidate retain when revising Tenancy and ceiling reform, largely failed?	39
Q16. Which statement avoids a common matching trap about Tenancy and ceiling reform, largely failed?	39
Q17. Which statement correctly identifies Bhoodan could not substitute for structural reform?	40
Q18. Which chronology card should be filed under Bhoodan could not substitute for structural reform?	40
Q19. Which option should a candidate retain when revising Bhoodan could not substitute for structural reform?	40
Q20. Which statement avoids a common matching trap about Bhoodan could not substitute for structural reform?	41
Q21. Which statement correctly identifies The Green Revolution's HYV package, mid-1960s?	41
Q22. Which chronology card should be filed under The Green Revolution's HYV package, mid-1960s?	41
Q23. Which option should a candidate retain when revising The Green Revolution's HYV package, mid-1960s?	42
Q24. Which statement avoids a common matching trap about The Green Revolution's HYV package, mid-1960s?	42
Q25. Which statement correctly identifies The Green Revolution debate: diffusion versus inequality?	42
Q26. Which chronology card should be filed under The Green Revolution debate: diffusion versus inequality?	43
Q27. Which option should a candidate retain when revising The Green Revolution debate: diffusion versus inequality?	43
Q28. Which statement avoids a common matching trap about The Green Revolution debate: diffusion versus inequality?	43
Q29. Which statement correctly identifies Naxalbari, 1967, and CPI(ML), 1969?	44
Q30. Which chronology card should be filed under Naxalbari, 1967, and CPI(ML), 1969?	44
Q31. Which option should a candidate retain when revising Naxalbari, 1967, and CPI(ML), 1969?	44
Q32. Which statement avoids a common matching trap about Naxalbari, 1967, and CPI(ML), 1969?	44
Q33. Which statement correctly identifies The farmers' movements of the 1980s?	45
Q34. Which chronology card should be filed under The farmers' movements of the 1980s?	45
Q35. Which option should a candidate retain when revising The farmers' movements of the 1980s?	45
Q36. Which statement avoids a common matching trap about The farmers' movements of the 1980s?	46

Q37. Which statement correctly identifies The Hindu Code Bill?	46
Q38. Which chronology card should be filed under The Hindu Code Bill?	46
Q39. Which option should a candidate retain when revising The Hindu Code Bill?	47
Q40. Which statement avoids a common matching trap about The Hindu Code Bill?	47
Q41. Which statement correctly identifies The women's movement, 1970s-90s?	47
Q42. Which chronology card should be filed under The women's movement, 1970s-90s?	48
Q43. Which option should a candidate retain when revising The women's movement, 1970s-90s?	48
Q44. Which statement avoids a common matching trap about The women's movement, 1970s-90s?	48
Q45. Which statement correctly identifies Caste: from Ambedkar to Mandal, 1990?	48
Q46. Which chronology card should be filed under Caste: from Ambedkar to Mandal, 1990?	49
Q47. Which option should a candidate retain when revising Caste: from Ambedkar to Mandal, 1990?	49
Q48. Which statement avoids a common matching trap about Caste: from Ambedkar to Mandal, 1990?	49

Economy, Land, Society & State: A Post-Independence Synthesis - Learner-v2 Complete Learning Session

SOURCE, PROGRESSION AND CURRENT-LINKAGE AUDIT

- **Repository owners queried:** Basic and Advanced Markdown for this topic, the master chronology, syllabus map and linked Modern History owners.
- **OCR book evidence queried:** The Basic and Advanced owner Markdown for this topic were reconciled against each other and against the folder's shared post-independence OCR source, Bipan Chandra, Mridula Mukherjee and Aditya Mukherjee, *India After Independence, 1947-2000*. Every date, name and institution used below already carries the owners' own FACT: (source-backed) or ANALYSIS: (inference) tagging, and that tagging is preserved rather than re-verified page by page against the raw PDF in this authoring pass.
- **Qdrant:** not used; Markdown plus searchable local PDFs were sufficient.
- **PYQ integrity:** This owner carries nine routed Prelims demands across its own '2024-2025' and '2018-2023' PYQ Integration blocks (`_PYQ-ROUTING-PRELIMS-2024-2025.md`, `_PYQ-ROUTING-PRELIMS-2018-2023.md`), and both blocks are embedded verbatim below rather than re-solved. Seven of the nine are contemporary current-affairs items with no modern-history content and no supporting material in this repository's source books (Exercise Mitra Shakti-2023, the Gandhi Peace Prize jury, the first Kho Kho World Cup, the 45th Chess Olympiad records, the Laureus World Sports Awards, the Tokyo 2020 Olympics motto and new sports, and the ICC World Test Championship finalist criteria); these are routing artefacts, not history demands, and this authoring pass does not answer them or treat them as gaps in this topic. Of the remaining two, the 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is a genuine history demand covered by this topic's land-reform bank, while the 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha (1948) is historical but unattested in the local source books and is recorded as an explicit single-fact gap rather than guessed. No Mains demand in the local 2018-2025 ledgers is routed to this owner.
- **Bounded live linkage:** No verified live current-affairs item is pegged to this topic. The owner's own Current-link section frames farm policy, OBC/Dalit politics, women's rights and state capacity as recurring analytical themes rather than as a dated news event, and that bounded, unattributed framing is preserved here rather than inventing a specific live source or date.
- **Fact/inference rule:** historical claims are source-backed; analytical judgements are explicitly framed as interpretation and do not invent figures.

BASIC LEARNING SESSION

DEEP-REVIEW LEARNING CONTRACT

Control	Binding rule for this package
Syllabus boundary	Complete Modern History Core is taught chronologically and causally before optional enrichment.
Evidence method	Claim -> named Act/treaty/record/organisation/person/region or scholarly evidence -> analysis -> qualification.
Date discipline	Event, proposal, enactment, commencement, official policy, implementation and later interpretation remain distinct.
Historiography	Colonial, nationalist, Marxist, subaltern, Cambridge, feminist and other relevant arguments are attributed and tested, never used as labels alone.
Practice contract	Every solved item has demand decoding, an examiner-grade model, an executable answer/compression plan, marks rationale and answer-specific improvement.
Approval	This immutable successor remains approved: false pending explicit approval.

Canonical Basic/Core owner: upsc-ai-kit\knowledge\Modern-Indian-History\basic\38_Economy-Land-Society-and-State-A-Post-Independence-Synthesis.md **Canonical topic owner:** upsc-ai-kit\kn

nowledge\Modern-Indian-History\basic\38_Economy-Land-Society-and-State-A-Post-Independence-Synthesis.md **Optional Advanced owner:** upsc-ai-kit\knowledge\Modern-Indian-History\advanced\38_Economy-Land-Society-and-State-A-Post-Independence-Synthesis.md **Official syllabus mapping:** upsc-ai-kit\knowledge\Modern-Indian-History\OFFICIAL-UPSC-SYLLABUS-MAPPING.md

EVIDENCE, PYQ AND CURRENT-STATUS CONTROL

- **Official and primary evidence:** Acts, charters, treaties, proclamations, committee reports, proceedings, organisational resolutions, speeches and contemporary records are dated and read for authorship and purpose.
- **Regional and social evidence:** petitions, newspapers, memoirs, local studies and material geography qualify elite or all-India generalisation.
- **Economic and quantitative evidence:** revenue, trade, price, wage, craft and mortality claims retain unit, region, period and uncertainty; statistics are never invented.
- **Scholarly interpretation:** historian schools are competing explanations tied to named evidence, not memorised verdicts.
- **PYQ discipline:** repository ledgers and locally held official papers control wording and metadata; reconstructed wording and unavailable official keys remain explicitly labelled.
- **Current-status note, rechecked 2026-09-04:** No verified live current-affairs item is pegged to this topic. The owner's own Current-link section frames farm policy, OBC/Dalit politics, women's rights and state capacity as recurring analytical themes rather than as a dated news event, and that bounded, unattributed framing is preserved here rather than inventing a specific live source or date.

Live/primary context sources recorded by the predecessor generation:

- No live source is required for a static claim in this topic.

Refreshed teaching navigation

Distinct embedded teaching-navigation image. The separate continuous Cārvāka-style flowchart package remains an independent at-a-glance artifact.

SESSION 1 - FOUNDATION - THE ECONOMIC MODEL: FROM PLANNING TO THE LICENCE-PERMIT RAJ

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Precise definition: The licence-permit raj is the maze of licences and controls that protected inefficiency and throttled competition even as the Industrial Policy Resolutions and the Mahalanobis Second Plan delivered growth above the colonial rate to the mid-1960s.

Technical definition: Core claim: India's economic model combined the Industrial Policy Resolutions of 1948 and 1956 with the Mahalanobis-designed Second Plan of 1956, giving the public sector commanding heights in heavy industry, and it achieved growth well above the colonial rate before its own controls became a drag on efficiency.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Precise definition: The licence-permit raj is the maze of licences and controls that protected inefficiency and throttled competition even as the Industrial Policy Resolutions and the Mahalanobis Second Plan delivered growth above the colonial rate to the mid-1960s.

MUST-WRITE KEYWORDS

- FOUNDATION
- The economic model
- from planning to the licence-permit raj
- Precise definition
- Topic boundary
- Core claim

How to use them: Frame the answer through FOUNDATION; define The economic model, connect from planning to the licence-permit raj with Precise definition to explain the mechanism, and use Topic boundary for the decisive comparison or qualification.

VISUAL FIRST

THE ECONOMIC MODEL: FROM PLANNING TO THE LICENCE-PERMIT RAJ
IPR 1948/1956 + MAHALANOBIS PLAN (1956) -> public sector "commanding heights"
GROWTH -> about 4% a year to the mid-1960s, exceeding the colonial rate
DRAG -> the "licence-permit raj": licences and controls throttle efficiency
CAUTION -> the ~4% figure applies only to the period up to the mid-1960s

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The licence-permit raj is the maze of licences and controls that protected inefficiency and throttled competition even as the Industrial Policy Resolutions and the Mahalanobis Second Plan delivered growth above the colonial rate to the mid-1960s.
- **Topic boundary:** Apply this definition only within Economy, Land, Society & State: A Post-Independence Synthesis; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

India's economic model combined the Industrial Policy Resolutions of 1948 and 1956 with the Mahalanobis-designed Second Plan of 1956, giving the public sector commanding heights in heavy industry, and it achieved growth well above the colonial rate before its own controls became a drag on efficiency.

EVIDENCE AND MECHANISM

- The Industrial Policy Resolutions of 1948 and 1956, and the Mahalanobis Second Plan of 1956, gave the public sector the 'commanding heights', especially in heavy industry.
- Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate.

- A maze of licences and controls, the 'licence-permit raj', throttled efficiency even as the model delivered structural transformation.

EXAMINER CAUTION

- Do not extend the roughly 4 per cent growth figure beyond the mid-1960s period it describes.

EXAM LINK

- **Prelims:** Do not extend the roughly 4 per cent growth figure beyond the mid-1960s period it describes.
- **Mains:** Use this session to open any answer assessing whether planning was a success or a failure.

MINI RECAP

- **Core claim:** India's economic model combined the Industrial Policy Resolutions of 1948 and 1956 with the Mahalanobis-designed Second Plan of 1956, giving the public sector commanding heights in heavy industry, and it achieved growth well above the colonial rate before its own controls became a drag on efficiency.
- **Use:** Use this session to open any answer assessing whether planning was a success or a failure.

CLOSING RECALL FLOW - FOUNDATION - THE ECONOMIC MODEL: FROM PLANNING TO THE LICENCE-PERMIT RAJ

START / CONCEPT: FOUNDATION - The economic model: from planning to the licence-permit raj

|

v

EXACT TERMS: FOUNDATION • The economic model • from planning to the licence-permit raj • Precise definition • Topic boundary • Core claim

|

v

MECHANISM / ARGUMENT: Core claim: India's economic model combined the Industrial Policy Resolutions of 1948 and 1956 with the Mahalanobis-designed Second Plan of 1956, giving the public sector commanding heights in heavy industry, and it achieved growth well above the colonial rate before its own controls became a drag on efficiency.

|

|

v

ANSWER-GRABBING FORMULATION: Precise definition: The licence-permit raj is the maze of licences and controls that protected inefficiency and throttled competition even as the Industrial Policy Resolutions and the Mahalanobis Second Plan delivered growth above the colonial rate to the mid-1960s.

SESSION 2 - FOUNDATION - ZAMINDARI ABOLITION: WHY IT SUCCEEDED

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Precise definition: Zamindari abolition is the land reform, largely complete by 1956, that made about 20 million superior tenants into owners by targeting the politically weak intermediary class.

Technical definition: Prelims: Do not describe zamindari abolition as incomplete or as a failure; it is this topic's clearest land-reform success.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Precise definition: Zamindari abolition is the land reform, largely complete by 1956, that made about 20 million superior tenants into owners by targeting the politically weak intermediary class.

MUST-WRITE KEYWORDS

- FOUNDATION
- Zamindari abolition

- why it succeeded
- Precise definition
- Topic boundary
- Core claim

How to use them: Frame the answer through FOUNDATION; define Zamindari abolition, connect why it succeeded with Precise definition to explain the mechanism, and use Topic boundary for the decisive comparison or qualification.

VISUAL FIRST

ZAMINDARI ABOLITION: WHY IT SUCCEEDED

REFORM -> zamindari abolition, largely complete by 1956

BENEFICIARIES -> about 20 million superior tenants become owners

WHY IT SUCCEEDED -> targeted a politically weak class (intermediaries)

CONTRAST -> tenancy and ceiling reform, which targeted the state's own base

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** Zamindari abolition is the land reform, largely complete by 1956, that made about 20 million superior tenants into owners by targeting the politically weak intermediary class.
- **Topic boundary:** Apply this definition only within Economy, Land, Society & State: A Post-Independence Synthesis; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

Zamindari abolition, largely complete by 1956, made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform.

EVIDENCE AND MECHANISM

- Zamindari abolition was largely complete by 1956.
- About 20 million superior tenants became owners as a result.
- The reform succeeded because the intermediaries it targeted were a politically weak class, unlike the beneficiaries of later, failed reforms.

EXAMINER CAUTION

- Do not describe zamindari abolition as incomplete or as a failure; it is this topic's clearest land-reform success.

EXAM LINK

- **Prelims:** Do not describe zamindari abolition as incomplete or as a failure; it is this topic's clearest land-reform success.
- **Mains:** Use this session to answer the 'why did zamindari succeed' half of any disaggregated land-reform question.

MINI RECAP

- **Core claim:** Zamindari abolition, largely complete by 1956, made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform.
- **Use:** Use this session to answer the 'why did zamindari succeed' half of any disaggregated land-reform question.

CLOSING RECALL FLOW - FOUNDATION - ZAMINDARI ABOLITION: WHY IT SUCCEEDED

|

v

ANSWER-GRABBING FORMULATION: Precise definition: Zamindari abolition is the land reform, largely complete by 1956, that made about 20 million superior tenants into owners by targeting the politically weak intermediary class.

SESSION 3 - FOUNDATION - TENANCY AND CEILING REFORM: WHY THEY FAILED

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Precise definition: Tenancy and ceiling reform are the land-reform components that largely failed because they targeted the state's own rural political base and were evaded through poor records, benami transfers and family partition.

Technical definition: Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since these reforms targeted the state's own rural political base rather than a weak intermediary class.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Precise definition: Tenancy and ceiling reform are the land-reform components that largely failed because they targeted the state's own rural political base and were evaded through poor records, benami transfers and family partition.

MUST-WRITE KEYWORDS

- FOUNDATION
- Tenancy
- ceiling reform
- why they failed
- Precise definition
- Topic boundary

How to use them: Frame the answer through FOUNDATION; define Tenancy, connect ceiling reform with why they failed to explain the mechanism, and use Precise definition for the decisive comparison or qualification.

VISUAL FIRST

TENANCY AND CEILING REFORM: WHY THEY FAILED

TENANCY REFORM -> undermined by poorly recorded oral/concealed tenancies

CEILING LEGISLATION -> evaded via benami transfers and family partition

WHY -> both targeted the state's own rural political base

CONTRAST -> zamindari abolition, which targeted a politically weak class

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** Tenancy and ceiling reform are the land-reform components that largely failed because they targeted the state's own rural political base and were evaded through poor records, benami transfers and family partition.
- **Topic boundary:** Apply this definition only within Economy, Land, Society & State: A Post-Independence Synthesis; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since these reforms targeted the state's own rural political base rather than a weak intermediary class.

EVIDENCE AND MECHANISM

- Oral and concealed tenancies were poorly recorded, making tenancy reform difficult to enforce.
- Ceiling legislation was evaded through benami transfers and family partition.
- Both reforms targeted the rural classes on whose support the state's own political base depended.

EXAMINER CAUTION

- Do not lump tenancy and ceiling failure together with zamindari abolition's success; assess each component separately.

EXAM LINK

- **Prelims:** Do not lump tenancy and ceiling failure together with zamindari abolition's success; assess each component separately.
- **Mains:** Use this session to answer the 'why did tenancy and ceiling reform fail' half of any disaggregated land-reform question.

MINI RECAP

- **Core claim:** Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since these reforms targeted the state's own rural political base rather than a weak intermediary class.
- **Use:** Use this session to answer the 'why did tenancy and ceiling reform fail' half of any disaggregated land-reform question.

v

ANSWER-GRABBING FORMULATION: Precise definition: Tenancy and ceiling reform are the land-reform components that largely failed because they targeted the state's own rural political base and were evaded through poor records, benami transfers and family partition.

SESSION 4 - CORE - BHOODAN: A GESTURE, NOT A STRUCTURAL REFORM

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Precise definition: Bhoodan is Vinoba Bhave's voluntary land-donation movement, begun at Pochampalli in 1951, whose failure to distribute most donated land shows it could not substitute for structural land reform.

Technical definition: Core claim: The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Do not treat Bhoodan as equivalent to structural land reform; it was a voluntary gesture that could not reallocate land at scale.

MUST-WRITE KEYWORDS

- Bhoodan
- a gesture
- not a structural reform
- Precise definition
- Topic boundary
- Core claim

How to use them: Frame the answer through Bhoodan; define a gesture, connect not a structural reform with Precise definition to explain the mechanism, and use Topic boundary for the decisive comparison or qualification.

VISUAL FIRST

BHOODAN: A GESTURE, NOT A STRUCTURAL REFORM

MOVEMENT -> Bhoodan, led by Vinoba Bhave

BEGAN -> Pochampalli, 1951

METHOD -> voluntary land donation

LIMIT -> much donated land never effectively distributed; no structural reform

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** Bhoodan is Vinoba Bhave's voluntary land-donation movement, begun at Pochampalli in 1951, whose failure to distribute most donated land shows it could not substitute for structural land reform.
- **Topic boundary:** Apply this definition only within Economy, Land, Society & State: A Post-Independence Synthesis; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed.

EVIDENCE AND MECHANISM

- Vinoba Bhave led the Bhoodan movement.
- It began at Pochampalli in 1951.
- Much of the land donated through Bhoodan was never effectively distributed to the landless.

EXAMINER CAUTION

- Do not treat Bhoodan as equivalent to structural land reform; it was a voluntary gesture that could not reallocate land at scale.

EXAM LINK

- **Prelims:** Do not treat Bhoodan as equivalent to structural land reform; it was a voluntary gesture that could not reallocate land at scale.
- **Mains:** Use this session to answer any question distinguishing voluntary movements from structural legislative reform.

MINI RECAP

- **Core claim:** The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed.
- **Use:** Use this session to answer any question distinguishing voluntary movements from structural legislative reform.

CLOSING RECALL FLOW - CORE - BHOODAN: A GESTURE, NOT A STRUCTURAL REFORM

START / CONCEPT: CORE - Bhoodan: a gesture, not a structural reform

|

v

EXACT TERMS: Bhoodan · a gesture · not a structural reform · Precise definition · Topic boundary · Core claim

|

v

MECHANISM / ARGUMENT: Core claim: The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed.

|

v

CONSEQUENCE / CONTRAST: Precise definition: Bhoodan is Vinoba Bhave's voluntary land-donation movement, begun at Pochampalli in 1951, whose failure to distribute most donated land shows it could not substitute for structural land reform.

|

v

UPSC TRAP / ANSWER-USE: Do not miss this limiting distinction: use this session to answer any question distinguishing voluntary movements from structural legislative reform.

|

v

ANSWER-GRABBING FORMULATION: Do not treat Bhoodan as equivalent to structural land reform; it was a

voluntary gesture that could not reallocate land at scale.

CORE - The Green Revolution's package and its initial geography

VISUAL FIRST

THE GREEN REVOLUTION'S PACKAGE AND ITS INITIAL GEOGRAPHY

PACKAGE -> HYV seeds, introduced from the mid-1960s

INITIAL GEOGRAPHY -> Punjab, Haryana, western Uttar Pradesh

INITIAL CROP -> wheat

NEXT QUESTION -> did this concentration spread or entrench inequality?

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The Green Revolution's HYV package is the high-yielding-variety seed technology introduced from the mid-1960s, initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat.
- **Topic boundary:** Apply this definition only within Economy, Land, Society & State: A Post-Independence Synthesis; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation.

EVIDENCE AND MECHANISM

- The HYV seed package was introduced from the mid-1960s.
- Its initial concentration was in Punjab, Haryana and western Uttar Pradesh.
- Its initial crop focus was wheat.

EXAMINER CAUTION

- Do not describe the Green Revolution's initial geography as national; it began narrowly concentrated before any later spread.

EXAM LINK

- **Prelims:** Do not describe the Green Revolution's initial geography as national; it began narrowly concentrated before any later spread.
- **Mains:** Use this session to open any answer on the Green Revolution's origins before addressing its later, contested spread.

MINI RECAP

- **Core claim:** The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation.
- **Use:** Use this session to open any answer on the Green Revolution's origins before addressing its later, contested spread.

SESSION 5 - CORE - THE GREEN REVOLUTION DEBATE: DIFFUSION VERSUS INEQUALITY

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Precise definition: The Green Revolution debate is the contested assessment between Chandra's diffusion-and-scale-neutrality reading and the critics' unequal-access-and-ecological-cost reading, both of which a balanced answer must state.

Technical definition: Prelims: Do not state only one side of the Green Revolution debate as settled fact; this topic requires both Chandra's diffusion argument and the critics' inequality critique.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Do not state only one side of the Green Revolution debate as settled fact; this topic requires both Chandra's diffusion argument and the critics' inequality critique.

MUST-WRITE KEYWORDS

- **The Green Revolution debate**
- **diffusion versus inequality**
- **Precise definition**
- **Topic boundary**
- **Core claim**
- **Precise definition: The Green Revolution debate**

How to use them: Frame the answer through The Green Revolution debate; define diffusion versus inequality, connect Precise definition with Topic boundary to explain the mechanism, and use Core claim for the decisive comparison or qualification.

VISUAL FIRST

THE GREEN REVOLUTION DEBATE: DIFFUSION VERSUS INEQUALITY
CHANDRA'S READING -> diffusion to rice regions; broadly scale-neutral technology
CRITICS' READING -> unequal access, regional lags, ecological costs
BOTH REQUIRED -> a balanced answer states both readings, not one alone
ERROR -> asserting either reading alone is a factual-discipline failure

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The Green Revolution debate is the contested assessment between Chandra's diffusion-and-scale-neutrality reading and the critics' unequal-access-and-ecological-cost reading, both of which a balanced answer must state.
- **Topic boundary:** Apply this definition only within Economy, Land, Society & State: A Post-Independence Synthesis; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs.

EVIDENCE AND MECHANISM

- Chandra argues the Green Revolution later spread to rice regions and other states.
- Chandra argues the technology was broadly scale-neutral, not favouring only large farmers.
- Critics continue to stress unequal access, regional lags and ecological costs.

EXAMINER CAUTION

- Do not state only one side of the Green Revolution debate as settled fact; this topic requires both Chandra's diffusion argument and the critics' inequality critique.

EXAM LINK

- **Prelims:** Do not state only one side of the Green Revolution debate as settled fact; this topic requires both Chandra's diffusion argument and the critics' inequality critique.
- **Mains:** Use this session to answer any 'critically examine' question on the Green Revolution's social consequences.

MINI RECAP

- **Core claim:** Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs.

- **Use:** Use this session to answer any 'critically examine' question on the Green Revolution's social consequences.

SESSION 6 - CORE - AGRARIAN STRUGGLE FROM NAXALBARI TO THE 1980S FARMERS' MOVEMENTS

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: The Naxalbari uprising of 1967 launched the Naxalite movement, with the CPI(ML) formed in 1969, while the rich-farmer movements of the 1980s, Nasik in 1980 and Sisauli in 1986, pursued opposed market demands of prices, inputs and credit.

Technical definition: The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

The Naxalbari uprising of 1967 launched the Naxalite movement, with the CPI(ML) formed in 1969, while the rich-farmer movements of the 1980s, Nasik in 1980 and Sisauli in 1986, pursued opposed market demands of prices, inputs and credit.

MUST-WRITE KEYWORDS

- **Precise definition**
- **Topic boundary**
- **Core claim**
- **The Naxalbari**
- **Naxalite**
- **CPI**

How to use them: Frame the answer through Precise definition; define Topic boundary, connect Core claim with The Naxalbari to explain the mechanism, and use Naxalite for the decisive comparison or qualification.

VISUAL FIRST

AGRARIAN STRUGGLE FROM NAXALBARI TO THE 1980S FARMERS' MOVEMENTS

NAXALBARI (1967) -> launches the Naxalite movement; CPI(ML) formed 1969

NASIK (1980) -> Sharad Joshi's Shetkari Sangathana; market demands

SISAUULI (1986) -> Mahendra Singh Tikait's Bharatiya Kisan Union

CLASS SHIFT -> landless struggle (1967) to surplus-farmer demands (1980s)

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The agrarian-struggle sequence runs from the 1967 Naxalbari uprising, launching the Naxalite movement, to the opposed market-demand movements of Nasik (1980) and Sisauli (1986), marking a shift in rural class content.
- **Topic boundary:** Apply this definition only within Economy, Land, Society & State: A Post-Independence Synthesis; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

The Naxalbari uprising of 1967 launched the Naxalite movement, with the CPI(ML) formed in 1969, while the rich-farmer movements of the 1980s, Nasik in 1980 and Sisauli in 1986, pursued opposed market demands of prices, inputs and credit.

EVIDENCE AND MECHANISM

- The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969.
- Sharad Joshi's Shetkari Sangathana began at Nasik in 1980.
- Mahendra Singh Tikait's Bharatiya Kisan Union organised at Sisauli in 1986, pursuing market demands opposed to Naxalbari's landless struggle.

EXAMINER CAUTION

- Do not merge Naxalbari-type struggles with the 1980s farmers' movements; they represent opposed rural class interests.

EXAM LINK

- **Prelims:** Do not merge Naxalbari-type struggles with the 1980s farmers' movements; they represent opposed rural class interests.
- **Mains:** Use this session to answer any question tracing the changing class content of agrarian struggle after 1947.

MINI RECAP

- **Core claim:** The Naxalbari uprising of 1967 launched the Naxalite movement, with the CPI(ML) formed in 1969, while the rich-farmer movements of the 1980s, Nasik in 1980 and Sisauli in 1986, pursued opposed market demands of prices, inputs and credit.

SESSION 7 - CORE - THE HINDU CODE BILL AND THE WOMEN'S MOVEMENT

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Precise definition: The Hindu Code Bill is the set of four separate Acts, Marriage, Succession, Minority and Guardianship, and Adoption and Maintenance, that substantially expanded women's rights within Hindu personal law without establishing complete equality and underlay the 1970s-90s women's movement.

Technical definition: The proposed Hindu Code, enacted through four statutes in 1955-56, substantially expanded women's rights within Hindu personal law without creating complete legal or social equality, and a new women's movement from the 1970s to the 1990s built on that legal base to take up dowry, rape and domestic violence.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Precise definition: The Hindu Code Bill is the set of four separate Acts, Marriage, Succession, Minority and Guardianship, and Adoption and Maintenance, that substantially expanded women's rights within Hindu personal law without establishing complete equality and underlay the 1970s-90s women's movement.

MUST-WRITE KEYWORDS

- The Hindu Code Bill
- the women's movement
- Precise definition
- Topic boundary
- Core claim
- Precise definition: The Hindu Code Bill

How to use them: Frame the answer through The Hindu Code Bill; define the women's movement, connect Precise definition with Topic boundary to explain the mechanism, and use Core claim for the decisive comparison or qualification.

VISUAL FIRST

THE HINDU CODE BILL AND THE WOMEN'S MOVEMENT

HINDU CODE BILL -> enacted as FOUR separate Acts, substantially expanding rights without establishing complete equality

ACTS -> Marriage, Succession, Minority & Guardianship, Adoption & Maintenance

WOMEN'S MOVEMENT -> 1970s-1990s, takes up dowry, rape, domestic violence

NOT -> a single unified code

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The Hindu Code Bill is the set of four separate Acts, Marriage, Succession, Minority and Guardianship, and Adoption and Maintenance, that substantially expanded women's rights within Hindu personal law without establishing complete equality and underlay the 1970s-90s women's movement.
- **Topic boundary:** Apply this definition only within Economy, Land, Society & State: A Post-Independence Synthesis; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

The proposed Hindu Code, enacted through four statutes in 1955-56, substantially expanded women's rights within Hindu personal law without creating complete legal or social equality, and a new women's movement from the 1970s to the 1990s built on that legal base to take up dowry, rape and domestic violence.

EVIDENCE AND MECHANISM

- The Hindu Code Bill was enacted as four separate Acts: Marriage, Succession, Minority and Guardianship, and Adoption and Maintenance.
- These Acts substantially expanded women's rights within Hindu personal law but left important inequalities intact.
- A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence.

EXAMINER CAUTION

- Do not describe the Hindu Code Bill as a single unified code; it was enacted as four separate Acts.

EXAM LINK

- **Prelims:** Do not describe the Hindu Code Bill as a single unified code; it was enacted as four separate Acts.
- **Mains:** Use this session to answer any question on the legal and political trajectory of gender reform since 1947.

MINI RECAP

- **Core claim:** The proposed Hindu Code, enacted through four statutes in 1955-56, substantially expanded women's rights within Hindu personal law without creating complete legal or social equality, and a new women's movement from the 1970s to the 1990s built on that legal base to take up dowry, rape and domestic violence.

SESSION 8 - CORE - CASTE POLITICS: FROM AMBEDKAR TO MANDAL

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Prelims: Do not treat Mandal's 1990 implementation as the starting point of caste politics; it is the culmination of a trajectory running back to Ambedkar.

Technical definition: Core claim: Untouchability was abolished and reservations extended, and caste became central to Indian politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Do not treat Mandal's 1990 implementation as the starting point of caste politics; it is the culmination of a trajectory running back to Ambedkar.

MUST-WRITE KEYWORDS

- Caste politics
- from Ambedkar to Mandal
- Precise definition
- Topic boundary
- Core claim
- Untouchability

How to use them: Frame the answer through Caste politics; define from Ambedkar to Mandal, connect Precise definition with Topic boundary to explain the mechanism, and use Core claim for the decisive comparison or qualification.

VISUAL FIRST

CASTE POLITICS: FROM AMBEDKAR TO MANDAL

LEGAL BASE -> untouchability abolished; reservations extended

TRAJECTORY -> Ambedkar -> Dalit Panthers -> BSP -> Mandal Commission, 1990

EFFECT -> caste becomes central to national politics

NOT -> a starting point in 1990; it is a culmination

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The caste-politics trajectory runs from the legal abolition of untouchability and Ambedkar's leadership through the Dalit Panthers and the BSP to the Mandal Commission's 1990 implementation, which made caste central to national politics.
- **Topic boundary:** Apply this definition only within Economy, Land, Society & State: A Post-Independence Synthesis; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

Untouchability was abolished and reservations extended, and caste became central to Indian politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990.

EVIDENCE AND MECHANISM

- Untouchability was abolished and reservations were extended.
- The political trajectory runs from Ambedkar through the Dalit Panthers to the BSP.
- The Mandal Commission's recommendations were implemented in 1990, making caste central to national politics.

EXAMINER CAUTION

- Do not treat Mandal's 1990 implementation as the starting point of caste politics; it is the culmination of a trajectory running back to Ambedkar.

EXAM LINK

- **Prelims:** Do not treat Mandal's 1990 implementation as the starting point of caste politics; it is the culmination of a trajectory running back to Ambedkar.

SESSION 9 - CORE - COMMUNALISM AS IDEOLOGY

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Precise definition: Communalism, in this topic's framing, is the ideology that revived from the 1960s and turned endemic after the late 1970s, of which riots are a symptom rather than the whole phenomenon.

Technical definition: Technically, CORE - Communalism as ideology is analysed by relating Communalism as ideology to Precise definition, then testing the relationship through Topic boundary and Core claim.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Precise definition: Communalism, in this topic's framing, is the ideology that revived from the 1960s and turned endemic after the late 1970s, of which riots are a symptom rather than the whole phenomenon.

MUST-WRITE KEYWORDS

- Communalism as ideology
- Precise definition
- Topic boundary
- Core claim
- Precise definition: Communalism, in this topic's framing,
- Precise

How to use them: Frame the answer through Communalism as ideology; define Precise definition, connect Topic boundary with Core claim to explain the mechanism, and use Precise definition: Communalism, in this topic's framing, for the decisive comparison or qualification.

VISUAL FIRST

COMMUNALISM AS IDEOLOGY

REVIVAL -> from the 1960s

ENDEMIC -> after the late 1970s

FRAMING -> an ideology, not merely a sequence of riots

IMPLICATION -> violence is a symptom of the ideology, not the whole of it

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** Communalism, in this topic's framing, is the ideology that revived from the 1960s and turned endemic after the late 1970s, of which riots are a symptom rather than the whole phenomenon.
- **Topic boundary:** Apply this definition only within Economy, Land, Society & State: A Post-Independence Synthesis; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

Communalism revived from the 1960s and turned endemic after the late 1970s, and this topic analyses it as an ideology rather than merely a sequence of riots.

EVIDENCE AND MECHANISM

- Communalism revived from the 1960s.
- It turned endemic after the late 1970s.
- This topic treats communalism as an ideology, with violence as a symptom rather than the whole phenomenon.

EXAMINER CAUTION

- Do not reduce communalism to a law-and-order problem; this topic requires treating it as an ideology.

EXAM LINK

- **Prelims:** Do not reduce communalism to a law-and-order problem; this topic requires treating it as an ideology.
- **Mains:** Use this session to answer any question asking you to analyse communalism beyond its violent episodes.

MINI RECAP

SESSION 10 - CORE - 1991: LIBERALISATION AS CORRECTION

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Precise definition: The 1991 reforms are the Narasimha-Rao-and-Manmohan-Singh-led liberalisation, forced by a balance-of-payments crisis and framed here as a correction of dirigiste excess rather than an abandonment of the original developmental goals.

Technical definition: The reform is framed as a correction of the control raj, retaining the original goals of growth, self-reliance and poverty removal while changing the instruments.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Precise definition: The 1991 reforms are the Narasimha-Rao-and-Manmohan-Singh-led liberalisation, forced by a balance-of-payments crisis and framed here as a correction of dirigiste excess rather than an abandonment of the original developmental goals.

MUST-WRITE KEYWORDS

- liberalisation as correction
- Precise definition
- Topic boundary
- Core claim
- Precise definition: The 1991 reforms
- Precise

How to use them: Frame the answer through liberalisation as correction; define Precise definition, connect Topic boundary with Core claim to explain the mechanism, and use Precise definition: The 1991 reforms for the decisive comparison or qualification.

VISUAL FIRST

1991: LIBERALISATION AS CORRECTION

TRIGGER -> balance-of-payments crisis, 1991

LEADERSHIP -> Narasimha Rao and Manmohan Singh

FRAMING -> a correction of dirigiste excess, not a repudiation of the model

CONTINUITY -> growth, self-reliance and poverty removal remain the goals

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The 1991 reforms are the Narasimha-Rao-and-Manmohan-Singh-led liberalisation, forced by a balance-of-payments crisis and framed here as a correction of dirigiste excess rather than an abandonment of the original developmental goals.
- **Topic boundary:** Apply this definition only within Economy, Land, Society & State: A Post-Independence Synthesis; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a change this topic frames as a correction of excessive dirigisme rather than an abandonment of the model's original goals.

EVIDENCE AND MECHANISM

- A balance-of-payments crisis in 1991 forced economic liberalisation.
- Narasimha Rao and Manmohan Singh led the reform.
- The reform is framed as a correction of the control raj, retaining the original goals of growth, self-reliance and poverty removal while changing the instruments.

EXAMINER CAUTION

- Do not describe 1991 as a repudiation of the Nehruvian model; this topic frames it as a correction of its later excess.

EXAM LINK

- **Prelims:** Do not describe 1991 as a repudiation of the Nehruvian model; this topic frames it as a correction of its later excess.
- **Mains:** Use this session to answer any question on whether 1991 represented continuity or rupture in India's economic policy.

MINI RECAP

- **Core claim:** A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a change this topic frames as a correction of excessive dirigisme rather than an abandonment of the model's original goals.
- **Use:** Use this session to answer any question on whether 1991 represented continuity or rupture in India's economic policy.

SESSION 11 - CORE - THREAD 1: SELF-RELIANCE'S CHANGING CONTENT, 1905-1991

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Mains: Use this session to answer any long-duration question tracing a single concept's changing content across Indian history.

Technical definition: Prelims: Do not treat self-reliance as one unchanging idea across 1905 to 1991; its content changed at every stage, each following the demonstrated failure of the previous one.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Do not treat self-reliance as one unchanging idea across 1905 to 1991; its content changed at every stage, each following the demonstrated failure of the previous one.

MUST-WRITE KEYWORDS

- Thread 1
- self-reliance's changing content
- Precise definition

- **Topic boundary**
- **Core claim**
- **1905-1991**

How to use them: Frame the answer through Thread 1; define self-reliance's changing content, connect Precise definition with Topic boundary to explain the mechanism, and use Core claim for the decisive comparison or qualification.

VISUAL FIRST

THREAD 1: SELF-RELIANCE'S CHANGING CONTENT, 1905-1991
 1905 SWADESHI -> boycott + indigenous enterprise
 1920-47 GANDHIAN -> khadi, moral self-reliance
 1948-66 PLANNING -> capital-goods capacity (IPR/Mahalanobis)
 1991 ONWARD -> self-reliance redefined as competitiveness

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** Thread 1 traces self-reliance's continuous word but changing content from the 1905 Swadeshi movement through Gandhian, nationalist, planning-era and licence-era redefinitions to post-1991 competitiveness.
- **Topic boundary:** Apply this definition only within Economy, Land, Society & State: A Post-Independence Synthesis; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

The idea of self-reliance runs continuously from the 1905 Swadeshi movement through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation to post-1965 food self-reliance and finally post-1991 competitiveness, with its content changing at every stage.

EVIDENCE AND MECHANISM

- Self-reliance began with the 1905 Swadeshi movement's boycott and indigenous enterprise.
- It was redefined successively as Gandhian khadi, nationalist fiscal autonomy, Nehruvian capital-goods capacity, and licence-era insulation.
- It was redefined again as food self-reliance from the mid-1960s and finally as competitiveness after 1991.

EXAMINER CAUTION

- Do not treat self-reliance as one unchanging idea across 1905 to 1991; its content changed at every stage, each following the demonstrated failure of the previous one.

EXAM LINK

- **Prelims:** Do not treat self-reliance as one unchanging idea across 1905 to 1991; its content changed at every stage, each following the demonstrated failure of the previous one.
- **Mains:** Use this session to answer any long-duration question tracing a single concept's changing content across Indian history.

MINI RECAP

- **Core claim:** The idea of self-reliance runs continuously from the 1905 Swadeshi movement through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation to post-1965 food self-reliance and finally post-1991 competitiveness, with its content changing at every stage.
- **Use:** Use this session to answer any long-duration question tracing a single concept's changing content across Indian history.

CLOSING RECALL FLOW - CORE - THREAD 1: SELF-RELIANCE'S CHANGING CONTENT, 1905-1991

|

v

ANSWER-GRABBING FORMULATION: Do not treat self-reliance as one unchanging idea across 1905 to 1991; its content changed at every stage, each following the demonstrated failure of the previous one.

SESSION 12 - CORE SYNTHESIS - THREAD 2: AGRARIAN DISTRESS AND REGIME CHANGE

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Precise definition: Thread 2 is the pattern by which agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, rather than through economic distress alone.

Technical definition: Prelims: Do not treat agrarian distress alone as sufficient to produce regime change; the coinciding political-legitimacy crisis is the necessary second condition.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Precise definition: Thread 2 is the pattern by which agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, rather than through economic distress alone.

MUST-WRITE KEYWORDS

- CORE SYNTHESIS
- Thread 2
- agrarian distress
- regime change
- Precise definition
- Topic boundary

How to use them: Frame the answer through CORE SYNTHESIS; define Thread 2, connect agrarian distress with regime change to explain the mechanism, and use Precise definition for the decisive comparison or qualification.

VISUAL FIRST

THREAD 2: AGRARIAN DISTRESS AND REGIME CHANGE

1857 -> distress + crisis of annexation -> the Revolt

1967 -> harvest failures + succession crisis -> Congress loses eight states

1975-77 -> drought, oil shock + discredited mandate -> Emergency, 1977 defeat

RULE -> distress alone yields remedial legislation, not regime change

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** Thread 2 is the pattern by which agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, rather than through economic distress alone.
- **Topic boundary:** Apply this definition only within Economy, Land, Society & State: A Post-Independence Synthesis; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not.

EVIDENCE AND MECHANISM

- In 1857, agrarian distress coincided with the crisis of annexation and contributed to the Revolt.
- In 1967, two harvest failures coincided with a post-Nehru succession crisis, and Congress lost eight states.
- In 1975-77, drought and the oil shock coincided with a discredited mandate, contributing to the JP movement, the Emergency and the 1977 defeat.

EXAMINER CAUTION

- Do not treat agrarian distress alone as sufficient to produce regime change; the coinciding political-legitimacy crisis is the necessary second condition.

EXAM LINK

- **Prelims:** Do not treat agrarian distress alone as sufficient to produce regime change; the coinciding political-legitimacy crisis is the necessary second condition.
- **Mains:** Use this session to answer any question on the relationship between economic distress and political change in Indian history.

MINI RECAP

- **Core claim:** Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not.
- **Use:** Use this session to answer any question on the relationship between economic distress and political change in Indian history.

v

ANSWER-GRABBING FORMULATION: Precise definition: Thread 2 is the pattern by which agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, rather than through economic distress alone.

SESSION 13 - CORE SYNTHESIS - THE SYNTHESIS ENGINE AND INSTITUTIONAL DECAY

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Precise definition: The synthesis engine and institutional decay together describe how state capacity was deployed selectively and how Parliament, the Cabinet and defection controls decayed even as Indian democracy itself endured and deepened.

Technical definition: State capacity inherited from the colonial order was deployed for planning but withheld from rural property, and while democracy itself endured, Parliament, the Cabinet, defection controls and the judiciary all show a documented institutional decay alongside that endurance.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Precise definition: The synthesis engine and institutional decay together describe how state capacity was deployed selectively and how Parliament, the Cabinet and defection controls decayed even as Indian democracy itself endured and deepened.

MUST-WRITE KEYWORDS

- CORE SYNTHESIS
- The synthesis engine
- institutional decay
- Precise definition
- Topic boundary
- Core claim

How to use them: Frame the answer through CORE SYNTHESIS; define The synthesis engine, connect institutional decay with Precise definition to explain the mechanism, and use Topic boundary for the decisive comparison or qualification.

VISUAL FIRST

THE SYNTHESIS ENGINE AND INSTITUTIONAL DECAY

STATE CAPACITY -> deployed for planning; withheld from rural property

PARLIAMENT -> declining role from the late 1960s

CABINET -> eroded by a dominant PMO, from 1969

DEFECTION -> curbed only by the 1985 Anti-Defection Act; democracy still endures

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The synthesis engine and institutional decay together describe how state capacity was deployed selectively and how Parliament, the Cabinet and defection controls decayed even as Indian democracy itself endured and deepened.
- **Topic boundary:** Apply this definition only within Economy, Land, Society & State: A Post-Independence Synthesis; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

State capacity inherited from the colonial order was deployed for planning but withheld from rural property, and while democracy itself endured, Parliament, the Cabinet, defection controls and the judiciary all show a documented institutional decay alongside that endurance.

EVIDENCE AND MECHANISM

- State capacity was deployed for planning and heavy industry, but withheld from acting against rural property in tenancy and ceiling reform.
- Parliament's role declined from the late 1960s, and the Cabinet was eroded by a dominant Prime Minister's Office from 1969.
- Defection politics were curbed only by the 1985 Anti-Defection Act, and the judiciary and bureaucracy remained delay-ridden and unreformed.

EXAMINER CAUTION

- Do not conclude that institutional decay meant democracy collapsed; this topic states that democracy survived and deepened despite this decay.

EXAM LINK

- **Prelims:** Do not conclude that institutional decay meant democracy collapsed; this topic states that democracy survived and deepened despite this decay.
- **Mains:** Use this session to answer any question on the relationship between institutional decay and democratic survival in India.

MINI RECAP

- **Core claim:** State capacity inherited from the colonial order was deployed for planning but withheld from rural property, and while democracy itself endured, Parliament, the Cabinet, defection controls and the judiciary all show a documented institutional decay alongside that endurance.
- **Use:** Use this session to answer any question on the relationship between institutional decay and democratic survival in India.

SESSION 14 - CORE SYNTHESIS - THE PYQ RECONCILIATION: COVERED DEMAND AND BOUNDED GAP

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is covered by this topic's land-reform bank.

Technical definition: The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is covered by this topic's land-reform bank.

MUST-WRITE KEYWORDS

- CORE SYNTHESIS
- The PYQ reconciliation
- covered demand
- bounded gap
- Precise definition
- Topic boundary

How to use them: Frame the answer through CORE SYNTHESIS; define The PYQ reconciliation, connect covered demand with bounded gap to explain the mechanism, and use Precise definition for the decisive comparison or qualification.

VISUAL FIRST

THE PYQ RECONCILIATION: COVERED DEMAND AND BOUNDED GAP

9 ROUTED PRELIMS DEMANDS in this owner's local ledgers

COVERED -> land-reforms legislation, 2019 Prelims GS-I Q2

BOUNDED GAP -> Hind Mazdoor Sabha founders, 1948, 2018 Prelims GS-I Q70

OUT OF SCOPE -> 7 current-affairs routing artefacts, not history demands

The visual fixes this subtopic's chronology, mechanism or boundary before the evidence.

CONCEPT DEFINITIONS

- **Precise definition:** The PYQ reconciliation is this owner's transparent accounting of nine routed Prelims demands into one covered history demand, one bounded unattested gap, and seven out-of-scope current-affairs routing artefacts.
- **Topic boundary:** Apply this definition only within Economy, Land, Society & State: A Post-Independence Synthesis; retain the named actor, institution, date and chronological role.

CORE EXPLANATION

This owner carries nine routed Prelims demands, of which the 2019 land-reforms-legislation demand is a genuine history demand this topic covers, the 2018 Hind Mazdoor Sabha founders demand is an explicit, unattested gap, and the remaining seven are current-affairs routing artefacts outside this topic's scope.

EVIDENCE AND MECHANISM

- The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is covered by this topic's land-reform bank.
- The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap.
- The remaining seven routed demands are contemporary current-affairs items with no modern-history content and are not answered from this topic.

EXAMINER CAUTION

- Do not treat the seven current-affairs routing artefacts as gaps in this topic, and do not guess the founders of the Hind Mazdoor Sabha from memory.

EXAM LINK

- **Prelims:** Do not treat the seven current-affairs routing artefacts as gaps in this topic, and do not guess the founders of the Hind Mazdoor Sabha from memory.
- **Mains:** Use this session only to state the reconciliation transparently; route the current-affairs artefacts to a current-affairs owner and leave the Hind Mazdoor Sabha founders as an open gap.

MINI RECAP

- **Core claim:** This owner carries nine routed Prelims demands, of which the 2019 land-reforms-legislation demand is a genuine history demand this topic covers, the 2018 Hind Mazdoor Sabha founders demand is an explicit, unattested gap, and the remaining seven are current-affairs routing artefacts outside this topic's scope.
- **Use:** Use this session only to state the reconciliation transparently; route the current-affairs artefacts to a current-affairs owner and leave the Hind Mazdoor Sabha founders as an open gap.

|
v
ANSWER-GRABBING FORMULATION: The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is covered by this topic's land-reform bank.

MODERN HISTORY DEEP-REVIEW CORE CONTROL

- **Must remember:** The synthesis runs from the 1948/1956 Industrial Policy Resolutions, Planning Commission and First Plan, zamindari abolition and Bhoodan, the mid-1960s Green Revolution, Naxalbari (1967) and CPI(ML) (1969), farmers' movements at Nasik (1980) and Sisauli (1986), Mandal implementation (1990) and the 1991 market turn.
- **Close distinction:** Land reform must be disaggregated; Green Revolution output gains do not settle distributional or ecological debate; and the proposed Hindu Code became the Hindu Marriage Act 1955 plus three 1956 Acts, which expanded women's rights within Hindu personal law but did not create complete legal or social equality.
- **Evidence / interpretation limit:** Plan and land records, regional agrarian evidence, attributed Chandra and critical Green Revolution readings, India Code statutes and movement histories must support a graded verdict: state capacity transformed production and representation more consistently than property, equality or implementation.

TOPIC 38 CLOSING POST-INDEPENDENCE SYNTHESIS LEDGER

Topic 38 is thematic rather than another ruler chronology. It owns the post-independence relationship among planned development, land reform, agricultural change, agrarian mobilisation, caste, gender, communalism and state capacity. Topics 32-37 retain their period narratives; this topic compares mechanisms and outcomes across them without duplicating prime-minister sequence.

The 1948 and 1956 Industrial Policy Resolutions and Mahalanobis Second Plan put heavy industry and commanding heights in the public sector. Early growth and self-reliant capacity were real, while licence-permit controls accumulated efficiency costs. The 1991 balance-of-payments crisis produced reform under Narasimha Rao and Manmohan Singh: a corrective and structural break whose goals and distributive effects require separate evaluation.

Land reform must be disaggregated. Zamindari abolition largely succeeded by 1956 and converted about 20 million superior tenants into owners; tenancy and ceiling reforms were weakened by concealed tenancy, benami transfer, family partition, weak records and political resistance. Vinoba Bhave's Bhoodan began at Pochampalli in 1951 but could not substitute for enforceable structural reform.

The mid-1960s Green Revolution combined HYV seed, irrigation, fertiliser, credit, procurement and extension, initially in wheat regions of Punjab, Haryana and western Uttar Pradesh. Output and food-security gains do not settle regional, class or ecological debate. Telangana and Naxalbari/CPI(ML) mobilised land and class grievances; the 1980s Shetkari Sangathan and Bharatiya Kisan Union pursued remunerative prices, inputs and credit from a different agrarian class position.

Formal reform and social transformation diverged. The proposed Hindu Code was enacted through the Hindu Marriage Act 1955 and three 1956 Acts, expanding rights within Hindu personal law without complete legal or social equality. Untouchability abolition and reservations widened representation; Dalit, women's and OBC mobilisation,

culminating in Mandal implementation in 1990, showed excluded groups using democracy to press beyond statutory promises. Communalism is treated as an ideology and political process, not merely a riot count or timeless social essence.

Nine routed Prelims entries are audited: the 2019 land-reform demand is direct; the 2018 Hind Mazdoor Sabha founder demand remains an explicit held-evidence gap; seven contemporary items are routing artefacts rather than Modern History demands. No answer or official key is invented and no direct Mains route is claimed.

Answer: define thematic axes -> planning and 1991 break -> disaggregate land reform -> production versus distribution in agriculture -> compare agrarian movements -> law-versus-society gap in caste and gender -> communalism and institutional capacity -> graded verdict on transformation, equality and state.

BASIC MCQS / REMEDIATION

Q1. Which statement correctly identifies The economic model: IPRs and the Mahalanobis strategy, 1948-56?

A. The Industrial Policy Resolutions of 1948 and 1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry. B. Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate, but a maze of licences and controls, the 'licence-permit raj', throttled efficiency. C. Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform. D. Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base.

Answer: A. Explanation: The Industrial Policy Resolutions of 1948 and 1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q2. Which chronology card should be filed under The economic model: IPRs and the Mahalanobis strategy, 1948-56?

A. The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed. B. The Industrial Policy Resolutions of 1948 and 1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry. C. Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base. D. Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform.

Answer: B. Explanation: The Industrial Policy Resolutions of 1948 and 1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q3. Which option should a candidate retain when revising The economic model: IPRs and the Mahalanobis strategy, 1948-56?

A. The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed. B. The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation. C. The Industrial Policy Resolutions of 1948 and 1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry. D. Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base.

Answer: C. Explanation: The Industrial Policy Resolutions of 1948 and 1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q4. Which statement avoids a common matching trap about The economic model: IPRs and the Mahalanobis strategy, 1948-56?

A. Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs. B. The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation. C. The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed. D. The Industrial Policy Resolutions of 1948 and 1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry.

Answer: D. Explanation: The Industrial Policy Resolutions of 1948 and 1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q5. Which statement correctly identifies Growth and the licence-permit raj?

A. Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate, but a maze of licences and controls, the 'licence-permit raj', throttled efficiency. B. Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base. C. Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform. D. The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed.

Answer: A. Explanation: Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate, but a maze of licences and controls, the 'licence-permit raj', throttled efficiency. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q6. Which chronology card should be filed under Growth and the licence-permit raj?

A. Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base. B. Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate, but a maze of licences and controls, the 'licence-permit raj', throttled efficiency. C. The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation. D. The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed.

Answer: B. Explanation: Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate, but a maze of licences and controls, the 'licence-permit raj', throttled efficiency. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q7. Which option should a candidate retain when revising Growth and the licence-permit raj?

A. The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed. B. The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation. C. Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate, but a maze of licences and controls, the 'licence-permit raj', throttled efficiency. D. Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs.

Answer: C. Explanation: Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate, but a maze of licences and controls, the 'licence-permit raj', throttled efficiency. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q8. Which statement avoids a common matching trap about Growth and the licence-permit raj?

A. Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs. B. The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(M) was formed in 1969, following the earlier Telangana agrarian struggle. C. The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation. D. Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate, but a maze of licences and controls, the 'licence-permit raj', throttled efficiency.

Answer: D. Explanation: Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate, but a maze of licences and controls, the 'licence-permit raj', throttled efficiency. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q9. Which statement correctly identifies Zamindari abolition, largely by 1956?

A. Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform. B. The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed. C. The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation. D. Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base.

Answer: A. Explanation: Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q10. Which chronology card should be filed under Zamindari abolition, largely by 1956?

A. The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed. B. Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform. C. The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation. D. Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs.

Answer: B. Explanation: Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political

backing behind the reform. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q11. Which option should a candidate retain when revising Zamindari abolition, largely by 1956?

A. The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation. B. Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs. C. Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform. D. The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969, following the earlier Telangana agrarian struggle.

Answer: C. Explanation: Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q12. Which statement avoids a common matching trap about Zamindari abolition, largely by 1956?

A. The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969, following the earlier Telangana agrarian struggle. B. The rich-farmer movements of the 1980s, Sharad Joshi's Shetkari Sangathana at Nasik in 1980 and Mahendra Singh Tikait's Bharatiya Kisan Union at Sisauli in 1986, pursued market demands of prices, inputs and credit, a class content opposed to the landless and tenant struggles of Naxalbari and Telangana. C. Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs. D. Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform.

Answer: D. Explanation: Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q13. Which statement correctly identifies Tenancy and ceiling reform, largely failed?

A. Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base. B. The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation. C. The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed. D. Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs.

Answer: A. Explanation: Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q14. Which chronology card should be filed under Tenancy and ceiling reform, largely failed?

A. The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969, following the earlier Telangana agrarian struggle. B. Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base. C. Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs. D. The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation.

Answer: B. Explanation: Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q15. Which option should a candidate retain when revising Tenancy and ceiling reform, largely failed?

A. The rich-farmer movements of the 1980s, Sharad Joshi's Shetkari Sangathana at Nasik in 1980 and Mahendra Singh Tikait's Bharatiya Kisan Union at Sisauli in 1986, pursued market demands of prices, inputs and credit, a class content opposed to the landless and tenant struggles of Naxalbari and Telangana. B. Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs. C. Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base. D. The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969, following the earlier Telangana agrarian struggle.

Answer: C. Explanation: Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q16. Which statement avoids a common matching trap about Tenancy and ceiling reform, largely failed?

A. The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality. B. The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969, following the earlier Telangana agrarian struggle. C. The rich-farmer movements of the 1980s, Sharad Joshi's Shetkari Sangathana at Nasik in 1980 and Mahendra Singh Tikait's Bharatiya Kisan Union at Sisauli in 1986, pursued market demands of prices, inputs and credit, a class content opposed to the landless and tenant struggles of Naxalbari and Telangana. D. Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base.

Answer: D. Explanation: Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q17. Which statement correctly identifies Bhoodan could not substitute for structural reform?

A. The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed. B. The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969, following the earlier Telangana agrarian struggle. C. The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation. D. Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs.

Answer: A. Explanation: The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q18. Which chronology card should be filed under Bhoodan could not substitute for structural reform?

A. Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs. B. The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed. C. The rich-farmer movements of the 1980s, Sharad Joshi's Shetkari Sangathana at Nasik in 1980 and Mahendra Singh Tikait's Bharatiya Kisan Union at Sisauli in 1986, pursued market demands of prices, inputs and credit, a class content opposed to the landless and tenant struggles of Naxalbari and Telangana. D. The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969, following the earlier Telangana agrarian struggle.

Answer: B. Explanation: The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q19. Which option should a candidate retain when revising Bhoodan could not substitute for structural reform?

A. The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969, following the earlier Telangana agrarian struggle. B. The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality. C. The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed. D. The rich-farmer movements of the 1980s, Sharad Joshi's Shetkari Sangathana at Nasik in 1980 and Mahendra Singh Tikait's Bharatiya Kisan Union at Sisauli in 1986, pursued market demands of prices, inputs and credit, a class content opposed to the landless and tenant struggles of Naxalbari and Telangana.

Answer: C. Explanation: The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q20. Which statement avoids a common matching trap about Bhoodan could not substitute for structural reform?

A. A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56. B. The rich-farmer movements of the 1980s, Sharad Joshi's Shetkari Sangathana at Nasik in 1980 and Mahendra Singh Tikait's Bharatiya Kisan Union at Sisauli in 1986, pursued market demands of prices, inputs and credit, a class content opposed to the landless and tenant struggles of Naxalbari and Telangana. C. The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality. D. The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed.

Answer: D. Explanation: The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q21. Which statement correctly identifies The Green Revolution's HYV package, mid-1960s?

A. The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation. B. The rich-farmer movements of the 1980s, Sharad Joshi's Shetkari Sangathana at Nasik in 1980 and Mahendra Singh Tikait's Bharatiya Kisan Union at Sisauli in 1986, pursued market demands of prices, inputs and credit, a class content opposed to the landless and tenant struggles of Naxalbari and Telangana. C. Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs. D. The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969, following the earlier Telangana agrarian struggle.

Answer: A. Explanation: The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q22. Which chronology card should be filed under The Green Revolution's HYV package, mid-1960s?

A. The rich-farmer movements of the 1980s, Sharad Joshi's Shetkari Sangathana at Nasik in 1980 and Mahendra Singh Tikait's Bharatiya Kisan Union at Sisauli in 1986, pursued market demands of prices, inputs and credit, a class content opposed to the landless and tenant struggles of Naxalbari and Telangana. B. The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation. C. The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969, following the earlier Telangana agrarian struggle. D. The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality.

Answer: B. Explanation: The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q23. Which option should a candidate retain when revising The Green Revolution's HYV package, mid-1960s?

A. A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56. B. The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality. C. The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation. D. The rich-farmer movements of the 1980s, Sharad Joshi's Shetkari Sangathana at Nasik in 1980 and Mahendra Singh Tikait's Bharatiya Kisan Union at Sisauli in 1986, pursued market demands of prices, inputs and credit, a class content opposed to the landless and tenant struggles of Naxalbari and Telangana.

Answer: C. Explanation: The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q24. Which statement avoids a common matching trap about The Green Revolution's HYV package, mid-1960s?

A. The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality. B. Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990. C. A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56. D. The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation.

Answer: D. Explanation: The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q25. Which statement correctly identifies The Green Revolution debate: diffusion versus inequality?

A. Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs. B. The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality. C. The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969, following the earlier Telangana agrarian struggle. D. The rich-farmer movements of the 1980s, Sharad Joshi's Shetkari Sangathana at Nasik in 1980 and Mahendra Singh Tikait's Bharatiya Kisan Union at Sisauli in 1986, pursued market demands of prices, inputs and credit, a class content opposed to the landless and tenant struggles of Naxalbari and Telangana.

Answer: A. Explanation: Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q26. Which chronology card should be filed under The Green Revolution debate: diffusion versus inequality?

A. The rich-farmer movements of the 1980s, Sharad Joshi's Shetkari Sangathana at Nasik in 1980 and Mahendra Singh Tikait's Bharatiya Kisan Union at Sisauli in 1986, pursued market demands of prices, inputs and credit, a class content opposed to the landless and tenant struggles of Naxalbari and Telangana. B. Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs. C. A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56. D. The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality.

Answer: B. Explanation: Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q27. Which option should a candidate retain when revising The Green Revolution debate: diffusion versus inequality?

A. Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990. B. The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality. C. Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs. D. A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56.

Answer: C. Explanation: Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q28. Which statement avoids a common matching trap about The Green Revolution debate: diffusion versus inequality?

A. A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56. B. Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990. C. Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a sequence of riots. D. Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs.

Answer: D. Explanation: Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q29. Which statement correctly identifies Naxalbari, 1967, and CPI(ML), 1969?

A. The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969, following the earlier Telangana agrarian struggle. B. A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56. C. The rich-farmer movements of the 1980s, Sharad Joshi's Shetkari Sangathana at Nasik in 1980 and Mahendra Singh Tikait's Bharatiya Kisan Union at Sisauli in 1986, pursued market demands of prices, inputs and credit, a class content opposed to the landless and tenant struggles of Naxalbari and Telangana. D. The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality.

Answer: A. Explanation: The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969, following the earlier Telangana agrarian struggle. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q30. Which chronology card should be filed under Naxalbari, 1967, and CPI(ML), 1969?

A. A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56. B. The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969, following the earlier Telangana agrarian struggle. C. Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990. D. The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality.

Answer: B. Explanation: The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969, following the earlier Telangana agrarian struggle. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q31. Which option should a candidate retain when revising Naxalbari, 1967, and CPI(ML), 1969?

A. A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56. B. Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a sequence of riots. C. The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969, following the earlier Telangana agrarian struggle. D. Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990.

Answer: C. Explanation: The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969, following the earlier Telangana agrarian struggle. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q32. Which statement avoids a common matching trap about Naxalbari, 1967, and CPI(ML), 1969?

A. Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a sequence of riots. B. Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990. C. A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals. D. The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969, following the earlier Telangana agrarian struggle.

Answer: D. Explanation: The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969, following the earlier Telangana agrarian struggle. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q33. Which statement correctly identifies The farmers' movements of the 1980s?

A. The rich-farmer movements of the 1980s, Sharad Joshi's Shetkari Sangathana at Nasik in 1980 and Mahendra Singh Tikait's Bharatiya Kisan Union at Sisauli in 1986, pursued market demands of prices, inputs and credit, a class content opposed to the landless and tenant struggles of Naxalbari and Telangana. B. Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990. C. A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56. D. The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality.

Answer: A. Explanation: The rich-farmer movements of the 1980s, Sharad Joshi's Shetkari Sangathana at Nasik in 1980 and Mahendra Singh Tikait's Bharatiya Kisan Union at Sisauli in 1986, pursued market demands of prices, inputs and credit, a class content opposed to the landless and tenant struggles of Naxalbari and Telangana. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q34. Which chronology card should be filed under The farmers' movements of the 1980s?

A. Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a sequence of riots. B. The rich-farmer movements of the 1980s, Sharad Joshi's Shetkari Sangathana at Nasik in 1980 and Mahendra Singh Tikait's Bharatiya Kisan Union at Sisauli in 1986, pursued market demands of prices, inputs and credit, a class content opposed to the landless and tenant struggles of Naxalbari and Telangana. C. Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990. D. A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56.

Answer: B. Explanation: The rich-farmer movements of the 1980s, Sharad Joshi's Shetkari Sangathana at Nasik in 1980 and Mahendra Singh Tikait's Bharatiya Kisan Union at Sisauli in 1986, pursued market demands of prices, inputs and credit, a class content opposed to the landless and tenant struggles of Naxalbari and Telangana. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q35. Which option should a candidate retain when revising The farmers' movements of the 1980s?

A. Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a sequence of riots. B. Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990. C. The rich-farmer movements of the 1980s, Sharad Joshi's Shetkari Sangathana at Nasik in 1980 and Mahendra Singh Tikait's Bharatiya Kisan Union at Sisauli in 1986, pursued market demands of prices, inputs and credit, a class content opposed to the landless and tenant struggles of Naxalbari and Telangana. D. A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals.

Answer: C. Explanation: The rich-farmer movements of the 1980s, Sharad Joshi's Shetkari Sangathana at Nasik in 1980 and Mahendra Singh Tikait's Bharatiya Kisan Union at Sisauli in 1986, pursued market demands of prices, inputs and credit, a class content opposed to the landless and tenant struggles of Naxalbari and Telangana. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q36. Which statement avoids a common matching trap about The farmers' movements of the 1980s?

A. Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a sequence of riots. B. A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals. C. The idea of self-reliance runs continuously from the Swadeshi movement of 1905 through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation, to food self-reliance from the mid-1960s and finally to post-1991 competitiveness, with its content changing at each stage. D. The rich-farmer movements of the 1980s, Sharad Joshi's Shetkari Sangathana at Nasik in 1980 and Mahendra Singh Tikait's Bharatiya Kisan Union at Sisauli in 1986, pursued market demands of prices, inputs and credit, a class content opposed to the landless and tenant struggles of Naxalbari and Telangana.

Answer: D. Explanation: The rich-farmer movements of the 1980s, Sharad Joshi's Shetkari Sangathana at Nasik in 1980 and Mahendra Singh Tikait's Bharatiya Kisan Union at Sisauli in 1986, pursued market demands of prices, inputs and credit, a class content opposed to the landless and tenant struggles of Naxalbari and Telangana. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q37. Which statement correctly identifies The Hindu Code Bill?

A. The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality. B. A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56. C. Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990. D. Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a sequence of riots.

Answer: A. Explanation: The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q38. Which chronology card should be filed under The Hindu Code Bill?

A. A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals. B. The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality. C. Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a sequence of riots. D. Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990.

Answer: B. Explanation: The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q39. Which option should a candidate retain when revising The Hindu Code Bill?

A. A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals. B. The idea of self-reliance runs continuously from the Swadeshi movement of 1905 through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation, to food self-reliance from the mid-1960s and finally to post-1991 competitiveness, with its content changing at each stage. C. The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality. D. Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a sequence of riots.

Answer: C. Explanation: The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q40. Which statement avoids a common matching trap about The Hindu Code Bill?

A. The idea of self-reliance runs continuously from the Swadeshi movement of 1905 through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation, to food self-reliance from the mid-1960s and finally to post-1991 competitiveness, with its content changing at each stage. B. Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not, as after 1879. C. A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals. D. The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality.

Answer: D. Explanation: The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q41. Which statement correctly identifies The women's movement, 1970s-90s?

A. A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56. B. Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990. C. Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a sequence of riots. D. A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals.

Answer: A. Explanation: A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q42. Which chronology card should be filed under The women's movement, 1970s-90s?

A. The idea of self-reliance runs continuously from the Swadeshi movement of 1905 through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation, to food self-reliance from the mid-1960s and finally to post-1991 competitiveness, with its content changing at each stage. B. A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56. C. Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a sequence of riots. D. A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals.

Answer: B. Explanation: A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q43. Which option should a candidate retain when revising The women's movement, 1970s-90s?

A. Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not, as after 1879. B. A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals. C. A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56. D. The idea of self-reliance runs continuously from the Swadeshi movement of 1905 through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation, to food self-reliance from the mid-1960s and finally to post-1991 competitiveness, with its content changing at each stage.

Answer: C. Explanation: A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q44. Which statement avoids a common matching trap about The women's movement, 1970s-90s?

A. A recurring law-versus-society gap runs through this topic: formal legal reform began early for tenants, Dalits and women, social transformation lagged behind, and excluded groups organised politically rather than remaining content with legislation alone. B. The idea of self-reliance runs continuously from the Swadeshi movement of 1905 through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation, to food self-reliance from the mid-1960s and finally to post-1991 competitiveness, with its content changing at each stage. C. Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not, as after 1879. D. A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56.

Answer: D. Explanation: A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q45. Which statement correctly identifies Caste: from Ambedkar to Mandal, 1990?

A. Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990. B. The idea of self-reliance runs continuously from the Swadeshi movement of 1905 through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation, to food self-reliance from the mid-1960s and finally to post-1991 competitiveness, with its content changing at each stage. C. A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals. D. Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a sequence of riots.

Answer: A. Explanation: Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q46. Which chronology card should be filed under Caste: from Ambedkar to Mandal, 1990?

A. Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not, as after 1879. B. Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990. C. The idea of self-reliance runs continuously from the Swadeshi movement of 1905 through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation, to food self-reliance from the mid-1960s and finally to post-1991 competitiveness, with its content changing at each stage. D. A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals.

Answer: B. Explanation: Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q47. Which option should a candidate retain when revising Caste: from Ambedkar to Mandal, 1990?

A. Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not, as after 1879. B. A recurring law-versus-society gap runs through this topic: formal legal reform began early for tenants, Dalits and women, social transformation lagged behind, and excluded groups organised politically rather than remaining content with legislation alone. C. Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990. D. The idea of self-reliance runs continuously from the Swadeshi movement of 1905 through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation, to food self-reliance from the mid-1960s and finally to post-1991 competitiveness, with its content changing at each stage.

Answer: C. Explanation: Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q48. Which statement avoids a common matching trap about Caste: from Ambedkar to Mandal, 1990?

A. Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not, as after 1879. B. Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened. C. A recurring law-versus-society gap runs through this topic: formal legal reform began early for tenants, Dalits and women, social transformation lagged behind, and excluded groups organised politically rather than remaining content with legislation alone. D. Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990.

Answer: D. Explanation: Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q49. Which statement correctly identifies Communalism: revival and endemism?

A. Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a sequence of riots. B. A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals. C. Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not, as after 1879. D. The idea of self-reliance runs continuously from the Swadeshi movement of 1905 through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation, to food self-reliance from the mid-1960s and finally to post-1991 competitiveness, with its content changing at each stage.

Answer: A. Explanation: Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a sequence of riots. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q50. Which chronology card should be filed under Communalism: revival and endemism?

A. A recurring law-versus-society gap runs through this topic: formal legal reform began early for tenants, Dalits and women, social transformation lagged behind, and excluded groups organised politically rather than remaining content with legislation alone. B. Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a sequence of riots. C. Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not, as after 1879. D. The idea of self-reliance runs continuously from the Swadeshi movement of 1905 through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation, to food self-reliance from the mid-1960s and finally to post-1991 competitiveness, with its content changing at each stage.

Answer: B. Explanation: Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a sequence of riots. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q51. Which option should a candidate retain when revising Communalism: revival and endemism?

A. Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not, as after 1879. B. A recurring law-versus-society gap runs through this topic: formal legal reform began early for tenants, Dalits and women, social transformation lagged behind, and excluded groups organised politically rather than remaining content with legislation alone. C. Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a sequence of riots. D. Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened.

Answer: C. Explanation: Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a sequence of riots. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q52. Which statement avoids a common matching trap about Communalism: revival and endemism?

A. The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is a genuine history demand and is covered by this topic's land-reform bank. B. Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened. C. A recurring law-versus-society gap runs through this topic: formal legal reform began early for tenants, Dalits and women, social transformation lagged behind, and excluded groups organised politically rather than remaining content with legislation alone. D. Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a

sequence of riots.

Answer: D. Explanation: Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a sequence of riots. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q53. Which statement correctly identifies 1991 economic liberalisation?

A. A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals. B. Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not, as after 1879. C. The idea of self-reliance runs continuously from the Swadeshi movement of 1905 through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation, to food self-reliance from the mid-1960s and finally to post-1991 competitiveness, with its content changing at each stage. D. A recurring law-versus-society gap runs through this topic: formal legal reform began early for tenants, Dalits and women, social transformation lagged behind, and excluded groups organised politically rather than remaining content with legislation alone.

Answer: A. Explanation: A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q54. Which chronology card should be filed under 1991 economic liberalisation?

A. Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened. B. A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals. C. A recurring law-versus-society gap runs through this topic: formal legal reform began early for tenants, Dalits and women, social transformation lagged behind, and excluded groups organised politically rather than remaining content with legislation alone. D. Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not, as after 1879.

Answer: B. Explanation: A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q55. Which option should a candidate retain when revising 1991 economic liberalisation?

A. The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is a genuine history demand and is covered by this topic's land-reform bank. B. Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened. C. A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals. D. A recurring law-versus-society gap runs through this topic: formal legal reform began early for tenants, Dalits and women, social transformation lagged behind, and excluded groups organised politically rather than remaining content with legislation alone.

Answer: C. Explanation: A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q56. Which statement avoids a common matching trap about 1991 economic liberalisation?

A. Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened. B. The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap, while seven further routed demands, Exercise Mitra Shakti-2023, the Gandhi Peace Prize jury, the first Kho Kho World Cup, the 45th Chess Olympiad records, the Laureus World Sports Awards, the Tokyo 2020 Olympics motto and new sports, and the ICC World Test Championship finalist criteria, are contemporary current-affairs routing artefacts with no modern-history content and are not answered from this topic. C. The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is a genuine history demand and is covered by this topic's land-reform bank. D. A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals.

Answer: D. Explanation: A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q57. Which statement correctly identifies The self-reliance thread's changing content?

A. The idea of self-reliance runs continuously from the Swadeshi movement of 1905 through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation, to food self-reliance from the mid-1960s and finally to post-1991 competitiveness, with its content changing at each stage. B. Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not, as after 1879. C. Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened. D. A recurring law-versus-society gap runs through this topic: formal legal reform began early for tenants, Dalits and women, social transformation lagged behind, and excluded groups organised politically rather than remaining content with legislation alone.

Answer: A. Explanation: The idea of self-reliance runs continuously from the Swadeshi movement of 1905 through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation, to food self-reliance from the mid-1960s and finally to post-1991 competitiveness, with its content changing at each stage. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q58. Which chronology card should be filed under The self-reliance thread's changing content?

A. The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is a genuine history demand and is covered by this topic's land-reform bank. B. The idea of self-reliance runs continuously from the Swadeshi movement of 1905 through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation, to food self-reliance from the mid-1960s and finally to post-1991 competitiveness, with its content changing at each stage. C. A recurring law-versus-society gap runs through this topic: formal legal reform began early for tenants, Dalits and women, social transformation lagged behind, and excluded groups organised politically rather than remaining content with legislation alone. D. Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened.

Answer: B. Explanation: The idea of self-reliance runs continuously from the Swadeshi movement of 1905 through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation, to food self-reliance from the mid-1960s and finally to post-1991 competitiveness, with its content changing at each stage. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q59. Which option should a candidate retain when revising The self-reliance thread's changing content?

A. Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened. B. The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is a genuine history demand and is covered by this topic's land-reform bank. C. The idea of self-reliance runs continuously from the Swadeshi movement of 1905 through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation, to food self-reliance from the mid-1960s and finally to post-1991 competitiveness, with its content changing at each stage. D. The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap, while seven further routed demands, Exercise Mitra Shakti-2023, the Gandhi Peace Prize jury, the first Kho Kho World Cup, the 45th Chess Olympiad records, the Laureus World Sports Awards, the Tokyo 2020 Olympics motto and new sports, and the ICC World Test Championship finalist criteria, are contemporary current-affairs routing artefacts with no modern-history content and are not answered from this topic.

Answer: C. Explanation: The idea of self-reliance runs continuously from the Swadeshi movement of 1905 through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation, to food self-reliance from the mid-1960s and finally to post-1991 competitiveness, with its content changing at each stage. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q60. Which statement avoids a common matching trap about The self-reliance thread's changing content?

A. The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is a genuine history demand and is covered by this topic's land-reform bank. B. The Industrial Policy Resolutions of 1948 and 1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry. C. The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap, while seven further routed demands, Exercise Mitra Shakti-2023, the Gandhi Peace Prize jury, the first Kho Kho World Cup, the 45th Chess Olympiad records, the Laureus World Sports Awards, the Tokyo 2020 Olympics motto and new sports, and the ICC World Test Championship finalist criteria, are contemporary current-affairs routing artefacts with no modern-history content and are not answered from this topic. D. The idea of self-reliance runs continuously from the Swadeshi movement of 1905 through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation, to food self-reliance from the mid-1960s and finally to post-1991 competitiveness, with its content changing at each stage.

Answer: D. Explanation: The idea of self-reliance runs continuously from the Swadeshi movement of 1905 through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation, to food self-reliance from the mid-1960s and finally to post-1991 competitiveness, with its content changing at each stage. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q61. Which statement correctly identifies The agrarian distress-regime change thread?

A. Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not, as after 1879. B. The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is a genuine history demand and is covered by this topic's land-reform bank. C. A recurring law-versus-society gap runs through this topic: formal legal reform began early for tenants, Dalits and women, social transformation lagged behind, and excluded groups organised politically rather than remaining content with legislation alone. D. Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened.

Answer: A. Explanation: Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not, as after 1879. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q62. Which chronology card should be filed under The agrarian distress-regime change thread?

A. Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened. B. Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not, as after 1879. C. The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap, while seven further routed demands, Exercise Mitra Shakti-2023, the Gandhi Peace Prize jury, the first Kho Kho World Cup, the 45th Chess Olympiad records, the Laureus World Sports Awards, the Tokyo 2020 Olympics motto and new sports, and the ICC World Test Championship finalist criteria, are contemporary current-affairs routing artefacts with no modern-history content and are not answered from this topic. D. The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is a genuine history demand and is covered by this topic's land-reform bank.

Answer: B. Explanation: Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not, as after 1879. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q63. Which option should a candidate retain when revising The agrarian distress-regime change thread?

A. The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is a genuine history demand and is covered by this topic's land-reform bank. B. The Industrial Policy Resolutions of 1948 and 1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry. C. Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not, as after 1879. D. The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap, while seven further routed demands, Exercise Mitra Shakti-2023, the Gandhi Peace Prize jury, the first Kho Kho World Cup, the 45th Chess Olympiad records, the Laureus World Sports Awards, the Tokyo 2020 Olympics motto and new sports, and the ICC World Test Championship finalist criteria, are contemporary current-affairs routing artefacts with no modern-history content and are not answered from this topic.

Answer: C. Explanation: Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not, as after 1879. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q64. Which statement avoids a common matching trap about The agrarian distress-regime change thread?

A. Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate, but a maze of licences and controls, the 'licence-permit raj', throttled efficiency. B. The Industrial Policy Resolutions of 1948 and 1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry. C. The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap, while seven further routed demands, Exercise Mitra Shakti-2023, the Gandhi Peace Prize jury, the first Kho Kho World Cup, the 45th Chess Olympiad records, the Laureus World Sports Awards, the Tokyo 2020 Olympics motto and new sports, and the ICC World Test Championship finalist criteria, are contemporary current-affairs routing artefacts with no modern-history content and are not answered from this topic. D. Agrarian distress produced regime change only when

it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not, as after 1879.

Answer: D. Explanation: Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not, as after 1879. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q65. Which statement correctly identifies The law-versus-society synthesis engine?

A. A recurring law-versus-society gap runs through this topic: formal legal reform began early for tenants, Dalits and women, social transformation lagged behind, and excluded groups organised politically rather than remaining content with legislation alone. B. Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened. C. The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is a genuine history demand and is covered by this topic's land-reform bank. D. The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap, while seven further routed demands, Exercise Mitra Shakti-2023, the Gandhi Peace Prize jury, the first Kho Kho World Cup, the 45th Chess Olympiad records, the Laureus World Sports Awards, the Tokyo 2020 Olympics motto and new sports, and the ICC World Test Championship finalist criteria, are contemporary current-affairs routing artefacts with no modern-history content and are not answered from this topic.

Answer: A. Explanation: A recurring law-versus-society gap runs through this topic: formal legal reform began early for tenants, Dalits and women, social transformation lagged behind, and excluded groups organised politically rather than remaining content with legislation alone. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q66. Which chronology card should be filed under The law-versus-society synthesis engine?

A. The Industrial Policy Resolutions of 1948 and 1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry. B. A recurring law-versus-society gap runs through this topic: formal legal reform began early for tenants, Dalits and women, social transformation lagged behind, and excluded groups organised politically rather than remaining content with legislation alone. C. The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is a genuine history demand and is covered by this topic's land-reform bank. D. The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap, while seven further routed demands, Exercise Mitra Shakti-2023, the Gandhi Peace Prize jury, the first Kho Kho World Cup, the 45th Chess Olympiad records, the Laureus World Sports Awards, the Tokyo 2020 Olympics motto and new sports, and the ICC World Test Championship finalist criteria, are contemporary current-affairs routing artefacts with no modern-history content and are not answered from this topic.

Answer: B. Explanation: A recurring law-versus-society gap runs through this topic: formal legal reform began early for tenants, Dalits and women, social transformation lagged behind, and excluded groups organised politically rather than remaining content with legislation alone. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q67. Which option should a candidate retain when revising The law-versus-society synthesis engine?

A. The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap, while seven further routed demands, Exercise Mitra Shakti-2023, the Gandhi Peace Prize jury, the first Kho Kho World Cup, the 45th Chess Olympiad records, the Laureus World Sports Awards, the Tokyo 2020 Olympics motto and new sports, and the ICC World Test Championship finalist criteria, are contemporary current-affairs routing artefacts with no modern-history content and are not answered from this topic. B. Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate, but a maze of licences and controls, the 'licence-permit raj', throttled efficiency. C. A recurring law-versus-society gap runs through this topic: formal legal reform began early for tenants, Dalits and women, social transformation lagged

behind, and excluded groups organised politically rather than remaining content with legislation alone. D. The Industrial Policy Resolutions of 1948 and 1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry.

Answer: C. Explanation: A recurring law-versus-society gap runs through this topic: formal legal reform began early for tenants, Dalits and women, social transformation lagged behind, and excluded groups organised politically rather than remaining content with legislation alone. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q68. Which statement avoids a common matching trap about The law-versus-society synthesis engine?

A. Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate, but a maze of licences and controls, the 'licence-permit raj', throttled efficiency. B. The Industrial Policy Resolutions of 1948 and 1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry. C. Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform. D. A recurring law-versus-society gap runs through this topic: formal legal reform began early for tenants, Dalits and women, social transformation lagged behind, and excluded groups organised politically rather than remaining content with legislation alone.

Answer: D. Explanation: A recurring law-versus-society gap runs through this topic: formal legal reform began early for tenants, Dalits and women, social transformation lagged behind, and excluded groups organised politically rather than remaining content with legislation alone. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q69. Which statement correctly identifies Institutional decay amid democratic survival?

A. Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened. B. The Industrial Policy Resolutions of 1948 and 1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry. C. The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is a genuine history demand and is covered by this topic's land-reform bank. D. The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap, while seven further routed demands, Exercise Mitra Shakti-2023, the Gandhi Peace Prize jury, the first Kho Kho World Cup, the 45th Chess Olympiad records, the Laureus World Sports Awards, the Tokyo 2020 Olympics motto and new sports, and the ICC World Test Championship finalist criteria, are contemporary current-affairs routing artefacts with no modern-history content and are not answered from this topic.

Answer: A. Explanation: Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q70. Which chronology card should be filed under Institutional decay amid democratic survival?

A. Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate, but a maze of licences and controls, the 'licence-permit raj', throttled efficiency. B. Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened. C. The Industrial Policy Resolutions of 1948 and 1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry. D. The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap, while seven further routed demands, Exercise Mitra Shakti-2023, the Gandhi Peace Prize

jury, the first Kho Kho World Cup, the 45th Chess Olympiad records, the Laureus World Sports Awards, the Tokyo 2020 Olympics motto and new sports, and the ICC World Test Championship finalist criteria, are contemporary current-affairs routing artefacts with no modern-history content and are not answered from this topic.

Answer: B. Explanation: Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q71. Which option should a candidate retain when revising Institutional decay amid democratic survival?

A. The Industrial Policy Resolutions of 1948 and 1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry. B. Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate, but a maze of licences and controls, the 'licence-permit raj', throttled efficiency. C. Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened. D. Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform.

Answer: C. Explanation: Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q72. Which statement avoids a common matching trap about Institutional decay amid democratic survival?

A. Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base. B. Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate, but a maze of licences and controls, the 'licence-permit raj', throttled efficiency. C. Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform. D. Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened.

Answer: D. Explanation: Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q73. Which statement correctly identifies The land-reforms PYQ demand, 2019: a covered demand?

A. The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is a genuine history demand and is covered by this topic's land-reform bank. B. Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate, but a maze of licences and controls, the 'licence-permit raj', throttled efficiency. C. The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap, while seven further routed demands, Exercise Mitra Shakti-2023, the Gandhi Peace Prize jury, the first Kho Kho World Cup, the 45th Chess Olympiad records, the Laureus World Sports Awards, the Tokyo 2020 Olympics motto and new sports, and the ICC World Test

Championship finalist criteria, are contemporary current-affairs routing artefacts with no modern-history content and are not answered from this topic. D. The Industrial Policy Resolutions of 1948 and 1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry.

Answer: A. Explanation: The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is a genuine history demand and is covered by this topic's land-reform bank. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Demand decoding: The directive **answer** requires a direct position on “Q73. Which statement correctly identifies The land-reforms PYQ demand, 2019: a covered...”, coverage of every clause, chronological-causal analysis, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: For a 15-mark answer, open with a two-sentence thesis; organise five named Acts, events, organisations, regions, primary records or scholarly positions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded conclusion.

Why this earns marks: The answer obeys the directive, distinguishes dates and policy stages, connects evidence to mechanism, recognises regional/social variation and avoids teleology or hero worship.

How to improve this answer: For “Q73. Which statement correctly identifies The land-reforms PYQ demand, 2019: a covered...”, replace the weakest generalisation with one additional named primary/official record or attributed scholarly interpretation and state exactly what it cannot prove.

Q74. Which chronology card should be filed under The land-reforms PYQ demand, 2019: a covered demand?

A. Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform. B. The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is a genuine history demand and is covered by this topic's land-reform bank. C. Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate, but a maze of licences and controls, the 'licence-permit raj', throttled efficiency. D. The Industrial Policy Resolutions of 1948 and 1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry.

Answer: B. Explanation: The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is a genuine history demand and is covered by this topic's land-reform bank. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Demand decoding: The directive **answer** requires a direct position on “Q74. Which chronology card should be filed under The land-reforms PYQ demand, 2019: a...”, coverage of every clause, chronological-causal analysis, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: For a 15-mark answer, open with a two-sentence thesis; organise five named Acts, events, organisations, regions, primary records or scholarly positions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded conclusion.

Why this earns marks: The answer obeys the directive, distinguishes dates and policy stages, connects evidence to mechanism, recognises regional/social variation and avoids teleology or hero worship.

How to improve this answer: For “Q74. Which chronology card should be filed under The land-reforms PYQ demand, 2019: a...”, replace the weakest generalisation with one additional named primary/official record or attributed scholarly interpretation and state exactly what it cannot prove.

Q75. Which option should a candidate retain when revising The land-reforms PYQ demand, 2019: a covered demand?

A. Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base. B. Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate, but a maze of licences and controls, the 'licence-permit raj', throttled efficiency. C. The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is a genuine history demand and is covered by this topic's land-reform bank. D. Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform.

Answer: C. Explanation: The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is a genuine history demand and is covered by this topic's land-reform bank. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Demand decoding: Treat "Q75. Which option should a candidate retain when revising The land-reforms PYQ demand,..." as a statement-level chronology and attribution problem: verify every date, Act/provision, person, organisation, region and causal claim independently, without inventing an official key.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: Fix the tested time window; separate event/enactment/commencement; match each actor and provision; eliminate the closest distractor with one named record, treaty, session or regional fact.

Why this earns marks: It preserves exact chronology and answer-text mapping, uses named evidence and keeps inferred elimination distinct from an official key.

How to improve this answer: For "Q75. Which option should a candidate retain when revising The land-reforms PYQ demand,...", add one explicit line showing why the nearest distractor fails on date, legal status, geography, attribution or degree.

Q76. Which statement avoids a common matching trap about The land-reforms PYQ demand, 2019: a covered demand?

A. Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base. B. The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed. C. Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform. D. The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is a genuine history demand and is covered by this topic's land-reform bank.

Answer: D. Explanation: The 2019 Prelims GS-I Q2 demand on land-reforms legislation in post-independence India is a genuine history demand and is covered by this topic's land-reform bank. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q77. Which statement correctly identifies The Hind Mazdoor Sabha gap and the current-affairs routing artefacts?

A. The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap, while seven further routed demands, Exercise Mitra Shakti-2023, the Gandhi Peace Prize jury, the first Kho Kho World Cup, the 45th Chess Olympiad records, the Laureus World Sports Awards, the Tokyo 2020 Olympics motto and new sports, and the ICC World Test Championship finalist criteria, are contemporary current-affairs routing artefacts with no modern-history content and are not answered from this topic. B. Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform. C. Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate, but a maze of licences and controls, the 'licence-permit raj', throttled efficiency. D. The Industrial Policy Resolutions of 1948 and

1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry.

Answer: A. Explanation: The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap, while seven further routed demands, Exercise Mitra Shakti-2023, the Gandhi Peace Prize jury, the first Kho Kho World Cup, the 45th Chess Olympiad records, the Laureus World Sports Awards, the Tokyo 2020 Olympics motto and new sports, and the ICC World Test Championship finalist criteria, are contemporary current-affairs routing artefacts with no modern-history content and are not answered from this topic. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q78. Which chronology card should be filed under The Hind Mazdoor Sabha gap and the current-affairs routing artefacts?

A. Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base. B. The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap, while seven further routed demands, Exercise Mitra Shakti-2023, the Gandhi Peace Prize jury, the first Kho Kho World Cup, the 45th Chess Olympiad records, the Laureus World Sports Awards, the Tokyo 2020 Olympics motto and new sports, and the ICC World Test Championship finalist criteria, are contemporary current-affairs routing artefacts with no modern-history content and are not answered from this topic. C. Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform. D. Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate, but a maze of licences and controls, the 'licence-permit raj', throttled efficiency.

Answer: B. Explanation: The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap, while seven further routed demands, Exercise Mitra Shakti-2023, the Gandhi Peace Prize jury, the first Kho Kho World Cup, the 45th Chess Olympiad records, the Laureus World Sports Awards, the Tokyo 2020 Olympics motto and new sports, and the ICC World Test Championship finalist criteria, are contemporary current-affairs routing artefacts with no modern-history content and are not answered from this topic. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q79. Which option should a candidate retain when revising The Hind Mazdoor Sabha gap and the current-affairs routing artefacts?

A. Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform. B. Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base. C. The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap, while seven further routed demands, Exercise Mitra Shakti-2023, the Gandhi Peace Prize jury, the first Kho Kho World Cup, the 45th Chess Olympiad records, the Laureus World Sports Awards, the Tokyo 2020 Olympics motto and new sports, and the ICC World Test Championship finalist criteria, are contemporary current-affairs routing artefacts with no modern-history content and are not answered from this topic. D. The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed.

Answer: C. Explanation: The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap, while seven further routed demands, Exercise Mitra Shakti-2023, the Gandhi Peace Prize jury, the first Kho Kho World Cup, the 45th Chess Olympiad records, the Laureus World Sports Awards, the Tokyo 2020 Olympics motto and new sports, and the ICC World Test Championship finalist criteria, are contemporary

current-affairs routing artefacts with no modern-history content and are not answered from this topic. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

Q80. Which statement avoids a common matching trap about The Hind Mazdoor Sabha gap and the current-affairs routing artefacts?

A. The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed. B. The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation. C. Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base. D. The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap, while seven further routed demands, Exercise Mitra Shakti-2023, the Gandhi Peace Prize jury, the first Kho Kho World Cup, the 45th Chess Olympiad records, the Laureus World Sports Awards, the Tokyo 2020 Olympics motto and new sports, and the ICC World Test Championship finalist criteria, are contemporary current-affairs routing artefacts with no modern-history content and are not answered from this topic.

Answer: D. Explanation: The 2018 Prelims GS-I Q70 demand on the founders of the Hind Mazdoor Sabha, 1948, is historical but unattested in the local source books and is recorded as an explicit single-fact gap, while seven further routed demands, Exercise Mitra Shakti-2023, the Gandhi Peace Prize jury, the first Kho Kho World Cup, the 45th Chess Olympiad records, the Laureus World Sports Awards, the Tokyo 2020 Olympics motto and new sports, and the ICC World Test Championship finalist criteria, are contemporary current-affairs routing artefacts with no modern-history content and are not answered from this topic. This distinction preserves the source-backed chronology and prevents cross-matching errors in UPSC elimination.

PYQS AND ANSWER PRACTICE

Demand decoding: The directive **answer** requires a direct position on “Q76. Which statement avoids a common matching trap about The land-reforms PYQ demand, 2019:...”, coverage of every clause, chronological-causal analysis, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: For a 15-mark answer, open with a two-sentence thesis; organise five named Acts, events, organisations, regions, primary records or scholarly positions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded conclusion.

Why this earns marks: The answer obeys the directive, distinguishes dates and policy stages, connects evidence to mechanism, recognises regional/social variation and avoids teleology or hero worship.

How to improve this answer: For “Q76. Which statement avoids a common matching trap about The land-reforms PYQ demand, 2019:...”, replace the weakest generalisation with one additional named primary/official record or attributed scholarly interpretation and state exactly what it cannot prove.

Recent PYQ Integration (2024-2025)

Status: 2024-2025 question-level PYQ demand is integrated into this owner. **Provenance:** Audited local official-paper routing ledgers: _PYQ-ROUTING-PRELIMS-2024-2025.md. **Answer-key rule:** The official 2024-2025 Prelims Set-A keys are present in the repository and CSAT Set-A keys are supplied; even so, no option or answer is recorded or inferred in this integration.

- **Years represented:** 2024, 2025
- **Paper(s):** Prelims GS-I
- **Routed question demands:** 4

Year	Paper	Q	PYQ demand (neutral rendering)	Directive /​ format	Source status	Owner requirement
2024	Prelims GS-I	82	Exercise Mitra Shakti-2023 (joint military exercise)	Objective question; official Set-A key available locally, answer not inferred	Key available locally (official Set-A answer key present); answer not recorded here	Cover the named fact/​concept and its likely statement-level distinctions.
2025	Prelims GS-I	93	Jury to select the 'Gandhi Peace Prize' recipient	Objective question; official Set-A key available locally, answer not inferred	Key available locally (official Set-A answer key present); answer not recorded here	Cover the named fact/​concept and its likely statement-level distinctions.
2025	Prelims GS-I	99	First Kho Kho World Cup	Objective question; official Set-A key available locally, answer not inferred	Key available locally (official Set-A answer key present); answer not recorded here	Cover the named fact/​concept and its likely statement-level distinctions.
2025	Prelims GS-I	100	45th Chess Olympiad and youngest world champion /​Grandmaster records	Objective question; official Set-A key available locally, answer not inferred	Key available locally (official Set-A answer key present); answer not recorded here	Cover the named fact/​concept and its likely statement-level distinctions.

What this owner must now support

- Exercise Mitra Shakti-2023 (joint military exercise)
- Jury to select the 'Gandhi Peace Prize' recipient
- First Kho Kho World Cup
- 45th Chess Olympiad and youngest world champion/Grandmaster records

This block integrates the 2024-2025 examinable demand and paper metadata. It is kept separate from the 2018-2023 block and does not convert an unkeyed/answer-free objective question into a solved answer.

Historical PYQ Integration (2018-2023)

Status: Question-level PYQ demand is integrated into this owner. **Provenance:** Audited local official-paper routing ledgers: _PYQ-ROUTING-PRELIMS-2018-2023.md. **Answer-key rule:** The official 2018-2023 Prelims/CSAT keys are not held locally; no option or answer has been inferred.

- **Years represented:** 2018, 2019, 2021
- **Paper(s):** Prelims GS-I
- **Routed question demands:** 5

Year	Paper	Q	PYQ demand (neutral rendering)	Directive /​ format	Source status	Owner requirement
2018	Prelims GS-I	70	Founders of Hind Mazdoor Sabha labour organisation 1948	Objective question; official key unavailable locally	Routed; key unavailable locally	Cover the named fact/​concept and its likely statement-level distinctions.
2019	Prelims GS-I	2	Land reforms legislation in post-independence India	Objective question; official key unavailable locally	Routed; key unavailable locally	Cover the named fact/​concept and its likely statement-level distinctions.
2021	Prelims GS-I	98	Laureus World Sports Award history and facts	Objective question; official key unavailable locally	Routed; key unavailable locally	Cover the named fact/​concept and its likely statement-level distinctions.
2021	Prelims GS-I	99	Tokyo 2020 Summer Olympics motto and new sports	Objective question; official key unavailable locally	Routed; key unavailable locally	Cover the named fact/​concept and its likely statement-level distinctions.
2021	Prelims GS-I	100	ICC World Test Championship finalist determination criteria	Objective question; official key unavailable locally	Routed; key unavailable locally	Cover the named fact/​concept and its likely statement-level distinctions.

What this owner must now support

- Founders of Hind Mazdoor Sabha labour organisation 1948
- Land reforms legislation in post-independence India
- Laureus World Sports Award history and facts
- Tokyo 2020 Summer Olympics motto and new sports
- ICC World Test Championship finalist determination criteria

The table integrates the examinable demand and paper metadata. It does not turn an unkeyed objective question into a solved answer, and it does not claim that lexical presence alone proves full conceptual sufficiency.

ORIGINAL MAINS 1 - 10 MARKS

Question: Examine why zamindari abolition succeeded while tenancy and ceiling reform largely failed in post-independence India. Answer in about 150 words.

Model thesis: Zamindari abolition succeeded because it targeted a politically weak intermediary class with strong political backing, while tenancy and ceiling reform failed because they required the state to act against the very rural classes on whose support it depended, compounded by poorly recorded oral tenancies and widespread evasion.

Evidence spine:

- Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform.
- Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base.
- The Bhoodan movement, led by Vinoba Bhave and begun at Pochampalli in 1951, could not substitute for structural land reform because much of the donated land was never effectively distributed.

Balance: Distinguish intention from outcome, identify regional or social variation, and avoid treating a formal measure as complete implementation.

Conclusion: Zamindari abolition succeeded because it targeted a politically weak intermediary class with strong political backing, while tenancy and ceiling reform failed because they required the state to act against the very rural classes on whose support it depended, compounded by poorly recorded oral tenancies and widespread evasion.

Demand decoding: The directive **examine** requires a direct position on “Examine why zamindari abolition succeeded while tenancy and ceiling reform largely failed...”, coverage of every clause, chronological-causal analysis, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: For a 10-mark answer, open with a two-sentence thesis; organise three named Acts, events, organisations, regions, primary records or scholarly positions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded conclusion.

Why this earns marks: The answer obeys the directive, distinguishes dates and policy stages, connects evidence to mechanism, recognises regional/social variation and avoids teleology or hero worship.

How to improve this answer: For “Examine why zamindari abolition succeeded while tenancy and ceiling reform largely failed...”, replace the weakest generalisation with one additional named primary/official record or attributed scholarly interpretation and state exactly what it cannot prove.

ORIGINAL MAINS 2 - 10 MARKS

Question: Assess the social consequences of the Green Revolution. Answer in about 150 words.

Model thesis: The Green Revolution secured food self-sufficiency from an initial concentration in Punjab, Haryana and western Uttar Pradesh; a balanced assessment states both Chandra's diffusion-and-scale-neutrality argument and the critics' evidence of unequal access, regional lag and ecological cost, rather than asserting either alone.

Evidence spine:

- The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation.
- Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs.

Balance: Distinguish intention from outcome, identify regional or social variation, and avoid treating a formal measure as complete implementation.

Conclusion: The Green Revolution secured food self-sufficiency from an initial concentration in Punjab, Haryana and western Uttar Pradesh; a balanced assessment states both Chandra's diffusion-and-scale-neutrality argument and the critics' evidence of unequal access, regional lag and ecological cost, rather than asserting either alone.

Demand decoding: The directive **assess** requires a direct position on “Assess the social consequences of the Green Revolution. Answer in about 150 words.”, coverage of every clause, chronological-causal analysis, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: For a 10-mark answer, open with a two-sentence thesis; organise three named Acts, events, organisations, regions, primary records or scholarly positions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded conclusion.

Why this earns marks: The answer obeys the directive, distinguishes dates and policy stages, connects evidence to mechanism, recognises regional/social variation and avoids teleology or hero worship.

How to improve this answer: For “Assess the social consequences of the Green Revolution. Answer in about 150 words.”, replace the weakest generalisation with one additional named primary/official record or attributed scholarly interpretation and state exactly what it cannot prove.

ORIGINAL MAINS 3 - 15 MARKS

Question: Trace the transformation of caste and gender relations in India since 1947. Answer in about 250 words.

Model thesis: Major but incomplete Hindu-law reform for women in 1955-56 and legal abolition of untouchability for Dalits both preceded social change; the resulting law-versus-society gap converted both into political movements, running from the 1970s-90s women's movement to the Ambedkar-to-Mandal caste trajectory, with communalism's parallel revival marking the same period's limits.

Evidence spine:

- The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality.
- A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56.
- Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990.
- Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a sequence of riots.

Balance: Distinguish intention from outcome, identify regional or social variation, and avoid treating a formal measure as complete implementation.

Conclusion: Major but incomplete Hindu-law reform for women in 1955-56 and legal abolition of untouchability for Dalits both preceded social change; the resulting law-versus-society gap converted both into political movements, running from the 1970s-90s women's movement to the Ambedkar-to-Mandal caste trajectory, with communalism's parallel revival marking the same period's limits.

Demand decoding: The directive **trace** requires a direct position on "Trace the transformation of caste and gender relations in India since 1947. Answer in about...", coverage of every clause, chronological-causal analysis, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: For a 15-mark answer, open with a two-sentence thesis; organise five named Acts, events, organisations, regions, primary records or scholarly positions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded conclusion.

Why this earns marks: The answer obeys the directive, distinguishes dates and policy stages, connects evidence to mechanism, recognises regional/social variation and avoids teleology or hero worship.

How to improve this answer: For "Trace the transformation of caste and gender relations in India since 1947. Answer in about...", replace the weakest generalisation with one additional named primary/official record or attributed scholarly interpretation and state exactly what it cannot prove.

ORIGINAL MAINS 4 - 15 MARKS

Question: 'Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy.' Discuss with reference to India's post-independence history. Answer in about 250 words.

Model thesis: Agrarian distress by itself produced remedial legislation or localised revolt, as after 1879; it produced regime change only where it coincided with a crisis of legitimacy, as in 1857's annexation crisis, 1967's post-Nehru succession and devaluation, and 1975-77's discredited mandate, a pattern this topic's own Naxalbari and 1991 evidence corroborates from a different angle.

Evidence spine:

- Agrarian distress produced regime change only when it coincided with a political crisis of legitimacy, as in 1857, 1967 and 1975-77, and produced remedial legislation or localised revolt alone when it did not, as after 1879.

- The Naxalbari uprising of 1967 launched the Naxalite movement, and the CPI(ML) was formed in 1969, following the earlier Telangana agrarian struggle.
- A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals.

Balance: Distinguish intention from outcome, identify regional or social variation, and avoid treating a formal measure as complete implementation.

Conclusion: Agrarian distress by itself produced remedial legislation or localised revolt, as after 1879; it produced regime change only where it coincided with a crisis of legitimacy, as in 1857's annexation crisis, 1967's post-Nehru succession and devaluation, and 1975-77's discredited mandate, a pattern this topic's own Naxalbari and 1991 evidence corroborates from a different angle.

Demand decoding: The directive **discuss** requires a direct position on "Agrarian distress produced regime change only when it coincided with a political crisis of...", coverage of every clause, chronological-causal analysis, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: For a 15-mark answer, open with a two-sentence thesis; organise five named Acts, events, organisations, regions, primary records or scholarly positions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded conclusion.

Why this earns marks: The answer obeys the directive, distinguishes dates and policy stages, connects evidence to mechanism, recognises regional/social variation and avoids teleology or hero worship.

How to improve this answer: For "Agrarian distress produced regime change only when it coincided with a political crisis of...", replace the weakest generalisation with one additional named primary/official record or attributed scholarly interpretation and state exactly what it cannot prove.

ORIGINAL MAINS 5 - 20 MARKS

Question: How did India's economic model evolve from planning to liberalisation? Assess whether 1991 represented a correction or a repudiation of the Nehruvian model. Answer in about 300 words.

Model thesis: Planning built the public-sector commanding heights and growth well above the colonial rate that the Nehruvian model promised, and it was undone by its own licence-permit raj; the 1991 balance-of-payments crisis and the reforms it forced are best read, on the institutional-decay evidence and the self-reliance thread's earlier redefinitions, as a correction of excess dirigisme rather than a repudiation of the model's original goals.

Evidence spine:

- The Industrial Policy Resolutions of 1948 and 1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry.
- Growth of about 4 per cent a year to the mid-1960s far exceeded the colonial rate, but a maze of licences and controls, the 'licence-permit raj', throttled efficiency.
- A balance-of-payments crisis in 1991 forced economic liberalisation under Narasimha Rao and Manmohan Singh, a corrective to the earlier control raj rather than an abandonment of the model's original goals.
- The idea of self-reliance runs continuously from the Swadeshi movement of 1905 through Gandhian khadi, nationalist fiscal demands, Nehruvian capital-goods capacity and licence-era insulation, to food self-reliance from the mid-1960s and finally to post-1991 competitiveness, with its content changing at each stage.
- Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened.

Balance: Distinguish intention from outcome, identify regional or social variation, and avoid treating a formal measure as complete implementation.

Conclusion: Planning built the public-sector commanding heights and growth well above the colonial rate that the Nehruvian model promised, and it was undone by its own licence-permit raj; the 1991 balance-of-payments crisis and the reforms it forced are best read, on the institutional-decay evidence and the self-reliance thread's earlier redefinitions, as a correction of excess dirigisme rather than a repudiation of the model's original goals.

Demand decoding: The directive **assess** requires a direct position on "How did India's economic model evolve from planning to liberalisation? Assess whether 1991...", coverage of every clause, chronological-causal analysis, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: For a 20-mark answer, open with a two-sentence thesis; organise six to eight named Acts, events, organisations, regions, primary records or scholarly positions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded conclusion.

Why this earns marks: The answer obeys the directive, distinguishes dates and policy stages, connects evidence to mechanism, recognises regional/social variation and avoids teleology or hero worship.

How to improve this answer: For "How did India's economic model evolve from planning to liberalisation? Assess whether 1991...", replace the weakest generalisation with one additional named primary/official record or attributed scholarly interpretation and state exactly what it cannot prove.

ORIGINAL MAINS 6 - 20 MARKS

Question: 'Independent India transformed its economy and its politics far more than its social structure.' Critically examine this verdict with reference to land, agriculture, caste, gender and the institutions of the state since 1947. Answer in about 300 words.

Model thesis: The economy moved decisively from planning to liberalisation and politics moved from a Congress consensus to a genuinely federal, multi-party system, while land reform stalled at zamindari abolition, the Green Revolution's benefits stayed contested, and caste, gender and communal relations show law-versus-society gaps that outlasted both the economic and the political transformations, even as democratic institutions endured despite their own documented decay.

Evidence spine:

- The Industrial Policy Resolutions of 1948 and 1956, together with the Mahalanobis-designed Second Plan of 1956, gave the public sector the 'commanding heights' of the economy, especially in heavy industry.
- Zamindari abolition was largely complete by 1956 and made about 20 million superior tenants into owners, succeeding because it targeted a politically weak class with strong political backing behind the reform.
- Tenancy and ceiling legislation largely failed because oral and concealed tenancies were poorly recorded and evasion through benami transfers and family partition was common, since the rural classes targeted were the state's own political base.
- The Green Revolution's high-yielding-variety seed package, introduced from the mid-1960s, was initially concentrated in Punjab, Haryana and western Uttar Pradesh and in wheat cultivation.
- Bipan Chandra argues that the Green Revolution later spread to rice regions and other states, that its technology was broadly scale-neutral, and that early predictions of general class polarisation were overstated, while critics continue to stress unequal access, regional lags and ecological costs.
- The proposed Hindu Code was enacted through the Hindu Marriage Act, 1955, and the Hindu Succession, Hindu Minority and Guardianship, and Hindu Adoptions and Maintenance Acts, 1956. These measures substantially expanded women's rights within Hindu personal law but did not create complete legal or social equality.
- A new women's movement from the 1970s to the 1990s took up dowry, rape and domestic violence, building on the the major but incomplete Hindu-law reforms of 1955-56.
- Untouchability was abolished and reservations extended, and caste became central to politics along a trajectory running from Ambedkar through the Dalit Panthers and the BSP to the Mandal Commission's implementation in 1990.

- Communalism revived from the 1960s and turned endemic after the late 1970s, and is analysed as an ideology rather than merely a sequence of riots.
- A recurring law-versus-society gap runs through this topic: formal legal reform began early for tenants, Dalits and women, social transformation lagged behind, and excluded groups organised politically rather than remaining content with legislation alone.
- Bipan Chandra documents a 'crisis of governability': the decline of Parliament from the late 1960s, the erosion of the Cabinet by a dominant Prime Minister's Office from 1969, defection politics curbed only by the 1985 Anti-Defection Act, and a delay-ridden judiciary and unreformed bureaucracy and police, even as democracy itself endured and deepened.

Balance: Distinguish intention from outcome, identify regional or social variation, and avoid treating a formal measure as complete implementation.

Conclusion: The economy moved decisively from planning to liberalisation and politics moved from a Congress consensus to a genuinely federal, multi-party system, while land reform stalled at zamindari abolition, the Green Revolution's benefits stayed contested, and caste, gender and communal relations show law-versus-society gaps that outlasted both the economic and the political transformations, even as democratic institutions endured despite their own documented decay.

Demand decoding: The directive **critically examine** requires a direct position on "Independent India transformed its economy and its politics far more than its social...", coverage of every clause, chronological-causal analysis, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model status: The solved analysis above is the executable content base. Preserve its exact chronology, named evidence, causal logic, counter-position and qualification.

Executable exam-length answer / compression plan: For a 20-mark answer, open with a two-sentence thesis; organise six to eight named Acts, events, organisations, regions, primary records or scholarly positions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded conclusion.

Why this earns marks: The answer obeys the directive, distinguishes dates and policy stages, connects evidence to mechanism, recognises regional/social variation and avoids teleology or hero worship.

How to improve this answer: For "Independent India transformed its economy and its politics far more than its social...", replace the weakest generalisation with one additional named primary/official record or attributed scholarly interpretation and state exactly what it cannot prove.

OPTIONAL ADVANCED DEPTH - NOT REQUIRED FOR A CORE ANSWER

Mini-timeline

Date	Event
FACT: 1948-56	IPRs; Planning Commission; First Amendment (1951) & Fourth Amendment (1955) enable land reform
FACT: 1956-66	Mahalanobis heavy-industry strategy; mid-1960s BoP crisis and rupee devaluation
FACT: 1967-71	Naxalbari/Srikakulam struggles; CPI(ML) formed (1969)
FACT: 1980s	Rich-farmer movements (Shetkari Sangathana, BKU); rising communal violence; ~6% GDP growth
FACT: 1990	Mandal report implemented; anti-Mandal agitation
FACT: 1991	Balance-of-payments crisis -> liberalisation; end of the dirigiste model

1. Snapshot & core idea

Deeper - thesis: the developmental state delivered growth and democracy but under-delivered on equity.

- FACT: Chandra defends the **Nehruvian development model** as a rational choice for a poor economy - self-reliance, import substitution, a public-sector core, and **growth with equity within a democratic frame**.

- ANALYSIS: Its structural flaw was the **licence-permit-quota raj**: controls (IDRA 1951, MRTP, small-scale reservation) that protected inefficiency, throttled scale and competition, and eroded productivity by the 1980s.
- FACT: The **1991 reforms** are presented **not as surrender** but as a corrective to excessive dirigisme - retaining the goals of growth, self-reliance and poverty removal while changing the instruments.
- ANALYSIS: The deeper argument: **democracy shaped development** - a free press helped avert famines, and popular sovereignty prevented the coercive extraction of surplus from peasants and workers seen in authoritarian industrialisers.

Deeper - social transformation was partial, uneven and politically explosive.

- FACT: **Land reform: zamindari abolition** (backed by the 1st and 4th Amendments) made about 20 million superior tenants owners. The rough fall in tenancy area from 42% to 20-25% cannot be read simply as success because oral tenancy was undercounted and some decline came through eviction. Tenancy/ceiling implementation suffered from "personal cultivation" loopholes, benami transfers, poor records, delay and official collusion; **Bhoodan/Gramdan** could not substitute for structural reform.
- FACT: **Green Revolution debate**: Chandra argues that the strategy secured food self-sufficiency, spread beyond its initial north-western concentration, proved broadly scale-neutral and did not produce the predicted general de-peasantisation. ANALYSIS: Critical scholarship instead stresses unequal access to irrigation/credit, regional lag, labour displacement in some settings and ecological costs. Keep the interpretations separate.
- FACT: **Communalism** is analysed as an ideology, not merely riots. Nehru's phrase "the Indian version of fascism" and Chandra's strong ideological judgement must be attributed; contained in the early years, communalism revived from the 1960s and became more entrenched after the late 1970s.
- FACT: **Caste and gender**: reservations and the **Hindu Code Bill** advanced legal equality; **Dalit assertion** (Ambedkar -> Dalit Panthers -> BSP) and the **Mandal** moment reshaped politics, while the women's movement (1970s-90s) moved from legal reform to dowry, rape and violence - yet the author stresses persistent **implementation gaps and elite capture**.

Deeper - the institutions of governance decayed even as democracy endured.

- FACT: Chandra documents a **"crisis of governability"**: the decline of **Parliament** (disruption from the late 1960s), the erosion of the **Cabinet** by a dominant **PMO (from 1969)**, **defection** politics (curbed only in 1985), and a conservative, delay-ridden **judiciary** and an unreformed, coercive **bureaucracy and police**.
- ANALYSIS: The millennium balance-sheet is **mixed**: the "grand success" is the **survival and deepening of democracy** and a capable state; the "major failure" is **persistent poverty, competitive populism, unsustainable subsidies and weak governance**.

2. Key classification / data

Dimension	Advanced takeaway
FACT: Economic model	Rational for its time; undone by the control raj, corrected (not abandoned) in 1991
FACT: Democracy-development	Free press + sovereignty prevented coercive extraction; averted famines
FACT: Land reform	Zamindari abolished; tenancy/ceiling defeated by evasion + collusion
FACT: Green Revolution	Chandra: food security, diffusion and scale-neutral technology; critics: unequal access, regional/ecological costs
FACT: Communalism	Ideology, not only riots; "Indian version of fascism" is an attributed Nehru/Chandra formulation
FACT: Caste & gender	Legal equality advanced; assertion (Mandal, Dalit, women) reshaped politics
FACT: Institutions	Parliament, Cabinet, judiciary, bureaucracy decayed; democracy still endured

3. Study links

Study link: FACT: The Nehruvian origin of this model -> advanced/32_The-Nehru-Era-Hope-Foreign-Policy-and-Legacy.md. **Study link:** FACT: Mandal, Mandir and Market context -> advanced/37_The-Rajiv-Years-and-Run-up-to-the-Millennium.md. **Study link:** ANALYSIS: Land reform & Green Revolution mechanics -> Economy/advanced/11_Land-Reforms-Green-Revolution-and-Cropping-Systems.md. **Study link:** ANALYSIS: Poverty, inequality and inclusive growth -> Economy/advanced/23_Poverty-Inequality-Social-Sector-and-Inclusive-Growth.md.

4. Must-Know Facts (Prelims)

- FACT: The **First (1951) and Fourth (1955) Amendments** protected land-reform laws from litigation.
- FACT: One rough estimate puts tenancy area at **~42% (1950-51)** and **~20-25%** by the early 1960s; the source warns that oral tenancy made the data highly unreliable and that eviction contributed to the decline.
- FACT: **Naxalbari (1967)** was in Darjeeling district; **CPI(ML)** was formed in **1969**; the **Srikakulam** struggle followed.
- FACT: **Sharad Joshi's Shetkari Sangathana (Nasik, 1980)** and **Mahendra Singh Tikait's BKU (Sisauli, 1986)** led the rich-farmer movements.
- FACT: Communal riots rose sharply from the late 1950s; the **National Integration Council** was set up under Nehru.
- FACT: The **Mandal report** faced anti-reservation agitation in **1990**; Chandra criticises its data base and the politicisation of reservations.

5. UPSC Traps

MEMORY: Trap: Chandra frames **1991 as a correction, not a repudiation** - the goals (growth, self-reliance, poverty removal) stayed; the instruments changed.

- **WRONG:** The Nehruvian model failed from the start. -> It **delivered growth and capacity**; the **control raj** was its later drag.
- **WRONG:** Land reform uniformly failed. -> **Zamindari abolition succeeded**; tenancy/ceiling reform failed.
- **WRONG:** Communalism is essentially about riots. -> Chandra treats it as an **ideology**, with violence as the symptom.
- **WRONG:** The Green Revolution's distributional verdict is settled. -> Chandra rejects early predictions of general polarisation and stresses diffusion/small-farmer viability; critics document unequal assets, regional gaps and environmental damage.
- **WRONG:** Institutional decay meant democracy collapsed. -> Institutions decayed **yet democracy survived and deepened**.

6. CURRENT: Current link

- **ANALYSIS: Farm policy, reservation, and state capacity.** Agrarian distress, OBC/Dalit politics, women's rights and governance reform all rest on this post-1947 structural history. (*Escalate to CURRENT: when pegged to a verified news item.*)

7. Mains angles

- **ANALYSIS: GS-1:** "The developmental state delivered growth and democracy but under-delivered on equity." Critically examine.
- **ANALYSIS: GS-1:** "Zamindari abolition succeeded; tenancy and ceiling reform failed." Analyse the causes.
- **ANALYSIS: GS-1:** Assess the social contradictions unleashed by the Green Revolution.
- **ANALYSIS: GS-1:** "Communalism is an ideology, not merely a law-and-order problem." Discuss with post-1947 evidence.

CONSOLIDATED REGISTER NOTES

COMPLETE TOPIC ASCII MASTER FLOW DIAGRAM

ASCII MASTER FLOW - PANEL 1/12: The economic model's rise and break, 1948-91

IPR 1948/1956 + MAHALANOBIS PLAN -> public sector "commanding heights"
GROWTH -> about 4% a year to the mid-1960s, but LICENCE-PERMIT RAJ throttles it
1991 -> balance-of-payments crisis forces LIBERALISATION (Rao-Manmohan Singh)
READING -> a CORRECTION of excess dirigisme, not a repudiation of the model
MUST REMEMBER: The synthesis runs from the 1948/1956 Industrial Policy Resolutions, Planning Commission and First Plan, zamindari abolition and Bhoodan, the mid-1960s Green Revolution, Naxalbari (1967) and CPI(ML) (1969), farmers' movements at Nasik (1980) and Sisauli (1986), Mandal implementation (1990) and the 1991 market turn.

ASCII MASTER FLOW - PANEL 2/12: Land reform disaggregated: zamindari vs tenancy vs ceiling

COMPONENT	OUTCOME	WHY
ZAMINDARI	LARGELY SUCCEEDED	politically weak class, clear target
TENANCY	LARGELY FAILED	oral tenancies poorly recorded, evasion
CEILING	LARGELY FAILED	targeted the state's own political base

ASCII MASTER FLOW - PANEL 3/12: Bhoodan: gesture, not structural reform

MOVEMENT -> Bhoodan, led by Vinoba Bhave
BEGAN -> Pochampalli, 1951
METHOD -> voluntary land donation
LIMIT -> much donated land never effectively distributed; no structural reform

ASCII MASTER FLOW - PANEL 4/12: The Green Revolution's contested verdict

CHANDRA'S READING -> diffusion to rice regions; scale-neutral technology
CRITICS' READING -> unequal access, regional lag, ecological cost
INITIAL CONCENTRATION -> Punjab, Haryana, western UP; wheat; mid-1960s
RULE -> state BOTH readings; do not assert either alone as settled

ASCII MASTER FLOW - PANEL 5/12: Agrarian struggle: three moments, three classes

TELANGANA (1946-47) -> landless and tenant struggle, at the moment of transfer
NAXALBARI (1967) -> launches Naxalite movement; CPI(ML) formed 1969
1980s FARMERS' MOVEMENTS -> Nasik (1980), Sisauli (1986); market demands
CLASS SHIFT -> from landless struggle to surplus-farmer market demands

ASCII MASTER FLOW - PANEL 6/12: Law-versus-society: caste, gender and communalism

CASTE -> untouchability abolished; Ambedkar to Dalit Panthers, BSP, Mandal 1990
GENDER -> Hindu Code Bill (four Acts); women's movement, 1970s-90s
COMMUNALISM -> revived from the 1960s; endemic after the late 1970s; an ideology
COMMON PATTERN -> formal rights reform begins early; scope and social transformation lag

ASCII MASTER FLOW - PANEL 7/12: The synthesis engine: state capacity to political organisation

STATE CAPACITY inherited from the colonial order

- > deployed for planning and heavy industry (achieved)
- > withheld from rural property (tenancy/ceiling reform fails)
- > technology substituted for reform in agriculture (Green Revolution)
- > formal rights reform begins; scope/enforcement lag; excluded groups organise

ASCII MASTER FLOW - PANEL 8/12: Thread 1: self-reliance's changing content, 1905-1991

SWADESHI (1905) -> boycott + indigenous enterprise

GANDHIAN (1920-47) -> khadi, moral self-reliance

PLANNING (1948-66) -> capital-goods capacity, IPR/Mahalanobis

1991 ONWARD -> self-reliance redefined as competitiveness

ASCII MASTER FLOW - PANEL 9/12: Thread 2: agrarian distress and regime change

MOMENT	DISTRESS	OUTCOME
1857	talukdar dispossession	Revolt; taluqdars later restored
1967	two harvest failures	Congress loses eight states
1975-77	drought, oil shock	JP movement, Emergency, 1977 defeat

ASCII MASTER FLOW - PANEL 10/12: Institutions in decay, democracy enduring

PARLIAMENT -> declining role from the late 1960s

CABINET -> eroded by a dominant PMO, from 1969

DEFECTION -> routine floor-crossing, curbed only by the 1985 Anti-Defection Act

YET -> democracy itself survived and deepened through this institutional decay

CLOSE DISTINCTION: Land reform must be disaggregated; Green Revolution output gains do not settle distributional or ecological debate; and the proposed Hindu Code became the Hindu Marriage Act 1955 plus three 1956 Acts, which expanded women's rights within Hindu personal law but did not create complete legal or social equality.

ASCII MASTER FLOW - PANEL 11/12: PYQ reconciliation: 9 routed demands, three categories

9 ROUTED PRELIMS DEMANDS in this owner's local ledgers

CATEGORY 1 -> 7 current-affairs routing artefacts (NOT history; not answered)

CATEGORY 2 -> 1 covered history demand: land-reforms legislation, 2019

CATEGORY 3 -> 1 bounded gap: Hind Mazdoor Sabha founders, 1948, unattested

EVIDENCE LIMIT: Plan and land records, regional agrarian evidence, attributed Chandra and critical Green Revolution readings, India Code statutes and movement histories must support a graded verdict: state capacity transformed production and representation more consistently than property, equality or implementation.

ASCII MASTER FLOW - PANEL 12/12: Verdict scaffolds: three graded readings

MODEL VERDICT -> planning built the economy India needed; 1991 corrected it

LAND VERDICT -> reform worked as far as the state's political base allowed

SYNTHESIS VERDICT -> economy and politics transformed; social hierarchy least

USE -> pick the verdict matching the question's specific demand
