

ASCII MASTER FLOW – PANEL 1/9: Realist system map

NYĀYA: valid knowledge and argument VAIŚEṢIKA: inventory of reality

ASCII MASTER FLOW – PANEL 2/9: Sixteen Nyāya topics versus seven Vaiśeṣika categories

NYĀYA 16 = topics of inquiry, proof and debate

means of valid knowledge (pramāṇa) | prameya | saṃśaya | prayojana | dr̥ṣṭānta | established conclusion (siddhānta)

avayava | hypothetical reasoning (tarka) | nirṇaya | vāda | jalpa | vitaṇḍā

hetvābhāsa | chala | jāti | nigrahasthāna

PRAMEYA 12: self -> body/senses/objects -> cognition/mind -> activity/defects
-> rebirth/fruit/suffering -> release

VAIŚEṢIKA 7 = kinds of being: substance (dravya) | quality (guṇa) | motion or action (karma)
viśeṣa | inherence (samavāya) | absence (abhāva)

DO NOT FLATTEN: Nyāya inquiry map != Vaiśeṣika ontology

ASCII MASTER FLOW – PANEL 3/9: Seven categories (padārthas)

1. **DRĀVYA** (द्रव्य), substance, is namable and knowable

1 **DRAVYA**: earth, water, fire, air, ākāśa, time, space, self, mind

2 **QUALITY** (guṇa): quality; depends on substance, does not itself possess quality/action

3 **ACTION AND MORAL CONSEQUENCE** (karma): motion/action in a substance

4 **SĀMĀNYA**: real universal, one-in-many

5 **VIŚEṢA**: ultimate particularity individuating eternal atoms and selves

6 **INHERENCE** (samavāya): eternal inherence; whole-parts, universal-particular, quality-substance

7 **ABSENCE** (abhāva): absence – prior, posterior, mutual, absolute

CAUTION: inherence (samavāya) is not conjunction (saṃyoga), which is separable.

ASCII MASTER FLOW – PANEL 4/9: Four means of valid knowledge (pramāṇas) and perception

MEANS OF VALID KNOWLEDGE (pramāṇas)

- +> perception (pratyakṣa): sense-object contact -> nirvikalpaka -> savikalpaka recognition
- +> inference (anumāna): sign (liṅga/hetu) through invariable concomitance (vyāpti) to property to be proved (sādhya)
- +> comparison (upamāna): knowledge through similarity and prior description
- +> verbal testimony (śabda): trustworthy utterance, ultimately āpta testimony

|

PERCEPTION TYPES: external/internal | ordinary/alaukika

alaukika: sāmānyalakṣaṇa, jñānalakṣaṇa, yogaja

ERROR is mislocation of a real qualifier: misplacement theory of error (anyathākhyāti).

verbal testimony (śabda) sentence: ākāṅkṣā + yogyatā + sannidhi/āsatti + tātparya

absence: locus (anuyogin) qualified by absent counterpositive (pratiyogin)

Nyāya knows absence through perception/inference, not separate non-cognition (anupalabdhi)

ASCII MASTER FLOW – PANEL 5/9: Inference engine

SVĀRTHĀNUMĀNA: inference for oneself | PARĀRTHĀNUMĀNA: demonstrated to another

five members:

1 pratijñā: hill has fire

2 reason (hetu): because it has smoke

3 udāharaṇa: wherever smoke, fire – as kitchen

4 upanaya: hill has such smoke

5 nigamana: therefore hill has fire

|

pakṣadharmatā + invariable concomitance (vyāpti) + uncontradicted application -> conclusion

HETVĀBHĀSA: savyabhicāra, viruddha, satpratipakṣa, asiddha, bādhita.

purpose: svārtha | parārtha

direction: pūrvavat | śeṣavat | sāmānyatodṛṣṭa

concomitance: kevalānvayi | kevalavyatireki | anvayavyatireki

ASCII MASTER FLOW – PANEL 6/9: Causation and atomism

NON-EXISTENCE OF THE EFFECT BEFORE PRODUCTION (asatkāryavāda) / NEW PRODUCTION (ārambhavāda):

effect is a new beginning, not pre-existent as effect

causes: samavāyi (inherent) | asamavāyi (non-inherent) | nimitta (efficient)

|

earth/water/fire/air 2 atoms (paramāṇu) -> imperceptible dyad; 3 dyads -> perceptible triad ->
gross composite

|

pralaya: composites dissolve; eternal atoms, selves, space, time remain

śṛṣṭi: Lord (īśvara) activates atoms according to unseen causal force (adṛṣṭa)/action and moral
consequence (karma)

TRAP: God orders atoms; God is not the material cause and atoms are not created ex nihilo.

cause = unconditional + invariable antecedent (ananyathāsiddha)

exclude remote, accidental, co-effect and redundant antecedents (anyathāsiddha)

ASCII MASTER FLOW – PANEL 7/9: Self, God and liberation

ENDURING SELF (Ātman): eternal, many, all pervasive substrate of cognition, desire and volition

SENSORY MIND (manas): atomic inner sense linking self to one cognition at a time

|

LORD (īśvara): eternal omniscient efficient cause; author/teacher of Veda;
coordinates atoms and karmic deserts without abolishing individual agency

|

true knowledge -> doṣa removed -> pravṛtti ceases -> action and moral consequence (karma)
exhausted -> release (apavarga)

release (apavarga) = complete cessation of pain; classical Nyāya does not define it as
Brahman-union.

six self-marks: desire | aversion | effort | pleasure | pain | cognition

Kaṇāda does not foreground creator God unambiguously; later synthesis is explicit

ASCII MASTER FLOW – PANEL 8/9: Proof, objection and comparison

UDAYANA ROUTES: kāryāt (effect) | āyogjanāt (combination) | dhṛtyādeḥ (support)

padāt (word-use) | pratyayataḥ (trust) | śruteḥ (Veda) | vākyāt (sentences)

saṃkhyāviśeṣāt (number) | adṛṣṭāt (moral order)

|

OBJECTION: atoms + action and moral consequence (karma) may make God redundant; bodies expose unequal suffering

REPLY: unconscious atoms/unseen causal force (adṛṣṭa) cannot intelligently initiate and allocate order

|

SĀMḲHYA: pre-existence of the effect in the cause (satkāryavāda), primordial material nature (prakṛti) material cause | NYĀYA: new effect from atoms

BUDDHISM: momentary process | NYĀYA: enduring substances and selves.

YOGA LORD (īśvara): special conscious witness (puruṣa) + meditative support

NYĀYA LORD (īśvara): inferred arranger, efficient cause and karmic governor
same name != same proof or systematic function

ASCTI MASTER FLOW – PANEL 9/9: PYQ answer spine

DEFINE two system synthesis -> distinguish Nyāya 16 inquiry topics from Vaiśeṣika 7 ontological categories

- > four means of valid knowledge (pramāṇas) -> perception stages -> five-member inference
- > misplacement theory of error (anyathākhyāti) -> self/sensory mind (manas) -> Lord (īśvara) proofs and objection
- > new production (ārambhavāda) + three causes -> atomistic creation cycle
- > release (apavarga) -> compare Sāṃkhya/Buddhism -> qualified verdict

|

VERDICT: the system gains explanatory integration from realism and logical method;
its pressure points are inherence, the leap from order to God, and austere liberation.
