ADVANCED OBJECTION

- postulation, non-apprehension and tradition to its three accepted means of valid knowledge (pramāṇas).
- This economy creates a burden: imperceptible Primordial material nature (prakṛti) and Conscious witness (puruṣa) cannot simply be asserted.
- Samanyato-drsta inference must reach entities never presented as ordinary sense-objects.
- Carvaka attacks the unobserved universal relation, while Nyaya grants inference but proposes atoms and Lord (īśvara) as a more economical explanation.

COMPARATIVE NUANCE

- Sāṃkhya replies that material continuity, guṇa-patterns and the objectifiability of
- experience jointly require one material root and a distinct witness.
- Empirical cognition occurs through the inner instrument.
- Sensory mind (manas) coordinates, ego-maker (ahaṃkāra) appropriates and determinative intellect (buddhi) determines.
