

ASCII MASTER FLOW – PANEL 1/9: Textual lineage and Vedic duty

JAIMINI -> SABARA -> KUMARILA / PRABHAKARA

Purva-Mimamsa owns duty, injunction and ritual interpretation

Vedanta owns the Brahman-centred Upanisadic inquiry

Vedic duty (dharma) is known through injunction (codanā), not perception

prescriptive sentence -> impelling force (bhāvanā) -> ritual action

-> unseen ritual potency (apūrva) -> delayed result

ASCII MASTER FLOW – PANEL 2/9: Validity and knowledge sources

INTRINSIC VALIDITY (SVATAḤ PRĀMĀNYA)

cognition presents itself as true unless a later defeater establishes error

Bhatta accepts six sources; Prabhakara does not treat non-cognition independently

Nyaya contrast -> external validation (parataḥ-prāmānya)

regress pressure supports first-trust, but correction still requires defeat

ASCII MASTER FLOW – PANEL 3/9: Perception, comparison and testimony

INDETERMINATE PERCEPTION → DETERMINATE PERCEPTION

comparison: present gavaya resembles remembered absent cow

Nyaya contrast: word-reference learning is not the Mimamsa definition

personal testimony depends on a speaker; Vedic testimony is impersonal

testimony may state a fact or enjoin an action

ASCII MASTER FLOW – PANEL 4/9: Postulation and non-cognition

POSTULATION (ARTHAPATTI): EXPLANATORY FACT REQUIRED BY OTHERWISE CONFLICTING FACTS

Devadatta is stout + does not eat by day -> he eats at night

perceived-fact postulation differs from heard-sentence postulation

NON-COGNITION (ANUPALABDHI): KNOWLEDGE OF AN ELIGIBLE ABSENCE

empty floor is seen under conditions in which the pot would have been seen

trap: postulation is not loose guessing; non-cognition is not simple inattention

ASCII MASTER FLOW – PANEL 5/9: Self-awareness and error

PRABHAKARA: THREEFOLD AWARENESS (TRIPUṬI-SAMVIT)

one cognition discloses knower, known and knowing together

BHATTA: KNOWNNESS (JÑĀTATĀ) REVEALS THAT COGNITION OCCURRED

error -> non-discrimination theory versus contrary-cognition theory

both avoid an infinite second-cognition regress by different strategies

ASCII MASTER FLOW – PANEL 6/9: Word and sentence meaning

SENTENCE UNITY NEEDS EXPECTANCY + COMPATIBILITY + PROXIMITY

designation-then-connection: words first denote, then meanings combine

connected-designation: words directly present meanings already related

word universal realism answers Buddhist meaning-through-exclusion

Vedic functions: injunction, prohibition, mantra, name, explanatory praise

semantic theory protects action-guiding scripture without an original speaker

ASCII MASTER FLOW – PANEL 7/9: Vedic authorlessness and God

VEDIC AUTHORLESSNESS (APARUṢEYATVA) BLOCKS HUMAN ERROR AT THE SOURCE

eternity of word supports an uncreated relation between word and meaning

Nyaya grounds scripture in a trustworthy divine speaker; Mimamsa does not

God is unnecessary for Vedic authority, ritual efficacy or karmic distribution

pressure: removing an author secures autonomy but complicates semantic intention

ASCII MASTER FLOW – PANEL 8/9: Self, liberation and criticism

MANY ENDURING SELVES SUPPORT MEMORY, AGENCY, DESERT AND REBIRTH

cognition is episodic; self persists across body, senses and action

liberation = end of new merit/demerit, embodiment and painful experience

strength: sophisticated epistemology, semantics and non-theistic normativity

Buddhist and Carvaka objections target self, universals and non-perceptual claims

ASCII MASTER FLOW – PANEL 9/9: PYQ answer synthesis

IDENTITY BHATT / PRASHAKARA BEFORE WRITING

state doctrine -> give canonical example -> contrast Nyaya -> assess residual issue

link intrinsic validity to postulation, non-cognition and Vedic authority

use exact terminology only after the English concept

verdict: powerful theory of knowledge and duty, contested ritual metaphysics
