EMOTIONAL INTELLIGENCE IN ADMINISTRATION

THREE EI MODELS: ABILITY → FOUR-BRANCH ABILITY MODEL: ASCENDING → GOLEMAN'S FIVE COMPONENTS MAPPED → EI'S DARK SIDE: ETHICAL → IQ VERSUS EQ: JOINT → DC VIJAY CASE STUDY

Read the thick cyan rail from Stage 00 to the final core synthesis. Each card uses a concept-appropriate structure; the grey E card is optional enrichment only and never repairs missing core content.

Approval: FALSE • Pending user review • source generation g1 and all prior artefacts unchanged

00

STAGE 00 THREE EI MODELS: ABILITY, MIXED AND TRAIT

THREE EI MODELS | ABILITY, MIXED AND TRAIT | CENTRAL FOCUS | 1. THREE EI MODELS | [1] ABILITY MODEL (MAYER-SALOVEY 1997) | EI AS COGNITIVE ABILITY TESTED BY PERFORMANCE. | [2] MIXED MODEL (GOLEMAN 1995/1998) | EI AS FIVE WORKPLACE COMPETENCIES BLENDING ABILITY AND PERSONALITY.

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
CENTRAL FOCUS	[3] Trait model (Bar-On EQ-i 1997): EI as self-perceived competencies measured by self-report.	[7] Advanced answers distinguish models to show conceptual precision.
1. Three EI models: ability, mixed and trait	[4] Later performance tests such as MSCEIT operationalise the ability-model approach.	[8] Confusing models or claiming they measure the same construct is a common exam trap.
[1] Ability model (Mayer-Salovey 1997): EI as cognitive ability tested by performance.	[5] The three models differ in theory, method and predictive validity.	VERDICT → Name the specific model you are using before applying it to a scenario.
[2] Mixed model (Goleman 1995/1998): EI as five workplace competences blending ability and personality.	[6] UPSC GS-IV primarily tests Goleman's five components in applied scenarios.	ANSWER USE → Open any EI definition or comparison answer by distinguishing the three models.

CORE CLAIM
- CENTRAL FOCUS
- 1. Three EI models: ability, mixed and trait
- [1] Ability model (Mayer-Salovey 1997): EI as cognitive ability tested by performance.
- [2] Mixed model (Goleman 1995/1998): EI as five workplace competences blending ability and personality.

MECHANISM
- [3] Trait model (Bar-On EQ-i 1997): EI as self-perceived competencies measured by self-report.
- [4] Later performance tests such as MSCEIT operationalise the ability-model approach.
- [5] The three models differ in theory, method and predictive validity.
- [6] UPSC GS-IV primarily tests Goleman's five components in applied scenarios.

CONSEQUENCE / LIMIT
- [7] Advanced answers distinguish models to show conceptual precision.
- [8] Confusing models or claiming they measure the same construct is a common exam trap.
- VERDICT → Name the specific model you are using before applying it to a scenario.
- ANSWER USE → Open any EI definition or comparison answer by distinguishing the three models.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Name the specific model you are using before applying it to a scenario.

01

STAGE 01 FOUR-BRANCH ABILITY MODEL: ASCENDING HIERARCHY

FOUR-BRANCH ABILITY MODEL | ASCENDING HIERARCHY | CENTRAL FOCUS | 2. FOUR-BRANCH ABILITY MODEL | [1] BRANCH 1 | PERCEIVING EMOTION — RECOGNISING EMOTIONAL CUES IN SELF AND | [2] BRANCH 2 | USING EMOTION — CHANNELLING EMOTION TO FACILITATE THOUGHT AND

CENTRAL FOCUS

2. Four-branch ability model: ascending hierarchy → [1] Branch 1: Perceiving emotion — recognising emotional cues in self and others. → [2] Branch 2: Using emotion — channelling emotion to facilitate thought and creativity.

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
• CENTRAL FOCUS	• [3] Branch 3: Understanding emotion — grasping emotional complexity and transitions.	• [7] The DC Vijay case tests all four branches in a single scenario.
• 2. Four-branch ability model: ascending hierarchy	• [4] Branch 4: Managing emotion — regulating emotion in self and others toward goals.	• [8] Ability-model decomposition earns advanced marks in case-study answers.
• [1] Branch 1: Perceiving emotion — recognising emotional cues in self and others.	• [5] The four branches form an ascending hierarchy of cognitive complexity.	• VERDICT → Use the four-branch decomposition to structure any advanced EI case-study analysis.
• [2] Branch 2: Using emotion — channelling emotion to facilitate thought and creativity.	• [6] Perceiving is the foundational skill; managing is the most advanced.	• ANSWER USE → Apply to disaster-leadership and crisis-of-conscience case studies.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Use the four-branch decomposition to structure any advanced EI case-study analysis.

02

STAGE 02 GOLEMAN'S FIVE COMPONENTS MAPPED TO ADMINISTRATION

GOLEMAN'S FIVE COMPONENTS MAPPED TO ADMINISTRATION | CENTRAL FOCUS | 5. GOLEMAN'S FIVE COMPONENTS MAPPED TO ADMINISTRATION | [1] SELF-AWARENESS | RECOGNISING OWN BIAS, STRESS OR FATIGUE BEFORE DECIDING. | [2] SELF-REGULATION | COMPOSURE UNDER PROVOCATION, CRISIS OR MEDIA SCRUTINY. | [3] MOTIVATION

CENTRAL FOCUS

3. Goleman's five components mapped to administration → [1] Self-awareness: recognising own bias, stress or fatigue before deciding. → [2] Self-regulation: composure under provocation, crisis or media scrutiny.

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
• CENTRAL FOCUS	• [3] Motivation: sustained public-service drive beyond external incentive.	• [7] GS-IV questions test components in combination, not isolation.
• 5. Goleman's five components mapped to administration	• [4] Empathy: reading citizens' or colleagues' unstated needs.	• [8] The five components are the default framework for most EI answers.
• [1] Self-awareness: recognising own bias, stress or fatigue before deciding.	• [5] Social skill: managing teams, stakeholders and conflict resolution.	• VERDICT → Name the specific component engaged at each decision point in your answer.
• [2] Self-regulation: composure under provocation, crisis or media scrutiny.	• [6] Each component maps to a specific administrative behaviour.	• ANSWER USE → Structure any Goleman-based EI answer by naming components before describing behaviour.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Name the specific component engaged at each decision point in your answer.

03

STAGE 03 EI'S DARK SIDE: ETHICAL NEUTRALITY AND MANIPULATION RISK

EI'S DARK SIDE | ETHICAL NEUTRALITY AND MANIPULATION RISK | CENTRAL FOCUS | 4. EI'S DARK SIDE | [1] EI IS A CAPACITY, NOT A MORAL COMPASS | [2] HIGH SOCIAL SKILL PLUS INTEGRITY PRODUCES EFFECTIVE CITIZEN | [3] HIGH SOCIAL SKILL MINUS INTEGRITY PRODUCES SOPHISTICATED MANIPULATION. | [4] EXAMPLE

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
• CENTRAL FOCUS	• [3] High social skill minus integrity produces sophisticated manipulation.	• [7] The dark side is not hypothetical — it is a genuine administrative risk.
• 4. EI's dark side: ethical neutrality and manipulation risk	• [4] Example: empathic reading used to extract a bribe by exploiting urgency.	• [8] Joint necessity: EI and ethics are both required; neither alone suffices.
• [1] EI is a capacity, not a moral compass — it is ethically neutral.	• [5] EI training without ethics framework can enable more effective misconduct.	• VERDICT → Always flag EI's ethical boundary when discussing its benefits.
• [2] High social skill plus integrity produces effective citizen service.	• [6] Integrity, probity and audit must be independently assessed.	• ANSWER USE → Include the dark-side qualification in any answer that claims EI improves governance.

MECHANISM / VERDICT — VERDICT → Always flag EI's ethical boundary when discussing its benefits.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: ANSWER USE → Include the dark-side qualification in any answer that claims EI improves governance.

04

STAGE 04 IQ VERSUS EQ: JOINT NECESSITY, NOT SUBSTITUTION

IQ VERSUS EQ | JOINT NECESSITY, NOT SUBSTITUTION | CENTRAL FOCUS | 5. IQ VERSUS EQ | [1] IQ PREDICTS TASK-COMPETENCE AND TECHNICAL PROBLEM-SOLVING ABILITY. | [2] EQ PREDICTS HOW WELL COMPETENCE IS DEPLOYED UNDER | [3] TWO OFFICERS WITH IDENTICAL IQ CAN PRODUCE DIVERGENT | [4] THE DIVERGENCE IS EXPLAINED BY EQ

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
• CENTRAL FOCUS	• [3] Two officers with identical IQ can produce divergent crisis outcomes.	• [7] An empathetic but legally uninformed officer can still err.
• 5. IQ versus EQ: joint necessity, not substitution	• [4] The divergence is explained by EQ: regulation, empathy and social skill.	• [8] The defensible position: IQ and EQ are jointly necessary.
• [1] IQ predicts task-competence and technical problem-solving ability.	• [5] EQ matters disproportionately at the point of execution under stress.	• VERDICT → EQ amplifies competence under stress; it does not replace technical knowledge.
• [2] EQ predicts how well competence is deployed under interpersonal pressure.	• [6] EQ cannot substitute for technical or legal competence.	• ANSWER USE → Use to resolve any IQ-vs-EQ or cognitive-vs-emotional ability question.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → EQ amplifies competence under stress; it does not replace technical knowledge.

05

STAGE 05 DC VIJAY CASE STUDY: STRUCTURED EI DECOMPOSITION

DC VIJAY CASE STUDY | STRUCTURED EI DECOMPOSITION | CENTRAL FOCUS | 6. DC VIJAY CASE STUDY | [1] SCENARIO | DC LEADS DISASTER RELIEF; MOTHER DIES; FAMILY DEMANDS PRESENCE. | [2] PERCEIVING | ACKNOWLEDGE GRIEF WITHOUT DENIAL — A LEGITIMATE EMOTIONAL REALITY.

CENTRAL FOCUS

6. DC Vijay case study: structured EI decomposition → [1] Scenario: DC leads disaster relief; mother dies; family demands presence. → [2] Perceiving: acknowledge grief without denial — a legitimate emotional reality.

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
• CENTRAL FOCUS	• [3] Using: channel urgency of grief productively into sustained relief effort.	• [7] Institutional complement: pre-designated succession and family-emergency SOP.
• 6. DC Vijay case study: structured EI decomposition	• [4] Understanding: grasp competing claims of family, victims and subordinates.	• [8] The case tests EI through institutional process, not raw willpower alone.
• [1] Scenario: DC leads disaster relief; mother dies; family demands presence.	• [5] Managing: structured decision — designate deputy, communicate, document.	• VERDICT → Decompose the dilemma using named EI branches; propose a structured, documented resolution.
• [2] Perceiving: acknowledge grief without denial — a legitimate emotional reality.	• [6] The correct answer is structured transparent balancing, not single heroism.	• ANSWER USE → Apply to any disaster-leadership or duty-versus-family case study.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Decompose the dilemma using named EI branches; propose a structured, documented resolution.

06

STAGE 06 EMOTIONAL LABOUR: COST, RECOGNITION AND INSTITUTIONAL RESPONSE

EMOTIONAL LABOUR | COST, RECOGNITION AND INSTITUTIONAL RESPONSE | CENTRAL FOCUS | 7. EMOTIONAL LABOUR | [1] EMOTIONAL LABOUR (HOCHSCHILD 1983): | MANAGED DISPLAY OF ROLE-APPROPRIATE EMOTION. | [2] CITIZEN-FACING ROLES REQUIRE SUSTAINED COURTESY DESPITE PROVOCATION. | [3] EMOTIONAL LABOUR IS INVISIBLE IN TRADITIONAL WORKLOAD ASSESSMENTS.

CENTRAL FOCUS → 7. Emotional labour: cost, recognition and institutional response → [1] Emotional labour (Hochschild 1983): managed display of role-appropriate emotion. → [2] Citizen-facing roles require sustained courtesy despite provocation. → [3] Emotional labour is invisible in traditional workload assessments.

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
• CENTRAL FOCUS	• [3] Emotional labour is invisible in traditional workload assessments.	• [7] Overemphasis on staff welfare must not become excuse for poor service.
• 7. Emotional labour: cost, recognition and institutional response	• [4] Sustained emotional labour carries burnout risk regardless of natural empathy.	• [8] Emotional labour is a hidden cost of citizen-centric governance.
• [1] Emotional labour (Hochschild 1983): managed display of role-appropriate emotion.	• [5] Institutional responses: rotation, debrief, staff grievance channels, team distribution.	• VERDICT → Acknowledge emotional labour as real cost and prescribe institutional support alongside duty.
• [2] Citizen-facing roles require sustained courtesy despite provocation.	• [6] Staff-welfare support sustains capacity; it does not reduce service obligations.	• ANSWER USE → Use in any question about frontline service quality, officer welfare or burnout.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Acknowledge emotional labour as real cost and prescribe institutional support alongside duty.

07

STAGE 07 MORAL INTUITION VERSUS MORAL REASONING: EI AS BRIDGE

MORAL INTUITION VERSUS MORAL REASONING | EI AS BRIDGE | CENTRAL FOCUS | 8. MORAL INTUITION VERSUS MORAL REASONING | [1] MORAL INTUITION | FAST, AFFECT-DRIVEN SENSE THAT SOMETHING FEELS WRONG. | [2] DRAWS ON EI'S EMPATHY (SENSING OTHERS' DISTRESS) AND | [3] MORAL REASONING

CENTRAL FOCUS → 8. Moral intuition versus moral reasoning: EI as bridge → [1] Moral intuition: fast, affect-driven sense that something feels wrong. → [2] Draws on EI's empathy (sensing others' distress) and self-awareness. → [3] Moral reasoning: slow, deliberate application of ethical theory or rule.

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
• CENTRAL FOCUS	• [3] Moral reasoning: slow, deliberate application of ethical theory or rule.	• [7] Reasoning without intuition can miss human impact of technically correct decisions.
• 8. Moral intuition versus moral reasoning: EI as bridge	• [4] Self-awareness detects when intuitive reaction may be bias, not signal.	• [8] EI mediates between the two by providing the self-awareness check.
• [1] Moral intuition: fast, affect-driven sense that something feels wrong.	• [5] The regulatory bridge: intuition triggers reasoning; reasoning tests intuition.	• VERDICT → Intuition is the trigger; reasoning is the test; self-awareness is the bridge.
• [2] Draws on EI's empathy (sensing others' distress) and self-awareness.	• [6] Neither alone is sufficient: intuition without reasoning can be prejudice.	• ANSWER USE → Use to answer any moral intuition vs moral reasoning or EQ-linked ethical-judgment question.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Intuition is the trigger; reasoning is the test; self-awareness is the bridge.

08

STAGE 08 EMPATHY AND WISDOM: PREVENTING TRAVESTY OF JUSTICE

EMPATHY AND WISDOM | PREVENTING TRAVESTY OF JUSTICE | CENTRAL FOCUS | 9. EMPATHY AND WISDOM | [1] WISDOM (PHRONESIS): | PRACTICAL JUDGMENT APPLYING RULES WITH CONTEXTUAL SENSITIVITY. | [2] TRAVESTY OF JUSTICE | LITERAL COMPLIANCE DEFEATING THE RULE'S PURPOSE.

CENTRAL FOCUS → 9. Empathy and wisdom: preventing travesty of justice → [1] Wisdom (phronesis): practical judgment applying rules with contextual sensitivity. → [2] Travesty of justice: literal compliance defeating the rule's purpose. → [3] Empathy triggers wisdom by alerting the officer to human cost of mechanical application.

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
• CENTRAL FOCUS	• [3] Empathy triggers wisdom by alerting the officer to human cost of mechanical application.	• [7] The safeguard is transparent reasoning and appeal mechanisms.
• 9. Empathy and wisdom: preventing travesty of justice	• [4] Example: denying welfare on a minor technicality despite clear substantive eligibility.	• [8] Wisdom requires both legal competence and empathetic perception.
• [1] Wisdom (phronesis): practical judgment applying rules with contextual sensitivity.	• [5] Without empathy, wisdom has no trigger to activate.	• VERDICT → Empathy activates wisdom; rule-based transparency prevents it from degenerating into favouritism.
• [2] Travesty of justice: literal compliance defeating the rule's purpose.	• [6] Empathy without rule-awareness risks arbitrary favouritism.	• ANSWER USE → Use to answer any wisdom-in-administration or travesty-of-justice question.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Empathy activates wisdom; rule-based transparency prevents it from degenerating into favouritism.

09

STAGE 09 CRISIS OF CONSCIENCE: EI NAVIGATION MECHANISM

CRISIS OF CONSCIENCE | EI NAVIGATION MECHANISM | CENTRAL FOCUS | 10. CRISIS OF CONSCIENCE | [1] CRISIS OF CONSCIENCE | PERSONAL VALUES, DUTY AND PRESSURE CONFLICT IRRECONCILABLY. | [2] SELF-AWARENESS NAMES THE CONFLICT PRECISELY RATHER THAN DIFFUSE | [3] SELF-REGULATION PREVENTS IMPULSIVE ACTION OR PARALYSIS UNDER EMOTIONAL

CENTRAL FOCUS → 10. Crisis of conscience: EI navigation mechanism → [1] Crisis of conscience: personal values, duty and pressure conflict irreconcilably. → [2] Self-awareness names the conflict precisely rather than diffuse anguish. → [3] Self-regulation prevents impulsive action or paralysis under emotional turmoil.

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
• CENTRAL FOCUS	• [3] Self-regulation prevents impulsive action or paralysis under emotional turmoil.	• [7] Moral framework: deontological, consequentialist, virtue-based) supplies direction.
• 10. Crisis of conscience: EI navigation mechanism	• [4] Social skill enables transparent communication of the chosen course.	• [8] It without ethical grounding can produce composed capitulation, not principled resolution.
• [1] Crisis of conscience: personal values, duty and pressure conflict irreconcilably.	• [5] The officer converts private moral burden into documented accountable decision.	• VERDICT → EI navigates the crisis of conscience; the ethical stand must come from moral reasoning.
• [2] Self-awareness names the conflict precisely rather than diffuse anguish.	• [6] EI provides psychological infrastructure but not the ethical standard.	• ANSWER USE → Use to structure any crisis-of-conscience or ethical-dilemma answer.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → EI navigates the crisis of conscience; the ethical stand must come from moral reasoning.

10

STAGE 10 MISSION KARMAYOGI AND INSTITUTIONAL EI ARCHITECTURE

MISSION KARMAYOGI AND INSTITUTIONAL EI ARCHITECTURE | CENTRAL FOCUS | 11. MISSION KARMAYOGI AND INSTITUTIONAL EI ARCHITECTURE | [1] MISSION KARMAYOGI PROVIDES THE INSTITUTIONAL SETTING FOR ROLE-BASED | [2] KCM ALIGNS ROLES WITH COMPETENCIES AND EMBEDS COMPETENCIES | [3] AI SARTHI AND AI TUTOR SHOWCASED AT INDIAAI | [4] iGOT-KARMAYOGI DELIVERS ROLE-BASED PERSONALISED MULTILINGUAL LEARNING. | [5] A NAMED EI MODULE IS NOT VERIFIED BY

CENTRAL FOCUS → 11. Mission Karmayogi and institutional EI architecture → [1] Mission Karmayogi provides the institutional setting for role-based learning. → [2] KCM aligns roles with competencies and embeds competencies in training (CBC). → [3] AI Sarthi and AI Tutor showcased at IndiaAI Impact Summit (16-20 Feb 2026).

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
• CENTRAL FOCUS	• [3] AI Sarthi and AI Tutor showcased at IndiaAI Impact Summit (16-20 Feb 2026).	• [7] Do not claim a general APAR linkage without a service-specific DoPT order.
• 11. Mission Karmayogi and institutional EI architecture	• [4] iGOT-Karmayogi delivers role-based personalised multilingual learning.	• [8] Training must be supplemented by delegation protocols, rotation and citizen feedback.
• [1] Mission Karmayogi provides the institutional setting for role-based learning.	• [5] A named EI module is not verified by the cited official CBC pages.	• VERDICT → Use Mission Karmayogi as a competency-architecture example, not proof of EI training or conduct.
• [2] KCM aligns roles with competencies and embeds competencies in training (CBC).	• [6] Learning architecture demonstrates institutional design, not ethical internalisation.	• ANSWER USE → Clearly label any EI linkage as an analytical application unless a named module is verified.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Use Mission Karmayogi as a competency-architecture example, not proof of EI training or conduct.

11

STAGE 11 PYQ DEMAND MAP AND ANSWER SYNTHESIS

PYQ DEMAND MAP AND ANSWER SYNTHESIS | CENTRAL FOCUS | 12. PYQ DEMAND MAP AND ANSWER SYNTHESIS | [1] 2013 Q4 | DEFINE EI, DEVELOPMENT, ROLE IN ETHICAL DECISIONS — USE | [2] 2019 Q5(B) | EI AS MAKING EMOTIONS WORK FOR YOU — USE | [3] 2020 Q2(B)

CENTRAL FOCUS → 12. PYQ demand map and answer synthesis → [1] 2013 Q4: define EI, development, role in ethical decisions — use definition plus mechanism. → [2] 2019 Q5(b): EI as making emotions work for you — use five-component administrative mapping. → [3] 2020 Q2(b): components and learnability — use ability/competency distinction.

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
• CENTRAL FOCUS	• [3] 2020 Q2(b): components and learnability — use ability/competency distinction.	• [7] 2025 Q7: DC Vijay-case study — use four-branch decomposition plus institutional protocol.
• 12. PYQ demand map and answer synthesis	• [4] 2021 Q4(b): EI and crisis of conscience — use self-awareness plus ethical framework.	• [8] Name the EI component precisely; show institutional mechanism; close with a qualified verdict.
• [1] 2013 Q4: define EI, development, role in ethical decisions — use definition plus mechanism.	• [5] 2022 Q1: wisdom/travesty plus empathy/compassion — use phronesis plus empathy-as-trigger.	• VERDICT → The highest-scoring answer moves from named model to specific component to example to institutional limit.
• [2] 2019 Q5(b): EI as making emotions work for you — use five-component administrative mapping.	• [6] 2023 Q4: EQ vs IQ plus moral intuition vs reasoning — use joint-necessity plus bridge model.	• ANSWER USE → Use as the revision checklist before any EI PYQ attempt.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → The highest-scoring answer moves from named model to specific component to example to institutional limit.

E

EXTRA SUBORDINATE ENRICHMENT — ONLY AFTER THE COMPLETE CORE

OPTIONAL ADVANCED ENRICHMENT | 1. ARCHITECTURE | 2. CONCEPTS AND DISTINCTIONS | 3. DETAILED TREATMENT | 4. INSTITUTIONAL AND POLICY APPLICATION | 5. INDIAN APPLICATIONS AND BOUNDARY CASES | 6. LIMITATIONS AND TRADE-OFFS | 7. MUST-KNOW FACTS FOR ADVANCED PRELIMS

OPTIONAL ETHICAL DEPTH	ADVANCED LIMIT / TRADE-OFF	ADMINISTRATIVE APPLICATION
• 1. Architecture	• 5. Indian applications and boundary cases	• 9. Current application
• 2. Concepts and distinctions	• 6. Limitations and trade-offs	• 10. PYQ-based analytical application
• 3. Detailed treatment	• 7. Must-Know Facts for Advanced Prelims	• 11. Mains-ready framework
• 4. Institutional and policy application	• 8. Advanced Prelims traps	• 12. Probable questions

OPTIONAL STATUS — This optional depth is unnecessary for a competent core answer; use it only for added nuance after the complete core has been written.

END OF MASTER CANVAS • poster embeds this exact master • tiled pages are overlapping crops of the same pixels
