

ASCII MASTER FLOW – PANEL 1/10: The central question of the clause and what humanism places at the centre

CENTRAL QUESTION -> how can the equal worth of every human being survive in a world of many religions and many cultures?

|
v

THREE DOCTRINES ANSWER IT IN TURN, AND EACH CONSTRAINS THE OTHERS

HUMANISM -> every person has worth, reason, agency (moral FLOOR)
SECULARISM -> fair public terms among faiths (state POSTURE)
MULTICULTURALISM -> recognition and accommodation of culture (policy FORM)
SHARED LIMIT -> no culture and no state may place domination beyond criticism

|
v

WHAT HUMANISM CENTRES ON THE PERSON (an end, never a mere instrument)

+-----+-----+-----+-----+

v v v v

DIGNITY	REASON	AGENCY	FLOURISHING
worth not	critical	responsible	this-worldly realisation
from birth	inquiry and	self-	of human capacities
or rank	self-	direction	
	correction		

+-----+-----+-----+----> JOINED TO RESPONSIBILITY AND LIMITS

|
v

FIVE-STEP ARGUMENT (reproduce as numbered premises)

- (1) persons share suffering, agency, dependence, creativity, vulnerability
- (2) institutions act inside that shared human world and shape flourishing
- (3) authority must be justified in terms accessible to human reason
- (4) no person may be a mere instrument of church, state, caste or market
- (5) education, criticism and free inquiry are conditions of self-development

CONTROL -> humanism is NOT atheism, NOT anthropocentrism, NOT humanitarian relief and NOT a list of legal rights; it grounds why a person counts.

ASCII MASTER FLOW – PANEL 2/10: Genealogy of humanism: Renaissance cultivation, Enlightenment shifts and the branches

RENAISSANCE HUMANISM -> classical learning, rhetoric, history, cultivated
human capacity; often Christian; risk: elitist

|
v

ENLIGHTENMENT RADICALISATION -> five shifts that pave the way

- (1) authority moves from INHERITED STATUS to REASONED JUSTIFICATION
- (2) scientific inquiry breaks an EPISTEMIC MONOPOLY
- (3) conscience and toleration weaken COMPULSORY RELIGIOUS UNIFORMITY
- (4) natural-right and autonomy traditions UNIVERSALISE moral standing
- (5) EDUCATION becomes a means of emancipation

|
v

QUALIFICATION -> decisive modern articulation, NOT the sole source. Stoic
cosmopolitanism, religious traditions, devotional egalitarian impulses and
Indian reform traditions also supply human-centred resources.

|
v

BRANCHES SORTED BY GROUND OF DIGNITY (ground -> religion -> risk)

- +-- SECULAR / SCIENTIFIC : naturalistic inquiry and welfare -> rejects
| supernatural authority -> risk of SCIENTISM
- +-- RELIGIOUS : divine or spiritual worth in service -> religion
| deepens human concern -> risk of PATERNALISM
- +-- MARXIST : creative social SPECIES-BEING, overcoming
| alienation -> religion read through material suffering -> contested
| inside Marxism
- +-- RADICAL (M. N. ROY) : sovereignty of the rational individual ->
| secular -> risk of understating structural power

CONTROL -> a which-form stem is answered by CHOOSING a ground and OWNING its
named risk, never by listing every branch without adjudication.

ASCII MASTER FLOW – PANEL 3/10: Indian humanism: Tagore, Gandhi, Vivekananda and M. N. Roy on one dignity

ONE DIGNITY, FOUR GROUNDS -> compare down the same axes, never in sequence

AXIS	TAGORE	GANDHI	M. N. ROY
GROUND	creative relation to universal humanity	spiritual unity, truth and non- violence	naturalistic reason and individual autonomy
RELIGION	spiritual depth and critical reason coexist	religion as ethical discipline of politics	rejects supernatural authority
POLITICS	anti-nationalism, civilisational exchange	self-rule (swaraj), constructive work	organised participatory democracy
OBJECTION	too inward for graded hierarchy	moral regeneration without structural remedy	reason is socially conditioned

VIVEKANANDA -> divine potential of the person expressed as SERVICE to humanity;
broadens humanism beyond anti-religious secularism, but its spiritual
metaphysics differs from Roy's naturalism.

v

TAGORE'S ARGUMENT -> the isolated ego is INCOMPLETE; creative self-expression
already presupposes language, relation and a shared world; so universal
humanity is a DIMENSION of fulfilled personhood, not an external abstraction.

COMMON POINT -> no collective idol may extinguish the person.

ROUTE -> for graded status and structural hierarchy use Ambedkar; the caste
doctrine is owned by the Caste file and is not re-expounded here.

ASCII MASTER FLOW – PANEL 4/10: Secular, secularisation, secularism: the classification and the core argument

ROOT DISTINCTION -> which of these is a claim about the STATE?

ONLY SECULARISM IS A DOCTRINE OF PUBLIC POWER

PRESUPPOSITION -> legitimacy must be intelligible to citizens who share no single theology. TRAP -> secularism is not secularisation.

ASCII MASTER FLOW – PANEL 5/10: The Western model spectrum and the plurality-pluralism-secularism boundary

THERE IS NO SINGLE WESTERN MODEL -> name device, strength AND risk

MODEL	CENTRAL DEVICE	STRENGTH	RISK
STRICT SEPARATION	institutional distance	guards against establishment	ignores social inequality
LAICITE	strong public-institutional secularity	common civic identity	burdens visible minorities
NON-ESTABLISHMENT + FREE EXERCISE	no established faith + protected practice	dual protection	boundary disputes
EQUAL RESPECT	the state ranks no faith	fits a plural society	indiscriminate appeasement
PRINCIPLED DISTANCE	context-sensitive engagement or abstention on principle	meets inter- AND intra-religious domination	discretion can turn partisan

|
v

PLURALITY (fact) -> PLURALISM (value) -> SECULARISM (doctrine of state power)
 DECOUPLING 1 -> a HOMOGENEOUS society still needs protection for dissenters
 DECOUPLING 2 -> a PLURAL society can be NON-SECULAR under one supremacy
 DECOUPLING 3 -> secularism CONVERTS coexistence into equal-citizenship norms
 VERDICT -> the link is real but CONTINGENT, not necessary; keep conceptual entailment apart from historical coexistence.

ASCII MASTER FLOW – PANEL 6/10: Indian secularism: principled distance and Gandhi's non-sectarian public religion

ASCII MASTER FLOW – PANEL 7/10: Recognition, group-differentiated rights and intercultural dialogue

MULTICULTURALISM = descriptive FACT of diversity + NORMATIVE claim that a just polity may owe recognition, accommodation or group-differentiated rights

STRUCTURAL CHARACTERISTICS OF A MULTICULTURAL NATION (not a diversity list)

- (1) plural SOCIETAL CULTURES supplying meaningful options to members
- (2) INSTITUTIONAL ACCOMMODATION of those cultures
- (3) a public culture in which recognition is CONTESTED and REVISABLE

INDIAN ILLUSTRATIONS -> linguistic federalism; constitutional protection of minority cultural and educational interests; personal-law pluralism; tribal self-government arrangements. All are dated facts, never proof.

|
v

GLOBALISATION <-> MULTICULTURALISM: a TWO-WAY relation

flows pluralise and hybridise -> perceived loss intensifies recognition demands -> transnational norms empower minorities -> markets commodify culture and deepen asymmetries

RESULT -> neither simple Westernisation nor untouched preservation, but CONTESTED TRANSLATION under unequal power

|
v

OBJECTION -> REPLY -> RESIDUE (the third move carries the marks)

OKIN: group rights may protect PATRIARCHAL practice inside minorities

REPLY -> cultures are internally contested, not owned by male elites; representation, voice, exit and reform beat forced assimilation

RESIDUE -> who certifies which practice is authentic?

RELATIVISM -> dignity, bodily integrity, voice, non-domination are cross-cultural standards; interpretation stays dialogical

FRAGMENTATION -> fair recognition deepens allegiance; risk is elite capture

ESSENTIALISM -> protect persons and evolving practices, not an authorised version of a culture

MAJORITY INVISIBILITY -> majority norms masquerade as neutral; subject them to the same scrutiny

CONTROL -> caste hierarchy is a DOMINATION question, never benign diversity.

ASCII MASTER FLOW – PANEL 9/10: Recognition and redistribution: two grammars and one standard of justice

IS RECOGNITION AN INDEPENDENT DIMENSION OF JUSTICE, OR A DERIVATIVE OF MATERIAL INEQUALITY? -> the question behind every culture-and-inequality stem

AXIS	REDISTRIBUTION GRAMMAR	RECOGNITION GRAMMAR
INJUSTICE IS	maldistribution: exploitation, deprivation, marginalisation	misrecognition: stigma, status subordination
LOCATED IN	the economic structure	institutionalised patterns of value
COLLECTIVITY	a class, by position in production	a status group, by esteem and standing
REMEDY	redistribute; restructure the division of labour	revalue the identity or transform value patterns
RISK IF ALONE	economism	culturalism

|
v

FRASER -> perspectival DUALISM adjudicated by PARITY OF PARTICIPATION

OBJECTIVE condition: material independence and voice

INTERSUBJECTIVE condition: institutionalised equal respect

AFFIRMATIVE remedy corrects outcomes and can mark beneficiaries as deficient; TRANSFORMATIVE remedy restructures the generating framework

HONNETH -> recognition is the DEEPER grammar; LOVE -> self-confidence,

RIGHTS -> self-respect, SOLIDARITY -> self-esteem; disrespect motivates social struggle

VERDICT -> analytically DISTINCT and practically ENTANGLED; a remedy that addresses only one dimension will under-perform. 'Both matter' is no answer.

ASCII MASTER FLOW – PANEL 10/10: Integrated answer spine: the synthesis triangle, the limits and the traps

SYNTHESIS TRIANGLE -> each doctrine repairs a failure of the others

UNIVERSAL DIGNITY stops recognition immunising domination

SECULAR EQUAL CITIZENSHIP stops the floor being administered by one faith

RECOGNISED DIFFERENCE stops citizenship becoming assimilation

MASTER THESIS -> humanism without pluralism homogenises; pluralism without a humanist floor excuses oppression; secularism mediates.

|

v

ANSWER ARCHITECTURE

10 MARKS -> define + distinguish the nearest confusable term -> argument in three or four steps -> one evidence unit with its limit -> graded verdict

15 MARKS -> frame the tension -> doctrine and presupposition -> strongest rival model -> one table -> one objection/reply/residue -> conditional verdict

20 MARKS -> thesis -> locate the concept -> full doctrine -> best rival -> two objection chains -> recognition/redistribution axis -> one dated Indian illustration -> graded verdict bounding state AND community power

|

v

ANTHROPOCENTRIC LIMIT -> INSTRUMENTAL (weakest) -> RELATIONAL -> EXTENSIONAL (strongest, and it concedes the name 'humanism')

v

TEN TRAPS BEFORE SUBMISSION

humanism = atheism | Enlightenment as sole source | Tagore as a slogan | secularism = secularisation | 'one Western model' | Indian secularism as indiscriminate equal treatment | pluralism = secularism | multiculturalism as mere diversity | group rights without internal restrictions and gender | 1976 or 1994 used as philosophical proof

CLOSING RULE -> these doctrines invite celebration; every stem is answered by SPECIFYING LIMITS. An answer that never says what the doctrine cannot do has expounded it without evaluating it.
