- → justified social relations/institutions measure: freedom, equality, justice, dignity, participation, sustainability

ARGUMENT / MECHANISM

- MEASURE EXAMPLES → output
- basic needs
- welfare/quality of life human development
- CONTROL → every indicator reveals one space and hides another

IMPLICATION / VERDICT

- ECONOMISTIC MODEL → productivity / investment / industrialisation → resources enabling truth: scarcity blocks health, education and
- choice failure: output says nothing by itself about distribution, voice, work quality, displacement or ecological cost
- MASTER VERDICT → growth can finance development; just conversion into capability, dignity, participation and sustainable institutions makes progress.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: MASTER VERDICT → growth can finance development; just conversion into capability, dignity, participation and sustainable institutions makes progress.
