NUSSBAUM, DEPENDENCY, POST-DEVELOPMENT AND SUSTAINABILITY

SEN VS NUSSBAUM

PUBLIC REASONING; NO SINGLE FINAL CANONICAL LIST

CENTRAL CAPABILITIES; DIGNITY-COMPATIBLE THRESHOLD COMMON

SECURE OPPORTUNITY, NOT COMPULSORY FUNCTIONING TENSION

PLURAL OPENNESS VS PATERNALISTIC CLOSURE

UNDERDEVELOPMENT CAN BE PRODUCED THROUGH UNEQUAL INCORPORATION, NOT MERELY

MODERNISATION ASSUMES

SEN vs NUSSBAUM

Sen → public reasoning; no single final canonical list

Nussbaum → central capabilities

dignity-compatible threshold common → secure OPPORTUNITY, not compulsory FUNCTIONING tension → plural openness vs paternalistic

DEPENDENCY → underdevelopment can be PRODUCED through unequal incorporation, not merely inherited as an earlier

SOURCE / DOCTRINE

- SEN vs NUSSBAUM
- Sen → public reasoning; no single final canonical list
- Nussbaum → central capabilities
- dignity-compatible threshold common → secure OPPORTUNITY, not compulsory FUNCTIONING tension → plural openness vs paternalistic closure / underspecification
- DEPENDENCY → underdevelopment can be PRODUCED through unequal incorporation, not merely inherited as an earlier stage on one universal path

ARGUMENT / MECHANISM

- MODERNISATION ASSUMES → linear sequence
- traditional/modern binary
- diffusion of capital/knowledge
- expert direction
- CONTROL → structural change is real; one neutral inevitable route is not

IMPLICATION / VERDICT

- POST-DEVELOPMENT → who authorises experts to define a whole society as deficient?
- trap → neither critique proves that health, education, mobility or infrastructure are unwanted; local voice joins universal dignity and non-domination
- SUSTAINABLE DEVELOPMENT → present improvement without destroying ecological conditions/options for future persons: intergenerational justice
- + precaution non-substitutable limits + duties to vulnerable persons + possible non-human value.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: trap → neither critique proves that health, education, mobility or infrastructure are unwanted; local voice joins universal dignity and non-domination.

SOCIAL PROGRESS: WEAK TELEOLOGY, PLURAL CRITERIA AND NON-INEVITABILITY

SOCIAL PROGRESS

WEAK TELEOLOGY, PLURAL CRITERIA AND NON-INEVITABILITY

JUSTIFIED IMPROVEMENT IN RELATIONS, INSTITUTIONS AND LIVES WEAKLY TELEOLOGICAL

CALLS MOVEMENT BETTER; DOES NOT POSIT AUTOMATIC HISTORY

CRITERIA (NO ONE AGGREGATE SETTLES ALL) FREEDOM

REAL OPTIONS/VOICE

LESS DOMINATION

DEFENSIBLE BENEFITS/BURDENS/PROCEDURE

SOURCE / DOCTRINE

- SOCIAL PROGRESS = justified improvement in relations, institutions and lives weakly TELEOLOGICAL → calls movement better
- does NOT posit automatic history
- CRITERIA (no one aggregate settles all) freedom: real options/voice
- equality: less domination
- justice: defensible benefits/burdens/procedure

ARGUMENT / MECHANISM

- dignity: no humiliation
- participation: co-decision sustainability: future conditions
- fraternity/solidarity: social equality
- WHY NOT INEVITABLE?
- knowledge/technology → capacity for care AND destruction institutions → distribute control and risk moral learning → can be reversed

IMPLICATION / VERDICT

- CONCEPTIONS → linear/cumulative
- dialectical/conflictual plural/non-linear (plural paths within a dignity floor)
- VERDICT → progress requires agency, conflict, accountable institutions and judgment
- public reasoning is part of progress, not merely a way to measure it.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → progress requires agency, conflict, accountable institutions and judgment;.
