STAGE 00 THE CENTRAL DEVELOPMENT QUESTION AND THE FIVE-RUNG LADDER

THE CENTRAL DEVELOPMENT QUESTION AND THE FIVE-RUNG LADDER WHAT COUNTS AS A BETTER SOCIETY, AND HOW DO FIVE RUNGS (EACH ADDS A QUESTION THE PREVIOUS RUNG MORE OUTPUT INCOME MEASURE QUANTITY DEVELOPMENT STRUCTURAL AND QUALITATIVE CHANGE MEASURE OPPORTUNITY HUMAN DEV.

CENTRAL QUESTION → what counts as a better society, and how do material changes become

FIVE RUNGS (each adds a question the previous rung cannot answer) growth → more output

→ health, knowledge, material command measure: human options capability → substantive freedom to be and

→ justified social relations/institutions measure: freedom, equality, justice, dignity, participation, sustainability

SOURCE / DOCTRINE

- CENTRAL QUESTION → what counts as a better society, and how do material changes become morally justified progress?
- FIVE RUNGS (each adds a question the previous rung cannot answer) growth → more output / income measure
- health, knowledge, material command measure: human options capability → substantive freedom to be and do measure: real opportunity social prog.
- justified social relations/institutions measure: freedom, equality, justice, dignity, participation, sustainability

ARGUMENT / MECHANISM

- MEASURE FAMILIES → output
- basic needs
- welfare/quality of life human development
- CONTROL → every indicator reveals one space and hides another

IMPLICATION / VERDICT

- ECONOMISTIC MODEL → productivity / investment / industrialisation → resources enabling truth: scarcity blocks health, education and
- choice failure: output says nothing by itself about distribution, voice, work quality, displacement or ecological cost
- MASTER VERDICT → growth can finance development; just conversion into capability, dignity, participation and sustainable institutions makes progress.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: MASTER VERDICT → growth can finance development; just conversion into capability, dignity, participation and sustainable institutions makes progress.

STAGE 01 HUMAN DEVELOPMENT AND SEN'S RESOURCE-TO-FREEDOM CONVERSION

HUMAN DEVELOPMENT AND SEN'S RESOURCE-TO-FREEDOM CONVERSION SHIFT FROM WEALTH OF ECONOMY TO LIVES OF PEOPLE LONGEVITY + KNOWLEDGE + DECENT MATERIAL STANDARD LIMITATION COMPOSITE INDICES CAN CONCEAL DISTRIBUTION, FREEDOM, GENDER, DISABILITY AND DEVELOPMENT AS FREEDOM; REMOVE UNFREEDOMS, EXPAND SUBSTANTIVE FREEDOM ENVIRONMENTAL CONVERSION FACTORS CAPABILITY SAME INCOME DISABILITY, GENDER NORMS, LOCATION, PUBLIC SERVICES

HAQ / UNDP → shift from wealth of economy to lives of people

longevity + knowledge + decent material standard limitation: composite indices

can conceal distribution, freedom, gender, disability and ecological dependence

SEN → DEVELOPMENT AS FREEDOM; remove unfreedoms, expand substantive freedom

RESOURCE → personal / social / environmental CONVERSION FACTORS → CAPABILITY same

SOURCE / DOCTRINE

- HAQ / UNDP → shift from wealth of economy to lives of people
- longevity + knowledge + decent material standard limitation: composite indices
- can conceal distribution, freedom, gender, disability and ecological dependence
- SEN → DEVELOPMENT AS FREEDOM; remove unfreedoms, expand substantive freedom
- RESOURCE → personal / social / environmental CONVERSION FACTORS → CAPABILITY same

ARGUMENT / MECHANISM

- FUNCTIONING = achieved being/doing
- CAPABILITY = real opportunity for alternative functionings
- UTILITY = satisfaction; may adapt downward under deprivation
- AGENCY = pursue goals one has reason to value beyond welfare
- FIVE FREEDOMS REINFORCE: political freedom

IMPLICATION / VERDICT

- social opportunities
- transparency guarantees
- protective security
- CONTROL → capability is neither income plus schemes nor compulsory functioning.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: CONTROL → capability is neither income plus schemes nor compulsory functioning.

02

STAGE 02 NUSSBAUM, DEPENDENCY, POST-DEVELOPMENT AND SUSTAINABILITY

NUSSBAUM, DEPENDENCY, POST-DEVELOPMENT AND SUSTAINABILITY SEN VS NUSSBAUM PUBLIC REASONING; NO SINGLE FINAL CANONICAL LIST CENTRAL CAPABILITIES; DIGNITY-COMPATIBLE THRESHOLD COMMON SECURE OPPORTUNITY, NOT COMPULSORY FUNCTIONING TENSION PLURAL OPENNESS VS PATERNALISTIC CLOSURE UNDERDEVELOPMENT CAN BE PRODUCED THROUGH UNEQUAL INCORPORATION, NOT MERELY MODERNISATION ASSUMES

SEN vs NUSSBAUM

Sen → public reasoning; no single final canonical list

Nussbaum → central capabilities

dignity-compatible threshold common → secure OPPORTUNITY, not compulsory FUNCTIONING tension → plural openness vs paternalistic

DEPENDENCY → underdevelopment can be PRODUCED through unequal incorporation, not merely inherited as an earlier

SOURCE / DOCTRINE

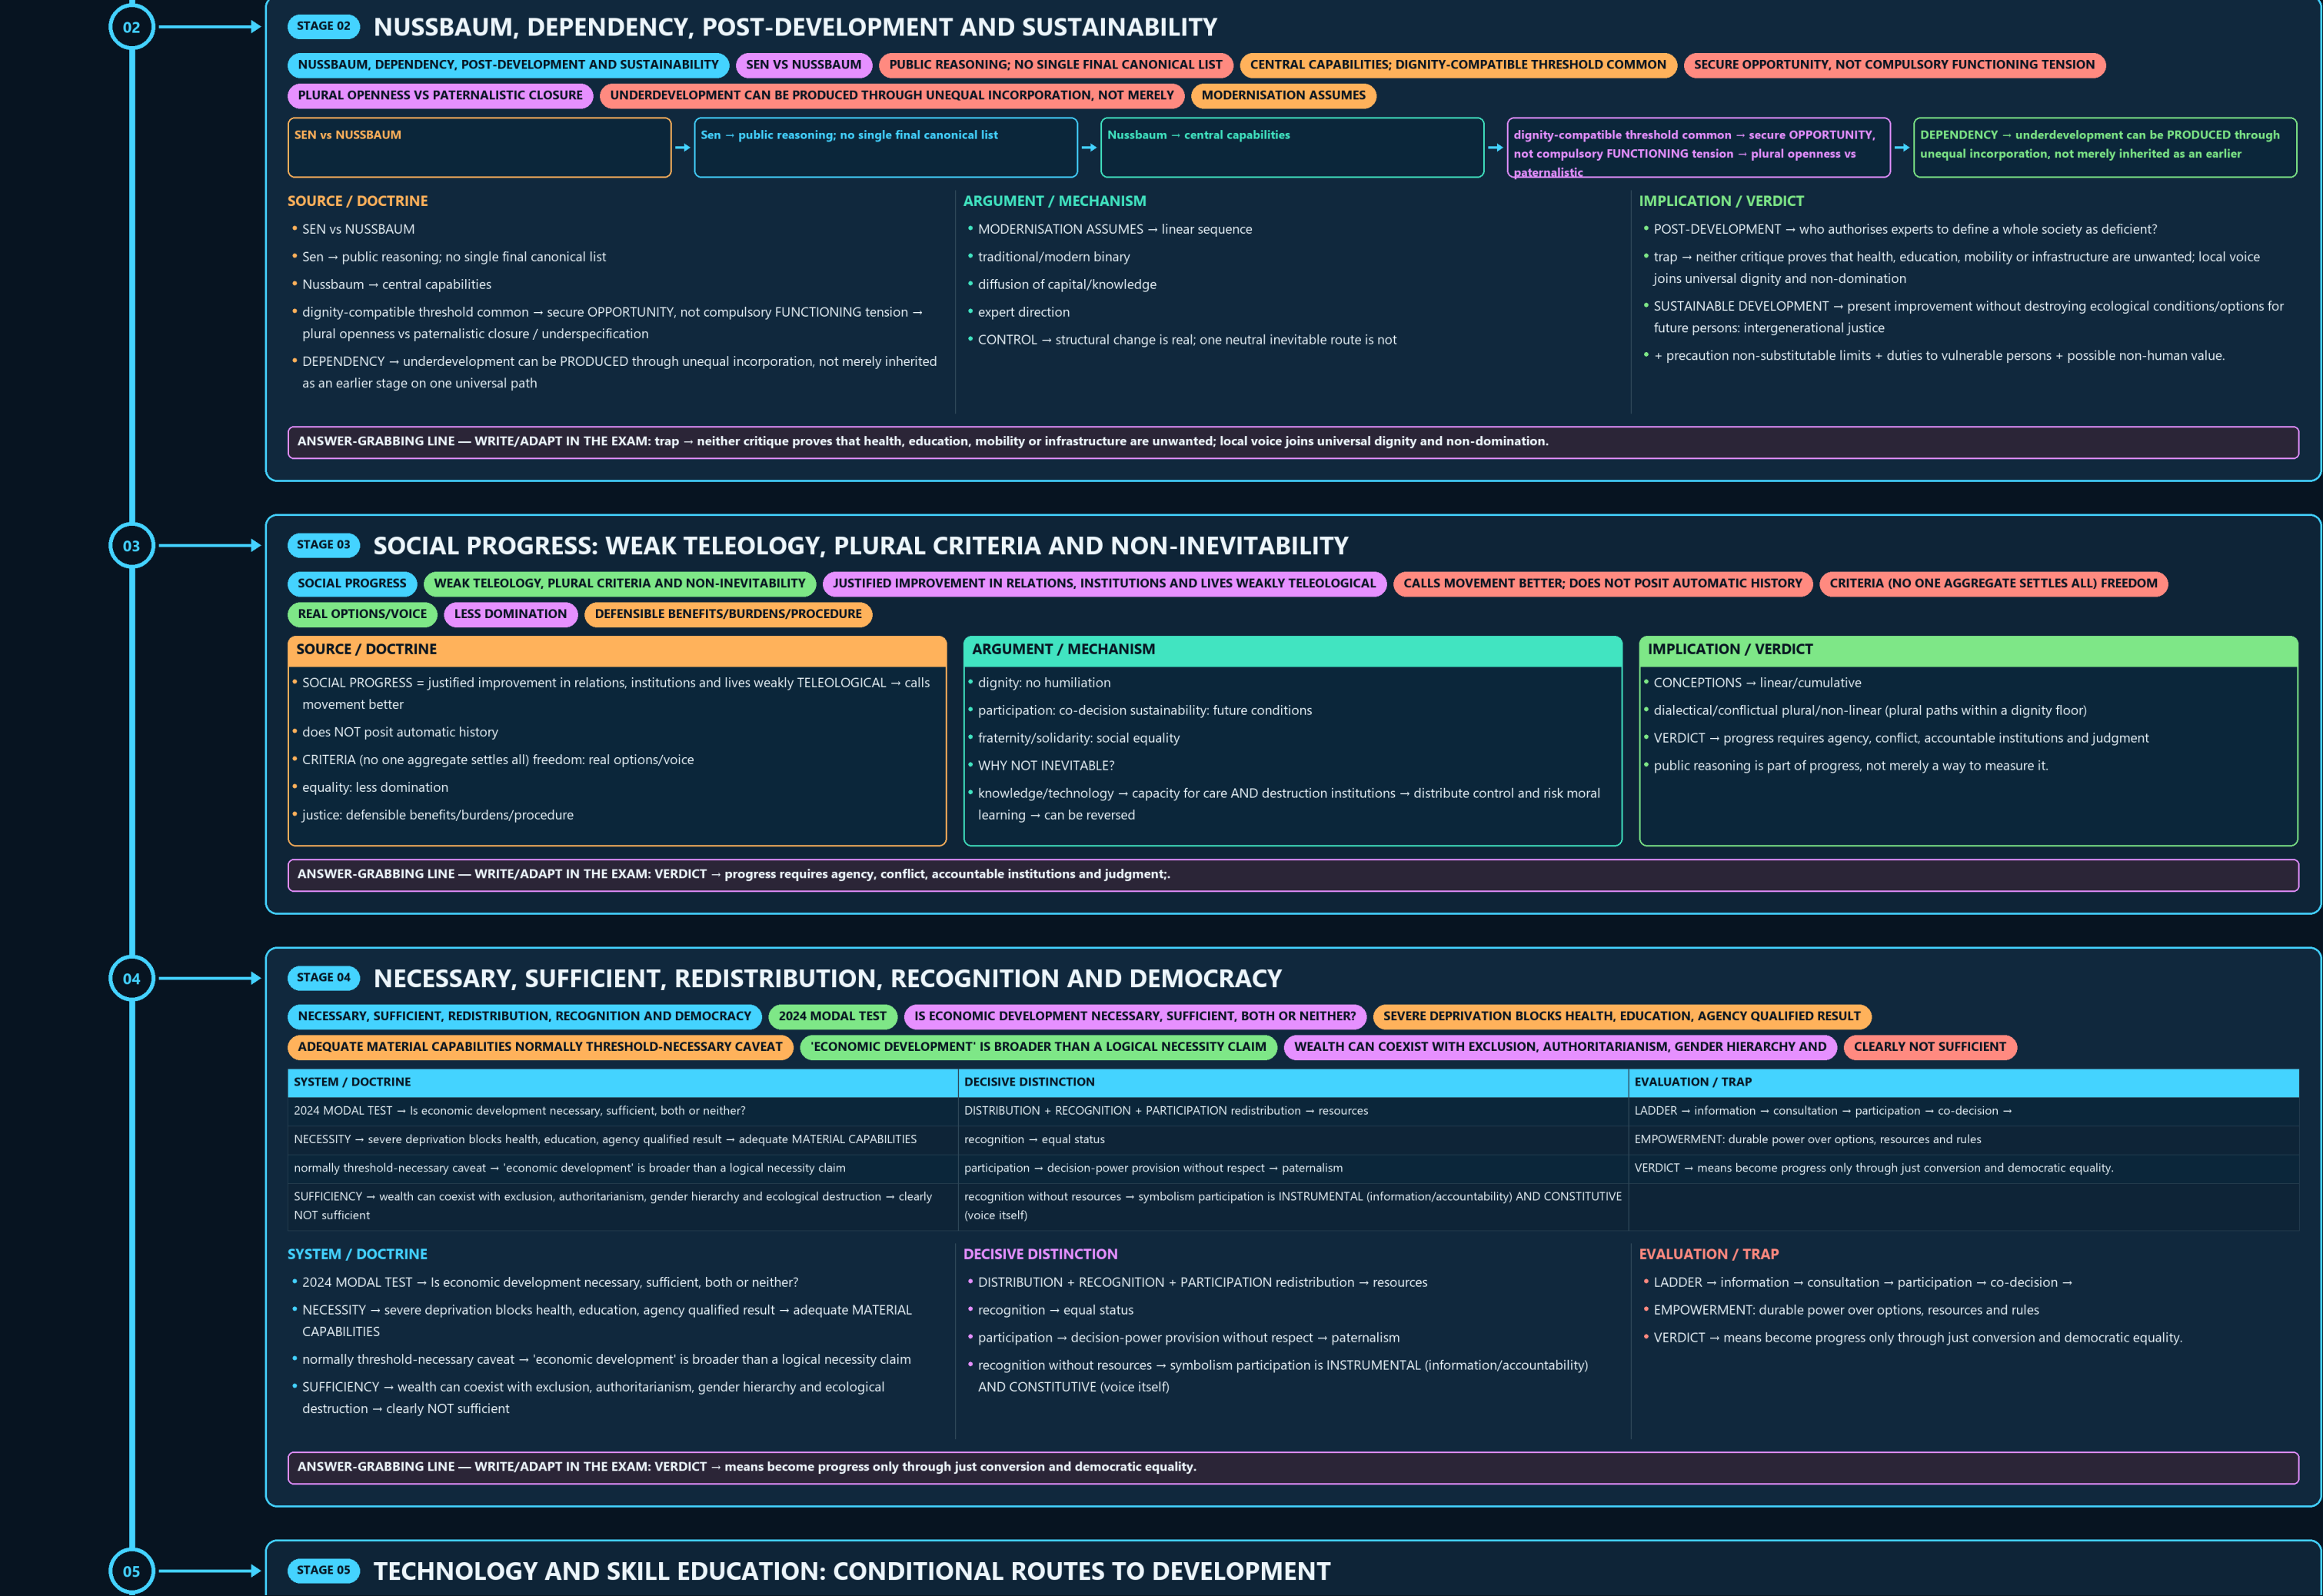

- SEN vs NUSSBAUM
- Sen → public reasoning; no single final canonical list

ARGUMENT / MECHANISM

- MODERNISATION ASSUMES → linear sequence
- traditional/modern binary

IMPLICATION / VERDICT

- POST-DEVELOPMENT → who authorises experts to define a whole society as deficient?
- trap → neither critique proves that health, education, mobility or infrastructure are unwanted; local voice joins universal dignity and non-domination

CAPABILITIES

- normally threshold-necessary caveat → 'economic development' is broader than a logical necessity claim
- SUFFICIENCY → wealth can coexist with exclusion, authoritarianism, gender hierarchy and ecological destruction → clearly NOT sufficient

- participation → decision-power provision without respect → paternalism
- recognition without resources → symbolism participation is INSTRUMENTAL (information/accountability) AND CONSTITUTIVE (voice itself)

- VERDICT → means become progress only through just conversion and democratic equality.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → means become progress only through just conversion and democratic equality.
