OPTIONAL SOURCE WITNESS
- ADVANCED SESSION 1 — Advanced: Structural Injustice and Iris Marion Young's Model of Responsibility
- ADVANCED SESSION 2 — Advanced: Capability-Based versus Property-Based Models of Women's Empowerment
- Core prerequisite: Gender discrimination, female foeticide, land and property rights, empowerment as named syllabus demands
- sex/gender distinction, cultural construction, feminist diagnoses, capability approach and 2018–2025 questions on equality, empowerment and social imbalance.

ADVANCED OBJECTION
- Strongest additional objection / reply:
- India-centric safe use in 15/20 markers: Use unpaid care work, inheritance in practice, dowry-linked preference for sons, local
- Keep "empowerment" tied to agency, not slogan.
- Risks / what not to over-study: Do not make the answer a law list.

COMPARATIVE NUANCE
- Do not reduce gender to biology or empowerment to job access alone.
- Do not overload with imported theory before the syllabus triad is complete.
- Promotion trigger: Care ethics, intersectionality and adaptive preference fired and were promoted on 15 Aug 2026 and are now Core.
- Still to promote if a PYQ asks it directly: Young-style structural injustice and the blame/responsibility split.

OPTIONAL STATUS — This optional depth is unnecessary for a competent core answer; use it only for added nuance after the complete core has been written.
