International Relations 1919-39 - Learner-v2 Complete Learning Session

Authoring-only generation: 2026-09-01. No PDF was rendered and no tracker or index was mutated.

SOURCE, PROGRESSION AND CURRENT-LINKAGE AUDIT

- **Generation date:** 2026-09-01.
- **Repository-first evidence:** the Basic owner is taught first and preserved in full; the Advanced owner is retained only in the optional final teaching block.
- **OCR evidence:** Repository Markdown was used first. The available OCR-searchable Norman Lowe World History PDF was retained as supplementary local context, but no unsupported page number, quotation or precision was imported from it.
- **Qdrant:** not used; repository Markdown and available OCR context were sufficient.
- **PYQ integrity:** No direct UPSC PYQ is verified as owned solely by this topic in the local routing blocks. The 2021 democratic-system demand belongs to Topic 12.
- **Live-link boundary:** The UK Foreign Secretary's Locarno centenary speech commemorates the hundredth anniversary of the 1925 treaty signing and reflects on its lessons for present security and multilateral cooperation. This supplies a narrow current link to interwar diplomacy and to the limits of the 'spirit of Locarno'; it does not alter the historical assessment of Locarno's incomplete guarantees.
- **Fact/inference discipline:** no current-affairs item, PYQ wording, figure or quotation is invented.

BASIC LEARNING SESSION

DEEP-REVIEW LEARNING CONTRACT

Control	Binding rule for this package
Syllabus boundary	Complete World History Core is taught chronologically, spatially and causally before optional enrichment.
Evidence method	Claim -> named event/##8203;treaty/##8203;institution/##8203;actor/##8203;region or attributed scholarship -> analysis -> qualification.
Chronology	Structural cause, trigger, event, settlement, implementation and long-##8203;term process remain distinct.
Geography	Europe, Africa, Asia, West Asia and the Americas retain their own actors, routes and unequal connections; Europe is never the default universal viewpoint.
Historiography	Liberal, conservative, Marxist, social, feminist, postcolonial and other relevant interpretations are tied to evidence and bounded claims.
Practice contract	Every solved item has directive/##8203;demand decoding, an examiner-##8203;grade model, an executable timed/##8203;compression plan, marks rationale and answer-##8203;specific improvement.
Approval	This immutable successor remains approved: false pending explicit approval.

EVIDENCE, PYQ AND CURRENT-STATUS CONTROL

- **Primary/official evidence:** treaties, declarations, laws, institutional records, speeches and contemporary testimony are dated and read for authorship, audience and purpose.
- **Spatial and social evidence:** maps, trade and migration routes, battlefield geography, class, race, gender and colonial position qualify state-centred narrative.
- **Quantitative evidence:** population, debt, inflation, output, casualties and territorial claims retain unit, place, period, source and uncertainty; no statistic is invented.
- **Interpretive discipline:** teleology, civilisational ranking, single-cause verdicts and present-day nation-state projection are rejected.
- **PYQ discipline:** repository routing ledgers and locally held papers control wording and metadata; neutral rendering, reconstruction and unavailable official keys remain explicitly labelled.
- **Current-status note, rechecked 2026-09-04:** The UK Foreign Secretary's Locarno centenary speech commemorates the hundredth anniversary of the 1925 treaty signing and reflects on its lessons for present security and multilateral cooperation. This supplies a narrow current link to interwar diplomacy and to the limits of the 'spirit of Locarno'; it does not alter the historical assessment of Locarno's incomplete guarantees.

1. Snapshot and core idea

FACT: Lowe divides interwar international relations into two broad phases: a limited and fragile search for stability in the 1920s, and the breakdown of that order in the 1930s under the pressure of aggression, depression and appeasement.

FACT: The central institutions and processes were the League of Nations, reparations diplomacy, French security policy, the Locarno phase, Japanese and Italian aggression, Hitler's revisionism and the eventual collapse of collective security.

ANALYSIS: For GS-I, remember the sequence: **peace settlement -> League -> limited reconciliation -> Depression -> aggression -> appeasement -> war.**

2. The League of Nations: aims, structure and early record

FACT: Lowe states two main aims of the League:

- FACT: maintain peace through collective security;
- FACT: encourage international co-operation on economic and social problems.

Organ	Role in Lowe's account
General Assembly	Annual meeting; all members; handled general policy and finances
Council	Smaller executive body for political disputes
Permanent Court of International Justice	Legal disputes between states
Secretariat	Administrative machinery and paperwork
Commissions /​ committees	Mandates, disarmament, minorities, labour, health, welfare

FACT: Lowe does not present the League as a total blank. He notes real achievements:

- FACT: ILO work on labour conditions.
- FACT: Refugee work under Fridtjof Nansen.
- FACT: Health work against epidemics such as typhus.
- FACT: Saar administration and plebiscite.
- FACT: Settlement of Aaland Islands, Upper Silesia, the Greek-Bulgarian dispute and Mosul.

3. Why the League failed to preserve peace

FACT: Lowe lists recurring weaknesses:

- FACT: too closely linked to the Versailles order;
- FACT: the USA never joined;
- FACT: Germany joined late and the USSR only in 1934;
- FACT: the Conference of Ambassadors often overshadowed it;
- FACT: unanimity rules and absence of a League army weakened enforcement;
- FACT: member states would not commit themselves to fight aggressors;
- FACT: the Depression strengthened aggressive regimes;
- FACT: Manchuria, disarmament failure and Abyssinia exposed impotence.

FACT: His bottom line is stark: the League was only as strong as the willingness of Britain and France to support it, and that determination was missing in the 1930s.

4. International relations, 1919-33: fragile improvement

Phase	Main features
1919-​3;23	FACT: Reparations disputes, Ruhr occupation, Franco-​German bitterness, suspicion of Soviet Russia
1924-​3;29	FACT: Dawes Plan, Locarno, Germany in League, Kellogg-​Briand, Young Plan
1930-​3;33	FACT: Depression, Manchuria, disarmament failure, Nazi rise

FACT: Lowe's key agreements and their meaning:

- FACT: **Washington Conferences (1921-22)**: naval limits and temporary Far Eastern easing.
- FACT: **Dawes Plan (1924)**: American loan; reparations made manageable; French leave Ruhr.

- FACT: **Locarno Treaties (1925)**: western frontiers guaranteed; eastern frontiers not guaranteed.
- FACT: **Kellogg-Briand Pact (1928)**: war renounced, but no sanctions clause.
- FACT: **Young Plan (1929)**: reparations cut to £2000 million.

ANALYSIS: Lowe's lesson is that the so-called "Locarno spirit" rested heavily on economic stability; once the Depression arrived, the atmosphere changed sharply.

5. 1933-39: collapse of collective security and road to war

FACT: The revisionist/aggressive powers were Japan, Italy and Germany.

Crisis	Lowe's grounded significance
Manchuria, 1931	FACT: First major successful defiance of the League
Abyssinia, 1935	FACT: League sanctions proved half-hearted and ineffective
Anglo-German Naval Agreement, 1935	FACT: Broke the Stresa Front and weakened united resistance
Rhineland, 1936	FACT: Hitler learned that protest without force meant little
Spanish Civil War, 1936-39	FACT: Germany and Italy helped Franco; Britain and France stayed out
Anschluss, 1938	FACT: Austria absorbed into Reich without resistance from powers
Munich, 1938	FACT: Sudetenland conceded; Czechs and USSR excluded
Prague, March 1939	FACT: Hitler seized non-German territory, shattering appeasement logic
Poland, Sept 1939	FACT: Nazi-Soviet Pact clears way for invasion; Britain and France declare war

FACT: Lowe defines appeasement as the British-led policy of avoiding war by giving way to aggressive powers, so long as their demands did not seem too unreasonable.

FACT: Munich is central in his narrative. Sudetenland was ceded immediately; neither the Czechs nor the Russians were invited; and the destruction of the rest of Czechoslovakia in March 1939 showed that Hitler had gone beyond claims of self-determination.

6. Must-Know Facts (Prelims) and UPSC traps

- FACT: League of Nations came into existence on 10 January 1920.
- FACT: Germany entered the League in 1926; Japan left in 1933; Germany left in 1933; USSR joined in 1934.
- FACT: Dawes Plan was 1924; Locarno 1925; Kellogg-Briand 1928; Young Plan 1929.
- FACT: Manchuria was the first major interwar test that the League failed.
- FACT: Abyssinia was the most damaging blow to League prestige before the war.
- FACT: Anglo-German Naval Agreement weakened anti-German unity.
- FACT: Munich Conference took place in September 1938.
- FACT: Britain and France declared war after Germany invaded Poland in September 1939.

MEMORY: Trap: Do not confuse the League's **social and technical successes** with its **failure as a peace-enforcement body**. Lowe recognizes both.

- WRONG: Locarno guaranteed all German frontiers. -> FACT: It guaranteed the western frontiers, not the eastern ones.
- WRONG: Kellogg-Briand prevented war by law. -> FACT: It renounced war but had no enforcement mechanism.
- WRONG: Munich solved the Sudeten issue permanently. -> FACT: It accelerated the destruction of Czechoslovakia.

- WRONG: The League collapsed only because of Hitler. -> FACT: Lowe shows that Manchuria and Abyssinia had already exposed the deeper weakness.

7. GS-I Mains exam linkage, answer frame and probable questions

FACT: This topic is best prepared as a **failure-of-order** answer: why the peace system did not hold.

ANALYSIS: Strong mains frame:

1. Briefly state the promise of collective security.
2. Explain institutional weakness: no army, unanimity, absent great powers.
3. Show 1920s partial recovery through Dawes-Locarno-Young.
4. Show 1930s breakdown through Depression, Manchuria, Abyssinia, appeasement and Munich.
5. End with Poland as the final point where deterrence failed and war began.

Probable Mains questions

- ANALYSIS: "Why did the League of Nations fail to preserve peace?"
- ANALYSIS: "Assess the significance of the Locarno phase in interwar diplomacy."
- ANALYSIS: "How did appeasement and revisionist aggression together push Europe towards war?"

8. Answer architecture (10/15/20-mark support)

Core-sufficiency note: this file must independently support League-evaluation, appeasement-evaluation and origins-of-WWII demands. advanced/11 adds the "could the League have succeeded?" and blame historiography only.

8.1 Directive and demand map

If the question says	It is really testing	Do NOT write
<i>Why did the League fail?</i>	Structural design and member- will, plus its real successes	A list of failures
<i>Assess the Locarno phase</i>	Whether reconciliation was genuine or conditional on prosperity	"The Locarno spirit was good"
<i>Examine appeasement</i>	Why it looked rational in context and why it failed	Hindsight condemnation
<i>Who caused the Second World War?</i>	Hitler's aims vs systemic and Allied contributions	Naming Hitler and stopping
<i>Collective security</i>	Why a doctrine that requires prior commitment failed among states that would not commit	Defining the term only
<i>Depression and international relations</i>	The economic- to- diplomatic transmission mechanism	Economics without diplomacy

8.2 Qualified thesis templates

- ANALYSIS: **League:** "The League failed not because its design was worthless but because collective security requires states to accept risk in advance, and its principal members would not - a political failure that its institutional weaknesses merely made easier."
- ANALYSIS: **Locarno:** "The Locarno settlement was genuine but conditional: it rested on economic recovery and on leaving the eastern frontiers unguaranteed, and both conditions failed together after 1929."
- ANALYSIS: **Appeasement:** "Appeasement was a defensible response to a misdiagnosed problem: it treated Hitler as a revisionist with finite grievances rather than as an expansionist with unlimited ones."
- ANALYSIS: **Origins of WWII:** "Hitler's aims were the necessary cause; the Depression, the unenforced settlement and the sequence of unpunished aggressions were the conditions that made those aims achievable."

8.3 Mark-scaled structures

Marks	Structure
10	Thesis -> two structural weaknesses and one genuine success -> the decisive crisis -> verdict
15	Thesis -> aims and design -> 1920s partial recovery -> Depression as turning point -> 1930s crisis sequence -> verdict
20	All of the above -> plus appeasement evaluated on its own terms, the non-European dimension (Manchuria, Abyssinia) and the origins-of-war question -> verdict

8.4 Evidence bank A - the League: successes, weaknesses, and the decisive crises

Genuine successes (FACT: - use these to earn balance marks)	Structural weaknesses (FACT:)
ILO work on labour conditions	Too closely tied to the Versailles order
Refugee work under Fridtjof Nansen	The USA never joined
Health work against epidemics such as typhus	Germany joined only in 1926; the USSR only in 1934
Saar administration and plebiscite	The Conference of Ambassadors often overshadowed it
Settlement of the Aaland Islands, Upper Silesia, the Greek-Bulgarian dispute and Mosul	Unanimity rules and no League army
-	Members would not commit to fight aggressors

The two crises that broke it (FACT:):

Crisis	What it proved	Why it mattered more than the design flaws
Manchuria, 1931	A great power could defy the League and keep its gains	Demonstrated impunity to every other revisionist state
Abyssinia, 1935	Sanctions were half-hearted and ineffective	Destroyed League prestige among the very states it needed

ANALYSIS: **The examinable line:** FACT: Lowe's bottom line - the League was only as strong as Britain's and France's willingness to support it, and that determination was missing in the 1930s.

8.5 Evidence bank B - the 1920s: how fragile was the recovery?

Agreement	FACT: Year and content	ANALYSIS: Built-in weakness
Washington Conferences	FACT: 1921-22: naval limits and temporary Far Eastern easing	Did not restrain land forces or Japanese continental ambition
Dawes Plan	FACT: 1924: American loan; reparations made manageable; French leave the Ruhr	Made European stability dependent on American credit
Locarno Treaties	FACT: 1925: western frontiers guaranteed	FACT: Eastern frontiers not guaranteed - an open invitation eastward
Germany enters the League	FACT: 1926	Reversed in 1933
Kellogg-Briand Pact	FACT: 1928: war renounced	FACT: No sanctions clause; no enforcement mechanism
Young Plan	FACT: 1929: reparations cut to £2000 million	Arrived as the Depression began

American loans (Dawes 1924)

- > European recovery and the "Locarno spirit"
- > Wall Street crash and Depression (1929)
- > loans withdrawn, unemployment, political radicalisation
- > Manchuria 1931, Nazi power 1933, Abyssinia 1935
- => collective security collapses

ANALYSIS: This chain is the highest-value single diagram in the topic: it converts "the Depression caused fascism" into a specific economic-to-diplomatic transmission mechanism.

ANALYSIS: Mechanism owner for the Depression itself. This file uses the Depression as a *causal variable*. Its causes, its transmission channels and the policy instruments used against it are owned by basic/20 §9 - in particular FACT: §9.5, which supplies the credit-withdrawal evidence this chain depends on: after the Crash the USA "stopped any further loans and began to call in many of the short-term loans already made to Germany", producing "a crisis of confidence in the currency" and "a run on the banks". **ANALYSIS:** Use that mechanism here; do not re-derive it, and do not answer a Depression question from this file alone.

8.6 Evidence bank C - appeasement, evaluated on its own terms

ANALYSIS: Why appeasement looked rational in the 1930s	FACT: Evidence in this file	ANALYSIS: Why it failed
Some German grievances were widely conceded to be genuine	FACT: Lowe defines appeasement as avoiding war by giving way so long as demands did not seem too unreasonable	It could not distinguish finite grievance from unlimited ambition
Memory of 1914-18 made war politically unthinkable	FACT: (see basic/10 on total war and casualties)	Deterrence requires a credible threat that appeasement removed
The anti-German front was already broken	FACT: Anglo-German Naval Agreement, 1935, broke the Stresa Front	Britain and France were not acting as a bloc
Rearmament was incomplete	ANALYSIS: Delay was defended as buying time	The delay also bought Germany time
The USSR was distrusted as a partner	FACT: Neither the Czechs nor the Russians were invited to Munich	Exclusion of the USSR made the Nazi-Soviet Pact possible
Each concession was individually defensible	FACT: Rhineland 1936; Anschluss 1938; Sudetenland at Munich, Sept 1938	FACT: Hitler learned that protest without force meant little
The self-determination argument had a limit	FACT: Prague, March 1939 - Hitler seized non-German territory	This shattered appeasement's own justification

8.7 Evidence bank D - the crisis sequence, 1931-39 (for causal answers)

FACT: Manchuria 1931 -> FACT: disarmament failure and Hitler's accession 1933 -> FACT: Abyssinia 1935 -> FACT: Anglo-German Naval Agreement 1935 -> FACT: Rhineland 1936 -> FACT: Spanish Civil War 1936-39 (Germany and Italy help Franco; Britain and France stay out) -> FACT: Anschluss 1938 -> FACT: Munich Sept 1938 -> FACT: Prague March 1939 -> FACT: Nazi-Soviet Pact Aug 1939 -> FACT: Poland Sept 1939.

ANALYSIS: Read the sequence as a learning process on both sides: each unpunished act raised the aggressor's estimate of what was possible and lowered the defenders' estimate of what was worth fighting for. That is the causal engine - not a list of dates.

8.8 Verdict scaffolds

- **"Why did the League fail?"** -> "It failed at enforcement while succeeding at administration - which is the precise verdict, because it shows the failure was political, not organisational."
- **"Locarno: peace or illusion?"** -> "Genuine while prosperity lasted and geographically incomplete from the start; the unguaranteed eastern frontier was the flaw the 1930s exploited."
- **"Appeasement?"** -> "A rational policy against the wrong opponent - its error was diagnostic, not moral, and Prague in March 1939 is the moment the diagnosis was proved wrong."
- **"Who caused the war?"** -> "Hitler's expansionism was the proximate and necessary cause; the permissive causes were an unenforced settlement, a collapsed economy, a discredited League and the deliberate exclusion

of the USSR from collective resistance."

8.9 Factual-risk controls

- WRONG: Do not say Locarno guaranteed all German frontiers. FACT: Western frontiers only.
- WRONG: Do not say Kellogg-Briand had enforcement machinery. FACT: It had none.
- WRONG: Do not date the League's establishment other than FACT: **10 January 1920**.
- WRONG: Do not confuse the League's technical and social successes with peace enforcement - name both.
- WRONG: Do not claim the League collapsed only because of Hitler. FACT: Manchuria and Abyssinia had already exposed the weakness.
- WRONG: Do not give a Young Plan figure other than FACT: **£2000 million**, or a Versailles figure other than FACT: £6600 million.
- WRONG: Do not state that Britain and France declared war on Germany before FACT: the September 1939 invasion of Poland.
- WRONG: Do not attribute the phrase "peace for our time" or any other quotation to Chamberlain; it is not sourced in this folder.

ANSWER-GRABBING FORMULATION: Precise definition: Failure-of-order verdict is the source-bounded relationship among Appeasement and failure-of-order verdict, League structural weaknesses and Depression as diplomatic turning point within International Relations 1919-39.

WORLD HISTORY DEEP-REVIEW CORE CONTROL

- **Must remember:** League formation (1920), Washington, Dawes, Locarno, Kellogg-Briand, Young Plan and conditional reconciliation precede Depression, Manchuria, Abyssinia, Rhineland, Spain, Anschluss, Munich, Prague and the Nazi-Soviet Pact.
- **Close distinction:** Institutional design weaknesses and member-state choices must be separated: technical and humanitarian work could succeed while sanctions and collective enforcement failed.
- **Evidence / interpretation limit:** Appeasement should be assessed through war memory, readiness and finite-grievance assumptions, then tested against deterrence erosion and Prague's destruction of the self-determination defence.

BASIC MCQS / REMEDIATION

Q1. Which statement correctly identifies League founded, 10 January 1920?

A. The League of Nations formally began on 10 January 1920 to preserve peace through collective security and promote economic and social cooperation. B. The Assembly, Council, Court, Secretariat and commissions supported genuine work on labour, refugees, health, mandates, minorities and disputed territories. C. The Washington Conferences limited naval competition and temporarily eased Far Eastern tension without resolving Japanese continental ambition. D. The absent United States, late membership of Germany and the USSR, unanimity, no standing army and dependence on British-French will weakened enforcement.

Answer: A. Explanation: The League of Nations formally began on 10 January 1920 to preserve peace through collective security and promote economic and social cooperation. The remaining options belong to different chronology, actor or analytical categories.

Q2. Which chronology card should be filed under League founded, 10 January 1920?

A. The Dawes Plan used American credit to make reparations manageable and enabled French withdrawal from the Ruhr. B. The League of Nations formally began on 10 January 1920 to preserve peace through collective security and promote economic and social cooperation. C. The absent United States, late membership of Germany and the USSR, unanimity, no standing army and dependence on British-French will weakened enforcement. D. The Washington Conferences limited naval competition and temporarily eased Far Eastern tension without resolving Japanese continental ambition.

Answer: B. Explanation: The League of Nations formally began on 10 January 1920 to preserve peace through collective security and promote economic and social cooperation. The remaining options belong to different chronology, actor or analytical categories.

Q3. Which option preserves the source-bounded meaning of League founded, 10 January 1920?

A. The Dawes Plan used American credit to make reparations manageable and enabled French withdrawal from the Ruhr. B. Locarno guaranteed Germany's western frontiers but left its eastern frontiers unguaranteed, making reconciliation geographically incomplete. C. The League of Nations formally began on 10 January 1920 to preserve peace through collective security and promote economic and social cooperation. D. Answer: C. Explanation: The Washington Conferences limited naval competition and temporarily eased Far Eastern tension without resolving Japanese continental ambition. The remaining options belong to different chronology, actor or analytical categories.

Q16. Which statement avoids a close-option trap about Washington Conferences, 1921-22?

A. The Kellogg-Briand Pact renounced war but lacked sanctions or an enforcement mechanism. B. The Young Plan reduced reparations to two thousand million pounds but arrived as the economic foundation of cooperation began to collapse. C. Withdrawal of American credit, unemployment and radicalisation after 1929 destroyed the prosperity on which the Locarno spirit depended. D. The Washington Conferences limited naval competition and temporarily eased Far Eastern tension without resolving Japanese continental ambition.

Answer: D. Explanation: The Washington Conferences limited naval competition and temporarily eased Far Eastern tension without resolving Japanese continental ambition. The remaining options belong to different chronology, actor or analytical categories.

Q17. Which statement correctly identifies Dawes Plan, 1924?

A. The Dawes Plan used American credit to make reparations manageable and enabled French withdrawal from the Ruhr. B. The Kellogg-Briand Pact renounced war but lacked sanctions or an enforcement mechanism. C. Germany entered the League in 1926 during the brief phase of conditional reconciliation. D. Locarno guaranteed Germany's western frontiers but left its eastern frontiers unguaranteed, making reconciliation geographically incomplete.

Answer: A. Explanation: The Dawes Plan used American credit to make reparations manageable and enabled French withdrawal from the Ruhr. The remaining options belong to different chronology, actor or analytical categories.

Q18. Which chronology card should be filed under Dawes Plan, 1924?

A. The Kellogg-Briand Pact renounced war but lacked sanctions or an enforcement mechanism. B. The Dawes Plan used American credit to make reparations manageable and enabled French withdrawal from the Ruhr. C. Germany entered the League in 1926 during the brief phase of conditional reconciliation. D. The Young Plan reduced reparations to two thousand million pounds but arrived as the economic foundation of cooperation began to collapse.

Answer: B. Explanation: The Dawes Plan used American credit to make reparations manageable and enabled French withdrawal from the Ruhr. The remaining options belong to different chronology, actor or analytical categories.

Q19. Which option preserves the source-bounded meaning of Dawes Plan, 1924?

A. Withdrawal of American credit, unemployment and radicalisation after 1929 destroyed the prosperity on which the Locarno spirit depended. B. The Young Plan reduced reparations to two thousand million pounds but arrived as the economic foundation of cooperation began to collapse. C. The Dawes Plan used American credit to make reparations manageable and enabled French withdrawal from the Ruhr. D. The Kellogg-Briand Pact renounced war but lacked sanctions or an enforcement mechanism.

Answer: C. Explanation: The Dawes Plan used American credit to make reparations manageable and enabled French withdrawal from the Ruhr. The remaining options belong to different chronology, actor or analytical categories.

Q20. Which statement avoids a close-option trap about Dawes Plan, 1924?

A. Withdrawal of American credit, unemployment and radicalisation after 1929 destroyed the prosperity on which the Locarno spirit depended. B. The Young Plan reduced reparations to two thousand million pounds but arrived as the economic foundation of cooperation began to collapse. C. Japan's seizure of Manchuria was the first major successful defiance of the League and demonstrated that a great power could keep gains. D. The Dawes Plan used American credit to make reparations manageable and enabled French withdrawal from the Ruhr.

Answer: D. Explanation: The Dawes Plan used American credit to make reparations manageable and enabled French withdrawal from the Ruhr. The remaining options belong to different chronology, actor or analytical categories.

Q21. Which statement correctly identifies Locarno Treaties, 1925?

A. Locarno guaranteed Germany's western frontiers but left its eastern frontiers unguaranteed, making reconciliation geographically incomplete. B. The Young Plan reduced reparations to two thousand million pounds but arrived as the economic foundation of cooperation began to collapse. C. The Kellogg-Briand Pact renounced war but lacked sanctions or an enforcement mechanism. D. Germany entered the League in 1926 during the brief phase of conditional reconciliation.

Answer: A. Explanation: Locarno guaranteed Germany's western frontiers but left its eastern frontiers unguaranteed, making reconciliation geographically incomplete. The remaining options belong to different chronology, actor or analytical categories.

Q22. Which chronology card should be filed under Locarno Treaties, 1925?

Question: Why did the League fail as a peace-enforcement body? Answer in about 150 words.

Model thesis: Its design lacked automatic force, but the decisive weakness was political: Britain and France would not accept the risks collective security required.

Claim -> named evidence -> analysis -> qualification:

- The League of Nations formally began on 10 January 1920 to preserve peace through collective security and promote economic and social cooperation.
- The Assembly, Council, Court, Secretariat and commissions supported genuine work on labour, refugees, health, mandates, minorities and disputed territories.
- The absent United States, late membership of Germany and the USSR, unanimity, no standing army and dependence on British-French will weakened enforcement.
- Japan's seizure of Manchuria was the first major successful defiance of the League and demonstrated that a great power could keep gains.
- Half-hearted sanctions during Italy's invasion of Abyssinia destroyed League credibility and advertised collective-security weakness.

Qualified conclusion: Its design lacked automatic force, but the decisive weakness was political: Britain and France would not accept the risks collective security required.

Demand decoding: The directive **answer** requires a direct position on "Why did the League fail as a peace-enforcement body? Answer in about 150 words.", every clause and time boundary, chronological-causal organisation, named evidence, a counter-position and a qualified global verdict.

Detailed examiner-grade model status: The solved content above is the executable answer base. Preserve its thesis, named chronology, spatial evidence, causal mechanism, counter-position and qualification rather than replacing it with a generic narrative.

Executable exam-length answer / compression plan: For a 10-mark answer, open with a two-sentence thesis and a spatial-temporal frame; organise three named events, treaties, actors, regions, institutions or attributed interpretations as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded conclusion.

Why this earns marks: The answer obeys the directive, distinguishes structure, trigger and outcome, connects evidence to mechanism, includes non-European agency and avoids teleology, presentism and monocausal explanation.

How to improve this answer: For “Why did the League fail as a peace-enforcement body? Answer in about 150 words.”, replace the weakest generalisation with one additional named treaty, regional case, primary record or attributed scholarly position and state what that evidence cannot prove.

Detailed examiner-grade model answer:

Introduction and thesis: Its design lacked automatic force, but the decisive weakness was political: Britain and France would not accept the risks collective security required.

Analytical body:

1. **Claim and named evidence:** The League of Nations formally began on 10 January 1920 to preserve peace through collective security and promote economic and social cooperation. **Analysis:** Use this evidence to establish the mechanism asked in the directive, not merely to narrate the event. **Qualification:** Keep its chronological, regional and interpretive boundary explicit.
2. **Claim and named evidence:** The Assembly, Council, Court, Secretariat and commissions supported genuine work on labour, refugees, health, mandates, minorities and disputed territories. **Analysis:** Use this evidence to establish the mechanism asked in the directive, not merely to narrate the event. **Qualification:** Keep its chronological, regional and interpretive boundary explicit.

Question: Assess the Locarno phase. Answer in about 150 words.

Model thesis: Dawes credit, western guarantees and German membership produced real easing, but dependence on prosperity and unguaranteed eastern frontiers made it conditional.

Claim -> named evidence -> analysis -> qualification:

- The Dawes Plan used American credit to make reparations manageable and enabled French withdrawal from the Ruhr.
- Locarno guaranteed Germany's western frontiers but left its eastern frontiers unguaranteed, making reconciliation geographically incomplete.
- Germany entered the League in 1926 during the brief phase of conditional reconciliation.
- Withdrawal of American credit, unemployment and radicalisation after 1929 destroyed the prosperity on which the Locarno spirit depended.

Question: Why did appeasement appear reasonable, and why did it fail? Answer in about 250 words.

Model thesis: War memory, genuine grievances and weak readiness made concession defensible, but Munich excluded allies and Prague proved Hitler's aims were not finite.

Claim -> named evidence -> analysis -> qualification:

- Britain's separate naval agreement with Germany broke the Stresa Front and weakened coordinated resistance.
- German remilitarisation of the Rhineland met protest without force and taught Hitler that further risks might go unopposed.
- The Sudetenland was conceded at Munich without Czechoslovak or Soviet participation, strategically crippling Czechoslovakia.
- Hitler's seizure of non-German Prague in March 1939 destroyed the argument that his aims were limited to national self-determination.
- Appeasement addressed grievances that sometimes looked finite, but repeated concessions removed deterrence while aggressors learned that enforcement would not follow protest.

Question: Was the interwar order doomed by institutional design or state choices? Answer in about 300 words.

Model thesis: The League's structure mattered, but member-state choices repeatedly withheld enforcement; political will converted remediable weaknesses into systemic collapse.

Claim -> named evidence -> analysis -> qualification:

- The Assembly, Council, Court, Secretariat and commissions supported genuine work on labour, refugees, health, mandates, minorities and disputed territories.
- The absent United States, late membership of Germany and the USSR, unanimity, no standing army and dependence on British-French will weakened enforcement.
- Locarno guaranteed Germany's western frontiers but left its eastern frontiers unguaranteed, making reconciliation geographically incomplete.
- The Kellogg-Briand Pact renounced war but lacked sanctions or an enforcement mechanism.
- Japan's seizure of Manchuria was the first major successful defiance of the League and demonstrated that a great power could keep gains.
- Half-hearted sanctions during Italy's invasion of Abyssinia destroyed League credibility and advertised collective-security weakness.

1. **Claim and named evidence:** The Assembly, Council, Court, Secretariat and commissions supported genuine work on labour, refugees, health, mandates, minorities and disputed territories. **Analysis:** Use this evidence to establish the mechanism asked in the directive, not merely to narrate the event. **Qualification:** Keep its chronological, regional and interpretive boundary explicit.
2. **Claim and named evidence:** The absent United States, late membership of Germany and the USSR, unanimity, no standing army and dependence on British-French will weakened enforcement. **Analysis:** Use this evidence to establish the mechanism asked in the directive, not merely to narrate the event. **Qualification:** Keep its chronological, regional and interpretive boundary explicit.

3. **Claim and named evidence:** Locarno guaranteed Germany's western frontiers but left its eastern frontiers unguaranteed, making reconciliation geographically incomplete. **Analysis:** Use this evidence to establish the mechanism asked in the directive, not merely to narrate the event. **Qualification:** Keep its chronological, regional and interpretive boundary explicit.
4. **Claim and named evidence:** The Kellogg-Briand Pact renounced war but lacked sanctions or an enforcement mechanism. **Analysis:** Use this evidence to establish the mechanism asked in the directive, not merely to narrate the event. **Qualification:** Keep its chronological, regional and interpretive boundary explicit.
5. **Claim and named evidence:** Japan's seizure of Manchuria was the first major successful defiance of the League and demonstrated that a great power could keep gains. **Analysis:** Use this evidence to establish the mechanism asked in the directive, not merely to narrate the event. **Qualification:** Keep its chronological, regional and interpretive boundary explicit.
6. **Claim and named evidence:** Half-hearted sanctions during Italy's invasion of Abyssinia destroyed League credibility and advertised collective-security weakness. **Analysis:** Use this evidence to establish the mechanism asked in the directive, not merely to narrate the event. **Qualification:** Keep its chronological, regional and interpretive boundary explicit.
7. **Claim and named evidence:** Appeasement addressed grievances that sometimes looked finite, but repeated concessions removed deterrence while aggressors learned that enforcement would not follow protest. **Analysis:** Use this evidence to establish the mechanism asked in the directive, not merely to narrate the event. **Qualification:** Keep its chronological, regional and interpretive boundary explicit.

Counter-position / limit: No single actor, battle, treaty, ideology or economic pressure should be made sufficient where the evidence shows interaction among structures, triggers, agency and uneven regional outcomes.

Qualified conclusion: The League's structure mattered, but member-state choices repeatedly withheld enforcement; political will converted remediable weaknesses into systemic collapse.

OPTIONAL ADVANCED DEPTH - NOT REQUIRED FOR A CORE ANSWER

Subject: History (World History) · **Tier:** Advanced (debates + answer-writing) · **GS Paper:** GS-I **Grounded in:** Norman Lowe, *Mastering Modern World History* (5th ed.), Chapters 3-5, pp. 43-88; OCR lines used: 4072-4465, 4494-5530, 5531-6635. **Exam-relevance anchor:** FACT: UPSC GS-I syllabus covers world wars, redrawing of national boundaries and political ideologies; this note focuses on collective security, appeasement and blame for war. FACT: = source-grounded · ANALYSIS: = interpretive synthesis / answer-writing line · CURRENT: = current-affairs peg only when separately verified. *Companion:* basic/11_International-Relations-1919-39.md.

Mini-structure of the advanced debate

Issue	Lowe-​grounded focus
FACT: League verdict	Failure or important first experiment?
FACT: Locarno question	Real reconciliation or prosperity-​dependent illusion?
FACT: Appeasement question	Why did sensible politicians back it?
FACT: Blame question	Appeasers, USSR, or Hitler?
FACT: Analytical payoff	How to write a balanced "road to war" answer

1. Why this chapter cluster matters

FACT: Lowe's interwar chapters are framed around verdicts. He does not simply list crises; he repeatedly asks whether institutions might have worked better, whether conciliation had limits, and whether Hitler or his opponents were more responsible for the final descent into war.

ANALYSIS: This makes Topic 11 a high-value GS-I area because it trains you to answer **evaluate / assess / discuss** questions instead of only narrating events.

2. Could the League of Nations have succeeded?

FACT: The standard Lowe narrative is clear: the League failed to preserve peace when confronted by Japan, Italy and Germany.

FACT: But Lowe also includes a later corrective through Ruth Henig. Her argument, as reported by Lowe, is that the League should not be dismissed as a complete irrelevance: it pioneered structures later used by the UN, including the Assembly, Council, Secretariat, Court and some social agencies.

Verdict	Lowe's grounded support
Failure as peacekeeper	FACT: no army, weak sanctions, absent great powers, unwilling Britain and France
Limited success as international experiment	FACT: refugee work, labour and health work, legal and institutional legacy to the UN

ANALYSIS: Strong conclusion: **the League failed as a coercive security system, but not as the first modern experiment in organized international cooperation.**

3. The Locarno phase: genuine peace or temporary illusion?

FACT: Lowe's 1924-29 phase appears hopeful: Dawes, Locarno, Germany in the League, Kellogg-Briand, Young Plan.

FACT: Yet he is careful not to romanticize it. The most serious omission at Locarno was the lack of guaranteed eastern frontiers for Poland and Czechoslovakia.

FACT: Once Stresemann died and the Depression arrived, the "Locarno spirit" evaporated.

ANALYSIS: UPSC-ready line: **Locarno reduced visible tension in western Europe, but it did not resolve the deeper revisionist question in eastern Europe.**

4. Appeasement: what it meant and why it looked reasonable at the time

FACT: Lowe defines appeasement as the British, later partly French, policy of avoiding war by conceding demands of aggressive powers when those demands seemed not too unreasonable.

FACT: He gives strong reasons why contemporaries supported it:

- FACT: fear of another catastrophic war;
- FACT: pacifist public opinion after 1914-18;
- FACT: belief that Germany and Italy had genuine grievances;
- FACT: distrust of the League's capacity;
- FACT: preference for leader-to-leader diplomacy;
- FACT: fear of communist Russia;
- FACT: British military unreadiness and the hope of buying time for rearmament.

Why appeasement looked defensible	Why it failed in Lowe's account
FACT: war avoidance after 1914-18	FACT: Hitler read concessions as weakness
FACT: some Versailles terms did seem unfair	FACT: Hitler moved beyond limited revision into expansion
FACT: Britain needed time to rearm	FACT: Munich destroyed Czechoslovakia's strategic strength
FACT: fear of communism shaped conservative thinking	FACT: anti-Soviet hesitation weakened anti-Hitler resistance

ANALYSIS: This is one of the best examples in world history of a policy that can be **rational in motive yet disastrous in effect.**

5. Munich and the destruction of Czechoslovakia

FACT: Lowe is especially valuable here because he distinguishes Sudetenland from the March 1939 occupation.

- FACT: At Munich, Britain and France pressed the Czechs hard and excluded both the Czechs and the USSR from the real decision.

- FACT: Chamberlain returned claiming "peace for our time".
- FACT: Churchill and Duff Cooper were early internal critics.
- FACT: In March 1939 Hitler moved beyond German self-determination and seized non-German Czech territory.

ANALYSIS: A high-scoring mains line is: **Munich mattered not only because territory was conceded, but because it destroyed the strongest central-European barrier to further German expansion.**

6. Who caused the Second World War?

(a) Were the appeasers to blame?

FACT: Lowe records a powerful case against appeasement: firmness in 1936 over the Rhineland might have checked Hitler before Germany grew stronger, while Munich convinced him that Britain and France would stay passive.

FACT: But Lowe also records the defence of Chamberlain: Britain was not ready, a Grand Alliance was difficult to build, and Munich arguably bought time for rearmament.

(b) Did the USSR make war inevitable?

FACT: Lowe notes the charge that Stalin's non-aggression pact with Germany enabled the invasion of Poland.

FACT: But he also records the Soviet defence: Britain and Poland distrusted the USSR, negotiations with the west were slow, and the pact bought time for Soviet defence.

(c) Was Hitler chiefly to blame?

FACT: Lowe gives the classic case: Poland was attacked on all fronts, not merely over Danzig; Hitler's writings, the Hossbach Memorandum and the idea of Lebensraum all support the view that he was aiming at much more than revision of Versailles.

FACT: He also notes the famous A. J. P. Taylor challenge: Hitler may not have intended a general war at once and may have expected only a limited war with Poland.

ANALYSIS: Balanced synthesis: **appeasement and Soviet choices shaped the opportunity structure, but Hitler's expansionism remains the central driving force in Lowe's overall presentation.**

7. India / empire linkage without duplication

ANALYSIS: This subject should be connected to Indian history only by background, not by repetition.

- ANALYSIS: The Depression, crisis of imperial credibility and collapse of collective-security language form the wider world context of 1930s anti-colonial politics.
- ANALYSIS: Cross-link instead of duplicating:
Modern-Indian-History/basic/22_Simon-Nehru-Report-CDM-and-RTC.md,
basic/23_Left-Peasant-Workers-and-States-Peoples-Movements.md, and
basic/24_Government-of-India-Act-1935-and-Congress-Ministries.md.
- ANALYSIS: In answers, one sentence is enough: interwar instability weakened faith in liberal-imperial order worldwide.

8. Must-Know Facts (Prelims) and UPSC traps

- FACT: Ruth Henig is cited by Lowe as a corrective against dismissing the League as wholly irrelevant.
- FACT: Locarno did not guarantee Germany's eastern frontiers.
- FACT: Chamberlain became PM in 1937 and intensified appeasement through direct diplomacy.
- FACT: Munich ceded the Sudetenland; Prague occupation in March 1939 exposed the failure of appeasement.
- FACT: Lowe records both anti-appeasement and pro-appeasement interpretations.
- FACT: Lowe also records A. J. P. Taylor's challenge to blueprint-style interpretations of Hitler.

MEMORY: Trap: Never write "appeasement = foolishness" without explaining why it seemed attractive to contemporaries. UPSC rewards contextual judgment.

- WRONG: The League failed because nobody believed in peace. -> FACT: Lowe shows many leaders wanted peace, but would not pay the military-political price for collective security.

- WRONG: Munich was simply about self-determination. -> FACT: It also crippled Czechoslovakia strategically and encouraged further aggression.
- WRONG: Britain and France were either heroic resisters or cowardly appeasers. -> FACT: Lowe presents a more complicated mix of self-interest, fear, weakness and misjudgment.

9. GS-I Mains answer frameworks and probable questions

ANALYSIS: **Framework: "Why did the League fail?"**

1. Aims and structure.
2. Early limited successes.
3. Structural weaknesses.
4. Manchuria, disarmament, Abyssinia.
5. End with Henig-style qualified verdict.

ANALYSIS: **Framework: "Critically examine appeasement."**

1. Define it.
2. Give reasons it looked sensible.
3. Explain how Hitler exploited it.
4. Balance with British unreadiness and rearmament argument.
5. Conclude with a conditional verdict.

ANALYSIS: **Framework: "Who was responsible for the outbreak of the Second World War?"**

1. Mention Versailles/League/Depression as background.
2. Evaluate appeasement.
3. Mention USSR pact.
4. Give decisive weight to Hitler's expansionism.

Probable Mains questions

- ANALYSIS: "Was the League of Nations a complete failure?"
- ANALYSIS: "How far can appeasement be justified?"
- ANALYSIS: "Were Hitler or the appeasers more to blame for the outbreak of the Second World War?"

COMPLETE TOPIC ASCII MASTER FLOW DIAGRAM

ASCII MASTER FLOW - PANEL 1/12: League promise and machinery

AIM -> collective security and cooperation
ASSEMBLY/COUNCIL -> political deliberation
COURT/SECRETARIAT -> legal and administrative work
COMMISSIONS -> labour, refugees, health and mandates
MUST REMEMBER: League formation (1920), Washington, Dawes, Locarno, Kellogg-Briand, Young Plan and conditional reconciliation precede Depression, Manchuria, Abyssinia, Rhineland, Spain, Anschluss, Munich, Prague and the Nazi-Soviet Pact.

ASCII MASTER FLOW - PANEL 2/12: League's mixed record

SUCCESS -> Aaland, Saar, Mosul and social work
WEAKNESS -> no army and unanimity
ABSENCE -> USA outside; Germany and USSR late
VERDICT -> administration stronger than enforcement

ASCII MASTER FLOW - PANEL 3/12: 1920s recovery ladder

1921-22 -> Washington naval easing
1924 -> Dawes credit and Ruhr withdrawal
1925-26 -> Locarno and Germany in League
1928-29 -> Kellogg-Briand and Young Plan

ASCII MASTER FLOW - PANEL 4/12: Locarno's geographic flaw

WEST -> German frontiers guaranteed
EAST -> German frontiers not guaranteed
PROSPERITY -> American credit supports confidence
RISK -> eastern revisionism remains open

ASCII MASTER FLOW - PANEL 5/12: Depression transmission

US CREDIT WITHDRAWS -> German recovery contracts
UNEMPLOYMENT -> democratic legitimacy erodes
RADICAL REGIMES -> revisionist policy strengthens
COLLECTIVE SECURITY -> willingness to enforce falls

ASCII MASTER FLOW - PANEL 6/12: League-breaking crises

1931 -> Manchuria establishes impunity
1935 -> Abyssinia exposes weak sanctions
1935 -> naval agreement breaks Stresa unity
1936 -> Rhineland risk succeeds

ASCII MASTER FLOW - PANEL 7/12: Aggressor-learning mechanism

ACTION -> treaty or frontier challenged
RESPONSE -> protest without effective force
LESSON -> cost of next move appears lower
RESULT -> revision escalates from test to conquest

ASCII MASTER FLOW - PANEL 8/12: 1938 concession sequence

ANSCHLUSS -> Austria absorbed
MUNICH -> Sudetenland conceded
EXCLUSION -> Czechoslovakia and USSR absent
PRAGUE 1939 -> non-German territory seized

ASCII MASTER FLOW - PANEL 9/12: Appeasement on its own terms

RATIONALE -> war memory and incomplete rearmament
ASSUMPTION -> grievances are finite
FAILURE -> concessions weaken deterrence
TEST -> Prague disproves the assumption

ASCII MASTER FLOW - PANEL 10/12: Road to Poland

PRAGUE -> appeasement rationale collapses
NAZI-SOVIET PACT -> eastern obstacle removed
POLAND -> Germany invades
BRITAIN/FRANCE -> declare war
CLOSE DISTINCTION: Institutional design weaknesses and member-state choices must be separated:
technical and humanitarian work could succeed while sanctions and collective enforcement failed.

ASCII MASTER FLOW - PANEL 11/12: Design versus choice

DESIGN -> unanimity, no army, incomplete membership
CHOICE -> members refuse sanctions and military risk
ECONOMY -> Depression narrows cooperation
VERDICT -> weaknesses become fatal through decisions
EVIDENCE LIMIT: Appeasement should be assessed through war memory, readiness and finite-grievance assumptions, then tested against deterrence erosion and Prague's destruction of the self-determination defence.

ASCII MASTER FLOW - PANEL 12/12: Interwar answer spine

PROMISE -> League and collective security
RECOVERY -> Dawes, Locarno and conditional stability
BREAKDOWN -> Depression, Manchuria and Abyssinia
COLLAPSE -> appeasement, Prague, pact and Poland
