

## ASCII MASTER FLOW – PANEL 1/12: Four actors, one system

FUNDERS -> bilateral and multilateral donors, foundations, corporate programmes

LEGAL VEHICLES -> public charitable trust, society, Section 8 company

IMPLEMENTERS -> non-governmental organisations and self-help group federations

RULE -> separate funding source from legal vehicle from last-mile implementer

MUST REMEMBER: Development processes join state institutions, markets, communities, civil...

## ASCLL MASTER FLOW – PANEL 2/12: Legal vehicle card

TRUST -> deed plus state public-trust law; the 1882 Trusts Act excludes charitable endowments

SOCIETY -> Societies Registration Act, 1860 and state variants; membership-based accountability

SECTION 8 COMPANY -> Companies Act, 2013; profits may not be distributed to members

SCRUTINY LADDER -> trust below society below Section 8 company in external disclosure

## ASCII MASTER FLOW – PANEL 3/12: Corporate social responsibility card

SECTION 135 -> statutory minimum spend of two per cent of average net profits of preceding years

APPLICABILITY -> companies crossing specified net worth, turnover or net profit thresholds

SCHEDULE VII -> bounded activity list: health, education, poverty, environment, rural development

RULES LAYER -> CSR-2 reporting and impact assessment come from the CSR Policy Rules, not the section

## ASCII MASTER FLOW – PANEL 4/12: Four regulatory layers

INCORPORATION -> state registrar or Registrar of Companies; legal existence only

FOREIGN FUNDING -> Ministry of Home Affairs under the 2010 Act as amended in 2020

TAX STATUS -> Income Tax Department, Sections 12A and 80G; exemption and donor deduction

GRANT IDENTITY -> NITI Aayog NGO Darpan unique identification; not permission

## ASCII MASTER FLOW – PANEL 5/12: The foreign-contribution gate

ROUTE ONE -> registration for ongoing receipt of foreign contribution

ROUTE TWO -> case-specific prior permission for a defined contribution

CONDITIONS -> designated account at the State Bank of India main branch, New Delhi

LIMITS -> administrative-expense proportion capped; sub-granting between entities restricted

## ASCTI MASTER FLOW – PANEL 6/12: Funding to outcome

FUNDING SOURCE -> project cycle, founder priority or Schedule VII compliance sets the frame

LEGAL VEHICLE -> determines disclosure and governance quality available to a beneficiary

IMPLEMENTER -> local social capital and capacity determine last-mile fidelity

ACCOUNTABILITY -> upward to donor and regulator; never downward to the beneficiary

## ASCII MASTER FLOW – PANEL 7/12: Five-test grid

ADDITIONALITY -> adds capacity, or substitutes for a public obligation still owed

NEED-FIT -> chosen from disaggregated exclusion data, or from the funder priority

ACCOUNTABILITY -> can a beneficiary obtain records, complain and force correction

SUSTAINABILITY AND FIT -> who operates after the grant, and is it converged with the district plan

## ASCII MASTER FLOW – PANEL 8/12: Substitution against complementarity

SUBSTITUTION -> non-state delivery is a symptom of state failure and may entrench it

COMPLEMENTARITY -> flexibility, speed and risk-taking are structurally easier outside procurement

RESOLUTION -> the additionality test decides the case rather than the thesis

AGGREGATE RISK -> duplication and visible-need bias where convergence is absent

## ASCII MASTER FLOW – PANEL 9/12: Visible-need bias

DRIVER -> Schedule VII list plus reputational incentive

EFFECT -> crowding into school buildings, sanitation hardware and other legible sectors

SHORTFALL -> mental health, care work, legal aid and disability access stay underfunded

DIAGNOSIS -> a convergence failure, not a failure of generosity

## ASCII MASTER FLOW – PANEL 10/12: Multi-level planning card

TIERS -> Union, state, district and local plan what each is best placed to know

CONSOLIDATION -> District Planning Committee under Article 243ZD; operationalisation uneven

FISCAL PRECONDITION -> the State Finance Commission

DEMONSTRATION -> Kerala People's Plan Campaign, 1996; funds, functions and functionaries together

CLOSE DISTINCTION: Development industry is an analytical label for organisations,...

## ASCII MASTER FLOW – PANEL 11/12: Four donor-distortion channels

AGENDA -> donor priority sets the problem before local need is assessed

METRIC -> reporting rewards countable outputs, so participatory process is cut first

CYCLE -> project-based time-bound grants mismatch a multi-year institution-building horizon

ACCOUNTABILITY SUBSTITUTION -> upward reporting replaces downward answerability

EVIDENCE LIMIT: AUTHORITY / IMPLEMENTATION: Use SHG-bank linkage, district missions,...

## ASCII MASTER FLOW – PANEL 12/12: Answer spine for a distance demand

OPEN -> name distance as an institutional property of the funding chain, not only of the state

BUILD -> four channels, then the five-test grid applied to one case

CORRECT -> convergence with the local plan, co-decision, exit planning, disclosed funding and cost

CLOSE -> graded verdict recording the one open routing conflict rather than concealing it
