

COMPLETE LEARNING SESSION

Indian Music - Learner-v2 Refreshed

UPSC complete learning session | Foundation to advanced | Concepts, evidence, practice and answer writing

Original deterministic study visual; labels are explanatory, not textual quotations.

Source order: repository knowledge -> official current linkage -> clearly marked analysis. No fabricated PYQs or statistics.

CONTENTS / SESSION INDEX

Major learning parts and meaningful subtopics are listed in document order. Page numbers are generated from the final PDF layout; PDF bookmarks mirror the same hierarchy.

Indian Music - Learner-v2 Complete Learning Session

Authoring-only generation: 2026-09-01. No PDF was rendered and no tracker or index was mutated.

SOURCE, PROGRESSION AND CURRENT-LINKAGE AUDIT

- **Generation date:** 2026-09-01.
- **Repository-first evidence:** the Basic owner is taught first and preserved in full; the Advanced owner is retained only in the optional final teaching block.
- **OCR evidence:** Repository Markdown was primary. The available OCR-searchable Nitin Singhania Indian Art and Culture PDF was retained as a supplementary source; no unsupported page precision, quotation or dynamic status was imported from it.
- **Qdrant:** not used; repository Markdown and available OCR context were sufficient.
- **PYQ integrity:** No direct GS-I Mains PYQ is routed to Indian music in the audited ledgers. Verified objective routes are retained for 2018 Tyagaraja-Annamacharya, 2019 Tansen, 2025 Gandharva Mahavidyalaya, and the provisional 2026 raga-equivalence and Mallikarjun Mansur demands; no withheld answer is inferred.
- **Live-link boundary:** Sangeet Natak Akademi's official awardees page was fetched on 2026-09-01 and displayed a 2025 award record. It is used only to verify that the national performing-arts recognition list is a live, updateable official record; no musician's gharana, repertoire, instrument classification or unsourced award claim is inferred from it.
- **Fact/inference discipline:** no current-affairs item, PYQ wording, figure or quotation is invented.

BASIC LEARNING SESSION

DEEP-REVIEW LEARNING CONTRACT

Control	Binding rule for this package
Syllabus boundary	Complete Indian Art and Culture Core is taught by form, chronology, region, patronage and function before optional enrichment.
Evidence method	Claim -> named monument/object/text/form/institution/community -> analysis -> qualification.
Chronology	Origin, surviving evidence, patronage phase, later adaptation, recognition and present status remain distinct.
Classification	Architecture, sculpture, painting, music, dance, theatre, language, craft, religion, heritage and cinema terms are compared on common axes without collapsing categories.
Interpretation	Style labels, iconographic readings, continuity, synthesis and social representation remain evidence-bounded rather than essentialist.
Practice contract	Every solved item has directive/demand decoding, a detailed examiner/grade model, executable compression plan, marks rationale and answer/specific improvement.
Approval	This immutable successor remains approved: false pending explicit approval.

Canonical Basic/Core owner:

upsc-ai-kit\knowledge\Indian-Art-and-Culture\basic\08_Indian-Music.md **Canonical topic**

owner: upsc-ai-kit\knowledge\Indian-Art-and-Culture\basic\08_Indian-Music.md **Optional**

Advanced owner: upsc-ai-kit\knowledge\Indian-Art-and-Culture\advanced\08_Indian-Music.md

Official syllabus mapping:

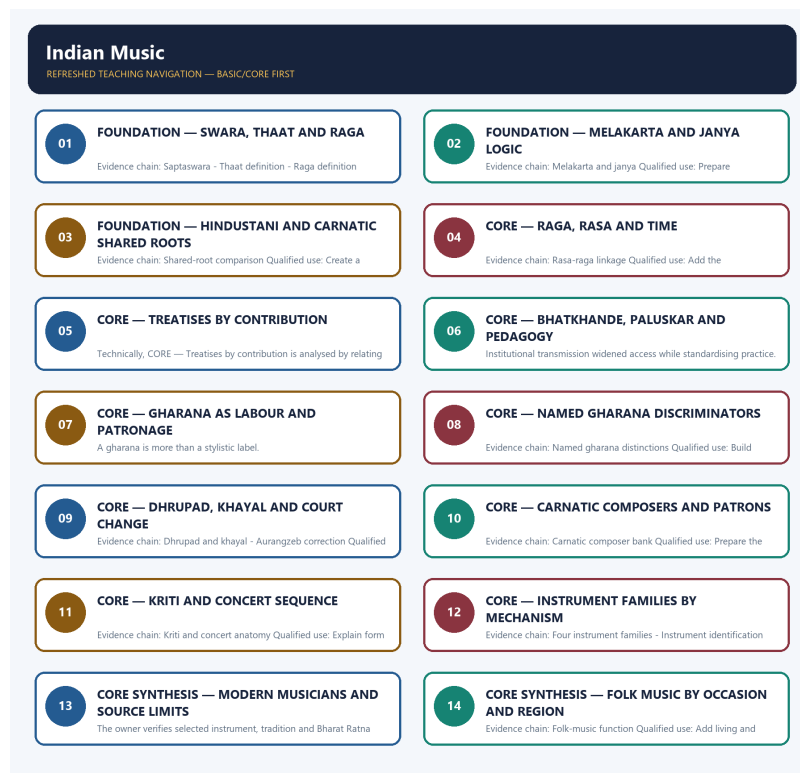

upsc-ai-kit\knowledge\Indian-Art-and-Culture\OFFICIAL-UPSC-SYLLABUS-MAPPING.md

EVIDENCE, PYQ AND CURRENT-STATUS CONTROL

- **Material evidence:** plans, fabric, technique, iconography, performance grammar, inscriptions, manuscripts, films and institutional records are identified before interpretation.
- **Attribution discipline:** patron, date, school, region, author, performer, community and function are stated only to the precision supported by the owner.
- **Quantitative discipline:** dimensions, counts, inscription years, lists, awards and registrations retain source, date, status and uncertainty; no figure is invented.
- **Interpretive discipline:** civilisational ranking, communal essentialism, timeless continuity, single-origin claims and treating commissioned representation as a social census are rejected.
- **PYQ discipline:** repository routing ledgers and locally held papers control wording and metadata; neutral rendering, reconstruction and unavailable official keys remain explicitly labelled.
- **Current-status note, rechecked 2026-09-04:** Sangeet Natak Akademi's official awardees page was fetched on 2026-09-01 and displayed a 2025 award record. It is used only to verify that the national performing-arts recognition list is a live, updateable official record; no musician's gharana, repertoire, instrument classification or unsourced award claim is inferred from it.

Refreshed teaching navigation

Distinct embedded teaching-navigation image. The separate continuous Cārvāka-style flowchart package remains an independent at-a-glance artifact.

SESSION 1 - FOUNDATION - SWARA, THAAT AND RAGA

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity.

Technical definition: Evidence chain: Saptaswara - Thaata definition - Raga definition Qualified use: Build the foundational theory vocabulary.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Evidence chain: Saptaswara - Thaata definition - Raga definition
Qualified use: Build the foundational theory vocabulary.

MUST-WRITE KEYWORDS

- FOUNDATION
- Swara
- thaata
- raga
- Evidence chain
- Qualified use

How to use them: Frame the answer through FOUNDATION; define Swara, connect thaata with raga to explain the mechanism, and use Evidence chain for the decisive comparison or qualification.

VISUAL FIRST

SWARA, THAATA AND RAGA

01. Saptaswara

|

v

02. Thaata definition

|

v

03. Raga definition

BOUNDARY -> Parent scale and performed melody are distinct.

This topic-specific rail fixes the evidence sequence and its exam boundary before analysis.

CORE EXPLANATION

Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions. A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity. A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations.

NAMED EVIDENCE AND MECHANISM

- Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions.
- A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity.
- A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations.

EXAMINER CAUTION

- Parent scale and performed melody are distinct.

EXAM LINK

- **Prelims:** Retain the exact form, region, text, technique or institution attached to Swara, thaata and raga.
- **Mains:** Build the foundational theory vocabulary.

MINI RECAP

- **Evidence chain:** Saptaswara -> Thaata definition -> Raga definition
- **Qualified use:** Build the foundational theory vocabulary.

CLOSING RECALL FLOW - FOUNDATION - SWARA, THAAT AND RAGA

START / CONCEPT: FOUNDATION - Swara, thaata and raga

|

v

EXACT TERMS: FOUNDATION · Swara · thaata · raga · Evidence chain · Qualified use

|

v

MECHANISM / ARGUMENT: A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity.

|

v

CONSEQUENCE / CONTRAST: A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations.

|

v

UPSC TRAP / ANSWER-USE: Do not miss this limiting distinction: mains: Build the foundational theory vocabulary.

|

v

ANSWER-GRABBING FORMULATION: Evidence chain: Saptaswara - Thaata definition - Raga definition
Qualified use: Build the foundational theory vocabulary.

SESSION 2 - FOUNDATION - MELAKARTA AND JANYA LOGIC

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaata.

Technical definition: Evidence chain: Melakarta and janya Qualified use: Prepare system-comparison questions.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaata.

MUST-WRITE KEYWORDS

- FOUNDATION
- Melakarta
- janya logic
- Evidence chain
- Qualified use
- Carnatic

How to use them: Frame the answer through FOUNDATION; define Melakarta, connect janya logic with Evidence chain to explain the mechanism, and use Qualified use for the decisive comparison or qualification.

VISUAL FIRST

MELAKARTA AND JANYA LOGIC

01. Melakarta and janya

BOUNDARY -> Do not map seventy-two melakartas onto ten thaats.

This topic-specific rail fixes the evidence sequence and its exam boundary before analysis.

CORE EXPLANATION

Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaata.

NAMED EVIDENCE AND MECHANISM

- Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaata.

EXAMINER CAUTION

- Do not map seventy-two melakartas onto ten thaats.

EXAM LINK

- **Prelims:** Retain the exact form, region, text, technique or institution attached to Melakarta and janya logic.
- **Mains:** Prepare system-comparison questions.

MINI RECAP

- **Evidence chain:** Melakarta and janya
- **Qualified use:** Prepare system-comparison questions.

CLOSING RECALL FLOW - FOUNDATION - MELAKARTA AND JANYA LOGIC

|

v

ANSWER-GRABBING FORMULATION: Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaata.

SESSION 3 - FOUNDATION - HINDUSTANI AND CARNATIC SHARED ROOTS

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure.

Technical definition: Evidence chain: Shared-root comparison Qualified use: Create a balanced comparison thesis.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure.

MUST-WRITE KEYWORDS

- **FOUNDATION**
- **Hindustani**
- **Carnatic shared roots**
- **Evidence chain**
- **Qualified use**
- **Carnatic**

How to use them: Frame the answer through FOUNDATION; define Hindustani, connect Carnatic shared roots with Evidence chain to explain the mechanism, and use Qualified use for the decisive comparison or qualification.

VISUAL FIRST

HINDUSTANI AND CARNATIC SHARED ROOTS

01. Shared-root comparison

BOUNDARY -> Reject foreign-versus-pure and improvisation-versus-fixed binaries.

This topic-specific rail fixes the evidence sequence and its exam boundary before analysis.

CORE EXPLANATION

Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure.

NAMED EVIDENCE AND MECHANISM

- Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure.

EXAMINER CAUTION

- Reject foreign-versus-pure and improvisation-versus-fixed binaries.

EXAM LINK

- **Prelims:** Retain the exact form, region, text, technique or institution attached to Hindustani and Carnatic shared roots.
- **Mains:** Create a balanced comparison thesis.

MINI RECAP

- **Evidence chain:** Shared-root comparison
- **Qualified use:** Create a balanced comparison thesis.

CLOSING RECALL FLOW - FOUNDATION - HINDUSTANI AND CARNATIC SHARED ROOTS

START / CONCEPT: FOUNDATION - Hindustani and Carnatic shared roots

|

|

v

ANSWER-GRABBING FORMULATION: Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure.

SESSION 4 - CORE - RAGA, RASA AND TIME

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws.

Technical definition: Evidence chain: Rasa-raga linkage Qualified use: Add the cross-performing-arts dimension.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws.

MUST-WRITE KEYWORDS

- Raga
- rasa
- time
- Evidence chain
- Qualified use
- Music

How to use them: Frame the answer through Raga; define rasa, connect time with Evidence chain to explain the mechanism, and use Qualified use for the decisive comparison or qualification.

VISUAL FIRST

RAGA, RASA AND TIME

01. Rasa-raga linkage

BOUNDARY -> Associations are aesthetic conventions, not universal physical laws.

This topic-specific rail fixes the evidence sequence and its exam boundary before analysis.

CORE EXPLANATION

Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws.

NAMED EVIDENCE AND MECHANISM

- Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws.

EXAMINER CAUTION

- Associations are aesthetic conventions, not universal physical laws.

EXAM LINK

- **Prelims:** Retain the exact form, region, text, technique or institution attached to Raga, rasa and time.
- **Mains:** Add the cross-performing-arts dimension.

MINI RECAP

- **Evidence chain:** Rasa-raga linkage
- **Qualified use:** Add the cross-performing-arts dimension.

CLOSING RECALL FLOW - CORE - RAGA, RASA AND TIME

START / CONCEPT: CORE - Raga, rasa and time
|
v
EXACT TERMS: Raga · rasa · time · Evidence chain · Qualified use · Music
|
v
MECHANISM / ARGUMENT: Evidence chain: Rasa-raga linkage Qualified use: Add the cross-performing-arts dimension.
|

|
v
ANSWER-GRABBING FORMULATION: Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws.

SESSION 5 - CORE - TREATISES BY CONTRIBUTION

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Evidence chain: Treatise contribution chain Qualified use: Build a chronological theory spine.

Technical definition: Technically, CORE - Treatises by contribution is analysed by relating Treatises by contribution to Evidence chain, then testing the relationship through Qualified use and Bharata.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Evidence chain: Treatise contribution chain Qualified use: Build a chronological theory spine.

MUST-WRITE KEYWORDS

- **Treatises by contribution**
- **Evidence chain**
- **Qualified use**
- **Bharata**
- **Matanga's Brihaddeshi**
- **Sharngadeva's Sangita Ratnakara**

How to use them: Frame the answer through Treatises by contribution; define Evidence chain, connect Qualified use with Bharata to explain the mechanism, and use Matanga's Brihaddeshi for the decisive comparison or qualification.

VISUAL FIRST

TREATISES BY CONTRIBUTION

01. Treatise contribution chain

BOUNDARY -> A title list without conceptual contribution earns little.

This topic-specific rail fixes the evidence sequence and its exam boundary before analysis.

CORE EXPLANATION

Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta.

NAMED EVIDENCE AND MECHANISM

- Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta.

EXAMINER CAUTION

- A title list without conceptual contribution earns little.

EXAM LINK

- **Prelims:** Retain the exact form, region, text, technique or institution attached to Treatises by contribution.
- **Mains:** Build a chronological theory spine.

MINI RECAP

- **Evidence chain:** Treatise contribution chain
- **Qualified use:** Build a chronological theory spine.

CLOSING RECALL FLOW - CORE - TREATISES BY CONTRIBUTION

START / CONCEPT: CORE - Treatises by contribution

|
v

EXACT TERMS: Treatises by contribution · Evidence chain · Qualified use · Bharata · Matanga's Brihaddeshi · Sharngadeva's Sangita Ratnakara

|
v

MECHANISM / ARGUMENT: Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta.

|
v

CONSEQUENCE / CONTRAST: Mains: Build a chronological theory spine.

|
v

UPSC TRAP / ANSWER-USE: Do not miss this limiting distinction: evidence chain: Treatise contribution chain Qualified use: Build a chronological theory spine.

|
v

ANSWER-GRABBING FORMULATION: Evidence chain: Treatise contribution chain Qualified use: Build a chronological theory spine.

SESSION 6 - CORE - BHATKHANDE, PALUSKAR AND PEDAGOGY

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Evidence chain: Modern pedagogy Qualified use: Prepare the 2025 objective route.

Technical definition: Institutional transmission widened access while standardising practice.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Evidence chain: Modern pedagogy Qualified use: Prepare the 2025 objective route.

MUST-WRITE KEYWORDS

- Bhatkhande
- Paluskar

- pedagogy
- Evidence chain
- Qualified use
- Institutional

How to use them: Frame the answer through Bhatkhande; define Paluskar, connect pedagogy with Evidence chain to explain the mechanism, and use Qualified use for the decisive comparison or qualification.

VISUAL FIRST

BHATKHANDE, PALUSKAR AND PEDAGOGY

01. Modern pedagogy

BOUNDARY -> Institutional transmission widened access while standardising practice.

This topic-specific rail fixes the evidence sequence and its exam boundary before analysis.

CORE EXPLANATION

V.N. Bhatkhande systematised thaat-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music.

NAMED EVIDENCE AND MECHANISM

- V.N. Bhatkhande systematised thaat-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music.

EXAMINER CAUTION

- Institutional transmission widened access while standardising practice.

EXAM LINK

- **Prelims:** Retain the exact form, region, text, technique or institution attached to Bhatkhande, Paluskar and pedagogy.
- **Mains:** Prepare the 2025 objective route.

MINI RECAP

- **Evidence chain:** Modern pedagogy
- **Qualified use:** Prepare the 2025 objective route.

CLOSING RECALL FLOW - CORE - BHATKHANDE, PALUSKAR AND PEDAGOGY

START / CONCEPT: CORE - Bhatkhande, Paluskar and pedagogy

|

v

EXACT TERMS: Bhatkhande · Paluskar · pedagogy · Evidence chain · Qualified use · Institutional

|

v

MECHANISM / ARGUMENT: Institutional transmission widened access while standardising practice.

|

v

CONSEQUENCE / CONTRAST: The resulting consequence is that evidence chain: Modern pedagogy Qualified use: Prepare the 2025 objective route.

|

v

UPSC TRAP / ANSWER-USE: Do not miss this limiting distinction: evidence chain: Modern pedagogy Qualified use: Prepare the 2025 objective route.

|

v

ANSWER-GRABBING FORMULATION: Evidence chain: Modern pedagogy Qualified use: Prepare the 2025 objective route.

SESSION 7 - CORE - GHARANA AS LABOUR AND PATRONAGE

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship.

Technical definition: A gharana is more than a stylistic label.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship.

MUST-WRITE KEYWORDS

- Gharana as labour
- patronage
- Evidence chain
- Qualified use
- A gharana
- Gharana

How to use them: Frame the answer through Gharana as labour; define patronage, connect Evidence chain with Qualified use to explain the mechanism, and use A gharana for the decisive comparison or qualification.

VISUAL FIRST

GHARANA AS LABOUR AND PATRONAGE

01. Gharana as transmission ecology

BOUNDARY -> A gharana is more than a stylistic label.

This topic-specific rail fixes the evidence sequence and its exam boundary before analysis.

CORE EXPLANATION

A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship.

NAMED EVIDENCE AND MECHANISM

- A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship.

EXAMINER CAUTION

- A gharana is more than a stylistic label.

EXAM LINK

- **Prelims:** Retain the exact form, region, text, technique or institution attached to Gharana as labour and patronage.
- **Mains:** Explain transmission as social organisation.

MINI RECAP

- **Evidence chain:** Gharana as transmission ecology
- **Qualified use:** Explain transmission as social organisation.

CLOSING RECALL FLOW - CORE - GHARANA AS LABOUR AND PATRONAGE

|

v

MECHANISM / ARGUMENT: Evidence chain: Gharana as transmission ecology Qualified use: Explain transmission as social organisation.

|

v

CONSEQUENCE / CONTRAST: A gharana is more than a stylistic label.

|

v

UPSC TRAP / ANSWER-USE: Do not miss this limiting distinction: mains: Explain transmission as social organisation.

|

v

ANSWER-GRABBING FORMULATION: A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship.

SESSION 8 - CORE - NAMED GHARANA DISCRIMINATORS

DEFINITION / WHAT THIS IS CALLED

Plain-language definition: Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal.

Technical definition: Evidence chain: Named gharana distinctions Qualified use: Build Prelims elimination.

ANSWER-GRABBING OPENING - WRITE/ADAPT IN THE EXAM

Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal.

MUST-WRITE KEYWORDS

- **Named gharana discriminators**
- **Evidence chain**
- **Qualified use**
- **Dagar**
- **Dhrupad**
- **Darbhangha**

How to use them: Frame the answer through Named gharana discriminators; define Evidence chain, connect Qualified use with Dagar to explain the mechanism, and use Dhrupad for the decisive comparison or qualification.

VISUAL FIRST

NAMED GHARANA DISCRIMINATORS

01. Named gharana distinctions

BOUNDARY -> Do not swap exponents or specialisations.

This topic-specific rail fixes the evidence sequence and its exam boundary before analysis.

CORE EXPLANATION

Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal.

NAMED EVIDENCE AND MECHANISM

- Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal.

EXAMINER CAUTION

- Do not swap exponents or specialisations.

EXAM LINK

- **Prelims:** Retain the exact form, region, text, technique or institution attached to Named gharana discriminators.
- **Mains:** Build Prelims elimination.

MINI RECAP

- **Evidence chain:** Named gharana distinctions
- **Qualified use:** Build Prelims elimination.

CLOSING RECALL FLOW - CORE - NAMED GHARANA DISCRIMINATORS

START / CONCEPT: CORE - Named gharana discriminators

|

- **Qualified use:** Close with transparent objective-route handling.

COMPLETE BASIC OWNER EVIDENCE BANK

Subject: Indian Art & Culture | **Tier:** Must-Do (foundation) | **GS Paper:** GS-I. **Core area:** Swara-raga-tala vocabulary; Hindustani vs. Carnatic music; gharana system; Dhrupad/Khayal/Thumri/Tappa/Ghazal styles; instruments; folk music. **Grounded in:** Nitin Singhania, *Indian Art and Culture*, PDF pp. 411-457; Satish Chandra, *History of Medieval India*, PDF pp. 332-334; Satish Chandra, *Medieval History, 1526-1748, Part 2*, PDF pp. 394-395; 00_Master-Framework.md Section 3; audited UPSC Mains 2024-2025 GS Paper I (no direct question). **FACT:** = source-grounded | **ANALYSIS:** = analytical inference | **CURRENT:** = current anchor | **WRONG:** = trap. *Companion:* advanced/08_Indian-Music.md.

1. Snapshot and syllabus fit

FACT: This topic covers Indian music's swara-raga-tala vocabulary, the Hindustani-Carnatic division, gharana-based transmission, and named musical styles/instruments. **ANALYSIS:** No 2024/2025 Mains question tests this topic directly; it is primarily a Prelims and vocabulary-support topic for any performing-arts question.

2. Essential vocabulary

Term	Exam-ready meaning
FACT: Saptaswara	The seven notes - Shadja (Sa), Rishabha (Re), Gandhara (Ga), Madhyama (Ma), Panchama (Pa), Dhaivata (Dha), Nishada (Ni) - the base scale of Indian music (<i>Nitin...pdf</i> , PDF pp. 411-412;ff).
FACT: Raga	A melodic framework associated with a specific time of day/season and evoked mood (rasa) - e.g. Bhairav (dawn, peace), Malkauns (midnight, bravery) (<i>Nitin...pdf</i> , PDF pp. 411-412;ff).
FACT: Thaat vs. Raga	A thaat is a parent scale (must have seven notes, only ascending/descending structure, no vaadi/samvadi note, named after a raga); a raga is a specific melodic entity (can have five/six/seven notes, has aaroha/avaroha and melody, has vaadi/samvadi notes) (<i>Nitin...pdf</i> , PDF pp. 411-412;ff).
FACT: Gharana	A hereditary/regional stylistic lineage of musical transmission (e.g. Dagar, Darbhanga, Gwalior, Kirana, Agra, Patiala, Bhendibazaar gharanas), each with a distinct vani/style and named exponents (<i>Nitin...pdf</i> , PDF pp. 411-412;ff).
FACT: Dhrupad, Khayal, Thumri, Tappa, Ghazal, Tarana	Named vocal styles of Hindustani music, each with a distinct structure, tempo and emotional register (<i>Nitin...pdf</i> , PDF pp. 411-412;ff).
FACT: Sthayee/Mukhda vs. Antara	The first (most/repeated) part of a composition vs. its second part (<i>Nitin...pdf</i> , PDF pp. 411-412;ff).

3. Core classification

FACT: Indian classical music divides into two major traditions: **Hindustani** and **Carnatic**. Both draw on older shared theory and both contain extensive improvisation. Hindustani practice developed through North Indian courtly, devotional and Persianate encounters; Carnatic practice crystallised around South Indian temple/court/sabha networks. Their contrast is one of grammar, repertoire, ornament and performance sequence - not "foreign versus pure" or "improvised versus fixed." FACT: Hindustani vocal music sub-classifies into styles including Dhrupad (oldest, associated with Mian Tansen), Khayal, Thumri, Tappa, Ghazal and Tarana, each carried by specific gharanas.

4. Foundation narrative

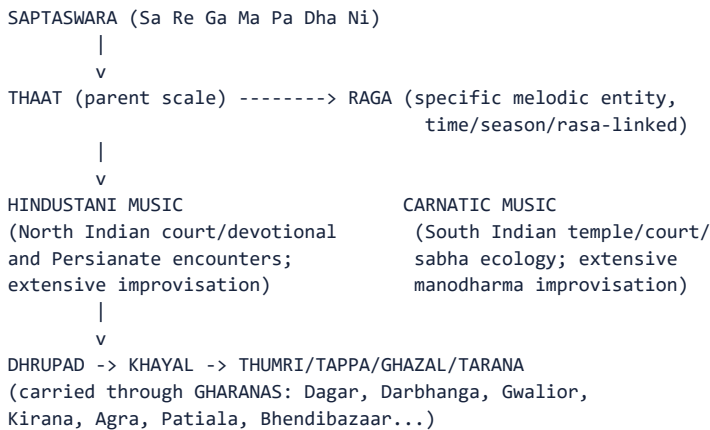

FACT: The Rasa framework used in music mirrors the Natya Shastra's nine rasas (Shringara/love, Hasya/humour, Karuna/pathos, Raudra/anger, Bhayanaka/horror, Veer/bravery, Adbhuta/wonder, Bibhatsya/disgust, Shant/peace), each linked to specific ragas (e.g. Shringara with Raga Kafi/Desh; Karuna with Raga Bhairavi) (*Nitin...pdf*, PDF pp. 411-ff). FACT: The Gharana system carries named lineages: Dagar Gharana (Dagar Vani, Dhrupad); Darbhanga Gharana (Khandar Vani, equal focus on Alaap and Layakari); Gwalior Gharana (oldest Khayal gharana, equal emphasis across elements); Kirana Gharana (precise swara focus, Abdul Karim Khan); Agra Gharana (blend of Khayal and Dhrupad-Dhamar); Patiala Gharana (Thumri/ Ghazal specialisation, Bade Ghulam Ali Khan); Bhendibazaar Gharana (breath-control emphasis) (*Nitin...pdf*, PDF pp. 411-ff). FACT: Thumri, Tappa and Ghazal are named as distinct semi-classical Hindustani styles, each with its own historical origin and performance context (*Nitin...pdf*, PDF pp. 411-ff).

FACT: **Treatise spine:** Bharata's *Natyashastra* discusses music with drama; Matanga's *Brihaddeshi* is associated with an early definition of raga; Sharngadeva's *Sangita Ratnakara* (13th century) is a major pre-bifurcation authority; Venkatamakhin's *Chaturdandi Prakasika* underlies the melakarta approach; modern Hindustani pedagogy was systematised by V.N. Bhattachande and V.D. Paluskar. FACT: Carnatic classification uses 72 melakarta parent ragas and derived janya ragas; this is not the same system as Hindustani thaats.

FACT: Satish Chandra corrects a common Aurangzeb cliché: singing was removed from the imperial court, but instrumental music continued; royal women and nobles patronised music, Aurangzeb played the veena, and

substantial music literature was produced. Sadarang and Adarang later strengthened khayal under Muhammad Shah; the invention dates of tabla and sitar remain uncertain (*Part 2*, PDF pp. 394-395).

5. Visual map or comparison table

Basis	Hindustani music	Carnatic music
FACT: Historical ecology	North Indian temple, devotional, Sultanate/;Mughal and regional-/;court networks	South Indian temple, court and later sabha networks
FACT: Parent-/;scale system	Bhatkhande's 10 thaats (pedagogic classification)	72 melakartas; janya ragas derived from them
FACT: Improvisation	Alap, bol-/;bant, taan, layakari, etc.	Alapana, niraval, kalpana swara, tanam, pallavi, etc.
FACT: Major forms	Dhrupad, khayal, thumri, tappa, tarana	Kriti, varnam, padam, javali, tillana, ragam-/;tanam-/;pallavi

6. Source spine

FACT: *Nitin...pdf*, PDF pp. 411-457 (Chapter 10, "Indian Music" - full chapter outline: history, anatomy, classification, semi-classical Hindustani styles, Carnatic music, treatises, folk music, instruments), the direct spine for Sections 2-4.

FACT: §13.7A draws specifically on PDF pp. 428-434 (Carnatic form anatomy, the Hindustani-Carnatic difference table and the "Notable Musicians/Patrons" tables) and PDF p. 878 (the **Tyagaraja Aradhana** and the **Trinity of Carnatic music**, in the festivals chapter).

FACT: **§13.7B** (musical instruments) draws specifically on PDF pp. **447-450** - the four-fold classification table and the **Santoor** note; **§13.7C** (modern musicians) on PDF pp. **433** and **435** - the "Notable Musicians" tables with dates, forms and Bharat Ratna years - and on PDF p. **291** for the **Benaras Gharana** and its named exponents.

7. Exact PYQ application

ANALYSIS: No GS-I Mains question in the audited 2024-2025 papers directly tests Indian music. This topic supplies vocabulary and classification (gharana, raga-rasa linkage, Hindustani-Carnatic distinction) reusable in any future performing-arts question and supports topic 09 (dance-music accompaniment) and topic 10 (theatre-music overlap).

8. CURRENT: Current anchor

- CURRENT: Sangeet Natak Akademi (SNA) is the nodal body recognising and awarding classical musicians (developed in topic 14); verify the most recent SNA award year covered before citing any specific awardee as current, since award lists are updated periodically and this file does not assume any specific recent awardee.

9. WRONG: Traps and corrections

- WRONG: Thaata and raga are interchangeable terms. -> A thaata is a parent scale (seven notes, no vaadi/samvadi, ascending-descending structure only); a raga is a specific melodic entity with its own vaadi/samvadi notes and can have five, six or seven notes.

- WRONG: Hindustani and Carnatic music are stylistically identical traditions

with only geographic labels distinguishing them. -> They differ in repertoire, ornament, rhythmic treatment, parent-scale classification and performance sequence, while sharing older theoretical roots.

- **WRONG:** All gharanas share an identical stylistic emphasis. -> Each gharana (Dagar, Darbhanga, Gwalior, Kirana, Agra, Patiala, Bhendibazaar) has a distinct named specialisation (e.g. Kirana's precise-swara focus vs. Patiala's Thumri/Ghazal specialisation).
- **WRONG:** Carnatic music has little or no improvisation. -> Manodharma is fundamental; its formats differ from Hindustani improvisation.
- **WRONG:** Aurangzeb "buried music" throughout the empire. -> Court singing was curtailed, not all music; instruments, noble/household patronage and treatise production continued.
- **FACT: Local PYQ traps:** CSE 2019 treats claims that Tansen "invented many ragas" cautiously; CSE 2018 distinguishes Tyagaraja's mainly Rama-centred kritis and rejects simplistic contemporaneity claims.

10. Mains framework

1. Define the Hindustani-Carnatic distinction before naming any specific style or musician.
2. Use the thaata-vs-raga distinction with precision wherever a question tests classification.
3. Name a specific gharana with its distinguishing feature rather than describing "classical music" generically.
4. Link a named raga to its rasa/time-of-day association where the question invites an aesthetic-theory dimension.
5. Cross-reference topic 09 (dance) and topic 10 (theatre) for shared musical accompaniment traditions.

11. Boundaries with other subjects

- **WRONG: Topic 13 owns** the religious/devotional movements (Bhakti, Sufi) that produced much devotional music; this file owns the **musical form, structure and lineage**, not the devotional doctrine.
- **WRONG: Science & Technology owns** the acoustic physics of sound and instrument construction as a technical/scientific question.
- **FACT:** Cross-links: Topic 09 (music-dance accompaniment), Topic 10 (music-theatre overlap), Topic 14 (SNA recognition and awards).

12. Companion links

- **FACT:** Advanced companion: `advanced/08_Indian-Music.md`.
- **FACT:** `00_Master-Framework.md` Section 3 - terminology-precision discipline reused for the thaata/raga distinction.
- **ANALYSIS: Cross-links:** Topic 09 (dance-music accompaniment), Topic 10 (theatre-music overlap), Topic 14 (SNA institutional recognition).

13. Answer architecture (10/15/20-mark support)

Core-sufficiency note. Music has no direct Mains PYQ in the audited set, but it is a dense Prelims owner and the standard supplier of the "performing arts and patronage" dimension in broader culture answers. This section makes `basic/08` sufficient for identification, comparison, patronage-change and safeguarding demands without `advanced/08`.

13.1 Directive and demand map

If the question says	It is really testing	Do NOT write
<i>Compare Hindustani and Carnatic music</i>	Grammar, classification system, improvisation format, repertoire and patronage ecology	"One is North Indian and the other South Indian"
<i>Discuss the gharana system</i>	Transmission as a labour and patronage structure , not merely a style label	"A gharana is a school of music"
<i>Classify Indian musical instruments / identify a named instrument</i>	The four-fold Tata-Sushira-Avanaddha-Ghana system, its sound mechanism and the instrument's tradition and region (§13.7B)	"String, wind and percussion" with no Sanskrit family and no mechanism
<i>Name the exponents of an instrument or gharana</i>	Instrument family kept distinct from performance genre , with dated recognition (§§13.7B, 13.7C)	Attaching a genre (dhrupad, Sufiana kalam) to an instrument family
<i>Music and patronage across political change</i>	Redirection of patronage - court -> household -> sabha -> concert hall -> recording -> state recognition	"Aurangzeb banned music"
<i>Treatises and the theory of Indian music</i>	Which text contributed which concept	A list of titles and authors
<i>Raga, rasa and time</i>	The aesthetic system linking melody to mood and hour	"Ragas create emotions"
<i>Folk and classical music</i>	Difference of function, transmission and setting - without a hierarchy	Calling folk music "less developed"
<i>Safeguarding of musical traditions</i>	Institutions, recognition, documentation, livelihood	"Government should promote classical music"

13.2 Qualified thesis options

- ANALYSIS: **Shared-root thesis:** "Hindustani and Carnatic music are two developments of a shared older theory, differentiated by classification system, improvisational grammar, ornament and performance sequence - not by the presence or absence of improvisation, and not by any 'foreign versus pure' contrast."
- ANALYSIS: **Gharana thesis:** "A gharana is best understood as a family-or-lineage-based structure that concentrated specialised musical skill for court and elite patronage, and then adapted to urban concert and recording patronage as princely courts declined."
- ANALYSIS: **Patronage-redirection thesis:** "Indian music's history shows that the loss of one patronage node redirects a tradition rather than extinguishing it - court singing was curtailed under Aurangzeb while instrumental practice, household and noble patronage and music writing continued, and khayal was later expanded under Muhammad Shah."
- ANALYSIS: **Institutionalisation thesis:** "Twentieth-century notation, pedagogy and institution-building made classical music transmissible outside hereditary lineages, which widened access while standardising what had been plural."

13.3 Mark-scaled structures

Marks	Structure
10	Thesis -> the distinction demanded, stated precisely -> two named forms/​gharanas/​treatises with their contribution -> one qualification -> verdict
10 (instrument classification/​identification)	Run §13.7B: the four-​fold Tata-Sushira-Avanaddha-Ghana system named in Sanskrit and in Western terms -> the sound mechanism that defines each -> two or three named instruments per family with tradition and region -> the membrane test that separates Avanaddha from Ghana -> the family-​versus-​genre discipline -> one named exponent from §13.7C -> verdict
15	Thesis -> theory spine (swara-​thaat/​melakarta-​raga-​tala) -> tradition comparison on four axes -> gharana/​patronage mechanism -> one dated institutional or safeguarding anchor -> verdict
15 (composer/​patronage comparison)	Run §13.7A: thesis (who paid and who was praised) -> the Carnatic composer bank with dates, forms and patrons -> the Hindustani court/​gharana bank from §§13.5, 13.7 -> the kriti/​kirtana and khayal/​dhrupad form contrast -> the institutional-​afterlife contrast (Tyagaraja Aradhana against the gharana) -> verdict
20	All of the above -> plus treatise chronology -> the medieval patronage case with its correction -> folk-​classical relationship without hierarchy -> modern institutionalisation and its costs -> verdict answering the exact wording
20 (patronage across both traditions)	§13.7A's three-​axis patronage table run in full -> temple/&#8203;empire (Annamacharya, Purandara Dasa, Venkatamakhin) against court (Tansen, Sadarang, Man Singh Tomar, Ibrahim Adil Shah II) -> the ruler-&#8203;composer cases (Swathi Thirunal, Maharana Kumbha) -> the Aurangzeb correction (§13.7) -> what replaced patronage after the courts (festival, gharana, concert, radio, recording) -> the safeguarding instruments and their limits (§13.8) -> verdict

13.4 Evidence bank A - theory spine (identification-ready)

Concept	FACT: Precise content	Exam use
Saptaswara	Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata, Nishada	The base scale both traditions share
Thaat	A parent scale : must have seven of the twelve notes, is stated in ascending order only, carries no vaadi ; samvadi , has no emotional quality and is not sung ; Hindustani pedagogy currently uses a 10- thaat classification - Bilawal, Khamaj, Kafi, Asavari, Bhairavi, Bhairav, Kalyan, Marwa, Poorvi and Todi (<i>Nitin...pdf</i> , PDF pp. 419-421)	The thaat - versus - raga distinction is the single most testable point here
Raga	A melodic entity with aaroha ; avaroha , vaadi ; samvadi notes, five; six ; seven notes, and time- season ; rasa association	Never interchangeable with thaat
Melakarta	Venkatamakhī's 17th-century Carnatic system of 72 parent (Melakarta/Janaka) ragas , each sampurna (all seven notes in ascent and descent), from which janya (derived) ragas are formed - e.g. Mayamalavagowla yields Malahari (<i>Nitin...pdf</i> , PDF p. 416)	Do not equate 72 melakartas with 10 thaats
Rasa linkage	The nine- rasa framework shared with dance (topic 09), with ragas associated to moods and hours	Supplies the aesthetic- theory dimension
Sthayee/Mukhda vs Antara	First, most- repeated section versus second section of a composition	Composition- structure vocabulary

13.5 Evidence bank B - treatise chronology (who contributed what)

Treatise	FACT: Contribution
Bharata, <i>Natyashastra</i>	Discusses music together with drama; the rasa framework (topics 09-10)
Matanga, <i>Brihaddeshi</i> (6th-8th century)	FACT: Focused on defining the term raga (<i>Nitin...pdf</i> , PDF p. 412)
Sharngadeva, <i>Sangita Ratnakara</i> (13th century)	Major authority written before the Hindustani-Carnatic bifurcation
Venkatamakhin, <i>Chaturdandiprakashika</i> (17th century)	FACT: Underlies the melakarta approach (<i>Nitin...pdf</i> , PDF pp. 412, 416)
V.N. Bhatkhande (1860-1936)	Thaat -based classification and modern Hindustani pedagogy
V.D. Paluskar (1872-1931)	FACT: Set up the Gandharva Mahavidyalaya in 1901 expressly to teach music (<i>Nitin...pdf</i> , PDF pp. 451-452); the Bhatkhande institution was founded in 1926 and later renamed the Bhatkhande Music Institute Deemed University

ANALYSIS: **Answer use**: a treatise question is answered by *contribution*, not by title-plus-author recall - say which concept each text fixed.

13.6 Evidence bank C - traditions compared on named axes

Axis	FACT: Hindustani	FACT: Carnatic
Historical ecology	North Indian temple, devotional, Sultanate/Mughal and regional/court networks	South Indian temple, court and later sabha networks
Parent/scale system	10 thaats (pedagogic)	72 melakartas withjanya derivation
Improvisation	Alap, bol/bant, taan, layakari	Manodharma: alapana, niraval, kalpana swara, tanam, ragam/tanam/pallavi
Major forms	Dhrupad, khayal, thumri, tappa, tarana, ghazal	Kriti, varnam, padam, javali, tillana, RTP
Transmission label	Gharana/named lineages	Guru/shishya, less commonly gharana/labelled

WRONG: **Two traps to close in any comparison:** Carnatic music is *not* improvisation-free - manodharma is extensive; and the two traditions are *not* merely geographic labels for one identical practice.

13.7 Evidence bank D - gharanas and patronage as a mechanism

Gharana	FACT: Distinguishing emphasis
Dagar	Dagar Vani; Dhrupad
Darbhangha	Khandar Vani; equal focus on alaap and layakari
Gwalior	Oldest khayal gharana; balanced emphasis across elements
Kirana	Precise swara focus (Abdul Karim Khan)
Agra	Blend of khayal with Dhrupad/Dhamar
Patiala	Thumri/ghazal specialisation (Bade Ghulam Ali Khan)
Bhendibazaar	Breath/control emphasis

ANALYSIS: **Mechanism to state:** a gharana concentrates a scarce skill in a household, ties it to a patron, and reproduces it by descent or long apprenticeship. When princely patronage contracted, the same lineages moved to urban concert, radio, teaching and recording - which is why gharana identity survived the disappearance of the courts that created it.

FACT: **The Aurangzeb correction, stated as evidence:** singing was removed from the imperial court, but instrumental music continued, royal women and nobles patronised music, Aurangzeb himself played the veena, and substantial music literature was produced; Sadarang and Adarang later strengthened khayal under Muhammad Shah (Satish Chandra, *Part 2*, PDF pp. 394-395). ANALYSIS: The invention dates of tabla and sitar remain uncertain.

13.7A Evidence bank D+ - Carnatic composers and patronage (the routed Tyagaraja/Annamacharya demands, closed)

Why this section exists. A hostile review found that §13.6's Hindustani-versus-Carnatic comparison had **named exponents on the Hindustani side only** (gharana founders, Sadarang, Tansen), so a 15/20-mark "compare the two traditions through their composers and patrons" demand - and the routed **2018 Prelims** demand on *Tyagaraja Kritis and Annamacharya kirtanas* - could not be answered from Core.

A. The composer bank (name · dates · contribution · patronage · limit)

Composer	FACT: Dates	FACT: Contribution and form	FACT: Patronage /​ legacy	Limit
Annamacharya	FACT: 1408-​1503	FACT: "First known Carnatic composer"; composed Sankirtanas in praise of Lord Venkateswara (<i>Nitin...pdf</i> , PDF p. 433)	FACT: Patronised by Vijayanagara rulers; remembered as the "Grandfather of Telugu songwriting" (PDF p. 433)	FACT: This row alone answers the routed 2018 demand's Annamacharya half: his compositions praise Venkateswara, not Krishna. ANALYSIS: Do not name individual sankirtanas
Purandara Dasa	FACT: 1484-​1564	FACT: "Founding father of Carnatic music"; composed Dasa Sahitya; separately, "Purandara Dasa (1484-​1564) is referred to as the Pitamaha or the father/​grandfather of Carnatic music" (PDF pp. 429, 433)	FACT: Patronised by the Vijayanagara Empire; revered as "Pitamaha of Carnatic Music"; a devotee of Lord Krishna (PDF pp. 433-​434)	ANALYSIS: "Founding father" is a traditional honorific about pedagogy and repertoire, not a claim that he invented the tradition
Tyagaraja	Not dated in the local source	FACT: A saint-​composer whose Kritis are the core of the Carnatic concert repertoire; the Tyagaraja Aradhana, held mainly at Thiruvaiyaru, Tamil Nadu, commemorates his samadhi and features leading Carnatic musicians paying tribute (<i>Nitin...pdf</i> , PDF p. 878)	FACT: "Saint Tyagaraja along with Muthuswami Dikshitar and Syama Sastri, comprise the Trinity of Carnatic music" (PDF p. 878)	WRONG: The routed 2018 demand's trap: do not say Tyagaraja's kritis are mostly in praise of Krishna, and do not make Tyagaraja and Annamacharya contemporaries - Annamacharya is dated 1408-​1503 in the same source, and the Trinity belongs to a much later period. ANALYSIS: The local source gives Tyagaraja no birth/​death years - do not supply any
Muthuswami Dikshitar	Not dated in the local source	FACT: Named as one of the three members of the Carnatic Trinity (PDF p. 878)	ANALYSIS: No patronage detail locally	WRONG: Do not attribute compositions, ragas or a language preference to him from memory
Syama Sastri	Not dated in the local source	FACT: Named as the third member of the Carnatic Trinity (PDF p. 878)	ANALYSIS: No patronage detail locally	WRONG: Same prohibition as above
Kshetrappa	FACT: 1600-​1680	FACT: Composer of Padams and Keertanas (PDF p. 434)	FACT: A travelling poet; his Padams are still sung in Bharatanatyam and Kuchipudi (PDF p. 434)	FACT: The clearest music-​to-​dance transmission row in this file (topic 09)
Bhadrachala Ramadasu	FACT: 1620-​1680	FACT: A Vaggeyakara - composer of both words and music - writing Telugu devotional compositions for Lord Rama (PDF p. 434)	FACT: Imprisoned by the Golconda Sultan; revered as a saint-​composer (PDF p. 434)	ANALYSIS: The imprisonment is the source's statement; do not build a political narrative on it
Venkatamakhin	FACT: 17th century	FACT: Musicologist; introduced the Melakarta system; authored the Chaturdandiprakashika; composed 24 Ashtapadis for the deity Tyagesha at Tiruvapur (PDF p. 434)	ANALYSIS: No court named locally	FACT: The bridge between §13.4's theory spine and this composer bank - the same man supplies the 72-​melakarta scheme

Composer	FACT: Dates	FACT: Contribution and form	FACT: Patronage /​ legacy	Limit
Swathi Thirunal Rama Varma	FACT: 1813-1846, Maharaja of Travancore	FACT: A composer in both Hindustani and Carnatic styles (PDF p. 434)	FACT: Patron of the Thanjavur Quartet ; "his death was mourned by the Royal Asiatic Society of Great Britain " (PDF p. 434)	FACT: The single best ruler-as-composer case in the folder - patronage and authorship in one person
Thanjavur Quartet - Chinniah, Ponniah, Sivanandam, Vadivelu	FACT: 19th century	FACT: Codified the Bharatanatyam repertoire (PDF p. 434)	FACT: Court musicians of Swathi Thirunal (PDF p. 434)	FACT: Four named brothers, a named patron and a named outcome - usable in topic 09's revival argument as well

B. The form distinction, stated only as far as the source supports it

Term	FACT: What the source says	Safe use	WRONG: What must not be written
Kriti	FACT: "Carnatic music is kriti based and focuses more on the sahitya or the quality of the lyrics of the musical piece. The Kriti is a highly evolved musical song set to a certain raga and fixed tala or rhythmic cycle" (<i>Nitin...pdf</i> , PDF p. 428)	Describe it as the central, highly evolved composed form of the Carnatic concert, defined by a fixed raga and tala and by the primacy of the text	WRONG: Do not define kriti by a fixed number of sections beyond the Pallavi /​ Anu Pallavi /​ Charana structure the source gives
Kirtana /​ Sankirtana	FACT: The source uses kirtana of Annamacharya's devotional songs in praise of Venkateswara and sankirtana of the same corpus (PDF pp. 433, 456); FACT: Sankirtana is separately recorded as Manipur's ritual singing, drumming and dancing by the Vaishnava community (PDF p. 443)	Treat kirtana/sankirtana as the earlier, congregational-devotional song type from which the concert kriti developed, and note that the same word names a distinct Manipuri ritual form	WRONG: Do not assert a formal-structural definition of kirtana, or a dated evolutionary sequence from kirtana to kriti; the local source supplies neither. ANALYSIS: Say "the source uses kirtana for Annamacharya's devotional songs and kriti for the evolved concert form" and stop
Composition anatomy	FACT: Pallavi (first or second thematic lines, repeated in each stanza, "the Piece de Resistance" in Ragam Thanam Pallavi); Anu Pallavi (two lines following the Pallavi, sung at the beginning and sometimes towards the end, not necessarily repeated after every Charanam); Charana (the final and longest verse) (PDF pp. 428-429)	The three-part anatomy is the safest thing to write about any Carnatic composition	-
Other forms	FACT: Besides the kriti: Varnam (for beginners and as concert openers), Padam, Javalis, Tillanas ; a typical concert begins with a Varnam , followed by Alapana, Neraval, Kalpana swaras , and ends with lighter pieces such as a Tillana ; Swara-Kalpana is improvised with a drummer at medium and fast paces; melodic improvisation in free rhythm with mridangam is Tanam , and pieces without mridangam are Ragam (PDF pp. 428-429)	Gives the concert order , which is a stronger answer than a form list	-

C. The patronage mechanism, stated comparatively (the 15/20-mark engine)

Axis	FACT: Carnatic evidence	FACT: Hindustani evidence	ANALYSIS: The analytical point
Primary patron type	Temple and empire: Annamacharya and Purandara Dasa under Vijayanagara ; Venkatamakhin composing for the deity Tyagesha at Tiruvarur ; Bhadrachala Ramadasu's Rama compositions	Court: Tansen under Akbar (earlier under Raja Ramchandra of Rewa); Sadarang (Nyamat Khan, 1670-1748) shaping khayal as court musician of Muhammad Shah ; Raja Man Singh Tomar compiling the Mankautuhal at Gwalior; Ibrahim Adil Shah II writing the Kitab-i-Nauras (<i>Nitin...pdf</i> , PDF pp. 431-433)	The source's own summary: Carnatic music "remains closely tied to temple and spiritual traditions of South India, unlike Hindustani music which flourished under Mughal courts " (PDF p. 429)
Princely-state patron	Swathi Thirunal of Travancore - patron and composer, sustaining the Thanjavur Quartet	Maharana Kumbha of Mewar - wrote Sangeet Raja, Sangeet Mimansa and other treatises and played the veena (PDF p. 431)	Rulers on both sides authored as well as funded; patronage was not only money
Institutional afterlife	The Tyagaraja Aradhana at Thiruvaiyaru - a saint's samadhi becoming an annual professional gathering	The gharana - a household concentrating a scarce skill, surviving the courts through concert, radio, teaching and recording (§13.7)	ANALYSIS: Both traditions replaced vanished patrons with a new institution ; the Carnatic replacement was a festival tied to a saint , the Hindustani a lineage tied to a household . That contrast is the thesis a comparison answer should argue
Influence claim	FACT: The source describes Carnatic influence as indigenous and notes "only one particular prescribed style of singing" with less scope for improvisation	FACT: Arab, Persian and Afghan influence, with several sub-styles producing gharanas	WRONG: Do not repeat the source's "less scope for improvisation" without §13.6's correction - the same book describes manodharma (alapana, neraval, kalpana swara, tanam, RTP) at length, so the claim is about codified style , not absence of improvisation

ANALYSIS: **Verdict scaffold for a comparison demand:** "The two traditions are best compared through **who paid and who was praised**: Carnatic composition grew where the addressee was a deity and the patron an empire or a temple, producing a saint-composer canon still organised around Tyagaraja's samadhi; Hindustani composition grew where the addressee was a patron and the venue a court, producing lineages that outlived the courts by moving into concert and recording. The musical differences - kriti and sahitya against khayal and gharana idiom - follow from that difference of address, not from geography alone."

13.7B Evidence bank D++ - musical instruments: the four-fold classification, identification and traps

Why this exists. A hostile review found that **musical instruments were absent from Core altogether** - the folder taught raga, tala, gharana, treatise and composer, but a candidate could not have said which family the **ghatam** belongs to, what a **sushira vadya** is, or which instrument accompanies **Sufiana kalam**. Instrument identification is one of the highest-frequency objective demands in this subject, and it also supplies the "material and technique" leg of any 15-mark music answer. Source: *Nitin...pdf*, PDF pp. **447-450**.

FACT: **The classification is four-fold and the Sanskrit names are examinable in both directions** (Sanskrit -> Western category, and instrument -> family):

FACT: Sanskrit family	FACT: Western equivalent	FACT: Sound mechanism, in the source's words	FACT: Classical examples	FACT: Folk / regional examples
Tata Vadya	Chordophones	"They are string instruments " - sound from a stretched, vibrating string	Bowed: Sarangi, Esraj/Dilruba, Violin. Plectral: Sitar, Veena, Tanpura, Guitar. Struck: Gotuvadyam, Swaramandal	Bowed: Chikara (Rajasthan/UP/MP), Sarinda (Santhals, Assam, Rajasthan), Tingteila (Nagaland), Kamaicha (Rajasthan, Manganiyars). Plectral: Tumbi (Punjab, Bhagra), Ektara/Tun Tuna (wandering monks), Dotara (Bauls), Onavillu (Kerala, bamboo)
Sushira Vadya	Aerophones	"They include all the wind instruments " - sound from an enclosed air column	Bansuri (Flute), Shehnai , Pungi, Ninkirns	Pungi/Been (snake charmers), Algoza (Punjab, double flute), Tangmuri (Meghalaya), Titti (South India, bagpipe), Mashak (Uttarakhand, Rajasthan, UP), Gogona (Assam, Bihu), Ejuk Tapung (Assam, rare)
Avanaddha / Awanaddha Vadya	Membranophones	"They are percussion instruments, and one has to strike to generate musical sound" - a stretched membrane over a resonator	Tabla , Drum, Dhol, Congo, Mridangam , Bhumi Dundubhi (ancient earth drum)	Ghumot (Goa, Ganesh festival), Idakka (Kerala, Damru-like), Udukai (Tamil Nadu, Damru-type), Sambal (Maharashtra, Konkan), Tamak (Santhals, two-headed drum), Diggi (Uttar Pradesh)
Ghana Vadya	Idiophones	"They are non-drum percussion instruments which do not require tuning " - the body of the instrument itself vibrates	Manjira/Jhanj, Jaltarang , Kanch-tarang, Ghungroo, Ghatam , Khartal	Chimta (Punjab, fire tongs), Gharha (Punjab, earthen pots), Andelu (Burra/Katha, hollow metal rings)

MEMORY: **Mnemonic for the four families, in the source's own table order: A-S-G-T** - **A**vanaddha (strike a skin) · **S**ushira (blow through a hollow) · **G**hana (strike a solid) · **T**ata (pluck or bow a string). The single discriminator between **Avanaddha** and **Ghana** is the **membrane**: both are struck, only Avanaddha has a skin, and the source makes the point by saying Ghana instruments **do not require tuning**.

FACT: Tradition, region and named exponents (from the source's own "Usage" column and elsewhere in the chapter)

FACT: Instrument	FACT: Family	FACT: Tradition /​ region	FACT: Named association
Tabla	Avanaddha	Hindustani	ANALYSIS: Popularly attributed to Amir Khusrau - contested , see §13.10
Mridangam	Avanaddha	Carnatic	-
Shehnai	Sushira	Hindustani; classical and "national events"	FACT: Ustad Bismillah Khan (PDF p. 448)
Bansuri /&#8203; flute	Sushira	Hindustani	FACT: Hariprasad Chaurasia ; the source also names Krishna as the mythic flute association (PDF p. 448)
Sarangi	Tata (bowed)	Hindustani	FACT: "Sarangi pioneers - Bhangash family " (PDF p. 449)
Sitar	Tata (plectral)	Hindustani	FACT: Sitar gharanas - Jaipur, Varanasi, Etawah (PDF pp. 449-​450)
Veena	Tata (plectral)	Carnatic-​associated	FACT: " Saraswati's instrument " (PDF p. 450)
Santoor	Tata (struck)	Jammu and Kashmir , "since ancient times"	FACT: 100-&#8203;stringed ; FACT: Sufiana kalam music is accompanied by the Santoor (PDF p. 450)
Pungi /&#8203; Been	Sushira	Rajasthan; snake charmers	FACT: The instrument of the Kalbelia dance (§13.8; basic/​09)
Kamaicha	Tata (bowed, folk)	Rajasthan	FACT: Manganiyars
Dotara	Tata (plectral, folk)	Bengal	FACT: Bauls
Ektara /&#8203; Tun Tuna	Tata (plectral, folk)	Pan-​Indian	FACT: Wandering monks
Gogona	Sushira	Assam	FACT: Bihu
Ghumot	Avanaddha	Goa	FACT: Ganesh festival
Chimta	Ghana	Punjab	FACT: Literally fire tongs - an everyday object recruited as an instrument
Ghatam	Ghana	Carnatic percussion	FACT: Source groups the Ghana classical set as " rhythm-&#8203;keepers, ancient (Harappan) "

WRONG: Close-option traps - the four that decide an instrument question

Trap	WRONG: Wrong	FACT: Right
Ghatam /&#8203; Jaltarang misfiled as drums	"Percussion => membranophone"	Both are Ghana Vadya (idiophones) : non-&#8203;drum percussion, no tuning required . A ghatam is a pot , a jaltarang is a set of bowls - no membrane, so not Avanaddha
Family confused with genre	"Shehnai is a genre"; "Dhrupad is an instrument"; "Sufiana kalam is an instrument"	Family = how the sound is made (Sushira). Genre/&#8203;form = what is performed (dhrupad, khayal, thumri, Sufiana kalam , Rabindra Sangeet, Haveli Sangeet). The Santoor accompanies Sufiana kalam - the instrument and the genre are different objects (§13.6)
Region attached to the wrong instrument	Santoor placed in Rajasthan; Kamaicha in Kashmir	Santoor - Jammu and Kashmir; Kamaicha - Rajasthan (Manganiyars); Tumbi - Punjab (Bhangra); Gogona - Assam (Bihu); Idakka - Kerala; Udukai - Tamil Nadu; Sambal - Maharashtra/​Konkan; Tangmuri - Meghalaya
Tradition attached to the wrong drum	"Mridangam is Hindustani"	Tabla - Hindustani; Mridangam - Carnatic (PDF p. 448). This is the single most repeated instrument pairing in objective papers

- ANALYSIS: **Struck chordophones are real and are the sleeper option:**

Gotuvadyam and **Swaramandal** are classified by the source as **Tata Vadya (c) Struck (Classical)**, "played with hammers or sticks." An option that calls a struck instrument a *percussion* instrument is testing exactly this: the **string**, not the striking, fixes the family.

- ANALYSIS: **Antiquity claim, stated as the source states it:** the Ghana

classical set is glossed "rhythm-keepers, **ancient (Harappan)**," and **Bhumi Dundubhi** is glossed "**ancient earth drum**." WRONG: Do not convert either gloss into an excavated-object claim or a date.

- WRONG: **Prohibitions for this bank.** Do not assign an inventor or an invention date to any instrument; do not state string counts other than the Santoor's **100**, which the source gives; do not add gharanas to the sitar list beyond **Jaipur, Varanasi and Etawah**; do not attribute an instrument to a performer not named above; do not translate a folk instrument's name or assign it a community the source does not give.

13.7C Evidence bank D+++ - modern musicians, source-grounded and bounded

Why this exists. The same review found that Core could name **treatises, gharanas and Carnatic composers** but not a single **twentieth-century performer**, so any demand touching modern classical music, national recognition or the "living tradition" angle had no named evidence. Every row below is taken from the source's own table at *Nitin...pdf*, PDF pp. **433, 435**, and nothing has been added to it.

FACT: Musician	FACT: Dates	FACT: Instrument /​ form	FACT: Tradition, gharana or association	FACT: Recognition and legacy, as sourced
Pandit Bhimsen Joshi	1922-​2011	Khayal exponent (vocal)	Kirana Gharana - whose emphasis, from §13.7, is precise tuning of swaras, slow tempo, melody over rhythm and clear pronunciation	FACT: Bharat Ratna (2008) ; famous for " Mile Sur Mera Tumhara "
Ustad Bismillah Khan	1916-​2006	Shehnai maestro (Sushira Vadya, §13.7B)	FACT: Benaras Gharana of Hindustani classical music, which the source says produced "gems like Bismillah Khan, Sitara Devi, Girija Devi " (PDF p. 291)	FACT: Bharat Ratna (2001) ; popularised the shehnai in classical and national events
Pandit Ravi Shankar	1920-​2012	Sitar maestro (Tata Vadya, plectral)	ANALYSIS: The source gives no gharana for him - do not supply one	FACT: Bharat Ratna (1999) ; globalised Indian classical music ; collaborated internationally
M.S. Subbulakshmi	1916-​2004	Carnatic vocalist	Carnatic	FACT: Bharat Ratna (1998) ; global ambassador of Carnatic music
Gangubai Hangal	ANALYSIS: Not dated in the source	Vocal	FACT: Kirana Gharana (§13.7, PDF p. 425)	ANALYSIS: Named as a Kirana exponent only; WRONG : no award or date may be added
Abdul Karim Khan · Abdul Wahid Khan	ANALYSIS: 20th century, per the gharana table	Vocal	FACT: Kirana Gharana - popularisers of the gharana	ANALYSIS: Named as exponents only
Faiyyaz Khan · Vilayat Hussain Khan	ANALYSIS: Not dated	Vocal	FACT: Agra (Rangila) Gharana - blend of khayal with dhrupad-​dhamar, stress on bandish	ANALYSIS: Named as exponents only

- ANALYSIS: **How to use this in an answer, not just recall it.** The four Bharat

Ratna rows give a **dated, official recognition sequence - 1998, 1999, 2001, 2008** - across **two traditions** (Carnatic vocal, Hindustani vocal) and **two instruments** (sitar, shehnai). That is the strongest available evidence for the argument that after the princely courts ended, the **state replaced the patron**: recognition, not employment, became the reward structure (§13.7's patronage-redirection thesis). FACT: Pair it with the **institutional** instruments in §13.8 (Sangeet Natak Akademi awards, the **Ustad Bismillah Khan Yuva Puraskar** for artists under 40 - named after the shehnai maestro in this very table) to show patronage becoming **bureaucratic and generational**.

- ANALYSIS: **Instrument-family discipline (the cross-check with §13.7B):**

Bismillah Khan = **shehnai** = **Sushira Vadya** = **aerophone**; Ravi Shankar = **sitar** = **Tata Vadya, plectral** = **chordophone**; Bhimsen Joshi and M.S. Subbulakshmi are **vocalists and belong to no instrument family at all**. An objective item that pairs a musician with a *family* is testing exactly this chain.

- **WRONG: Bounded and prohibited.** Do **not** state a birthplace, a guru, a disciple, a raga speciality, a film credit, a Padma award or any additional honour for any musician above - the local source gives none of these. Do **not** give Ravi Shankar a gharana. Do **not** attribute the **Benaras Gharana** to Bhimsen Joshi (he is **Kirana**) or the **Kirana Gharana** to Bismillah Khan (he is associated with **Benaras**); crossing these two is the most likely error this bank has to prevent.

- **WRONG: **The Mallikarjun Mansur gap remains open and is not closed by this bank. No local source in this folder names Pandit Mallikarjun Mansur or attributes him to a gharana. The routed 2026 Prelims demand is still answerable only at the level of gharana logic and the named gharanas; inventing**

a gharana attribution for him is prohibited** (§13.10). ANALYSIS: The correct exam behaviour is to leave that one item blank, not to guess from the Kirana/Agra/Benaras names now available.

- ANALYSIS: **Non-hierarchical distinction:** classical traditions are marked by codified theory, long apprenticeship and concert/temple settings; folk traditions by community transmission, occasion-bound performance (harvest, wedding, ritual) and regional language. FACT: The book itself frames it as "classical bound by tradition and folk as the free voice of the people," with folk music thematically diverse, rhythm-based and often dance-oriented, and with notable traditions in every state (*Nitin...pdf*, PDF p. 438). The difference is of *function and transmission*, not of value - an answer that ranks them loses the analytical point.

13.8 Evidence bank E - folk music (region · theme · marker)

FACT: Named folk-music bank (region · theme · marker):

Form	FACT: Region	FACT: Theme/Marker
Baul / Baul Gaan	West Bengal, Assam, Tripura	Both a Bengali religious sect and a song form; lyrics carry Hindu Bhakti and Sufi influence, exemplified in songs of Kabir; exponents include Lalun Fakir, Purno Chandra Das, Naboni Das, Sanatan Das Thakur Baul, Yotin Das (PDF p. 438)
Pandavani	Chhattisgarh	Based on the Mahabharata with Bhima as hero; combines <i>gayan</i> (singing) and <i>vadan</i> (playing), usually to the rhythm of a tambura; Teejanbai - CURRENT: Padma Shri 1988 (official Padma Awards record, verified 13 August 2026; the local PDF p. 439 carries 1987 - source conflict recorded, official year used), Padma Bhushan 2003, Padma Vibhushan 2019 (PDF p. 439)
Panihari	Rajasthan	Water-themed: women fetching water in matkas, scarcity and distance, sometimes romantic or about household relations (PDF p. 439)
Lavani	Maharashtra	Combined dance-and-song genre performed to the dholki (PDF p. 440)
Wanawan	Jammu and Kashmir	Auspicious wedding songs
Alha	Madhya Pradesh (also Braj, Awadhi, Bhojpuri)	Heroic ballads with a Mahabharata link
Ovi	Maharashtra and Goa	Women's songs - marriage, lullabies
Pai songs	Madhya Pradesh	Rain, harvest, festivals
Maand	Rajasthan	Courtly praise of Rajput rulers
Powada	Maharashtra	Heroic deeds, Shivaji
Khongjom Parba	Manipur	The Battle of Khongjom (1891)
Bhavageete	Karnataka and Maharashtra	Love, nature, philosophy
Mando	Goa	Indo-Western blend, social themes
Sohar	Bihar	Sung at childbirth
Zikir	Assam	Embodies the teaching of Islam
Tamang Selo	Sikkim	Love, sorrow, humour

Form	FACT: Region	FACT: Theme/Marker
Ja-jin-ja / Nyioaga	Arunachal Pradesh	Sung during, and at the end of, marriage ceremonies
Heliamleu / Neuleu / Hereileu / Hekaileu	Nagaland	Dancing songs / legends and myths / war songs / songs about oneself
Dollu Kunitha	Karnataka	Drum dance named after the <i>dollu</i> , performed by the Kuruba community

(*Nitin...pdf*, PDF pp. 438-441.) ANALYSIS: **Two analytical uses:** first, this bank answers occasion-based demands (wedding, childbirth, harvest, war, water) rather than state-matching alone; second, Baul and Zikir show devotional folk music crossing the Bhakti-Sufi boundary that topic 13 analyses, and Khongjom Parba shows folk music functioning as historical memory.

ANALYSIS: **Fusion caution:** the book notes that classical and folk music intermingle over time and other forms emerge (*Nitin...pdf*, PDF p. 444) - so treat the classical/folk line as a working distinction, not a barrier.

- ANALYSIS: **Safeguarding route:** Sangeet Natak Akademi recognition and awards

are the national instrument; UNESCO ICH inscription is a separate international one (topic 14). WRONG: Never treat the two as the same status.

13.9 Reasoned verdict scaffolds

- **Comparison:** "The two classical traditions differ most where they had

to solve the same problem differently - how to classify melody and how to organise improvisation - and are closest where they inherited the same answer."

- **Gharana:** "The gharana's durability shows that Indian classical music was reproduced by social organisation as much as by theory."

- **Patronage:** "Indian music's survival across political ruptures is evidence that traditions adapt their patron rather than their substance."

13.10 Factual-risk and dynamic-status controls

- WRONG: Do not credit Amir Khusrau with certainly inventing the sitar, tabla, khayal or qawwali; these are popular attributions and should be flagged as contested unless a contemporaneous source is cited.

- WRONG: Do not assign an invention date to the tabla or sitar.

- WRONG: Do not claim Tansen "invented" ragas.

- WRONG: **Do not make Tyagaraja and Annamacharya contemporaries**, and do not say Tyagaraja's kritis are mostly in praise of **Krishna** - Annamacharya (1408-1503) composed **sankirtanas/kirtanas in praise of Venkateswara**, and the Trinity is much later (§13.7A). This pairing is the recorded 2018 Prelims trap.

- WRONG: Do not supply birth or death years for **Tyagaraja, Muthuswami Dikshitar or Syama Sastri** - the local source dates none of the three.

- WRONG: Do not attribute compositions, ragas, languages or courts to Dikshitar or Syama Sastri; the source names them **only** as the other two members of the Carnatic Trinity.

- WRONG: Do not repeat the source's "less scope for improvisation" for Carnatic music without the §13.6 correction - **manodharma** is extensive.

- WRONG: Do not assert a formal definition of **kirtana** or a dated evolution from kirtana to kriti; state only what §13.7A's form table supports.

- WRONG: **Recorded Core gap:** this folder's sources do **not** name Pandit Mallikarjun Mansur or attribute him to a gharana. The routed 2026 Prelims demand is therefore answerable only at the level of gharana logic and the named gharanas above; **do not invent a gharana attribution** for him. ANALYSIS: **This**

gap is not closed by §13.7C. The modern-musician bank added in the final pass names Bhimsen Joshi (Kirana), Bismillah Khan (Benaras association), Ravi Shankar (no gharana in the source), M.S. Subbulakshmi, Gangubai Hangal (Kirana), the two Kirana popularisers and the two Agra exponents - **and no one else**. Mansur is not among them, and the presence of nearby gharana names must not be used to guess.

- **WRONG: Instrument prohibitions (§13.7B):** do not assign an inventor or an invention date to any instrument; do not state string counts other than the Santoor's **100**; do not add sitar gharanas beyond **Jaipur, Varanasi and Etawah**; do not convert the source's "ancient (Harappan)" gloss on Ghana instruments, or "ancient earth drum" for Bhumi Dundubhi, into an excavated-object or dated claim; do not file **ghatam** or **jaltarang** as membranophones.

- **WRONG: Modern-musician prohibitions (§13.7C):** do not add a birthplace, guru, disciple, raga speciality, film credit, Padma award or any honour beyond the four sourced **Bharat Ratna** years (M.S. Subbulakshmi 1998, Ravi Shankar 1999, Bismillah Khan 2001, Bhimsen Joshi 2008); do not give Ravi Shankar a gharana; do not swap **Bhimsen Joshi = Kirana** with **Bismillah Khan = Benaras**.

- **ANALYSIS:** SNA awardee lists change; cite an awardee only with the award year from a dated source (topic 14).

- **ANALYSIS:** Gharana founder and exponent names beyond those listed above should be verified against the book's own table before being used as standalone Prelims facts.

2026 PYQ Integration

Status: 2026 question-level PYQ demand is integrated into this owner. **Provenance:** Audited local official-paper routing ledgers: _PYQ-ROUTING-PRELIMS-2026.md. **Answer-key rule:** The 2026 Prelims and CSAT Set-A keys held locally are **provisional**; no option or answer is recorded or inferred in this integration.

- **Year represented:** 2026
- **Paper(s):** Prelims GS-I
- **Routed question demands:** 2

Year	Paper	Q	PYQ demand (neutral rendering)	Directive /​format	Source status	Owner requirement
2026	Prelims GS-I	1	Carnatic and Hindustani raga equivalence in Indian classical music traditions	Objective question; provisional 2026 Set-​A key present locally, answer not inferred	Provisional 2026 Set-​A key present locally (Ans - ​2026 - ​GS1 - ​Provisional); key is provisional - ​ no answer letter recorded or inferred here	Cover the named fact/​concept and its likely statement-​level distinctions.
2026	Prelims GS-I	19	Pandit Mallikarjun Mansur and Hindustani classical music gharanas	Objective question; provisional 2026 Set-​A key present locally, answer not inferred	Provisional 2026 Set-​A key present locally (Ans - ​2026 - ​GS1 - ​Provisional); key is provisional - ​ no answer letter recorded or inferred here	Cover the named fact/​concept and its likely statement-​level distinctions.

What this owner must now support

- Carnatic and Hindustani raga equivalence in Indian classical music traditions
- Pandit Mallikarjun Mansur and Hindustani classical music gharanas

This block integrates the 2026 examinable demand and paper metadata. It is kept separate from the 2018-2023 and 2024-2025 blocks and does not convert a provisionally-keyed, answer-free objective question into a solved answer.

Recent PYQ Integration (2024-2025)

Status: 2024-2025 question-level PYQ demand is integrated into this owner. **Provenance:** Audited local official-paper routing ledgers: _PYQ-ROUTING-PRELIMS-2024-2025.md. **Answer-key rule:** The official 2024-2025 Prelims Set-A keys are present in the repository and CSAT Set-A keys are supplied; even so, no option or answer is recorded or inferred in this integration.

- **Years represented:** 2025
- **Paper(s):** Prelims GS-I
- **Routed question demands:** 1

Year	Paper	Q	PYQ demand (neutral rendering)	Directive /​format	Source status	Owner requirement
2025	Prelims GS-I	18	First Gandharva Mahavidyalaya (Vishnu Digambar Paluskar, 1901)	Objective question; official Set-​A key available locally, answer not inferred	Key available locally (official Set-​A answer key present); answer not recorded here	Cover the named fact/​concept and its likely statement-​level distinctions.

What this owner must now support

- First Gandharva Mahavidyalaya (Vishnu Digambar Paluskar, 1901)

This block integrates the 2024-2025 examinable demand and paper metadata. It is kept separate from the 2018-2023 block and does not convert an unkeyed/answer-free objective question into a solved answer.

Historical PYQ Integration (2018-2023)

Status: Question-level PYQ demand is integrated into this owner. **Provenance:** Audited local official-paper routing ledgers: _PYQ-ROUTING-PRELIMS-2018-2023.md. **Answer-key rule:** The official 2018-2023 Prelims/CSAT keys are not held locally; no option or answer has been inferred.

- **Years represented:** 2018, 2019
- **Paper(s):** Prelims GS-I
- **Routed question demands:** 2

Year	Paper	Q	PYQ demand (neutral rendering)	Directive /​format	Source status	Owner requirement
2018	Prelims GS-I	44	Tyagaraja Kritis Annamacharya kirtanas facts in classical music	Objective question; official key unavailable locally	Routed; key unavailable locally	Cover the named fact/​concept and its likely statement-​level distinctions.
2019	Prelims GS-I	16	Mian Tansen and Mughal court music tradition	Objective question; official key unavailable locally	Routed; key unavailable locally	Cover the named fact/​concept and its likely statement-​level distinctions.

What this owner must now support

- Tyagaraja Kritis Annamacharya kirtanas facts in classical music
- Mian Tansen and Mughal court music tradition

The table integrates the examinable demand and paper metadata. It does not turn an unkeyed objective question into a solved answer, and it does not claim that lexical presence alone proves full conceptual sufficiency.

INDIAN ART AND CULTURE DEEP-REVIEW CORE CONTROL

- **Must remember:** Indian music analysis distinguishes saptaswara, raga, tala, Hindustani thaata, Carnatic melakarta-janya systems, treatise chronology, gharana or sampradaya transmission, instruments and modern institutions.
- **Close distinction:** A thaata is an unsung seven-note parent scale, a raga has characteristic ascent, descent, hierarchy and phrase, and seventy-two Carnatic melakartas are not Bhatkhande's ten Hindustani thaatas.
- **Evidence / interpretation limit:** Bharata, Matanga, Sharngadeva and Venkatamakhin mark different theoretical stages; mood, time and season associations are tradition-specific and neither classical system is culturally pure or improvisation-free.

BASIC MCQS / REMEDIATION

Q1. Which statement correctly identifies Saptaswara?

A. Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions. B. Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaata. C. A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity. D. A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations.

Answer: A. Explanation: Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions. The remaining options belong to different chronology, actor or analytical categories.

Q2. Which chronology card should be filed under Saptaswara?

A. A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations. B. Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions. C. Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaata. D. Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure.

Answer: B. Explanation: Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions. The remaining options belong to different chronology, actor or analytical categories.

Q3. Which option preserves the source-bounded meaning of Saptaswara?

A. Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure. B. Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws. C. Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions. D. Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaata.

Answer: C. Explanation: Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions. The remaining options belong to different chronology, actor or analytical categories.

Q4. Which statement avoids a close-option trap about Saptaswara?

A. Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta. B. Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure. C. Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws. D. Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions.

Answer: D. Explanation: Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions. The remaining options belong to different chronology, actor or analytical categories.

Q5. Which statement correctly identifies Thaata definition?

A. A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity. B. Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure. C. Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaata. D. A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations.

Answer: A. Explanation: A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity. The remaining options belong to different chronology, actor or analytical categories.

Q6. Which chronology card should be filed under Thaata definition?

A. Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaata. B. A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity. C. Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws. D. Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure.

Answer: B. Explanation: A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity. The remaining options belong to different chronology, actor or analytical categories.

Q7. Which option preserves the source-bounded meaning of Thaata definition?

A. Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta. B. Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws. C. A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity. D. Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure.

Answer: C. Explanation: A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity. The remaining options belong to different chronology, actor or analytical categories.

Q8. Which statement avoids a close-option trap about Thaata definition?

A. Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws. B. Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta. C. V.N. Bhatkhande systematised thaata-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music. D. A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity.

Answer: D. Explanation: A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity. The remaining options belong to different chronology, actor or analytical categories.

Q9. Which statement correctly identifies Raga definition?

A. A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations. B. Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure. C. Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaata. D. Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws.

Answer: A. Explanation: A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations. The remaining options belong to different chronology, actor or analytical categories.

Q10. Which chronology card should be filed under Raga definition?

A. Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws. B. A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations. C. Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure. D. Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta.

Answer: B. Explanation: A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations. The remaining options belong to different chronology, actor or analytical categories.

Q11. Which option preserves the source-bounded meaning of Raga definition?

A. Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta. B. V.N. Bhatkhande systematised thaata-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music. C. A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations. D. Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws.

Answer: C. Explanation: A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations. The remaining options belong to different chronology, actor or analytical categories.

Q12. Which statement avoids a close-option trap about Raga definition?

A. V.N. Bhatkhande systematised thaat-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music. B. Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta. C. A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship. D. A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations.

Answer: D. Explanation: A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations. The remaining options belong to different chronology, actor or analytical categories.

Q13. Which statement correctly identifies Melakarta and janya?

A. Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaat. B. Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure. C. Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws. D. Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta.

Answer: A. Explanation: Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaat. The remaining options belong to different chronology, actor or analytical categories.

Q14. Which chronology card should be filed under Melakarta and janya?

A. Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws. B. Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaat. C. V.N. Bhatkhande systematised thaat-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music. D. Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta.

Answer: B. Explanation: Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaat. The remaining options belong to different chronology, actor or analytical categories.

Q15. Which option preserves the source-bounded meaning of Melakarta and janya?

A. A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship. B. Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta. C. Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaat. D. V.N. Bhatkhande systematised thaat-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music.

Answer: C. Explanation: Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaat. The remaining options belong to different chronology, actor or analytical categories.

Q16. Which statement avoids a close-option trap about Melakarta and janya?

A. A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship. B. V.N. Bhatkhande systematised thaata-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music. C. Dagar centres Dhrupad, Darbhanga balances alapa and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal. D. Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaata.

Answer: D. Explanation: Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaata. The remaining options belong to different chronology, actor or analytical categories.

Q17. Which statement correctly identifies Shared-root comparison?

A. Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure. B. Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws. C. V.N. Bhatkhande systematised thaata-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music. D. Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta.

Answer: A. Explanation: Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure. The remaining options belong to different chronology, actor or analytical categories.

Q18. Which chronology card should be filed under Shared-root comparison?

A. V.N. Bhatkhande systematised thaata-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music. B. Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure. C. Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta. D. A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship.

Answer: B. Explanation: Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure. The remaining options belong to different chronology, actor or analytical categories.

Q19. Which option preserves the source-bounded meaning of Shared-root comparison?

A. Dagar centres Dhrupad, Darbhanga balances alapa and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal. B. V.N. Bhatkhande systematised thaata-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music. C. Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure. D. A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship.

Answer: C. Explanation: Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure. The remaining options belong to different chronology, actor or analytical categories.

Q20. Which statement avoids a close-option trap about Shared-root comparison?

A. Dhrupad is an older austere vocal form with vani and gharana lineages, while khayal permits a different improvisational and compositional field; one is not merely the fast version of the other. B. Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal. C. A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship. D. Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure.

Answer: D. Explanation: Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure. The remaining options belong to different chronology, actor or analytical categories.

Q21. Which statement correctly identifies Rasa-raga linkage?

A. Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws. B. A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship. C. V.N. Bhattachande systematised thaat-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music. D. Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta.

Answer: A. Explanation: Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws. The remaining options belong to different chronology, actor or analytical categories.

Q22. Which chronology card should be filed under Rasa-raga linkage?

A. A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship. B. Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws. C. Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal. D. V.N. Bhattachande systematised thaat-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music.

Answer: B. Explanation: Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws. The remaining options belong to different chronology, actor or analytical categories.

Q23. Which option preserves the source-bounded meaning of Rasa-raga linkage?

A. A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship. B. Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal. C. Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws. D. Dhrupad is an older austere vocal form with vani and gharana lineages, while khayal permits a different improvisational and compositional field; one is not merely the fast version of the other.

Answer: C. Explanation: Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws. The remaining options belong to different chronology, actor or analytical categories.

Q24. Which statement avoids a close-option trap about Rasa-raga linkage?

A. Dhrupad is an older austere vocal form with vani and gharana lineages, while khayal permits a different improvisational and compositional field; one is not merely the fast version of the other. B. Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal. C. Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah. D. Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws.

Answer: D. Explanation: Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws. The remaining options belong to different chronology, actor or analytical categories.

Q25. Which statement correctly identifies Treatise contribution chain?

A. Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta. B. A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship. C. V.N. Bhatkhande systematised thaat-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music. D. Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal.

Answer: A. Explanation: Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta. The remaining options belong to different chronology, actor or analytical categories.

Q26. Which chronology card should be filed under Treatise contribution chain?

A. Dhrupad is an older austere vocal form with vani and gharana lineages, while khayal permits a different improvisational and compositional field; one is not merely the fast version of the other. B. Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta. C. A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship. D. Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal.

Answer: B. Explanation: Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta. The remaining options belong to different chronology, actor or analytical categories.

Q27. Which option preserves the source-bounded meaning of Treatise contribution chain?

A. Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah. B. Dhrupad is an older austere vocal form with vani and gharana lineages, while khayal permits a different improvisational and compositional field; one is not merely the fast version of the other. C. Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta. D. Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal.

Answer: C. Explanation: Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta. The remaining options belong to different chronology, actor or analytical categories.

Q28. Which statement avoids a close-option trap about Treatise contribution chain?

A. Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah. B. Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity. C. Dhrupad is an older austere vocal form with vani and gharana lineages, while khayal permits a different improvisational and compositional field; one is not merely the fast version of the other. D. Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta.

Answer: D. Explanation: Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta. The remaining options belong to different chronology, actor or analytical categories.

Q29. Which statement correctly identifies Modern pedagogy?

A. V.N. Bhatkhande systematised thaata-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music. B. Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal. C. Dhrupad is an older austere vocal form with vani and gharana lineages, while khayal permits a different improvisational and compositional field; one is not merely the fast version of the other. D. A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship.

Answer: A. Explanation: V.N. Bhatkhande systematised thaata-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music. The remaining options belong to different chronology, actor or analytical categories.

Q30. Which chronology card should be filed under Modern pedagogy?

A. Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah. B. V.N. Bhatkhande systematised thaata-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music. C. Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal. D. Dhrupad is an older austere vocal form with vani and gharana lineages, while khayal permits a different improvisational and compositional field; one is not merely the fast version of the other.

Answer: B. Explanation: V.N. Bhatkhande systematised thaata-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music. The remaining options belong to different chronology, actor or analytical categories.

Q31. Which option preserves the source-bounded meaning of Modern pedagogy?

A. Dhrupad is an older austere vocal form with vani and gharana lineages, while khayal permits a different improvisational and compositional field; one is not merely the fast version of the other. B. Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah. C. V.N. Bhatkhande systematised thaata-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music. D. Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity.

Answer: C. Explanation: V.N. Bhatkhande systematised thaata-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music. The remaining options belong to different chronology, actor or analytical categories.

Q32. Which statement avoids a close-option trap about Modern pedagogy?

A. Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah. B. A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana. C. Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity. D. V.N. Bhatkhande systematised thaat-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music.

Answer: D. Explanation: V.N. Bhatkhande systematised thaat-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music. The remaining options belong to different chronology, actor or analytical categories.

Q33. Which statement correctly identifies Gharana as transmission ecology?

A. A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship. B. Dhrupad is an older austere vocal form with vani and gharana lineages, while khayal permits a different improvisational and compositional field; one is not merely the fast version of the other. C. Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal. D. Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah.

Answer: A. Explanation: A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship. The remaining options belong to different chronology, actor or analytical categories.

Q34. Which chronology card should be filed under Gharana as transmission ecology?

A. Dhrupad is an older austere vocal form with vani and gharana lineages, while khayal permits a different improvisational and compositional field; one is not merely the fast version of the other. B. A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship. C. Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity. D. Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah.

Answer: B. Explanation: A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship. The remaining options belong to different chronology, actor or analytical categories.

Q35. Which option preserves the source-bounded meaning of Gharana as transmission ecology?

A. A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana. B. Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah. C. A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship. D. Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity.

Answer: C. Explanation: A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship. The remaining options belong to different chronology, actor or analytical categories.

Q36. Which statement avoids a close-option trap about Gharana as transmission ecology?

A. Tata are chordophones, Sushira aerophones, Avanaddha membranophones and Ghana idiophones; the presence of a stretched membrane separates Avanaddha from solid-bodied Ghana. B. Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity. C. A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana. D. A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship.

Answer: D. Explanation: A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship. The remaining options belong to different chronology, actor or analytical categories.

Q37. Which statement correctly identifies Named gharana distinctions?

A. Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal. B. Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah. C. Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity. D. Dhrupad is an older austere vocal form with vani and gharana lineages, while khayal permits a different improvisational and compositional field; one is not merely the fast version of the other.

Answer: A. Explanation: Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal. The remaining options belong to different chronology, actor or analytical categories.

Q38. Which chronology card should be filed under Named gharana distinctions?

A. Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah. B. Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal. C. A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana. D. Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity.

Answer: B. Explanation: Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal. The remaining options belong to different chronology, actor or analytical categories.

Q39. Which option preserves the source-bounded meaning of Named gharana distinctions?

A. Tata are chordophones, Sushira aerophones, Avanaddha membranophones and Ghana idiophones; the presence of a stretched membrane separates Avanaddha from solid-bodied Ghana. B. Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity. C. Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal. D. A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana.

Answer: C. Explanation: Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal. The remaining options belong to different chronology, actor or analytical categories.

Q40. Which statement avoids a close-option trap about Named gharana distinctions?

A. Santoor is a struck string instrument, ghatam and jaltarang are Ghana, tabla and mridangam are Avanaddha, and no inventor or unsupported invention date should be attached to them. B. A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana. C. Tata are chordophones, Sushira aerophones, Avanaddha membranophones and Ghana idiophones; the presence of a stretched membrane separates Avanaddha from solid-bodied Ghana. D. Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal.

Answer: D. Explanation: Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal. The remaining options belong to different chronology, actor or analytical categories.

Q41. Which statement correctly identifies Dhrupad and khayal?

A. Dhrupad is an older austere vocal form with vani and gharana lineages, while khayal permits a different improvisational and compositional field; one is not merely the fast version of the other. B. Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity. C. Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah. D. A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana.

Answer: A. Explanation: Dhrupad is an older austere vocal form with vani and gharana lineages, while khayal permits a different improvisational and compositional field; one is not merely the fast version of the other. The remaining options belong to different chronology, actor or analytical categories.

Q42. Which chronology card should be filed under Dhrupad and khayal?

A. A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana. B. Dhrupad is an older austere vocal form with vani and gharana lineages, while khayal permits a different improvisational and compositional field; one is not merely the fast version of the other. C. Tata are chordophones, Sushira aerophones, Avanaddha membranophones and Ghana idiophones; the presence of a stretched membrane separates Avanaddha from solid-bodied Ghana. D. Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity.

Answer: B. Explanation: Dhrupad is an older austere vocal form with vani and gharana lineages, while khayal permits a different improvisational and compositional field; one is not merely the fast version of the other. The remaining options belong to different chronology, actor or analytical categories.

Q43. Which option preserves the source-bounded meaning of Dhrupad and khayal?

A. Tata are chordophones, Sushira aerophones, Avanaddha membranophones and Ghana idiophones; the presence of a stretched membrane separates Avanaddha from solid-bodied Ghana. B. Santoor is a struck string instrument, ghatam and jaltarang are Ghana, tabla and mridangam are Avanaddha, and no inventor or unsupported invention date should be attached to them. C. Dhrupad is an older austere vocal form with vani and gharana lineages, while khayal permits a different improvisational and compositional field; one is not merely the fast version of the other. D. A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana.

Answer: C. Explanation: Dhrupad is an older austere vocal form with vani and gharana lineages, while khayal permits a different improvisational and compositional field; one is not merely the fast version of the other. The remaining options belong to different chronology, actor or analytical categories.

Q44. Which statement avoids a close-option trap about Dhrupad and khayal?

A. Tata are chordophones, Sushira aerophones, Avanaddha membranophones and Ghana idiophones; the presence of a stretched membrane separates Avanaddha from solid-bodied Ghana. B. The owner verifies selected instrument, tradition and Bharat Ratna pairings but prohibits adding unsupported gurus, gharanas, films or awards; Ravi Shankar is not assigned a gharana there. C. Santoor is a struck string instrument, ghatam and jaltarang are Ghana, tabla and mridangam are Avanaddha, and no inventor or unsupported invention date should be attached to them. D. Dhrupad is an older austere vocal form with vani and gharana lineages, while khayal permits a different improvisational and compositional field; one is not merely the fast version of the other.

Answer: D. Explanation: Dhrupad is an older austere vocal form with vani and gharana lineages, while khayal permits a different improvisational and compositional field; one is not merely the fast version of the other. The remaining options belong to different chronology, actor or analytical categories.

Q45. Which statement correctly identifies Aurangzeb correction?

A. Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah. B. Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity. C. A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana. D. Tata are chordophones, Sushira aerophones, Avanaddha membranophones and Ghana idiophones; the presence of a stretched membrane separates Avanaddha from solid-bodied Ghana.

Answer: A. Explanation: Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah. The remaining options belong to different chronology, actor or analytical categories.

Q46. Which chronology card should be filed under Aurangzeb correction?

A. Santoor is a struck string instrument, ghatam and jaltarang are Ghana, tabla and mridangam are Avanaddha, and no inventor or unsupported invention date should be attached to them. B. Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah. C. A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana. D. Tata are chordophones, Sushira aerophones, Avanaddha membranophones and Ghana idiophones; the presence of a stretched membrane separates Avanaddha from solid-bodied Ghana.

Answer: B. Explanation: Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah. The remaining options belong to different chronology, actor or analytical categories.

Q47. Which option preserves the source-bounded meaning of Aurangzeb correction?

A. Tata are chordophones, Sushira aerophones, Avanaddha membranophones and Ghana idiophones; the presence of a stretched membrane separates Avanaddha from solid-bodied Ghana. B. The owner verifies selected instrument, tradition and Bharat Ratna pairings but prohibits adding unsupported gurus, gharanas, films or awards; Ravi Shankar is not assigned a gharana there. C. Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah. D. Santoor is a struck string instrument, ghatam and jaltarang are Ghana, tabla and mridangam are Avanaddha, and no inventor or unsupported invention date should be attached to them.

Answer: C. Explanation: Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah. The remaining options belong to different chronology, actor or analytical categories.

Q48. Which statement avoids a close-option trap about Aurangzeb correction?

A. Baul, Pandavani, Panihari, Lavani, Powada, Khongjom Parba and other forms are best distinguished by region, occasion, theme and transmission rather than ranked below classical music. B. Santoor is a struck string instrument, ghatam and jaltarang are Ghana, tabla and mridangam are Avanaddha, and no inventor or unsupported invention date should be attached to them. C. The owner verifies selected instrument, tradition and Bharat Ratna pairings but prohibits adding unsupported gurus, gharanas, films or awards; Ravi Shankar is not assigned a gharana there. D. Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah.

Answer: D. Explanation: Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah. The remaining options belong to different chronology, actor or analytical categories.

Q49. Which statement correctly identifies Carnatic composer bank?

A. Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity. B. Santoor is a struck string instrument, ghatam and jaltarang are Ghana, tabla and mridangam are Avanaddha, and no inventor or unsupported invention date should be attached to them. C. Tata are chordophones, Sushira aerophones, Avanaddha membranophones and Ghana idiophones; the presence of a stretched membrane separates Avanaddha from solid-bodied Ghana. D. A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana.

Answer: A. Explanation: Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity. The remaining options belong to different chronology, actor or analytical categories.

Q50. Which chronology card should be filed under Carnatic composer bank?

A. Tata are chordophones, Sushira aerophones, Avanaddha membranophones and Ghana idiophones; the presence of a stretched membrane separates Avanaddha from solid-bodied Ghana. B. Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity. C. Santoor is a struck string instrument, ghatam and jaltarang are Ghana, tabla and mridangam are Avanaddha, and no inventor or unsupported invention date should be attached to them. D. The owner verifies selected instrument, tradition and Bharat Ratna pairings but prohibits adding unsupported gurus, gharanas, films or awards; Ravi Shankar is not assigned a gharana there.

Answer: B. Explanation: Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity. The remaining options belong to different chronology, actor or analytical categories.

Q51. Which option preserves the source-bounded meaning of Carnatic composer bank?

A. Santoor is a struck string instrument, ghatam and jaltarang are Ghana, tabla and mridangam are Avanaddha, and no inventor or unsupported invention date should be attached to them. B. The owner verifies selected instrument, tradition and Bharat Ratna pairings but prohibits adding unsupported gurus, gharanas, films or awards; Ravi Shankar is not assigned a gharana there. C. Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity. D. Baul, Pandavani, Panihari, Lavani, Powada, Khongjom Parba and other forms are best distinguished by region, occasion, theme and transmission rather than ranked below classical music.

Answer: C. Explanation: Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity. The remaining options belong to different chronology, actor or analytical categories.

Q52. Which statement avoids a close-option trap about Carnatic composer bank?

A. Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition. B. The owner verifies selected instrument, tradition and Bharat Ratna pairings but prohibits adding unsupported gurus, gharanas, films or awards; Ravi Shankar is not assigned a gharana there. C. Baul, Pandavani, Panihari, Lavani, Powada, Khongjom Parba and other forms are best distinguished by region, occasion, theme and transmission rather than ranked below classical music. D. Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity.

Answer: D. Explanation: Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity. The remaining options belong to different chronology, actor or analytical categories.

Q53. Which statement correctly identifies Kriti and concert anatomy?

A. A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana. B. Santoor is a struck string instrument, ghatam and jaltarang are Ghana, tabla and mridangam are Avanaddha, and no inventor or unsupported invention date should be attached to them. C. The owner verifies selected instrument, tradition and Bharat Ratna pairings but prohibits adding unsupported gurus, gharanas, films or awards; Ravi Shankar is not assigned a gharana there. D. Tata are chordophones, Sushira aerophones, Avanaddha membranophones and Ghana idiophones; the presence of a stretched membrane separates Avanaddha from solid-bodied Ghana.

Answer: A. Explanation: A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana. The remaining options belong to different chronology, actor or analytical categories.

Q54. Which chronology card should be filed under Kriti and concert anatomy?

A. The owner verifies selected instrument, tradition and Bharat Ratna pairings but prohibits adding unsupported gurus, gharanas, films or awards; Ravi Shankar is not assigned a gharana there. B. A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana. C. Baul, Pandavani, Panihari, Lavani, Powada, Khongjom Parba and other forms are best distinguished by region, occasion, theme and transmission rather than ranked below classical music. D. Santoor is a struck string instrument, ghatam and jaltarang are Ghana, tabla and mridangam are Avanaddha, and no inventor or unsupported invention date should be attached to them.

Answer: B. Explanation: A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana. The remaining options belong to different chronology, actor or analytical categories.

Q55. Which option preserves the source-bounded meaning of Kriti and concert anatomy?

A. The owner verifies selected instrument, tradition and Bharat Ratna pairings but prohibits adding unsupported gurus, gharanas, films or awards; Ravi Shankar is not assigned a gharana there. B. Baul, Pandavani, Panihari, Lavani, Powada, Khongjom Parba and other forms are best distinguished by region, occasion, theme and transmission rather than ranked below classical music. C. A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana. D. Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition.

Answer: C. Explanation: A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana. The remaining options belong to different chronology, actor or analytical categories.

Q56. Which statement avoids a close-option trap about Kriti and concert anatomy?

A. Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented. B. Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition. C. Baul, Pandavani, Panihari, Lavani, Powada, Khongjom Parba and other forms are best distinguished by region, occasion, theme and transmission rather than ranked below classical music. D. A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana.

Answer: D. Explanation: A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana. The remaining options belong to different chronology, actor or analytical categories.

Q57. Which statement correctly identifies Four instrument families?

A. Tata are chordophones, Sushira aerophones, Avanaddha membranophones and Ghana idiophones; the presence of a stretched membrane separates Avanaddha from solid-bodied Ghana. B. Santoor is a struck string instrument, ghatam and jaltarang are Ghana, tabla and mridangam are Avanaddha, and no inventor or unsupported invention date should be attached to them. C. The owner verifies selected instrument, tradition and Bharat Ratna pairings but prohibits adding unsupported gurus, gharanas, films or awards; Ravi Shankar is not assigned a gharana there. D. Baul, Pandavani, Panihari, Lavani, Powada, Khongjom Parba and other forms are best distinguished by region, occasion, theme and transmission rather than ranked below classical music.

Answer: A. Explanation: Tata are chordophones, Sushira aerophones, Avanaddha membranophones and Ghana idiophones; the presence of a stretched membrane separates Avanaddha from solid-bodied Ghana. The remaining options belong to different chronology, actor or analytical categories.

Q58. Which chronology card should be filed under Four instrument families?

A. Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition. B. Tata are chordophones, Sushira aerophones, Avanaddha membranophones and Ghana idiophones; the presence of a stretched membrane separates Avanaddha from solid-bodied Ghana. C. Baul, Pandavani, Panihari, Lavani, Powada, Khongjom Parba and other forms are best distinguished by region, occasion, theme and transmission rather than ranked below classical music. D. The owner verifies selected instrument, tradition and Bharat Ratna pairings but prohibits adding unsupported gurus, gharanas, films or awards; Ravi Shankar is not assigned a gharana there.

Answer: B. Explanation: Tata are chordophones, Sushira aerophones, Avanaddha membranophones and Ghana idiophones; the presence of a stretched membrane separates Avanaddha from solid-bodied Ghana. The remaining options belong to different chronology, actor or analytical categories.

Q59. Which option preserves the source-bounded meaning of Four instrument families?

A. Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented. B. Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition. C. Tata are chordophones, Sushira aerophones, Avanaddha membranophones and Ghana idiophones; the presence of a stretched membrane separates Avanaddha from solid-bodied Ghana. D. Baul, Pandavani, Panihari, Lavani, Powada, Khongjom Parba and other forms are best distinguished by region, occasion, theme and transmission rather than ranked below classical music.

Answer: C. Explanation: Tata are chordophones, Sushira aerophones, Avanaddha membranophones and Ghana idiophones; the presence of a stretched membrane separates Avanaddha from solid-bodied Ghana. The remaining options belong to different chronology, actor or analytical categories.

Q60. Which statement avoids a close-option trap about Four instrument families?

A. Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented. B. Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition. C. Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions. D. Tata are chordophones, Sushira aerophones, Avanaddha membranophones and Ghana idiophones; the presence of a stretched membrane separates Avanaddha from solid-bodied Ghana.

Answer: D. Explanation: Tata are chordophones, Sushira aerophones, Avanaddha membranophones and Ghana idiophones; the presence of a stretched membrane separates Avanaddha from solid-bodied Ghana. The remaining options belong to different chronology, actor or analytical categories.

Q61. Which statement correctly identifies Instrument identification limits?

A. Santoor is a struck string instrument, ghatam and jaltarang are Ghana, tabla and mridangam are Avanaddha, and no inventor or unsupported invention date should be attached to them. B. Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition. C. The owner verifies selected instrument, tradition and Bharat Ratna pairings but prohibits adding unsupported gurus, gharanas, films or awards; Ravi Shankar is not assigned a gharana there. D. Baul, Pandavani, Panihari, Lavani, Powada, Khongjom Parba and other forms are best distinguished by region, occasion, theme and transmission rather than ranked below classical music.

Answer: A. Explanation: Santoor is a struck string instrument, ghatam and jaltarang are Ghana, tabla and mridangam are Avanaddha, and no inventor or unsupported invention date should be attached to them. The remaining options belong to different chronology, actor or analytical categories.

Q62. Which chronology card should be filed under Instrument identification limits?

A. Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented. B. Santoor is a struck string instrument, ghatam and jaltarang are Ghana, tabla and mridangam are Avanaddha, and no inventor or unsupported invention date should be attached to them. C. Baul, Pandavani, Panihari, Lavani, Powada, Khongjom Parba and other forms are best distinguished by region, occasion, theme and transmission rather than ranked below classical music. D. Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition.

Answer: B. Explanation: Santoor is a struck string instrument, ghatam and jaltarang are Ghana, tabla and mridangam are Avanaddha, and no inventor or unsupported invention date should be attached to them. The remaining options belong to different chronology, actor or analytical categories.

Q63. Which option preserves the source-bounded meaning of Instrument identification limits?

A. Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions. B. Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition. C. Santoor is a struck string instrument, ghatam and jaltarang are Ghana, tabla and mridangam are Avanaddha, and no inventor or unsupported invention date should be attached to them. D. Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented.

Answer: C. Explanation: Santoor is a struck string instrument, ghatam and jaltarang are Ghana, tabla and mridangam are Avanaddha, and no inventor or unsupported invention date should be attached to them. The remaining options belong to different chronology, actor or analytical categories.

Q64. Which statement avoids a close-option trap about Instrument identification limits?

A. Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions. B. A thaat is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity. C. Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented. D. Santoor is a struck string instrument, ghatam and jaltarang are Ghana, tabla and mridangam are Avanaddha, and no inventor or unsupported invention date should be attached to them.

Answer: D. Explanation: Santoor is a struck string instrument, ghatam and jaltarang are Ghana, tabla and mridangam are Avanaddha, and no inventor or unsupported invention date should be attached to them. The remaining options belong to different chronology, actor or analytical categories.

Q65. Which statement correctly identifies Modern musician precision?

A. The owner verifies selected instrument, tradition and Bharat Ratna pairings but prohibits adding unsupported gurus, gharanas, films or awards; Ravi Shankar is not assigned a gharana there. B. Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition. C. Baul, Pandavani, Panihari, Lavani, Powada, Khongjom Parba and other forms are best distinguished by region, occasion, theme and transmission rather than ranked below classical music. D. Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented.

Answer: A. Explanation: The owner verifies selected instrument, tradition and Bharat Ratna pairings but prohibits adding unsupported gurus, gharanas, films or awards; Ravi Shankar is not assigned a gharana there. The remaining options belong to different chronology, actor or analytical categories.

Q66. Which chronology card should be filed under Modern musician precision?

A. Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented. B. The owner verifies selected instrument, tradition and Bharat Ratna pairings but prohibits adding unsupported gurus, gharanas, films or awards; Ravi Shankar is not assigned a gharana there. C. Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions. D. Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition.

Answer: B. Explanation: The owner verifies selected instrument, tradition and Bharat Ratna pairings but prohibits adding unsupported gurus, gharanas, films or awards; Ravi Shankar is not assigned a gharana there. The remaining options belong to different chronology, actor or analytical categories.

Q67. Which option preserves the source-bounded meaning of Modern musician precision?

A. Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented. B. Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions. C. The owner verifies selected instrument, tradition and Bharat Ratna pairings but prohibits adding unsupported gurus, gharanas, films or awards; Ravi Shankar is not assigned a gharana there. D. A thaat is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity.

Answer: C. Explanation: The owner verifies selected instrument, tradition and Bharat Ratna pairings but prohibits adding unsupported gurus, gharanas, films or awards; Ravi Shankar is not assigned a gharana there. The remaining options belong to different chronology, actor or analytical categories.

Q68. Which statement avoids a close-option trap about Modern musician precision?

A. Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions. B. A thaat is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity. C. A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations. D. The owner verifies selected instrument, tradition and Bharat Ratna pairings but prohibits adding unsupported gurus, gharanas, films or awards; Ravi Shankar is not assigned a gharana there.

Answer: D. Explanation: The owner verifies selected instrument, tradition and Bharat Ratna pairings but prohibits adding unsupported gurus, gharanas, films or awards; Ravi Shankar is not assigned a gharana there. The remaining options belong to different chronology, actor or analytical categories.

Q69. Which statement correctly identifies Folk-music function?

A. Baul, Pandavani, Panihari, Lavani, Powada, Khongjom Parba and other forms are best distinguished by region, occasion, theme and transmission rather than ranked below classical music. B. Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented. C. Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions. D. Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition.

Answer: A. Explanation: Baul, Pandavani, Panihari, Lavani, Powada, Khongjom Parba and other forms are best distinguished by region, occasion, theme and transmission rather than ranked below classical music. The remaining options belong to different chronology, actor or analytical categories.

Q70. Which chronology card should be filed under Folk-music function?

A. Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented. B. Baul, Pandavani, Panihari, Lavani, Powada, Khongjom Parba and other forms are best distinguished by region, occasion, theme and transmission rather than ranked below classical music. C. A thaat is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity. D. Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions.

Answer: B. Explanation: Baul, Pandavani, Panihari, Lavani, Powada, Khongjom Parba and other forms are best distinguished by region, occasion, theme and transmission rather than ranked below classical music. The remaining options belong to different chronology, actor or analytical categories.

Q71. Which option preserves the source-bounded meaning of Folk-music function?

A. A thaat is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity. B. A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations. C. Baul, Pandavani, Panihari, Lavani, Powada, Khongjom Parba and other forms are best distinguished by region, occasion, theme and transmission rather than ranked below classical music. D. Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions.

Answer: C. Explanation: Baul, Pandavani, Panihari, Lavani, Powada, Khongjom Parba and other forms are best distinguished by region, occasion, theme and transmission rather than ranked below classical music. The remaining options belong to different chronology, actor or analytical categories.

Q72. Which statement avoids a close-option trap about Folk-music function?

A. A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations. B. A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity. C. Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaata. D. Baul, Pandavani, Panihari, Lavani, Powada, Khongjom Parba and other forms are best distinguished by region, occasion, theme and transmission rather than ranked below classical music.

Answer: D. Explanation: Baul, Pandavani, Panihari, Lavani, Powada, Khongjom Parba and other forms are best distinguished by region, occasion, theme and transmission rather than ranked below classical music. The remaining options belong to different chronology, actor or analytical categories.

Q73. Which statement correctly identifies Institutional recognition boundary?

A. Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition. B. A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity. C. Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented. D. Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions.

Answer: A. Explanation: Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition. The remaining options belong to different chronology, actor or analytical categories.

Q74. Which chronology card should be filed under Institutional recognition boundary?

A. A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations. B. Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition. C. A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity. D. Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions.

Answer: B. Explanation: Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition. The remaining options belong to different chronology, actor or analytical categories.

Q75. Which option preserves the source-bounded meaning of Institutional recognition boundary?

A. Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaata. B. A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations. C. Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition. D. A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity.

Answer: C. Explanation: Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition. The remaining options belong to different chronology, actor or analytical categories.

Q76. Which statement avoids a close-option trap about Institutional recognition boundary?

A. Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure. B. Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaata. C. A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations. D. Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition.

Answer: D. Explanation: Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition. The remaining options belong to different chronology, actor or analytical categories.

Q77. Which statement correctly identifies Music PYQ audit?

A. Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented. B. Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions. C. A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations. D. A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity.

Answer: A. Explanation: Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented. The remaining options belong to different chronology, actor or analytical categories.

Demand decoding: The directive **answer** requires a direct position on “Q77. Which statement correctly identifies Music PYQ audit?”, every clause and time boundary, common-axis organisation, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model answer:

Introduction and thesis: The answer must resolve the cultural demand in “Q77. Which statement correctly identifies Music PYQ audit?”.

Analytical body:

- Claim and named evidence:** Q77. Which statement correctly identifies Music PYQ audit? **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.
- Claim and named evidence:** A. Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.
- Claim and named evidence:** B. Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.
- Claim and named evidence:** C. A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.

Counter-position / limit: A shared motif, material, religious setting or institutional label does not by itself establish identical function, direct descent, homogeneous community meaning or complete safeguarding.

Qualified conclusion: The answer must resolve the cultural demand in “Q77. Which statement correctly identifies Music PYQ audit?”.

Executable exam-length answer / compression plan: For a 15-mark answer, open with a two-sentence definition and thesis; organise five named monuments, objects, forms, texts, practitioners, communities or institutions as claim

-> evidence -> analysis -> qualification; reserve the final lines for a graded close.

Why this earns marks: The answer obeys the directive, compares like with like, connects form and patronage to social meaning, and avoids list-making, essentialism, false continuity and unsupported attribution.

How to improve this answer: For “Q77. Which statement correctly identifies Music PYQ audit?”, replace the weakest generalisation with one additional named monument, object, text, technique, community or official record and state what that evidence cannot prove.

Q78. Which chronology card should be filed under Music PYQ audit?

A. Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaata. B. Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented. C. A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity. D. A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations.

Answer: B. Explanation: Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented. The remaining options belong to different chronology, actor or analytical categories.

Demand decoding: The directive **answer** requires a direct position on “Q78. Which chronology card should be filed under Music PYQ audit?”, every clause and time boundary, common-axis organisation, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model answer:

Introduction and thesis: The answer must resolve the cultural demand in “Q78. Which chronology card should be filed under Music PYQ audit?”.

Analytical body:

1. **Claim and named evidence:** Q78. Which chronology card should be filed under Music PYQ audit? **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.
2. **Claim and named evidence:** A. Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaata. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.
3. **Claim and named evidence:** B. Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.
4. **Claim and named evidence:** C. A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.

Counter-position / limit: A shared motif, material, religious setting or institutional label does not by itself establish identical function, direct descent, homogeneous community meaning or complete safeguarding.

Qualified conclusion: The answer must resolve the cultural demand in “Q78. Which chronology card should be filed under Music PYQ audit?”.

Executable exam-length answer / compression plan: For a 15-mark answer, open with a two-sentence definition and thesis; organise five named monuments, objects, forms, texts, practitioners, communities or institutions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded close.

Why this earns marks: The answer obeys the directive, compares like with like, connects form and patronage to social meaning, and avoids list-making, essentialism, false continuity and unsupported attribution.

How to improve this answer: For “Q78. Which chronology card should be filed under Music PYQ audit?”, replace the weakest generalisation with one additional named monument, object, text, technique, community or official record and state what that evidence cannot prove.

Q79. Which option preserves the source-bounded meaning of Music PYQ audit?

A. Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure. B. Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaata. C. Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented. D. A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations.

Answer: C. Explanation: Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented. The remaining options belong to different chronology, actor or analytical categories.

Demand decoding: Treat “Q79. Which option preserves the source-bounded meaning of Music PYQ audit?” as a form, chronology, region, patron, medium and status problem. Verify every pairing independently without inventing an official key.

Detailed examiner-grade model answer:

Introduction and thesis: The answer must resolve the cultural demand in “Q79. Which option preserves the source-bounded meaning of Music PYQ audit?”.

Analytical body:

- 1. Claim and named evidence:** Q79. Which option preserves the source-bounded meaning of Music PYQ audit?
Analysis: Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.
- 2. Claim and named evidence:** A. Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.
- 3. Claim and named evidence:** B. Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaata. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.
- 4. Claim and named evidence:** C. Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.

Counter-position / limit: A shared motif, material, religious setting or institutional label does not by itself establish identical function, direct descent, homogeneous community meaning or complete safeguarding.

Qualified conclusion: The answer must resolve the cultural demand in “Q79. Which option preserves the source-bounded meaning of Music PYQ audit?”.

Executable exam-length answer / compression plan: Fix the category and period; pair form with region, material, patron or institution; separate historical fact from later label or current recognition; eliminate the closest distractor.

Why this earns marks: It preserves answer-text integrity and exact category mapping while keeping reasoned elimination separate from an official key.

How to improve this answer: For “Q79. Which option preserves the source-bounded meaning of Music PYQ audit?”, state why the nearest distractor fails on medium, region, chronology, patronage, terminology or recognition status.

Q80. Which statement avoids a close-option trap about Music PYQ audit?

A. Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaat. B. Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws. C. Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure. D. Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented.

Answer: D. Explanation: Verified routes are objective demands on Tyagaraja-Annamacharya, Tansen, Gandharva Mahavidyalaya and two provisional 2026 questions; no direct routed Mains demand is invented. The remaining options belong to different chronology, actor or analytical categories.

PYQS AND ANSWER PRACTICE

Demand decoding: Treat “Q80. Which statement avoids a close-option trap about Music PYQ audit?” as a form, chronology, region, patron, medium and status problem. Verify every pairing independently without inventing an official key.

Detailed examiner-grade model answer:

Introduction and thesis: The answer must resolve the cultural demand in “Q80. Which statement avoids a close-option trap about Music PYQ audit?”.

Analytical body:

- 1. Claim and named evidence:** Q80. Which statement avoids a close-option trap about Music PYQ audit?
Analysis: Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.
- 2. Claim and named evidence:** A. Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, with janya ragas derived from them; melakarta is not another name for a Hindustani thaat. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.
- 3. Claim and named evidence:** B. Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.
- 4. Claim and named evidence:** C. Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.

Counter-position / limit: A shared motif, material, religious setting or institutional label does not by itself establish identical function, direct descent, homogeneous community meaning or complete safeguarding.

Qualified conclusion: The answer must resolve the cultural demand in “Q80. Which statement avoids a close-option trap about Music PYQ audit?”.

Executable exam-length answer / compression plan: Fix the category and period; pair form with region, material, patron or institution; separate historical fact from later label or current recognition; eliminate the closest distractor.

Why this earns marks: It preserves answer-text integrity and exact category mapping while keeping reasoned elimination separate from an official key.

How to improve this answer: For “Q80. Which statement avoids a close-option trap about Music PYQ audit?”, state why the nearest distractor fails on medium, region, chronology, patronage, terminology or recognition status.

TRANSPARENT ZERO-DIRECT-PYQ AUDIT

No direct GS-I Mains PYQ is routed to Indian music in the audited ledgers. Verified objective routes are retained for 2018 Tyagaraja-Annamacharya, 2019 Tansen, 2025 Gandharva Mahavidyalaya, and the provisional 2026 raga-equivalence and Mallikarjun Mansur demands; no withheld answer is inferred.

OWNER PYQ LEDGER EXTRACTS

7. Exact PYQ application

ANALYSIS: No GS-I Mains question in the audited 2024-2025 papers directly tests Indian music. This topic supplies vocabulary and classification (gharana, raga-rasa linkage, Hindustani-Carnatic distinction) reusable in any future performing-arts question and supports topic 09 (dance-music accompaniment) and topic 10 (theatre-music overlap).

2026 PYQ Integration

Status: 2026 question-level PYQ demand is integrated into this owner. **Provenance:** Audited local official-paper routing ledgers: _PYQ-ROUTING-PRELIMS-2026.md. **Answer-key rule:** The 2026 Prelims and CSAT Set-A keys held locally are **provisional**; no option or answer is recorded or inferred in this integration.

- **Year represented:** 2026
- **Paper(s):** Prelims GS-I
- **Routed question demands:** 2

Year	Paper	Q	PYQ demand (neutral rendering)	Directive /​format	Source status	Owner requirement
2026	Prelims GS-I	1	Carnatic and Hindustani raga equivalence in Indian classical music traditions	Objective question; provisional 2026 Set-​A key present locally, answer not inferred	Provisional 2026 Set-​A key present locally (Ans -​2023; 2026-​GS1-​Provisional); key is provisional-​no answer letter recorded or inferred here	Cover the named fact/​concept and its likely statement-​level distinctions.
2026	Prelims GS-I	19	Pandit Mallikarjun Mansur and Hindustani classical music gharanas	Objective question; provisional 2026 Set-​A key present locally, answer not inferred	Provisional 2026 Set-​A key present locally (Ans -​2023; 2026-​GS1-​Provisional); key is provisional-​no answer letter recorded or inferred here	Cover the named fact/​concept and its likely statement-​level distinctions.

What this owner must now support

- Carnatic and Hindustani raga equivalence in Indian classical music traditions
- Pandit Mallikarjun Mansur and Hindustani classical music gharanas

This block integrates the 2026 examinable demand and paper metadata. It is kept separate from the 2018-2023 and 2024-2025 blocks and does not convert a provisionally-keyed, answer-free objective question into a solved answer.

Recent PYQ Integration (2024-2025)

Status: 2024-2025 question-level PYQ demand is integrated into this owner. **Provenance:** Audited local official-paper routing ledgers: _PYQ-ROUTING-PRELIMS-2024-2025.md. **Answer-key rule:** The official 2024-2025 Prelims Set-A keys are present in the repository and CSAT Set-A keys are supplied; even so, no option or answer is recorded or inferred in this integration.

- **Years represented:** 2025
- **Paper(s):** Prelims GS-I
- **Routed question demands:** 1

Year	Paper	Q	PYQ demand (neutral rendering)	Directive /​format	Source status	Owner requirement
2025	Prelims GS-​I	18	First Gandharva Mahavidyalaya (Vishnu Digambar Paluskar, 1901)	Objective question; official Set-​A key available locally, answer not inferred	Key available locally (official Set-​A answer key present); answer not recorded here	Cover the named fact/​concept and its likely statement-​level distinctions.

What this owner must now support

- First Gandharva Mahavidyalaya (Vishnu Digambar Paluskar, 1901)

This block integrates the 2024-2025 examinable demand and paper metadata. It is kept separate from the 2018-2023 block and does not convert an unkeyed/answer-free objective question into a solved answer.

Historical PYQ Integration (2018-2023)

Status: Question-level PYQ demand is integrated into this owner. **Provenance:** Audited local official-paper routing ledgers: _PYQ-ROUTING-PRELIMS-2018-2023.md. **Answer-key rule:** The official 2018-2023 Prelims/CSAT keys are not held locally; no option or answer has been inferred.

- **Years represented:** 2018, 2019
- **Paper(s):** Prelims GS-I
- **Routed question demands:** 2

Year	Paper	Q	PYQ demand (neutral rendering)	Directive /​format	Source status	Owner requirement
2018	Prelims GS-​I	44	Tyagaraja Kritis Annamacharya kirtanas facts in classical music	Objective question; official key unavailable locally	Routed; key unavailable locally	Cover the named fact/​concept and its likely statement-​level distinctions.
2019	Prelims GS-​I	16	Mian Tansen and Mughal court music tradition	Objective question; official key unavailable locally	Routed; key unavailable locally	Cover the named fact/​concept and its likely statement-​level distinctions.

What this owner must now support

- Tyagaraja Kritis Annamacharya kirtanas facts in classical music
- Mian Tansen and Mughal court music tradition

The table integrates the examinable demand and paper metadata. It does not turn an unkeyed objective question into a solved answer, and it does not claim that lexical presence alone proves full conceptual sufficiency.

8. Exact PYQ application

ANALYSIS: No GS-I Mains question in the audited 2024-2025 papers directly tests Indian music. This topic's attribution-caution method (Section 2) strengthens any future answer touching Amir Khusrau's contributions (commonly tested at the Prelims level) by requiring source-specific verification rather than repeating popular but unverified attribution claims.

ORIGINAL MAINS 1 - 10 MARKS

Question: Distinguish thaat, raga and melakarta as systems of melodic classification. Answer in about 150 words.

Model thesis: Thaata and melakarta are parent-scale devices in different traditions, while raga is the performed melodic entity; note count, phrase, hierarchy and emotional identity prevent interchangeability.

Claim -> named evidence -> analysis -> qualification:

- A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity.
- A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations.
- Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, withjanya ragas derived from them; melakarta is not another name for a Hindustani thaata.

Qualified conclusion: Thaata and melakarta are parent-scale devices in different traditions, while raga is the performed melodic entity; note count, phrase, hierarchy and emotional identity prevent interchangeability.

Demand decoding: The directive **answer** requires a direct position on “Distinguish thaata, raga and melakarta as systems of melodic classification. Answer in about...”, every clause and time boundary, common-axis organisation, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model answer:

Introduction and thesis: Thaata and melakarta are parent-scale devices in different traditions, while raga is the performed melodic entity; note count, phrase, hierarchy and emotional identity prevent interchangeability.

Analytical body:

1. **Claim and named evidence:** A thaata is an unsung Hindustani parent scale of seven notes stated in ascending order, without vaadi-samvadi or an independent emotional identity. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.
2. **Claim and named evidence:** A raga is a melodic entity with aaroha-avaroha, characteristic note hierarchy and phrase, five, six or seven notes, and aesthetic or temporal associations. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.
3. **Claim and named evidence:** Carnatic theory uses seventy-two sampurna melakarta or janaka parent ragas, withjanya ragas derived from them; melakarta is not another name for a Hindustani thaata. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.

Counter-position / limit: A shared motif, material, religious setting or institutional label does not by itself establish identical function, direct descent, homogeneous community meaning or complete safeguarding.

Qualified conclusion: Thaata and melakarta are parent-scale devices in different traditions, while raga is the performed melodic entity; note count, phrase, hierarchy and emotional identity prevent interchangeability.

Executable exam-length answer / compression plan: For a 10-mark answer, open with a two-sentence definition and thesis; organise three named monuments, objects, forms, texts, practitioners, communities or institutions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded close.

Why this earns marks: The answer obeys the directive, compares like with like, connects form and patronage to social meaning, and avoids list-making, essentialism, false continuity and unsupported attribution.

How to improve this answer: For “Distinguish thaata, raga and melakarta as systems of melodic classification. Answer in about...”, replace the weakest generalisation with one additional named monument, object, text, technique, community or official record and state what that evidence cannot prove.

ORIGINAL MAINS 2 - 10 MARKS

Question: Explain the gharana as a system of musical transmission. Answer in about 150 words.

Model thesis: A gharana concentrates technique through lineage and apprenticeship, links skill to patronage and survives political change by moving into concert, radio, teaching and recording.

Claim -> named evidence -> analysis -> qualification:

- A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship.
- Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal.

Qualified conclusion: A gharana concentrates technique through lineage and apprenticeship, links skill to patronage and survives political change by moving into concert, radio, teaching and recording.

Demand decoding: The directive **explain** requires a direct position on “Explain the gharana as a system of musical transmission. Answer in about 150 words.”, every clause and time boundary, common-axis organisation, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model answer:

Introduction and thesis: A gharana concentrates technique through lineage and apprenticeship, links skill to patronage and survives political change by moving into concert, radio, teaching and recording.

Analytical body:

1. **Claim and named evidence:** A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.
2. **Claim and named evidence:** Dagar centres Dhrupad, Darbhanga balances alaap and layakari, Gwalior is the oldest khayal gharana, Kirana stresses swara, Agra blends khayal and Dhrupad-Dhamar, and Patiala favours thumri-ghazal. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.

Counter-position / limit: A shared motif, material, religious setting or institutional label does not by itself establish identical function, direct descent, homogeneous community meaning or complete safeguarding.

Qualified conclusion: A gharana concentrates technique through lineage and apprenticeship, links skill to patronage and survives political change by moving into concert, radio, teaching and recording.

Executable exam-length answer / compression plan: For a 10-mark answer, open with a two-sentence definition and thesis; organise three named monuments, objects, forms, texts, practitioners, communities or institutions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded close.

Why this earns marks: The answer obeys the directive, compares like with like, connects form and patronage to social meaning, and avoids list-making, essentialism, false continuity and unsupported attribution.

How to improve this answer: For “Explain the gharana as a system of musical transmission. Answer in about 150 words.”, replace the weakest generalisation with one additional named monument, object, text, technique, community or official record and state what that evidence cannot prove.

ORIGINAL MAINS 3 - 15 MARKS

Question: Compare Hindustani and Carnatic music on common analytical axes. Answer in about 250 words.

Model thesis: The traditions share theory but organise parent scales, improvisation, repertoire, patronage and performance sequence differently; comparison must reject foreign-pure and fixed-improvised binaries.

Claim -> named evidence -> analysis -> qualification:

- Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure.

- Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws.
- Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta.
- Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity.
- A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana.

Qualified conclusion: The traditions share theory but organise parent scales, improvisation, repertoire, patronage and performance sequence differently; comparison must reject foreign-pure and fixed-improvised binaries.

Demand decoding: The directive **compare** requires a direct position on "Compare Hindustani and Carnatic music on common analytical axes. Answer in about 250 words.", every clause and time boundary, common-axis organisation, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model answer:

Introduction and thesis: The traditions share theory but organise parent scales, improvisation, repertoire, patronage and performance sequence differently; comparison must reject foreign-pure and fixed-improvised binaries.

Analytical body:

1. **Claim and named evidence:** Hindustani and Carnatic music share older theory but differ in classification, repertoire, ornament and performance sequence; neither is improvisation-free or culturally pure. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.

Executable exam-length answer / compression plan: For a 15-mark answer, open with a two-sentence definition and thesis; organise five named monuments, objects, forms, texts, practitioners, communities or institutions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded close.

Why this earns marks: The answer obeys the directive, compares like with like, connects form and patronage to social meaning, and avoids list-making, essentialism, false continuity and unsupported attribution.

How to improve this answer: For "Compare Hindustani and Carnatic music on common analytical axes. Answer in about 250 words.", replace the weakest generalisation with one additional named monument, object, text, technique,

community or official record and state what that evidence cannot prove.

ORIGINAL MAINS 4 - 15 MARKS

Question: Assess the role of treatises and modern institutions in standardising Indian music. Answer in about 250 words.

Model thesis: Texts fixed concepts such as raga and melakarta, while Bhatkhande, Paluskar and institutions widened transmission beyond hereditary circles but also standardised plural practice.

Claim -> named evidence -> analysis -> qualification:

- Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta.
- V.N. Bhatkhande systematised thaat-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music.
- Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition.

Qualified conclusion: Texts fixed concepts such as raga and melakarta, while Bhatkhande, Paluskar and institutions widened transmission beyond hereditary circles but also standardised plural practice.

Demand decoding: The directive **assess** requires a direct position on “Assess the role of treatises and modern institutions in standardising Indian music. Answer in...”, every clause and time boundary, common-axis organisation, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model answer:

Introduction and thesis: Texts fixed concepts such as raga and melakarta, while Bhatkhande, Paluskar and institutions widened transmission beyond hereditary circles but also standardised plural practice.

Analytical body:

1. **Claim and named evidence:** Bharata links music with drama, Matanga's Brihaddeshi defines raga, Sharngadeva's Sangita Ratnakara precedes bifurcation, and Venkatamakhin systematises melakarta. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.
2. **Claim and named evidence:** V.N. Bhatkhande systematised thaat-based Hindustani pedagogy, while V.D. Paluskar founded Gandharva Mahavidyalaya in 1901 to teach and transmit classical music. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.
3. **Claim and named evidence:** Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.

Counter-position / limit: A shared motif, material, religious setting or institutional label does not by itself establish identical function, direct descent, homogeneous community meaning or complete safeguarding.

Qualified conclusion: Texts fixed concepts such as raga and melakarta, while Bhatkhande, Paluskar and institutions widened transmission beyond hereditary circles but also standardised plural practice.

Executable exam-length answer / compression plan: For a 15-mark answer, open with a two-sentence definition and thesis; organise five named monuments, objects, forms, texts, practitioners, communities or institutions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded close.

Why this earns marks: The answer obeys the directive, compares like with like, connects form and patronage to social meaning, and avoids list-making, essentialism, false continuity and unsupported attribution.

How to improve this answer: For “Assess the role of treatises and modern institutions in standardising Indian music. Answer in...”, replace the weakest generalisation with one additional named monument, object, text, technique, community or official record and state what that evidence cannot prove.

ORIGINAL MAINS 5 - 20 MARKS

Question: Trace changing patronage and transmission in Indian classical music. Answer in about 300 words.

Model thesis: Temple, court, household, gharana, sabha, festival, school, radio and recording redirected traditions rather than simply replacing one another; the Aurangzeb case tests this continuity.

Claim -> named evidence -> analysis -> qualification:

- A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship.
- Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah.
- Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity.
- A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana.
- Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition.

Qualified conclusion: Temple, court, household, gharana, sabha, festival, school, radio and recording redirected traditions rather than simply replacing one another; the Aurangzeb case tests this continuity.

Demand decoding: The directive **trace** requires a direct position on "Trace changing patronage and transmission in Indian classical music. Answer in about 300...", every clause and time boundary, common-axis organisation, named evidence, a counter-position and a qualified verdict.

Detailed examiner-grade model answer:

Introduction and thesis: Temple, court, household, gharana, sabha, festival, school, radio and recording redirected traditions rather than simply replacing one another; the Aurangzeb case tests this continuity.

Analytical body:

1. **Claim and named evidence:** A gharana is a family or lineage-based structure that concentrates specialised technique, ties it to patronage and reproduces it through descent or long apprenticeship. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.
2. **Claim and named evidence:** Imperial court singing was curtailed, but instruments, elite patronage and music writing continued; Aurangzeb played the veena and Sadarang-Adarang later strengthened khayal under Muhammad Shah. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.
3. **Claim and named evidence:** Annamacharya praised Venkateswara, Purandara Dasa is honoured for pedagogic and repertorial foundations, and Tyagaraja, Muthuswami Dikshitar and Syama Sastri form the Carnatic Trinity. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.
4. **Claim and named evidence:** A kriti is a composed Carnatic form set to raga and tala with pallavi, anupallavi and charana; concerts also use varnam, alapana, niraval, kalpana swara, tanam and tillana. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.
5. **Claim and named evidence:** Sangeet Natak Akademi award lists are dynamic official recognition records; an award does not define a raga, gharana, instrument family or the historical value of a tradition. **Analysis:** Link form, medium, technique, patronage or performance context to the directive instead of merely listing the example. **Qualification:** State its chronological, regional, attributional or status boundary.

Counter-position / limit: A shared motif, material, religious setting or institutional label does not by itself establish identical function, direct descent, homogeneous community meaning or complete safeguarding.

Qualified conclusion: Temple, court, household, gharana, sabha, festival, school, radio and recording redirected traditions rather than simply replacing one another; the Aurangzeb case tests this continuity.

Executable exam-length answer / compression plan: For a 20-mark answer, open with a two-sentence definition and thesis; organise six to eight named monuments, objects, forms, texts, practitioners, communities or institutions as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded close.

Why this earns marks: The answer obeys the directive, compares like with like, connects form and patronage to social meaning, and avoids list-making, essentialism, false continuity and unsupported attribution.

How to improve this answer: For “Trace changing patronage and transmission in Indian classical music. Answer in about 300...”, replace the weakest generalisation with one additional named monument, object, text, technique, community or official record and state what that evidence cannot prove.

ORIGINAL MAINS 6 - 20 MARKS

Question: Discuss the relationship among classical theory, instruments and folk function in Indian music. Answer in about 300 words.

Model thesis: Scale and raga theory, instrument sound mechanisms and occasion-bound folk repertoires are distinct but interacting systems; none supplies a hierarchy of cultural worth.

Claim -> named evidence -> analysis -> qualification:

- Shadja, Rishabha, Gandhara, Madhyama, Panchama, Dhaivata and Nishada form the seven-note base shared across Indian classical traditions.
- Music uses the wider nine-rasa aesthetic vocabulary by associating melodic treatment with mood, time or season; such associations are tradition-specific rather than universal acoustical laws.
- Tata are chordophones, Sushira aerophones, Avanaddha membranophones and Ghana idiophones; the presence of a stretched membrane separates Avanaddha from solid-bodied Ghana.
- Santoor is a struck string instrument, ghatam and jaltarang are Ghana, tabla and mridangam are Avanaddha, and no inventor or unsupported invention date should be attached to them.
- Baul, Pandavani, Panihari, Lavani, Powada, Khongjom Parba and other forms are best distinguished by region, occasion, theme and transmission rather than ranked below classical music.

Qualified conclusion: Scale and raga theory, instrument sound mechanisms and occasion-bound folk repertoires are distinct but interacting systems; none supplies a hierarchy of cultural worth.

Demand decoding: The directive **discuss** requires a direct position on “Discuss the relationship among classical theory, instruments and folk function in Indian...”, every clause and time boundary, common-axis organisation, named evidence, a counter-position and a qualified verdict.

Why this earns marks: The answer obeys the directive, compares like with like, connects form and patronage to social meaning, and avoids list-making, essentialism, false continuity and unsupported attribution.

How to improve this answer: For "Discuss the relationship among classical theory, instruments and folk function in Indian...", replace the weakest generalisation with one additional named monument, object, text, technique, community or official record and state what that evidence cannot prove.

OPTIONAL ADVANCED DEPTH - NOT REQUIRED FOR A CORE ANSWER

Subject: Indian Art & Culture | **Tier:** Advanced | **GS Paper:** GS-I. **Core area:** Treatises and textual authority; gharana as patronage ecology; performance ecology and transmission; claims around attributed inventions; safeguarding of living musical traditions. **Grounded in:** Nitin Singhania, *Indian Art and Culture*, PDF pp. 411-457; Satish Chandra, *History of Medieval India*, PDF pp. 332-334; Satish Chandra, *Medieval History, 1526-1748, Part 2*, PDF pp. 394-395; 00_Master-Framework.md Sections 4-5; audited UPSC Mains 2024-2025 GS Paper I (no direct question). **FACT:** = source-grounded | **ANALYSIS:** = inference/analysis | **CURRENT:** = current anchor | **WRONG:** = trap. *Companion:* basic/08_Indian-Music.md.

1. Analytical question and thesis

Question: How did the gharana system function as a patronage and transmission ecology, and why must claims about musical "invention" (e.g. attributions to Amir Khusrau) be treated with source-critical caution? **Thesis:** ANALYSIS: The gharana system should be read as a historically specific response to courtly and later urban patronage structures - concentrating specialised technique within families/lineages to preserve a marketable, transmissible skill - and popular attributions of musical "invention" to single named figures (most commonly Amir Khusrau) require the same source-critical caution this folder applies elsewhere (topic 02's inscriptional silence, topic 06's Nataraja origin/peak distinction), since oral transmission and legend-formation make single-inventor claims difficult to verify against a contemporaneous textual source.

2. Advanced vocabulary

Term	Precise meaning
ANALYSIS: Gharana as patronage ecology	A gharana is not merely a "school of thought" but a family/lineage-based labour structure that concentrated specialised musical skill for court or elite patronage, later adapting to urban concert and recording/industry patronage after the decline of princely courts.
ANALYSIS: Attribution caution (Amir Khusrau)	Numerous instruments (sitar, tabla) and musical forms (qawwali, khayal) are popularly attributed to Amir Khusrau in secondary/popular literature; such attributions should be flagged as contested/legendary unless a specific contemporaneous source is cited, following this folder's general evidentiary-caution discipline (Section 4, 00_Master-Framework.md).
FACT: Rasa-raga linkage as aesthetic theory	The book's raga-rasa-time/season table (<i>Nitin...pdf</i> , PDF pp. 411-ff) reflects the same nine-rasa aesthetic framework used in dance (Natya Shastra, topic 09) and applied specifically to melodic structure in music - demonstrating a shared aesthetic vocabulary across Indian performing arts, not an independent musical invention.

3. Comparative framework

Dimension	Hindustani music	Carnatic music
FACT: Transmission structure	Gharana (family/regional lineage)	Guru-shishya parampara, less rigidly gharana-labelled
FACT: Historical formation	Older Indian theory plus devotional, courtly and Persianate encounters	Older Indian theory plus temple, court and later sabha institutions
FACT: Improvisational grammar	Alap, bol, taan and layakari within form/gharana conventions	Manodharma through alapana, niraval, kalpana swara and RTP
ANALYSIS: Patronage history	Courtly (Mughal and regional courts) transitioning to urban concert/recording/industry patronage	Temple and Zamindari patronage transitioning to sabha (concert/society) patronage

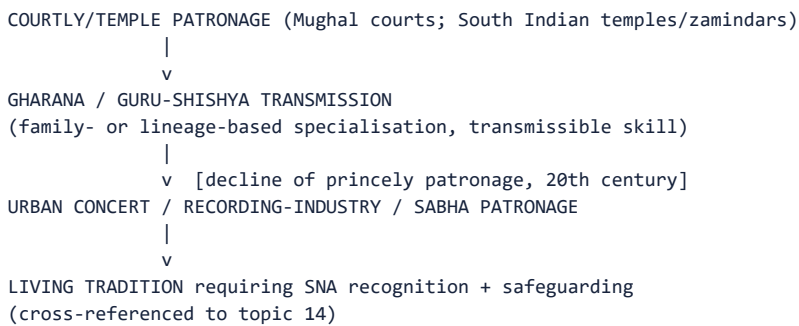

4. Evidence, form and interpretation

ANALYSIS: Applying the evidentiary-caution method from 00_Master-Framework.md Section 4 to music-specific claims: any statement that a specific musical form, instrument or raga was "invented" by a single named individual (most commonly claims involving Amir Khusrau) should be treated the same way this folder treats unattributed temple-sculpture claims (topic 03) or contested Elephanta-cave dynastic attribution (topic 02) - as a popular tradition requiring verification against a contemporaneous source before being presented as settled fact in a Mains answer.

FACT: The gharana system's regional/family specialisation (Section 3) mirrors the same "layered patronage" logic seen in architecture (topic 02's Sanchi, topic 04's Delhi Sultanate imperial/provincial split) - a transmissible, brand-like specialisation that outlives any individual patron.

FACT: Satish Chandra supplies a continuity/change test: Aurangzeb's court restricted singing, yet instrumental practice, elite patronage and music writing continued; under Muhammad Shah, Sadarang/Adarang expanded khayal. The episode shows that loss of one patronage node redirects a tradition rather than automatically extinguishing it.

5. Visual synthesis table

6. Direct-book source spine

FACT: *Nitin...pdf*, PDF pp. 411-457 - the gharana tables, raga-rasa correspondence table, and Hindustani-Carnatic comparison table are the direct spine for this file's advanced analysis.

7. CURRENT: Dated official anchor

- CURRENT: Sangeet Natak Akademi's awardee list is the authoritative current record of recognised musicians; at research time (21 July 2026) this file does not assume the list extends beyond its last verified year - cite only a specific, dated SNA release for any named recent awardee (see topic 14).

8. Exact PYQ application

ANALYSIS: No GS-I Mains question in the audited 2024-2025 papers directly tests Indian music. This topic's attribution-caution method (Section 2) strengthens any future answer touching Amir Khusrau's contributions (commonly tested at the Prelims level) by requiring source-specific verification rather than repeating popular but unverified attribution claims.

9. WRONG: Attribution, chronology and numeric traps

- WRONG: Presenting Amir Khusrau as the certain, sole inventor of the sitar, tabla, khayal or qawwali. -> These are widely popularised but historically contested attributions; state them as "popularly attributed to" rather than settled fact.

- WRONG: Treating the gharana system as a purely artistic (non-economic) phenomenon. -> It also functioned as a family-based labour/patronage structure, protecting a transmissible, marketable skill across generations.

- WRONG: Assuming Carnatic music has no improvisational element at all. -> The premise is wrong: Carnatic manodharma is extensive, though organised through forms different from Hindustani alap/taan practice.

- WRONG: Turning Hindustani/Carnatic into foreign/indigenous essences. -> Both are historical formations with shared theory and region-specific exchanges, institutions and repertoires.

10. Mains answer frameworks

Central thesis: Indian music's gharana system should be argued as a patronage-driven transmission ecology, and any claim of individual "invention" in this tradition requires the same source-critical caution applied elsewhere in this folder to contested attribution.

1. **Name the specific gharana/style** before making any broader claim about "Indian classical music."

2. **Frame the gharana as a patronage/transmission structure**, not merely a stylistic label.

3. **Flag any invention-attribution claim** (especially involving Amir Khusrau) as contested unless independently sourced.

4. **Use the shared rasa framework** to connect a music answer with dance/theatre questions (topics 09-10) for cross-topic fluency.

5. **Close with SNA recognition** as the current-institutional anchor, cross-referenced to topic 14.

11. Subject boundaries

- WRONG: **Topic 13 owns** the devotional/doctrinal content of Bhakti and Sufi music traditions. This file owns the **musical form and lineage**.
- WRONG: **Science & Technology owns** acoustic physics and instrument engineering as a technical discipline.
- FACT: This file's attribution-caution method is directly reusable wherever a later topic risks repeating an unverified "invented by" claim (e.g. topic 10's theatre/puppetry attributions).

12. Companion links

- FACT: Foundation companion: `basic/08_Indian-Music.md`.
- FACT: `00_Master-Framework.md` Section 4 - the evidence hierarchy, extended here to musical-attribution claims.
- ANALYSIS: **Cross-links:** Topic 09 (shared rasa framework with dance), Topic 13 (Bhakti/Sufi devotional music content), Topic 14 (SNA recognition).

13. Verification ledger and open cautions

- FACT: Verified against *Nitin...pdf*, PDF pp. 411-457 directly (chapter outline, gharana tables, raga-rasa table, Hindustani-Carnatic comparison table).
- ANALYSIS: Open caution: this file's treatment of specific gharana founders and named exponents relies on tabular content that was partially OCR-fragmented in the source extraction; verify any specific exponent name against the book's own table before using it as a standalone Prelims fact.

CONSOLIDATED REGISTER NOTES

COMPLETE TOPIC ASCII MASTER FLOW DIAGRAM

ASCII MASTER FLOW - PANEL 1/12: Melodic hierarchy

SAPTASWARA -> shared note base
THAAT / MELAKARTA -> parent-scale systems
RAGA -> performed melodic identity
TALA -> rhythmic cycle framing performance
MUST REMEMBER: Indian music analysis distinguishes saptaswara, raga, tala, Hindustani thaata, Carnatic melakarta-janya systems, treatise chronology, gharana or sampradaya transmission, instruments and modern institutions.
MUST REMEMBER: Indian music analysis distinguishes saptaswara, raga, tala, Hindustani thaata, Carnatic melakarta-janya systems, treatise chronology, gharana or sampradaya transmission, instruments and modern institutions.

ASCII MASTER FLOW - PANEL 2/12: Thaata-raga firewall

THAATA -> seven-note unsung scale
RAGA -> phrase, hierarchy and melodic identity
MELAKARTA -> Carnatic sampurna parent
JANYA -> derived Carnatic raga

ASCII MASTER FLOW - PANEL 3/12: Two-tradition matrix

HINDUSTANI -> thaata, gharana, alap and khayal
CARNATIC -> melakarta, kriti and manodharma
SHARED -> swara, raga, tala and older theory
REJECT -> foreign versus pure

ASCII MASTER FLOW - PANEL 4/12: Treatise contribution chain

BHARATA -> music with drama and rasa
MATANGA -> early raga definition
SHARNGADEVA -> pre-bifurcation synthesis
VENKATAMAKHIN -> melakarta system

ASCII MASTER FLOW - PANEL 5/12: Modern pedagogy shift

HEREDITARY LINEAGE -> concentrated technique
PALUSKAR 1901 -> institutional teaching
BHATKHANDI -> pedagogic classification
RESULT -> wider access and standardisation

ASCII MASTER FLOW - PANEL 6/12: Gharana mechanism

HOUSEHOLD / LINEAGE -> specialised skill
PATRON -> court or elite support
APPRENTICESHIP -> controlled transmission
NEW MEDIA -> concert, radio and recording

ASCII MASTER FLOW - PANEL 7/12: Gharana discriminator

DAGAR -> Dhrupad
GWALIOR -> old khayal lineage
KIRANA -> precise swara
PATIALA -> thumri and ghazal

ASCII MASTER FLOW - PANEL 8/12: Aurangzeb correction rail

COURT SINGING -> curtailed
INSTRUMENTS -> continued
WOMEN / NOBLES -> retained patronage
MUHAMMAD SHAH -> khayal strengthened later

ASCII MASTER FLOW - PANEL 9/12: Carnatic composer map

ANNAMACHARYA -> Venkateswara sankirtanas
PURANDARA DASA -> pedagogic foundation
TYAGARAJA + DIKSHITAR + SYAMA SASTRI -> Trinity
VENKATAMAKHIN -> theory and composition

ASCII MASTER FLOW - PANEL 10/12: Instrument mechanism test

TATA -> vibrating string
SUSHIRA -> vibrating air column
AVANADDHA -> stretched membrane
GHANA -> solid body vibrates
CLOSE DISTINCTION: A thaat is an unsung seven-note parent scale, a raga has characteristic ascent, descent, hierarchy and phrase, and seventy-two Carnatic melakartas are not Bhatkhande's ten Hindustani thaats.
CLOSE DISTINCTION: A thaat is an unsung seven-note parent scale, a raga has characteristic ascent, descent, hierarchy and phrase, and seventy-two Carnatic melakartas are not Bhatkhande's ten Hindustani thaats.

ASCII MASTER FLOW - PANEL 11/12: Folk-function map

PANDAVANI -> epic memory, Chhattisgarh
PANIHARI -> water and women's labour, Rajasthan
POWADA -> heroic memory, Maharashtra
KHONGJOM PARBA -> battle memory, Manipur
EVIDENCE LIMIT: Bharata, Matanga, Sharngadeva and Venkatamakhin mark different theoretical stages; mood, time and season associations are tradition-specific and neither classical system is culturally pure or improvisation-free.
EVIDENCE LIMIT: Bharata, Matanga, Sharngadeva and Venkatamakhin mark different theoretical stages; mood, time and season associations are tradition-specific and neither classical system is culturally pure or improvisation-free.

ASCII MASTER FLOW - PANEL 12/12: Music answer spine

DEFINE -> note, scale, raga or form
COMPARE -> grammar, repertoire and patronage
EVIDENCE -> treatise, gharana, composer or instrument
QUALIFY -> attribution, key and current-list limits
