WORLD REGIONAL GEOGRAPHY: CONTINENTS AND COUNTRIES

FRAMES OF REGIONAL ANALYSIS → CONTINENTAL PATTERN ANCHORS → MACRO-REGION ORGANISING LOGIC → PHYSICAL FRAME TO ECONOMIC → LEFT-TO-RIGHT LOCATING CHAIN → EIGHT COMPARISON AXES

Read the thick cyan rail from Stage 00 to the final core synthesis. Each card uses a concept-appropriate structure; the grey E card is optional enrichment only and never repairs missing core content.

● PRIMARY CORE FLOW ● SUBORDINATE EXTRA ● APPROVAL / REVIEW

CORE BEFORE EXTRA • prior artefacts unchanged • exact same master drives poster and tiles

Approval: FALSE • Pending user review • source generation g3 and all prior artifacts unchanged

00 STAGE 00 — FRAMES OF REGIONAL ANALYSIS

FRAMES OF REGIONAL ANALYSIS · FIRST-ORDER LANDMASS FRAME USED TO OPEN THE ANSWER · AREA WITH INTERNAL PHYSICAL, CULTURAL OR ECONOMIC COHERENCE · DIFFERENTIATED PART SUCH AS MAINLAND VERSUS MARITIME SOUTH-EAST ASIA · TRANSITION BELT · GRADIENT ZONE SUCH AS THE SAHEL, BELONGING FULLY TO · MIDDLE EAST, LATIN AMERICA, NORDIC · REGIONAL SHORTHAND, NEVER A CONTINENT

CONTINENT — first-order landmass frame used to open the answer

REGION — area with internal physical, cultural or economic coherence → SUB-REGION — differentiated part such as mainland versus maritime South-East Asia → TRANSITION BELT — gradient zone such as the Sahel, belonging fully to neither side

CORE CLAIM
- CONTINENT — first-order landmass frame used to open the answer
- REGION — area with internal physical, cultural or economic coherence
- SUB-REGION — differentiated part such as mainland versus maritime South-East Asia

MECHANISM
- TRANSITION BELT — gradient zone such as the Sahel, belonging fully to neither side
- LABEL — Middle East, Latin America, Nordic: regional shorthand, never a continent
- MUST REMEMBER: World regional geography synthesises location, physiography, drainage, climate, biomes, resources, population and economy rather than memorising

CONSEQUENCE / LIMIT
- every continent is reconstructed through plate-relief belts, wind/current controls, river basins, settlement cores and strategic interfaces.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: MUST REMEMBER: World regional geography synthesises location, physiography, drainage, climate, biomes, resources, population and economy rather than memorising country lists; every continent is reconstructed through plate-relief belts, wind/current controls, river basins, settlement cores and strategic interfaces.

01 STAGE 01 — CONTINENTAL PATTERN ANCHORS

CONTINENTAL PATTERN ANCHORS · LARGEST IN AREA AND POPULATION IN THE SOURCE FRAMEWORK · PLATEAUX, RIFT VALLEY AND THE DESERT-SAVANNA-RAINFOREST SEQUENCE · PENINSULAR, RIVER-LINKED, DENSELY URBANISED INTERACTION SPACE · CORDILLERA WITH INTERIOR PLAINS NORTH: ANDES, AMAZON AND PAMPAS · ANTARCTICA AND AUSTRALIA · POLAR DESERT UNDER ICE; SMALLEST CONTINENT WITH ARID INTERIOR

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
ASIA — largest in area and population in the source framework; greatest sub-regional variety	EUROPE — peninsular, river-linked, densely urbanised interaction space	ANTARCTICA AND AUSTRALIA — polar desert under ice; smallest continent with arid interior
AFRICA — plateaux, rift valley and the desert-savanna-rainforest sequence	AMERICAS — Cordillera with interior plains north: Andes, Amazon and Pampas south	ASIA — largest in area and population in the source framework; greatest sub-regional variety

CORE CLAIM
- ASIA — largest in area and population in the source framework; greatest sub-regional variety
- AFRICA — plateaux, rift valley and the desert-savanna-rainforest sequence

MECHANISM
- EUROPE — peninsular, river-linked, densely urbanised interaction space
- AMERICAS — Cordillera with interior plains north: Andes, Amazon and Pampas south

CONSEQUENCE / LIMIT
- ANTARCTICA AND AUSTRALIA — polar desert under ice; smallest continent with arid interior
- ASIA — largest in area and population in the source framework; greatest sub-regional variety

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: ANTARCTICA AND AUSTRALIA — polar desert under ice; smallest continent with arid interior.

02 STAGE 02 — MACRO-REGION ORGANISING LOGIC

MACRO-REGION ORGANISING LOGIC · SOUTH-WEST ASIA · ARID PLATEAU, DESERT AND CHOKEPOINT INTERFACES · SOUTH ASIA · MONSOON DOMAIN FRAMED BY THE HIMALAYA AND THE INDIAN · SOUTH-EAST ASIA · MAINLAND RIVER BASINS PLUS A MARITIME ARCHIPELAGIC WORLD · CENTRAL ASIA

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
SOUTH-WEST ASIA — arid plateau, desert and chokepoint interfaces	SOUTH-EAST ASIA — mainland river basins plus a maritime archipelagic world	AFRICA SPLIT — Sahara divides, but the Sahel is the transition belt between the halves
SOUTH ASIA — monsoon domain framed by the Himalaya and the Indian Ocean	CENTRAL ASIA — interior steppe, basin and mountain knotlands with transit dependence	SOUTH-WEST ASIA — arid plateau, desert and chokepoint interfaces

CORE CLAIM
- SOUTH-WEST ASIA — arid plateau, desert and chokepoint interfaces
- SOUTH ASIA — monsoon domain framed by the Himalaya and the Indian Ocean

MECHANISM
- SOUTH-EAST ASIA — mainland river basins plus a maritime archipelagic world
- CENTRAL ASIA — interior steppe, basin and mountain knotlands with transit dependence

CONSEQUENCE / LIMIT
- AFRICA SPLIT — Sahara divides, but the Sahel is the transition belt between the halves
- SOUTH-WEST ASIA — arid plateau, desert and chokepoint interfaces

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: AFRICA SPLIT — Sahara divides, but the Sahel is the transition belt between the halves.

03 STAGE 03 — PHYSICAL FRAME TO ECONOMIC ASSOCIATION

PHYSICAL FRAME TO ECONOMIC ASSOCIATION · SAHARA, ATLAS, NILE · OASIS BELTS, MEDITERRANEAN COAST AND THE SUEZ GATEWAY · CONGO BASIN AND PLATEAUX · MINING, PLANTATION BELTS AND PASTORAL MARGINS · NORTH EUROPEAN PLAIN AND RIVERS · DENSE TRANSPORT, MANUFACTURING AND PORT ECONOMY · CORDILLERA AND GREAT PLAINS

SAHARA, ATLAS, NILE — oasis belts, Mediterranean coast and the Suez gateway → CONGO BASIN AND PLATEAUX — mining, plantation belts and pastoral margins → NORTH EUROPEAN PLAIN AND RIVERS — dense transport, manufacturing and port economy → CORDILLERA AND GREAT PLAINS — wheat belt, industrial corridor and energy basins → ANDES, AMAZON, PAMPAS — copper west, rainforest core, temperate farming south

CORE CLAIM
- SAHARA, ATLAS, NILE — oasis belts, Mediterranean coast and the Suez gateway
- CONGO BASIN AND PLATEAUX — mining, plantation belts and pastoral margins

MECHANISM
- NORTH EUROPEAN PLAIN AND RIVERS — dense transport, manufacturing and port economy
- CORDILLERA AND GREAT PLAINS — wheat belt, industrial corridor and energy basins

CONSEQUENCE / LIMIT
- ANDES, AMAZON, PAMPAS — copper west, rainforest core, temperate farming south
- SAHARA, ATLAS, NILE — oasis belts, Mediterranean coast and the Suez gateway

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: ANDES, AMAZON, PAMPAS — copper west, rainforest core, temperate farming south.

04 STAGE 04 — LEFT-TO-RIGHT LOCATING CHAIN

LEFT-TO-RIGHT LOCATING CHAIN · ATLANTIC WORLD · EUROPE WITH ITS PLAINS, PENINSULAS AND ALPINE SPINE · WEST ASIA · ARABIAN AND IRANIAN CORE WITH DESERT-PLATEAU GEOGRAPHY · SOUTH ASIA · HIMALAYAN-MONSOON CORE OPENING ON THE INDIAN OCEAN · SOUTH-EAST ASIA

ATLANTIC WORLD — Europe with its plains, peninsulas and Alpine spine → WEST ASIA — Arabian and Iranian core with desert-plateau geography → SOUTH ASIA — Himalayan-monsoon core opening on the Indian Ocean → SOUTH-EAST ASIA — Malacca-facing archipelagic and mainland passage world → RULE — place the feature in a region first, then inside its continent

CORE CLAIM
- ATLANTIC WORLD — Europe with its plains, peninsulas and Alpine spine
- WEST ASIA — Arabian and Iranian core with desert-plateau geography

MECHANISM
- SOUTH ASIA — Himalayan-monsoon core opening on the Indian Ocean
- SOUTH-EAST ASIA — Malacca-facing archipelagic and mainland passage world

CONSEQUENCE / LIMIT
- RULE — place the feature in a region first, then inside its continent
- ATLANTIC WORLD — Europe with its plains, peninsulas and Alpine spine

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: RULE — place the feature in a region first, then inside its continent.

05 STAGE 05 — EIGHT COMPARISON AXES

EIGHT COMPARISON AXES · LOCATION AND SITUATION · LATITUDE, COASTAL OR LANDLOCKED, PROXIMITY TO ROUTES · STRUCTURE AND CLIMATE · SHIELD, FOLD BELT, BASIN; REGIME AND RELIABILITY OF WATER · RESOURCES AND PEOPLE · ACCESSIBILITY AND PROCESSING; DENSITY AND URBANISATION · ECONOMY AND CONNECTIVITY

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
LOCATION AND SITUATION — latitude, coastal or landlocked, proximity to routes	RESOURCES AND PEOPLE — accessibility and processing; density and urbanisation	CONSTRAINTS — hazard, water stress, fragmentation and resource dependence
STRUCTURE AND CLIMATE — shield, fold belt, basin; regime and reliability of water	ECONOMY AND CONNECTIVITY — sectoral composition; ports, corridors and chokepoints	LOCATION AND SITUATION — latitude, coastal or landlocked, proximity to routes

CORE CLAIM
- LOCATION AND SITUATION — latitude, coastal or landlocked, proximity to routes
- STRUCTURE AND CLIMATE — shield, fold belt, basin; regime and reliability of water

MECHANISM
- RESOURCES AND PEOPLE — accessibility and processing; density and urbanisation
- ECONOMY AND CONNECTIVITY — sectoral composition; ports, corridors and chokepoints

CONSEQUENCE / LIMIT
- CONSTRAINTS — hazard, water stress, fragmentation and resource dependence
- LOCATION AND SITUATION — latitude, coastal or landlocked, proximity to routes

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: CONSTRAINTS — hazard, water stress, fragmentation and resource dependence.

06 STAGE 06 — COMPARISON VERSUS DESCRIPTION FORK

COMPARISON VERSUS DESCRIPTION FORK · QUESTION ASKS FOR A COMPARISON · SELECT FOUR OR FIVE RELEVANT AXES · IF EACH AXIS IS APPLIED TO BOTH REGIONS IN · IT READS AS COMPARISON · IF THE REGIONS ARE DESCRIBED ONE AFTER THE OTHER · IT IS MARKED AS DESCRIPTION · NAME THE DECISIVE AXIS ON WHICH THE TWO DIFFER

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
QUESTION ASKS FOR A COMPARISON — select four or five relevant axes	IF the regions are described one after the other → it is marked as description	FINALLY — give the counter-case axis on which they are alike, then a graded verdict
IF each axis is applied to both regions in one paragraph → it reads as comparison	THEN — name the decisive axis on which the two differ most	QUESTION ASKS FOR A COMPARISON — select four or five relevant axes

CORE CLAIM
- QUESTION ASKS FOR A COMPARISON — select four or five relevant axes
- IF each axis is applied to both regions in one paragraph → it reads as comparison

MECHANISM
- IF the regions are described one after the other → it is marked as description
- THEN — name the decisive axis on which the two differ most

CONSEQUENCE / LIMIT
- FINALLY — give the counter-case axis on which they are alike, then a graded verdict
- QUESTION ASKS FOR A COMPARISON — select four or five relevant axes

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: FINALLY — give the counter-case axis on which they are alike, then a graded verdict.

07 STAGE 07 — LANDLOCKED PENALTY AND ROUTE POSITION

LANDLOCKED PENALTY AND ROUTE POSITION · INTERIOR LOCATION · DEPENDENCE ON A NEIGHBOUR'S PORTS, ROADS AND GOODWILL · HIGHER FREIGHT COST, LONGER TRANSIT, NO INDEPENDENT TRADE GUARANTEE · TRANSIT AGREEMENTS AND CORRIDOR PROJECTS GAIN DISPROPORTIONATE WEIGHT · ROUTE POSITION ON A LANE OR LAND BRIDGE OFTEN · SITUATION IS RELATIVE; A NEW CANAL, CORRIDOR OR CLOSURE

INTERIOR LOCATION — dependence on a neighbour's ports, roads and goodwill → CONSEQUENCE — higher freight cost, longer transit, no independent trade guarantee → RESPONSE — transit agreements and corridor projects gain disproportionate weight → CONTRAST — route position on a lane or land bridge often outweighs endowment → CAUTION — situation is relative; a new canal, corridor or closure rewrites it

CORE CLAIM
- INTERIOR LOCATION — dependence on a neighbour's ports, roads and goodwill
- CONSEQUENCE — higher freight cost, longer transit, no independent trade guarantee

MECHANISM
- RESPONSE — transit agreements and corridor projects gain disproportionate weight
- CONTRAST — route position on a lane or land bridge often outweighs endowment

CONSEQUENCE / LIMIT
- CAUTION — situation is relative; a new canal, corridor or closure rewrites it
- INTERIOR LOCATION — dependence on a neighbour's ports, roads and goodwill

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: CAUTION — situation is relative; a new canal, corridor or closure rewrites it.

08 STAGE 08 — SEVEN-STEP REGIONAL METHOD

SEVEN-STEP REGIONAL METHOD · LOCATE AND DELIMIT · STATE WHAT BOUNDS THE REGION AND WHAT IT EXCLUDES · PHYSICAL BASE · STRUCTURE, RELIEF, CLIMATE REGIME AND HAZARD EXPOSURE · CORRIDOR, COAST OR INTERIOR POSITION AND ITS COST CONSEQUENCE · RESOURCES, PEOPLE, OUTCOME · ENDOWMENT, SETTLEMENT PATTERN, ECONOMIC RESULT

LOCATE AND DELIMIT — state what bounds the region and what it excludes

PHYSICAL BASE — structure, relief, climate regime and hazard exposure → ACCESSIBILITY — corridor, coast or interior position and its cost consequence → RESOURCES, PEOPLE, OUTCOME — endowment, settlement pattern, economic result

CORE CLAIM
- LOCATE AND DELIMIT — state what bounds the region and what it excludes
- PHYSICAL BASE — structure, relief, climate regime and hazard exposure

MECHANISM
- ACCESSIBILITY — corridor, coast or interior position and its cost consequence
- RESOURCES, PEOPLE, OUTCOME — endowment, settlement pattern, economic result

CONSEQUENCE / LIMIT
- SYNTHESIS AND QUALIFICATION — compound causation, then internal non-uniformity
- LOCATE AND DELIMIT — state what bounds the region and what it excludes

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: SYNTHESIS AND QUALIFICATION — compound causation, then internal non-uniformity.

09 STAGE 09 — TWO WORKED REGIONS COMPARED

TWO WORKED REGIONS COMPARED · HILL-AND-VALLEY CORRIDOR REGION; EAST-WEST RAINFALL-GRADIENT BELT · PHYSICAL BASE · FOLD RANGES, VERY HIGH RAINFALL, SEISMICITY; SEMI-ARID, VARIABLE RAINFALL · NARROW LAND CORRIDOR RAISING COST; INTERIOR LOCATION FAR FROM · PRIMARY ACTIVITY AND OUT-MIGRATION; RAIN-FED CEREALS AND PASTORALISM · SHARED LESSON · DISTINCTIVENESS IS COMPOUND, AND NEITHER REGION IS INTERNALLY UNIFORM

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
DELIMITATION — hill-and-valley corridor region; east-west rainfall-gradient belt	ECONOMY — primary activity and out-migration; rain-fed cereals and pastoralism	America with South America, Sahel with Sahara, mainland with maritime Southeast Asia, and
PHYSICAL BASE — fold ranges, very high rainfall, seismicity; semi-arid, variable rainfall	SHARED LESSON — distinctiveness is compound, and neither region is internally uniform	a continent, cultural region, economic bloc and political boundary answer different map questions.
ACCESS — narrow land corridor raising cost; interior location far from any port	CLOSE DISTINCTION: Europe is not coterminous with the EU, Middle East with West Asia, Latin	

CORE CLAIM
- DELIMITATION — hill-and-valley corridor region; east-west rainfall-gradient belt
- PHYSICAL BASE — fold ranges, very high rainfall, seismicity; semi-arid, variable rainfall
- ACCESS — narrow land corridor raising cost; interior location far from any port

MECHANISM
- ECONOMY — primary activity and out-migration; rain-fed cereals and pastoralism
- SHARED LESSON — distinctiveness is compound, and neither region is internally uniform
- CLOSE DISTINCTION: Europe is not coterminous with the EU, Middle East with West Asia, Latin

CONSEQUENCE / LIMIT
- America with South America, Sahel with Sahara, mainland with maritime Southeast Asia, and
- a continent, cultural region, economic bloc and political boundary answer different map questions.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: America with South America, Sahel with Sahara, mainland with maritime Southeast Asia, and a continent, cultural region, economic bloc and political boundary answer different map questions.

10 STAGE 10 — INDIA OUTWARD ARCS

INDIA OUTWARD ARCS · ARABIAN SEA TO GULF AND RED SEA APPROACHES TO · BAY OF BENGAL TO ANDAMAN SEA TOWARD MALACCA-ORIENTED PASSAGES · HIMALAYA AND KARAKORAM BARRIER WITH TRANSIT-CONSTRAINED CENTRAL ASIA · LAND BRIDGE · MYANMAR IS THE ONLY OVERLAND ENTRY TO MAINLAND SOUTH-EAST · MARITIME-HEAVY WEST AND EAST, BARRIER-HEAVY NORTH · EVIDENCE LIMIT

WEST — Arabian Sea to Gulf and Red Sea approaches to the Suez corridor → EAST — Bay of Bengal to Andaman Sea toward Malacca-oriented passages → NORTH — Himalaya and Karakoram barrier with transit-constrained Central Asia → LAND BRIDGE — Myanmar is the only overland entry to mainland South-East Asia → READING — maritime-heavy west and east, barrier-heavy north

CORE CLAIM
- WEST — Arabian Sea to Gulf and Red Sea approaches to the Suez corridor
- EAST — Bay of Bengal to Andaman Sea toward Malacca-oriented passages
- NORTH — Himalaya and Karakoram barrier with transit-constrained Central Asia

MECHANISM
- LAND BRIDGE — Myanmar is the only overland entry to mainland South-East Asia
- READING — maritime-heavy west and east, barrier-heavy north
- EVIDENCE LIMIT: Andes–Amazon–Pampas, Rockies–Great Lakes–Mississippi, Alps–North European

CONSEQUENCE / LIMIT
- Plain, Atlas–Sahara–Sahel–Congo–Rift, West Siberian Plain–Central Asian basins–monsoon Asia, and Australian interior/eastern rim provide comparable regional spines
- country data and geopolitical status remain source-dated.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: Plain, Atlas–Sahara–Sahel–Congo–Rift, West Siberian Plain–Central Asian basins–monsoon Asia, and Australian interior/eastern rim provide comparable regional spines; country data and geopolitical status remain source-dated.

11 STAGE 11 — KALADAN CORRIDOR AND MAPWORK REVIVAL

KALADAN CORRIDOR AND MAPWORK REVIVAL · SEA LEG ACROSS THE BAY OF BENGAL TO THE · PORT NODE WHERE THE MARITIME LEG MEETS THE KALADAN · RIVER TERMINUS AND START OF THE ROAD SEGMENT STILL · BORDER CROSSING INTO MIZORAM COMPLETING THE MULTIMODAL CHAIN · STATUS RULE · STATE THE 2027 OFFICIAL TARGET, NEVER AN ACHIEVED COMPLETION

KOLKATA — sea leg across the Bay of Bengal to the Rakhine coast → SITTWE — port node where the maritime leg meets the Kaladan river route → PALETWA — river terminus and start of the road segment still under construction → ZORINPUI — border crossing into Mizoram completing the multimodal chain → STATUS RULE — state the 2027 official target, never an achieved completion

CORE CLAIM
- KOLKATA — sea leg across the Bay of Bengal to the Rakhine coast
- SITTWE — port node where the maritime leg meets the Kaladan river route

MECHANISM
- PALETWA — river terminus and start of the road segment still under construction
- ZORINPUI — border crossing into Mizoram completing the multimodal chain

CONSEQUENCE / LIMIT
- STATUS RULE — state the 2027 official target, never an achieved completion
- KOLKATA — sea leg across the Bay of Bengal to the Rakhine coast

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: STATUS RULE — state the 2027 official target, never an achieved completion.

E EXTRA — SUBORDINATE ENRICHMENT — ONLY AFTER THE COMPLETE CORE

OPTIONAL ADVANCED ENRICHMENT · INDIA'S WESTWARD MARITIME GEOGRAPHY RUNS THROUGH THE ARABIAN SEA · RED SEA APPROACHES - SUEZ · INDIA'S EASTWARD MARITIME GEOGRAPHY RUNS THROUGH THE BAY OF · MYANMAR IS INDIA'S ONLY LAND BRIDGE INTO MAINLAND SOUTH-EAST · BANGLADESH IS THE DELTAIC NEIGHBOUR THAT WRAPS AROUND MUCH · CENTRAL ASIA IS CLOSE IN MAP DISTANCE BUT DIFFICULT · INDIA REACHES CENTRAL ASIA AS EASILY AS IT REACHES

OPTIONAL SOURCE DEPTH
- India's westward maritime geography runs through the Arabian Sea - Gulf / Red Sea approaches - Suez .
- India's eastward maritime geography runs through the Bay of Bengal - Andaman Sea - Malacca-oriented passages .
- Myanmar is India's only land bridge into mainland South-East Asia.
- Bangladesh is the deltaic neighbour that wraps around much of India's north-east approach.

ADVANCED DEBATE
- Central Asia is close in map distance but difficult in access because of mountains and intervening politics.
- NOT: India reaches Central Asia as easily as it reaches South-East Asia - northern barriers are far harder than maritime eastern routes.
- NOT: All Indian outward geography is continental - India's strongest regional leverage is maritime.
- NOT: Country-capital questions are enough - UPSC increasingly combines country with strait, sea, river, plateau, delta or island chain .

LEGACY / NUANCE
- CAUTION: Recurring Prelims theme: country-capital-physical-feature mapping.
- CAUTION: Recurring Prelims theme: identify sea lanes and chokepoints connected to India's trade geography.
- CAUTION: Recurring GS-I / GS-II theme: explain how India's location shapes links with West Asia, South-East Asia, Africa and the Indo-Pacific.
- "India's regional geography is outward-facing in the seas and constrained in the mountains." Discuss.

OPTIONAL STATUS — This optional depth is unnecessary for a competent core answer; use it only for added nuance after the complete core has been written.

END OF MASTER CANVAS • poster embeds this exact master • tiled pages are overlapping crops of the same pixels
