LAKES / INDIA LAKES AND WETLANDS

CATEGORY BOUNDARY → LAKE-ORIGIN TREE → WATER-BUDGET EQUATION → LAKE-CHANGE FIREWALL → WETLAND HYDROPERIOD → INDIA LAKE MAP

Read the thick cyan rail from Stage 00 to the final core synthesis. Each card uses a concept-appropriate structure; the grey E card is optional enrichment only and never repairs missing core content.

◆ PRIMARY CORE FLOW ◇ SUBORDINATE EXTRA ◆ APPROVAL / REVIEW

CORE BEFORE EXTRA • prior artefacts unchanged • exact same master drives poster and tiles

Approval: FALSE • Pending user review • active generation g3 • explicit approval of this exact generation is required • all prior artifacts unchanged

00

STAGE 00 CATEGORY BOUNDARY

CATEGORY BOUNDARY · STANDING WATER IN AN INLAND BASIN · ARTIFICIAL OR STRONGLY REGULATED STORAGE · BROADER HYDROLOGICAL-ECOLOGICAL CATEGORY · RAMSAR SITE · INTERNATIONAL DESIGNATION, NOT BASIN ORIGIN

DEFINITION / COMPONENTS	TRIGGER / MECHANISM	EFFECT / INTERVENTION
LAKE → standing water in an inland basin	WETLAND → broader hydrological-ecological category	LAKE → standing water in an inland basin
RESERVOIR → artificial or strongly regulated storage	RAMSAR SITE → international designation, not basin origin	RESERVOIR → artificial or strongly regulated storage

DEFINITION / COMPONENTS
- LAKE → standing water in an inland basin
- RESERVOIR → artificial or strongly regulated storage

TRIGGER / MECHANISM
- WETLAND → broader hydrological-ecological category
- RAMSAR SITE → international designation, not basin origin

EFFECT / INTERVENTION
- LAKE → standing water in an inland basin
- RESERVOIR → artificial or strongly regulated storage

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: RAMSAR SITE → international designation, not basin origin.

01

STAGE 01 LAKE-ORIGIN TREE

LAKE-ORIGIN TREE · EARTH MOVEMENT · TECTONIC OR VOLCANIC BASIN · TARN, OX-BOW OR LAGOON · LANDSLIDE DAM OR CRATER · HUMAN WORK · RESERVOIR, BUND OR EXCAVATION

EARTH MOVEMENT → tectonic or volcanic basin

ICE / RIVER / COAST → tarn, ox-bow or lagoon → BLOCKAGE / IMPACT → landslide dam or crater → HUMAN WORK → reservoir, bund or excavation

DEFINITION / COMPONENTS
- EARTH MOVEMENT → tectonic or volcanic basin
- ICE / RIVER / COAST → tarn, ox-bow or lagoon

TRIGGER / MECHANISM
- BLOCKAGE / IMPACT → landslide dam or crater
- HUMAN WORK → reservoir, bund or excavation

EFFECT / INTERVENTION
- EARTH MOVEMENT → tectonic or volcanic basin
- ICE / RIVER / COAST → tarn, ox-bow or lagoon

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: BLOCKAGE / IMPACT → landslide dam or crater.

02

STAGE 02 WATER-BUDGET EQUATION

WATER-BUDGET EQUATION · RAIN + RIVER + GROUNDWATER · EVAPORATION + OUTFLOW + SEEPAGE · STORAGE CHANGE · INPUTS MINUS OUTPUTS · STATE PERIOD, BASIN AND UNCERTAINTY

INPUT → rain + river + groundwater → OUTPUT → evaporation + outflow + seepage → STORAGE CHANGE → inputs minus outputs → ATTRIBUTION → state period, basin and uncertainty

DEFINITION / COMPONENTS
- INPUT → rain + river + groundwater
- OUTPUT → evaporation + outflow + seepage

TRIGGER / MECHANISM
- STORAGE CHANGE → inputs minus outputs
- ATTRIBUTION → state period, basin and uncertainty

EFFECT / INTERVENTION
- INPUT → rain + river + groundwater
- OUTPUT → evaporation + outflow + seepage

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: STORAGE CHANGE → inputs minus outputs; ATTRIBUTION → state period, basin and uncertainty.

03

STAGE 03 LAKE-CHANGE FIREWALL

LAKE-CHANGE FIREWALL · SEDIMENT AND ORGANIC INFILLING · NUTRIENT-PRODUCTIVITY-OXYGEN SHIFT · WATER-BUDGET DEFICIT · SIMILAR APPEARANCE CAN HIDE DIFFERENT MECHANISMS

DEFINITION / COMPONENTS	TRIGGER / MECHANISM	EFFECT / INTERVENTION
SUCCESSION → sediment and organic infilling	SHRINKAGE → water-budget deficit	SUCCESSION → sediment and organic infilling
EUTROPHICATION → nutrient-productivity-oxygen shift	RULE → similar appearance can hide different mechanisms	EUTROPHICATION → nutrient-productivity-oxygen shift

DEFINITION / COMPONENTS
- SUCCESSION → sediment and organic infilling
- EUTROPHICATION → nutrient-productivity-oxygen shift

TRIGGER / MECHANISM
- SHRINKAGE → water-budget deficit
- RULE → similar appearance can hide different mechanisms

EFFECT / INTERVENTION
- SUCCESSION → sediment and organic infilling
- EUTROPHICATION → nutrient-productivity-oxygen shift

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: RULE → similar appearance can hide different mechanisms.

04

STAGE 04 WETLAND HYDROPERIOD

WETLAND HYDROPERIOD · SEASON OF INUNDATION · HOW LONG WATER REMAINS · DEPTH + FREQUENCY · HABITAT FILTER · RIVER, AQUIFER OR COAST LINK

TIMING → season of inundation → DURATION → how long water remains → DEPTH + FREQUENCY → habitat filter → CONNECTIVITY → river, aquifer or coast link

DEFINITION / COMPONENTS
- TIMING → season of inundation
- DURATION → how long water remains

TRIGGER / MECHANISM
- DEPTH + FREQUENCY → habitat filter
- CONNECTIVITY → river, aquifer or coast link

EFFECT / INTERVENTION
- TIMING → season of inundation
- DURATION → how long water remains

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: DEPTH + FREQUENCY → habitat filter; CONNECTIVITY → river, aquifer or coast link.

05

STAGE 05 INDIA LAKE MAP

INDIA LAKE MAP · JHELUM-LINKED KASHMIR BASIN · SALINE RAJASTHAN CLOSED BASIN · ODISHA COASTAL LAGOON

WULAR → Jhelum-linked Kashmir basin

SAMBHAR → saline Rajasthan closed basin → CHILIKA → Odisha coastal lagoon → LONAR / KANWAR / BHOJ → impact / fluvial / artificial

SYSTEM / DEFINITION
- WULAR → jhelum-linked Kashmir basin
- SAMBHAR → saline Rajasthan closed basin

PROCESS / MECHANISM
- CHILIKA → Odisha coastal lagoon
- LONAR / KANWAR / BHOJ → impact / fluvial / artificial

SPATIAL / INDIA PATTERN
- WULAR → jhelum-linked Kashmir basin
- SAMBHAR → saline Rajasthan closed basin

HAZARD / LIMIT / RESPONSE
- CHILIKA → Odisha coastal lagoon
- LONAR / KANWAR / BHOJ → impact / fluvial / artificial

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: LONAR / KANWAR / BHOJ → impact / fluvial / artificial.

06

STAGE 06 RIVER-LAKE TRAPS

RIVER-LAKE TRAPS · LINKED TO JHELUM · BETWEEN KRISHNA AND GODAVARI DELTAS · PHUMDI-BEARING LAKE · ADJACENCY DOES NOT PROVE DIRECT FEEDING

DEFINITION / COMPONENTS	TRIGGER / MECHANISM	EFFECT / INTERVENTION
WULAR → linked to Jhelum	LOKTAK → phumdi-bearing lake	WULAR → linked to Jhelum
KOLLERU → between Krishna and Godavari deltas	RULE → adjacency does not prove direct feeding	KOLLERU → between Krishna and Godavari deltas

DEFINITION / COMPONENTS
- WULAR → linked to Jhelum
- KOLLERU → between Krishna and Godavari deltas

TRIGGER / MECHANISM
- LOKTAK → phumdi-bearing lake
- RULE → adjacency does not prove direct feeding

EFFECT / INTERVENTION
- WULAR → linked to Jhelum
- KOLLERU → between Krishna and Godavari deltas

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: RULE → adjacency does not prove direct feeding.

07

STAGE 07 URBAN RECLAMATION CHAIN

URBAN RECLAMATION CHAIN · STORAGE AND DRAINAGE LOST · FLOOD PEAK AND DURATION RISE · DILUTION AND HABITAT DECLINE · LOW-LYING COMMUNITIES BEAR SHIFTED RISK

FILL / NARROW → storage and drainage lost → RUNOFF → flood peak and duration rise → POLLUTION → dilution and habitat decline → EQUITY → low-lying communities bear shifted risk

DEFINITION / COMPONENTS
- FILL / NARROW → storage and drainage lost
- RUNOFF → flood peak and duration rise

TRIGGER / MECHANISM
- POLLUTION → dilution and habitat decline
- EQUITY → low-lying communities bear shifted risk

EFFECT / INTERVENTION
- FILL / NARROW → storage and drainage lost
- RUNOFF → flood peak and duration rise

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: FILL / NARROW → storage and drainage lost.

08

STAGE 08 THREAT-RESPONSE MATRIX

THREAT-RESPONSE MATRIX · SOURCE CONTROL + TREATMENT · CATCHMENT AND EROSION MANAGEMENT · PROTECT HYDROLOGICAL SPACE · ALTERED FLOW · ECOLOGICAL AND FLOW RESTORATION

CLASSIFICATION	DIAGNOSTIC BASIS	PROCESS LINK	EXAM TRAP
SEWAGE / NUTRIENT → source control + treatment	ENCROACHMENT → protect hydrological space	SEWAGE / NUTRIENT → source control + treatment	ENCROACHMENT → protect hydrological space
SEDIMENT → catchment and erosion management	INVASIVE / ALTERED FLOW → ecological and flow restoration	SEDIMENT → catchment and erosion management	INVASIVE / ALTERED FLOW → ecological and flow restoration

CLASSIFICATION
- SEWAGE / NUTRIENT → source control + treatment
- SEDIMENT → catchment and erosion management

DIAGNOSTIC BASIS
- ENCROACHMENT → protect hydrological space
- INVASIVE / ALTERED FLOW → ecological and flow restoration

PROCESS LINK
- SEWAGE / NUTRIENT → source control + treatment
- SEDIMENT → catchment and erosion management

EXAM TRAP
- ENCROACHMENT → protect hydrological space
- INVASIVE / ALTERED FLOW → ecological and flow restoration

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: INVASIVE / ALTERED FLOW → ecological and flow restoration.

09

STAGE 09 RAMSAR STATUS FIREWALL

RAMSAR STATUS FIREWALL · AT LEAST ONE CAN SUPPORT LISTING · WISE USE · MAINTAIN ECOLOGICAL CHARACTER · PRIORITY ATTENTION TO CHARACTER CHANGE · LISTING IS NOT AUTOMATIC NATIONAL PARK STATUS

DEFINITION / COMPONENTS	TRIGGER / MECHANISM	EFFECT / INTERVENTION
CRITERION → at least one can support listing	MONTREUX → priority attention to character change	CRITERION → at least one can support listing
WISE USE → maintain ecological character	LIMIT → listing is not automatic National Park status	WISE USE → maintain ecological character

DEFINITION / COMPONENTS
- CRITERION → at least one can support listing
- WISE USE → maintain ecological character

TRIGGER / MECHANISM
- MONTREUX → priority attention to character change
- LIMIT → listing is not automatic National Park status

EFFECT / INTERVENTION
- CRITERION → at least one can support listing
- WISE USE → maintain ecological character

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: LIMIT → listing is not automatic National Park status.

10

STAGE 10 INDIA GOVERNANCE CHAIN

INDIA GOVERNANCE CHAIN · IDENTIFY AND DELINEATE SYSTEM · REGULATE ACTIVITIES · FINANCE AND IMPLEMENT MANAGEMENT · PROVE ECOLOGICAL RESPONSE

INVENTORY → identify and delineate system

NOTIFICATION / RULES → regulate activities → PLAN / NPCA → finance and implement management → MONITOR → prove ecological response

SYSTEM / DEFINITION
- INVENTORY → identify and delineate system
- NOTIFICATION / RULES → regulate activities

PROCESS / MECHANISM
- PLAN / NPCA → finance and implement management
- MONITOR → prove ecological response

SPATIAL / INDIA PATTERN
- INVENTORY → identify and delineate system
- NOTIFICATION / RULES → regulate activities

HAZARD / LIMIT / RESPONSE
- PLAN / NPCA → finance and implement management
- MONITOR → prove ecological response

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: PLAN / NPCA → finance and implement management.

11

STAGE 11 LAKE-WETLAND ANSWER SPINE

LAKE-WETLAND ANSWER SPINE · BASIN, WETLAND AND STATUS · ORIGIN AND HYDROLOGY · BUDGET, NUTRIENT OR CONNECTIVITY FAILURE · BASIN-SCALE, MONITORED AND STATUS-AWARE

DEFINE → basin, wetland and status → CLASSIFY → origin and hydrology → DIAGNOSE → budget, nutrient or connectivity failure → RESPOND → basin-scale, monitored and status-aware

DEFINITION / COMPONENTS
- DEFINE → basin, wetland and status
- CLASSIFY → origin and hydrology

TRIGGER / MECHANISM
- DIAGNOSE → budget, nutrient or connectivity failure
- RESPOND → basin-scale, monitored and status-aware

EFFECT / INTERVENTION
- DEFINE → basin, wetland and status
- CLASSIFY → origin and hydrology

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: DIAGNOSE → budget, nutrient or connectivity failure; RESPOND → basin-scale, monitored and status-aware.

E

EXTRA SUBORDINATE ENRICHMENT — ONLY AFTER THE COMPLETE CORE

OPTIONAL ADVANCED ENRICHMENT · INDIAN GLACIAL LAKES IN THE SOURCE ARE HIMALAYAN · GANGABAL, SHESHNAG, KAILASH-KUND, SANASAR. · NO PLEISTOCENE GLACIATION IN MAJID'S ACCOUNT; HENCE NO PENINSULAR · WULAR (J&K) · TECTONIC FRESHWATER LAKE; AMONG ASIA'S LARGEST FRESHWATER LAKES. · CHILIKA AND PULICAT · EAST-COAST LAGOONS

OPTIONAL PROCESS DEPTH
- Indian glacial lakes in the source are Himalayan: Gangabal, Sheshnag, Kailash-Kund, Sanasar.
- Peninsula: no Pleistocene glaciation in Majid's account; hence no Peninsular glacial tarn belt.
- Wular (J&K) = tectonic freshwater lake; among Asia's largest freshwater lakes.
- Chilika and Pulicat = east-coast lagoons.

DATA / INSTITUTION LIMIT
- Sambhar (Rajasthan) = major inland salt lake.
- Sasthamkotta = Kerala's largest freshwater lake.
- Sat Tal = Kumaun lake group near Bhimtal; avoid reducing its origin to a single glacial label.
- NOT: Peninsular India has glacial tarn lakes → Glacial lakes are Himalayan in the source; Peninsular India shows no Pleistocene glaciation

CONTEMPORARY PARALLEL
- NOT: Sambhar is a freshwater lake → Sambhar is a salt lake of Rajasthan's arid inland drainage.
- NOT: Pulicat is a west-coast lagoon → Pulicat is on the east coast (AP/TN).
- NOT: Wular is a lagoon → Wular is tectonic/freshwater , not coastal lagoonal.
- NOT: All Ramsar lakes have the same origin → Ramsar status is conservation status; origin may be glacial, tectonic, lagoonal, man-made or salt.

OPTIONAL STATUS — This optional depth is unnecessary for a competent core answer; use it only for added nuance after the complete core has been written.

END OF MASTER CANVAS • poster embeds this exact master • tiled pages are overlapping crops of the same pixels
