

ASCII MASTER FLOW – PANEL 1/12: Tsunami generation chain

SUDDEN WATER DISPLACEMENT

EARTHQUAKE | LANDSLIDE | VOLCANIC ACTIVITY

LONG WAVES -> COASTAL TRANSFORMATION

RUN-UP + INUNDATION + RETURN FLOW

ASCII MASTER FLOW – PANEL 2/12: Coastal-hazard firewall

TSUNAMI -> sudden displacement

TIDE -> gravitational cycle

STORM SURGE -> cyclone wind + pressure

RULE -> different monitoring and response logic

ASCII MASTER FLOW – PANEL 3/12: Source-to-impact matrix

SOURCE -> mechanism depth displacement

PATH -> distance and ocean configuration

COAST -> bathymetry topography land use

OUTCOME -> exposure vulnerability and action

ASCII MASTER FLOW – PANEL 4/12: Detection-confirmation rail

- 1 SEISMIC EVENT ANALYSIS
- 2 PRE-RUN MODEL SCENARIO
- 3 SEA-LEVEL MONITORING
- 4 UPDATED BULLETIN / THREAT STATUS

ASCII MASTER FLOW – PANEL 5/12: ITEWC authority map

INCOIS / ITEWC -> analysis and advisory
IOTWMS / UNESCO-IOC -> regional framework
STATE / DISTRICT / LOCAL -> protective action
LOCAL AUTHORITY -> all clear

ASCII MASTER FLOW – PANEL 6/12: Warning-uncertainty ladder

PRELIMINARY INFORMATION

MODEL-BASED THREAT

OBSERVATION-INFORMED UPDATE

FINAL / THREAT PASSED -> local all-clear check

ASCII MASTER FLOW – PANEL 7/12: Inundation-to-evacuation map

HAZARD / INUNDATION MAP

- > ZONE + ROUTE + REFUGE + ASSEMBLY
- > ACCESSIBLE TRANSPORT + ACCOUNTABILITY
- > DRILL + FEEDBACK + REVISION

ASCII MASTER FLOW – PANEL 8/12: Coastal protection portfolio

ENGINEERED -> shelters walls breakwaters where justified

NATURAL -> dunes mangroves forests reefs

REGULATORY -> CRZ + risk-sensitive siting

RULE -> layered and location-specific

ASCII MASTER FLOW – PANEL 9/12: Coastal economy continuity

PORT / HARBOUR -> shutdown access reopening

FISHERIES -> boats landing centres markets

TOURISM -> visitor warning signage route

UTILITIES / HOSPITAL -> continuity and safe recovery

ASCII MASTER FLOW – PANEL 10/12: Tsunami Ready cycle

MAP RISK -> EDUCATE -> WARN

EVACUATION MAP + SIGNAGE -> DRILL

EVALUATE INDICATORS -> RENEW READINESS

COMMUNITY RECOGNITION -> NOT NATIONAL CERTIFICATION

MUST REMEMBER: Tsunami risk management links offshore detection, seismic and sea-level...

MUST REMEMBER: Tsunami risk management links offshore detection, seismic and sea-level...

ASCII MASTER FLOW – PANEL 11/12: Trust under uncertainty

THREAT POSSIBLE? -> ISSUE PRECAUTIONARY MESSAGE

NEW DATA? -> UPDATE / UPGRADE / DOWNGRADE

EXPLAIN REASON -> PRESERVE TRUST

LIMITED IMPACT -> NOT AUTOMATIC FALSE-ALARM FAILURE

CLOSE DISTINCTION: Earthquake detection is not tsunami confirmation;...

CLOSE DISTINCTION: Earthquake detection is not tsunami confirmation;...

ASCII MASTER FLOW – PANEL 12/12: Tsunami answer spine

DEFINE DISPLACEMENT -> TRACE SHOALING AND CONSEQUENCE

MAP DETECTION MODEL SEA LEVEL BULLETIN AND AUTHORITY

CONNECT MAP TO EVACUATION BUFFERS PORTS AND LIVELIHOODS

QUALIFY UNCERTAINTY READINESS RECOVERY AND OUTCOME
