

SOLVED PRACTICE WORKBOOK

Paper Rules, Choice and Selection - Learner-v2 Refreshed

UPSC complete learning session | Foundation to advanced | Concepts, evidence, practice and answer writing

Original deterministic study visual; labels are explanatory, not textual quotations.

Source order: repository knowledge -> official current linkage -> clearly marked analysis. No fabricated PYQs or statistics.

CONTENTS / WORKBOOK INDEX

Major learning parts and meaningful subtopics are listed in document order. Page numbers are generated from the final PDF layout; PDF bookmarks mirror the same hierarchy.

Paper Rules, Choice and Selection - Solved Practice Workbook 6

BASIC MCQS / REMEDIATION 6

Q1. Which option applies Purpose and scope as an Essay-method distinction?	6
Q2. Which use of Purpose and scope stays closest to the printed prompt?	6
Q3. Which statement preserves the strategy-versus-official-rule boundary for Purpose and scope?	6
Q4. Which option avoids the standard Essay-method trap about Purpose and scope?	7
Q5. Which option applies Exam facts / source basis as an Essay-method distinction?	7
Q6. Which use of Exam facts / source basis stays closest to the printed prompt?	7
Q7. Which statement preserves the strategy-versus-official-rule boundary for Exam facts / source basis?	7
Q8. Which option avoids the standard Essay-method trap about Exam facts / source basis?	8
Q9. Which option applies Exam facts / source basis - 2 as an Essay-method distinction?	8
Q10. Which use of Exam facts / source basis - 2 stays closest to the printed prompt?	8
Q11. Which statement preserves the strategy-versus-official-rule boundary for Exam facts / source basis - 2?	8
Q12. Which option avoids the standard Essay-method trap about Exam facts / source basis - 2?	8
Q13. Which option applies Exam facts / source basis - 3 as an Essay-method distinction?	9
Q14. Which use of Exam facts / source basis - 3 stays closest to the printed prompt?	9
Q15. Which statement preserves the strategy-versus-official-rule boundary for Exam facts / source basis - 3?	9
Q16. Which option avoids the standard Essay-method trap about Exam facts / source basis - 3?	9
Q17. Which option applies Exam facts / source basis - 4 as an Essay-method distinction?	10
Q18. Which use of Exam facts / source basis - 4 stays closest to the printed prompt?	10
Q19. Which statement preserves the strategy-versus-official-rule boundary for Exam facts / source basis - 4?	10
Q20. Which option avoids the standard Essay-method trap about Exam facts / source basis - 4?	10
Q21. Which option applies Exam facts / source basis - 5 as an Essay-method distinction?	11
Q22. Which use of Exam facts / source basis - 5 stays closest to the printed prompt?	11
Q23. Which statement preserves the strategy-versus-official-rule boundary for Exam facts / source basis - 5?	11
Q24. Which option avoids the standard Essay-method trap about Exam facts / source basis - 5?	11
Q25. Which option applies Exam facts / source basis - 6 as an Essay-method distinction?	11
Q26. Which use of Exam facts / source basis - 6 stays closest to the printed prompt?	12
Q27. Which statement preserves the strategy-versus-official-rule boundary for Exam facts / source basis - 6?	12

Q28. Which option avoids the standard Essay-method trap about Exam facts / source basis - 6?	12
Q29. Which option applies Exam facts / source basis - 7 as an Essay-method distinction?	12
Q30. Which use of Exam facts / source basis - 7 stays closest to the printed prompt?	13
Q31. Which statement preserves the strategy-versus-official-rule boundary for Exam facts / source basis - 7?	13
Q32. Which option avoids the standard Essay-method trap about Exam facts / source basis - 7?	13
Q33. Which option applies The central idea and common misreading as an Essay-method distinction?	13
Q34. Which use of The central idea and common misreading stays closest to the printed prompt?	14
Q35. Which statement preserves the strategy-versus-official-rule boundary for The central idea and common misreading?	14
Q36. Which option avoids the standard Essay-method trap about The central idea and common misreading?	14
Q37. Which option applies Basic scan questions as an Essay-method distinction?	15
Q38. Which use of Basic scan questions stays closest to the printed prompt?	15
Q39. Which statement preserves the strategy-versus-official-rule boundary for Basic scan questions?	15
Q40. Which option avoids the standard Essay-method trap about Basic scan questions?	16
Q41. Which option applies Comparison grid as an Essay-method distinction?	16
Q42. Which use of Comparison grid stays closest to the printed prompt?	16
Q43. Which statement preserves the strategy-versus-official-rule boundary for Comparison grid?	16
Q44. Which option avoids the standard Essay-method trap about Comparison grid?	16
Q45. Which option applies Comparison grid - 2 as an Essay-method distinction?	17
Q46. Which use of Comparison grid - 2 stays closest to the printed prompt?	17
Q47. Which statement preserves the strategy-versus-official-rule boundary for Comparison grid - 2?	17
Q48. Which option avoids the standard Essay-method trap about Comparison grid - 2?	17
Q49. Which option applies India-first illustration starters as an Essay-method distinction?	17
Q50. Which use of India-first illustration starters stays closest to the printed prompt?	18
Q51. Which statement preserves the strategy-versus-official-rule boundary for India-first illustration starters?	18
Q52. Which option avoids the standard Essay-method trap about India-first illustration starters?	18
Q53. Which option applies Thesis options and selection as an Essay-method distinction?	18
Q54. Which use of Thesis options and selection stays closest to the printed prompt?	19
Q55. Which statement preserves the strategy-versus-official-rule boundary for Thesis options and selection?	19
Q56. Which option avoids the standard Essay-method trap about Thesis options and selection?	19
Q57. Which option applies Advanced proposition and boundary as an Essay-method distinction?	19
Q58. Which use of Advanced proposition and boundary stays closest to the printed prompt?	20
Q59. Which statement preserves the strategy-versus-official-rule boundary for Advanced proposition and boundary?	20

Q60. Which option avoids the standard Essay-method trap about Advanced proposition and boundary?	20
Q61. Which option applies Concept definition and taxonomy as an Essay-method distinction?	21
Q62. Which use of Concept definition and taxonomy stays closest to the printed prompt?	21
Q63. Which statement preserves the strategy-versus-official-rule boundary for Concept definition and taxonomy?	21
Q64. Which option avoids the standard Essay-method trap about Concept definition and taxonomy?	21
Q65. Which option applies Tension pairs and hidden assumptions as an Essay-method distinction?	21
Q66. Which use of Tension pairs and hidden assumptions stays closest to the printed prompt?	22
Q67. Which statement preserves the strategy-versus-official-rule boundary for Tension pairs and hidden assumptions?	22
Q68. Which option avoids the standard Essay-method trap about Tension pairs and hidden assumptions?	22
Q69. Which option applies Tension pairs and hidden assumptions - 2 as an Essay-method distinction?	22
Q70. Which use of Tension pairs and hidden assumptions - 2 stays closest to the printed prompt?	22
Q71. Which statement preserves the strategy-versus-official-rule boundary for Tension pairs and hidden assumptions - 2?	23
Q72. Which option avoids the standard Essay-method trap about Tension pairs and hidden assumptions - 2?	23
Q73. Which option applies Tension pairs and hidden assumptions - 3 as an Essay-method distinction?	23
Q74. Which use of Tension pairs and hidden assumptions - 3 stays closest to the printed prompt?	23
Q75. Which statement preserves the strategy-versus-official-rule boundary for Tension pairs and hidden assumptions - 3?	24
Q76. Which option avoids the standard Essay-method trap about Tension pairs and hidden assumptions - 3?	24
Q77. Which option applies Levels of analysis and temporal-spatial scale as an Essay-method distinction?	24
Q78. Which use of Levels of analysis and temporal-spatial scale stays closest to the printed prompt?	24
Q79. Which statement preserves the strategy-versus-official-rule boundary for Levels of analysis and temporal-spatial scale?	25
Q80. Which option avoids the standard Essay-method trap about Levels of analysis and temporal-spatial scale?	25

Paper Rules, Choice and Selection - Solved Practice Workbook

BASIC MCQS / REMEDIATION

Q1. Which option applies Purpose and scope as an Essay-method distinction?

A. This topic answers two questions before any writing begins: what does the paper actually require , and how should a candidate choose which of the eight-plus-eight displayed prompts to attempt ? It does not teach decoding technique (see 02/03) or drafting technique (see 05-07) - it teaches the upstream decision that determines how easy those later steps will be. B. Use Purpose and scope to add more headings or dimensions without testing coherence. C. Replace Purpose and scope with a familiar adjacent GS topic and maximise factual coverage. D. Treat Purpose and scope as a compulsory UPSC formula even when it distorts the prompt.

Answer: A. Explanation: This topic answers two questions before any writing begins: what does the paper actually require , and how should a candidate choose which of the eight-plus-eight displayed prompts to attempt ? It does not teach decoding technique (see 02/03) or drafting technique (see 05-07) - it teaches the upstream decision that determines how easy those later steps will be. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q2. Which use of Purpose and scope stays closest to the printed prompt?

A. Apply Purpose and scope only after drafting, when topic drift can no longer be prevented. B. This topic answers two questions before any writing begins: what does the paper actually require , and how should a candidate choose which of the eight-plus-eight displayed prompts to attempt ? It does not teach decoding technique (see 02/03) or drafting technique (see 05-07) - it teaches the upstream decision that determines how easy those later steps will be. C. Use Purpose and scope while dropping the prompt's operator, qualifier or scale. D. Let a striking anecdote or quotation determine Purpose and scope regardless of thesis fit.

Answer: B. Explanation: This topic answers two questions before any writing begins: what does the paper actually require , and how should a candidate choose which of the eight-plus-eight displayed prompts to attempt ? It does not teach decoding technique (see 02/03) or drafting technique (see 05-07) - it teaches the upstream decision that determines how easy those later steps will be. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q3. Which statement preserves the strategy-versus-official-rule boundary for Purpose and scope?

A. Support Purpose and scope with an unverified statistic, attribution or current claim. B. Use Purpose and scope to avoid stating a serious counter-case or qualification. C. This topic answers two questions before any writing begins: what does the paper actually require , and how should a candidate choose which of the eight-plus-eight displayed prompts to attempt ? It does not teach decoding technique (see 02/03) or drafting technique (see 05-07) - it teaches the upstream decision that determines how easy those later steps will be. D. Present Purpose and scope as an official marking rule rather than a pedagogical scaffold.

Answer: C. Explanation: This topic answers two questions before any writing begins: what does the paper actually require , and how should a candidate choose which of the eight-plus-eight displayed prompts to attempt ? It does not teach decoding technique (see 02/03) or drafting technique (see 05-07) - it teaches the upstream decision that determines how easy those later steps will be. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q4. Which option avoids the standard Essay-method trap about Purpose and scope?

A. Maximise the number of outputs produced by Purpose and scope, even if they repeat one claim. B. Allow an exception discovered through Purpose and scope to replace the central proposition. C. Silently tidy the printed prompt before applying Purpose and scope to make it easier to answer. D. This topic answers two questions before any writing begins: what does the paper actually require, and how should a candidate choose which of the eight-plus-eight displayed prompts to attempt? It does not teach decoding technique (see 02/03) or drafting technique (see 05-07) - it teaches the upstream decision that determines how easy those later steps will be.

Answer: D. Explanation: This topic answers two questions before any writing begins: what does the paper actually require, and how should a candidate choose which of the eight-plus-eight displayed prompts to attempt? It does not teach decoding technique (see 02/03) or drafting technique (see 05-07) - it teaches the upstream decision that determines how easy those later steps will be. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q5. Which option applies Exam facts / source basis as an Essay-method distinction?

A. The current corpus ledger records 2018-2025 as V1 - directly verified locally and 2013-2017 as V2 - carried-forward, not locally verifiable. The paper-mechanics facts below are illustrated with the 2024 and 2025 papers, whose printed wording is reproduced in the ledger. B. Replace Exam facts / source basis with a familiar adjacent GS topic and maximise factual coverage. C. Use Exam facts / source basis to add more headings or dimensions without testing coherence. D. Treat Exam facts / source basis as a compulsory UPSC formula even when it distorts the prompt.

Answer: A. Explanation: The current corpus ledger records 2018-2025 as V1 - directly verified locally and 2013-2017 as V2 - carried-forward, not locally verifiable. The paper-mechanics facts below are illustrated with the 2024 and 2025 papers, whose printed wording is reproduced in the ledger. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q6. Which use of Exam facts / source basis stays closest to the printed prompt?

A. Let a striking anecdote or quotation determine Exam facts / source basis regardless of thesis fit. B. The current corpus ledger records 2018-2025 as V1 - directly verified locally and 2013-2017 as V2 - carried-forward, not locally verifiable. The paper-mechanics facts below are illustrated with the 2024 and 2025 papers, whose printed wording is reproduced in the ledger. C. Use Exam facts / source basis while dropping the prompt's operator, qualifier or scale. D. Apply Exam facts / source basis only after drafting, when topic drift can no longer be prevented.

Answer: B. Explanation: The current corpus ledger records 2018-2025 as V1 - directly verified locally and 2013-2017 as V2 - carried-forward, not locally verifiable. The paper-mechanics facts below are illustrated with the 2024 and 2025 papers, whose printed wording is reproduced in the ledger. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q7. Which statement preserves the strategy-versus-official-rule boundary for Exam facts / source basis?

A. Support Exam facts / source basis with an unverified statistic, attribution or current claim. B. Use Exam facts / source basis to avoid stating a serious counter-case or qualification. C. The current corpus ledger records 2018-2025 as V1 - directly verified locally and 2013-2017 as V2 - carried-forward, not locally verifiable. The paper-mechanics facts below are illustrated with the 2024 and 2025 papers, whose printed wording is reproduced in the ledger. D. Present Exam facts / source basis as an official marking rule rather than a pedagogical scaffold.

Answer: C. Explanation: The current corpus ledger records 2018-2025 as V1 - directly verified locally and 2013-2017 as V2 - carried-forward, not locally verifiable. The paper-mechanics facts below are illustrated with the 2024 and 2025 papers, whose printed wording is reproduced in the ledger. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q8. Which option avoids the standard Essay-method trap about Exam facts / source basis?

A. Maximise the number of outputs produced by Exam facts / source basis, even if they repeat one claim. B. Allow an exception discovered through Exam facts / source basis to replace the central proposition. C. Silently tidy the printed prompt before applying Exam facts / source basis to make it easier to answer. D. The current corpus ledger records 2018-2025 as V1 - directly verified locally and 2013-2017 as V2 - carried-forward, not locally verifiable . The paper-mechanics facts below are illustrated with the 2024 and 2025 papers, whose printed wording is reproduced in the ledger.

Answer: D. Explanation: The current corpus ledger records 2018-2025 as V1 - directly verified locally and 2013-2017 as V2 - carried-forward, not locally verifiable . The paper-mechanics facts below are illustrated with the 2024 and 2025 papers, whose printed wording is reproduced in the ledger. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q9. Which option applies Exam facts / source basis - 2 as an Essay-method distinction?

A. one topic from each of the following Sections A and B, in about 1000-1200 words each:" followed by the marks line "(125 x 2 = 250)". B. Treat Exam facts / source basis - 2 as a compulsory UPSC formula even when it distorts the prompt. C. Use Exam facts / source basis - 2 to add more headings or dimensions without testing coherence. D. Replace Exam facts / source basis - 2 with a familiar adjacent GS topic and maximise factual coverage.

Answer: A. Explanation: one topic from each of the following Sections A and B, in about 1000-1200 words each:" followed by the marks line "(125 x 2 = 250)". The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q10. Which use of Exam facts / source basis - 2 stays closest to the printed prompt?

A. Use Exam facts / source basis - 2 while dropping the prompt's operator, qualifier or scale. B. one topic from each of the following Sections A and B, in about 1000-1200 words each:" followed by the marks line "(125 x 2 = 250)". C. Let a striking anecdote or quotation determine Exam facts / source basis - 2 regardless of thesis fit. D. Apply Exam facts / source basis - 2 only after drafting, when topic drift can no longer be prevented.

Answer: B. Explanation: one topic from each of the following Sections A and B, in about 1000-1200 words each:" followed by the marks line "(125 x 2 = 250)". The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q11. Which statement preserves the strategy-versus-official-rule boundary for Exam facts / source basis - 2?

A. Present Exam facts / source basis - 2 as an official marking rule rather than a pedagogical scaffold. B. Support Exam facts / source basis - 2 with an unverified statistic, attribution or current claim. C. one topic from each of the following Sections A and B, in about 1000-1200 words each:" followed by the marks line "(125 x 2 = 250)". D. Use Exam facts / source basis - 2 to avoid stating a serious counter-case or qualification.

Answer: C. Explanation: one topic from each of the following Sections A and B, in about 1000-1200 words each:" followed by the marks line "(125 x 2 = 250)". The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q12. Which option avoids the standard Essay-method trap about Exam facts / source basis - 2?

A. Allow an exception discovered through Exam facts / source basis - 2 to replace the central proposition. B. Maximise the number of outputs produced by Exam facts / source basis - 2, even if they repeat one claim. C. Silently tidy the printed prompt before applying Exam facts / source basis - 2 to make it easier to answer. D. one topic from each of the following Sections A and B, in about 1000-1200 words each:" followed by the marks line "(125 x 2 = 250)".

Answer: D. Explanation: one topic from each of the following Sections A and B, in about 1000-1200 words each:" followed by the marks line "(125 x 2 = 250)". The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q13. Which option applies Exam facts / source basis - 3 as an Essay-method distinction?

A. essays, choosing one topic from each of the following Sections A as in about 1000 - 1200 words each:". The requirement is still unambiguous from the paper's Hindi line and its two printed section headings - two essays, one from each of Sections A and B, about 1000-1200 words each - but do not quote the 2025 line as clean English. B. Use Exam facts / source basis - 3 to add more headings or dimensions without testing coherence. C. Treat Exam facts / source basis - 3 as a compulsory UPSC formula even when it distorts the prompt. D. Replace Exam facts / source basis - 3 with a familiar adjacent GS topic and maximise factual coverage.

Answer: A. Explanation: essays, choosing one topic from each of the following Sections A as in about 1000 - 1200 words each:". The requirement is still unambiguous from the paper's Hindi line and its two printed section headings - two essays, one from each of Sections A and B, about 1000-1200 words each - but do not quote the 2025 line as clean English. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q14. Which use of Exam facts / source basis - 3 stays closest to the printed prompt?

A. Apply Exam facts / source basis - 3 only after drafting, when topic drift can no longer be prevented. B. essays, choosing one topic from each of the following Sections A as in about 1000 - 1200 words each:". The requirement is still unambiguous from the paper's Hindi line and its two printed section headings - two essays, one from each of Sections A and B, about 1000-1200 words each - but do not quote the 2025 line as clean English. C. Let a striking anecdote or quotation determine Exam facts / source basis - 3 regardless of thesis fit. D. Use Exam facts / source basis - 3 while dropping the prompt's operator, qualifier or scale.

Answer: B. Explanation: essays, choosing one topic from each of the following Sections A as in about 1000 - 1200 words each:". The requirement is still unambiguous from the paper's Hindi line and its two printed section headings - two essays, one from each of Sections A and B, about 1000-1200 words each - but do not quote the 2025 line as clean English. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q15. Which statement preserves the strategy-versus-official-rule boundary for Exam facts / source basis - 3?

A. Support Exam facts / source basis - 3 with an unverified statistic, attribution or current claim. B. Use Exam facts / source basis - 3 to avoid stating a serious counter-case or qualification. C. essays, choosing one topic from each of the following Sections A as in about 1000 - 1200 words each:". The requirement is still unambiguous from the paper's Hindi line and its two printed section headings - two essays, one from each of Sections A and B, about 1000-1200 words each - but do not quote the 2025 line as clean English. D. Present Exam facts / source basis - 3 as an official marking rule rather than a pedagogical scaffold.

Answer: C. Explanation: essays, choosing one topic from each of the following Sections A as in about 1000 - 1200 words each:". The requirement is still unambiguous from the paper's Hindi line and its two printed section headings - two essays, one from each of Sections A and B, about 1000-1200 words each - but do not quote the 2025 line as clean English. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q16. Which option avoids the standard Essay-method trap about Exam facts / source basis - 3?

A. Maximise the number of outputs produced by Exam facts / source basis - 3, even if they repeat one claim. B. Silently tidy the printed prompt before applying Exam facts / source basis - 3 to make it easier to answer. C. Allow an exception discovered through Exam facts / source basis - 3 to replace the central proposition. D. essays, choosing one topic from each of the following Sections A as in about 1000 - 1200 words each:". The requirement is still unambiguous from the paper's Hindi line and its two printed section headings - two essays, one from each of Sections A and B, about 1000-1200 words each - but do not quote the 2025 line as clean English.

Answer: D. Explanation: essays, choosing one topic from each of the following Sections A as in about 1000 - 1200 words each:". The requirement is still unambiguous from the paper's Hindi line and its two printed section headings - two essays, one from each of Sections A and B, about 1000-1200 words each - but do not quote the 2025 line as clean English. The other options convert a qualified writing method into an official

formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q17. Which option applies Exam facts / source basis - 4 as an Essay-method distinction?

A. Section B at 1-4; 2025 continues Section B at 5-8. This folder's B5-B8 labels are an internal reference scheme, not the 2024 paper's printed numbers. B. Use Exam facts / source basis - 4 to add more headings or dimensions without testing coherence. C. Replace Exam facts / source basis - 4 with a familiar adjacent GS topic and maximise factual coverage. D. Treat Exam facts / source basis - 4 as a compulsory UPSC formula even when it distorts the prompt.

Answer: A. Explanation: Section B at 1-4; 2025 continues Section B at 5-8. This folder's B5-B8 labels are an internal reference scheme, not the 2024 paper's printed numbers. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q18. Which use of Exam facts / source basis - 4 stays closest to the printed prompt?

A. Apply Exam facts / source basis - 4 only after drafting, when topic drift can no longer be prevented. B. Section B at 1-4; 2025 continues Section B at 5-8. This folder's B5-B8 labels are an internal reference scheme, not the 2024 paper's printed numbers. C. Use Exam facts / source basis - 4 while dropping the prompt's operator, qualifier or scale. D. Let a striking anecdote or quotation determine Exam facts / source basis - 4 regardless of thesis fit.

Answer: B. Explanation: Section B at 1-4; 2025 continues Section B at 5-8. This folder's B5-B8 labels are an internal reference scheme, not the 2024 paper's printed numbers. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q19. Which statement preserves the strategy-versus-official-rule boundary for Exam facts / source basis - 4?

A. Support Exam facts / source basis - 4 with an unverified statistic, attribution or current claim. B. Use Exam facts / source basis - 4 to avoid stating a serious counter-case or qualification. C. Section B at 1-4; 2025 continues Section B at 5-8. This folder's B5-B8 labels are an internal reference scheme, not the 2024 paper's printed numbers. D. Present Exam facts / source basis - 4 as an official marking rule rather than a pedagogical scaffold.

Answer: C. Explanation: Section B at 1-4; 2025 continues Section B at 5-8. This folder's B5-B8 labels are an internal reference scheme, not the 2024 paper's printed numbers. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q20. Which option avoids the standard Essay-method trap about Exam facts / source basis - 4?

A. Allow an exception discovered through Exam facts / source basis - 4 to replace the central proposition. B. Silently tidy the printed prompt before applying Exam facts / source basis - 4 to make it easier to answer. C. Maximise the number of outputs produced by Exam facts / source basis - 4, even if they repeat one claim. D. Section B at 1-4; 2025 continues Section B at 5-8. This folder's B5-B8 labels are an internal reference scheme, not the 2024 paper's printed numbers.

Answer: D. Explanation: Section B at 1-4; 2025 continues Section B at 5-8. This folder's B5-B8 labels are an internal reference scheme, not the 2024 paper's printed numbers. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q21. Which option applies Exam facts / source basis - 5 as an Essay-method distinction?

A. bilingually (Hindi then English) , and require one topic chosen from each Section - never two from the same Section. B. Replace Exam facts / source basis - 5 with a familiar adjacent GS topic and maximise factual coverage. C. Treat Exam facts / source basis - 5 as a compulsory UPSC formula even when it distorts the prompt. D. Use Exam facts / source basis - 5 to add more headings or dimensions without testing coherence.

Answer: A. Explanation: bilingually (Hindi then English) , and require one topic chosen from each Section - never two from the same Section. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q22. Which use of Exam facts / source basis - 5 stays closest to the printed prompt?

A. Let a striking anecdote or quotation determine Exam facts / source basis - 5 regardless of thesis fit. B. bilingually (Hindi then English) , and require one topic chosen from each Section - never two from the same Section. C. Use Exam facts / source basis - 5 while dropping the prompt's operator, qualifier or scale. D. Apply Exam facts / source basis - 5 only after drafting, when topic drift can no longer be prevented.

Answer: B. Explanation: bilingually (Hindi then English) , and require one topic chosen from each Section - never two from the same Section. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q23. Which statement preserves the strategy-versus-official-rule boundary for Exam facts / source basis - 5?

A. Support Exam facts / source basis - 5 with an unverified statistic, attribution or current claim. B. Present Exam facts / source basis - 5 as an official marking rule rather than a pedagogical scaffold. C. bilingually (Hindi then English) , and require one topic chosen from each Section - never two from the same Section. D. Use Exam facts / source basis - 5 to avoid stating a serious counter-case or qualification.

Answer: C. Explanation: bilingually (Hindi then English) , and require one topic chosen from each Section - never two from the same Section. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q24. Which option avoids the standard Essay-method trap about Exam facts / source basis - 5?

A. Maximise the number of outputs produced by Exam facts / source basis - 5, even if they repeat one claim. B. Allow an exception discovered through Exam facts / source basis - 5 to replace the central proposition. C. Silently tidy the printed prompt before applying Exam facts / source basis - 5 to make it easier to answer. D. bilingually (Hindi then English) , and require one topic chosen from each Section - never two from the same Section.

Answer: D. Explanation: bilingually (Hindi then English) , and require one topic chosen from each Section - never two from the same Section. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q25. Which option applies Exam facts / source basis - 6 as an Essay-method distinction?

A. header, a 2025 marks line, an author beside any prompt, or any marking rubric/weightage. The separate official examination scheme supplies the three-hour Essay duration; no phase split is official. B. Treat Exam facts / source basis - 6 as a compulsory UPSC formula even when it distorts the prompt. C. Replace Exam facts / source basis - 6 with a familiar adjacent GS topic and maximise factual coverage. D. Use Exam facts / source basis - 6 to add more headings or dimensions without testing coherence.

Answer: A. Explanation: header, a 2025 marks line, an author beside any prompt, or any marking rubric/weightage. The separate official examination scheme supplies the three-hour Essay duration; no phase split is official. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q26. Which use of Exam facts / source basis - 6 stays closest to the printed prompt?

A. Apply Exam facts / source basis - 6 only after drafting, when topic drift can no longer be prevented. B. header, a 2025 marks line, an author beside any prompt, or any marking rubric/weightage. The separate official examination scheme supplies the three-hour Essay duration; no phase split is official. C. Use Exam facts / source basis - 6 while dropping the prompt's operator, qualifier or scale. D. Let a striking anecdote or quotation determine Exam facts / source basis - 6 regardless of thesis fit.

Answer: B. Explanation: header, a 2025 marks line, an author beside any prompt, or any marking rubric/weightage. The separate official examination scheme supplies the three-hour Essay duration; no phase split is official. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q27. Which statement preserves the strategy-versus-official-rule boundary for Exam facts / source basis - 6?

A. Present Exam facts / source basis - 6 as an official marking rule rather than a pedagogical scaffold. B. Use Exam facts / source basis - 6 to avoid stating a serious counter-case or qualification. C. header, a 2025 marks line, an author beside any prompt, or any marking rubric/weightage. The separate official examination scheme supplies the three-hour Essay duration; no phase split is official. D. Support Exam facts / source basis - 6 with an unverified statistic, attribution or current claim.

Answer: C. Explanation: header, a 2025 marks line, an author beside any prompt, or any marking rubric/weightage. The separate official examination scheme supplies the three-hour Essay duration; no phase split is official. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q28. Which option avoids the standard Essay-method trap about Exam facts / source basis - 6?

A. Allow an exception discovered through Exam facts / source basis - 6 to replace the central proposition. B. Silently tidy the printed prompt before applying Exam facts / source basis - 6 to make it easier to answer. C. Maximise the number of outputs produced by Exam facts / source basis - 6, even if they repeat one claim. D. header, a 2025 marks line, an author beside any prompt, or any marking rubric/weightage. The separate official examination scheme supplies the three-hour Essay duration; no phase split is official.

Answer: D. Explanation: header, a 2025 marks line, an author beside any prompt, or any marking rubric/weightage. The separate official examination scheme supplies the three-hour Essay duration; no phase split is official. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q29. Which option applies Exam facts / source basis - 7 as an Essay-method distinction?

A. Practical consequence for choice: because the paper's own numbering and even its instruction line vary year to year, spend the first reading confirming the structural rule (one from each Section) rather than assuming any layout you have seen in a mock paper. B. Treat Exam facts / source basis - 7 as a compulsory UPSC formula even when it distorts the prompt. C. Use Exam facts / source basis - 7 to add more headings or dimensions without testing coherence. D. Replace Exam facts / source basis - 7 with a familiar adjacent GS topic and maximise factual coverage.

Answer: A. Explanation: Practical consequence for choice: because the paper's own numbering and even its instruction line vary year to year, spend the first reading confirming the structural rule (one from each Section) rather than assuming any layout you have seen in a mock paper. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q30. Which use of Exam facts / source basis - 7 stays closest to the printed prompt?

A. Use Exam facts / source basis - 7 while dropping the prompt's operator, qualifier or scale. B. Practical consequence for choice: because the paper's own numbering and even its instruction line vary year to year, spend the first reading confirming the structural rule (one from each Section) rather than assuming any layout you have seen in a mock paper. C. Apply Exam facts / source basis - 7 only after drafting, when topic drift can no longer be prevented. D. Let a striking anecdote or quotation determine Exam facts / source basis - 7 regardless of thesis fit.

Answer: B. Explanation: Practical consequence for choice: because the paper's own numbering and even its instruction line vary year to year, spend the first reading confirming the structural rule (one from each Section) rather than assuming any layout you have seen in a mock paper. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q31. Which statement preserves the strategy-versus-official-rule boundary for Exam facts / source basis - 7?

A. Use Exam facts / source basis - 7 to avoid stating a serious counter-case or qualification. B. Support Exam facts / source basis - 7 with an unverified statistic, attribution or current claim. C. Practical consequence for choice: because the paper's own numbering and even its instruction line vary year to year, spend the first reading confirming the structural rule (one from each Section) rather than assuming any layout you have seen in a mock paper. D. Present Exam facts / source basis - 7 as an official marking rule rather than a pedagogical scaffold.

Answer: C. Explanation: Practical consequence for choice: because the paper's own numbering and even its instruction line vary year to year, spend the first reading confirming the structural rule (one from each Section) rather than assuming any layout you have seen in a mock paper. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q32. Which option avoids the standard Essay-method trap about Exam facts / source basis - 7?

A. Allow an exception discovered through Exam facts / source basis - 7 to replace the central proposition. B. Silently tidy the printed prompt before applying Exam facts / source basis - 7 to make it easier to answer. C. Maximise the number of outputs produced by Exam facts / source basis - 7, even if they repeat one claim. D. Practical consequence for choice: because the paper's own numbering and even its instruction line vary year to year, spend the first reading confirming the structural rule (one from each Section) rather than assuming any layout you have seen in a mock paper.

Answer: D. Explanation: Practical consequence for choice: because the paper's own numbering and even its instruction line vary year to year, spend the first reading confirming the structural rule (one from each Section) rather than assuming any layout you have seen in a mock paper. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q33. Which option applies The central idea and common misreading as an Essay-method distinction?

A. Central idea: topic choice is a strategic decision made on the basis of thesis-fit, dimension count and evidence availability - not simple familiarity. Common misreading: picking a prompt because it sounds close to a favourite GS subject (e.g. choosing "Empires of the mind" purely because you like Science & Technology) without first checking whether you can actually form one qualified thesis and recall two or three safe illustrations for it. A topic that feels unfamiliar but decodes cleanly (most aphorisms do, once you apply 02) is frequently the safer choice. B. Replace The central idea and common misreading with a familiar adjacent GS topic and maximise factual coverage. C. Use The central idea and common misreading to add more headings or dimensions without testing coherence. D. Treat The central idea and common misreading as a compulsory UPSC formula even when it distorts the prompt.

Answer: A. Explanation: Central idea: topic choice is a strategic decision made on the basis of thesis-fit, dimension count and evidence availability - not simple familiarity. Common misreading: picking a prompt because it sounds close to a favourite GS subject (e.g. choosing "Empires of the mind" purely because you

like Science & Technology) without first checking whether you can actually form one qualified thesis and recall two or three safe illustrations for it. A topic that feels unfamiliar but decodes cleanly (most aphorisms do, once you apply 02) is frequently the safer choice. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q34. Which use of The central idea and common misreading stays closest to the printed prompt?

A. Use The central idea and common misreading while dropping the prompt's operator, qualifier or scale. B. Central idea: topic choice is a strategic decision made on the basis of thesis-fit, dimension count and evidence availability - not simple familiarity. Common misreading: picking a prompt because it sounds close to a favourite GS subject (e.g. choosing "Empires of the mind" purely because you like Science & Technology) without first checking whether you can actually form one qualified thesis and recall two or three safe illustrations for it. A topic that feels unfamiliar but decodes cleanly (most aphorisms do, once you apply 02) is frequently the safer choice. C. Let a striking anecdote or quotation determine The central idea and common misreading regardless of thesis fit. D. Apply The central idea and common misreading only after drafting, when topic drift can no longer be prevented.

Answer: B. Explanation: Central idea: topic choice is a strategic decision made on the basis of thesis-fit, dimension count and evidence availability - not simple familiarity. Common misreading: picking a prompt because it sounds close to a favourite GS subject (e.g. choosing "Empires of the mind" purely because you like Science & Technology) without first checking whether you can actually form one qualified thesis and recall two or three safe illustrations for it. A topic that feels unfamiliar but decodes cleanly (most aphorisms do, once you apply 02) is frequently the safer choice. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q35. Which statement preserves the strategy-versus-official-rule boundary for The central idea and common misreading?

A. Use The central idea and common misreading to avoid stating a serious counter-case or qualification. B. Present The central idea and common misreading as an official marking rule rather than a pedagogical scaffold. C. Central idea: topic choice is a strategic decision made on the basis of thesis-fit, dimension count and evidence availability - not simple familiarity. Common misreading: picking a prompt because it sounds close to a favourite GS subject (e.g. choosing "Empires of the mind" purely because you like Science & Technology) without first checking whether you can actually form one qualified thesis and recall two or three safe illustrations for it. A topic that feels unfamiliar but decodes cleanly (most aphorisms do, once you apply 02) is frequently the safer choice. D. Support The central idea and common misreading with an unverified statistic, attribution or current claim.

Answer: C. Explanation: Central idea: topic choice is a strategic decision made on the basis of thesis-fit, dimension count and evidence availability - not simple familiarity. Common misreading: picking a prompt because it sounds close to a favourite GS subject (e.g. choosing "Empires of the mind" purely because you like Science & Technology) without first checking whether you can actually form one qualified thesis and recall two or three safe illustrations for it. A topic that feels unfamiliar but decodes cleanly (most aphorisms do, once you apply 02) is frequently the safer choice. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q36. Which option avoids the standard Essay-method trap about The central idea and common misreading?

A. Allow an exception discovered through The central idea and common misreading to replace the central proposition. B. Silently tidy the printed prompt before applying The central idea and common misreading to make it easier to answer. C. Maximise the number of outputs produced by The central idea and common misreading, even if they repeat one claim. D. Central idea: topic choice is a strategic decision made on the basis of thesis-fit, dimension count and evidence availability - not simple familiarity. Common misreading: picking a prompt because it sounds close to a favourite GS subject (e.g. choosing "Empires of the mind" purely because you like Science & Technology) without first checking whether you can actually form one qualified thesis and recall two or three safe illustrations for it. A topic that feels unfamiliar but decodes cleanly (most aphorisms do, once you apply 02) is frequently the safer choice.

Answer: D. Explanation: Central idea: topic choice is a strategic decision made on the basis of thesis-fit, dimension count and evidence availability - not simple familiarity. Common misreading: picking a prompt

because it sounds close to a favourite GS subject (e.g. choosing "Empires of the mind" purely because you like Science & Technology) without first checking whether you can actually form one qualified thesis and recall two or three safe illustrations for it. A topic that feels unfamiliar but decodes cleanly (most aphorisms do, once you apply 02) is frequently the safer choice. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q37. Which option applies Basic scan questions as an Essay-method distinction?

A. 1. Can I restate this prompt's core claim in one plain sentence? 2. Is this an aphorism (needs decoding, see 02) or an issue-statement (needs scoping, see 03)? 3. Can I already name two distinct dimensions for it (see 04)? 4. Can I already name one Indian illustration that fits without forcing it (see 12)? 5. Does a workable thesis come to mind within about a minute (see 05)? B. Use Basic scan questions to add more headings or dimensions without testing coherence. C. Treat Basic scan questions as a compulsory UPSC formula even when it distorts the prompt. D. Replace Basic scan questions with a familiar adjacent GS topic and maximise factual coverage.

Answer: A. Explanation: 1. Can I restate this prompt's core claim in one plain sentence? 2. Is this an aphorism (needs decoding, see 02) or an issue-statement (needs scoping, see 03)? 3. Can I already name two distinct dimensions for it (see 04)? 4. Can I already name one Indian illustration that fits without forcing it (see 12)? 5. Does a workable thesis come to mind within about a minute (see 05)? The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q38. Which use of Basic scan questions stays closest to the printed prompt?

A. Use Basic scan questions while dropping the prompt's operator, qualifier or scale. B. 1. Can I restate this prompt's core claim in one plain sentence? 2. Is this an aphorism (needs decoding, see 02) or an issue-statement (needs scoping, see 03)? 3. Can I already name two distinct dimensions for it (see 04)? 4. Can I already name one Indian illustration that fits without forcing it (see 12)? 5. Does a workable thesis come to mind within about a minute (see 05)? C. Apply Basic scan questions only after drafting, when topic drift can no longer be prevented. D. Let a striking anecdote or quotation determine Basic scan questions regardless of thesis fit.

Answer: B. Explanation: 1. Can I restate this prompt's core claim in one plain sentence? 2. Is this an aphorism (needs decoding, see 02) or an issue-statement (needs scoping, see 03)? 3. Can I already name two distinct dimensions for it (see 04)? 4. Can I already name one Indian illustration that fits without forcing it (see 12)? 5. Does a workable thesis come to mind within about a minute (see 05)? The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q39. Which statement preserves the strategy-versus-official-rule boundary for Basic scan questions?

A. Use Basic scan questions to avoid stating a serious counter-case or qualification. B. Support Basic scan questions with an unverified statistic, attribution or current claim. C. 1. Can I restate this prompt's core claim in one plain sentence? 2. Is this an aphorism (needs decoding, see 02) or an issue-statement (needs scoping, see 03)? 3. Can I already name two distinct dimensions for it (see 04)? 4. Can I already name one Indian illustration that fits without forcing it (see 12)? 5. Does a workable thesis come to mind within about a minute (see 05)? D. Present Basic scan questions as an official marking rule rather than a pedagogical scaffold.

Answer: C. Explanation: 1. Can I restate this prompt's core claim in one plain sentence? 2. Is this an aphorism (needs decoding, see 02) or an issue-statement (needs scoping, see 03)? 3. Can I already name two distinct dimensions for it (see 04)? 4. Can I already name one Indian illustration that fits without forcing it (see 12)? 5. Does a workable thesis come to mind within about a minute (see 05)? The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q40. Which option avoids the standard Essay-method trap about Basic scan questions?

A. Silently tidy the printed prompt before applying Basic scan questions to make it easier to answer. B. Maximise the number of outputs produced by Basic scan questions, even if they repeat one claim. C. Allow an exception discovered through Basic scan questions to replace the central proposition. D. 1. Can I restate this prompt's core claim in one plain sentence? 2. Is this an aphorism (needs decoding, see 02) or an issue-statement (needs scoping, see 03)? 3. Can I already name two distinct dimensions for it (see 04)? 4. Can I already name one Indian illustration that fits without forcing it (see 12)? 5. Does a workable thesis come to mind within about a minute (see 05)?

Answer: D. Explanation: 1. Can I restate this prompt's core claim in one plain sentence? 2. Is this an aphorism (needs decoding, see 02) or an issue-statement (needs scoping, see 03)? 3. Can I already name two distinct dimensions for it (see 04)? 4. Can I already name one Indian illustration that fits without forcing it (see 12)? 5. Does a workable thesis come to mind within about a minute (see 05)? The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q41. Which option applies Comparison grid as an Essay-method distinction?

A. Use a quick grid - not a full essay plan - to compare shortlisted prompts before committing B. Treat Comparison grid as a compulsory UPSC formula even when it distorts the prompt. C. Replace Comparison grid with a familiar adjacent GS topic and maximise factual coverage. D. Use Comparison grid to add more headings or dimensions without testing coherence.

Answer: A. Explanation: Use a quick grid - not a full essay plan - to compare shortlisted prompts before committing The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q42. Which use of Comparison grid stays closest to the printed prompt?

A. Use Comparison grid while dropping the prompt's operator, qualifier or scale. B. Use a quick grid - not a full essay plan - to compare shortlisted prompts before committing C. Let a striking anecdote or quotation determine Comparison grid regardless of thesis fit. D. Apply Comparison grid only after drafting, when topic drift can no longer be prevented.

Answer: B. Explanation: Use a quick grid - not a full essay plan - to compare shortlisted prompts before committing The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q43. Which statement preserves the strategy-versus-official-rule boundary for Comparison grid?

A. Support Comparison grid with an unverified statistic, attribution or current claim. B. Use Comparison grid to avoid stating a serious counter-case or qualification. C. Use a quick grid - not a full essay plan - to compare shortlisted prompts before committing D. Present Comparison grid as an official marking rule rather than a pedagogical scaffold.

Answer: C. Explanation: Use a quick grid - not a full essay plan - to compare shortlisted prompts before committing The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q44. Which option avoids the standard Essay-method trap about Comparison grid?

A. Allow an exception discovered through Comparison grid to replace the central proposition. B. Maximise the number of outputs produced by Comparison grid, even if they repeat one claim. C. Silently tidy the printed prompt before applying Comparison grid to make it easier to answer. D. Use a quick grid - not a full essay plan - to compare shortlisted prompts before committing

Answer: D. Explanation: Use a quick grid - not a full essay plan - to compare shortlisted prompts before committing The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q45. Which option applies Comparison grid - 2 as an Essay-method distinction?

A. Score honestly; a prompt with weaker fit in two or more columns is riskier than it looks at first read. B. Use Comparison grid - 2 to add more headings or dimensions without testing coherence. C. Treat Comparison grid - 2 as a compulsory UPSC formula even when it distorts the prompt. D. Replace Comparison grid - 2 with a familiar adjacent GS topic and maximise factual coverage.

Answer: A. Explanation: Score honestly; a prompt with weaker fit in two or more columns is riskier than it looks at first read. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q46. Which use of Comparison grid - 2 stays closest to the printed prompt?

A. Let a striking anecdote or quotation determine Comparison grid - 2 regardless of thesis fit. B. Score honestly; a prompt with weaker fit in two or more columns is riskier than it looks at first read. C. Apply Comparison grid - 2 only after drafting, when topic drift can no longer be prevented. D. Use Comparison grid - 2 while dropping the prompt's operator, qualifier or scale.

Answer: B. Explanation: Score honestly; a prompt with weaker fit in two or more columns is riskier than it looks at first read. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q47. Which statement preserves the strategy-versus-official-rule boundary for Comparison grid - 2?

A. Use Comparison grid - 2 to avoid stating a serious counter-case or qualification. B. Present Comparison grid - 2 as an official marking rule rather than a pedagogical scaffold. C. Score honestly; a prompt with weaker fit in two or more columns is riskier than it looks at first read. D. Support Comparison grid - 2 with an unverified statistic, attribution or current claim.

Answer: C. Explanation: Score honestly; a prompt with weaker fit in two or more columns is riskier than it looks at first read. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q48. Which option avoids the standard Essay-method trap about Comparison grid - 2?

A. Silently tidy the printed prompt before applying Comparison grid - 2 to make it easier to answer. B. Allow an exception discovered through Comparison grid - 2 to replace the central proposition. C. Maximise the number of outputs produced by Comparison grid - 2, even if they repeat one claim. D. Score honestly; a prompt with weaker fit in two or more columns is riskier than it looks at first read.

Answer: D. Explanation: Score honestly; a prompt with weaker fit in two or more columns is riskier than it looks at first read. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q49. Which option applies India-first illustration starters as an Essay-method distinction?

A. Before committing to a prompt, recall - do not invent - at least one Indian illustration per likely dimension: an institution, a policy episode, a well-known social pattern, or a documented event. If nothing comes to mind without forcing it, that is itself useful information about the prompt's risk (see topic 12 for the full verified-example discipline). B. Treat India-first illustration starters as a compulsory UPSC formula even when it distorts the prompt. C. Replace India-first illustration starters with a familiar adjacent GS topic and maximise factual coverage. D. Use India-first illustration starters to add more headings or dimensions without testing coherence.

Answer: A. Explanation: Before committing to a prompt, recall - do not invent - at least one Indian illustration per likely dimension: an institution, a policy episode, a well-known social pattern, or a documented event. If nothing comes to mind without forcing it, that is itself useful information about the prompt's risk (see topic 12 for the full verified-example discipline). The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q50. Which use of India-first illustration starters stays closest to the printed prompt?

A. Use India-first illustration starters while dropping the prompt's operator, qualifier or scale. B. Before committing to a prompt, recall - do not invent - at least one Indian illustration per likely dimension: an institution, a policy episode, a well-known social pattern, or a documented event. If nothing comes to mind without forcing it, that is itself useful information about the prompt's risk (see topic 12 for the full verified-example discipline). C. Let a striking anecdote or quotation determine India-first illustration starters regardless of thesis fit. D. Apply India-first illustration starters only after drafting, when topic drift can no longer be prevented.

Answer: B. Explanation: Before committing to a prompt, recall - do not invent - at least one Indian illustration per likely dimension: an institution, a policy episode, a well-known social pattern, or a documented event. If nothing comes to mind without forcing it, that is itself useful information about the prompt's risk (see topic 12 for the full verified-example discipline). The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q51. Which statement preserves the strategy-versus-official-rule boundary for India-first illustration starters?

A. Use India-first illustration starters to avoid stating a serious counter-case or qualification. B. Support India-first illustration starters with an unverified statistic, attribution or current claim. C. Before committing to a prompt, recall - do not invent - at least one Indian illustration per likely dimension: an institution, a policy episode, a well-known social pattern, or a documented event. If nothing comes to mind without forcing it, that is itself useful information about the prompt's risk (see topic 12 for the full verified-example discipline). D. Present India-first illustration starters as an official marking rule rather than a pedagogical scaffold.

Answer: C. Explanation: Before committing to a prompt, recall - do not invent - at least one Indian illustration per likely dimension: an institution, a policy episode, a well-known social pattern, or a documented event. If nothing comes to mind without forcing it, that is itself useful information about the prompt's risk (see topic 12 for the full verified-example discipline). The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q52. Which option avoids the standard Essay-method trap about India-first illustration starters?

A. Maximise the number of outputs produced by India-first illustration starters, even if they repeat one claim. B. Allow an exception discovered through India-first illustration starters to replace the central proposition. C. Silently tidy the printed prompt before applying India-first illustration starters to make it easier to answer. D. Before committing to a prompt, recall - do not invent - at least one Indian illustration per likely dimension: an institution, a policy episode, a well-known social pattern, or a documented event. If nothing comes to mind without forcing it, that is itself useful information about the prompt's risk (see topic 12 for the full verified-example discipline).

Answer: D. Explanation: Before committing to a prompt, recall - do not invent - at least one Indian illustration per likely dimension: an institution, a policy episode, a well-known social pattern, or a documented event. If nothing comes to mind without forcing it, that is itself useful information about the prompt's risk (see topic 12 for the full verified-example discipline). The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q53. Which option applies Thesis options and selection as an Essay-method distinction?

A. For each shortlisted prompt, draft one candidate thesis sentence before final choice - not a full outline. Choose the prompt whose thesis sentence is (a) a genuine claim, not a restatement of the prompt, (b) qualified (acknowledges a limit or condition), and (c) supportable by the illustrations recalled in Section 7. Full thesis-construction method in 05. B. Replace Thesis options and selection with a familiar adjacent GS topic and maximise factual coverage. C. Treat Thesis options and selection as a compulsory UPSC formula even when it distorts the prompt. D. Use Thesis options and selection to add more headings or dimensions without testing coherence.

Answer: A. Explanation: For each shortlisted prompt, draft one candidate thesis sentence before final choice - not a full outline. Choose the prompt whose thesis sentence is (a) a genuine claim, not a restatement of the prompt, (c) qualified (acknowledges a limit or condition), and (b) supportable by the illustrations recalled in Section 7. Full thesis-construction method in 05. The other options convert a qualified writing method into an

official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q54. Which use of Thesis options and selection stays closest to the printed prompt?

A. Apply Thesis options and selection only after drafting, when topic drift can no longer be prevented. B. For each shortlisted prompt, draft one candidate thesis sentence before final choice - not a full outline. Choose the prompt whose thesis sentence is (a) a genuine claim, not a restatement of the prompt, (b) qualified (acknowledges a limit or condition), and (c) supportable by the illustrations recalled in Section 7. Full thesis-construction method in 05. C. Let a striking anecdote or quotation determine Thesis options and selection regardless of thesis fit. D. Use Thesis options and selection while dropping the prompt's operator, qualifier or scale.

Answer: B. Explanation: For each shortlisted prompt, draft one candidate thesis sentence before final choice - not a full outline. Choose the prompt whose thesis sentence is (a) a genuine claim, not a restatement of the prompt, (b) qualified (acknowledges a limit or condition), and (d) supportable by the illustrations recalled in Section 7. Full thesis-construction method in 05. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q55. Which statement preserves the strategy-versus-official-rule boundary for Thesis options and selection?

A. Present Thesis options and selection as an official marking rule rather than a pedagogical scaffold. B. Support Thesis options and selection with an unverified statistic, attribution or current claim. C. For each shortlisted prompt, draft one candidate thesis sentence before final choice - not a full outline. Choose the prompt whose thesis sentence is (a) a genuine claim, not a restatement of the prompt, (b) qualified (acknowledges a limit or condition), and (c) supportable by the illustrations recalled in Section 7. Full thesis-construction method in 05. D. Use Thesis options and selection to avoid stating a serious counter-case or qualification.

Answer: C. Explanation: For each shortlisted prompt, draft one candidate thesis sentence before final choice - not a full outline. Choose the prompt whose thesis sentence is (a) a genuine claim, not a restatement of the prompt, (d) qualified (acknowledges a limit or condition), and (c) supportable by the illustrations recalled in Section 7. Full thesis-construction method in 05. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q56. Which option avoids the standard Essay-method trap about Thesis options and selection?

A. Maximise the number of outputs produced by Thesis options and selection, even if they repeat one claim. B. Allow an exception discovered through Thesis options and selection to replace the central proposition. C. Silently tidy the printed prompt before applying Thesis options and selection to make it easier to answer. D. For each shortlisted prompt, draft one candidate thesis sentence before final choice - not a full outline. Choose the prompt whose thesis sentence is (a) a genuine claim, not a restatement of the prompt, (b) qualified (acknowledges a limit or condition), and (c) supportable by the illustrations recalled in Section 7. Full thesis-construction method in 05.

Answer: D. Explanation: For each shortlisted prompt, draft one candidate thesis sentence before final choice - not a full outline. Choose the prompt whose thesis sentence is (a) a genuine claim, not a restatement of the prompt, (b) qualified (acknowledges a limit or condition), and (c) supportable by the illustrations recalled in Section 7. Full thesis-construction method in 05. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q57. Which option applies Advanced proposition and boundary as an Essay-method distinction?

A. Proposition: topic choice is best modelled as a portfolio decision under time pressure - you are choosing the prompt with the best expected combination of thesis-clarity, dimension-depth and evidence-safety, not the prompt with the highest emotional appeal. Boundary: this topic does not itself decode any single prompt in depth (that is 02/03) or build a full argument map (05/08); it supplies the upstream selection logic those topics assume has already been run. B. Replace Advanced proposition and boundary with a familiar adjacent GS topic and maximise factual coverage. C. Treat Advanced proposition and boundary as a compulsory UPSC formula even when it distorts the prompt. D. Use Advanced proposition and boundary to add more headings or dimensions without testing coherence.

Answer: A. Explanation: Proposition: topic choice is best modelled as a portfolio decision under time pressure - you are choosing the prompt with the best expected combination of thesis-clarity,

dimension-depth and evidence-safety, not the prompt with the highest emotional appeal. Boundary: this topic does not itself decode any single prompt in depth (that is 02/03) or build a full argument map (05/08); it supplies the upstream selection logic those topics assume has already been run. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q58. Which use of Advanced proposition and boundary stays closest to the printed prompt?

- A. Let a striking anecdote or quotation determine Advanced proposition and boundary regardless of thesis fit. B. Proposition: topic choice is best modelled as a portfolio decision under time pressure - you are choosing the prompt with the best expected combination of thesis-clarity, dimension-depth and evidence-safety, not the prompt with the highest emotional appeal. Boundary: this topic does not itself decode any single prompt in depth (that is 02/03) or build a full argument map (05/08); it supplies the upstream selection logic those topics assume has already been run. C. Apply Advanced proposition and boundary only after drafting, when topic drift can no longer be prevented. D. Use Advanced proposition and boundary while dropping the prompt's operator, qualifier or scale.

Answer: B. Explanation: Proposition: topic choice is best modelled as a portfolio decision under time pressure - you are choosing the prompt with the best expected combination of thesis-clarity, dimension-depth and evidence-safety, not the prompt with the highest emotional appeal. Boundary: this topic does not itself decode any single prompt in depth (that is 02/03) or build a full argument map (05/08); it supplies the upstream selection logic those topics assume has already been run. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q59. Which statement preserves the strategy-versus-official-rule boundary for Advanced proposition and boundary?

- A. Support Advanced proposition and boundary with an unverified statistic, attribution or current claim. B. Use Advanced proposition and boundary to avoid stating a serious counter-case or qualification. C. Proposition: topic choice is best modelled as a portfolio decision under time pressure - you are choosing the prompt with the best expected combination of thesis-clarity, dimension-depth and evidence-safety, not the prompt with the highest emotional appeal. Boundary: this topic does not itself decode any single prompt in depth (that is 02/03) or build a full argument map (05/08); it supplies the upstream selection logic those topics assume has already been run. D. Present Advanced proposition and boundary as an official marking rule rather than a pedagogical scaffold.

Answer: C. Explanation: Proposition: topic choice is best modelled as a portfolio decision under time pressure - you are choosing the prompt with the best expected combination of thesis-clarity, dimension-depth and evidence-safety, not the prompt with the highest emotional appeal. Boundary: this topic does not itself decode any single prompt in depth (that is 02/03) or build a full argument map (05/08); it supplies the upstream selection logic those topics assume has already been run. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q60. Which option avoids the standard Essay-method trap about Advanced proposition and boundary?

- A. Silently tidy the printed prompt before applying Advanced proposition and boundary to make it easier to answer. B. Maximise the number of outputs produced by Advanced proposition and boundary, even if they repeat one claim. C. Allow an exception discovered through Advanced proposition and boundary to replace the central proposition. D. Proposition: topic choice is best modelled as a portfolio decision under time pressure - you are choosing the prompt with the best expected combination of thesis-clarity, dimension-depth and evidence-safety, not the prompt with the highest emotional appeal. Boundary: this topic does not itself decode any single prompt in depth (that is 02/03) or build a full argument map (05/08); it supplies the upstream selection logic those topics assume has already been run.

Answer: D. Explanation: Proposition: topic choice is best modelled as a portfolio decision under time pressure - you are choosing the prompt with the best expected combination of thesis-clarity, dimension-depth and evidence-safety, not the prompt with the highest emotional appeal. Boundary: this topic does not itself decode any single prompt in depth (that is 02/03) or build a full argument map (05/08); it

supplies the upstream selection logic those topics assume has already been run. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q61. Which option applies Concept definition and taxonomy as an Essay-method distinction?

A. with visible strain (a warning sign under time pressure, not merely a stylistic weakness). B. Use Concept definition and taxonomy to add more headings or dimensions without testing coherence. C. Replace Concept definition and taxonomy with a familiar adjacent GS topic and maximise factual coverage. D. Treat Concept definition and taxonomy as a compulsory UPSC formula even when it distorts the prompt.

Answer: A. Explanation: with visible strain (a warning sign under time pressure, not merely a stylistic weakness). The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q62. Which use of Concept definition and taxonomy stays closest to the printed prompt?

A. Let a striking anecdote or quotation determine Concept definition and taxonomy regardless of thesis fit. B. with visible strain (a warning sign under time pressure, not merely a stylistic weakness). C. Use Concept definition and taxonomy while dropping the prompt's operator, qualifier or scale. D. Apply Concept definition and taxonomy only after drafting, when topic drift can no longer be prevented.

Answer: B. Explanation: with visible strain (a warning sign under time pressure, not merely a stylistic weakness). The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q63. Which statement preserves the strategy-versus-official-rule boundary for Concept definition and taxonomy?

A. Support Concept definition and taxonomy with an unverified statistic, attribution or current claim. B. Present Concept definition and taxonomy as an official marking rule rather than a pedagogical scaffold. C. with visible strain (a warning sign under time pressure, not merely a stylistic weakness). D. Use Concept definition and taxonomy to avoid stating a serious counter-case or qualification.

Answer: C. Explanation: with visible strain (a warning sign under time pressure, not merely a stylistic weakness). The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q64. Which option avoids the standard Essay-method trap about Concept definition and taxonomy?

A. Silently tidy the printed prompt before applying Concept definition and taxonomy to make it easier to answer. B. Allow an exception discovered through Concept definition and taxonomy to replace the central proposition. C. Maximise the number of outputs produced by Concept definition and taxonomy, even if they repeat one claim. D. with visible strain (a warning sign under time pressure, not merely a stylistic weakness).

Answer: D. Explanation: with visible strain (a warning sign under time pressure, not merely a stylistic weakness). The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q65. Which option applies Tension pairs and hidden assumptions as an Essay-method distinction?

A. guarantees writing quality is unsafe - interest without a qualified thesis produces an enthusiastic but shapeless essay. B. Replace Tension pairs and hidden assumptions with a familiar adjacent GS topic and maximise factual coverage. C. Use Tension pairs and hidden assumptions to add more headings or dimensions without testing coherence. D. Treat Tension pairs and hidden assumptions as a compulsory UPSC formula even when it distorts the prompt.

Answer: A. Explanation: guarantees writing quality is unsafe - interest without a qualified thesis produces an enthusiastic but shapeless essay. The other options convert a qualified writing method into an official

formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q66. Which use of Tension pairs and hidden assumptions stays closest to the printed prompt?

A. Let a striking anecdote or quotation determine Tension pairs and hidden assumptions regardless of thesis fit. B. guarantees writing quality is unsafe - interest without a qualified thesis produces an enthusiastic but shapeless essay. C. Apply Tension pairs and hidden assumptions only after drafting, when topic drift can no longer be prevented. D. Use Tension pairs and hidden assumptions while dropping the prompt's operator, qualifier or scale.

Answer: B. Explanation: guarantees writing quality is unsafe - interest without a qualified thesis produces an enthusiastic but shapeless essay. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q67. Which statement preserves the strategy-versus-official-rule boundary for Tension pairs and hidden assumptions?

A. Use Tension pairs and hidden assumptions to avoid stating a serious counter-case or qualification. B. Support Tension pairs and hidden assumptions with an unverified statistic, attribution or current claim. C. guarantees writing quality is unsafe - interest without a qualified thesis produces an enthusiastic but shapeless essay. D. Present Tension pairs and hidden assumptions as an official marking rule rather than a pedagogical scaffold.

Answer: C. Explanation: guarantees writing quality is unsafe - interest without a qualified thesis produces an enthusiastic but shapeless essay. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q68. Which option avoids the standard Essay-method trap about Tension pairs and hidden assumptions?

A. Allow an exception discovered through Tension pairs and hidden assumptions to replace the central proposition. B. Maximise the number of outputs produced by Tension pairs and hidden assumptions, even if they repeat one claim. C. Silently tidy the printed prompt before applying Tension pairs and hidden assumptions to make it easier to answer. D. guarantees writing quality is unsafe - interest without a qualified thesis produces an enthusiastic but shapeless essay.

Answer: D. Explanation: guarantees writing quality is unsafe - interest without a qualified thesis produces an enthusiastic but shapeless essay. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q69. Which option applies Tension pairs and hidden assumptions - 2 as an Essay-method distinction?

A. stacking (fact lists) rather than argument; an unfamiliar aphorism forces argument-first thinking, which the paper actually rewards. B. Use Tension pairs and hidden assumptions - 2 to add more headings or dimensions without testing coherence. C. Treat Tension pairs and hidden assumptions - 2 as a compulsory UPSC formula even when it distorts the prompt. D. Replace Tension pairs and hidden assumptions - 2 with a familiar adjacent GS topic and maximise factual coverage.

Answer: A. Explanation: stacking (fact lists) rather than argument; an unfamiliar aphorism forces argument-first thinking, which the paper actually rewards. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q70. Which use of Tension pairs and hidden assumptions - 2 stays closest to the printed prompt?

A. Let a striking anecdote or quotation determine Tension pairs and hidden assumptions - 2 regardless of thesis fit. B. stacking (fact lists) rather than argument; an unfamiliar aphorism forces argument-first thinking, which the paper actually rewards. C. Use Tension pairs and hidden assumptions - 2 while dropping the prompt's operator, qualifier or scale. D. Apply Tension pairs and hidden assumptions - 2 only after drafting, when topic drift can no longer be prevented.

Answer: B. Explanation: stacking (fact lists) rather than argument; an unfamiliar aphorism forces argument-first thinking, which the paper actually rewards. The other options convert a qualified writing

method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q71. Which statement preserves the strategy-versus-official-rule boundary for Tension pairs and hidden assumptions - 2?

A. Support Tension pairs and hidden assumptions - 2 with an unverified statistic, attribution or current claim. B. Present Tension pairs and hidden assumptions - 2 as an official marking rule rather than a pedagogical scaffold. C. stacking (fact lists) rather than argument; an unfamiliar aphorism forces argument-first thinking, which the paper actually rewards. D. Use Tension pairs and hidden assumptions - 2 to avoid stating a serious counter-case or qualification.

Answer: C. Explanation: stacking (fact lists) rather than argument; an unfamiliar aphorism forces argument-first thinking, which the paper actually rewards. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q72. Which option avoids the standard Essay-method trap about Tension pairs and hidden assumptions - 2?

A. Allow an exception discovered through Tension pairs and hidden assumptions - 2 to replace the central proposition. B. Silently tidy the printed prompt before applying Tension pairs and hidden assumptions - 2 to make it easier to answer. C. Maximise the number of outputs produced by Tension pairs and hidden assumptions - 2, even if they repeat one claim. D. stacking (fact lists) rather than argument; an unfamiliar aphorism forces argument-first thinking, which the paper actually rewards.

Answer: D. Explanation: stacking (fact lists) rather than argument; an unfamiliar aphorism forces argument-first thinking, which the paper actually rewards. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q73. Which option applies Tension pairs and hidden assumptions - 3 as an Essay-method distinction?

A. reverse mid-attempt; the hidden assumption in "just start writing" is that later correction is cheap - it is not, given the fixed time budget (13). B. Use Tension pairs and hidden assumptions - 3 to add more headings or dimensions without testing coherence. C. Treat Tension pairs and hidden assumptions - 3 as a compulsory UPSC formula even when it distorts the prompt. D. Replace Tension pairs and hidden assumptions - 3 with a familiar adjacent GS topic and maximise factual coverage.

Answer: A. Explanation: reverse mid-attempt; the hidden assumption in "just start writing" is that later correction is cheap - it is not, given the fixed time budget (13). The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q74. Which use of Tension pairs and hidden assumptions - 3 stays closest to the printed prompt?

A. Apply Tension pairs and hidden assumptions - 3 only after drafting, when topic drift can no longer be prevented. B. reverse mid-attempt; the hidden assumption in "just start writing" is that later correction is cheap - it is not, given the fixed time budget (13). C. Use Tension pairs and hidden assumptions - 3 while dropping the prompt's operator, qualifier or scale. D. Let a striking anecdote or quotation determine Tension pairs and hidden assumptions - 3 regardless of thesis fit.

Answer: B. Explanation: reverse mid-attempt; the hidden assumption in "just start writing" is that later correction is cheap - it is not, given the fixed time budget (13). The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q75. Which statement preserves the strategy-versus-official-rule boundary for Tension pairs and hidden assumptions - 3?

A. Use Tension pairs and hidden assumptions - 3 to avoid stating a serious counter-case or qualification. B. Support Tension pairs and hidden assumptions - 3 with an unverified statistic, attribution or current claim. C. reverse mid-attempt; the hidden assumption in "just start writing" is that later correction is cheap - it is not, given the fixed time budget (13). D. Present Tension pairs and hidden assumptions - 3 as an official marking rule rather than a pedagogical scaffold.

Answer: C. Explanation: reverse mid-attempt; the hidden assumption in "just start writing" is that later correction is cheap - it is not, given the fixed time budget (13). The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q76. Which option avoids the standard Essay-method trap about Tension pairs and hidden assumptions - 3?

A. Silently tidy the printed prompt before applying Tension pairs and hidden assumptions - 3 to make it easier to answer. B. Maximise the number of outputs produced by Tension pairs and hidden assumptions - 3, even if they repeat one claim. C. Allow an exception discovered through Tension pairs and hidden assumptions - 3 to replace the central proposition. D. reverse mid-attempt; the hidden assumption in "just start writing" is that later correction is cheap - it is not, given the fixed time budget (13).

Answer: D. Explanation: reverse mid-attempt; the hidden assumption in "just start writing" is that later correction is cheap - it is not, given the fixed time budget (13). The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q77. Which option applies Levels of analysis and temporal-spatial scale as an Essay-method distinction?

A. Selection logic should be checked at three levels: (a) the sentence level - can the prompt's own words support a thesis without distortion; (b) the essay level - will 10-12 paragraphs (07) sustain interest and argument without repetition; (c) the exam level - does the choice, given your remaining time budget for both essays (13), still allow adequate planning and revision for the second essay. B. Treat Levels of analysis and temporal-spatial scale as a compulsory UPSC formula even when it distorts the prompt. C. Replace Levels of analysis and temporal-spatial scale with a familiar adjacent GS topic and maximise factual coverage. D. Use Levels of analysis and temporal-spatial scale to add more headings or dimensions without testing coherence.

Answer: A. Explanation: Selection logic should be checked at three levels: (a) the sentence level - can the prompt's own words support a thesis without distortion; (b) the essay level - will 10-12 paragraphs (07) sustain interest and argument without repetition; (c) the exam level - does the choice, given your remaining time budget for both essays (13), still allow adequate planning and revision for the second essay. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q78. Which use of Levels of analysis and temporal-spatial scale stays closest to the printed prompt?

A. Apply Levels of analysis and temporal-spatial scale only after drafting, when topic drift can no longer be prevented. B. Selection logic should be checked at three levels: (a) the sentence level - can the prompt's own words support a thesis without distortion; (b) the essay level - will 10-12 paragraphs (07) sustain interest and argument without repetition; (c) the exam level - does the choice, given your remaining time budget for both essays (13), still allow adequate planning and revision for the second essay. C. Use Levels of analysis and temporal-spatial scale while dropping the prompt's operator, qualifier or scale. D. Let a striking anecdote or quotation determine Levels of analysis and temporal-spatial scale regardless of thesis fit.

Answer: B. Explanation: Selection logic should be checked at three levels: (a) the sentence level - can the prompt's own words support a thesis without distortion; (b) the essay level - will 10-12 paragraphs (07) sustain interest and argument without repetition; (c) the exam level - does the choice, given your remaining time budget for both essays (13), still allow adequate planning and revision for the second essay. The other

options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q79. Which statement preserves the strategy-versus-official-rule boundary for Levels of analysis and temporal-spatial scale?

A. Use Levels of analysis and temporal-spatial scale to avoid stating a serious counter-case or qualification. B. Present Levels of analysis and temporal-spatial scale as an official marking rule rather than a pedagogical scaffold. C. Selection logic should be checked at three levels: (a) the sentence level - can the prompt's own words support a thesis without distortion; (b) the essay level - will 10-12 paragraphs (07) sustain interest and argument without repetition; (c) the exam level - does the choice, given your remaining time budget for both essays (13), still allow adequate planning and revision for the second essay. D. Support Levels of analysis and temporal-spatial scale with an unverified statistic, attribution or current claim.

Answer: C. Explanation: Selection logic should be checked at three levels: (b) the sentence level - can the prompt's own words support a thesis without distortion; (a) the essay level - will 10-12 paragraphs (07) sustain interest and argument without repetition; (c) the exam level - does the choice, given your remaining time budget for both essays (13), still allow adequate planning and revision for the second essay. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q80. Which option avoids the standard Essay-method trap about Levels of analysis and temporal-spatial scale?

A. Silently tidy the printed prompt before applying Levels of analysis and temporal-spatial scale to make it easier to answer. B. Maximise the number of outputs produced by Levels of analysis and temporal-spatial scale, even if they repeat one claim. C. Allow an exception discovered through Levels of analysis and temporal-spatial scale to replace the central proposition. D. Selection logic should be checked at three levels: (a) the sentence level - can the prompt's own words support a thesis without distortion; (b) the essay level - will 10-12 paragraphs (07) sustain interest and argument without repetition; (c) the exam level - does the choice, given your remaining time budget for both essays (13), still allow adequate planning and revision for the second essay.

Answer: D. Explanation: Selection logic should be checked at three levels: (b) the sentence level - can the prompt's own words support a thesis without distortion; (c) the essay level - will 10-12 paragraphs (07) sustain interest and argument without repetition; (a) the exam level - does the choice, given your remaining time budget for both essays (13), still allow adequate planning and revision for the second essay. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

PYQS AND ANSWER PRACTICE

AUDITED TOPIC-SPECIFIC PYQ OWNERSHIP

Three application cards use the repository's explicit V1/V2 status. No unavailable official model answer, marking rubric or attribution is invented.

PYQ DEMAND CARD 1 - 2024-A3 Essay

Demand: There is no path to happiness, Happiness is the path.

Status: Exact V1 wording from a local official paper.

Model solution: Working thesis: Happiness is not merely a reward postponed until success is achieved; it is a quality of meaningful, ethical and attentive participation in life, though this insight must not romanticise deprivation or deny the material conditions required for dignity. **Process over destination:** Goals organise effort, but a life spent treating every present moment as a sacrifice can make achievement emotionally empty. **Meaningful action:** Work, learning and service generate deeper well-being when their daily practice itself expresses purpose. **Relationships:** Trust, friendship and care are lived processes; they cannot be accumulated later like material assets. **Ethical conduct:** Means shape character, so happiness pursued through exploitation or dishonesty undermines itself.

Counter-view: Some hardship is unavoidable and long-term projects require delayed gratification, so happiness cannot mean constant comfort or pleasure. This is a repository-authored answer route, not an official model answer.

PYQ DEMAND CARD 2 - 2025-A3 Essay

Demand: Thought finds a world and creates one also.

Status: Exact V1 wording from a local official paper.

Model solution: Working thesis: Thought interprets an inherited reality and simultaneously reshapes it through imagination, institutions and action; its creative power can liberate or dominate depending on evidence, ethics and inclusion. **Perception:** Concepts and language organise experience, helping people notice patterns that would otherwise remain invisible. **Scientific discovery:** Inquiry finds structures already present in nature while theories and technologies create new fields of human possibility. **Political imagination:** Ideas such as liberty, equality and constitutionalism first reinterpret injustice and then build institutions to contest it. **Economic creation:** Entrepreneurship and design transform knowledge into products, work and new forms of exchange. **Counter-view:** Thought is constrained by material conditions and cannot create reality by wish alone; imagination becomes effective through collective action and institutions. This is a repository-authored answer route, not an official model answer.

PYQ DEMAND CARD 3 - 2024-B7 Essay

Demand: All ideas having large consequences are always simple.

Status: Exact V1 wording from a local official paper.

Model solution: Working thesis: Ideas with large consequences often possess a simple moral or conceptual core, yet their effects depend on complex institutions, incentives and interpretation; simplicity can guide action, but simplification can also conceal harm. **Moral clarity:** Liberty, equality and dignity are simple orienting ideas that expose elaborate forms of domination. **Scientific elegance:** A compact principle can organise diverse observations without making implementation effortless. **Political mobilisation:** Simple language can make collective purposes intelligible and actionable. **Institutional complexity:** Constitutional values require procedures, checks and administrative capacity to survive conflict. **Counter-view:** Some transformative changes emerge from accumulated practice rather than one identifiable simple idea, and apparently simple doctrines may hide contested assumptions. This is a repository-authored answer route, not an official model answer.

COMPLETE MODEL ESSAYS

COMPLETE MODEL ESSAY 1 - 2024-A3

Prompt: There is no path to happiness, Happiness is the path.

Verification: V1 - directly verified from a local official UPSC paper.

Model essay (1002 words):

"There is no path to happiness, Happiness is the path." is not a decorative slogan but a proposition about how human choices, institutions and consequences relate. Happiness is not merely a reward postponed until success is achieved; it is a quality of meaningful, ethical and attentive participation in life, though this insight must not romanticise deprivation or deny the material conditions required for dignity. This reading keeps the discussion centred on the prompt while using official instruction | strategic heuristic | two-essay portfolio | early commitment as a method rather than as visible scaffolding.

At the level of the person, **process over destination** clarifies the proposition. Goals organise effort, but a life spent treating every present moment as a sacrifice can make achievement emotionally empty. A useful illustration is India's constitutional commitment to dignity, liberty and equality; its value lies not in name-dropping but in showing how an idea becomes capability, incentive, restraint or exclusion. Yet the illustration must remain proportionate: it supports this part of the argument and cannot by itself prove a universal claim. The paragraph therefore returns to the central thesis and prepares the next change of scale.

The personal insight becomes social, **meaningful action** clarifies the proposition. Work, learning and service generate deeper well-being when their daily practice itself expresses purpose. A useful illustration is the spread of self-help groups and community institutions; its value lies not in name-dropping but in showing how an idea becomes capability, incentive, restraint or exclusion. Yet the illustration must remain proportionate: it supports this part of the

argument and cannot by itself prove a universal claim. The paragraph therefore returns to the central thesis and prepares the next change of scale.

Institutions then determine, **relationships** clarifies the proposition. Trust, friendship and care are lived processes; they cannot be accumulated later like material assets. A useful illustration is the Right to Information framework and public accountability; its value lies not in name-dropping but in showing how an idea becomes capability, incentive, restraint or exclusion. Yet the illustration must remain proportionate: it supports this part of the argument and cannot by itself prove a universal claim. The paragraph therefore returns to the central thesis and prepares the next change of scale.

The argument also changes across time, **ethical conduct** clarifies the proposition. Means shape character, so happiness pursued through exploitation or dishonesty undermines itself. A useful illustration is India's scientific, educational and public-health institutions; its value lies not in name-dropping but in showing how an idea becomes capability, incentive, restraint or exclusion. Yet the illustration must remain proportionate: it supports this part of the argument and cannot by itself prove a universal claim. The paragraph therefore returns to the central thesis and prepares the next change of scale.

An Indian and democratic perspective adds, **public policy** clarifies the proposition. Development must value health, security, community and ecological quality alongside income and output. A useful illustration is local-government and cooperative experience; its value lies not in name-dropping but in showing how an idea becomes capability, incentive, restraint or exclusion. Yet the illustration must remain proportionate: it supports this part of the argument and cannot by itself prove a universal claim. The paragraph therefore returns to the central thesis and prepares the next change of scale.

The widest test is ethical and intergenerational, **material floor** clarifies the proposition. Freedom from hunger, violence and preventable illness is essential; inner attitude cannot substitute for justice. A useful illustration is the global commitment to human dignity expressed in the Universal Declaration of Human Rights; its value lies not in name-dropping but in showing how an idea becomes capability, incentive, restraint or exclusion. Yet the illustration must remain proportionate: it supports this part of the argument and cannot by itself prove a universal claim. The paragraph therefore returns to the central thesis and prepares the next change of scale.

A serious essay must now confront the strongest objection. Some hardship is unavoidable and long-term projects require delayed gratification, so happiness cannot mean constant comfort or pleasure. This objection deserves to be stated in its strongest form because a weak caricature produces only a ceremonial rebuttal. It changes the argument by identifying the condition under which the prompt fails, becomes incomplete or generates unequal costs. The response is therefore not to abandon the thesis, but to qualify its reach, specify safeguards and distinguish a defensible principle from its simplistic imitation.

The synthesis follows from that qualification. Individual agency matters, but institutions shape the options within which agency operates. Material capacity matters, but dignity and justice determine whether capacity is worthwhile. National action matters, but ecological and international interdependence prevent self-contained solutions. This is why GS knowledge must enter the essay as analysed evidence rather than as a catalogue of constitutional articles, schemes, reports or sectors.

India makes this synthesis concrete because diversity, unequal capability and democratic aspiration coexist at every scale. The Constitution's language of justice, liberty, equality and fraternity supplies a normative direction, but constitutional vocabulary earns its place only when the essay explains a mechanism: how rights restrain power, how public capability widens agency, how local participation corrects distant administration, or how scientific temper enables revision. Likewise, an example from social reform, cooperative action, public health, education, technology or ecology should illuminate one claim rather than stand as a miniature GS note. This discipline allows an India-centric essay to remain reflective and universal without becoming abstract, celebratory or scheme-heavy. It also preserves balance by connecting aspiration to capacity, rights to remedies, and public purpose to accountable implementation.

Happiness becomes the path when purpose, just means and humane relationships inhabit the journey, while society secures the minimum dignity that makes such a journey genuinely possible. The prompt is thus neither accepted as an absolute nor dissolved into a balanced list. Its insight survives in a more precise form: one that connects character with institutions, freedom with responsibility, innovation with justice, and present action with the future. That sustained central argument gives the essay coherence, while careful evidence, transitions and qualification give it credibility.

ORIGINAL MAINS 1 - 10 MARKS

Question: Define the core writing problem in Paper Rules, Choice and Selection. Answer in about 150 words.

Model thesis: **Claim:** Purpose and scope. **Named evidence/example:** This topic answers two questions before any writing begins: what does the paper actually require, and how should a candidate choose which of the eight-plus-eight displayed prompts to attempt? It does not teach decoding technique (see 02/03) or drafting technique (see 05-07) - it teaches the upstream decision that determines how easy those later steps will be. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Exam facts / source basis. **Named evidence/example:** The current corpus ledger records 2018-2025 as V1 - directly verified locally and 2013-2017 as V2 - carried-forward, not locally verifiable. The paper-mechanics facts below are illustrated with the 2024 and 2025 papers, whose printed wording is reproduced in the ledger. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.

Claim -> named evidence -> analysis -> qualification:

- This topic answers two questions before any writing begins: what does the paper actually require, and how should a candidate choose which of the eight-plus-eight displayed prompts to attempt? It does not teach decoding technique (see 02/03) or drafting technique (see 05-07) - it teaches the upstream decision that determines how easy those later steps will be.
- The current corpus ledger records 2018-2025 as V1 - directly verified locally and 2013-2017 as V2 - carried-forward, not locally verifiable. The paper-mechanics facts below are illustrated with the 2024 and 2025 papers, whose printed wording is reproduced in the ledger.

Qualified conclusion: **Claim:** Purpose and scope. **Named evidence/example:** This topic answers two questions before any writing begins: what does the paper actually require, and how should a candidate choose which of the eight-plus-eight displayed prompts to attempt? It does not teach decoding technique (see 02/03) or drafting technique (see 05-07) - it teaches the upstream decision that determines how easy those later steps will be. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Exam facts / source basis. **Named evidence/example:** The current corpus ledger records 2018-2025 as V1 - directly verified locally and 2013-2017 as V2 - carried-forward, not locally verifiable. The paper-mechanics facts below are illustrated with the 2024 and 2025 papers, whose printed wording is reproduced in the ledger. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.

ORIGINAL MAINS 2 - 10 MARKS

Question: Distinguish the valid method from its closest misuse in Paper Rules, Choice and Selection. Answer in about 150 words.

Model thesis: **Claim:** Exam facts / source basis - 2. **Named evidence/example:** one topic from each of the following Sections A and B, in about 1000-1200 words each:" followed by the marks line "(125 x 2 = 250)". **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Exam facts / source basis - 3. **Named evidence/example:** essays, choosing one topic from each of the following Sections A as in about 1000 - 1200 words each:". The requirement is still unambiguous from the paper's Hindi line and its two printed section headings - two essays, one from each of Sections A and B, about 1000-1200 words each - but do not quote the 2025 line as clean English. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.

Claim -> named evidence -> analysis -> qualification:

- one topic from each of the following Sections A and B, in about 1000-1200 words each:" followed by the marks line "(125 x 2 = 250)".
- essays, choosing one topic from each of the following Sections A as in about 1000 - 1200 words each:". The requirement is still unambiguous from the paper's Hindi line and its two printed section headings - two essays, one from each of Sections A and B, about 1000-1200 words each - but do not quote the 2025 line as clean English.

Qualified conclusion: Claim: Exam facts / source basis - 2. **Named evidence/example:** one topic from each of the following Sections A and B, in about 1000-1200 words each:" followed by the marks line "(125 x 2 = 250)". **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Exam facts / source basis - 3. **Named evidence/example:** essays, choosing one topic from each of the following Sections A as in about 1000 - 1200 words each:". The requirement is still unambiguous from the paper's Hindi line and its two printed section headings - two essays, one from each of Sections A and B, about 1000-1200 words each - but do not quote the 2025 line as clean English. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.

ORIGINAL MAINS 3 - 15 MARKS

Question: Apply Paper Rules, Choice and Selection to one philosophical UPSC Essay prompt. Answer in about 250 words.

Model thesis: Claim: Exam facts / source basis - 4. **Named evidence/example:** Section B at 1-4; 2025 continues Section B at 5-8. This folder's B5-B8 labels are an internal reference scheme, not the 2024 paper's printed numbers. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Exam facts / source basis - 5. **Named evidence/example:** bilingually (Hindi then English) , and require one topic chosen from each Section - never two from the same Section. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Exam facts / source basis - 6. **Named evidence/example:** header, a 2025 marks line, an author beside any prompt, or any marking rubric/weightage. The separate official examination scheme supplies the three-hour Essay duration; no phase split is official. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Exam facts / source basis - 7. **Named evidence/example:** Practical consequence for choice: because the paper's own numbering and even its instruction line vary year to year, spend the first reading confirming the structural rule (one from each Section) rather than assuming any layout you have seen in a mock paper. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.

Claim -> named evidence -> analysis -> qualification:

- Section B at 1-4; 2025 continues Section B at 5-8. This folder's B5-B8 labels are an internal reference scheme, not the 2024 paper's printed numbers.
- bilingually (Hindi then English) , and require one topic chosen from each Section - never two from the same Section.
- header, a 2025 marks line, an author beside any prompt, or any marking rubric/weightage. The separate official examination scheme supplies the three-hour Essay duration; no phase split is official.
- Practical consequence for choice: because the paper's own numbering and even its instruction line vary year to year, spend the first reading confirming the structural rule (one from each Section) rather than assuming any layout you have seen in a mock paper.

Qualified conclusion: Claim: Exam facts / source basis - 4. **Named evidence/example:** Section B at 1-4; 2025 continues Section B at 5-8. This folder's B5-B8 labels are an internal reference scheme, not the 2024 paper's printed

numbers. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Exam facts / source basis - 5. **Named evidence/example:** bilingually (Hindi then English) , and require one topic chosen from each Section - never two from the same Section. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Exam facts / source basis - 6. **Named evidence/example:** header, a 2025 marks line, an author beside any prompt, or any marking rubric/weightage. The separate official examination scheme supplies the three-hour Essay duration; no phase split is official. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Exam facts / source basis - 7. **Named evidence/example:** Practical consequence for choice: because the paper's own numbering and even its instruction line vary year to year, spend the first reading confirming the structural rule (one from each Section) rather than assuming any layout you have seen in a mock paper. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.

ORIGINAL MAINS 4 - 15 MARKS

Question: Apply Paper Rules, Choice and Selection to one issue-based or hybrid UPSC Essay prompt. Answer in about 250 words.

Model thesis: Claim: The central idea and common misreading. **Named evidence/example:** Central idea: topic choice is a strategic decision made on the basis of thesis-fit, dimension count and evidence availability - not simple familiarity. Common misreading: picking a prompt because it sounds close to a favourite GS subject (e.g. choosing "Empires of the mind" purely because you like Science & Technology) without first checking whether you can actually form one qualified thesis and recall two or three safe illustrations for it. A topic that feels unfamiliar but decodes cleanly (most aphorisms do, once you apply 02) is frequently the safer choice. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Basic scan questions. **Named evidence/example:** 1. Can I restate this prompt's core claim in one plain sentence? 2. Is this an aphorism (needs decoding, see 02) or an issue-statement (needs scoping, see 03)? 3. Can I already name two distinct dimensions for it (see 04)? 4. Can I already name one Indian illustration that fits without forcing it (see 12)? 5. Does a workable thesis come to mind within about a minute (see 05)? **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Comparison grid. **Named evidence/example:** Use a quick grid - not a full essay plan - to compare shortlisted prompts before committing **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Comparison grid - 2. **Named evidence/example:** Score honestly; a prompt with weaker fit in two or more columns is riskier than it looks at first read. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.

Claim -> named evidence -> analysis -> qualification:

- Central idea: topic choice is a strategic decision made on the basis of thesis-fit, dimension count and evidence availability - not simple familiarity. Common misreading: picking a prompt because it sounds close to a favourite GS subject (e.g. choosing "Empires of the mind" purely because you like Science & Technology) without first checking whether you can actually form one qualified thesis and recall two or three safe illustrations for it. A topic that feels unfamiliar but decodes cleanly (most aphorisms do, once you apply 02) is frequently the safer choice.

ORIGINAL MAINS 5 - 20 MARKS

Question: Evaluate the limits, counter-cases and repair protocol for Paper Rules, Choice and Selection. Answer in about 300 words.

Model thesis: Claim: India-first illustration starters. **Named evidence/example:** Before committing to a prompt, recall - do not invent - at least one Indian illustration per likely dimension: an institution, a policy episode, a well-known social pattern, or a documented event. If nothing comes to mind without forcing it, that is itself useful information about the prompt's risk (see topic 12 for the full verified-example discipline). **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Thesis options and selection. **Named evidence/example:** For each shortlisted prompt, draft one candidate thesis sentence before final choice - not a full outline. Choose the prompt whose thesis sentence is (a) a genuine claim, not a restatement of the prompt, (b) qualified (acknowledges a limit or condition), and (c) supportable by the illustrations recalled in Section 7. Full thesis-construction method in 05. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Advanced proposition and boundary. **Named evidence/example:** Proposition: topic choice is best modelled as a portfolio decision under time pressure - you are choosing the prompt with the best expected combination of thesis-clarity, dimension-depth and evidence-safety, not the prompt with the highest emotional appeal. Boundary: this topic does not itself decode any single prompt in depth (that is 02/03) or build a full argument map (05/08); it supplies the upstream selection logic those topics assume has already been run. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Concept definition and taxonomy. **Named evidence/example:** with visible strain (a warning sign under time pressure, not merely a stylistic weakness). **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS

topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Tension pairs and hidden assumptions. **Named evidence/example:** guarantees writing quality is unsafe - interest without a qualified thesis produces an enthusiastic but shapeless essay. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.

Claim -> named evidence -> analysis -> qualification:

- Before committing to a prompt, recall - do not invent - at least one Indian illustration per likely dimension: an institution, a policy episode, a well-known social pattern, or a documented event. If nothing comes to mind without forcing it, that is itself useful information about the prompt's risk (see topic 12 for the full verified-example discipline).
- For each shortlisted prompt, draft one candidate thesis sentence before final choice - not a full outline. Choose the prompt whose thesis sentence is (a) a genuine claim, not a restatement of the prompt, (b) qualified (acknowledges a limit or condition), and (c) supportable by the illustrations recalled in Section 7. Full thesis-construction method in 05.

ORIGINAL MAINS 6 - 20 MARKS

Question: Construct an examiner-ready answer architecture using Paper Rules, Choice and Selection. Answer in about 300 words.

Model thesis: Claim: Purpose and scope. **Named evidence/example:** This topic answers two questions before any writing begins: what does the paper actually require, and how should a candidate choose which of the eight-plus-eight displayed prompts to attempt? It does not teach decoding technique (see 02/03) or drafting technique (see 05-07) - it teaches the upstream decision that determines how easy those later steps will be. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Exam facts / source basis - 4. **Named evidence/example:** Section B at 1-4; 2025 continues Section B at 5-8. This folder's B5-B8 labels are an internal reference scheme, not the 2024 paper's printed numbers. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** The central idea and common misreading. **Named evidence/example:** Central idea: topic choice is a strategic decision made on the basis of thesis-fit, dimension count and evidence availability - not simple familiarity. Common misreading: picking a prompt because it sounds close to a favourite GS subject (e.g. choosing "Empires of the mind" purely because you like Science & Technology) without first checking whether you can actually form one qualified thesis and recall two or three safe illustrations for it. A topic that feels unfamiliar but decodes cleanly (most aphorisms do, once you apply 02) is frequently the safer choice. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** India-first illustration starters. **Named evidence/example:** Before committing to a prompt, recall - do not invent - at least one Indian illustration per likely dimension: an institution, a policy episode, a well-known social pattern, or a documented event. If nothing comes to mind without forcing it, that is itself useful information about the prompt's risk (see topic 12 for the full verified-example discipline). **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Tension pairs and hidden assumptions. **Named evidence/example:** guarantees writing quality is unsafe - interest without a qualified thesis produces an enthusiastic but shapeless essay. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Tension pairs and hidden assumptions - 2. **Named evidence/example:** stacking (fact lists) rather than argument; an unfamiliar aphorism forces argument-first thinking, which the paper actually rewards. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Tension pairs and hidden assumptions - 3. **Named evidence/example:** reverse mid-attempt; the hidden assumption in "just start writing" is that later correction is cheap - it is not, given the fixed time budget (13). **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Levels of analysis and temporal-spatial scale. **Named evidence/example:** Selection logic should be checked at three levels: (a) the sentence level - can the prompt's own words support a thesis without distortion; (b) the essay level - will 10-12 paragraphs (07) sustain interest and argument without repetition; (c) the exam level - does the choice, given your remaining time budget for both essays (13), still allow adequate planning and revision for the second essay. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.

Claim -> named evidence -> analysis -> qualification:

- This topic answers two questions before any writing begins: what does the paper actually require, and how should a candidate choose which of the eight-plus-eight displayed prompts to attempt? It does not teach decoding technique (see 02/03) or drafting technique (see 05-07) - it teaches the upstream decision that determines how

easy those later steps will be.

- Section B at 1-4; 2025 continues Section B at 5-8. This folder's B5-B8 labels are an internal reference scheme, not the 2024 paper's printed numbers.
- Central idea: topic choice is a strategic decision made on the basis of thesis-fit, dimension count and evidence availability - not simple familiarity. Common misreading: picking a prompt because it sounds close to a favourite GS subject (e.g. choosing "Empires of the mind" purely because you like Science & Technology) without first checking whether you can actually form one qualified thesis and recall two or three safe illustrations for it. A topic that feels unfamiliar but decodes cleanly (most aphorisms do, once you apply 02) is frequently the safer choice.
- Before committing to a prompt, recall - do not invent - at least one Indian illustration per likely dimension: an institution, a policy episode, a well-known social pattern, or a documented event. If nothing comes to mind without forcing it, that is itself useful information about the prompt's risk (see topic 12 for the full verified-example discipline).
- guarantees writing quality is unsafe - interest without a qualified thesis produces an enthusiastic but shapeless essay.
- stacking (fact lists) rather than argument; an unfamiliar aphorism forces argument-first thinking, which the paper actually rewards.
- reverse mid-attempt; the hidden assumption in "just start writing" is that later correction is cheap - it is not, given the fixed time budget (13).
- Selection logic should be checked at three levels: (a) the sentence level - can the prompt's own words support a thesis without distortion; (b) the essay level - will 10-12 paragraphs (07) sustain interest and argument without repetition; (c) the exam level - does the choice, given your remaining time budget for both essays (13), still allow adequate planning and revision for the second essay.

Qualified conclusion: Claim: Purpose and scope. **Named evidence/example:** This topic answers two questions before any writing begins: what does the paper actually require, and how should a candidate choose which of the eight-plus-eight displayed prompts to attempt? It does not teach decoding technique (see 02/03) or drafting technique (see 05-07) - it teaches the upstream decision that determines how easy those later steps will be. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Exam facts / source basis - 4. **Named evidence/example:** Section B at 1-4; 2025 continues Section B at 5-8. This folder's B5-B8 labels are an internal reference scheme, not the 2024 paper's printed numbers. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** The central idea and common misreading. **Named evidence/example:** Central idea: topic choice is a strategic decision made on the basis of thesis-fit, dimension count and evidence availability - not simple familiarity. Common misreading: picking a prompt because it sounds close to a favourite GS subject (e.g. choosing "Empires of the mind" purely because you like Science & Technology) without first checking whether you can actually form one qualified thesis and recall two or three safe illustrations for it. A topic that feels unfamiliar but decodes cleanly (most aphorisms do, once you apply 02) is frequently the safer choice. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** India-first illustration starters. **Named evidence/example:** Before committing to a prompt, recall - do not invent - at least one Indian illustration per likely dimension: an institution, a policy episode, a well-known social pattern, or a documented event. If nothing comes to mind without forcing it, that is itself useful information about the prompt's risk (see topic 12 for the full verified-example discipline). **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Tension pairs and hidden assumptions. **Named evidence/example:** guarantees writing quality is unsafe - interest without a qualified thesis produces an enthusiastic but shapeless essay. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Tension pairs and hidden assumptions - 2. **Named evidence/example:** stacking (fact lists)

rather than argument; an unfamiliar aphorism forces argument-first thinking, which the paper actually rewards.

Analysis: This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Tension pairs and hidden assumptions - 3. **Named evidence/example:** reverse mid-attempt; the hidden assumption in "just start writing" is that later correction is cheap - it is not, given the fixed time budget (13). **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Levels of analysis and temporal-spatial scale. **Named evidence/example:** Selection logic should be checked at three levels: (a) the sentence level - can the prompt's own words support a thesis without distortion; (b) the essay level - will 10-12 paragraphs (07) sustain interest and argument without repetition; (c) the exam level - does the choice, given your remaining time budget for both essays (13), still allow adequate planning and revision for the second essay. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.
