Ethical and Philosophical Frameworks and Value Conflicts - Learner-v2 Refreshed

UPSC complete learning session | Foundation to advanced | Concepts, evidence, practice and answer writing

Original deterministic study visual; labels are explanatory, not textual quotations.

Source order: repository knowledge -> official current linkage -> clearly marked analysis. No fabricated PYQs or statistics.

CONTENTS / WORKBOOK INDEX

Major learning parts and meaningful subtopics are listed in document order. Page numbers are generated from the final PDF layout; PDF bookmarks mirror the same hierarchy.

Ethical and Philosophical Frameworks and Value Conflicts - Solved Practice Workbook 6

BASIC MCQS / REMEDIATION 6

Q1. Which option applies Purpose and scope as an Essay-method distinction?	6
Q2. Which use of Purpose and scope stays closest to the printed prompt?	6
Q3. Which statement preserves the strategy-versus-official-rule boundary for Purpose and scope?	6
Q4. Which option avoids the standard Essay-method trap about Purpose and scope?	7
Q5. Which option applies Core terms in plain language as an Essay-method distinction?	7
Q6. Which use of Core terms in plain language stays closest to the printed prompt?	7
Q7. Which statement preserves the strategy-versus-official-rule boundary for Core terms in plain language?	7
Q8. Which option avoids the standard Essay-method trap about Core terms in plain language?	7
Q9. Which option applies Core terms in plain language - 2 as an Essay-method distinction?	8
Q10. Which use of Core terms in plain language - 2 stays closest to the printed prompt?	8
Q11. Which statement preserves the strategy-versus-official-rule boundary for Core terms in plain language - 2?	8
Q12. Which option avoids the standard Essay-method trap about Core terms in plain language - 2?	8
Q13. Which option applies Exam facts / source basis as an Essay-method distinction?	8
Q14. Which use of Exam facts / source basis stays closest to the printed prompt?	9
Q15. Which statement preserves the strategy-versus-official-rule boundary for Exam facts / source basis?	9
Q16. Which option avoids the standard Essay-method trap about Exam facts / source basis?	9
Q17. Which option applies The central idea and common misreading as an Essay-method distinction?	9
Q18. Which use of The central idea and common misreading stays closest to the printed prompt?	10
Q19. Which statement preserves the strategy-versus-official-rule boundary for The central idea and common misreading?	10
Q20. Which option avoids the standard Essay-method trap about The central idea and common misreading?	10
Q21. Which option applies Basic decomposition questions as an Essay-method distinction?	11
Q22. Which use of Basic decomposition questions stays closest to the printed prompt?	11
Q23. Which statement preserves the strategy-versus-official-rule boundary for Basic decomposition questions?	11
Q24. Which option avoids the standard Essay-method trap about Basic decomposition questions?	12
Q25. Which option applies India-first illustration starters as an Essay-method distinction?	12
Q26. Which use of India-first illustration starters stays closest to the printed prompt?	12
Q27. Which statement preserves the strategy-versus-official-rule boundary for India-first illustration starters?	13

Q28. Which option avoids the standard Essay-method trap about India-first illustration starters?	13
Q29. Which option applies Thesis options and selection as an Essay-method distinction?	13
Q30. Which use of Thesis options and selection stays closest to the printed prompt?	13
Q31. Which statement preserves the strategy-versus-official-rule boundary for Thesis options and selection?	14
Q32. Which option avoids the standard Essay-method trap about Thesis options and selection?	14
Q33. Which option applies Simple essay architecture as an Essay-method distinction?	14
Q34. Which use of Simple essay architecture stays closest to the printed prompt?	14
Q35. Which statement preserves the strategy-versus-official-rule boundary for Simple essay architecture?	15
Q36. Which option avoids the standard Essay-method trap about Simple essay architecture?	15
Q37. Which option applies Opening, body and closure moves as an Essay-method distinction?	15
Q38. Which use of Opening, body and closure moves stays closest to the printed prompt?	15
Q39. Which statement preserves the strategy-versus-official-rule boundary for Opening, body and closure moves?	16
Q40. Which option avoids the standard Essay-method trap about Opening, body and closure moves?	16
Q41. Which option applies Traps and repair moves as an Essay-method distinction?	16
Q42. Which use of Traps and repair moves stays closest to the printed prompt?	16
Q43. Which statement preserves the strategy-versus-official-rule boundary for Traps and repair moves?	17
Q44. Which option avoids the standard Essay-method trap about Traps and repair moves?	17
Q45. Which option applies Traps and repair moves - 2 as an Essay-method distinction?	17
Q46. Which use of Traps and repair moves - 2 stays closest to the printed prompt?	17
Q47. Which statement preserves the strategy-versus-official-rule boundary for Traps and repair moves - 2?	17
Q48. Which option avoids the standard Essay-method trap about Traps and repair moves - 2?	18
Q49. Which option applies Traps and repair moves - 3 as an Essay-method distinction?	18
Q50. Which use of Traps and repair moves - 3 stays closest to the printed prompt?	18
Q51. Which statement preserves the strategy-versus-official-rule boundary for Traps and repair moves - 3?	18
Q52. Which option avoids the standard Essay-method trap about Traps and repair moves - 3?	18
Q53. Which option applies Timed micro-drill and self-check as an Essay-method distinction?	19
Q54. Which use of Timed micro-drill and self-check stays closest to the printed prompt?	19
Q55. Which statement preserves the strategy-versus-official-rule boundary for Timed micro-drill and self-check?	19
Q56. Which option avoids the standard Essay-method trap about Timed micro-drill and self-check?	19
Q57. Which option applies Advanced proposition and boundary as an Essay-method distinction?	20
Q58. Which use of Advanced proposition and boundary stays closest to the printed prompt?	20
Q59. Which statement preserves the strategy-versus-official-rule boundary for Advanced proposition and boundary?	20

Q60. Which option avoids the standard Essay-method trap about Advanced proposition and boundary?	21
Q61. Which option applies Levels of analysis and temporal-spatial scale as an Essay-method distinction?	21
Q62. Which use of Levels of analysis and temporal-spatial scale stays closest to the printed prompt?	21
Q63. Which statement preserves the strategy-versus-official-rule boundary for Levels of analysis and temporal-spatial scale?	22
Q64. Which option avoids the standard Essay-method trap about Levels of analysis and temporal-spatial scale?	22
Q65. Which option applies Stakeholder map and distributional effects as an Essay-method distinction?	22
Q66. Which use of Stakeholder map and distributional effects stays closest to the printed prompt?	23
Q67. Which statement preserves the strategy-versus-official-rule boundary for Stakeholder map and distributional effects?	23
Q68. Which option avoids the standard Essay-method trap about Stakeholder map and distributional effects?	23
Q69. Which option applies Causality, mechanisms and feedback loops as an Essay-method distinction?	24
Q70. Which use of Causality, mechanisms and feedback loops stays closest to the printed prompt?	24
Q71. Which statement preserves the strategy-versus-official-rule boundary for Causality, mechanisms and feedback loops?	24
Q72. Which option avoids the standard Essay-method trap about Causality, mechanisms and feedback loops?	25
Q73. Which option applies Causality, mechanisms and feedback loops - 2 as an Essay-method distinction?	25
Q74. Which use of Causality, mechanisms and feedback loops - 2 stays closest to the printed prompt?	25
Q75. Which statement preserves the strategy-versus-official-rule boundary for Causality, mechanisms and feedback loops - 2?	25
Q76. Which option avoids the standard Essay-method trap about Causality, mechanisms and feedback loops - 2?	26
Q77. Which option applies Necessary/sufficient conditions and exceptions as an Essay-method distinction?	26
Q78. Which use of Necessary/sufficient conditions and exceptions stays closest to the printed prompt?	26
Q79. Which statement preserves the strategy-versus-official-rule boundary for Necessary/sufficient conditions and exceptions?	27
Q80. Which option avoids the standard Essay-method trap about Necessary/sufficient conditions and exceptions?	27

Ethical and Philosophical Frameworks and Value Conflicts - Solved Practice Workbook

BASIC MCQS / REMEDIATION

Q1. Which option applies Purpose and scope as an Essay-method distinction?

A. Several audited prompts compress a value conflict (accountability vs. autonomy, sufficiency vs. aspiration, restraint vs. intervention). This topic teaches how to name and resolve such conflicts as part of an essay argument - it does not reproduce the Ethics module's full theoretical apparatus (thinkers, schools, case studies), which remains that module's domain. B. Use Purpose and scope to add more headings or dimensions without testing coherence. C. Replace Purpose and scope with a familiar adjacent GS topic and maximise factual coverage. D. Treat Purpose and scope as a compulsory UPSC formula even when it distorts the prompt.

Answer: A. Explanation: Several audited prompts compress a value conflict (accountability vs. autonomy, sufficiency vs. aspiration, restraint vs. intervention). This topic teaches how to name and resolve such conflicts as part of an essay argument - it does not reproduce the Ethics module's full theoretical apparatus (thinkers, schools, case studies), which remains that module's domain. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q2. Which use of Purpose and scope stays closest to the printed prompt?

A. Apply Purpose and scope only after drafting, when topic drift can no longer be prevented. B. Several audited prompts compress a value conflict (accountability vs. autonomy, sufficiency vs. aspiration, restraint vs. intervention). This topic teaches how to name and resolve such conflicts as part of an essay argument - it does not reproduce the Ethics module's full theoretical apparatus (thinkers, schools, case studies), which remains that module's domain. C. Let a striking anecdote or quotation determine Purpose and scope regardless of thesis fit. D. Use Purpose and scope while dropping the prompt's operator, qualifier or scale.

Answer: B. Explanation: Several audited prompts compress a value conflict (accountability vs. autonomy, sufficiency vs. aspiration, restraint vs. intervention). This topic teaches how to name and resolve such conflicts as part of an essay argument - it does not reproduce the Ethics module's full theoretical apparatus (thinkers, schools, case studies), which remains that module's domain. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q3. Which statement preserves the strategy-versus-official-rule boundary for Purpose and scope?

A. Present Purpose and scope as an official marking rule rather than a pedagogical scaffold. B. Use Purpose and scope to avoid stating a serious counter-case or qualification. C. Several audited prompts compress a value conflict (accountability vs. autonomy, sufficiency vs. aspiration, restraint vs. intervention). This topic teaches how to name and resolve such conflicts as part of an essay argument - it does not reproduce the Ethics module's full theoretical apparatus (thinkers, schools, case studies), which remains that module's domain. D. Support Purpose and scope with an unverified statistic, attribution or current claim.

Answer: C. Explanation: Several audited prompts compress a value conflict (accountability vs. autonomy, sufficiency vs. aspiration, restraint vs. intervention). This topic teaches how to name and resolve such conflicts as part of an essay argument - it does not reproduce the Ethics module's full theoretical apparatus (thinkers, schools, case studies), which remains that module's domain. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q4. Which option avoids the standard Essay-method trap about Purpose and scope?

A. Allow an exception discovered through Purpose and scope to replace the central proposition. B. Silently tidy the printed prompt before applying Purpose and scope to make it easier to answer. C. Maximise the number of outputs produced by Purpose and scope, even if they repeat one claim. D. Several audited prompts compress a value conflict (accountability vs. autonomy, sufficiency vs. aspiration, restraint vs. intervention). This topic teaches how to name and resolve such conflicts as part of an essay argument - it does not reproduce the Ethics module's full theoretical apparatus (thinkers, schools, case studies), which remains that module's domain.

Answer: D. Explanation: Several audited prompts compress a value conflict (accountability vs. autonomy, sufficiency vs. aspiration, restraint vs. intervention). This topic teaches how to name and resolve such conflicts as part of an essay argument - it does not reproduce the Ethics module's full theoretical apparatus (thinkers, schools, case studies), which remains that module's domain. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q5. Which option applies Core terms in plain language as an Essay-method distinction?

A. precedence under a specified condition, with a stated reason - not an unqualified ranking. B. Treat Core terms in plain language as a compulsory UPSC formula even when it distorts the prompt. C. Use Core terms in plain language to add more headings or dimensions without testing coherence. D. Replace Core terms in plain language with a familiar adjacent GS topic and maximise factual coverage.

Answer: A. Explanation: precedence under a specified condition, with a stated reason - not an unqualified ranking. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q6. Which use of Core terms in plain language stays closest to the printed prompt?

A. Apply Core terms in plain language only after drafting, when topic drift can no longer be prevented. B. precedence under a specified condition, with a stated reason - not an unqualified ranking. C. Use Core terms in plain language while dropping the prompt's operator, qualifier or scale. D. Let a striking anecdote or quotation determine Core terms in plain language regardless of thesis fit.

Answer: B. Explanation: precedence under a specified condition, with a stated reason - not an unqualified ranking. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q7. Which statement preserves the strategy-versus-official-rule boundary for Core terms in plain language?

A. Present Core terms in plain language as an official marking rule rather than a pedagogical scaffold. B. Support Core terms in plain language with an unverified statistic, attribution or current claim. C. precedence under a specified condition, with a stated reason - not an unqualified ranking. D. Use Core terms in plain language to avoid stating a serious counter-case or qualification.

Answer: C. Explanation: precedence under a specified condition, with a stated reason - not an unqualified ranking. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q8. Which option avoids the standard Essay-method trap about Core terms in plain language?

A. Allow an exception discovered through Core terms in plain language to replace the central proposition. B. Silently tidy the printed prompt before applying Core terms in plain language to make it easier to answer. C. Maximise the number of outputs produced by Core terms in plain language, even if they repeat one claim. D. precedence under a specified condition, with a stated reason - not an unqualified ranking.

Answer: D. Explanation: precedence under a specified condition, with a stated reason - not an unqualified ranking. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q9. Which option applies Core terms in plain language - 2 as an Essay-method distinction?

A. Use a category only when it clarifies the prompt's actual tension; this is an essay lens, not a licence to list theories. B. Treat Core terms in plain language - 2 as a compulsory UPSC formula even when it distorts the prompt. C. Use Core terms in plain language - 2 to add more headings or dimensions without testing coherence. D. Replace Core terms in plain language - 2 with a familiar adjacent GS topic and maximise factual coverage.

Answer: A. Explanation: Use a category only when it clarifies the prompt's actual tension; this is an essay lens, not a licence to list theories. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q10. Which use of Core terms in plain language - 2 stays closest to the printed prompt?

A. Let a striking anecdote or quotation determine Core terms in plain language - 2 regardless of thesis fit. B. Use a category only when it clarifies the prompt's actual tension; this is an essay lens, not a licence to list theories. C. Apply Core terms in plain language - 2 only after drafting, when topic drift can no longer be prevented. D. Use Core terms in plain language - 2 while dropping the prompt's operator, qualifier or scale.

Answer: B. Explanation: Use a category only when it clarifies the prompt's actual tension; this is an essay lens, not a licence to list theories. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q11. Which statement preserves the strategy-versus-official-rule boundary for Core terms in plain language - 2?

A. Support Core terms in plain language - 2 with an unverified statistic, attribution or current claim. B. Present Core terms in plain language - 2 as an official marking rule rather than a pedagogical scaffold. C. Use a category only when it clarifies the prompt's actual tension; this is an essay lens, not a licence to list theories. D. Use Core terms in plain language - 2 to avoid stating a serious counter-case or qualification.

Answer: C. Explanation: Use a category only when it clarifies the prompt's actual tension; this is an essay lens, not a licence to list theories. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q12. Which option avoids the standard Essay-method trap about Core terms in plain language - 2?

A. Silently tidy the printed prompt before applying Core terms in plain language - 2 to make it easier to answer. B. Allow an exception discovered through Core terms in plain language - 2 to replace the central proposition. C. Maximise the number of outputs produced by Core terms in plain language - 2, even if they repeat one claim. D. Use a category only when it clarifies the prompt's actual tension; this is an essay lens, not a licence to list theories.

Answer: D. Explanation: Use a category only when it clarifies the prompt's actual tension; this is an essay lens, not a licence to list theories. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q13. Which option applies Exam facts / source basis as an Essay-method distinction?

A. (power vs. character/accountability), 2025-B8 (contentment vs. luxury/aspiration), 2025-B5 (restraint vs. intervention) - see ../README.md for exact wording. B. Treat Exam facts / source basis as a compulsory UPSC formula even when it distorts the prompt. C. Use Exam facts / source basis to add more headings or dimensions without testing coherence. D. Replace Exam facts / source basis with a familiar adjacent GS topic and maximise factual coverage.

Answer: A. Explanation: (power vs. character/accountability), 2025-B8 (contentment vs. luxury/aspiration), 2025-B5 (restraint vs. intervention) - see ../README.md for exact wording. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q14. Which use of Exam facts / source basis stays closest to the printed prompt?

A. Apply Exam facts / source basis only after drafting, when topic drift can no longer be prevented. B. (power vs. character/accountability), 2025-B8 (contentment vs. luxury/aspiration), 2025-B5 (restraint vs. intervention) - see ../README.md for exact wording. C. Let a striking anecdote or quotation determine Exam facts / source basis regardless of thesis fit. D. Use Exam facts / source basis while dropping the prompt's operator, qualifier or scale.

Answer: B. Explanation: (power vs. character/accountability), 2025-B8 (contentment vs. luxury/aspiration), 2025-B5 (restraint vs. intervention) - see ../README.md for exact wording. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q15. Which statement preserves the strategy-versus-official-rule boundary for Exam facts / source basis?

A. Use Exam facts / source basis to avoid stating a serious counter-case or qualification. B. Support Exam facts / source basis with an unverified statistic, attribution or current claim. C. (power vs. character/accountability), 2025-B8 (contentment vs. luxury/aspiration), 2025-B5 (restraint vs. intervention) - see ../README.md for exact wording. D. Present Exam facts / source basis as an official marking rule rather than a pedagogical scaffold.

Answer: C. Explanation: (power vs. character/accountability), 2025-B8 (contentment vs. luxury/aspiration), 2025-B5 (restraint vs. intervention) - see ../README.md for exact wording. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q16. Which option avoids the standard Essay-method trap about Exam facts / source basis?

A. Maximise the number of outputs produced by Exam facts / source basis, even if they repeat one claim. B. Silently tidy the printed prompt before applying Exam facts / source basis to make it easier to answer. C. Allow an exception discovered through Exam facts / source basis to replace the central proposition. D. (power vs. character/accountability), 2025-B8 (contentment vs. luxury/aspiration), 2025-B5 (restraint vs. intervention) - see ../README.md for exact wording.

Answer: D. Explanation: (power vs. character/accountability), 2025-B8 (contentment vs. luxury/aspiration), 2025-B5 (restraint vs. intervention) - see ../README.md for exact wording. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q17. Which option applies The central idea and common misreading as an Essay-method distinction?

A. Central idea: name the values in genuine tension explicitly, then state a reasoned, conditional priority - this is more persuasive than either ignoring the conflict or asserting one value is simply "right." Common misreading: dropping a philosopher's name (e.g. "as [thinker] said") as decoration without actually using their reasoning to do analytical work - this reads as ornamental rather than substantive. B. Treat The central idea and common misreading as a compulsory UPSC formula even when it distorts the prompt. C. Replace The central idea and common misreading with a familiar adjacent GS topic and maximise factual coverage. D. Use The central idea and common misreading to add more headings or dimensions without testing coherence.

Answer: A. Explanation: Central idea: name the values in genuine tension explicitly, then state a reasoned, conditional priority - this is more persuasive than either ignoring the conflict or asserting one value is simply "right." Common misreading: dropping a philosopher's name (e.g. "as [thinker] said") as decoration without actually using their reasoning to do analytical work - this reads as ornamental rather than substantive. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q18. Which use of The central idea and common misreading stays closest to the printed prompt?

A. Apply The central idea and common misreading only after drafting, when topic drift can no longer be prevented. B. Central idea: name the values in genuine tension explicitly, then state a reasoned, conditional priority - this is more persuasive than either ignoring the conflict or asserting one value is simply "right." Common misreading: dropping a philosopher's name (e.g. "as [thinker] said") as decoration without actually using their reasoning to do analytical work - this reads as ornamental rather than substantive. C. Use The central idea and common misreading while dropping the prompt's operator, qualifier or scale. D. Let a striking anecdote or quotation determine The central idea and common misreading regardless of thesis fit.

Answer: B. Explanation: Central idea: name the values in genuine tension explicitly, then state a reasoned, conditional priority - this is more persuasive than either ignoring the conflict or asserting one value is simply "right." Common misreading: dropping a philosopher's name (e.g. "as [thinker] said") as decoration without actually using their reasoning to do analytical work - this reads as ornamental rather than substantive. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q19. Which statement preserves the strategy-versus-official-rule boundary for The central idea and common misreading?

A. Support The central idea and common misreading with an unverified statistic, attribution or current claim. B. Present The central idea and common misreading as an official marking rule rather than a pedagogical scaffold. C. Central idea: name the values in genuine tension explicitly, then state a reasoned, conditional priority - this is more persuasive than either ignoring the conflict or asserting one value is simply "right." Common misreading: dropping a philosopher's name (e.g. "as [thinker] said") as decoration without actually using their reasoning to do analytical work - this reads as ornamental rather than substantive. D. Use The central idea and common misreading to avoid stating a serious counter-case or qualification.

Answer: C. Explanation: Central idea: name the values in genuine tension explicitly, then state a reasoned, conditional priority - this is more persuasive than either ignoring the conflict or asserting one value is simply "right." Common misreading: dropping a philosopher's name (e.g. "as [thinker] said") as decoration without actually using their reasoning to do analytical work - this reads as ornamental rather than substantive. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q20. Which option avoids the standard Essay-method trap about The central idea and common misreading?

A. Allow an exception discovered through The central idea and common misreading to replace the central proposition. B. Maximise the number of outputs produced by The central idea and common misreading, even if they repeat one claim. C. Silently tidy the printed prompt before applying The central idea and common misreading to make it easier to answer. D. Central idea: name the values in genuine tension explicitly, then state a reasoned, conditional priority - this is more persuasive than either ignoring the conflict or asserting one value is simply "right." Common misreading: dropping a philosopher's name (e.g. "as [thinker] said") as decoration without actually using their reasoning to do analytical work - this reads as ornamental rather than substantive.

Answer: D. Explanation: Central idea: name the values in genuine tension explicitly, then state a reasoned, conditional priority - this is more persuasive than either ignoring the conflict or asserting one value is simply "right." Common misreading: dropping a philosopher's name (e.g. "as [thinker] said") as decoration without actually using their reasoning to do analytical work - this reads as ornamental rather than substantive. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q21. Which option applies Basic decomposition questions as an Essay-method distinction?

A. 1. What two values does this prompt place in tension? 2. Is there a scale or context where one value should generally take priority, and why? 3. Is there a scale or context where the other value should prevail instead? 4. Can I state my reasoned priority in one sentence, with its condition attached? 5. Does my resolution avoid treating either value as simply wrong? 6. Voiceless-stakeholder test: whose interests are not represented in the immediate choice - future generations, an excluded group, or a non-human system - and would the priority change if its cost were counted? B. Treat Basic decomposition questions as a compulsory UPSC formula even when it distorts the prompt. C. Use Basic decomposition questions to add more headings or dimensions without testing coherence. D. Replace Basic decomposition questions with a familiar adjacent GS topic and maximise factual coverage.

Answer: A. Explanation: 1. What two values does this prompt place in tension? 2. Is there a scale or context where one value should generally take priority, and why? 3. Is there a scale or context where the other value should prevail instead? 4. Can I state my reasoned priority in one sentence, with its condition attached? 5. Does my resolution avoid treating either value as simply wrong? 6. Voiceless-stakeholder test: whose interests are not represented in the immediate choice - future generations, an excluded group, or a non-human system - and would the priority change if its cost were counted? The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q22. Which use of Basic decomposition questions stays closest to the printed prompt?

A. Use Basic decomposition questions while dropping the prompt's operator, qualifier or scale. B. 1. What two values does this prompt place in tension? 2. Is there a scale or context where one value should generally take priority, and why? 3. Is there a scale or context where the other value should prevail instead? 4. Can I state my reasoned priority in one sentence, with its condition attached? 5. Does my resolution avoid treating either value as simply wrong? 6. Voiceless-stakeholder test: whose interests are not represented in the immediate choice - future generations, an excluded group, or a non-human system - and would the priority change if its cost were counted? C. Let a striking anecdote or quotation determine Basic decomposition questions regardless of thesis fit. D. Apply Basic decomposition questions only after drafting, when topic drift can no longer be prevented.

Answer: B. Explanation: 1. What two values does this prompt place in tension? 2. Is there a scale or context where one value should generally take priority, and why? 3. Is there a scale or context where the other value should prevail instead? 4. Can I state my reasoned priority in one sentence, with its condition attached? 5. Does my resolution avoid treating either value as simply wrong? 6. Voiceless-stakeholder test: whose interests are not represented in the immediate choice - future generations, an excluded group, or a non-human system - and would the priority change if its cost were counted? The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q23. Which statement preserves the strategy-versus-official-rule boundary for Basic decomposition questions?

A. Use Basic decomposition questions to avoid stating a serious counter-case or qualification. B. Support Basic decomposition questions with an unverified statistic, attribution or current claim. C. 1. What two values does this prompt place in tension? 2. Is there a scale or context where one value should generally take priority, and why? 3. Is there a scale or context where the other value should prevail instead? 4. Can I state my reasoned priority in one sentence, with its condition attached? 5. Does my resolution avoid treating either value as simply wrong? 6. Voiceless-stakeholder test: whose interests are not represented in the immediate choice - future generations, an excluded group, or a non-human system - and would the priority change if its cost were counted? D. Present Basic decomposition questions as an official marking rule rather than a pedagogical scaffold.

Answer: C. Explanation: 1. What two values does this prompt place in tension? 2. Is there a scale or context where one value should generally take priority, and why? 3. Is there a scale or context where the other value should prevail instead? 4. Can I state my reasoned priority in one sentence, with its condition attached? 5. Does my resolution avoid treating either value as simply wrong? 6. Voiceless-stakeholder test: whose interests are not represented in the immediate choice - future generations, an excluded group, or a non-human system - and would the priority change if its cost were counted? The other options convert a

qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q24. Which option avoids the standard Essay-method trap about Basic decomposition questions?

A. Silently tidy the printed prompt before applying Basic decomposition questions to make it easier to answer. B. Maximise the number of outputs produced by Basic decomposition questions, even if they repeat one claim. C. Allow an exception discovered through Basic decomposition questions to replace the central proposition. D. 1. What two values does this prompt place in tension? 2. Is there a scale or context where one value should generally take priority, and why? 3. Is there a scale or context where the other value should prevail instead? 4. Can I state my reasoned priority in one sentence, with its condition attached? 5. Does my resolution avoid treating either value as simply wrong? 6. Voiceless-stakeholder test: whose interests are not represented in the immediate choice - future generations, an excluded group, or a non-human system - and would the priority change if its cost were counted?

Answer: D. Explanation: 1. What two values does this prompt place in tension? 2. Is there a scale or context where one value should generally take priority, and why? 3. Is there a scale or context where the other value should prevail instead? 4. Can I state my reasoned priority in one sentence, with its condition attached? 5. Does my resolution avoid treating either value as simply wrong? 6. Voiceless-stakeholder test: whose interests are not represented in the immediate choice - future generations, an excluded group, or a non-human system - and would the priority change if its cost were counted? The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q25. Which option applies India-first illustration starters as an Essay-method distinction?

A. Recall one Indian illustration per value-conflict resolution - e.g. a documented instance of institutional accountability constraining discretionary power, or a documented public debate on consumption and sufficiency. Full discipline: 12. B. Use India-first illustration starters to add more headings or dimensions without testing coherence. C. Treat India-first illustration starters as a compulsory UPSC formula even when it distorts the prompt. D. Replace India-first illustration starters with a familiar adjacent GS topic and maximise factual coverage.

Answer: A. Explanation: Recall one Indian illustration per value-conflict resolution - e.g. a documented instance of institutional accountability constraining discretionary power, or a documented public debate on consumption and sufficiency. Full discipline: 12. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q26. Which use of India-first illustration starters stays closest to the printed prompt?

A. Apply India-first illustration starters only after drafting, when topic drift can no longer be prevented. B. Recall one Indian illustration per value-conflict resolution - e.g. a documented instance of institutional accountability constraining discretionary power, or a documented public debate on consumption and sufficiency. Full discipline: 12. C. Let a striking anecdote or quotation determine India-first illustration starters regardless of thesis fit. D. Use India-first illustration starters while dropping the prompt's operator, qualifier or scale.

Answer: B. Explanation: Recall one Indian illustration per value-conflict resolution - e.g. a documented instance of institutional accountability constraining discretionary power, or a documented public debate on consumption and sufficiency. Full discipline: 12. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q27. Which statement preserves the strategy-versus-official-rule boundary for India-first illustration starters?

A. Support India-first illustration starters with an unverified statistic, attribution or current claim. B. Present India-first illustration starters as an official marking rule rather than a pedagogical scaffold. C. Recall one Indian illustration per value-conflict resolution - e.g. a documented instance of institutional accountability constraining discretionary power, or a documented public debate on consumption and sufficiency. Full discipline: 12. D. Use India-first illustration starters to avoid stating a serious counter-case or qualification.

Answer: C. Explanation: Recall one Indian illustration per value-conflict resolution - e.g. a documented instance of institutional accountability constraining discretionary power, or a documented public debate on consumption and sufficiency. Full discipline: 12. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q28. Which option avoids the standard Essay-method trap about India-first illustration starters?

A. Allow an exception discovered through India-first illustration starters to replace the central proposition. B. Silently tidy the printed prompt before applying India-first illustration starters to make it easier to answer. C. Maximise the number of outputs produced by India-first illustration starters, even if they repeat one claim. D. Recall one Indian illustration per value-conflict resolution - e.g. a documented instance of institutional accountability constraining discretionary power, or a documented public debate on consumption and sufficiency. Full discipline: 12.

Answer: D. Explanation: Recall one Indian illustration per value-conflict resolution - e.g. a documented instance of institutional accountability constraining discretionary power, or a documented public debate on consumption and sufficiency. Full discipline: 12. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q29. Which option applies Thesis options and selection as an Essay-method distinction?

A. A thesis built on a reasoned, conditional priority (Section 6) is usually stronger than one that treats the conflict as fully resolved in one direction - see 05 for converting this into a full thesis sentence. B. Use Thesis options and selection to add more headings or dimensions without testing coherence. C. Treat Thesis options and selection as a compulsory UPSC formula even when it distorts the prompt. D. Replace Thesis options and selection with a familiar adjacent GS topic and maximise factual coverage.

Answer: A. Explanation: A thesis built on a reasoned, conditional priority (Section 6) is usually stronger than one that treats the conflict as fully resolved in one direction - see 05 for converting this into a full thesis sentence. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q30. Which use of Thesis options and selection stays closest to the printed prompt?

A. Apply Thesis options and selection only after drafting, when topic drift can no longer be prevented. B. A thesis built on a reasoned, conditional priority (Section 6) is usually stronger than one that treats the conflict as fully resolved in one direction - see 05 for converting this into a full thesis sentence. C. Let a striking anecdote or quotation determine Thesis options and selection regardless of thesis fit. D. Use Thesis options and selection while dropping the prompt's operator, qualifier or scale.

Answer: B. Explanation: A thesis built on a reasoned, conditional priority (Section 6) is usually stronger than one that treats the conflict as fully resolved in one direction - see 05 for converting this into a full thesis sentence. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q31. Which statement preserves the strategy-versus-official-rule boundary for Thesis options and selection?

A. Support Thesis options and selection with an unverified statistic, attribution or current claim. B. Use Thesis options and selection to avoid stating a serious counter-case or qualification. C. A thesis built on a reasoned, conditional priority (Section 6) is usually stronger than one that treats the conflict as fully resolved in one direction - see 05 for converting this into a full thesis sentence. D. Present Thesis options and selection as an official marking rule rather than a pedagogical scaffold.

Answer: C. Explanation: A thesis built on a reasoned, conditional priority (Section 6) is usually stronger than one that treats the conflict as fully resolved in one direction - see 05 for converting this into a full thesis sentence. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q32. Which option avoids the standard Essay-method trap about Thesis options and selection?

A. Allow an exception discovered through Thesis options and selection to replace the central proposition. B. Maximise the number of outputs produced by Thesis options and selection, even if they repeat one claim. C. Silently tidy the printed prompt before applying Thesis options and selection to make it easier to answer. D. A thesis built on a reasoned, conditional priority (Section 6) is usually stronger than one that treats the conflict as fully resolved in one direction - see 05 for converting this into a full thesis sentence.

Answer: D. Explanation: A thesis built on a reasoned, conditional priority (Section 6) is usually stronger than one that treats the conflict as fully resolved in one direction - see 05 for converting this into a full thesis sentence. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q33. Which option applies Simple essay architecture as an Essay-method distinction?

A. Dedicate one paragraph to naming the conflict, one or two to developing each value's legitimate claim, and one to the reasoned priority/synthesis - see 07 for exact sequencing within the wider essay. B. Treat Simple essay architecture as a compulsory UPSC formula even when it distorts the prompt. C. Use Simple essay architecture to add more headings or dimensions without testing coherence. D. Replace Simple essay architecture with a familiar adjacent GS topic and maximise factual coverage.

Answer: A. Explanation: Dedicate one paragraph to naming the conflict, one or two to developing each value's legitimate claim, and one to the reasoned priority/synthesis - see 07 for exact sequencing within the wider essay. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q34. Which use of Simple essay architecture stays closest to the printed prompt?

A. Apply Simple essay architecture only after drafting, when topic drift can no longer be prevented. B. Dedicate one paragraph to naming the conflict, one or two to developing each value's legitimate claim, and one to the reasoned priority/synthesis - see 07 for exact sequencing within the wider essay. C. Use Simple essay architecture while dropping the prompt's operator, qualifier or scale. D. Let a striking anecdote or quotation determine Simple essay architecture regardless of thesis fit.

Answer: B. Explanation: Dedicate one paragraph to naming the conflict, one or two to developing each value's legitimate claim, and one to the reasoned priority/synthesis - see 07 for exact sequencing within the wider essay. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q35. Which statement preserves the strategy-versus-official-rule boundary for Simple essay architecture?

A. Support Simple essay architecture with an unverified statistic, attribution or current claim. B. Present Simple essay architecture as an official marking rule rather than a pedagogical scaffold. C. Dedicate one paragraph to naming the conflict, one or two to developing each value's legitimate claim, and one to the reasoned priority/synthesis - see 07 for exact sequencing within the wider essay. D. Use Simple essay architecture to avoid stating a serious counter-case or qualification.

Answer: C. Explanation: Dedicate one paragraph to naming the conflict, one or two to developing each value's legitimate claim, and one to the reasoned priority/synthesis - see 07 for exact sequencing within the wider essay. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q36. Which option avoids the standard Essay-method trap about Simple essay architecture?

A. Maximise the number of outputs produced by Simple essay architecture, even if they repeat one claim. B. Silently tidy the printed prompt before applying Simple essay architecture to make it easier to answer. C. Allow an exception discovered through Simple essay architecture to replace the central proposition. D. Dedicate one paragraph to naming the conflict, one or two to developing each value's legitimate claim, and one to the reasoned priority/synthesis - see 07 for exact sequencing within the wider essay.

Answer: D. Explanation: Dedicate one paragraph to naming the conflict, one or two to developing each value's legitimate claim, and one to the reasoned priority/synthesis - see 07 for exact sequencing within the wider essay. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q37. Which option applies Opening, body and closure moves as an Essay-method distinction?

A. Avoid opening or closing with a bare philosopher's name; instead state the value conflict in plain language, and let any thinker's reasoning (used sparingly, only where genuinely apt) support a specific paragraph's claim rather than serve as decoration. B. Replace Opening, body and closure moves with a familiar adjacent GS topic and maximise factual coverage. C. Treat Opening, body and closure moves as a compulsory UPSC formula even when it distorts the prompt. D. Use Opening, body and closure moves to add more headings or dimensions without testing coherence.

Answer: A. Explanation: Avoid opening or closing with a bare philosopher's name; instead state the value conflict in plain language, and let any thinker's reasoning (used sparingly, only where genuinely apt) support a specific paragraph's claim rather than serve as decoration. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q38. Which use of Opening, body and closure moves stays closest to the printed prompt?

A. Use Opening, body and closure moves while dropping the prompt's operator, qualifier or scale. B. Avoid opening or closing with a bare philosopher's name; instead state the value conflict in plain language, and let any thinker's reasoning (used sparingly, only where genuinely apt) support a specific paragraph's claim rather than serve as decoration. C. Apply Opening, body and closure moves only after drafting, when topic drift can no longer be prevented. D. Let a striking anecdote or quotation determine Opening, body and closure moves regardless of thesis fit.

Answer: B. Explanation: Avoid opening or closing with a bare philosopher's name; instead state the value conflict in plain language, and let any thinker's reasoning (used sparingly, only where genuinely apt) support a specific paragraph's claim rather than serve as decoration. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q39. Which statement preserves the strategy-versus-official-rule boundary for Opening, body and closure moves?

A. Use Opening, body and closure moves to avoid stating a serious counter-case or qualification. B. Support Opening, body and closure moves with an unverified statistic, attribution or current claim. C. Avoid opening or closing with a bare philosopher's name; instead state the value conflict in plain language, and let any thinker's reasoning (used sparingly, only where genuinely apt) support a specific paragraph's claim rather than serve as decoration. D. Present Opening, body and closure moves as an official marking rule rather than a pedagogical scaffold.

Answer: C. Explanation: Avoid opening or closing with a bare philosopher's name; instead state the value conflict in plain language, and let any thinker's reasoning (used sparingly, only where genuinely apt) support a specific paragraph's claim rather than serve as decoration. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q40. Which option avoids the standard Essay-method trap about Opening, body and closure moves?

A. Silently tidy the printed prompt before applying Opening, body and closure moves to make it easier to answer. B. Maximise the number of outputs produced by Opening, body and closure moves, even if they repeat one claim. C. Allow an exception discovered through Opening, body and closure moves to replace the central proposition. D. Avoid opening or closing with a bare philosopher's name; instead state the value conflict in plain language, and let any thinker's reasoning (used sparingly, only where genuinely apt) support a specific paragraph's claim rather than serve as decoration.

Answer: D. Explanation: Avoid opening or closing with a bare philosopher's name; instead state the value conflict in plain language, and let any thinker's reasoning (used sparingly, only where genuinely apt) support a specific paragraph's claim rather than serve as decoration. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q41. Which option applies Traps and repair moves as an Essay-method distinction?

A. Repair: either explain the specific mechanism/reasoning briefly, or drop the name and state the point in plain language. B. Treat Traps and repair moves as a compulsory UPSC formula even when it distorts the prompt. C. Use Traps and repair moves to add more headings or dimensions without testing coherence. D. Replace Traps and repair moves with a familiar adjacent GS topic and maximise factual coverage.

Answer: A. Explanation: Repair: either explain the specific mechanism/reasoning briefly, or drop the name and state the point in plain language. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q42. Which use of Traps and repair moves stays closest to the printed prompt?

A. Apply Traps and repair moves only after drafting, when topic drift can no longer be prevented. B. Repair: either explain the specific mechanism/reasoning briefly, or drop the name and state the point in plain language. C. Let a striking anecdote or quotation determine Traps and repair moves regardless of thesis fit. D. Use Traps and repair moves while dropping the prompt's operator, qualifier or scale.

Answer: B. Explanation: Repair: either explain the specific mechanism/reasoning briefly, or drop the name and state the point in plain language. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q43. Which statement preserves the strategy-versus-official-rule boundary for Traps and repair moves?

A. Support Traps and repair moves with an unverified statistic, attribution or current claim. B. Use Traps and repair moves to avoid stating a serious counter-case or qualification. C. Repair: either explain the specific mechanism/reasoning briefly, or drop the name and state the point in plain language. D. Present Traps and repair moves as an official marking rule rather than a pedagogical scaffold.

Answer: C. Explanation: Repair: either explain the specific mechanism/reasoning briefly, or drop the name and state the point in plain language. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q44. Which option avoids the standard Essay-method trap about Traps and repair moves?

A. Silently tidy the printed prompt before applying Traps and repair moves to make it easier to answer. B. Allow an exception discovered through Traps and repair moves to replace the central proposition. C. Maximise the number of outputs produced by Traps and repair moves, even if they repeat one claim. D. Repair: either explain the specific mechanism/reasoning briefly, or drop the name and state the point in plain language.

Answer: D. Explanation: Repair: either explain the specific mechanism/reasoning briefly, or drop the name and state the point in plain language. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q45. Which option applies Traps and repair moves - 2 as an Essay-method distinction?

A. required content. -> Repair: use only what the argument needs; for deeper theory, point to the Ethics module rather than reproducing it. B. Treat Traps and repair moves - 2 as a compulsory UPSC formula even when it distorts the prompt. C. Replace Traps and repair moves - 2 with a familiar adjacent GS topic and maximise factual coverage. D. Use Traps and repair moves - 2 to add more headings or dimensions without testing coherence.

Answer: A. Explanation: required content. -> Repair: use only what the argument needs; for deeper theory, point to the Ethics module rather than reproducing it. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q46. Which use of Traps and repair moves - 2 stays closest to the printed prompt?

A. Use Traps and repair moves - 2 while dropping the prompt's operator, qualifier or scale. B. required content. -> Repair: use only what the argument needs; for deeper theory, point to the Ethics module rather than reproducing it. C. Let a striking anecdote or quotation determine Traps and repair moves - 2 regardless of thesis fit. D. Apply Traps and repair moves - 2 only after drafting, when topic drift can no longer be prevented.

Answer: B. Explanation: required content. -> Repair: use only what the argument needs; for deeper theory, point to the Ethics module rather than reproducing it. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q47. Which statement preserves the strategy-versus-official-rule boundary for Traps and repair moves - 2?

A. Use Traps and repair moves - 2 to avoid stating a serious counter-case or qualification. B. Support Traps and repair moves - 2 with an unverified statistic, attribution or current claim. C. required content. -> Repair: use only what the argument needs; for deeper theory, point to the Ethics module rather than reproducing it. D. Present Traps and repair moves - 2 as an official marking rule rather than a pedagogical scaffold.

Answer: C. Explanation: required content. -> Repair: use only what the argument needs; for deeper theory, point to the Ethics module rather than reproducing it. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q48. Which option avoids the standard Essay-method trap about Traps and repair moves - 2?

A. Maximise the number of outputs produced by Traps and repair moves - 2, even if they repeat one claim. B. Allow an exception discovered through Traps and repair moves - 2 to replace the central proposition. C. Silently tidy the printed prompt before applying Traps and repair moves - 2 to make it easier to answer. D. required content. -> Repair: use only what the argument needs; for deeper theory, point to the Ethics module rather than reproducing it.

Answer: D. Explanation: required content. -> Repair: use only what the argument needs; for deeper theory, point to the Ethics module rather than reproducing it. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q49. Which option applies Traps and repair moves - 3 as an Essay-method distinction?

A. the specific values or the condition. -> Repair: always name both values and the specific condition governing priority. B. Use Traps and repair moves - 3 to add more headings or dimensions without testing coherence. C. Replace Traps and repair moves - 3 with a familiar adjacent GS topic and maximise factual coverage. D. Treat Traps and repair moves - 3 as a compulsory UPSC formula even when it distorts the prompt.

Answer: A. Explanation: the specific values or the condition. -> Repair: always name both values and the specific condition governing priority. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q50. Which use of Traps and repair moves - 3 stays closest to the printed prompt?

A. Apply Traps and repair moves - 3 only after drafting, when topic drift can no longer be prevented. B. the specific values or the condition. -> Repair: always name both values and the specific condition governing priority. C. Let a striking anecdote or quotation determine Traps and repair moves - 3 regardless of thesis fit. D. Use Traps and repair moves - 3 while dropping the prompt's operator, qualifier or scale.

Answer: B. Explanation: the specific values or the condition. -> Repair: always name both values and the specific condition governing priority. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q51. Which statement preserves the strategy-versus-official-rule boundary for Traps and repair moves - 3?

A. Use Traps and repair moves - 3 to avoid stating a serious counter-case or qualification. B. Present Traps and repair moves - 3 as an official marking rule rather than a pedagogical scaffold. C. the specific values or the condition. -> Repair: always name both values and the specific condition governing priority. D. Support Traps and repair moves - 3 with an unverified statistic, attribution or current claim.

Answer: C. Explanation: the specific values or the condition. -> Repair: always name both values and the specific condition governing priority. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q52. Which option avoids the standard Essay-method trap about Traps and repair moves - 3?

A. Silently tidy the printed prompt before applying Traps and repair moves - 3 to make it easier to answer. B. Allow an exception discovered through Traps and repair moves - 3 to replace the central proposition. C. Maximise the number of outputs produced by Traps and repair moves - 3, even if they repeat one claim. D. the specific values or the condition. -> Repair: always name both values and the specific condition governing priority.

Answer: D. Explanation: the specific values or the condition. -> Repair: always name both values and the specific condition governing priority. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q53. Which option applies Timed micro-drill and self-check as an Essay-method distinction?

A. 5-minute drill: For any prompt with a value conflict (Section 6), write: the two values, one condition favouring each, and a one-sentence reasoned priority. B. Use Timed micro-drill and self-check to add more headings or dimensions without testing coherence. C. Treat Timed micro-drill and self-check as a compulsory UPSC formula even when it distorts the prompt. D. Replace Timed micro-drill and self-check with a familiar adjacent GS topic and maximise factual coverage.

Answer: A. Explanation: 5-minute drill: For any prompt with a value conflict (Section 6), write: the two values, one condition favouring each, and a one-sentence reasoned priority. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q54. Which use of Timed micro-drill and self-check stays closest to the printed prompt?

A. Let a striking anecdote or quotation determine Timed micro-drill and self-check regardless of thesis fit. B. 5-minute drill: For any prompt with a value conflict (Section 6), write: the two values, one condition favouring each, and a one-sentence reasoned priority. C. Use Timed micro-drill and self-check while dropping the prompt's operator, qualifier or scale. D. Apply Timed micro-drill and self-check only after drafting, when topic drift can no longer be prevented.

Answer: B. Explanation: 5-minute drill: For any prompt with a value conflict (Section 6), write: the two values, one condition favouring each, and a one-sentence reasoned priority. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q55. Which statement preserves the strategy-versus-official-rule boundary for Timed micro-drill and self-check?

A. Use Timed micro-drill and self-check to avoid stating a serious counter-case or qualification. B. Support Timed micro-drill and self-check with an unverified statistic, attribution or current claim. C. 5-minute drill: For any prompt with a value conflict (Section 6), write: the two values, one condition favouring each, and a one-sentence reasoned priority. D. Present Timed micro-drill and self-check as an official marking rule rather than a pedagogical scaffold.

Answer: C. Explanation: 5-minute drill: For any prompt with a value conflict (Section 6), write: the two values, one condition favouring each, and a one-sentence reasoned priority. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q56. Which option avoids the standard Essay-method trap about Timed micro-drill and self-check?

A. Allow an exception discovered through Timed micro-drill and self-check to replace the central proposition. B. Maximise the number of outputs produced by Timed micro-drill and self-check, even if they repeat one claim. C. Silently tidy the printed prompt before applying Timed micro-drill and self-check to make it easier to answer. D. 5-minute drill: For any prompt with a value conflict (Section 6), write: the two values, one condition favouring each, and a one-sentence reasoned priority.

Answer: D. Explanation: 5-minute drill: For any prompt with a value conflict (Section 6), write: the two values, one condition favouring each, and a one-sentence reasoned priority. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q57. Which option applies Advanced proposition and boundary as an Essay-method distinction?

A. Proposition: Core 10 supplies the compact category card, voiceless-stakeholder test and one worked paragraph. This companion keeps the harder task: a value conflict is resolved analytically, not rhetorically - by naming the specific ethical categories in tension (rights, welfare, dignity, fairness, care, ecological responsibility) and stating the condition under which each should govern, rather than by asserting a general "balance." Boundary: this topic does not teach the Ethics module's full case-study or thinker-biography machinery - it supplies the essay-specific value-conflict method that draws lightly on that module as a lens. B. Replace Advanced proposition and boundary with a familiar adjacent GS topic and maximise factual coverage. C. Treat Advanced proposition and boundary as a compulsory UPSC formula even when it distorts the prompt. D. Use Advanced proposition and boundary to add more headings or dimensions without testing coherence.

Answer: A. Explanation: Proposition: Core 10 supplies the compact category card, voiceless-stakeholder test and one worked paragraph. This companion keeps the harder task: a value conflict is resolved analytically, not rhetorically - by naming the specific ethical categories in tension (rights, welfare, dignity, fairness, care, ecological responsibility) and stating the condition under which each should govern, rather than by asserting a general "balance." Boundary: this topic does not teach the Ethics module's full case-study or thinker-biography machinery - it supplies the essay-specific value-conflict method that draws lightly on that module as a lens. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q58. Which use of Advanced proposition and boundary stays closest to the printed prompt?

A. Let a striking anecdote or quotation determine Advanced proposition and boundary regardless of thesis fit. B. Proposition: Core 10 supplies the compact category card, voiceless-stakeholder test and one worked paragraph. This companion keeps the harder task: a value conflict is resolved analytically, not rhetorically - by naming the specific ethical categories in tension (rights, welfare, dignity, fairness, care, ecological responsibility) and stating the condition under which each should govern, rather than by asserting a general "balance." Boundary: this topic does not teach the Ethics module's full case-study or thinker-biography machinery - it supplies the essay-specific value-conflict method that draws lightly on that module as a lens. C. Apply Advanced proposition and boundary only after drafting, when topic drift can no longer be prevented. D. Use Advanced proposition and boundary while dropping the prompt's operator, qualifier or scale.

Answer: B. Explanation: Proposition: Core 10 supplies the compact category card, voiceless-stakeholder test and one worked paragraph. This companion keeps the harder task: a value conflict is resolved analytically, not rhetorically - by naming the specific ethical categories in tension (rights, welfare, dignity, fairness, care, ecological responsibility) and stating the condition under which each should govern, rather than by asserting a general "balance." Boundary: this topic does not teach the Ethics module's full case-study or thinker-biography machinery - it supplies the essay-specific value-conflict method that draws lightly on that module as a lens. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q59. Which statement preserves the strategy-versus-official-rule boundary for Advanced proposition and boundary?

A. Support Advanced proposition and boundary with an unverified statistic, attribution or current claim. B. Use Advanced proposition and boundary to avoid stating a serious counter-case or qualification. C. Proposition: Core 10 supplies the compact category card, voiceless-stakeholder test and one worked paragraph. This companion keeps the harder task: a value conflict is resolved analytically, not rhetorically - by naming the specific ethical categories in tension (rights, welfare, dignity, fairness, care, ecological responsibility) and stating the condition under which each should govern, rather than by asserting a general "balance." Boundary: this topic does not teach the Ethics module's full case-study or thinker-biography machinery - it supplies the essay-specific value-conflict method that draws lightly on that module as a lens. D. Present Advanced proposition and boundary as an official marking rule rather than a pedagogical scaffold.

Answer: C. Explanation: Proposition: Core 10 supplies the compact category card, voiceless-stakeholder test and one worked paragraph. This companion keeps the harder task: a value conflict is resolved analytically, not rhetorically - by naming the specific ethical categories in tension (rights, welfare, dignity, fairness, care,

ecological responsibility) and stating the condition under which each should govern, rather than by asserting a general "balance." Boundary: this topic does not teach the Ethics module's full case-study or thinker-biography machinery - it supplies the essay-specific value-conflict method that draws lightly on that module as a lens. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q60. Which option avoids the standard Essay-method trap about Advanced proposition and boundary?

A. Maximise the number of outputs produced by Advanced proposition and boundary, even if they repeat one claim. B. Silently tidy the printed prompt before applying Advanced proposition and boundary to make it easier to answer. C. Allow an exception discovered through Advanced proposition and boundary to replace the central proposition. D. Proposition: Core 10 supplies the compact category card, voiceless-stakeholder test and one worked paragraph. This companion keeps the harder task: a value conflict is resolved analytically, not rhetorically - by naming the specific ethical categories in tension (rights, welfare, dignity, fairness, care, ecological responsibility) and stating the condition under which each should govern, rather than by asserting a general "balance." Boundary: this topic does not teach the Ethics module's full case-study or thinker-biography machinery - it supplies the essay-specific value-conflict method that draws lightly on that module as a lens.

Answer: D. Explanation: Proposition: Core 10 supplies the compact category card, voiceless-stakeholder test and one worked paragraph. This companion keeps the harder task: a value conflict is resolved analytically, not rhetorically - by naming the specific ethical categories in tension (rights, welfare, dignity, fairness, care, ecological responsibility) and stating the condition under which each should govern, rather than by asserting a general "balance." Boundary: this topic does not teach the Ethics module's full case-study or thinker-biography machinery - it supplies the essay-specific value-conflict method that draws lightly on that module as a lens. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q61. Which option applies Levels of analysis and temporal-spatial scale as an Essay-method distinction?

A. Ethical categories operate differently by scale: dignity and rights are most directly assessed at the individual level; fairness and welfare scale naturally to institutional and state policy; ecological responsibility is inherently intergenerational and often global. An advanced essay should state explicitly which scale it is reasoning at when invoking a given category, rather than shifting scale silently mid-argument. B. Replace Levels of analysis and temporal-spatial scale with a familiar adjacent GS topic and maximise factual coverage. C. Treat Levels of analysis and temporal-spatial scale as a compulsory UPSC formula even when it distorts the prompt. D. Use Levels of analysis and temporal-spatial scale to add more headings or dimensions without testing coherence.

Answer: A. Explanation: Ethical categories operate differently by scale: dignity and rights are most directly assessed at the individual level; fairness and welfare scale naturally to institutional and state policy; ecological responsibility is inherently intergenerational and often global. An advanced essay should state explicitly which scale it is reasoning at when invoking a given category, rather than shifting scale silently mid-argument. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q62. Which use of Levels of analysis and temporal-spatial scale stays closest to the printed prompt?

A. Apply Levels of analysis and temporal-spatial scale only after drafting, when topic drift can no longer be prevented. B. Ethical categories operate differently by scale: dignity and rights are most directly assessed at the individual level; fairness and welfare scale naturally to institutional and state policy; ecological responsibility is inherently intergenerational and often global. An advanced essay should state explicitly which scale it is reasoning at when invoking a given category, rather than shifting scale silently mid-argument. C. Let a striking anecdote or quotation determine Levels of analysis and temporal-spatial scale regardless of thesis fit. D. Use Levels of analysis and temporal-spatial scale while dropping the prompt's operator, qualifier or scale.

Answer: B. Explanation: Ethical categories operate differently by scale: dignity and rights are most directly assessed at the individual level; fairness and welfare scale naturally to institutional and state policy; ecological responsibility is inherently intergenerational and often global. An advanced essay should state explicitly which scale it is reasoning at when invoking a given category, rather than shifting scale silently mid-argument. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q63. Which statement preserves the strategy-versus-official-rule boundary for Levels of analysis and temporal-spatial scale?

A. Use Levels of analysis and temporal-spatial scale to avoid stating a serious counter-case or qualification. B. Present Levels of analysis and temporal-spatial scale as an official marking rule rather than a pedagogical scaffold. C. Ethical categories operate differently by scale: dignity and rights are most directly assessed at the individual level; fairness and welfare scale naturally to institutional and state policy; ecological responsibility is inherently intergenerational and often global. An advanced essay should state explicitly which scale it is reasoning at when invoking a given category, rather than shifting scale silently mid-argument. D. Support Levels of analysis and temporal-spatial scale with an unverified statistic, attribution or current claim.

Answer: C. Explanation: Ethical categories operate differently by scale: dignity and rights are most directly assessed at the individual level; fairness and welfare scale naturally to institutional and state policy; ecological responsibility is inherently intergenerational and often global. An advanced essay should state explicitly which scale it is reasoning at when invoking a given category, rather than shifting scale silently mid-argument. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q64. Which option avoids the standard Essay-method trap about Levels of analysis and temporal-spatial scale?

A. Silently tidy the printed prompt before applying Levels of analysis and temporal-spatial scale to make it easier to answer. B. Allow an exception discovered through Levels of analysis and temporal-spatial scale to replace the central proposition. C. Maximise the number of outputs produced by Levels of analysis and temporal-spatial scale, even if they repeat one claim. D. Ethical categories operate differently by scale: dignity and rights are most directly assessed at the individual level; fairness and welfare scale naturally to institutional and state policy; ecological responsibility is inherently intergenerational and often global. An advanced essay should state explicitly which scale it is reasoning at when invoking a given category, rather than shifting scale silently mid-argument.

Answer: D. Explanation: Ethical categories operate differently by scale: dignity and rights are most directly assessed at the individual level; fairness and welfare scale naturally to institutional and state policy; ecological responsibility is inherently intergenerational and often global. An advanced essay should state explicitly which scale it is reasoning at when invoking a given category, rather than shifting scale silently mid-argument. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q65. Which option applies Stakeholder map and distributional effects as an Essay-method distinction?

A. For each value conflict, map which stakeholder group is advantaged by prioritising each category - e.g. for 2024-A1, prioritising immediate welfare (development) advantages the present generation, while prioritising ecological responsibility advantages future generations and ecosystems with no current voice. Naming this asymmetry (who is represented, who is not) strengthens the synthesis. B. Treat Stakeholder map and distributional effects as a compulsory UPSC formula even when it distorts the prompt. C. Use Stakeholder map and distributional effects to add more headings or dimensions without testing coherence. D. Replace Stakeholder map and distributional effects with a familiar adjacent GS topic and maximise factual coverage.

Answer: A. Explanation: For each value conflict, map which stakeholder group is advantaged by prioritising each category - e.g. for 2024-A1, prioritising immediate welfare (development) advantages the present generation, while prioritising ecological responsibility advantages future generations and ecosystems with no current voice. Naming this asymmetry (who is represented, who is not) strengthens the synthesis. The

other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q66. Which use of Stakeholder map and distributional effects stays closest to the printed prompt?

A. Use Stakeholder map and distributional effects while dropping the prompt's operator, qualifier or scale. B. For each value conflict, map which stakeholder group is advantaged by prioritising each category - e.g. for 2024-A1, prioritising immediate welfare (development) advantages the present generation, while prioritising ecological responsibility advantages future generations and ecosystems with no current voice. Naming this asymmetry (who is represented, who is not) strengthens the synthesis. C. Apply Stakeholder map and distributional effects only after drafting, when topic drift can no longer be prevented. D. Let a striking anecdote or quotation determine Stakeholder map and distributional effects regardless of thesis fit.

Answer: B. Explanation: For each value conflict, map which stakeholder group is advantaged by prioritising each category - e.g. for 2024-A1, prioritising immediate welfare (development) advantages the present generation, while prioritising ecological responsibility advantages future generations and ecosystems with no current voice. Naming this asymmetry (who is represented, who is not) strengthens the synthesis. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q67. Which statement preserves the strategy-versus-official-rule boundary for Stakeholder map and distributional effects?

A. Use Stakeholder map and distributional effects to avoid stating a serious counter-case or qualification. B. Present Stakeholder map and distributional effects as an official marking rule rather than a pedagogical scaffold. C. For each value conflict, map which stakeholder group is advantaged by prioritising each category - e.g. for 2024-A1, prioritising immediate welfare (development) advantages the present generation, while prioritising ecological responsibility advantages future generations and ecosystems with no current voice. Naming this asymmetry (who is represented, who is not) strengthens the synthesis. D. Support Stakeholder map and distributional effects with an unverified statistic, attribution or current claim.

Answer: C. Explanation: For each value conflict, map which stakeholder group is advantaged by prioritising each category - e.g. for 2024-A1, prioritising immediate welfare (development) advantages the present generation, while prioritising ecological responsibility advantages future generations and ecosystems with no current voice. Naming this asymmetry (who is represented, who is not) strengthens the synthesis. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q68. Which option avoids the standard Essay-method trap about Stakeholder map and distributional effects?

A. Silently tidy the printed prompt before applying Stakeholder map and distributional effects to make it easier to answer. B. Maximise the number of outputs produced by Stakeholder map and distributional effects, even if they repeat one claim. C. Allow an exception discovered through Stakeholder map and distributional effects to replace the central proposition. D. For each value conflict, map which stakeholder group is advantaged by prioritising each category - e.g. for 2024-A1, prioritising immediate welfare (development) advantages the present generation, while prioritising ecological responsibility advantages future generations and ecosystems with no current voice. Naming this asymmetry (who is represented, who is not) strengthens the synthesis.

Answer: D. Explanation: For each value conflict, map which stakeholder group is advantaged by prioritising each category - e.g. for 2024-A1, prioritising immediate welfare (development) advantages the present generation, while prioritising ecological responsibility advantages future generations and ecosystems with no current voice. Naming this asymmetry (who is represented, who is not) strengthens the synthesis. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q69. Which option applies Causality, mechanisms and feedback loops as an Essay-method distinction?

- A. NAME THE TWO ETHICAL CATEGORIES IN TENSION v STATE EACH CATEGORY'S STRONGEST CLAIM (not a straw version) v IDENTIFY THE CONDITION under which one should generally govern (threshold, scale, reversibility, whose voice is represented) v STATE THE REASONED, CONDITIONAL PRIORITY v CHECK: does the priority still hold if the stakeholder without present voice (future generations, excluded groups) is given weight? B. Replace Causality, mechanisms and feedback loops with a familiar adjacent GS topic and maximise factual coverage. C. Treat Causality, mechanisms and feedback loops as a compulsory UPSC formula even when it distorts the prompt. D. Use Causality, mechanisms and feedback loops to add more headings or dimensions without testing coherence.

Answer: A. Explanation: NAME THE TWO ETHICAL CATEGORIES IN TENSION v STATE EACH CATEGORY'S STRONGEST CLAIM (not a straw version) v IDENTIFY THE CONDITION under which one should generally govern (threshold, scale, reversibility, whose voice is represented) v STATE THE REASONED, CONDITIONAL PRIORITY v CHECK: does the priority still hold if the stakeholder without present voice (future generations, excluded groups) is given weight? The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q70. Which use of Causality, mechanisms and feedback loops stays closest to the printed prompt?

- A. Apply Causality, mechanisms and feedback loops only after drafting, when topic drift can no longer be prevented. B. NAME THE TWO ETHICAL CATEGORIES IN TENSION v STATE EACH CATEGORY'S STRONGEST CLAIM (not a straw version) v IDENTIFY THE CONDITION under which one should generally govern (threshold, scale, reversibility, whose voice is represented) v STATE THE REASONED, CONDITIONAL PRIORITY v CHECK: does the priority still hold if the stakeholder without present voice (future generations, excluded groups) is given weight? C. Let a striking anecdote or quotation determine Causality, mechanisms and feedback loops regardless of thesis fit. D. Use Causality, mechanisms and feedback loops while dropping the prompt's operator, qualifier or scale.

Answer: B. Explanation: NAME THE TWO ETHICAL CATEGORIES IN TENSION v STATE EACH CATEGORY'S STRONGEST CLAIM (not a straw version) v IDENTIFY THE CONDITION under which one should generally govern (threshold, scale, reversibility, whose voice is represented) v STATE THE REASONED, CONDITIONAL PRIORITY v CHECK: does the priority still hold if the stakeholder without present voice (future generations, excluded groups) is given weight? The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q71. Which statement preserves the strategy-versus-official-rule boundary for Causality, mechanisms and feedback loops?

- A. Present Causality, mechanisms and feedback loops as an official marking rule rather than a pedagogical scaffold. B. Use Causality, mechanisms and feedback loops to avoid stating a serious counter-case or qualification. C. NAME THE TWO ETHICAL CATEGORIES IN TENSION v STATE EACH CATEGORY'S STRONGEST CLAIM (not a straw version) v IDENTIFY THE CONDITION under which one should generally govern (threshold, scale, reversibility, whose voice is represented) v STATE THE REASONED, CONDITIONAL PRIORITY v CHECK: does the priority still hold if the stakeholder without present voice (future generations, excluded groups) is given weight? D. Support Causality, mechanisms and feedback loops with an unverified statistic, attribution or current claim.

Answer: C. Explanation: NAME THE TWO ETHICAL CATEGORIES IN TENSION v STATE EACH CATEGORY'S STRONGEST CLAIM (not a straw version) v IDENTIFY THE CONDITION under which one should generally govern (threshold, scale, reversibility, whose voice is represented) v STATE THE REASONED, CONDITIONAL PRIORITY v CHECK: does the priority still hold if the stakeholder without present voice (future generations, excluded groups) is given weight? The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q72. Which option avoids the standard Essay-method trap about Causality, mechanisms and feedback loops?

A. Maximise the number of outputs produced by Causality, mechanisms and feedback loops, even if they repeat one claim. B. Silently tidy the printed prompt before applying Causality, mechanisms and feedback loops to make it easier to answer. C. Allow an exception discovered through Causality, mechanisms and feedback loops to replace the central proposition. D. NAME THE TWO ETHICAL CATEGORIES IN TENSION v STATE EACH CATEGORY'S STRONGEST CLAIM (not a straw version) v IDENTIFY THE CONDITION under which one should generally govern (threshold, scale, reversibility, whose voice is represented) v STATE THE REASONED, CONDITIONAL PRIORITY v CHECK: does the priority still hold if the stakeholder without present voice (future generations, excluded groups) is given weight?

Answer: D. Explanation: NAME THE TWO ETHICAL CATEGORIES IN TENSION v STATE EACH CATEGORY'S STRONGEST CLAIM (not a straw version) v IDENTIFY THE CONDITION under which one should generally govern (threshold, scale, reversibility, whose voice is represented) v STATE THE REASONED, CONDITIONAL PRIORITY v CHECK: does the priority still hold if the stakeholder without present voice (future generations, excluded groups) is given weight? The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q73. Which option applies Causality, mechanisms and feedback loops - 2 as an Essay-method distinction?

A. The final feedback check (representing otherwise-silent stakeholders) is what distinguishes an advanced ethical resolution from a merely plausible-sounding one. B. Replace Causality, mechanisms and feedback loops - 2 with a familiar adjacent GS topic and maximise factual coverage. C. Treat Causality, mechanisms and feedback loops - 2 as a compulsory UPSC formula even when it distorts the prompt. D. Use Causality, mechanisms and feedback loops - 2 to add more headings or dimensions without testing coherence.

Answer: A. Explanation: The final feedback check (representing otherwise-silent stakeholders) is what distinguishes an advanced ethical resolution from a merely plausible-sounding one. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q74. Which use of Causality, mechanisms and feedback loops - 2 stays closest to the printed prompt?

A. Use Causality, mechanisms and feedback loops - 2 while dropping the prompt's operator, qualifier or scale. B. The final feedback check (representing otherwise-silent stakeholders) is what distinguishes an advanced ethical resolution from a merely plausible-sounding one. C. Apply Causality, mechanisms and feedback loops - 2 only after drafting, when topic drift can no longer be prevented. D. Let a striking anecdote or quotation determine Causality, mechanisms and feedback loops - 2 regardless of thesis fit.

Answer: B. Explanation: The final feedback check (representing otherwise-silent stakeholders) is what distinguishes an advanced ethical resolution from a merely plausible-sounding one. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q75. Which statement preserves the strategy-versus-official-rule boundary for Causality, mechanisms and feedback loops - 2?

A. Support Causality, mechanisms and feedback loops - 2 with an unverified statistic, attribution or current claim. B. Use Causality, mechanisms and feedback loops - 2 to avoid stating a serious counter-case or qualification. C. The final feedback check (representing otherwise-silent stakeholders) is what distinguishes an advanced ethical resolution from a merely plausible-sounding one. D. Present Causality, mechanisms and feedback loops - 2 as an official marking rule rather than a pedagogical scaffold.

Answer: C. Explanation: The final feedback check (representing otherwise-silent stakeholders) is what distinguishes an advanced ethical resolution from a merely plausible-sounding one. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q76. Which option avoids the standard Essay-method trap about Causality, mechanisms and feedback loops - 2?

A. Silently tidy the printed prompt before applying Causality, mechanisms and feedback loops - 2 to make it easier to answer. B. Allow an exception discovered through Causality, mechanisms and feedback loops - 2 to replace the central proposition. C. Maximise the number of outputs produced by Causality, mechanisms and feedback loops - 2, even if they repeat one claim. D. The final feedback check (representing otherwise-silent stakeholders) is what distinguishes an advanced ethical resolution from a merely plausible-sounding one.

Answer: D. Explanation: The final feedback check (representing otherwise-silent stakeholders) is what distinguishes an advanced ethical resolution from a merely plausible-sounding one. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q77. Which option applies Necessary/sufficient conditions and exceptions as an Essay-method distinction?

A. Naming the ethical categories precisely is necessary for a rigorous resolution but not sufficient - the resolution must also survive the stakeholder check (Section 6's final step). Exception: for prompts where the value conflict is minor or resolved quickly by the prompt's own logic (e.g. 2024-A4's doubt/denialism distinction), an extended multi-category ethical analysis may be disproportionate - use only the depth the argument genuinely needs. B. Treat Necessary/sufficient conditions and exceptions as a compulsory UPSC formula even when it distorts the prompt. C. Use Necessary/sufficient conditions and exceptions to add more headings or dimensions without testing coherence. D. Replace Necessary/sufficient conditions and exceptions with a familiar adjacent GS topic and maximise factual coverage.

Answer: A. Explanation: Naming the ethical categories precisely is necessary for a rigorous resolution but not sufficient - the resolution must also survive the stakeholder check (Section 6's final step). Exception: for prompts where the value conflict is minor or resolved quickly by the prompt's own logic (e.g. 2024-A4's doubt/denialism distinction), an extended multi-category ethical analysis may be disproportionate - use only the depth the argument genuinely needs. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q78. Which use of Necessary/sufficient conditions and exceptions stays closest to the printed prompt?

A. Let a striking anecdote or quotation determine Necessary/sufficient conditions and exceptions regardless of thesis fit. B. Naming the ethical categories precisely is necessary for a rigorous resolution but not sufficient - the resolution must also survive the stakeholder check (Section 6's final step). Exception: for prompts where the value conflict is minor or resolved quickly by the prompt's own logic (e.g. 2024-A4's doubt/denialism distinction), an extended multi-category ethical analysis may be disproportionate - use only the depth the argument genuinely needs. C. Apply Necessary/sufficient conditions and exceptions only after drafting, when topic drift can no longer be prevented. D. Use Necessary/sufficient conditions and exceptions while dropping the prompt's operator, qualifier or scale.

Answer: B. Explanation: Naming the ethical categories precisely is necessary for a rigorous resolution but not sufficient - the resolution must also survive the stakeholder check (Section 6's final step). Exception: for prompts where the value conflict is minor or resolved quickly by the prompt's own logic (e.g. 2024-A4's doubt/denialism distinction), an extended multi-category ethical analysis may be disproportionate - use only the depth the argument genuinely needs. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q79. Which statement preserves the strategy-versus-official-rule boundary for Necessary/sufficient conditions and exceptions?

A. Support Necessary/sufficient conditions and exceptions with an unverified statistic, attribution or current claim. B. Present Necessary/sufficient conditions and exceptions as an official marking rule rather than a pedagogical scaffold. C. Naming the ethical categories precisely is necessary for a rigorous resolution but not sufficient - the resolution must also survive the stakeholder check (Section 6's final step). Exception: for prompts where the value conflict is minor or resolved quickly by the prompt's own logic (e.g. 2024-A4's doubt/denialism distinction), an extended multi-category ethical analysis may be disproportionate - use only the depth the argument genuinely needs. D. Use Necessary/sufficient conditions and exceptions to avoid stating a serious counter-case or qualification.

Answer: C. Explanation: Naming the ethical categories precisely is necessary for a rigorous resolution but not sufficient - the resolution must also survive the stakeholder check (Section 6's final step). Exception: for prompts where the value conflict is minor or resolved quickly by the prompt's own logic (e.g. 2024-A4's doubt/denialism distinction), an extended multi-category ethical analysis may be disproportionate - use only the depth the argument genuinely needs. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

Q80. Which option avoids the standard Essay-method trap about Necessary/sufficient conditions and exceptions?

A. Maximise the number of outputs produced by Necessary/sufficient conditions and exceptions, even if they repeat one claim. B. Allow an exception discovered through Necessary/sufficient conditions and exceptions to replace the central proposition. C. Silently tidy the printed prompt before applying Necessary/sufficient conditions and exceptions to make it easier to answer. D. Naming the ethical categories precisely is necessary for a rigorous resolution but not sufficient - the resolution must also survive the stakeholder check (Section 6's final step). Exception: for prompts where the value conflict is minor or resolved quickly by the prompt's own logic (e.g. 2024-A4's doubt/denialism distinction), an extended multi-category ethical analysis may be disproportionate - use only the depth the argument genuinely needs.

Answer: D. Explanation: Naming the ethical categories precisely is necessary for a rigorous resolution but not sufficient - the resolution must also survive the stakeholder check (Section 6's final step). Exception: for prompts where the value conflict is minor or resolved quickly by the prompt's own logic (e.g. 2024-A4's doubt/denialism distinction), an extended multi-category ethical analysis may be disproportionate - use only the depth the argument genuinely needs. The other options convert a qualified writing method into an official formula, permit topic drift, or reward quantity without coherence and evidence safety.

PYQS AND ANSWER PRACTICE

AUDITED TOPIC-SPECIFIC PYQ OWNERSHIP

Three application cards use the repository's explicit V1/V2 status. No unavailable official model answer, marking rubric or attribution is invented.

PYQ DEMAND CARD 1 - 2025-B8 Essay

Demand: Contentment is natural wealth; luxury is artificial poverty.

Status: Exact V1 wording from a local official paper.

Model solution: Working thesis: Contentment frees desire from endless comparison and can support ethical sufficiency, while luxury becomes poverty when possession enlarges dependence and ecological cost; nevertheless, contentment must not romanticise deprivation. **Inner freedom:** Contentment distinguishes enough from endless accumulation and reduces status anxiety. **Dignity floor:** Food, health, shelter, education and security are conditions of agency, not dispensable luxuries. **Consumption:** Competitive display converts wants into obligations and erodes autonomy. **Inequality:** Conspicuous luxury can coexist with unmet basic capability and weaken social trust. **Counter-view:** Innovation, comfort and aspiration are not inherently corrupt; the problem is excess detached from social and ecological responsibility. This is a repository-authored answer route, not an official model answer.

PYQ DEMAND CARD 2 - 2013-4 Essay

Demand: Science and Technology is the panacea for the growth and security of the nation.

Status: V2 carried-forward practice wording; re-check before verbatim use.

Model solution: Working thesis: Science and technology are powerful multipliers of growth and security, but never a panacea: outcomes depend on institutions, skills, equity, ecological limits and democratic accountability.

Productivity: Research and innovation can improve agriculture, industry, logistics and public services. **Human**

capability: Education and public health determine whether technology becomes broadly usable. **National security:**

Space, cyber, communications and surveillance capacities require legal and strategic restraint. **Employment:**

Automation can displace tasks even as new sectors emerge, making reskilling and social protection essential.

Counter-view: Technological solutionism can shift risk, centralise power and distract from political or distributive causes. This is a repository-authored answer route, not an official model answer.

PYQ DEMAND CARD 3 - 2025-B6 Essay

Demand: The years teach much which the days never know.

Status: Exact V1 wording from a local official paper.

Model solution: Working thesis: Time can convert events into understanding by revealing patterns, consequences and perspective, but age alone does not teach; experience becomes wisdom only through memory, reflection and willingness to revise. **Perspective:** Distance separates durable significance from the urgency of a single day.

Institutions: Conventions and constitutional practices reveal their value across repeated stress. **History:** Long

sequences expose unintended consequences hidden from contemporary actors. **Character:** Repeated choices form habits that isolated intention cannot display. **Counter-view:** Years can also harden prejudice, and young insight may

perceive injustice that established experience has normalised. This is a repository-authored answer route, not an official model answer.

COMPLETE MODEL ESSAYS

COMPLETE MODEL ESSAY 1 - 2025-B8

Prompt: Contentment is natural wealth; luxury is artificial poverty.

Verification: V1 - directly verified from a local official UPSC paper.

Model essay (972 words):

"Contentment is natural wealth; luxury is artificial poverty." is not a decorative slogan but a proposition about how human choices, institutions and consequences relate. Contentment frees desire from endless comparison and can support ethical sufficiency, while luxury becomes poverty when possession enlarges dependence and ecological cost; nevertheless, contentment must not romanticise deprivation. This reading keeps the discussion centred on the prompt while using duty, consequence, virtue, justice, care, liberty, dignity, conflict as a method rather than as visible scaffolding.

At the level of the person, **inner freedom** clarifies the proposition. Contentment distinguishes enough from endless accumulation and reduces status anxiety. A useful illustration is India's constitutional commitment to justice, liberty, equality and fraternity; its value lies not in name-dropping but in showing how an idea becomes capability, incentive, restraint or exclusion. Yet the illustration must remain proportionate: it supports this part of the argument and cannot by itself prove a universal claim. The paragraph therefore returns to the central thesis and prepares the next change of scale.

The personal insight becomes social, **dignity floor** clarifies the proposition. Food, health, shelter, education and security are conditions of agency, not dispensable luxuries. A useful illustration is the constitutional commitment to dignity together with WHO's recognition of health as a fundamental right; its value lies not in name-dropping but in showing how an idea becomes capability, incentive, restraint or exclusion. Yet the illustration must remain proportionate: it supports this part of the argument and cannot by itself prove a universal claim. The paragraph therefore returns to the central thesis and prepares the next change of scale.

Institutions then determine, **consumption** clarifies the proposition. Competitive display converts wants into obligations and erodes autonomy. A useful illustration is India's educational, scientific and public-health institutions; its value lies

not in name-dropping but in showing how an idea becomes capability, incentive, restraint or exclusion. Yet the illustration must remain proportionate: it supports this part of the argument and cannot by itself prove a universal claim. The paragraph therefore returns to the central thesis and prepares the next change of scale.

The argument also changes across time, **inequality** clarifies the proposition. Conspicuous luxury can coexist with unmet basic capability and weaken social trust. A useful illustration is India's self-help-group and cooperative experience, which converts association into practical capability; its value lies not in name-dropping but in showing how an idea becomes capability, incentive, restraint or exclusion. Yet the illustration must remain proportionate: it supports this part of the argument and cannot by itself prove a universal claim. The paragraph therefore returns to the central thesis and prepares the next change of scale.

An Indian and democratic perspective adds, **ecology** clarifies the proposition. Sufficiency reduces pressure on finite resources and future generations. A useful illustration is the Chipko tradition of community stewardship and the IPCC's evidence-led climate-risk framework; its value lies not in name-dropping but in showing how an idea becomes capability, incentive, restraint or exclusion. Yet the illustration must remain proportionate: it supports this part of the argument and cannot by itself prove a universal claim. The paragraph therefore returns to the central thesis and prepares the next change of scale.

The widest test is ethical and intergenerational, **development** clarifies the proposition. Public policy should expand capabilities rather than prescribe asceticism to the poor. A useful illustration is India's educational, scientific and public-health institutions; its value lies not in name-dropping but in showing how an idea becomes capability, incentive, restraint or exclusion. Yet the illustration must remain proportionate: it supports this part of the argument and cannot by itself prove a universal claim. The paragraph therefore returns to the central thesis and prepares the next change of scale.

A serious essay must now confront the strongest objection. Innovation, comfort and aspiration are not inherently corrupt; the problem is excess detached from social and ecological responsibility. This objection deserves to be stated in its strongest form because a weak caricature produces only a ceremonial rebuttal. It changes the argument by identifying the condition under which the prompt fails, becomes incomplete or generates unequal costs. The response is therefore not to abandon the thesis, but to qualify its reach, specify safeguards and distinguish a defensible principle from its simplistic imitation.

The synthesis follows from that qualification. Individual agency matters, but institutions shape the options within which agency operates. Material capacity matters, but dignity and justice determine whether capacity is worthwhile. National action matters, but ecological and international interdependence prevent self-contained solutions. This is why GS knowledge must enter the essay as analysed evidence rather than as a catalogue of constitutional articles, schemes, reports or sectors.

India makes this synthesis concrete because diversity, unequal capability and democratic aspiration coexist at every scale. The Constitution's language of justice, liberty, equality and fraternity supplies a normative direction, but constitutional vocabulary earns its place only when the essay explains a mechanism: how rights restrain power, how public capability widens agency, how local participation corrects distant administration, or how scientific temper enables revision. Likewise, an example from social reform, cooperative action, public health, education, technology or ecology should illuminate one claim rather than stand as a miniature GS note. This discipline allows an India-centric essay to remain reflective and universal without becoming abstract, celebratory or scheme-heavy. It also preserves balance by connecting aspiration to capacity, rights to remedies, and public purpose to accountable implementation.

Natural wealth lies in capable, connected and sufficient lives; luxury becomes poverty only when abundance owns the person, excludes the neighbour and mortgages the future. The prompt is thus neither accepted as an absolute nor dissolved into a balanced list. Its insight survives in a more precise form: one that connects character with institutions, freedom with responsibility, innovation with justice, and present action with the future. That sustained central argument gives the essay coherence, while careful evidence, transitions and qualification give it credibility.

ORIGINAL MAINS 1 - 10 MARKS

Question: Define the core writing problem in Ethical and Philosophical Frameworks and Value Conflicts. Answer in about 150 words.

Model thesis: **Claim:** Purpose and scope. **Named evidence/example:** Several audited prompts compress a value conflict (accountability vs. autonomy, sufficiency vs. aspiration, restraint vs. intervention). This topic teaches how to name and resolve such conflicts as part of an essay argument - it does not reproduce the Ethics module's full theoretical apparatus (thinkers, schools, case studies), which remains that module's domain. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Core terms in plain language. **Named evidence/example:** precedence under a specified condition, with a stated reason - not an unqualified ranking. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.

Claim -> named evidence -> analysis -> qualification:

- Several audited prompts compress a value conflict (accountability vs. autonomy, sufficiency vs. aspiration, restraint vs. intervention). This topic teaches how to name and resolve such conflicts as part of an essay argument - it does not reproduce the Ethics module's full theoretical apparatus (thinkers, schools, case studies), which remains that module's domain.
- precedence under a specified condition, with a stated reason - not an unqualified ranking.

Qualified conclusion: **Claim:** Purpose and scope. **Named evidence/example:** Several audited prompts compress a value conflict (accountability vs. autonomy, sufficiency vs. aspiration, restraint vs. intervention). This topic teaches how to name and resolve such conflicts as part of an essay argument - it does not reproduce the Ethics module's full theoretical apparatus (thinkers, schools, case studies), which remains that module's domain. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Core terms in plain language. **Named evidence/example:** precedence under a specified condition, with a stated reason - not an unqualified ranking. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.

ORIGINAL MAINS 2 - 10 MARKS

Question: Distinguish the valid method from its closest misuse in Ethical and Philosophical Frameworks and Value Conflicts. Answer in about 150 words.

Model thesis: **Claim:** Core terms in plain language - 2. **Named evidence/example:** Use a category only when it clarifies the prompt's actual tension; this is an essay lens, not a licence to list theories. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Exam facts / source basis. **Named evidence/example:** (power vs. character/accountability), 2025-B8 (contentment vs. luxury/aspiration), 2025-B5 (restraint vs. intervention) - see ../README.md for exact wording. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.

Claim -> named evidence -> analysis -> qualification:

- Use a category only when it clarifies the prompt's actual tension; this is an essay lens, not a licence to list theories.
- (power vs. character/accountability), 2025-B8 (contentment vs. luxury/aspiration), 2025-B5 (restraint vs. intervention) - see ../README.md for exact wording.

Qualified conclusion: **Claim:** Core terms in plain language - 2. **Named evidence/example:** Use a category only when it clarifies the prompt's actual tension; this is an essay lens, not a licence to list theories. **Analysis:** This

identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Exam facts / source basis. **Named evidence/example:** (power vs. character/accountability), 2025-B8 (contentment vs. luxury/aspiration), 2025-B5 (restraint vs. intervention) - see ../README.md for exact wording. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.

ORIGINAL MAINS 3 - 15 MARKS

Question: Apply Ethical and Philosophical Frameworks and Value Conflicts to one philosophical UPSC Essay prompt. Answer in about 250 words.

Model thesis: Claim: The central idea and common misreading. **Named evidence/example:** Central idea: name the values in genuine tension explicitly, then state a reasoned, conditional priority - this is more persuasive than either ignoring the conflict or asserting one value is simply "right." Common misreading: dropping a philosopher's name (e.g. "as [thinker] said") as decoration without actually using their reasoning to do analytical work - this reads as ornamental rather than substantive. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Basic decomposition questions.

Named evidence/example: 1. What two values does this prompt place in tension? 2. Is there a scale or context where one value should generally take priority, and why? 3. Is there a scale or context where the other value should prevail instead? 4. Can I state my reasoned priority in one sentence, with its condition attached? 5. Does my resolution avoid treating either value as simply wrong? 6. Voiceless-stakeholder test: whose interests are not represented in the immediate choice - future generations, an excluded group, or a non-human system - and would the priority change if its cost were counted? **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** India-first illustration starters. **Named evidence/example:** Recall one Indian illustration per value-conflict resolution - e.g. a documented instance of institutional accountability constraining discretionary power, or a documented public debate on consumption and sufficiency. Full discipline: 12. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.

Claim: Thesis options and selection. **Named evidence/example:** A thesis built on a reasoned, conditional priority (Section 6) is usually stronger than one that treats the conflict as fully resolved in one direction - see 05 for converting this into a full thesis sentence. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.

Claim -> named evidence -> analysis -> qualification:

- Central idea: name the values in genuine tension explicitly, then state a reasoned, conditional priority - this is more persuasive than either ignoring the conflict or asserting one value is simply "right." Common misreading: dropping a philosopher's name (e.g. "as [thinker] said") as decoration without actually using their reasoning to do analytical work - this reads as ornamental rather than substantive.

ORIGINAL MAINS 4 - 15 MARKS

Question: Apply Ethical and Philosophical Frameworks and Value Conflicts to one issue-based or hybrid UPSC Essay prompt. Answer in about 250 words.

Model thesis: Claim: Simple essay architecture. **Named evidence/example:** Dedicate one paragraph to naming the conflict, one or two to developing each value's legitimate claim, and one to the reasoned priority/synthesis - see 07 for exact sequencing within the wider essay. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Opening, body and closure moves. **Named evidence/example:** Avoid opening or closing with a bare philosopher's name; instead state the value conflict in plain language, and let any thinker's reasoning (used sparingly, only where genuinely apt) support a specific paragraph's claim rather than serve as decoration. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Traps and repair moves. **Named evidence/example:** Repair: either explain the specific mechanism/reasoning briefly, or drop the name and state the point in plain language. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Traps and repair moves - 2. **Named evidence/example:** required content. -> Repair: use only what the argument needs; for deeper theory, point to the Ethics module rather than reproducing it. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.

Claim -> named evidence -> analysis -> qualification:

- Dedicate one paragraph to naming the conflict, one or two to developing each value's legitimate claim, and one to the reasoned priority/synthesis - see 07 for exact sequencing within the wider essay.

- Avoid opening or closing with a bare philosopher's name; instead state the value conflict in plain language, and let any thinker's reasoning (used sparingly, only where genuinely apt) support a specific paragraph's claim rather than serve as decoration.
- Repair: either explain the specific mechanism/reasoning briefly, or drop the name and state the point in plain language.
- required content. -> Repair: use only what the argument needs; for deeper theory, point to the Ethics module rather than reproducing it.

Qualified conclusion: Claim: Simple essay architecture. **Named evidence/example:** Dedicate one paragraph to naming the conflict, one or two to developing each value's legitimate claim, and one to the reasoned priority/synthesis - see 07 for exact sequencing within the wider essay. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.

Claim: Opening, body and closure moves. **Named evidence/example:** Avoid opening or closing with a bare philosopher's name; instead state the value conflict in plain language, and let any thinker's reasoning (used sparingly, only where genuinely apt) support a specific paragraph's claim rather than serve as decoration. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Traps and repair moves. **Named evidence/example:** Repair: either explain the specific mechanism/reasoning briefly, or drop the name and state the point in plain language. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Traps and repair moves - 2. **Named evidence/example:** required content. -> Repair: use only what the argument needs; for deeper theory, point to the Ethics module rather than reproducing it. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.

ORIGINAL MAINS 5 - 20 MARKS

Question: Evaluate the limits, counter-cases and repair protocol for Ethical and Philosophical Frameworks and Value Conflicts. Answer in about 300 words.

Model thesis: Claim: Traps and repair moves - 3. **Named evidence/example:** the specific values or the condition. -> Repair: always name both values and the specific condition governing priority. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Timed micro-drill and self-check. **Named evidence/example:** 5-minute drill: For any prompt with a value conflict (Section 6), write: the two values, one condition favouring each, and a one-sentence reasoned priority. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Advanced proposition and boundary. **Named evidence/example:** Proposition: Core 10 supplies the compact category card, voiceless-stakeholder test and one worked paragraph. This companion keeps the harder task: a value conflict is resolved analytically, not rhetorically - by naming the specific ethical categories in tension (rights, welfare, dignity, fairness, care, ecological responsibility) and stating the condition under which each should govern, rather than by asserting a general "balance." Boundary: this topic does not teach the Ethics module's full case-study or thinker-biography machinery - it supplies the essay-specific value-conflict method that draws lightly on that module as a lens. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Levels of analysis and temporal-spatial scale. **Named evidence/example:** Ethical categories operate differently by scale: dignity and rights are most directly assessed at the individual level; fairness and welfare scale naturally to institutional and state policy; ecological responsibility is inherently intergenerational and often global. An advanced essay should state explicitly which scale it is reasoning at when invoking a given category, rather than shifting scale silently mid-argument. **Analysis:** This identifies the exact Essay-method move and shows

how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Stakeholder map and distributional effects. **Named evidence/example:** For each value conflict, map which stakeholder group is advantaged by prioritising each category - e.g. for 2024-A1, prioritising immediate welfare (development) advantages the present generation, while prioritising ecological responsibility advantages future generations and ecosystems with no current voice. Naming this asymmetry (who is represented, who is not) strengthens the synthesis. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.

Claim -> named evidence -> analysis -> qualification:

- the specific values or the condition. -> Repair: always name both values and the specific condition governing priority.
- 5-minute drill: For any prompt with a value conflict (Section 6), write: the two values, one condition favouring each, and a one-sentence reasoned priority.
- Proposition: Core 10 supplies the compact category card, voiceless-stakeholder test and one worked paragraph. This companion keeps the harder task: a value conflict is resolved analytically, not rhetorically - by naming the specific ethical categories in tension (rights, welfare, dignity, fairness, care, ecological responsibility) and stating the condition under which each should govern, rather than by asserting a general "balance." Boundary: this topic does not teach the Ethics module's full case-study or thinker-biography machinery - it supplies the essay-specific value-conflict method that draws lightly on that module as a lens.
- Ethical categories operate differently by scale: dignity and rights are most directly assessed at the individual level; fairness and welfare scale naturally to institutional and state policy; ecological responsibility is inherently intergenerational and often global. An advanced essay should state explicitly which scale it is reasoning at when invoking a given category, rather than shifting scale silently mid-argument.
- For each value conflict, map which stakeholder group is advantaged by prioritising each category - e.g. for 2024-A1, prioritising immediate welfare (development) advantages the present generation, while prioritising ecological responsibility advantages future generations and ecosystems with no current voice. Naming this asymmetry (who is represented, who is not) strengthens the synthesis.

Qualified conclusion: Claim: Traps and repair moves - 3. **Named evidence/example:** the specific values or the condition. -> Repair: always name both values and the specific condition governing priority. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Timed micro-drill and self-check. **Named evidence/example:** 5-minute drill: For any prompt with a value conflict (Section 6), write: the two values, one condition favouring each, and a one-sentence reasoned priority. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Advanced proposition and boundary. **Named evidence/example:** Proposition: Core 10 supplies the compact category card, voiceless-stakeholder test and one worked paragraph. An advanced essay should state explicitly which scale it is reasoning at when invoking a given category, rather than shifting scale silently mid-argument. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric,

compulsory formula or model answer. **Claim:** Stakeholder map and distributional effects. **Named evidence/example:** For each value conflict, map which stakeholder group is advantaged by prioritising each category - e.g. for 2024-A1, prioritising immediate welfare (development) advantages the present generation, while prioritising ecological responsibility advantages future generations and ecosystems with no current voice. Naming this asymmetry (who is represented, who is not) strengthens the synthesis. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.

ORIGINAL MAINS 6 - 20 MARKS

Question: Construct an examiner-ready answer architecture using Ethical and Philosophical Frameworks and Value Conflicts. Answer in about 300 words.

Model thesis: **Claim:** Purpose and scope. **Named evidence/example:** Several audited prompts compress a value conflict (accountability vs. autonomy, sufficiency vs. aspiration, restraint vs. intervention). This topic teaches how to name and resolve such conflicts as part of an essay argument - it does not reproduce the Ethics module's full theoretical apparatus (thinkers, schools, case studies), which remains that module's domain. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** The central idea and common misreading. **Named evidence/example:** Central idea: name the values in genuine tension explicitly, then state a reasoned, conditional priority - this is more persuasive than either ignoring the conflict or asserting one value is simply "right." Common misreading: dropping a philosopher's name (e.g. "as [thinker] said") as decoration without actually using their reasoning to do analytical work - this reads as ornamental rather than substantive. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Simple essay architecture. **Named evidence/example:** Dedicate one paragraph to naming the conflict, one or two to developing each value's legitimate claim, and one to the reasoned priority/synthesis - see 07 for exact sequencing within the wider essay. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Traps and repair moves - 3. **Named evidence/example:** the specific values or the condition. -> Repair: always name both values and the specific condition governing priority. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Stakeholder map and distributional effects. **Named evidence/example:** For each value conflict, map which stakeholder group is advantaged by prioritising each category - e.g. for 2024-A1, prioritising immediate welfare (development) advantages the present generation, while prioritising ecological responsibility advantages future generations and ecosystems with no current voice. Naming this asymmetry (who is represented, who is not) strengthens the synthesis. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Causality, mechanisms and feedback loops. **Named evidence/example:** NAME THE TWO ETHICAL CATEGORIES IN TENSION v STATE EACH CATEGORY'S STRONGEST CLAIM (not a straw version) v IDENTIFY THE CONDITION under which one should generally govern (threshold, scale, reversibility, whose voice is represented) v STATE THE REASONED, CONDITIONAL PRIORITY v CHECK: does the priority still hold if the stakeholder without present voice (future generations, excluded groups) is given weight? **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Causality, mechanisms and feedback loops - 2. **Named evidence/example:** The final feedback check (representing otherwise-silent stakeholders) is what distinguishes an advanced ethical resolution from a merely plausible-sounding one. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Necessary/sufficient conditions and exceptions. **Named evidence/example:** Naming the ethical categories precisely

is necessary for a rigorous resolution but not sufficient - the resolution must also survive the stakeholder check (Section 6's final step). Exception: for prompts where the value conflict is minor or resolved quickly by the prompt's own logic (e.g. 2024-A4's doubt/denialism distinction), an extended multi-category ethical analysis may be disproportionate - use only the depth the argument genuinely needs. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.

Claim -> named evidence -> analysis -> qualification:

- Several audited prompts compress a value conflict (accountability vs. autonomy, sufficiency vs. aspiration, restraint vs. intervention). This topic teaches how to name and resolve such conflicts as part of an essay argument - it does not reproduce the Ethics module's full theoretical apparatus (thinkers, schools, case studies), which remains that module's domain.
- Central idea: name the values in genuine tension explicitly, then state a reasoned, conditional priority - this is more persuasive than either ignoring the conflict or asserting one value is simply "right." Common misreading: dropping a philosopher's name (e.g. "as [thinker] said") as decoration without actually using their reasoning to do analytical work - this reads as ornamental rather than substantive.
- Dedicate one paragraph to naming the conflict, one or two to developing each value's legitimate claim, and one to the reasoned priority/synthesis - see 07 for exact sequencing within the wider essay.
- the specific values or the condition. -> Repair: always name both values and the specific condition governing priority.
- For each value conflict, map which stakeholder group is advantaged by prioritising each category - e.g. for 2024-A1, prioritising immediate welfare (development) advantages the present generation, while prioritising ecological responsibility advantages future generations and ecosystems with no current voice. Naming this asymmetry (who is represented, who is not) strengthens the synthesis.
- NAME THE TWO ETHICAL CATEGORIES IN TENSION v STATE EACH CATEGORY'S STRONGEST CLAIM (not a straw version) v IDENTIFY THE CONDITION under which one should generally govern (threshold, scale, reversibility, whose voice is represented) v STATE THE REASONED, CONDITIONAL PRIORITY v CHECK: does the priority still hold if the stakeholder without present voice (future generations, excluded groups) is given weight?
- The final feedback check (representing otherwise-silent stakeholders) is what distinguishes an advanced ethical resolution from a merely plausible-sounding one.
- Naming the ethical categories precisely is necessary for a rigorous resolution but not sufficient - the resolution must also survive the stakeholder check (Section 6's final step). Exception: for prompts where the value conflict is minor or resolved quickly by the prompt's own logic (e.g. 2024-A4's doubt/denialism distinction), an extended multi-category ethical analysis may be disproportionate - use only the depth the argument genuinely needs.

Qualified conclusion: **Claim:** Purpose and scope. **Named evidence/example:** Several audited prompts compress a value conflict (accountability vs. autonomy, sufficiency vs. aspiration, restraint vs. intervention). This topic teaches how to name and resolve such conflicts as part of an essay argument - it does not reproduce the Ethics module's full theoretical apparatus (thinkers, schools, case studies), which remains that module's domain. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** The central idea and common misreading. **Named evidence/example:** Central idea: name the values in genuine tension explicitly, then state a reasoned, conditional priority - this is more persuasive than either ignoring the conflict or asserting one value is simply "right." Common misreading: dropping a philosopher's name (e.g. "as [thinker] said") as decoration without actually using their reasoning to do analytical work - this reads as ornamental rather than substantive. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Simple essay architecture. **Named evidence/example:** Dedicate one paragraph to naming the conflict, one or two to developing each value's legitimate claim, and one to the reasoned priority/synthesis - see 07 for exact sequencing within the wider essay. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing

scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Traps and repair moves - 3.

Named evidence/example: the specific values or the condition. -> Repair: always name both values and the specific condition governing priority. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Stakeholder map and distributional effects. **Named evidence/example:** For each value conflict, map which stakeholder group is advantaged by prioritising each category - e.g. for 2024-A1, prioritising immediate welfare (development) advantages the present generation, while prioritising ecological responsibility advantages future generations and ecosystems with no current voice. Naming this asymmetry (who is represented, who is not) strengthens the synthesis. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Causality, mechanisms and feedback loops. **Named evidence/example:** NAME THE TWO ETHICAL CATEGORIES IN TENSION v STATE EACH CATEGORY'S STRONGEST CLAIM (not a straw version) v IDENTIFY THE CONDITION under which one should generally govern (threshold, scale, reversibility, whose voice is represented) v STATE THE REASONED, CONDITIONAL PRIORITY v CHECK: does the priority still hold if the stakeholder without present voice (future generations, excluded groups) is given weight? **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Causality, mechanisms and feedback loops - 2. **Named evidence/example:** The final feedback check (representing otherwise-silent stakeholders) is what distinguishes an advanced ethical resolution from a merely plausible-sounding one. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer. **Claim:** Necessary/sufficient conditions and exceptions. **Named evidence/example:** Naming the ethical categories precisely is necessary for a rigorous resolution but not sufficient - the resolution must also survive the stakeholder check (Section 6's final step). Exception: for prompts where the value conflict is minor or resolved quickly by the prompt's own logic (e.g. 2024-A4's doubt/denialism distinction), an extended multi-category ethical analysis may be disproportionate - use only the depth the argument genuinely needs. **Analysis:** This identifies the exact Essay-method move and shows how it keeps the response tied to the printed proposition rather than an adjacent GS topic. **Qualification:** It remains a repository-audited writing scaffold, not an official UPSC rubric, compulsory formula or model answer.
