

ASCII MASTER FLOW – PANEL 1/12: 1. Complete accountability relationship

CENTRAL FOCUS

1. Complete accountability relationship

[1] Identify actor

|

v

[2] Assign responsibility

|

v

[3] Name forum

|

v

[4] State standard

|

v

[5] Provide information

|

v

[6] Demand explanation

|

v

[7] Reach judgment

|

v

[8] Correct, remedy or sanction

|

v

VERDICT -> Answerability becomes accountability only when review can produce follow-up.

ANSWER USE -> Use to define accountability and distinguish responsibility.

MUST REMEMBER: Accountability links an actor to a forum with information, questioning,...

ASCII MASTER FLOW – PANEL 2/12: 2. Three control layers

CENTRAL FOCUS

2. Three control layers

[1] Departmental vigilance

|

v

[2] CVO preventive control

|

v

[3] CVC advice and superintendence

|

v

[4] CBI investigation

|

v

[5] CAG independent audit

|

v

[6] Legislative scrutiny

|

v

[7] Judicial review

|

v

[8] Citizen social control

|

v

VERDICT -> Each layer addresses a different failure mode; none is self-sufficient.

ANSWER USE -> Use to classify institutions before recommending reform.

CLOSE DISTINCTION: Political, administrative, legal, financial, professional and social...

ASCII MASTER FLOW – PANEL 3/12: 3. Responsibility versus accountability

CENTRAL FOCUS

3. Responsibility versus accountability

[1] Responsibility assigns duty

|
v

[2] Duty exists before scrutiny

|
v

[3] Role identifies expected action

|
v

[4] Delegation needs clarity

|
v

[5] Accountability demands reasons

|
v

[6] Forum tests a standard

|
v

[7] Judgment fixes failure

|
v

[8] Remedy completes the cycle

|
v

VERDICT -> Clear responsibility is necessary but does not alone create accountability.

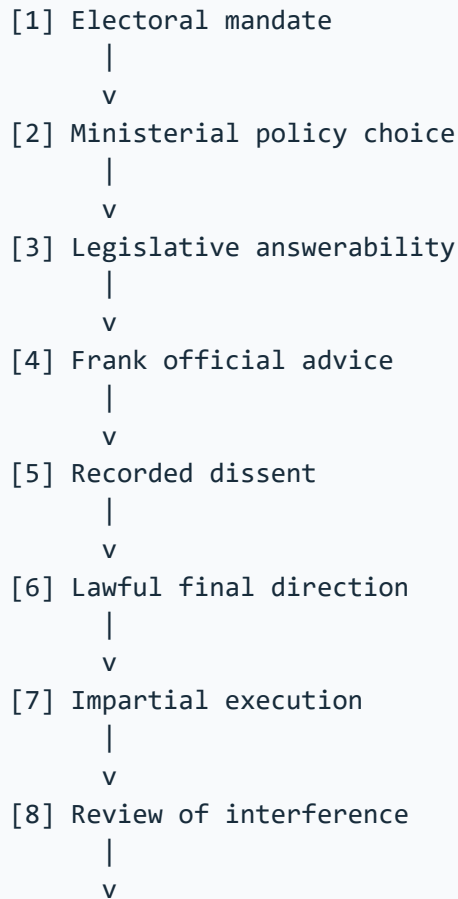

ANSWER USE -> Use for a ten-mark distinction answer.

EVIDENCE / AUTHORITY / APPLICATION LIMIT: Use Parliament, CAG-PAC, courts, CVC,...

ASCII MASTER FLOW – PANEL 4/12: 4. Political and bureaucratic balance

CENTRAL FOCUS

4. Political and bureaucratic balance

VERDICT -> Democratic direction and professional neutrality must remain mutually accountable.

ANSWER USE -> Use for the 2019 politicisation question.

CENTRAL FOCUS

5. Concurrent and external assurance

[1] Set transaction controls

|

v

[2] Flag exceptions early

|

v

[3] Review during delivery

|

v

[4] Correct current loss

|

v

[5] Preserve audit trail

|

v

[6] CAG tests independently

|

v

[7] Legislature examines findings

|

v

[8] Executive reports follow-up

|

v

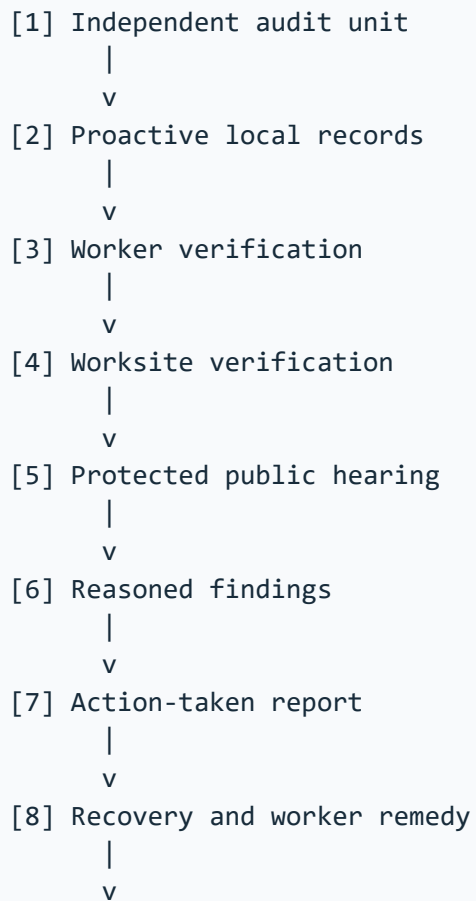

VERDICT -> Internal real-time assurance complements; it never replaces independent scrutiny.

ANSWER USE -> Use in public-fund and audit answers.

ASCII MASTER FLOW – PANEL 6/12: 6. Social audit cycle

CENTRAL FOCUS

6. Social audit cycle

VERDICT -> Disclosure without independent verification and follow-up is not social audit.

ANSWER USE -> Use for 2021 Q6(a) and MGNREGA cases.

ASCII MASTER FLOW – PANEL 7/12: 7. Social capital boundary

CENTRAL FOCUS

7. Social capital boundary

[1] Trust lowers participation cost

|

v

[2] Reciprocity sustains testimony

|

v

[3] Bridging links communities

|

v

[4] Collective monitoring improves

|

v

[5] Bonding protects insiders

|

v

[6] Faction can intimidate

|

v

[7] Rights limit social pressure

|

v

[8] Formal remedy remains necessary

|

v

VERDICT -> Inclusive social capital helps social control; insular loyalty can defeat it.

ANSWER USE -> Use for 2023 Q6(b) with a qualification.

ASCII MASTER FLOW – PANEL 8/12: 8. Accountable e-governance

CENTRAL FOCUS

8. Accountable e-governance

[1] Accessible service channel

|

v

[2] Assisted offline option

|

v

[3] Minimal secure data

|

v

[4] Traceable decision log

|

v

[5] Intelligible reasons

|

v

[6] Human exception review

|

v

[7] Time-bound appeal

|

v

[8] Service correction

|

v

VERDICT -> Technology supports accountability only when exclusion can be reviewed and remedied.

ANSWER USE -> Use for both 2022 Q4 subparts.

ASCII MASTER FLOW – PANEL 9/12: 9. Dashboard-to-accountability test

CENTRAL FOCUS

9. Dashboard-to-accountability test

[1] Display reliable data

|

v

[2] Identify responsible officer

|

v

[3] Set review threshold

|

v

[4] Investigate anomaly

|

v

[5] Hear affected citizen

|

v

[6] Issue reasoned finding

|

v

[7] Correct record or service

|

v

[8] Learn and redesign

|

v

VERDICT -> Visibility is evidence; accountability requires judgment, correction and learning.

ANSWER USE -> Use to defeat the dashboard-equals-accountability trap.

ASCII MASTER FLOW – PANEL 10/12: 10. MGNREGA restoration sequence

CENTRAL FOCUS

10. MGNREGA restoration sequence

[1] Secure scheme records

|

v

[2] Match job card and demand

|

v

[3] Match muster and attendance

|

v

[4] Match wage and bank credit

|

v

[5] Match sanction and measurement

|

v

[6] Verify physical asset

|

v

[7] Map approving responsibility

|

v

[8] Restore service and controls

|

v

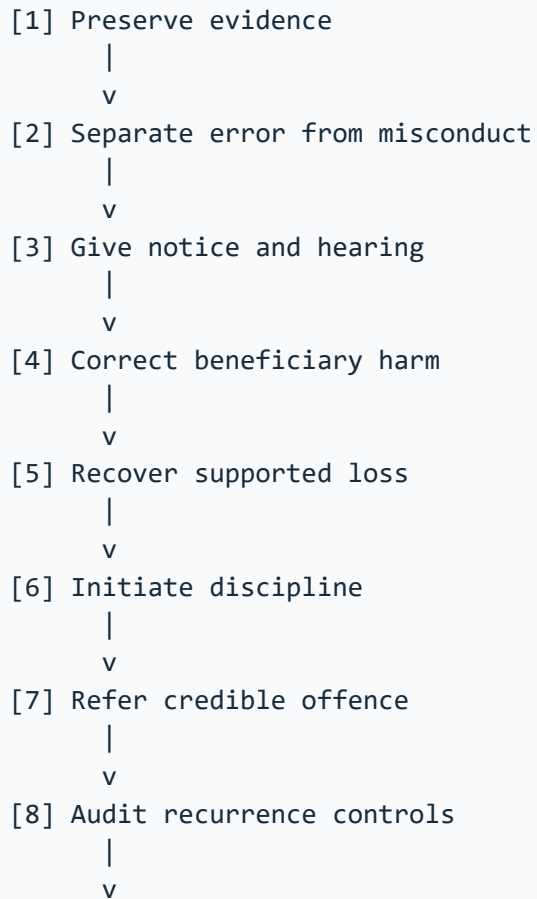

VERDICT -> Reconcile the complete transaction and service chain before fixing responsibility.

ANSWER USE -> Use as the spine for 2025 Q11.

ASCII MASTER FLOW – PANEL 11/12: 11. Corrective consequence ladder

CENTRAL FOCUS

11. Corrective consequence ladder

VERDICT -> Consequence must be evidence-based, proportionate and joined to service remedy.

ANSWER USE -> Use in honest-error, vigilance and fund-leakage answers.

ASCII MASTER FLOW – PANEL 12/12: 12. Mains answer spine

CENTRAL FOCUS

12. Mains answer spine

[1] Define actor-forum relationship

|

v

[2] Distinguish responsibility

|

v

[3] Locate control layer

|

v

[4] Name failure mechanism

|

v

[5] Use Indian illustration

|

v

[6] Propose targeted reform

|

v

[7] Add safeguard and limit

|

v

[8] Conclude with remedy

|

v

VERDICT -> Mechanism-specific accountability analysis outperforms generic calls for transparency.

ANSWER USE -> Use as the final checklist for theory and case answers.
