

ASCII MASTER FLOW – PANEL 1/12: 1. Eight-element case-study rail

CENTRAL FOCUS

1. Eight-element case-study rail

[1] Facts: given versus assumed

|

v

[2] Stakeholders: direct and silent

|

v

[3] Constraints: hard bounds

|

v

[4] Options: three or more

|

v

[5] Evaluation: theories and checks

|

v

[6] Decision: decisive reason

|

v

[7] Implementation: actor and message

|

v

[8] Residual risk: monitor and review

|

v

VERDICT -> A case answer is a complete decision process, not a moral reaction.

ANSWER USE -> Use as the universal opening architecture.

MUST REMEMBER: Every case study requires fact-assumption separation, stakeholder mapping,...

ASCII MASTER FLOW – PANEL 2/12: 2. Constraint gate before option design

CENTRAL FOCUS

2. Constraint gate before option design

[1] Legality defines permission

|

v

[2] Delegation defines authority

|

v

[3] Jurisdiction defines forum

|

v

[4] Time defines urgency

|

v

[5] Information defines confidence

|

v

[6] Resources define capacity

|

v

[7] Safety defines tolerable exposure

|

v

[8] Survivors become real options

|

v

VERDICT -> Impossible or unlawful proposals should never enter later balancing.

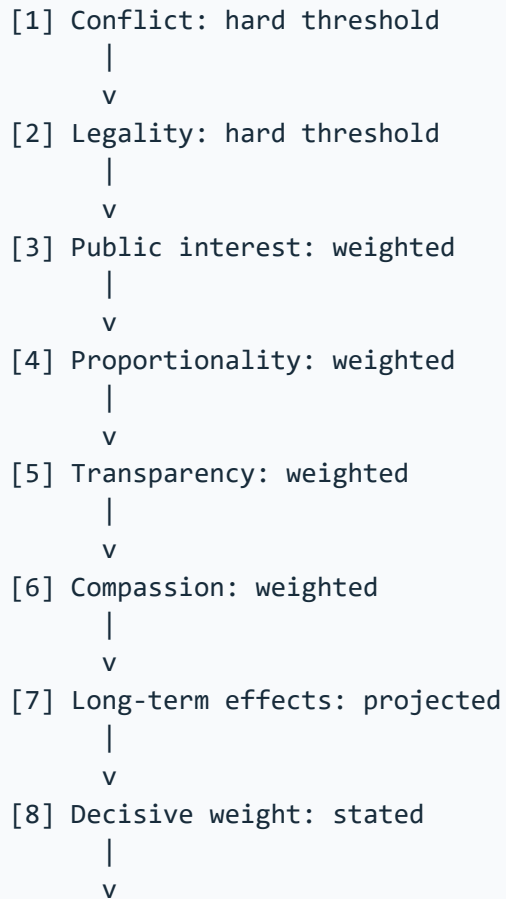

ANSWER USE -> Use before listing options in every administrative case.

CLOSE DISTINCTION: Hard thresholds such as illegality or serious rights violation differ...

ASCII MASTER FLOW – PANEL 3/12: 3. Six-check evaluation matrix

CENTRAL FOCUS

3. Six-check evaluation matrix

VERDICT -> Eliminate first, weigh second and explain what controlled the choice.

ANSWER USE -> Use for the ethical-evaluation element.

EVIDENCE / AUTHORITY / APPLICATION LIMIT: The model answer must be executable: immediate...

ASCII MASTER FLOW – PANEL 4/12: 4. Conflict-of-interest resolution sequence

CENTRAL FOCUS

4. Conflict-of-interest resolution sequence

[1] Detect personal-interest link

|

v

[2] Disclose connection in writing

|

v

[3] Recuse from the decision

|

v

[4] Refer to untainted authority

|

v

[5] State objective criteria

|

v

[6] Apply criteria consistently

|

v

[7] Preserve the scoring trail

|

v

[8] Publish or defend the rationale

|

v

VERDICT -> Personal honesty cannot substitute for an unconflicted process.

ANSWER USE -> Use in procurement, licensing and privileged-information cases.

ASCII MASTER FLOW – PANEL 5/12: 5. Nested dilemma and steelman loop

CENTRAL FOCUS

5. Nested dilemma and steelman loop

[1] Identify dilemma one

|

v

[2] Run compact ethical checks

|

v

[3] Identify dilemma two

|

v

[4] Run compact ethical checks

|

v

[5] Recombine compatible decisions

|

v

[6] State strongest objection

|

v

[7] Absorb valid objection

|

v

[8] Confirm or revise decision

|

v

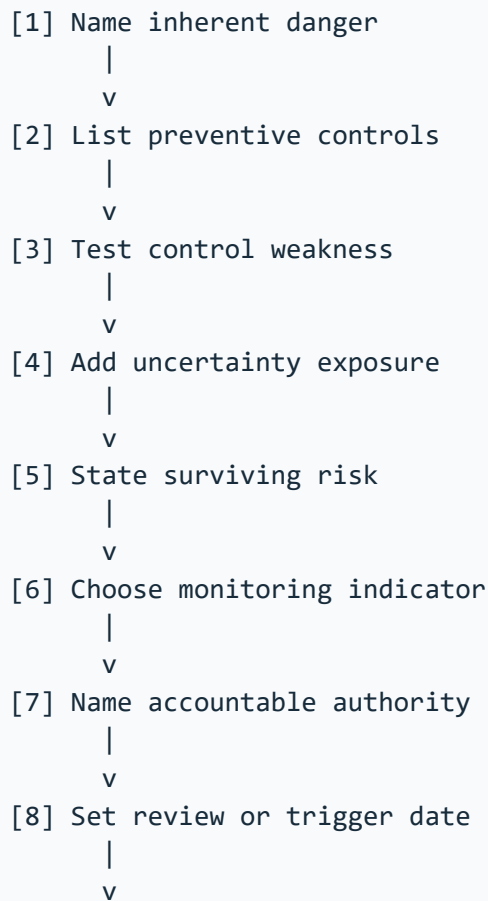

VERDICT -> Decomposition clarifies the problem; steelmanning tests the solution.

ANSWER USE -> Use for dense cases with multiple genuine conflicts.

ASCII MASTER FLOW – PANEL 6/12: 6. Residual-risk closing formula

CENTRAL FOCUS

6. Residual-risk closing formula

VERDICT -> Residual risk equals inherent risk reduced by controls, with uncertainty retained.

ANSWER USE -> Use as the final paragraph of every solved case.

ASCII MASTER FLOW – PANEL 7/12: 7. Written-order response to pressure

CENTRAL FOCUS

7. Written-order response to pressure

[1] Identify improper oral direction

|

v

[2] Record its substance promptly

|

v

[3] Seek written confirmation

|

v

[4] State professional objection

|

v

[5] Preserve supporting evidence

|

v

[6] Refer through proper hierarchy

|

v

[7] Continue lawful substantive duty

|

v

[8] Escalate impropriety if persistent

|

v

VERDICT -> Writing fixes responsibility and converts private resistance into institutional accountability.

ANSWER USE -> Use for ministerial, superior and corporate pressure.

ASCII MASTER FLOW – PANEL 8/12: 8. Whistleblowing and dissent ladder

CENTRAL FOCUS

8. Whistleblowing and dissent ladder

[1] Preserve credible evidence

|

v

[2] Report to competent superior

|

v

[3] Skip a compromised recipient

|

v

[4] Use independent internal tier

|

v

[5] Use authorised external channel

|

v

[6] Protect identity and safety

|

v

[7] Consider public disclosure last

|

v

[8] Review retaliation and follow-up

|

v

VERDICT -> Escalate only as far as failure and continuing harm require.

ANSWER USE -> Use when loyalty, secrecy and public interest conflict.

ASCII MASTER FLOW – PANEL 9/12: 9. Resignation decision test

CENTRAL FOCUS

9. Resignation decision test

[1] Record personal non-participation

|

v

[2] Test internal resistance

|

v

[3] Test independent escalation

|

v

[4] Assess continuing public influence

|

v

[5] Assess complicity from remaining

|

v

[6] Assess impact of departure

|

v

[7] Define the resignation trigger

|

v

[8] Resign only if net protection rises

|

v

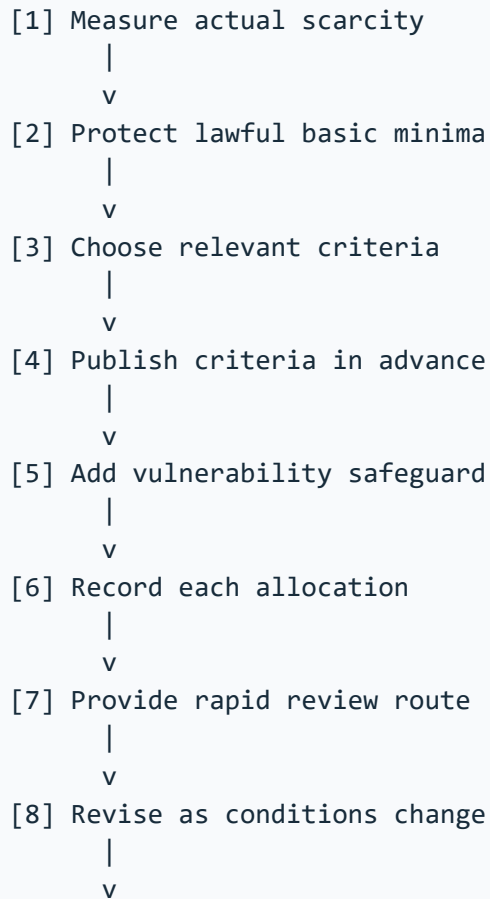

VERDICT -> Resignation is ethical only when it protects the public better than principled service.

ANSWER USE -> Use whenever an option list includes exit from office.

ASCII MASTER FLOW – PANEL 10/12: 10. Scarce-resource triage cycle

CENTRAL FOCUS

10. Scarce-resource triage cycle

VERDICT -> Transparent criteria are ethically superior to hidden case-by-case discretion.

ANSWER USE -> Use for beds, staff, water, relief and compensation.

ASCII MASTER FLOW – PANEL 11/12: 11. Domain adaptation map

CENTRAL FOCUS

11. Domain adaptation map

[1] Administration: lawful authority

|

v

[2] Corporate: stakeholder duty

|

v

[3] Research: consent and truth

|

v

[4] Health: triage and dignity

|

v

[5] Police: force and due process

|

v

[6] Environment: future generations

|

v

[7] Technology: privacy and harm

|

v

[8] Disaster: continuity and compassion

|

v

VERDICT -> The architecture stays constant while standards, institutions and evidence change.

ANSWER USE -> Use to transfer the method without copying remedies blindly.

ASCII MASTER FLOW – PANEL 12/12: 12. Time-bound examiner answer spine

CENTRAL FOCUS

12. Time-bound examiner answer spine

[1] Minute one: demand and facts

|

v

[2] Minute two: stakeholders

|

v

[3] Minute three: constraints

|

v

[4] Minutes four-six: options

|

v

[5] Minutes seven-ten: evaluation

|

v

[6] Minutes eleven-twelve: decision

|

v

[7] Minutes thirteen-fourteen: execution

|

v

[8] Minute fifteen: residual risk

|

v

VERDICT -> Compress every element; do not sacrifice the ending to an oversized introduction.

ANSWER USE -> Use as a planning clock for a twenty-mark case.
