

COMPLETE LEARNING SESSION

Comprehension and Precis - Qualifying English Learner-v2 Semantic Successor

UPSC complete learning session | Foundation to advanced | Concepts, evidence, practice and answer writing

LEARNING PATH

Deterministic fallback visual: move from precise concepts through argument and critique to exam application.

Source order: repository knowledge -> official current linkage -> clearly marked analysis. No fabricated PYQs or statistics.

CONTENTS / SESSION INDEX

Major learning parts and meaningful subtopics are listed in document order. Page numbers are generated from the final PDF layout; PDF bookmarks mirror the same hierarchy.

Check coverage, compression, independence, coherence, correctness and zero added opinion."];
```

Canonical Basic owner

Comprehension and Precis - MUST-DO

1. Comprehension: read the demand before answering

Question command -> locate evidence -> identify answer type
-> list every requested limb -> answer in own concise words
-> check against passage, not outside knowledge

Demand	What it asks	Safe answer move	Common failure
Literal	Explicitly stated fact/reason	State the relevant claim and its stated reason	Copying an entire paragraph
Inferential	What follows from two or more clues	State the conclusion, then name the textual clues	Treating a plausible opinion as evidence
Tone/attitude	Author's stance, not topic	Use a precise adjective plus two language/idea signals	"The tone is about pollution"
Purpose	Why the author uses an example/contrast	State its function in the argument	Retelling the example
Title	Central organising claim	Give a short title and justify it with coverage	Choosing a decorative phrase
Reference	What <i>this/it/they/such</i> denotes	Name the nearest logical antecedent and test the sentence	Naming the nearest noun mechanically
Vocabulary in context	Meaning in this passage	Give a context-fitting synonym and explain its local sense	Dictionary meaning that conflicts with context
Multipart	Two or more asked elements	Number or separate all limbs; allocate space to each	Answering only the first limb

Command decoder

Wording	Deliverable
Why / how	Cause or mechanism, not merely result
Explain	Meaning plus the passage's support
Distinguish	At least two contrasted bases
What does the author mean by...	Paraphrase the phrase and connect it to context
Comment / critically observe	A qualified inference anchored in the passage
Enumerate	All major listed points, compressed and complete

Multi-part allocation rule

Circle **every** noun joined by *and*, *or*, commas or a semicolon. Make a micro-plan before writing:

"What financial and institutional causes ..., and what follows?"
financial cause(s) | institutional cause(s) | consequence
5 marks | 5 marks | 5 marks

The split printed in a practice key is a coaching diagnostic, not an official UPSC marking scheme. For a 15-mark response, give one compact, supported unit for every requested limb before adding explanation.

2. Answer calibration

- Answer from the passage even if outside knowledge differs.
- Use complete sentences unless the question specifically asks for a list.
- Start with the answer, not "The author says that...".
- For an inference, use calibrated language: *suggests, implies, indicates*.
- Quote only a crucial word or phrase; paraphrase the rest.
- A title answer needs both a title and a one-sentence justification if the question asks for either.
- If the question asks for tone, do not call a serious argument "sad" or "informative"; identify the stance: *cautious, critical, qualified, ironic, approving, sceptical*.

3. Worked comprehension diagnostic

Passage

Many municipal offices have begun to publish the number of complaints they close each week. The practice can expose neglect, but it can also mislead. A complaint may be marked closed when an officer has sent an automatic reply, transferred it to another department or asked the citizen to submit the same document again. Such actions may be necessary at times, yet they do not show that the underlying problem has been solved.

The useful question is therefore not simply how quickly a file leaves a desk. It is whether the service becomes usable. A streetlight is not repaired because a message has been acknowledged; it is repaired when it works. This distinction matters especially to people who cannot repeatedly visit an office, make phone calls during working hours or pay a private provider. Public data should consequently record both the first response and the final outcome. Otherwise, an impressive dashboard may reward administrative movement while concealing public inaction.

Questions

1. Why can a high complaint-closure number be misleading? (4)
2. What distinction does the streetlight example make? (3)
3. What does "administrative movement" mean in context? (3)
4. Infer the author's attitude to dashboards that report only closures. Give two grounds from the passage. (3 + 2)
5. Give a suitable title and justify it in one sentence. (3)

Key with diagnostic splits

1. It may record an automatic reply, transfer or repeat-document request (2) even though the underlying service failure remains unsolved (2).
2. It separates acknowledging a complaint (1) from fixing the actual service (2).
3. It means procedural handling of a file-replying, transferring or recording it-without necessarily delivering a solution (3).
4. The author is **critical but qualified** (1): dashboards can expose neglect (1), but closure-only reporting may reward activity rather than outcomes (1). Any two grounded signals earn the evidence marks (2).
5. **"Closure Is Not Repair"** (1) is suitable because the passage contrasts recorded disposal with a usable public service (2).

4. Precis: preserve the argument, not the surface

A precis is an accurate, coherent compression of the whole passage to the instructed proportion, normally about one-third in the local paper samples.

Read twice -> mark thesis / idea units / concession / conclusion
 -> calculate target -> remove illustration and repetition
 -> paraphrase -> connect -> count -> obey title instruction

Idea-unit map

Passage unit	Keep?	Why / treatment
Thesis or central tension	Always	Opens the precis
Major reason, mechanism or consequence	Usually	One compressed sentence per major unit
Concession (<i>although, yet, while</i>)	Usually	Preserve the author's qualification
Example, name, quotation, rhetorical question	Usually remove	Retain only if it carries an irreplaceable distinction
Repetition, decoration, minor detail	Remove	Does not change argument
Final recommendation/verdict	Always	Close the precis

Explicit word-count method

1. Count the source's space-separated words for practice; count a hyphenated form as one word and do not count a title.
2. Divide by the instructed ratio. For one-third, a 360-word source gives a target of about 120 words.
3. Record **source -> target -> final** on rough work.
4. "About" is not a published tolerance. For this kit's practice, aim within roughly 10% of the calculated target; if the paper gives a number or tolerance, that instruction overrides this coaching convention.
5. Count the final draft again after revision. Do not cut a central concession merely to reach the number.

Paraphrase and coherence controls

- Change the sentence structure as well as isolated words.
- Retain technical terms where replacing them would reduce accuracy.
- Use indirect speech for a quoted claim.
- Keep the author's order unless rearrangement clearly improves logic.
- Link units with logical connectors: *however, therefore, consequently, although*.
- Do not add opinion, an example, a moral or a title that the instruction forbids.

Title-instruction variants

Instruction	Action
"Do not give a title"	Write no heading at all.
"Do not give or suggest a title"	Write no heading and do not embed a title-like label.
"Give a suitable title"	Supply a short, accurate organising phrase after drafting; do not spend words on ornament.
No title instruction	Follow the exact paper wording; do not assume a title is rewarded.

5. Worked precis: idea units, proportion and concession

Source passage

Online meetings have made it easier for organisations to assemble people who live far apart. They can reduce travel, allow a specialist to join briefly and create a written record of decisions. These advantages explain why a video link is now often treated as a complete substitute for physical presence.

That conclusion is too simple. A meeting does more than transmit information. Participants notice hesitation, continue a discussion after the formal agenda and form informal relationships that make later cooperation easier. Digital meetings can reproduce some of these functions, especially when participants already know one another and the task is narrowly defined. They are less reliable when a group must build trust, settle a sensitive disagreement or learn a complex skill together.

The choice should therefore depend on the purpose rather than on fashion. Organisations should use online meetings for routine coordination, while protecting occasional in-person work for tasks requiring trust, observation and sustained collaboration. The goal is not to reject technology, but to use it without pretending that all forms of presence are identical.

Idea-unit map

Unit	Retain in model
Online meetings widen access and reduce travel	Yes
They are often treated as a full substitute	Yes
Meetings also build trust and informal cooperation	Yes
Digital works for known groups/narrow tasks but not all tasks	Yes, as concession
Purpose-based mixed use is the verdict	Yes

Model precis

Online meetings reduce travel and widen access, so they are often treated as substitutes for physical meetings. However, meetings build trust and informal cooperation. Digital formats suit known groups handling limited tasks but are less dependable for disputes, complex learning or new relationships. Organisations should choose the format by purpose, retaining in-person work where collaboration and trust are essential.

Practice count: source 175 words -> one-third target about 58 words -> model 59 words. This illustrates the required recount after drafting.

6. Self-check rubric

Criterion	Question
Fidelity	Did I preserve the author's meaning and qualification?
Coverage	Are all major idea units and the conclusion present?
Compression	Is the final count near the calculated target?
Independence	Have I rewritten structure and wording where possible?
Coherence	Does it read as connected prose rather than notes?
Correctness	Are grammar, punctuation and title instructions accurate?

Semantic-completeness closure - 2026-09-06

Literal syllabus, ownership and boundary

- **Syllabus demand:** Comprehension of given passages and Precis Writing.
- **Canonical ownership:** Owns passage-only comprehension, literal/inferential/tone/purpose/reference/context-vocabulary answers, multipart allocation, precis idea mapping, compression, paraphrase, fidelity, coherence and instruction compliance.
- **Cross-topic boundary:** Vocabulary form belongs to Topic 04 and sentence correction to Topic 05; Topic 06 applies those skills to supplied prose and does not import outside facts.

Complete learner and answer route

1. **Read the command:** Identify literal, inference, tone, purpose, reference, context meaning or multipart demand.
2. **Map the passage:** Mark thesis, reasons, examples, contrasts, qualifications and conclusion.
3. **Locate support:** Tie each answer to explicit words or a minimally extended inference.
4. **Control scope:** Reject outside knowledge, overstatement, reversal and half-true options.
5. **Answer multipart questions:** List every limb and allocate space before drafting.
6. **Calibrate tone and purpose:** Name stance and function, then support both.

7. **Precis ratio:** Calculate the instructed target and recount after revision.
8. **Idea-unit selection:** Keep thesis, major reasons, concessions and verdict; remove illustration and repetition.
9. **Paraphrase:** Change structure and wording without changing technical meaning.
10. **Coherence and indirect style:** Connect idea units as independent prose and convert quoted claims where needed.
11. **Title instruction:** Obey give-title, no-title or no-suggest-title wording literally.
12. **Final fidelity audit:** Check coverage, compression, independence, coherence, correctness and zero added opinion.

Authority, variation and hostile-query gate

Every comprehension answer must cite or paraphrase passage support. Every precis must preserve thesis, main reasons, concession and conclusion, add no opinion, obey title instructions and record source-target-final counts.

The review checked the local official UPSC compulsory-English papers listed in README .md, the repository's verbatim syllabus, the subject-wide solved package, and standard public usage references recorded in the learner successor. It explicitly stress-tested: **literal; inference; tone; purpose; reference; idea unit; one-third; fidelity**.

Prefer plain contemporary formal English. Where more than one standard form is legitimate, state the variation and select a conservative examination form only as a risk-control choice; do not falsely label the alternative ungrammatical.

Progressive practice and timed-paper transfer

1. Foundation: identify the demand and state the governing rule in plain language.
2. Controlled application: correct or construct one sentence and explain the change.
3. Passage/paragraph transfer: preserve meaning, reference, register and logical relation.
4. Hostile test: reject a close option that is grammatical in another meaning or variety.
5. Timed execution: answer, verify, classify the error, and retry a fresh item.

BASIC MCQS / REMEDIATION

Diagnostic and core set

Q1. Foundation rule - literal: Which statement is safest and most accurate for formal examination English?

A. Answer a literal question from the passage's explicit statement. B. Replace it with outside knowledge. C. Copy the whole passage. D. Add an unsupported cause.

Correct answer: A. The correct option states the governing rule without changing meaning or inventing an absolute.

Q2. Foundation rule - inference: Which statement is safest and most accurate for formal examination English?

A. Choose any plausible opinion. B. Choose the least extended conclusion supported by the textual clues. C. Treat possibility as certainty. D. Reverse the author's qualification.

Correct answer: B. The correct option states the governing rule without changing meaning or inventing an absolute.

Q3. Foundation rule - tone: Which statement is safest and most accurate for formal examination English?

A. Name the topic instead of the tone. B. Use sad for every serious passage. C. Name a precise stance and support it with language or idea signals. D. Give no evidence.

Correct answer: C. The correct option states the governing rule without changing meaning or inventing an absolute.

Q4. Foundation rule - purpose: Which statement is safest and most accurate for formal examination English?

A. Retell the example only. B. Guess the author's biography. C. Import a policy recommendation. D. Explain what an example or contrast does in the argument.

Correct answer: D. The correct option states the governing rule without changing meaning or inventing an absolute.

Q5. Foundation rule - reference: Which statement is safest and most accurate for formal examination English?

A. Resolve a pronoun to the nearest logical antecedent that preserves meaning. B. Choose the nearest noun mechanically. C. Ignore sentence logic. D. Treat every this as the whole world.

Correct answer: A. The correct option states the governing rule without changing meaning or inventing an absolute.

Q6. Foundation rule - multipart: Which statement is safest and most accurate for formal examination English?

A. Answer only the first noun phrase. B. Answer every requested limb and allocate space before drafting. C. Merge unrelated limbs vaguely. D. Spend all marks on background.

Correct answer: B. The correct option states the governing rule without changing meaning or inventing an absolute.

Q7. Foundation rule - scope: Which statement is safest and most accurate for formal examination English?

A. Stronger wording is always better. B. Outside facts can repair scope. C. Reject options that exaggerate some into all, may into must or criticism into rejection. D. A half-true option is fully correct.

Correct answer: C. The correct option states the governing rule without changing meaning or inventing an absolute.

Q8. Foundation rule - ratio: Which statement is safest and most accurate for formal examination English?

A. Assume a fixed 100 words. B. Count the title even when excluded. C. Ignore the paper's stated ratio. D. Calculate the instructed precis target from the source count and recount the final draft.

Correct answer: D. The correct option states the governing rule without changing meaning or inventing an absolute.

Q9. Foundation rule - idea units: Which statement is safest and most accurate for formal examination English?

A. Keep thesis, major reasons, material concession and conclusion. B. Keep every illustration. C. Delete the concession first. D. Preserve repeated wording instead of argument.

Correct answer: A. The correct option states the governing rule without changing meaning or inventing an absolute.

Q10. Foundation rule - paraphrase: Which statement is safest and most accurate for formal examination English?

A. Replace every word with a remote synonym. B. Change structure and wording while retaining necessary technical terms. C. Copy complete sentences. D. Add an example to improve interest.

Correct answer: B. The correct option states the governing rule without changing meaning or inventing an absolute.

Q11. Foundation rule - coherence: Which statement is safest and most accurate for formal examination English?

A. Submit telegraphic notes. B. Preserve dialogue without conversion. C. Write connected independent prose with logical links. D. Reorder ideas randomly.

Correct answer: C. The correct option states the governing rule without changing meaning or inventing an absolute.

Q12. Foundation rule - title instruction: Which statement is safest and most accurate for formal examination English?

A. Always supply a clever title. B. Always omit a title. C. Treat instructions as optional. D. Obey the exact title or no-title instruction literally.

Correct answer: D. The correct option states the governing rule without changing meaning or inventing an absolute.

Q13. Editing decision - literal: Which statement is safest and most accurate for formal examination English?

A. Answer a literal question from the passage's explicit statement. B. Replace it with outside knowledge. C. Copy the whole passage. D. Add an unsupported cause.

Correct answer: A. The correct option states the governing rule without changing meaning or inventing an absolute.

Q14. Editing decision - inference: Which statement is safest and most accurate for formal examination English?

A. Choose any plausible opinion. B. Choose the least extended conclusion supported by the textual clues. C. Treat possibility as certainty. D. Reverse the author's qualification.

Correct answer: B. The correct option states the governing rule without changing meaning or inventing an absolute.

Q15. Editing decision - tone: Which statement is safest and most accurate for formal examination English?

A. Name the topic instead of the tone. B. Use sad for every serious passage. C. Name a precise stance and support it with language or idea signals. D. Give no evidence.

Correct answer: C. The correct option states the governing rule without changing meaning or inventing an absolute.

Q16. Editing decision - purpose: Which statement is safest and most accurate for formal examination English?

A. Retell the example only. B. Guess the author's biography. C. Import a policy recommendation. D. Explain what an example or contrast does in the argument.

Correct answer: D. The correct option states the governing rule without changing meaning or inventing an absolute.

Progressive transfer exercises with model answers

Transfer 1. Passage claim: "A dashboard may record closure without repair." What is the author's distinction?

Model answer: Administrative disposal is not the same as solving the underlying service problem.

Transfer 2. Why is "The author dislikes technology" an unsafe inference from a passage that criticises one metric?

Model answer: It exceeds the passage's scope; criticism of a metric does not entail rejection of technology.

Transfer 3. Give a tone answer with evidence for a passage that concedes benefits but warns of hidden costs.

Model answer: The tone is cautious and qualified: it acknowledges benefits while warning that costs may be concealed.

Transfer 4. Resolve "this" in: "The office published disposal counts. This encouraged superficial closure."

Model answer: This refers to publishing or rewarding disposal counts, not merely to the office.

Transfer 5. For a 360-word source at one-third, calculate the target.

Model answer: About 120 words, subject to the paper's exact instruction.

Transfer 6. State the four indispensable precis units.

Model answer: Thesis, major reasoning/mechanisms, material concession and conclusion/recommendation.

Transfer 7. Apply a no-title instruction.

Model answer: Write the precis directly without a heading or title-like label.

Transfer 8. Fidelity check: may a precis add a contemporary example not in the source?

Model answer: No. A precis must not add outside examples or opinion.

Remediation protocol

1. State the rule or passage evidence before looking at the options.
2. Explain why each close distractor fails in this context.
3. Record accepted variation separately from genuine error.
4. Rewrite one fresh sentence or paragraph using the same principle.
5. Advance only after two consecutive correct timed attempts.

PYQS AND ANSWER PRACTICE

Verified local official-paper demand ledger

Year	Local official paper	Demand routed to this topic	Provenance status
2018	books\more_previous_papers\ENGLISH-COMP_00.pdf	comprehension plus one-third precis with explicit no-title instruction	locally extracted and visually reconciled where required

Timed hostile set

Q33. Timed-paper choice - idea units: Which statement is safest and most accurate for formal examination English?

A. Keep thesis, major reasons, material concession and conclusion. B. Keep every illustration. C. Delete the concession first. D. Preserve repeated wording instead of argument.

Correct answer: A. The correct option states the governing rule without changing meaning or inventing an absolute.

Q34. Timed-paper choice - paraphrase: Which statement is safest and most accurate for formal examination English?

A. Replace every word with a remote synonym. B. Change structure and wording while retaining necessary technical terms. C. Copy complete sentences. D. Add an example to improve interest.

Correct answer: B. The correct option states the governing rule without changing meaning or inventing an absolute.

Q35. Timed-paper choice - coherence: Which statement is safest and most accurate for formal examination English?

A. Submit telegraphic notes. B. Preserve dialogue without conversion. C. Write connected independent prose with logical links. D. Reorder ideas randomly.

Correct answer: C. The correct option states the governing rule without changing meaning or inventing an absolute.

Q36. Timed-paper choice - title instruction: Which statement is safest and most accurate for formal examination English?

A. Always supply a clever title. B. Always omit a title. C. Treat instructions as optional. D. Obey the exact title or no-title instruction literally.

Correct answer: D. The correct option states the governing rule without changing meaning or inventing an absolute.

Q37. Hostile variation check - literal: Which statement is safest and most accurate for formal examination English?

A. Answer a literal question from the passage's explicit statement. B. Replace it with outside knowledge. C. Copy the whole passage. D. Add an unsupported cause.

Correct answer: A. The correct option states the governing rule without changing meaning or inventing an absolute.

Q38. Hostile variation check - inference: Which statement is safest and most accurate for formal examination English?

A. Choose any plausible opinion. B. Choose the least extended conclusion supported by the textual clues. C. Treat possibility as certainty. D. Reverse the author's qualification.

Correct answer: B. The correct option states the governing rule without changing meaning or inventing an absolute.

Q39. Hostile variation check - tone: Which statement is safest and most accurate for formal examination English?

A. Name the topic instead of the tone. B. Use sad for every serious passage. C. Name a precise stance and support it with language or idea signals. D. Give no evidence.

Correct answer: C. The correct option states the governing rule without changing meaning or inventing an absolute.

Q40. Hostile variation check - purpose: Which statement is safest and most accurate for formal examination English?

A. Retell the example only. B. Guess the author's biography. C. Import a policy recommendation. D. Explain what an example or contrast does in the argument.

Correct answer: D. The correct option states the governing rule without changing meaning or inventing an absolute.

OPTIONAL ADVANCED DEPTH - NOT REQUIRED FOR A CORE ANSWER

Register-sensitive refinements

- A defensible inference is the least extended conclusion supported by the text, not merely a plausible real-world claim.
- Tone labels need evidence; *critical but qualified* is stronger than a vague emotional label.
- Compression is not sentence deletion. A precis must reconstruct the argument in connected prose.
- Technical terms may be retained where substitution would reduce accuracy; independent wording does not require awkward synonym replacement.

Adversarial checks

Test pronoun reference across sentences, concessions hidden after *yet/while*, examples carrying an irreplaceable distinction, source counts with hyphenated words, quoted speech requiring indirect style, and instructions explicitly forbidding a title.

CONSOLIDATED REGISTER NOTES

Rapid reconstruction spine

- **Read the command:** Identify literal, inference, tone, purpose, reference, context meaning or multipart demand.
- **Map the passage:** Mark thesis, reasons, examples, contrasts, qualifications and conclusion.
- **Locate support:** Tie each answer to explicit words or a minimally extended inference.
- **Control scope:** Reject outside knowledge, overstatement, reversal and half-true options.
- **Answer multipart questions:** List every limb and allocate space before drafting.
- **Calibrate tone and purpose:** Name stance and function, then support both.
- **Precis ratio:** Calculate the instructed target and recount after revision.
- **Idea-unit selection:** Keep thesis, major reasons, concessions and verdict; remove illustration and repetition.
- **Paraphrase:** Change structure and wording without changing technical meaning.
- **Coherence and indirect style:** Connect idea units as independent prose and convert quoted claims where needed.
- **Title instruction:** Obey give-title, no-title or no-suggest-title wording literally.
- **Final fidelity audit:** Check coverage, compression, independence, coherence, correctness and zero added opinion.

Ownership, variation and answer firewall

- **Own here:** Owns passage-only comprehension, literal/inferential/tone/purpose/reference/context-vocabulary answers, multipart allocation, precis idea mapping, compression, paraphrase, fidelity, coherence and instruction compliance.
- **Route elsewhere:** Vocabulary form belongs to Topic 04 and sentence correction to Topic 05; Topic 06 applies those skills to supplied prose and does not import outside facts.
- **Verification rule:** Every comprehension answer must cite or paraphrase passage support. Every precis must preserve thesis, main reasons, concession and conclusion, add no opinion, obey title instructions and record source-target-final counts.
- Prefer the smallest defensible correction; preserve meaning and label accepted variants.
- In passage work, cite the text. In precis, add nothing. In essays, invent no quotation or statistic.

Timed-paper spine

READ DEMAND -> MAP STRUCTURE -> APPLY RULE -> CHECK MEANING -> FLAG VARIATION -> REVISE
