PYQ DEMAND CARD 1 - 2019 GS-I · 15 marks

Demand: Explain how the American and French Revolutions contributed to the foundations of the modern world.

Status: Verified neutral demand from the local routed owner; cross-cutting with Topic 03.

Model solution: The American Revolution supplied the constitutional method: a rights-based break with empire, a written federal republic and entrenched liberties. Saratoga and the French alliance also showed how local resistance could exploit great-power rivalry. Its social settlement remained limited because slavery, property restrictions and Native dispossession survived. France supplied the deeper social content through the destruction of privilege, citizenship and popular sovereignty. Together they made inherited authority answerable to rights, constitutions and the nation, without immediately making those principles universal.

Demand decoding: The directive **answer** requires a direct position on “PYQ DEMAND CARD 1 - 2019 GS-I · 15 marks”, every clause and time boundary, chronological-causal organisation, named evidence, a counter-position and a qualified global verdict.

Detailed examiner-grade model status: The solved content above is the executable answer base. Preserve its thesis, named chronology, spatial evidence, causal mechanism, counter-position and qualification rather than replacing it with a generic narrative.

Executable exam-length answer / compression plan: For a 15-mark answer, open with a two-sentence thesis and a spatial-temporal frame; organise five named events, treaties, actors, regions, institutions or attributed interpretations as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded conclusion.

Why this earns marks: The answer obeys the directive, distinguishes structure, trigger and outcome, connects evidence to mechanism, includes non-European agency and avoids teleology, presentism and monocausal explanation.

How to improve this answer: For “PYQ DEMAND CARD 1 - 2019 GS-I · 15 marks”, replace the weakest generalisation with one additional named treaty, regional case, primary record or attributed scholarly position and state what that evidence cannot prove.

Question: Why did taxation become a constitutional issue in the American colonies? Answer in about 150 words.

Model thesis: The dispute concerned legislative authority and consent, not merely the size of a tax, because established assemblies claimed the right to represent colonial taxpayers.

Claim -> named evidence -> analysis -> qualification:

- The Seven Years' War ended in 1763, after which British war debt encouraged tighter taxation, regulation and troop deployment in the thirteen colonies.
- The Stamp Act of 1765 turned taxation without colonial representation into a constitutional dispute over who could tax and legislate.
- Existing colonial assemblies gave resistance an institutional base, but these assemblies were elite bodies rather than organs of universal democracy.

Qualified conclusion: The dispute concerned legislative authority and consent, not merely the size of a tax, because established assemblies claimed the right to represent colonial taxpayers.

Demand decoding: The directive **answer** requires a direct position on “Why did taxation become a constitutional issue in the American colonies?
