Question: Why did the 1911 Revolution fail to stabilise China? Answer in about 150 words.

Model thesis: It removed a dynasty without building institutions capable of controlling Yuan or provincial military rulers.

Claim -> named evidence -> analysis -> qualification:

- Opium Wars, concessions and Japanese victories weakened Qing dynasty authority and turned dynastic collapse into a legitimacy crisis.
- The 1911 Revolution ended the Manchu dynasty but Yuan Shikai converted republican change into military dictatorship.
- After Yuan, provincial military rulers fought while central authority remained weak, making state-building the central political problem.

Qualified conclusion: It removed a dynasty without building institutions capable of controlling Yuan or provincial military rulers.

Demand decoding: The directive **answer** requires a direct position on “Why did the 1911 Revolution fail to stabilise China? Answer in about 150 words.”, every clause and time boundary, chronological-causal organisation, named evidence, a counter-position and a qualified global verdict.

Detailed examiner-grade model status: The solved content above is the executable answer base. Preserve its thesis, named chronology, spatial evidence, causal mechanism, counter-position and qualification rather than replacing it with a generic narrative.

Executable exam-length answer / compression plan: For a 10-mark answer, open with a two-sentence thesis and a spatial-temporal frame; organise three named events, treaties, actors, regions, institutions or attributed interpretations as claim -> evidence -> analysis -> qualification; reserve the final lines for a graded conclusion.

Why this earns marks: The answer obeys the directive, distinguishes structure, trigger and outcome, connects evidence to mechanism, includes non-European agency and avoids teleology, presentism and monocausal explanation.

How to improve this answer: For “Why did the 1911 Revolution fail to stabilise China? Answer in about 150 words.”, replace the weakest generalisation with one additional named treaty, regional case, primary record or attributed scholarly position and state what that evidence cannot prove.
