• LAYER 3 - ADVANCED Advanced proof burden and cognition model Sāmkhya reduces comparison.

ADVANCED OBJECTION

• postulation, non-apprehension and tradition to its three accepted means of valid knowledge (pramānas).

• This economy creates a burden: Imperceptible Primordial material nature (prakṛti) and Conscious witness (puruṣa) cannot simply be asserted.

• Samanyato-dṛṣṭa inference must reach entities never presented as ordinary sense-objects.

• Carvaka attacks the unobserved universal relation, while Nyaya grants inference but proposes atoms and Lord (īśvara) as a more economical explanation.

COMPARATIVE NUANCE

• Sāmkhya replies that material continuity, guṇa-patterns and the objectifiability of

• experience jointly require one material root and a distinct witness.

• Empirical cognition occurs through the inner instrument.

• Sensory mind (manas) coordinates, ego-maker (ahaṅkāra) appropriates and determinative intellect (buddhi) determines.
