REASON IN RELIGION □

CONTEXT + EXACT CORE

Role (2024 PYQ): reason (a) constructs natural theology (proofs for God), (b) tests coherence of doctrines, (c) interprets scripture, (d) defends faith (apologetics). □

MECHANISM / ARGUMENT

04

THE FOUR STANCES — comparison □□

CONTEXT + EXACT CORE

□ Aquinas is the balanced default: reason & revelation cannot conflict (both from God); reason proves the preambles, revelation supplies the mysteries; faith is intellectual assent under grace.

MECHANISM / ARGUMENT

Recommended opening definition: The reason-faith debate concerns whether evidence, trust or distinct sources should govern religious assent.

CONSEQUENCE / CONTRAST

Core argument/criticism: Rationalism risks reducing faith to proof, fideism risks arbitrariness, while harmony and two-source theories preserve rational scrutiny without collapsing mystery into demonstration.

UPSC TRAP / ANSWER USE

Final verdict: Aquinas offers the most balanced model when reason establishes preambles and faith assents to mysteries that exceed but do not contradict reason.
