

Infrastructure, PPPs, Logistics and Public Investment

Economy Topic 18 | Current-source cutoff: 9 September 2026

01 SERVICE SPINE

- Need and alternatives
 - Appraise and prepare
 - Finance and build
 - Connect, operate, maintain
 - Measure user outcome
- > mechanism -> evidence -> qualification

02 ECONOMIC LOGIC

- Natural monopoly
- Network externality
- Public/merit benefit
- Crowding-in and costs
- Independent regulation

03 PUBLIC CAPEX

- FY27 BE Rs 12.2 lakh crore
- BE != Actual
- Multiplier is conditional
- Capacity and maintenance
- Service scorecard

04 PPP DEFINITION

- Fixed-term service contract
- Performance standards
- Risk allocation
- PPP != privatisation
- Users/taxpayers fund service

05 MODEL MAP

- EPC baseline
 - BOT Toll/Annuity
 - DBFOT and HAM
 - OMT and TOT
 - Lease/concession
- > mechanism -> evidence -> qualification

06 PROJECT CYCLE

- Need and appraisal
- Readiness and bid
- Financial close
- Construction/O&M
- Handback/termination

07 PPP SUPPORT

- VGF viability grant
- IIPDF preparation
- PPPAC appraisal
- Contingent-liability disclosure
- Transparent renegotiation

08 RISK TABLE

- Construction and demand
- Land and regulation
- Currency/refinancing
- Force majeure
- Allocate to best manager

09 FINANCE STACK

- Public capex/banks
- Bonds/takeout
- InvIT
- NIIF equity
- NaBFID long-term debt

10 PIPELINES/MONETISATION

- NIP historical FY20-FY25
 - Current PPP pipeline
 - NMP 2.0 FY26-FY30
 - Potential != proceeds
 - Brownfield != privatisation
- > mechanism -> evidence -> qualification

11 LOGISTICS SYSTEM

- GatiShakti GIS planning
- NLP process reform
- ULIP/LEADS data
- Modes/terminals/warehousing
- Cost method and reliability

12 ANSWER ENGINE

- Date every number
- Stage every project
- Claim -> evidence -> analysis -> qualification
- Lifecycle value and fiscal risk
- Energy detail -> Topic 31

EXAM RULE

Date every number. Separate pipeline, award, finance, completion and service. Compare lifecycle value and fiscal risk.
